## COMMITTEE APPROVES AN OIL TARIFF Tornadoes Take Many Lives In United States

### PEEPING THRU THE KNOTHOLE

with BILL MAYES

Just 13 minutes in which to fill  
a column and not a thing to  
write about. However, we will do  
our best and will see what can be  
done in that 13 minutes.

### Says Mouthful

With a mouthful of molars at the  
tender age of 18 months, Rita  
McDonald of Kansas City, above,  
claims the bicuspid championship  
of the world. She challenges  
the claim of Paul Ristow,  
of Los Angeles, who boasted  
a full set of teeth at 20 months.  
Notice that disconcerted expres-  
sion? Cameraman just swiped  
Rita's apple.

### TENNESSEE AND ARKANSAS ARE VICTIMS

Heavy Loss of Lives Is Re-  
ported In Several  
Communities.

By United Press.  
MEMPHIS, Tenn., April 25.—  
A series of tornadoes struck the  
eastern part of Arkansas and  
western Tennessee today, leaving  
widespread property damage and  
heavy loss of life.

### Rothstein's Sweetheart "Calls"

Inez Norton, former sweetheart of the slain New York gambler, Arnold Rothstein, was "re-quested to call, voluntarily" by Police Chief William Quinn of San Francisco and is shown chatting with him above.

### FEE PROBE IN TEXAS STARTED BACK IN 1929

By GORDON K. SHEARER,  
United Press Staff Correspondent.  
AUSTIN, April 25.—Back in  
the early days of the 31st Texas  
legislature of 1929, State Senator  
Pink L. Parrish of Lubbock, clipped  
his hands for a senate page  
and sent to Lieut. Gov. Barry Miller's  
desk a senate concurrent  
resolution.

### Cowboy, Heiress Part in Haste

When Caroline Jackson Crittenden, Pittsburgh heiress, went to  
Tucson, Ariz., she was engaged to  
a Virginia University law student.  
In the west she met Paul Showalter,  
Tucson riding master, shown  
with her above. Within a fortnight  
they were married and three days  
later they were divorced. "She  
said my social status was a hindrance  
and that she loved another  
man," Showalter testified.

### VOTING CLOSE AT HEARING ON MEASURE

Copper and Coal Tariffs Are  
Also Passed, Lumber  
Bill Loses.

By United Press.  
WASHINGTON, April 25.—The  
senate finance committee begin-  
ning consideration of the house  
revenue bill after two weeks of  
hearing, voted in executive session  
today in favor of including tariff  
levies on coal, oil and copper.

Saturday night about 10 o'clock,  
we got through with our la-  
bor for the day, we went down to  
how Calvin Brown's paint  
demonstration was coming along  
I found Mr. McCoy still busy  
with vases, bottles, jugs or  
what have you. He said that he  
was due to leave Saturday night  
Sunday mornings, but he was  
wired to wire the home office that  
would have to stay over a day  
or two longer.

He still had several hundred  
feet of paint and there were still  
several people sitting up late—at  
it was late for us—to take  
the demonstration.

### Texas Products Are Sold In Foreign Lands

By United Press.  
DALLAS, April 25.—More than  
90 per cent of the cotton produced  
in Texas, 25 per cent of Texas-  
produced petroleum refined prod-  
ucts and substantial percentages  
of several other Texas commodities  
are sold in foreign countries.

### THURBER WINS GOLF MATCH WITH RANGER

The Thurber golfers defeated  
Ranger in the play-off of the 12  
to 12 tie of March 27, which was  
played on the Ranger course Sun-  
day afternoon, by a score of 13 to  
12.

### GUARDSMEN HOLD SPRING SHOOT SUNDAY

Members of Company I, Texas  
National Guard, indulged in the  
annual spring practice on the  
ranger rifle range Sunday morning,  
firing over course "D," 20 yards,  
slow fire, prone.

