## Burglars Enter Eastland Store

One burglary and one attempted burglary has been committed in Eastland within the past few days. Saturday night entrance was gained to the Underwood & Rachel grocery by breaking out a window and several cartons of cigarettes were stolen. Sunday night an attempt was made to break into the A. & P. store.

Reports reaching officers in Eastland would indicate that there might be an epidemic of petty burglaries throughout this section. Eastland city police have some good clues as to the identity of those responsible for the Underwood & Rachel grocery robbery. The store was entered while the officers were making their regular rounds in a different portion of the city.

## FINANCE PLAN FOR C OF C IS FORMULATED

The finance committee of the Chamber of Commerce, composed of John Hassen, Calvin Brown, Grady Harrow, Dr. P. M. Kuykendall and W. C. Hickey, met in the office of the Chamber of Commerce Monday night and discussed plans for helping finance the work to be carried on by the organization during the coming year.

It is the plan of the committee to get the organization on a cash basis and to keep it on a cash basis, at the same time, provide funds for a more concerted effort toward the betterment of the city. Realizing tax valuations have decreased so much in the past few years that the two-mill appropriation to carry on the work, other plans were discussed. It was pointed out at the meeting that this decreased valuation, delinquent taxes and other causes had caused the income of the Chamber of Commerce to drop to the point that it was unable to operate efficiently.

A list of the business houses and the outstanding citizens of the town was made up and a committee is to call on each and solicit monthly contributions, which though small, should be sufficient, together with the expected revenue from the two-mill tax, to keep the organization going.

Letters are being prepared which are to explain the situation and the necessity of support on the part of the merchants and citizens and after these letters are mailed the committee is to seek such funds in the form of monthly dues, from among these firms and people.

## Large Crowd Attends Opening Of Elks' Arena

The re-opening of the Elks Arena Monday night found a packed house to which was presented one of the best exhibitions of good wrestling and boxing ever held in Ranger.

The card was arranged by Dewey Pippin, new athletic director for the Elks club, with Bill Angus one of the best middleweight wrestlers in west Texas as referee.

The main matches of the evening presenting Verne (Kid) Lewis, lightweight from Eau Claire, Wis., and Leonard Gustafson. The match between Lewis and Gustafson gave the fans all the thrills and action they wanted.

The two boys wasted no time in getting together and throughout the entire match they gave all they had, using both fair and foul means of dealing out punishment. Lewis was the aggressor throughout the whole of the match, while Gustafson gave an exhibition of good, clean wrestling.

The first fall went to Lewis on default, while Gustafson won the second fall with a double Japanese toe-hold. The final decision went to Kid Lewis on a foul. Gustafson, who was quite popular with the Ranger fans will probably appear on the Elks card again soon.

In the semi-finals, Herb Wakeland, the speedy young Waxahachie flash, clashed with Otis Hendricks.

Hendricks and Wakeland were well matched in both ability and weight and from the first bell to the last they gave all they had.

Wakeland cleaned the first round with a "roeking chair split" in 22 minutes with Hendricks taking the second after 23 minutes of hard wrestling ending in a "airplane spin," which completely dazed Wakeland for a short time. The decision of a tie did not please either of the boys so an extra 10 minutes was granted them. The extra time was packed with thrills for the spectators but the final decision was decided by the judges as a draw.

## LONG ON TRIAL BEFORE VOTERS IN ELECTION

By EARL B. STEELE  
NEW ORLEANS, La., Jan. 23.—Senator Huey P. Long's political machine went on trial before the voters of New Orleans today in a municipal primary election.

The voters were given their choice of three major tickets. Two of them are pledged "to banish Huey Long from politics." The third, sponsored by the illustrious Kingfish, offers to make the city government "free of politics."

A three-weeks' campaign of violent harangue, threats and promises preceded the election. The Old Regular Democratic party, now in power, ruled a slight favorite. The proud old guard has not been beaten here since 1920, when Martin Behrman won the office of mayor from them.

A well-organized, belligerent anti-Long faction headed by Francis Williams boasted of a strong backing in the race. Long's ticket, hastily organized only a few weeks ago after a break with the Old Regulars, ruled third best in the betting.

