MILESTONES ON THE ROAD TO RECOVERY

Believe it or not, as Ripley says, the American Bankers association through its official organ lists recent developments that may be looked back upon as milestones on the road to recovery. First, termination of the world run on American gold resources. Second, Great Britain's decision to rid itself of the crushing burden of fixed charges on its 2,000,000,000 pounds of war loans by offering to convert the five per cent issues into cash or three and one-half per cent bonds. Third, first signs on the part of the disarmament conference of a willingness to attack this problem realistically. Fourth, agreement of the leading nations of Europe on a final settlement of reparations involving the almost nominal lump payment by Germany of 3,000,000 marks, or a sum of \$750,000,000.

There are other encouraging signs. Many textile mills have reopened with full schedule of employees. Many wire mills have resumed operation. Many lumber camps are reopening and providing employment for hundreds of lumberjacks. There are very healthy signs of encouragement in the livestock world. Indeed, it is said that \$25,000,000 has been added to the value of livestock in Texas. There is a heavier demand for woolen goods. There is a heavier demand for cottons. There is a heavier demand for auto accessories. There have been fewer bank failures. Building activities show an awakening. There are hundreds of other signs of virile business activities the country over.

More than \$3,000,000,000 will be advanced from the federal treasury as loans to put new life and new strength in industries and to thaw out the frozen assets in the vaults of all the agencies connected with the financial world. It would be well for the pessimists to take cognizance of these signs of improvement. It would be well for the raucous voiced demagogues ever sowing the seeds of distrust and disorder in the minds of the people to hearken to the warning that these signs foretell.

This is a new civilization. Out of it will come a new economic system. Old methods have been ditched. Old systems have been swept away. Evolution in all fields of human endeavor is on the march and that march does not lead downward but ever upward and onward. People are finding themselves. They realize there is a new order of life which will make of this new civilization in time perhaps the most humane and most enlightened that has been known through the ages.

TRAVIS COUNTY VOTERS MADE HIGH RECORDS

Now it is announced that the Travis county total primary vote was over 200 more than ever polled before. This is interesting as well as encouraging. If the people are the voters they should pay poll tax or take out exemption papers. They should vote intelligently but this is too much to expect in a democracy where the uniformed or the misinformed are governed by their prejudices and not by their reason and gulp down the fairy tales flung in their teeth by glib tongued demagogues who are ready at times to promise anything for votes. Why should men or women be governed by their hates, their passions, their prejudices which are based on flimsy and false theories to a very large extent instead of listening to the voice of reason and permitting themselves to be direct by the constitution of the republic and the commonwealth. "Sock it to the rich" is unsuccessful, there would be no well paying jobs for the millions and poverty would be the portion of mankind. Jefferson believed that individual merit was entitled to individual reward in a legitimate sense. Jefferson was the founder of the democratic party. He has been dead many, many years. Now there are more types of democrats than there are types of pests to be found in the cultivated fields of the perspiring tiller of the soil. With the passing of the depression reason will return and seekers for high place in governmental affairs will be tested solely on their qualifications and the records they have made.

A VETERAN REPUBLICAN RETIRES FROM THE HOUSE

In the Nutmeg State of Connecticut Rep. A. B. Tilson has been a republican leader for many years. He was an aspirant for the house speakership when John Nance Garner won the gavel. Representative Snell of New York won the republican house leadership and this threw Tilson on the sidelines. Now Tilson has decided to resign from congress and not seek a re-election. He has his reasons. They are economic. He is planning to seek activity in other fields where he trusts his talents will be equally well employed and at least be on the right side of the ledger. Regardless of all that has been said about the salary paid to a congressman, only a miser can get by in the city of Washington unless a handsome stipend goes with the job. A congressional representative has to do the honors of his district. He cannot sleep in a wogan yard and maintain the position. He cannot browse around for free. He has to entertain all visitors who invade the district from his district or state. Tilson is wise. He is going to private life where he will be his own master and do something in a financial way for his loved

PEEPING THRU THE KNOTHOLE with BILL MAYES

According to advices that have come out of Cisco, the famous Cisco case, alias the Hightower case, alias the Cisco ouster hearing, has been given preferential setting on the docket of the 91st district court at Eastland for Sept. 5. The original date set for the hearing was June 20. The hearing was continued until July 29 and was again continued this time until Sept. 5. The case, styled Cisco Independent School District versus L. E. Dudley, et al., is a suit to compel the reinstatement of the Cisco high school football team in the inter-scholastic league this fall. The court, in announcing the setting of the case, said no contested cases would be heard during the month of August.