### GOOD SCORES MADE SUNDAY BY SHOOTERS

A small crowd attended the  
shoot at the Ranger rifle range  
Sunday afternoon, but good scores  
were turned in by most of those  
taking part in the shoot.

### Another Ranger Landmark Being Removed Today

Another old landmark of Ranger  
was being razed Monday.

### OFFICER FIRES ON THIEVES IN RANGERSUNDAY

Charlie Hodges, special night  
watchman for the wholesale gro-  
cery district of Ranger, engaged  
in another gun battle with thieves  
attempting to rob the Waples-Plat-  
ter Grocery company Sunday  
night.

Hodges saw two men trying to  
enter the door of the warehouse  
of the grocery company and open-  
ed fire with a double-barrel shot-  
gun, loaded with buckshot. One  
man fell, but regained his feet and  
both fled. Hodges said today that  
he thought he had hit one of the  
men, but was unable to say for  
certain whether he had been shot  
or not.

Several weeks ago Hodges sur-  
prised a group of men trying to  
rob the grocery and opened fire.  
The thieves returned the fire, one  
shot going through the watchman's  
coat on the left side.

### Sixteen Killed By Violent Deaths Over Week-End

### First Panhandle Judge Is Dead

WHEELER, Texas, April 25.—  
Ben Emanuel Dubs, 80 years old,  
the Texas Panhandle country's  
first county judge, died Sunday at  
Milford, Ind., according to word  
received here today.

Looking over the office we can  
predict that there will be more  
colored cases in Ranger  
in any town its size in this neck  
of the woods, because it looked  
like there were enough on hand to  
see at least one in every house  
in the city with a few left over.

As the two men fled down  
the railway tracks Hodges pulled  
his revolver and fired several shots  
at them as they ran. In the darkness  
he could not tell whether the men  
were out of range of his shots or  
not.

Mr. Mackey will visit every  
town and city on the Broadway be-  
tween El Paso and New York and  
will make arrangements for the  
return trip of the motorcade.

**OSCAR COOPER—'FLOWERS FOR THE LIVING'**

Oscar Cooper of Abilene is a University of Texas visitor. He is known personally to the faculty and the student body. He has an acquaintance Texas over that is not astounding or amazing to one who knows his record and his history and his public service in the educational field of Texas. In the recent past the man with the scythe mowed down many of the foremost educators of the state. Like an oak in the forest Oscar Cooper remains with eyes that sparkle as ever, with a brain that never fags, with a hand-clasp that is as gripping as of old, and with absolute faith in the fundamentals of government and the future of the republic.

A remarkable man is Oscar Cooper, not of Abilene but of all Texas. A most beloved man is Oscar Cooper. He passed his 80th milestone just the other day and his personal physicians gave him the acid test. That is, they put him through the clinic. When the wise medics had returned their findings, their chief said: "Old friend, you are sound in wind and limb and heart and brain, and the best we can do for you is to predict a busy 25 years to come.

Plain living, plenty of exercise, plain talking, intelligent thinking, ever consideration for the rights of others are high points in the record of this remarkable Texan who has been on the firing line of endeavor under the skies of the Southwest for more than 60 years. Moreover the story of his achievements in his chosen field would furnish copy for a large sized volume. He has witnessed the passing of statesmen who were giants, educators who were builders of a high order, and yet remains in the land of the living a student and a thinker and a man of affairs as he was reckoned years and years ago. Flowers for the living should be much more appreciated than flowers on the bier of a valued citizen when he is coffined clay and this bunch of Texas bluebonnets is passed on to Oscar Cooper, ideal citizen and worker in this vale of tears in order that the scent of the blossoms may touch his nostrils while he remains on earth.

**LOW COST OF HIGH LIVING**

Mayor Rolland B. Marvin of Syracuse, N. Y., is giving the acid test to the cheap meals served to the poor of the city. He had been told that breakfast and lunch and dinner served cost the city 9 cents for a day. Now he will try it out. He has an alibi. He says he does not want to give the people of his city food he would not choose. Hence, he will note the effect it has on the mayor of the city and judge whether it is sufficient. If it is possible to subsist and grow fat on 9 cents a day, why work?