Mayor T. S. Walmisley is a candidate for re-election on the Old Regular ticket. Williams, who lost the election to Walmisley in 1930 by only 9,000 votes out of the 85,000 cast, is making another bid for the office. John Klorer, a trusted subordinate of the Huey P. Long state administration, carries the Kingfish's banner as a candidate for mayor. Each candidate heads a full ticket of municipal office-seekers behind him.

If one of the three candidates receives a majority of all votes cast, the two leading candidates will enter a run-off primary next month. Such a race between Walmisley and Williams was considered likely. In that case, Senator Long would hold the balance of power between the two, and might dicker with them for some of the city offices. Leaders of both groups, however, have declared that they will have no further dealings with Long.

The Old Regulars broke a three-year alliance with Long a month ago. Long said the break resulted when he tried to induce them to make a few changes in their ticket. Walmisley said it was because Long had revived President Roosevelt and brought shame upon Louisiana.

The alliance had enabled Long to control the New Orleans vote, which comprises almost one-third of the entire voting strength of the state. The break left Long stranded with only a minor organization at work in the city. The organization, consisting chiefly of some 1,500 state jobholders at work in New Orleans, together with their families and friends.

Williams broke relations with Long about ten years ago, when both were members of the public service commission of the state. He is one of the most forcible of numerous anti-Long figures in Louisiana, and has attracted a large following throughout the state during the past few months of "anti-Long rebellion," which has seen scores of mass meetings, effigy burnings, minor mob outbreaks, rotten-geg parties, and petitions for impeachment or ouster of Long and all the officers in his regime.

A victory for Klorer would establish the Long faction in direct control of New Orleans' political destinies for the first time, and enrich it with city jobs that draw millions of dollars a year in salaries.

## Stevens, Howard Are Removed To Dallas Co. Jail

FORT WORTH, Jan. 23.—O. D. Stevens and M. T. Howard, triple slaying and mail robbery suspects, today were moved to the Dallas county jail, because, United States Marshal J. R. Wright said, they have been receiving information from outside the county jail here. "Every time we dig up anything new, they find out about it," Wright said.

Wright said a floor drain system in the county jail here was being used as a speaking tube by prisoners for communication from floor to floor and possibly by outsiders.

"Terrible" Touhy shows no sign of the ferocity which gained him his fearsome nickname, as he sits in a Chicago court as shown here, during his trial with three aides on a charge of kidnaping John "Jake the Barber" Factor.

## DANCE TICKETS SALE TO START ON WEDNESDAY

The general committee for the President's Ball and heads of the organizations cooperating in making it a success, met in the office of the chamber of commerce Monday afternoon and discussed plans for the affair.

It was suggested that when the ticket sale starts Wednesday morning the committees in charge of the ticket sale find out which of those who purchase tickets would like to go to an old-fashion square dance and which would like to play bridge instead of attending the dance. If enough indicate an interest in the two other diversions, the square dance will likely be held at the Legion Hall with the American Legion Tievville Band furnishing the music and bridge will be played at the Colonial ballroom of the Gholson hotel.

A committee composed of Wade Swift, G. A. Murphy and Mrs. D. W. Johnson, the latter representing the American Legion auxiliary, solicited some of the leading business houses Monday and secured the following donations:

Texas Electric Service company \$15; J. C. Smith, \$5; J. H. Nottingham, \$5; Joe Harness, \$5; Commercial State Bank, \$5; Roy Gilbreath, \$5; Adams & Co., \$5; and R. H. Snyder, \$5. The committee is to complete its work today, after which the general ticket committee will begin work Wednesday morning at 10 o'clock, selling tickets for the dance.

The committee, which is to report for duty Wednesday morning is to be divided into teams and each team given one section of the town to work. The committee is composed of Mmes. O. B. Denney, J. E. Fletcher, J. A. Shackelford, W. R. Hodges, L. C. G. Buchanan, J. S. Riddle, L. N. Griffin, Al Tule, Bob Robinson, Roy Jameson, L. H. Flewellen, Walter Murray, Happy Leith, Bob Norman, E. L. McMillen, Saul Perlestein, E. E. Crawford, Sam Gamble, E. O. Samms and Carl Hill, and Messrs. Mickey Sloan, Earl Swoveland, W. C. Blackmond, Saul Pearlestein, G. E. Haslam, C. B. Pruett, C. E. May, Roy Gilbreath, Lloyd Bruce, Floyd Killingsworth, A. Neill, H. P. Earnest, Odell Bailey, H. C. Anderson, Sam Gamble, Harry Henry, O. E. Calvin, H. C. Kelly and J. D. McClester.

