RANGER, TEXAS, MONDAY EVENING, JULY 25, 1932

They're always changing things at the wrong time. Just as our stomachs were getting accustomed to digesting chessebrot on lunch ham, the packers start wrapping it in cellophane.

PRICE FIVE CENTS, No. 46

MRS. FERGUSON STILL RETAINS LEAD Leaders In County Race Determined Today

GRIPINGS

By GUS

This column is published as a daily feature and may not be construed as representing the editorial views of this paper. What follows is merely what one man thought at the time it was written, and the writer reserves the right to change his mind concerning any subject, without notice, explanation or apology.

I figured Henry Davenport would get some votes, but I had an idea he'd get out and run away from his opposition. It seems that while John Thurman and V. V. Cooper were uncompromisingly for other, Henry just didn't say anything but took the votes.

And I didn't expect to see Lewis Huxley beat Bill McDonald 2 to 1. Neither did I expect to see Joe Garrett win in the first primary. I still can't figure out the significance if any in the way the vote went for Garrett and Cooper. Huxley's defeat and Garrett's victory are hardly consistent with one another.

John Hart has just been in here hearing the life out of me because my total of his votes doesn't tally with his total. I messed around with him for a long time and didn't get my column written. I don't claim to be so good at figures that I don't make errors but I would surely tickle me to find out that he is wrong and I'm right.

It looks like Lotief is winner for 10th representative. The 106th district will probably be a runoff between Oscar Chastain and Elzo Ben. The interest in some of the other races and the fact that we didn't get a full report on these races made an overlook getting the facts on them. It's a big job to add up all those figures and with so many in the race and only one voting machine we sometimes are forced to slight some of the candidates on account of lack of time.

Joe Jones gave Blanton a real hot race. He's not too far behind yet. Wilbourne Collier carried his county like Grant took Richardson. And Virge Foster can safely say that the voters think he's a good sheriff.

I got a couple of votes for precinct chairman. Of course, LeRoy Pearson got a vote or so. In fact, I understand we are tied. I'm going to protest the election and demand a recount. Pearson has been precinct chairman before and is not entitled to the office again. He hasn't even live in the precinct. He is a east side resident and ought to vote in Thurber.

Newman Leads For Justice of Precinct One

The race for justice of the peace, Eastland precinct, No. 1, was topped by Milton Newman. The present justice appointed to fill the unexpired term of Jim Steele. Newman got 755 votes, J. T. Sue got 426, and Ed Hatton 422.

THREE BOXES NOT COUNTED IN RETURNS

Several Races Are So Close Complete Count Will Be Needed.

With Tudor, Pioneer, and Romney boxes unaccounted for in which there are a total of 209 poll taxes, the races for most of the county offices are settled, yet the votes in these boxes could have a bearing on the second place men in at least two of the races.

Tom F. Hunter appears to be leading the county for governor with 2031 votes with Mrs. Ferguson running second with 1542 and Ross Sterling in third place with 1375.

A run off is indicated for the 8th court judgeship between B. W. Patterson and Frank Sparks. Patterson has 2301 and Sparks 2181 with J. D. Barker of Cisco running third with 1239.

George L. Davenport was winner over Allen Dabney by an unquestionable majority.

The race for criminal district attorney put Grady Owen out in front with 2589 votes. Milton Lawrence is leading W. S. Adamson by a narrow margin having 1279 against Adamson's 1224. Frank Judkins is not far behind with 1127.

Clyde Garret won re-election as county judge by getting 3381 votes against the combined total of his opponents of 3053. J. R. Burnett polled 1588 and George Bryant 1465.

One of the biggest upsets of the local campaign took place in the race for district clerk when Lewis Crossley polled 4383 to displace Bill McDonald who polled 1998.

Every Knock's a Boost for Grandpa

First to inspect the baggage of Speaker John N. Garner when he arrived at his ranch home in Uvalde, Texas, for a vacation was his granddaughter, Genevieve Garner. She is shown going through the trunk containing the Democratic vice presidential nominee's famous collection of gavel and other gifts. Across Genevieve's lap lies a cane, whittled out of hickory by Andrew Jackson, and a giant pencil may be seen in the foreground. Meantime old friends made the speaker welcome.

BLANTON IS LEADING IN LATE RETURN

On the basis of returns from all 19 counties in the 17th congressional district, with two counties complete, the figures given out by the Texas Election Bureau at 1 p. m. today showed that Congressman Tom Blanton was leading Joe H. Jones of Eastland by 1,788 votes in the race for congress.