**WHERE MILLIONS ARE NEEDED TO FEED THE HUNGRY**

And now the Illinois emergency relief committee has let it be known that it has need of \$20,000,000 more to aid unemployed in the state up to March, 1933. Illinois lawmakers appropriated \$18,750,000 last February to feed the hungry. Now the commission has spent \$10,000,000, and the heads of the organization are asking for another \$20,000,000 appropriation from the state or that wealthy individuals go down in their pockets and dig until their pockets are light. Illinois was a great industrial state. Now if the relief chiefs have their hats on straight, there is a large army out of employment and they have not been fed at the Syracuse rate of 9 cents a day for three meals.

**MACHINE TAX STATUTE HELD VALID**

An act of the 42nd legislature imposed an occupation tax on all persons engaged in the business as owners or exhibitors of coin vending machines. Now, the court of criminal appeals holds that the legislature had authority to classify occupation taxes and make exemptions. Claim was made that the clause exempting pay telephones and gas meters offends against the requirement that the tax shall be equal and uniform on the same class of subjects. This exemption, the court held, was not unlawful discrimination. Lawmakers enact; high courts interpret.

**A PRO BLAST AGAINST PHYSICIANS**

President Hoover has very interesting calls daily. Miss Vida Millholland of New York is a member of the women's committee for law enforcement. She was one of the dozen that escorted their president to the White House. She was one of the spokesmen. This is the message she delivered to the president: "The medical profession is one of the most honorable in the world but facts prove that some of its members are no more capable of withstanding the bootlegger's bribe than individuals of other professions and to exempt doctors any further from obedience to the 18th amendment to give a dangerous outlet to the outlawed liquor traffic."

Miss Vida did not submit her evidence. She made a speech; that's all. All this is a reminder that 15,000 pints of whisky were prescribed for the sick in the city of Fort Worth in a single year. It is said that the minimum price paid per pint was \$7. Furthermore it is said that government distillers make an excellent article or brand of liquor at the fixed price of \$2.50. It will be observed there is no revenue for the government. Why?

**DE VALERA FACE TO FACE WITH A CRISIS**

President Edward de Valera of the Irish Free State is American born and a naturalized citizen of the Free State commonwealth. He got past the first legislative barricade with his proposal to scrap the oath of allegiance to the British crown. He has a long road to travel. He found a fiery opponent to his measure in Lawmaker Frank McDermott who not only scorched the proposal but its sponsor. McDermott knows something of American affairs. He was a member of a prominent Wall Street firm for 10 years. He is for upholding the Irish-British treaty as it was written. He paid his respects to the American-born president who is ready to plunge his people into war and misery and all to gratify his personal spleen or his personal ambition. This former American financier who is opposed to the scrapping act insisted that the Free State was bound to retain the oath as well as to continue payment of land annuities. Now the Free Staters have had peace and prosperity for 12 years. Why should an American adventurer be permitted to cast a monkey wrench into the modern machinery of the Irish Free State government and its people?

**Puzzle! Find the man Who's Talking Through His Hat!**

**— THIS CURIOUS WORLD —**

THE Indians preferred almost any other form of death to that of being strangled. Since the red men thought that the soul took flight through the mouth, strangulation, they believed, would force the soul to remain on earth with the body instead of entering the warrior's heaven.

EROSION goes about its work quietly, but because it is going on constantly, it gets results. The Grand Canyon of the Colorado is one of the outstanding examples of what erosion can do. Earthquakes, volcanoes, landslides, and the like, can make great alterations in small areas, but the face of the earth, as a whole, has undergone few changes because of them.