In writing of the case, Benny Butler, Cisco scribe, says: "Hightower Case" The Cisco Lobos were suspended from football competition this year by the state executive committee of the league upon recommendation of the district committee which based charges of violation of league rules upon the now famous "Hightower case." Hightower, able Corsicana quarterback of 1930, transferred to Cisco with the coming of Assistant Coach Jefferies, of the Tigers, to the head coaching of the Lobos in 1931. Difficulties of obtaining transfer from the Corsicana school caused Hightower, after attending school here from the opening date, to remove to Tyler high school where a transfer was promised him by Corsicana officials. Immediately, however, Corsicana changed mind and Hightower returned to Cisco with a transfer to this school assured.

Hollywood "Rib" Olympic Games Jack Oakie Featured

"Million Dollar Legs," Paramount's Olympic Games comedy, which comes to the Arcadia theater on Thursday and Friday with an all-star comedy cast headed by Jack Oakie, W. C. Fields, Lyda Roberti, Ben Turpin, Hank Mann, Andy Clyde, Susan Fleming and Dickie Moore, is said to be a completely dizzy burlesque which out-slaps sticks slappatics. The story begins in the Republic of Klopstokia, where all the men are named George and all the women, Angela, and the President, W. C. Fields, holds his job because he is the best weight lifter in the country. Jack Oakie plays the role of a red-hot American brush salesman who falls in love with one of Klopstokia's Angelas, and in order to save the defunct treasury of the country, organizes an Olympic team which can carry off all the international honors and win an endowment offered by Jack's boss, the brush king. So all of Klopstokia, including the famous spy, Mata Macchree, "the woman no man can resist," journeys to Los Angeles for the Olympic Games, and there, in spite of Mata's dirty work, good old Klopstokia comes through.

CITY AIDED LANDLORDS By United Press. It was a funny sight to see The Tinmites, proud as they could be, riding on the animals that they had blown up high. "My fine balloons are very strong," their fat friend said. "See? Naught goes wrong! I make balloons that every youngster's mighty glad to buy." "Well, I'll buy this one," Duncy cried. "It's really lots of fun to ride upon the back of a giraffe. The long neck's handy, too." "If he begins to run with me, I'll be as safe as safe can be 'cause I'll just grab him 'round the neck. That would be smart to do."

A great weight was off the minds of these Olympic heroes when Svend Olsen (left) of Denmark congratulated Louis Hostin (right) of France. Hostin lifted 803 pounds to win the light heavyweight title in the weight lifting, first event on the Olympic program in Los Angeles. Hostin hoisted himself into a new world's record, the previous mark being 771 pounds. Olsen scored second in the event, lifting 792 pounds.

Old Bill Watches. In the shrill scream of indignation that followed the selection of all-eastern coaches on the Olympic games board, could be heard the strident voice of San Francisco Operative Phil Sinnott. 'It looks as if one of the greatest old coaches in the game—I mean Bill Hayward of Oregon—will have to pay his way into the park.' Sinnott deposes and says: 'It's a beautiful reward for a man who has spent a quarter of a century developing Olympic talent for the American team. Colonel Bill had a half dozen qualified prospects in the final trials. One won his event—the 5000 meters—and stands a good chance to knock off some of the Finns in the games. I mean Ralph Hill, the Oregon boy who competed under the banner of the Olympic Club. Don't bet against him.'

United States Has Stranglehold On Hurdle Honors

LOS ANGELES.—The United States had something of a strange hold on Olympic hurdling honors until the Antwerp games in 1920, and even then, although the winner was a Canadian by birth, he had lived in the United States his entire hurdling life and, therefore, some of the string of his victory was removed. Dan Kinsey brought the title back to the United States at Paris, in 1924, and when the American team sailed for Amsterdam, in 1928, it was generally considered that we had the greatest batch of 110 meter hurdlers that had ever represented this country.

