Schools which will receive the grants are George Hill, Grandview, Okra and Shady Grove. A peculiar outgrowth of the granting of the funds is the fact that the money is for the continuance of school terms whose terms, in most instances, are over.

Confidence on the part of the teachers that the grants would be made prompted their voluntary teaching even though the shadow of uncertainty of pay was in evidence.

'WAS TAKING EVERY KIND OF DRUG FOR CONSTIPATION'

Then ALL-BRAN Brought Relief

Read this very enthusiastic letter: 'I am 34 years old and as far back in my life I have been constipated...

'Now for the last two months I have been eating a little ALL-BRAN night and morning and I have at least two to three bowel movements each day.'

Laboratory tests show Kellogg's ALL-BRAN provides "bulk" and vitamin B to aid elimination.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Inside the body, it forms a soft mass.

Isn't this safer than taking harmful patent medicines? Two table-spoonfuls daily are usually sufficient.

You'll enjoy eating Kellogg's ALL-BRAN as a cereal with milk or cream—sugar or honey or fresh fruits added.

Crosby Is Named King of the Radio In Latest Picture

Following his election to the rank of the nation's top ranking radio singer, Bing Crosby makes his first appearance on the screen in Paramount's "We're Not Dressing," which comes on Monday to the Arcadia Theatre.

Crosby topped all other air performers in the recent nationwide poll of radio editors, conducted by the New York World-Telegram. His Paramount team-mate, Lanny Ross, who recently made his film debut in "Melody in Spring," took second spot in the poll.

In his latest picture, directed by Norman Taurog, Crosby is featured with Carole Lombard, George Burns and Gracie Allen, Ethel Merman and Leon Errol.

The music was written by Mack Gordon and Harry Revel whose "Did You Ever See a Dream Walking?" and "You're Such a Comfort to Me," were last season's hits.

"We're Not Dressing" is an adventure-film musical. It tells the story of a wealthy heiress who, with a company of sycophantic friends, is shipwrecked on a South Sea island.

Fast Action Fun In "Above the Clouds"

Things happen every moment in the life of a newsreel cameraman. First, hanging from the wings of a stunting airplane photographing three dare-devil pilots in action; then grinding away in the cabin of a dirigible cracking under the strain of fierce Atlantic storm; riding a destroyer as it accidentally rams an emerging submarine and finding plenty of time for fun and romance.

If you enjoy newsreels—and who doesn't?—you won't want to miss the exciting inside story of how the camera hawks get their stuff.

Why Is a Fly Speck? A fly speck is only a fly speck to many people, and to many a stage comedian it has been the source of a good "gag" when he "played a fly speck instead of a note."

However, to anyone familiar with the filthy nature of flies, a fly speck is a warning of danger. Flies develop from eggs which are laid in filth and emerge carrying a load of disease germs and filth on their body.

The egg of a fly will produce an adult within two weeks. In fact, if the sons and daughters of two flies lived and each generation were allowed to reproduce themselves one summer, the result would be over 60,000 tons of flies.

Of course flies are not allowed to reproduce in such a manner, because mankind has learned to combat them. One of the most potent destroyers of flies in the home is Fly-Tox, produced through a fellowship placed at Mellon Institute by the Rex Research corporation.

It is a liquid which is deadly to flies even when only a fine mist is strayed in the air where the flies are found and it is harmless to people.

**CASH PRIZES REDUCED**  
By United Press  
STOCKHOLM.—Each of the five Nobel Prizes this year will be worth \$43,254 or \$2,054 less than in 1933. This reduction partly is due to lowered dividends on the investments of the Nobel Foundation, and partly to increased taxes. In 1923 the Prizes were worth 30,552 each, while in 1931 they were valued at \$46,364 each.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

THAT buying days are always with you. Every day something is needed.

The stores of your city have complete stocks and an able corps of clerks to serve you.

They carry merchandise which can satisfy your every want. The quality is the best and the prices are most reasonable.

Local business concerns have the good will of all and are known throughout the trade territory of your city as "stores of service."

You should not forget that it pays to buy at home.

Your up-to-the-minute business concerns are inviting you to shop with them. They are offering you a variety of merchandise which is of the right quality at the right price.