## Poll Tax Payments Slow In County

T. L. Cooper, county tax collector, Tuesday morning stated that currently his office was seiged with citizens making payment for their auto and poll tax. Due to the rush of the past several days, Cooper was unable to furnish exact figures as to their comparison with those of last year. He was of opinion that, all in all, the complete figures were below those of last year because of lack of alacrity of payments by citizens the first three weeks of January.

## TWO MURDER CHARGES FILED EARLY TODAY

Charge H. L. (Chile) Cobb Shot Youth, Crushed His Head and Burned Him.

HILLSBORO, Jan. 23.—H. L. (Chile) Cobb, about 33, was arrested here today on charges of murder in the death of Thomas B. Gullett, 18 year old Whitney youth, who was found dead in the smouldering ruins of a hay barn near Burleson Saturday.

Murder charges against Cobb were filed today, both here and at Cleburne. The charges claim Cobb shot Gullett and then crushed his skull with some blunt instrument.

Sheriff Jim Freeland and Deputies Kelly Rush and Joe Estes found Cobb picking up pecans on the farm of his parents, eight miles northwest of here. They said he turned pale but offered no resistance. He was not armed.

The farm is not far from the Gullett home at Whitney. Charges were filed in both counties, officers said, because it had not been established whether Gullett had been slain in Hill or Johnson counties. It was considered probable that he had been slain in Hill county and the body taken to Johnson county, where officers believed it was dumped into the barn and the barn set afire.

The suspect recently completed an 18 month penitentiary sentence for turkey theft. Officers said a double motive of robbery and revenge precipitated the slaying. It will have arisen between T. G. Gullett, the youth's father, and the suspect, Freeland said, when the man was arrested on charges of stealing a saddle from the elder Gullett.

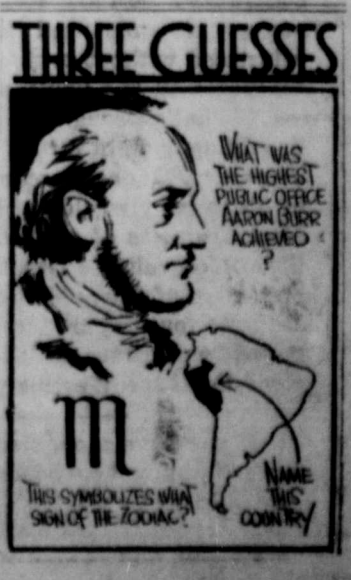

Young Gullett also was known to have \$50 in his pocket the night of the slaying, Freeland said, and the suspect's automobile had been in the vicinity of the Gullett home the same night.

Freeland constructed the crime in this manner: Young Gullett left his home in the family car Friday night and went with another youth named Tanner, to visit two sisters in the Whitney community, 50 miles from the barn in which his body was found.

During the evening the four went for a ride. Gullett told his date he was planning a trip to New Mexico and had \$50 in his pocket for the trip, Freeland said. They returned to the girls' home and Gullett drove Tanner home. On the return, Freeland said, J. A. Allison, a neighbor, passed Gullett on the road, recognizing him and his car. Allison said he saw Gullett turn his car and drive to where another car was parked.

From that point the youth's movements or those of the slayer are not known. Sunday a farmer discovered the youth's body, the head crushed, in the ruins of a hay barn near Burleson. No money was found on the body.

McDonald Has Largest Bloc For Campaign

By GORDON K. SHEARER  
United Press Staff Correspondent  
AUSTIN, Tex.—C. C. McDonald will go into the Democratic primary for Governor this year with the biggest single bloc of votes ever behind a candidate for that office.

A campaign to have relief recipients arm themselves with poll tax receipts already is under way. Receipts were shown when an entire WPA group on last payday took out poll tax receipts at Waco.

It is estimated that at least 100,000 potential votes are to be had among the recipients of direct and work relief. A call upon them to make a sacrifice and equip themselves with poll tax receipts so they can vote was made by former Gov. James E. Ferguson, who is supporting McDonald's candidacy.