U. S. Runner Was A Paper Carrier

MANCHESTER, Conn.—People in Manchester, who once were newspaper customers of Joe McManus, are not surprised to find that agile 21-year-old Fordham runner, ready the list of runners on the United States 300 meter hurdles team, which is to participate in the Olympic games. Francis Ray, of Manchester, tells of his mother, who since has died, and himself, sitting in their kitchen with the door open, waiting to see Joe slip upon the porch platform by the air route over the side rail. The rail was three feet from the platform and three substantial steps led up to it, making the jump between seven and eight feet in height. Joe would bound over a fence, gather speed in a run of six feet and then leap from the ground over the porch rail. Throwing the paper in to one of them, 'he would grin a "good morning" and then descend by the same route.

Caretaker Gets Mine In Lieu Of Pay

WENATCHEE, Wash.—It isn't every day you can buy a million-dollar gold mine for \$2,000. J. D. McVane recently was given a bill of sale by the sheriff to the famous old Blewett mines on Peshastin creek, from which millions of dollars worth of gold have been taken since its discovery nearly 50 years ago. McVane, a caretaker at the mining properties, had a claim for wages of \$2,303.95 against the Washington Gold Mines corporation, present owners. They were unable to pay and his attorney today took the entire mining property as satisfaction for the claim. The mines, including a 20-stamp mill, have not been operating for many years, although they were once one of the most famous properties in the northwest.

FISH LANDED AFTER TWO AND A HALF HOURS

SYRACUSE, N. Y.—It required two and one-half hours for Loren Maines to land a 32-pound fish at Black Lake. He used only a small steel casting-rod, with an 18-pound test line and a small plug. Whether the fish was a Great Northern pike or a muskie was not determined. Another argument which started in Europe, which came first, the gentleman or the agreement?

Little Faster

The United States boasted of two or three young men who had made the same time over the 120 yard distance, which is about a foot shorter. Then last year long-legged Percy Beard, of Alabama, came along and was credited with a new world's record of 14.2 for the 110 meter hurdle event, which, while it does not displace the record held by the Europeans, is obviously a little faster, and young Jack Keller, of Ohio State University, equally long-legged and sensational, did the 120 yard hurdles in 14.3 seconds, so that the United States will be well represented, along with Keller and Beard, form the U. S. hurdle team. It is no secret in Europe that young Sjostedt is regarded as one of the greatest performers of all time and he has had enough international competition to insure his being his very best at Los Angeles. He is reputed to have very nearly perfect form over the sticks and has been working hard on speed, until he is now one of the Finnish 100 meter flat race stars and has done 10.8 seconds for that distance. This equals the winning time of Percy Williams at Amsterdam and demonstrates that Sjostedt is no snail.

New Record Is Expected For Air Arrivals At Races

CLEVELAND.—Visitors on the opening day at the 1932 National Air Races here Aug. 27, probably will see a new world's record established for airport arrivals in one day. Besides the planes arriving for the finish of three derby events, passenger and mail planes will continue their schedules uninterrupted and many visiting pilots also are expected to land. The largest single group of arriving ships will be those in the Cord Cup race, national transcontinental handicap sweetstakes which will start from Washington, D. C., and Los Angeles, on Aug. 21. The two divisions will merge at Bartlesville, Okla. Aug. 24, and continue in massed flight to Cleveland. Race officials estimate that nearly 100 pilots will be in this competition.

Leeds Race

Landing the sack day, will be the entrants in the W. B. Leeds trophy race that is to start from Roosevelt Field, New York, Aug. 27. This group will stop at Middletown, Pa., to refuel, at Wheeling, W. Va., for lunch and then on to Cleveland. The race for amateur air pilots from Washington, D. C., to Cleveland via Columbus, O., also will finish here as part of the opening day program. Robert B. Duke, Pittsburgh, has been appointed chairman of the Cord Cup race. He recently flew reversely the tentative route for the Western Division of the race, which includes Akron, Cincinnati, Indianapolis, St. Louis, Kansas City, Bartlesville, Okla.; Abilene, Tex.; Lubbock, Tex.; Roswell, N. GOY TAX REBATE. BY United Press. PEYVILLE, Kan.—Joseph owns 30 acres of land in Peay Township. When the tax was left off the tax rolls, he went through a clerk's error, and went right on paying the tax. The mistake was discovered last year. The property was put on the rolls, and Kloeber received a substantial rebate.