The totals at 1 o'clock gave Blanton 20,388 votes against 18,580 cast for Jones.

No report by counties, showing which counties were carried by Jones was made in the late returns, but earlier reports pegged Jones as Callahan, Comanche, Eastland, Llano, Nolan, Palo Pinto, Runnels, Shackelford and Stephens counties, giving Joe Jones the largest vote, the other nine counties were shown to be going for Blanton. This report showed that 10 of the 19 counties favored Jones, while nine were for Blanton.

Hunter Not To Aid Either of The Candidates

WICHITA FALLS, July 25.—Tom Hunter, chief in the Democratic primary Saturday, today indicated he would take no part in the runoff between Governor Ross Sterling and Mrs. Miriam Ferguson.

EASTLAND GUN CLUB HAS BIG CROWD SUNDAY

Russ Perrine was high in the rifle events with 46 out of 50. W. J. Peters was high in pistol with the good score of 98 out of a possible 100 at 25 yards. Jim Horton and Gayland Poe tied for high in the skeet events with 45x50.

The feature of the evening's shoot was a skeet match between John Mouser and Sam Butler. Butler beat Mouser by two targets. The final score was, Butler 17x25; Mouser 15x25.

Shrine Takes San Francisco For Convention

United Press Staff Correspondent SAN FRANCISCO, July 25.—Rank after rank of brilliantly uniformed, cheering, shouting, smiling "nobles" swept down the streets here with bands playing and drums rolling today as the Shrines of North America opened their convention.

Through a town decked with flags, draped with signs of greeting, and illuminated at night by gleaming electric Shrine emblems the nobles marched 100,000 strong.

Ranger Defeats Eastland Golf Team on Sunday

Ranger golfers defeated the visiting Eastland team Sunday afternoon in the scheduled match of the Oil Belt Golf association by a score of 17 to 5.

THE NEW "IRON CHANCELLOR"

With Berlin and the Prussian province of Brandenburg under virtual martial law, Chancellor Franz von Papen, shown above in a recent posed portrait, is serving as the Reich's Commissioner in Prussia—a position equivalent to that of a dictator.

PILOT LANDS PLANE MINUS LANDING GEAR

An army plane, piloted by Lt. Edward Darby, in taking off from the Ranger airport lost one wheel and part of the landing gear, Darby was en route from Brooks field, San Antonio, to Dallas when the accident occurred, but he decided, on getting into the air, to return to his air base.

DEAD MAN IS ELECTED IN THE PRIMARY

CLEBURNE, July 25.—A dead man has been elected district clerk, election returns revealed today.

Crash Destroys Minnesota Pies

CLEAR LAKE, Minn.—Six thousand pies, en route from Minneapolis to Fargo, N. D., were destroyed when a truck ran into a race horse here. The horse was being led along the highway when it was startled by the lights of the truck, and failed to get out of the path of the approaching motor vehicle which could not be stopped.

STERLING IS KEEPING PACE WITH LEADER

655,370 Votes Counted By Election Bureau At 1 P. M. Today.

DALLAS, July 25.—Returns of the Texas democratic primary election today swept three famous names, Mariah A. Ferguson, Joe Bailey and J. H. (Cyclone) Davis back into the limelight.

Mrs. Ferguson, only woman ever to be governor of Texas and famous as a carrier of peaches and pardoner of convicts, with 281,192 votes was far ahead in the race for the gubernatorial nomination, on the 1 p. m. bulletin of the Texas Election Bureau, which accounted for 655,370 votes. Governor Ross Sterling was second with 210,417 votes and will oppose Mrs. Ferguson in a run-off, since she failed to obtain a majority.

Tom Hunter had 146,870 votes and 25,618 were divided among five other candidates.

The returns from 237 of the 254 counties in the state with 36 complete.

The bulletin gave the proposal to resubmit the eighteenth amendment 245,883 votes with 84,968 against. At least 78 counties, however, failed to take the referendum because of expense or other reasons and Dr. Atticus Webb, state Anti-Saloon league superintendent, charged the poll was not representative.

Joe Bailey, Jr., son of the late senator, who was a famous figure at Washington, for many years, seeking his first office, embarked auspiciously on a political career by polling the most votes of 38 candidates seeking three congressional seats given Texas by the last census. Running on a repeal platform he polled 122,325 votes but faces a run-off with either Oscar Holcombe, former Houston mayor, or Davis.