**The TINYMITES**  
STORY BY HAL COCHRAN PICTURES BY JOE KING

(READ THE STORY, THEN COLOR THE PICTURE)

The rubber horse bounced "round and round and soon the little skinny found that he was making all the Tinies giggle right out loud.

To them it was a sight to see, as funny as a sight could be. It isn't any wonder that the skinny felt real proud.

Said Scouty, "Say, you're doing fine. I wish that funny horse was mine. I'd ride on him the live-long day and let the others try."

"He's made of rubber. I can't see how you can ride so easily. It is a wonder you don't bounce away up toward the sky."

"A w, it's not hard, when you know how," the skinny said. "I will allow you all to have a little ride, if you don't scare my horse."

"There is a path that leads right through the big tree trunks and I'm sure you can make him follow that long trail. It is a riding course."

"Of course we can," one Tiny said. "We'll make the horse go straight ahead." And then the skinny cried, "All right," and jumped down to the ground.

Woe Scouty was the first to try to ride the horse and, me, oh my, it made him rather dizzy when the horse went "round and round."

Then Coppy did as he was told. He sat up very brave and bold and loudly shouted, "Giddyap!" The horse walked nice and straight.

Then Windy also had some fun and when his little ride was done Woe Scouty said, "It's my turn now. Gee, I can hardly wait."

He scrambled to the horse's back and gave his side a friendly crack. The rubber horse seemed mad, though, and poor Duncy shortly found the others laughing loud in glee. And why they did it, he could see.