New Barrooms Will Not Be Like Old Time Saloon

MILWAUKEE, Wis.—The new American barroom will resemble neither the oldtime saloon nor its successor, the speakeasy, but will include all that is modern in architecture, lighting, decoration and refrigeration.

That is the consensus of opinion of Milwaukee architects and fixture manufacturers, who are preparing for the repeal of the eighteenth amendment, or modification of the Volstead act.

The heavy oak mahogany of the old days will be taboo along with the backroom saloon. The modern barroom will have lots of light, period rooms, aluminum trimmings and flowers.

The family club, catering to men and women, will take the place of the saloon, says Thomas L. Rose, member of the firm of architects which designed the famous old Schlitz Palm Garden in Milwaukee.

"Brass rails and brass spittoons, the horseshoe and mahogany, all must go," he declared. "With beer and wine bring in modern architecture and lots of light."

E. W. Kuehn of the Northwestern Store Equipment corporation, would "get away from the sordid night club idea."

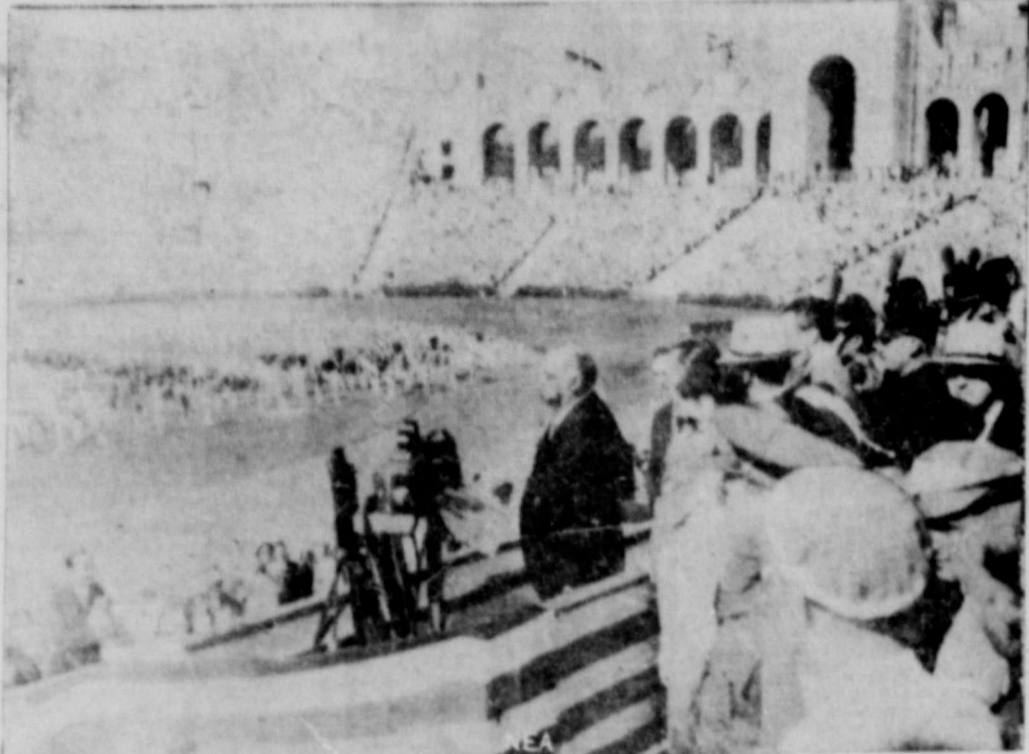

"When you can buy a drink socially again it will be in rooms that, for the most part, will have left the heavy rathskeller idea. Now will have early American, colonial, eighteenth century English and ultra modern period designs."

The new cafes will have to be inviting to the women," according to Harry Hogner, Milwaukee architect. "How pleasant are the many European cafes where the front is entirely open to the street, where one can sit comfortably, watch the traffic pass by, have a drink and a bite to eat."