This appeal is likely to be followed by a campaign instilling the belief that continued state aid can be expected only if the administration favorite is elected.

Danger for McDonald lurks in possible relief collapse before July 28 when the first primary vote will be cast. In such an event, a reaction probably would set in that would help Tom Hunter's campaign. Hunter outspokenly took the side of the underdog in his campaign of two years ago. That he was sincere in his plea has not been questioned so he may be expected to follow the same line when his campaign this year gets under way. If relief recipients become dissatisfied with relief administration, a large part of them would probably swing to Hunter.

Prompt steps have been taken by the State Relief Commission to head off relief being made a political football. Administration and non-administration members

Twins Might Not Have Same Father A Doctor Declares

By United Press  
HOUSTON.—Claim of a Yarkton, S. D., husband that one of his wife's twins was the child of another man, is perfectly reasonable, according to Dr. Neal Davis, prominent Houston physician.

He concurred in the opinion of Judge A. B. Tripp of Yankton, who granted the accusing husband a divorce on the grounds of unfaithfulness, awarding one of the twins to the man and one to the woman. Great differences in physical features of the two children was claimed by the husband after consultation with medical authorities.

"Such a thing is perfectly possible in the case of fraternal twins," Dr. Davis said.

"It is possible for conception of one twin to take place a week or 10 days before or after conception of the other," he said, inferring it would be as possible for each of the babies to have a different father.

"In fact," he said, "there are

Bloody Battles In West Just Memory

By United Press  
EL PASO.—The southwest's once bloody battles between the cattlemen and the shepherms are only a memory, for 50,000 head of sheep are grazing on the ranges near El Paso in perfect harmony with the cattle.

The sheep have come to stay, welcomed by cattlemen who found the "woolies" more profitable than calves.

In the pioneer days, antipathy of cattlemen to sheep often led to violence and bloodshed—a needless warfare since local cattlemen say that the legend that cattle will not graze with sheep has been exploded.

C. N. Bassett, State National bank president, and Frank R. Bryant graze 2,000 head of sheep on the Hueco mountain cattle ranges. C. M. Harvey, El Paso National bank president, has 12,000 head at Carrizozo, N. M. Other large herds are at Kent and Sierra Blanca in West Texas and Mountainair, N. M.

The election was held at a recent meeting at the Macie Hotel. Committees of the bar organization were appointed to arrange for a general district bar association meeting, the date to which is to be announced later.

## Mrs. J. S. Reynolds Elected Vice-President P. T. A.

Mrs. C. E. Maddocks, who has just recently returned from an important board meeting of the State Parent Teacher Association which convened at Austin, an-

nounces the election of Mrs. J. S. Reynolds as vice-president of District No. 1. At present Mrs. Reynolds acts as president to the City Council of Parent Teachers and Child Study Associations, successor to Mrs. Maddocks who so splendidly represented the local organization at this session.

The election of Mrs. Reynolds replaces the vacancy made by Mrs. Barney Carter who recently moved to Tyler to make her home. A district conference meeting will be held in Fort Worth during the month of April at which time the board will outline the program for the year. The Ranger vice-president will be numbered among those in attendance at this special meeting.

## Miss Adamson's Pupils To Serve Plate Luncheon

Room pupils of Miss Marguerite Adamson, Young ward school, will serve a plate luncheon at the school Thursday noon with all arrangements to be completed under the supervision of Mrs. W. W. Jarvis and Mrs. H. D. Bishop.

At a recent meeting of the Parent-Teacher Association, A. N. Larson, member of the school board, gave a splendid talk on "Thrifty," making the hour well worth while.

The attendance contest which opened some two weeks ago is making great headway according to the attendance at last session. The attendance of mothers registers one point, fathers two points and grand-parents three points. The gold star, a feature of this contest, was awarded pupils of Mrs. O. B. Denny last Tuesday for the largest number of mothers present for the program the second meeting of the new year. This contest has been announced to extend through March, so states the president, Mrs. F. E. Jacobs.

