THREE KINDS OF LOVE BY KAY CLEVER STRAHAN

BEGIN HERE TODAY

Ann and Cecily Fenwick have for years supported themselves, their younger sister, Mary-Frances, and their grandparents, known as "Rosalie" and "Grand." Because of this financial responsibility, Ann, who is 28, is unable to marry Phil Scroed, to whom she has been engaged for eight years. Cecily, 22, loves Barry McKee, but when he proposes she refuses to name their wedding date for the same reason. Mary-Frances, 15, and still in school, believes herself in love with Earl De Armonth, vaudeville actor whom she has met without the knowledge of her sisters. He urges her to leave home and become his stage partner. Ann and Phil quarrel when she hears the ring, we works in Phil's office building, address him with endearments. Ann tries to forget Phil by going about with Kenneth Smith, rich and attentive, but when Smith asks her to marry him she refuses. Mary-Frances agrees to go away with De Armonth. They set out in his car. The same day Cecily quarrels with her grandfather. She comes home with news that she and Barry are to be married that evening. Ann discovers Mary-Frances is married to Earl De Armonth. A search is begun. Phil Scroed comes to help. Ann is nearly frantic until Mary-Frances returns home, explaining she became hungry and De Armonth refused to buy her a meal. Phil begs Ann to renew their engagement but she refuses. NOW GO ON WITH THE STORY CHAPTER XLVII

plans didn't work out this one evening. Are we?" "What is it, dear? We've been frightened—horribly. Well, that's over with. Just now we are both of us unmanly with disappointment. But that will pass, too; and be over with." "Surely it will. And then we can begin making other plans." "No." "Darling—you're getting into a habit. Can't you say, 'Yes, once or twice, for a change?'" "Yes. We could begin to plan and to wait. We could. But you haven't lived here and watched Ann and Phil as I have for years. I wouldn't do that to you, Barry. And I wouldn't allow you to do it to me. And there's your writing. I remember what you said about that today—how the uncertainty affected it." "Perhaps I was trying to bluff you, sweet." "No, you weren't." "No, I wasn't. But if we were engaged, I needn't be uncertain. Let's put romancing aside and be practically and conventionally engaged, for a short time at least, and—"

Fort Worth Cats Have 12 Veterans On 1932 Roster

(Editor's Note: This is the first of a series of United Press stories on Texas League baseball clubs and their prospects for the 1932 season.)

FORT WORTH—Thirty-three players, including 12 veterans of last year, will report to the Fort Worth baseball club March 15 for spring training trials. Roy Meehan, secretary of the Panther team, said contracts will be mailed soon to 14 pitchers, four catchers, nine infielders and six outfielders. The list of tryouts includes 19 non-class men who will fight for the six rookie places required on the team.

Dick McCabe, veteran right-handed pitcher, who replaces Art Phelan as manager, will have back for mound duty besides himself Richard Whitworth, Bill Terry, Andy Bednar and Lil Stoner. Whitworth had another good year in 1931. Bednar was with Galveston part of the year. Stoner was largely instrumental in Fort Worth being up in the fight most of the way.

Rookie pitchers who will report for trials include Harry White of Monroe, La.; Sherman Jones, a semi-pro hurler; C. D. Pickrel, who played for Asheville last year; Milton Armour of Eldorado, Ark.; and Clarence Collier, Roy Mints, Leo Allen and C. Roberts, all semi-pro men. Pat Moulton, right-hander, has been secured from Shreveport.

There is not a single left-hander among the 14 pitchers. Meehan declares there are several trades yet to be made, and some of these most certainly will be for south-paws.

The four catchers include Adolph Krauss from last year's club; William Steinecke, bought from Birmingham, N. Y.; and two non-class rookies, Joe Brown from Beaver Falls and Clyde Graham, semi-pro lad from Dallas. Krauss will be regular receiver. The Panthers probably will obtain another veteran backstop before the season gets under way.

Charlie Engle, half-pint short-stop, and Jimmy Paulymp, second baseman, will be back at their old positions. Elmont Baker and Paul Gribble return for third base and utility positions. Other infield tryouts will be John Wingfield, George Chervinko, Paul McLeod and Aubrey Myers. The latter two are semi-pro players.