CITIZENS OPEN TAX WAR

NEW ORLEANS.—Louisiana taxpayers have banded together in a fight to reduce state governmental expenses. At a meeting at Alexandria, La., recently, they formed the "Property Taxpayers' League" and resolved not to vote for candidates for public office unless they pledge themselves to work for tax relief measures.

"I Proclaim Open the Olympic Games"

Broadway America Map Distribution About Completed

EL PASO, Texas.—Distribution of the new Broadway of America maps, showing the route of this "all year, high-gear" highway from Broadway, San Diego, to Broadway, New York city, is being completed in El Paso, Texas. This city is located on the Broadway.

The association had 2,000,000 of these maps published by the American Automobile Association in Washington, D. C. First supplies were sent to chambers of commerce, motor clubs and tourist bureaus in the northern and eastern states. The demand for the maps, which are printed in colors and profusely illustrated, was so great that in many cases the original supply was quickly exhausted.

Slump Hit Teachers' Institute In County

CARLISLE, Pa.—The Cumberland County Teachers institute became a thing of the past this year after 78 years' existence. Need for economy led the county school heads to abandon it, at least temporarily.

The annual institute was held for five days, during which the county teachers gathered here to hear paid instructors and lecturers. The pupils, meantime, had a week's extra vacation early in the fall. Abandonment of the institute is expected to save about \$10,000.

Sea Captain Sees Russia As Nation Badly Crippled

HANFORD, Calif.—Bill Brown of Hanford can remember "way back when" roller-skating, kite flying, playing marbles and such things in a rickety shop.

This despite the fact that a long beard adorns his face. For Bill is 12. His beard was so thick his father had to take him to barber shop.

"It is ever becoming more eager to reach out and drag other nations into communism," said Capt. B. D. Thomas of the freighter New Westminster City. The hold of his ship was receiving bales of cotton for Murmansk and other Russian ports.

"Something should be done about it but I'm afraid it's too late. The country reeks of propaganda while the people stumble dully along under a hypnotic state induced by their change from a two-class country to a non-class country."

"I daresay they were happier in the days of the czar than they ever will be in the days of the tebeke or its even more dreadful successor, the G. P. U."

In the czar's time, said Thomas, the peasant with one ruble could buy a basket of vegetables. Today, he asserts, the peasant with a basket of rubles can get one vegetable.

The hope that resumption of international trade will awaken Russia to decency and its economic needs is fading fast, Thomas said.

OLDEST TREE CELEBRATES

ALLOUVILLE-BELLEFOSE, Seine Inferieure, France.—The oldest tree in France has just celebrated its 1,300th birthday anniversary here before a gathering of natives and tourists.

King Charles II of England visited the venerable tree in the 17th Century and King Louis XV of France came in 1760. It is said that ten men, with arms extended, can scarcely gird the green giant, and that 40 children can fit in the hollow of the trunk.

THIEF SENT HOME FOR SENTENCE

Dynamite Handler Afraid of Nitro

OKLAHOMA CITY.—D. A. Detar handles dynamite like so much cord-wood in a warehouse just east of here but entertains deadly fear of nitroglycerin, which he has never touched.

"I am afraid of it like the average man is of 'harmless' dynamite," said Detar. "This 'soup' is 13 times as strong as dynamite, in the same quantity. Give me safe dynamite to handle."

In his magazine there is usually around 10,000 pounds of dynamite and black powder.

He does his smoking at his home, half a mile from the explosives cache.

COLLEGE STATION—Henger & Chambers, Dallas, received \$167,300 contract for construction of new petroleum engineering building.

Wilda Dragoo On Vacation
Wilda Dragoo of this city left last Saturday for Sweetwater to spend the first of a few days vacation with fellow artists of that city and was en route to San Angelo, Wednesday, to visit her sister, Mrs. Wanda Beall, several weeks.

Miss Dragoo is in San Angelo, specially to conduct a request class in violin. She has been repeatedly urged for several months, to hold this class in violin and violin audition by musicians in San Angelo.

During Miss Dragoo's absence, there will be no formal practice, but on the usual night, of the choir of the Methodist church.

Clara June Kimble, a Dragoo student, will be the accompanist for the Methodist church services, during the absence of Miss Dragoo, director of choir, and Mrs. Joe A. Gibson, the regular pianist, who is spending the summer out of the city.