The 1 p. m. bulletin gave Holcombe 73,918 and the 70-year-old Davis 72,683. Only three of the other eight candidates seeking the particular nomination polled as many as 36,000 votes.

State totals at 1 p. m. today were:

For submission 245,883, against 84,968.

Governor—Ferguson, 281,192; Hunter, 146,870; Sterling, 210,417; scattering, 25,618.

Supintendent of Public Instruction—Shaver, 250,228; Woods, 277,785.

Railroad Commissioner, 6 years—Patterson, 83,403; Satterwhite, 143,887; Tennant, 103,190; Terrell, 228,240.

Culberson, 103,710; De Ware, 54,159; Hatcher, 149,628; Murphy, 91,871; Thompson, 153,219.

Supreme Court—Hickman, 180,393; Pierson, 218,955; Speer, 127,187.

Congress, Place 1—Adams, 31,452; Hood, 32,960; Parrish, 58,447; Senter, 24,886; Terrell, 87,314; Westbrook, 40,823; Williams, 51,526.

Congress, Place 2—Bailey, 122,325; Davis, 72,683; Downs, 33,150; Hawkins, 26,719; Holcombe, 73,918; Sartin, 37,865; Warner, 36,972.

National Guard Company Rating Is Announced

The rating received by Company 1, 142nd Infantry, Texas National Guards, in the inspection held recently, has been received by Capt. Wayne C. Hickey.

The Ranger unit of the national guard received a rating of 100 out of a possible 120 and was classed as S-plus. Four companies in the division were rated S, while the remainder received the S-plus classification.

Although not the best rating ever secured by the company, it was considered very good. The company contains three officers and 60 men and all three officers and all but two of the men were present at the inspection.

HOMER KILLED SPARROW SALEM, Mo.—Jack Bennett's home run went into a tree during an amateur baseball game here and killed a sparrow. Investigation revealed four small boys in the tree also.

DALLAS—Plans for expenditure of \$2,500,000 for new construction by subsidiaries of Central and Southwest Utilities Co. announced here recently.

ALVIN—W. G. Pugh & Son opened 5-cent to \$1 store.

WINTERS—Phillip Joseph establishing dry goods store in this place.

AMERICA DOLLAR ON A HIKE

There is nothing wrong with the American dollar. It surged ahead in the foreign exchange market last week, while the French franc dipped below par for the first time in months. In addition Belgian francs dipped to a new 1932 low. Norwegian crowns and Mexican pesos made gains. British sterling was off 3-8 of a cent both for cables and demand. Happy days are returning at a snail's pace. Adjustments are on the way in all countries, and these adjustments must fit in with the economic conditions or life of the new civilization. Political ballyhoosers of the wild type are running amuck in city and country. They would give the people to understand that the American commonwealth and the Lone Star state are on their way to hades in other words hell bent for decay and destruction. Of course, they lack vision. Of course, many of them lack intelligence, but the majority of the wild ballyhoosers of destruction are demagogues and are willing to promise anything for votes. Their promises or pledges are not scraps of paper but scrapings and droppings of the tongue.

William E. Bolton is assistant to the vice president in charge of operations for the Rock Island lines. This is his verdict: "We believe the low for the year has been passed and there will be no more seasonal depressions in the years business measured by normal business of the year." He was speaking of signs of a business upturn which had been noted by railroad officials in Chicago and elsewhere. A traffic increase was predicted over the first six months of the year because of grain movements on the way. One railroad reported a 271 per cent increase in wheat loading the first 11 days of this month compared with a similar period last month. Indeed, there are signs of a business upturn in many sections of the United States.

Texas continued a white spot on the map. Of course, there is economic distress and 5 cent cotton is largely responsible. Sterling stabilized the oil industry in Texas. He made it possible for the price to go to 90 cents a barrel instead of 10 cents. He stabilized the industry because he had the courage to strike out and take drastic steps. A blantant demagogue, all things to all men, would not have taken this step. He would have twiddled his thumbs, furnished publicity staff for the newspapers and permitted the demoralized and deplorable oil situation to take care of itself in the East Texas field and all other fields. A hard fisted, honest, courageous and patriotic executive who knows the right thing to do at the right time is the man who should be retained in the chair of the chief magistrate of Texas.