## Increasing Interest Noted at W. M. S.

Increasing interest and enthusiasm was noted at the Women's Missionary society meeting of the Methodist church Monday afternoon when the society presented Mrs. J. M. Bond, wife of the pastor, in the first lecture of a series to continue throughout the coming weeks. These inspirational Bible lessons will be woven about the outlined programs to fill each Monday afternoon and promise to lend added value to the study held at 3 o'clock, instead of 4 o'clock, as was announced in Sunday's column.

An article taken from the World Outlook well known magazine read in a number of Methodist homes, was discussed by Mrs. B. A. Tunnell, past president. "Gospel Writers" offered an equally interesting topic given by Mrs. S. P. Boon, Mrs. G. O. Strong and Mrs. D. Perry. "The World at the Time of Jesus' Birth," was heard with Mrs. C. D. Woods and Mrs. A. J. Rathiff, presented in discussion.

## Design For Living Has Much Talent By Cinema's Best

When seven accomplished artists collaborate on a motion picture the result ought to be gratifying, and it is, as revealed in Paramount's "Design for Living," which opened yesterday at the Arcadia theatre.

The seven who contributed their great skill, enthusiasm and sophistication to the comedy drama are Fredric March, Gary Cooper, Miriam Hopkins, Edward Everett Horton, Director Ernst Lubitsch, Noel Coward, the playwright, and Ben Hecht, who transcribed the play for the screen.

Adroitly conceived, brilliantly directed and acted with verve and understanding, "Design for Living," opens a new, broad field of screen literature, and it may be predicted that here is a plot that will be copied extensively as the next film cycle.

The story is unique and absorbing. An American girl falls in with two young musketeers of art in the Paris Latin Quarter. The men are life-long friends. A strange love affair is inevitable, and the principals resign themselves to whatever joys, jealousies and agonies may result from a three-cornered love.

But she crosses them both up by marrying a third man who offers her his heart and name. He, unfortunately is too obsessed by his affairs to give her the love she needs, and when she realizes her mistake, she leaves her husband for her two musketeers.

No Jack-in-the-box surprises were ever applied more adroitly to motion pictures plot than those uncooked by the two-coming threesome in "Design for Living." And the climax is a laughing bombshell, as anyone might expect of an Ernst Lubitsch-Ben Hecht adaptation.

After all his undue misgivings for turning his masterpiece over for motion picture entertainment, playwright Coward may now rest easily. For Paramount's offering matches in every particular the brilliance of the Broadway play. The picture closes its local run today.

## Kelvinator Sales Show An Increase

DETROIT, Mich., Jan. 23.—Orders received by Kelvinator Corporation during the first half of January were 200 per cent greater than those received during the same period of 1933, it was announced by George W. Mason, chairman of the board and president.

Mr. Mason also declared that orders received during the month of October, November and December, which comprise the first quarter of the present fiscal year, were 150 per cent of those for the corresponding period of the previous year.

"In planning its 1934 sales program, Kelvinator Corporation has gone ahead on the belief that the groundwork for substantial business improvement in the United States already has been laid and that 1934 will see the benefits arising from this work," Mr. Mason said. "We are happy to say that present signs point to the truth of this conviction."

"In a series of field meetings held in key cities of the United States, Kelvinator now is inaugurating its 1934 sales and advertising program which is the most extensive the company ever has undertaken. Plans for greater use of newspapers and magazines in advertising, an increase in the field selling organization, and introduction of radically improved domestic and commercial refrigeration equipment all are important features of the company's plan to make its twentieth year in the industry its greatest," Mr. Mason said.

# Aladdin Magic

THE OLD ADAGE, "Man toils from sun to sun, but woman's work is never done," is only partially true today. Science has taken an interest in the home of late years, and has done much to lighten the burdens of household tasks.

Science has harnessed electricity to make it perform a sort of "Aladdin magic." It works for us, twenty-four hours a day—and its pay is low considering the labors it accomplishes. It furnishes light and heat. It sweeps the carpets and polishes the floors. It runs the sewing machine and washes the dishes. It toasts the bread and percolates the morning cup of coffee. It beats the eggs; it stirs the dough and bakes the bread; and last, but not least, it furnishes the power for the radio to entertain day and night.

You learn of these, and many other time and labor saving devices through the advertisements. They keep you informed of new things and give you dependable facts on which to base a purchase. These are good reasons for believing a product is "better because it's advertised."