Miss Dragoo will return to Eastland Sept. 18.

Interesting Meeting Boys and Girls World Club.
The Boys and Girls World club, a junior organization sponsored by the Methodist church, met in the booster classroom at the usual hour Wednesday morning, with session opened by their director, Mrs. Fred L. Dragoo, and devotional conducted by Anna Jo Tabeiman, who led the children in the reading of the 100th Psalm.

A prayer, song, and the Lord's Prayer in union closed the devotional period. A group of new songs was taught the children, these including "Summer," "Nature Song," and "Children of One Father."

Much of the program and devotional work of this club is through the song service.

When the children were asked to suggest a song they would like best, one little girl piped up, "Onward Christian Soldiers," and though rather mature, this song was greatly enjoyed by the children.

An explanation and analysis of the Lord's Prayer was given by Mrs. Dragoo. Mrs. Claude G. Stubblefield, director of club, told the children an interesting story of a happy little crippled negro boy.

The second story was related by Mildred McLamery, who gave an interesting version of the White Chinese Goddess.

At close of the morning hour, the directors gave the children a treat of topic and ice cream, during the recreational period.

Children present: Jane Ferguson, Mary Page, Dorothy McLamery, Julia Parker, Ruth Hart, Nan Mickle, Francis Crowell, Virginia Ferguson, Mildred McLamery, Mary Nell Crowell, Anna Jane Taylor, Madge Hearn, Anna Jo Tabeiman, and Ray Jane Stubblefield.

Informal Dinner.
Judge and Mrs. W. P. Leslie entertained Judge and Mrs. Truman H. Conner of Fort Worth at their informal family dinner table Tuesday evening.

This delightful home dinner hour and hospitality of the Leslies was greatly enjoyed by their guests.

A Recent Informal And Delightful Party.
Mr. and Mrs. Ernest H. Jones and Mr. and Mrs. W. H. Kelly were co-hosts and hostesses to a recent delightful and informal "party" two party, held in the evening on the lawn of the Ernest H. Jones' home, in Hillcrest.

The scene was prettily lighted by electric globes swung through the trees and the lawn was spaced by the seven tables used in the game.

At close of a delightful evening, high score favor in the game, a serving set of four pieces, was awarded Mr. and Mrs. Guy Dunham.

A pleasing feature of the game was that couples progressed and remained partners throughout the evening.

Delicious home-made ice cream and cake was served by the hostesses at close of this, one of the most delightful social evenings of the summer season, to Mr. and Mrs. J. Frank Sparks, Mr. and Mrs. W. W. Kelly, Mr. and Mrs. Britton, Mr. and Mrs. Guy Dunham, Mr. and Mrs. Frank Crowell, Mr. and Mrs. Lewis Crossley, Mr. and Mrs. Guy Parker, Mr. and Mrs.

STALE GAS IS SLOW GAS

ONLY fresh GAS PACKS FULL POWER!

TAKE the best, the fastest gas made—store it too long—and it gets slow, sluggish and feeble! Little by little, day by day, it loses pep, punch and power. STALENESS is the enemy of gasoline!

Here's why this is so... Gasoline deteriorates—loses its "light ends"—the volatile elements that make starting easy. A chemical change takes place, too—so that the longer gas is stored, the weaker it gets!

Long has the petroleum industry known this fact. Known, too, that the longer gas is stored, the

stickier it gets—the more apt it is to clog valves and knock—particularly on hills.

That is why the question of deterioration has worried refiners—and why Gulf is proud to announce a system that assures you of FRESH, FULL-POWERED gasoline. It works in this way...

Gulf makes the best gas that can be produced—and refines out of this gas certain complex elements that have been discovered to cause fast deteriora-

tion. Therefore, Gulf gas stays FRESH longer.

Next, Gulf takes that FRESH-MADE gas and speeds it to you in a hurry. Huge Gulf refineries, centrally located in many sections of Gulf territory, furnish every one of the 45,000 Gulf stations with a convenient source of FRESH gasoline. Fast tank trucks speed FRESH gas to Gulf pumps every day. Get your money's worth! Get all the power you pay for. Get FRESH gas—get Gulf. Use it exclusively—your motor will be faster, cleaner, quieter.