AMERICA IS SENDING ITS CHILDREN TO SCHOOL HOUSES

Washington tells it to the world that America is sending more of its children to school. Figures are interesting, the census bureau has reported that 69.9 per cent of the boys and girls from 5 to 20 were attending school April 1, 1930. Ten years before the percentage was 64.3, while the 1930 pupils totaled 26,849,639. More boys than girls were in college. More girls than boys in the lower grades. Germany before the World War had a very much higher rating. Japan, the master of the Orient, had a very high rating. Now what will the record proclaim for the years 1931 and 1932?

Texas spends upwards of \$90,000,000 a year for highways and schools. Regardless of the rantings and croakings of political demagogues and noisy political high-binders this is a magnificent showing for the Lone Star commonwealth. All owners of motor vehicles are taxed not only for the construction and maintenance of highways but they pay a double tax if they are property owners for the support of education away down here in Texas. There are free school houses, free teachers, and free textbooks for the millions. A real civilization which concerns the masses and their uplift and advancement comes high and the price must be paid. A sales tax would get all the people under the skies of Texas and that is why a sales tax is perhaps the fairest of all methods or systems of taxation. Every dweller under the skies of Texas, and his share of the cost of government—and in America, for that matter, should pay in Texas 90 per cent of the revenues of the state are utilized to make a system of highways second to none in America and an educational system which the fathers intended should be created and perpetuated by those who came after them.