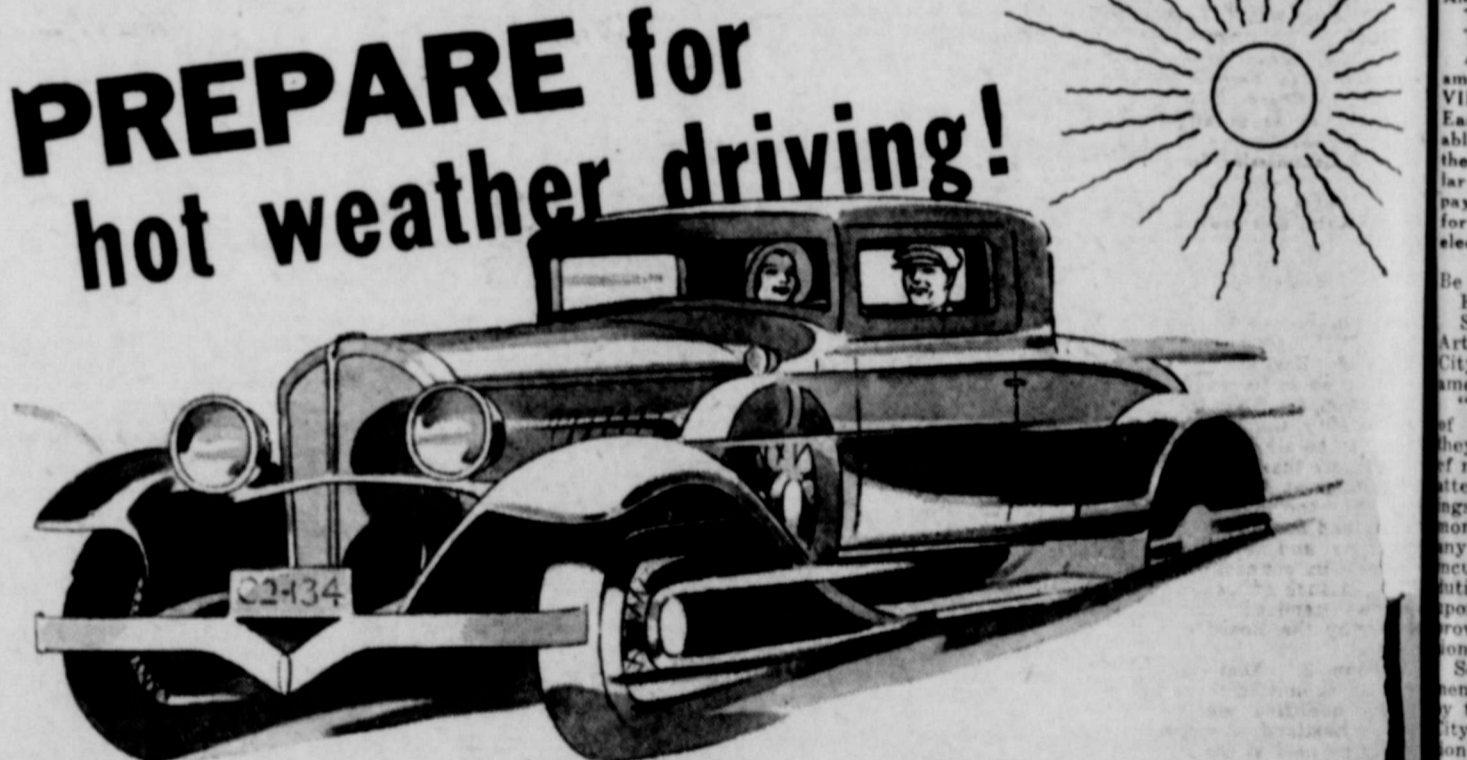

The horse bent in the middle and flopped right down on the ground.

Ranger Armory Roof Is Being Repaired

Workers were busy Monday morning repairing the roof of the national guard armory in Ranger. A new roof was put on the building a few months ago, but boys had climbed onto the building adjoining and had chipped holes in the gutters, apparently with hatchets or axes, Captain Hickey said today. During the last rain the building leaked considerably, doing some damage to the interior, and the repairs are being made to prevent further damage.

First of May Is Moving Day In Capitol Departments. AUSTIN.—May 1 will be moving day for capitol departments. The relief from the fee system is expected to be a large increase in fee funds going to the public treasury, and thus a possible reduction in local tax rates. Tom Miller, Austin business man, member of the county fee committee of the Travis county taxpayers' league, is sponsoring the proposal to attempt to pledge every candidate for the legislature to abolish fees of office and substitute direct salaries for all county officers, with all fees to go into the county treasury, and a more rigid check put upon the employment of deputies and assistants out of these fees.

Abolition of Fee System Will Be Campaign Issue. AUSTIN.—Through the taxpayers' league formed in many counties, and the state taxpayers' association, an effort will be made to pledge candidates for the legislature this year to uprooting of the much-abused fee system of paying county officials. The pay given the officials themselves—in many cases the maximum \$8,000 a year, even in small-city counties—is only a part of the huge levy upon the citizens, it has been found. In Dallas, the district attorney's office has a staff of assistants bigger than the entire state attorney general's department. The relief from the fee system is expected to be a large increase in fee funds going to the public treasury, and thus a possible reduction in local tax rates. Tom Miller, Austin business man, member of the county fee committee of the Travis county taxpayers' league, is sponsoring the proposal to attempt to pledge every candidate for the legislature to abolish fees of office and substitute direct salaries for all county officers, with all fees to go into the county treasury, and a more rigid check put upon the employment of deputies and assistants out of these fees.