Eddie Moore, Carl Frey, Parker Perry and Pete McClanahan are the two returning outfielders. All played with Fort Worth last year. Frey was bought in mid-season, when Moore faltered.

Virgil Gilliland, who formerly played football for Baylor, and who feints to the Cats, will receive a contract, and so will James Rimmer, a non-class man from Huntington.

Meehan hinted that pending deals might strengthen the outfield. Meehan is hopeful for the 1932 season. He said: "Keener competition, even balanced clubs, fight, hustle and the winning spirit on the part of the players will do much to add to the old time clicking of the turnstiles."

Special Venire Is Summoned For Sharp Murder Case

SANDERSON, Texas.—A special venire of 100 has been summoned for the selection of a jury Monday to try Mrs. Beasie Sharp, 20, on charges of fatally poisoning her husband to marry her lover. Several hundred persons from a wide area are expected to attend the trial. District Attorney Julian LaCrosse will head the prosecution, R. F. Spencer and C. F. Stratton, San Antonio, will defend Mrs. Sharp.

The case was continued from the July term of court at which Mrs. Jack Ivey, mother of Mrs. Sharp sought futilely to have her tried for insanity. Mrs. Sharp has been in jail here since her indictment.

Following the death of her husband, Telefus Sharp, a Big Canyon ranch worker, Mrs. Sharp was arrested and signed a detailed five-page confession describing how

she ended his life by placing strychnine in some salts after failing in two earlier attempts. She said she wanted to be free to marry Willie Burleson, 23, another worker on the ranch. Mrs. Sharp is the mother of a 2-year-old child. Following her arrest Mrs. Sharp was removed to San Antonio to undergo an operation. She staged a brief hunger strike here when returned to Sanderson and denied bail. The continuance was granted in July on the grounds that 20 witnesses including several of importance were absent. Efforts will be made to have all of these available Monday.

Karnes county, Texas, ginned 28,312 bales of cotton prior to Dec. 13, 1931.

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

Three Kinds of Love

(Continued from page 3) Do not say tomorrow evening. I am not blaming you. I am not blaming Cecily. But I must remind you that days have elapsed in this hour when I have not been granted as much as a glance at either of you. It is my desire to speak with you both not tomorrow. Not the next day, nor the following week. Here and now. Do no force me, Ann, to frame my request as a command.

Cecily was standing alone in the hall, looking at the square of colored glass in the panels of the closed front door. Ann said, "Cissy, honey, I'm sorry, but I'm afraid we'll have to go back into the parlor. Something seems to be up. Goodness knows what. Grand is still furious, apparently. I am afraid we're in for a bad few minutes."

"Not I. I'm going straight to bed. I'll lock my door." "Well—" Ann said. "Ann! Are you going to march back in there and put up with— with more of that?" "I'll have to, for a minute. I'll cut it as short as I can."

"Of course, then, I'll have to come too. It isn't right of you, Ann. It isn't fair. You force me into things of this sort. You don't seem to realize what I've been through today. I won't— grumbling, scolding, threatening she went with Ann into the parlor.

There's one Right Size for Cigarette

● Examine various cigarettes, and you'll find they are not all alike in size. Yet our scientists say their tests and research fix one definite size standard as the best. For a given length, our experts say, there is one right diameter . . . to make the draft right . . . to make the cigarette burn right. Not only that, when the size is right, the cigarette lasts longer, and smokes cooler. And that "right" size is exactly the standard Chesterfield size. A detail? Of course—but a mighty important one, figured in extra coolness and comfort. It's by constant attention to just such details that Chesterfield sets cigarette standards. Notice how round and full each Chesterfield is—how firmly packed. There are two "electric detectives" on every packing machine, to check this detail also! The right size . . . and the right quality. Chesterfield never changes either one. Measure them any way you want—with ruler, microscope, or test-tube. Or measure them in the surest way of all—by milder and better taste. And you'll find—They Satisfy! Good, they've got to be good!

● Chesterfield's Radio Program is way above standard too! Let Nat Shilkret's Orchestra and Alex Gray, popular soloist entertain you tonight . . . while you lean back and enjoy a mild, pure Chesterfield. Remember the hour . . . 10:30 E. S. T. . . over the entire Columbia Network . . . from coast to coast.