SLIDING FROM CITY TO COUNTRY

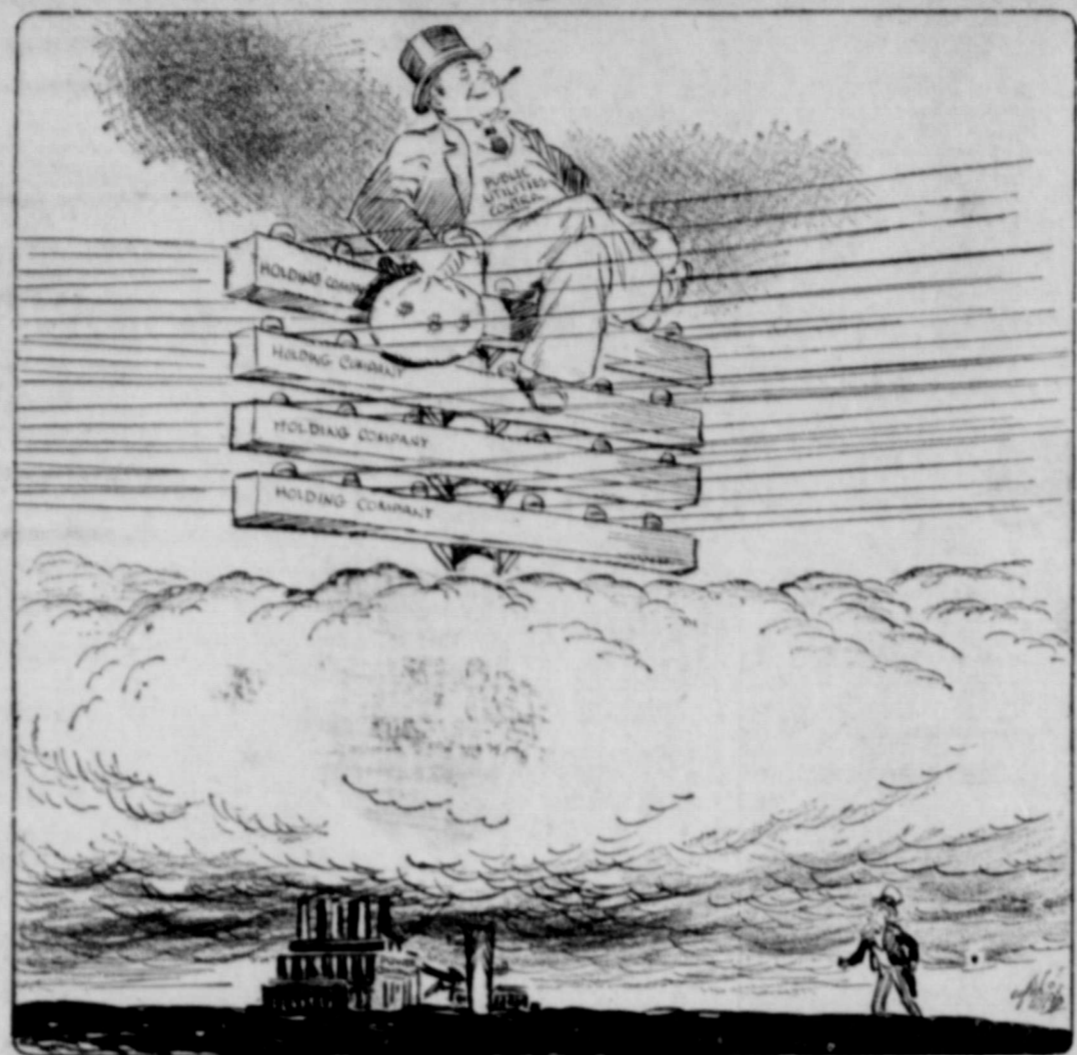

Now the federal department of agriculture shows that 1,482,000 persons left the farms for towns and cities and that 1,679,000 moved from the cities and towns to the country in a single year. American farm population on Jan. 1, 1932 was placed at 31,260,000 compared with 30,614,000 at the beginning of 1931. Births account for the increase over and above these moving back to the country. This increase is said to be the largest and most significant in the 10 years that population changes have been estimated. Wherein is the significance?

In war years millions deserted the country for the industrial centers. They were paid high wages. They were conquered by the lure of the bright lights. It was an age of making and spending. Then came the greatest gambling era in history. Then came the greatest crash in history. In a year a quarter of a million persons returned to the country from the industrial centers of America. There were seven million unemployed persons when the year began. They had to go somewhere to get food. Why not to the farm where all the foods are produced by the tillers of the soil?

TEXAS AS A MEAT PRODUCING STATE

Texas leads all American states in the meat production field of endeavor. It is the greatest producer of mohair and wool as well as of meat stuffs. East St. Louis is famous for its stockyards. When steers crossed the \$9 mark July 11, the highest cattle prices of the year were registered at the national stockyards. Price of hogs was also advanced to a profitable level in recent weeks. One of the leading livestock men of the West estimated the recent upturn has probably added \$75,000,000 to the value of farm holdings. Well, the poop of dawn may be on the way.

Political Follies of 1932

BY RODNEY DUTCHER
WASHINGTON—It isn't as if the presidential and vice presidential candidates this year didn't already have good jobs. They all are employed. Three of them will be faithfully occupied for the next several months and if the Republicans win only one of the four will subsequently be found in the ranks of the idle.

Garner Would Have Choice
If the Republicans win, Hoover and Charlie Curtis will be fixed for the next four years and Garner for the next two years—either as speaker or minority leader of the House.

The Case for Resignation
Those who resigned after recent nominations were Hoover, as secretary of commerce in 1928, apparently at the wish of President Coolidge; Warren G. Harding, who held his Senate seat until the January following election so that his successor would be appointed by a new Republican governor rather than by Cox; Franklin D. Roosevelt, who left his job as assistant secretary of the navy immediately after being notified of his vice presidential nomination; Charles Evans Hughes, who was on the Supreme Court when nominated for president in 1916; William Howard Taft as secretary of war in 1908, and Alton B. Parker as chief justice of the New York court of appeals when the Democrats nominated him for president in 1904.

Precedents for Roosevelt
ROOSEVELT has precedent for either remaining or resigning as governor and reports as to which course he would take have been conflicting. After he returned to Albany from Chicago he said he was going to "settle down to being a humble governor," but recent rumors here say he may soon be only an ex-governor and a nominee.

Murder Shadows Jail Wedding

The bride got the license, the wedding clothes for 'her man' and the justice of the peace, the groom sat in an Indianapolis, Ind., jail cell awaiting grand jury action on a murder charge.

Great Progress Made In Last Few Weeks Toward Economic Recovery. AUSTIN.—Great progress has been made in the last few weeks toward laying a sound basis for business recovery the world over, according to the University of Texas Bureau of Business Research.

several months, however, on account of the activities usually associated with a national election which this year may be magnified because of the present abnormal economic situation.

While the past month has been notable for constructive developments of a basic character, it is not to be expected that there will be a sudden revival in either securities or in trade.

Further reassurance of progress toward normal international relations is found in the strong position of leadership which Great Britain is again assuming in world affairs. To her, largely, belongs credit for breaking the impasse at Lausanne and her growing strength at home is indicated by the recent refunding of the national debt from a 5 per cent to a 3 1/2 per cent basis, thus saving \$150,000,000 interest charges annually on her national debt.

Under this, it would appear that a different law, giving the state control of its sumptuary system, would permit the state to go as far as it chose in making and enforcing such definition.