the man HUNTERS BY MABEL McELLIOTT

BEGIN HERE TODAY SUSAN CAREY, an orphan, lives with her AUNT JESSIE on Chicago's west side and works in the office of ERNEST HEATH, architect. BEN LAMPHAN, a moody young architect, takes her to a studio party where she meets ARNOLD and SONIA STRINSKY and DENISE ARNOLD, a society girl. Later, in a rooming house, she meets BOB DUNBAR, a young millionaire whom she met at business school, she sees HEATH again, JACK WARREN, Heath's assistant, tries to flirt and is rebuffed. Lonely when her aunt is away, Susan goes on a party with Waring and he kisses her. Ben asks her to marry him and she temporizes. Her employer's wife snubs her. Susan hears Bob Dunbar is to be married and is heart-broken. Denise Ackroyd asks her to come to a week-end party at her country home. ROSE WILSON, Susan's friend, lends her a party frock. NOW GO ON WITH THE STORY CHAPTER XXIII IF Susan had known her aunt's plans she would have been furiously angry. As it was she met Ben gaily the following afternoon. He came through the coach looking rather more sulky than usual but almost pathetically brushed and tidy. "Hello," she said. "We're bound for the same place." "I guess so," Ben threw a shabby black bag into the rack overhead and sat down. Moodily his gaze took her in, from the top of her new brown felt to the tip of her nose. "You look nice," was all he could find to say, and that rather grudgingly. Susan thanked him, reflecting sardonically that he was scarcely the perfect pattern of an ardent admirer. Poor Ben! On a piano keyboard his fingers spoke the only language that he knew. Otherwise he was inarticulate. "I don't know why I said I'd come to the racket," Ben mumbled. "Sonia forced me into it—said it would be good for my work." "Maybe it will," Susan told him, determined to look on the bright side of things this glorious fall day. With the morning her misgivings had dissolved, leaving her confident and happy. Ben stared at her. "You know why we're asked, don't you?" he demanded. "That kid thinks we're a bunch of freaks. When she comes down to Sonia's she believes she's slumming and gets a terrible kick out of it. She told Sonia it reminded her of the Left Bank." "I don't think that sounds so bad," Susan said. "What she means is you're all artists and artists have always been taken up by rich people. That's not new."

ting far in excess of the average of state department officials and employees for work of greater responsibility and bigger scale. Until Senator George Purl and his associates put a \$12,000 and \$8,000 limit on county officers two years ago, there were sheriffs, tax collectors and others in several counties getting from \$12,000 to \$20,000 a year, and representatives of these counties in several instances bitterly fought attempts of the legislature to put even such liberal limits as were imposed upon these officials.

'Au Bon Marche' ... through Advertising

One of the largest department stores in Paris is named "Au Bon Marche." Translated, it means "at a bargain—cheap." Actually, "au bon marche" indicates to the French what a true bargain does to Americans—dependable merchandise at fair prices.

When so many shops everywhere are full of merchandise on which the "price appeal" is prominent, it is necessary that the wise shopper insist upon products of known value and proven merit. The clock that will not keep time is hardly a bargain at any price. Foodstuffs and drug-store supplies must contain pure ingredients and be prepared under hygienic conditions, lest they become not only cheap but dangerous. Wearing apparel at a mark-down is only a snare and a delusion if it lacks the quality that will result in wear.

Wise shoppers, these days, are refusing substitutes, are weighing true worth against price appeal. They are using the advertisements in this newspaper as a shopping guide. When a merchant advertises his wares consistently, you may be sure that he is telling the truth about them. He could not afford to do otherwise, even if he so desired. When a manufacturer of national scope appeals to you through these pages, you can believe and act upon his words.

"Au bon marche." Today advertising points the way to the only real bargains!

IMPORTANT When you ask for a product by name, as a result of advertising, do not accept a substitute—substitutes are offered not as a service to you, but for other reasons.

**LESSON-SERMON GIVEN.**  
The lesson-sermon subject was "Evolution after Death" in all Churches of Christ, Scientist, Sunday, April 24.

"He knoweth the way that I take; when he hath tried me, I shall come forth as gold," was the golden text, taken from Job 23:10. The service included the following passage from the Bible (Matt. 27:1, 35):

"When the morning was come, all the chief priests and elders of the people took counsel against Jesus to put him to death. And they crucified him, and parted his garments, casting lots:—"

The following citation from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, was also included (page 41):

"The lonely precincts of the tomb gave Jesus a refuge from his foes, a place in which to solve the great problem of being. His three days' work in the sepulchre set the seal of eternity on time. He proved Life to be deathless and gave to be the master of hate."