Your local business concerns are ready to give you service—real service which will show you that your trade is appreciated.

THAT one of the best ways to build a city is for the citizens to unite in building up home institutions.

A campaign of education to teach the importance of the home city should be put on in many cities.

Too many people make their living in a city and spend almost all they make in some other city.

Outside concerns pay no taxes in your city. All they do is take away and put nothing back.

It is always better to oil the machinery that builds the home city than to grease the wheels that build some other city and kill yours. BUY AT HOME!

People who have pride in the home city and want to see it progress, who want to see their city kept out of the rut, who want to help instead of hinder, have the proper spirit. They buy at home!

The home city should be in the minds of every citizen and the business of the home city should rank first. If it does not, then the people who forget it are not worthy to live in the city and be supported by it.

The man who thinks first of the home city is to be admired.

Good citizens have the interest of the home city at heart and they appreciate the opportunities their city offers. They are working with others to make the home city bigger and better.

County Donates to Abilene Orphanage

Authorization to the county treasurer and clerk for the issuance of a \$50 check, as Eastland county's donation to the West Texas Children's Aid and Welfare Association of Abilene for 1934, was made by the commissioners' court May 14. The donation was made by the commissioners because, as the order stated, the association has rendered Eastland county valuable service to orphans, neglected children and dependent children and found homes for them and that Eastland county had made small donations in the past and desired to continue to do so. The \$50 was charged to the general fund.

### Duke of Duval Is Defending Domain

BENAVIDES, Texas. — The Duke of Duval has drawn his battle lines to defend his political domain of 18 South Texas counties which he has represented in the state senate for 20 years.

The Duke, officially registered on the legislature's roster as Senator Archie Parr of Duval county, is in the race for re-election this year principally because of his love to fight. Two years ago he announced he would retire. He is 73. But he changed his mind because his enemies said if he didn't get out they would beat him.

"All right, we'll see if you can," was his reply, according to his son, County Judge G. E. Parr.

The battle will be waged over the southernmost tip of Texas—from the Winter Gardens country south of San Antonio to the ranges of the cattle barons and the citrus growers of the Lower Rio Grande valley.

Competition is strong for the Duke this year. F. W. Seabury of Brownsville, speaker of the house in 1905 and 1906, is a prominent attorney and at one time was a political power of Texas. Jim Neal of Webb county, easy-going rancher, gave Parr a scare four years ago when he received only 3,600 votes less than the veteran politician.

There are those in the Rio Grande valley who say that Parr's tenure will end with the election this year. The Good Government League of Hidalgo, outside the democratic fold for six years, has dissolved—returning 7,500 members and anti-Parr voters to the party.

All this the Duke knows and he has planned one of the most in-

**MORE THAN 50% LONGER NON-SKID MILEAGE in the NEW Firestone HIGH SPEED TIRE for 1934**

THE new Firestone High Speed Tire for 1934 is the greatest tire Firestone has ever built. With its wider, flatter tread, greater thickness, deeper non-skid, more and tougher rubber, and greater non-skid contact with the road, you get more than 50% longer non-skid mileage.

This new development is made possible by the Firestone patented process of Gum-Dipping, whereby the cotton fibers inside the high-stretch cords are soaked and coated with pure liquid rubber. This provides greater strength, safety and blowout protection.

Firestone engineers pioneered and developed the first successful balloon tire in 1923, and it is only natural that Firestone would lead in the further development of tire construction to meet the demands of the high-powered high-speed cars of today.

The new Firestone High Speed Tires for 1934, have already proved their worth by constant testing on the Firestone fleet of test cars over all kinds of roads and highways throughout the United States.

Firestone High Speed Tires are further subjected to the most severe tests known on the greatest proving ground in the world—the Indianapolis Speedway. In fact, Firestone Tires have been on the winning cars in the annual 500-Mile Indianapolis Race for fourteen consecutive years—conclusive evidence of Firestone's outstanding leadership in tire development and construction.

Drive in today and replace your thin, smooth, worn tires with a new set of the Safest—Longest Wearing—and Most Dependable Tired Firestone has ever made

# JOE E. BROWN RETURNS TO LOCAL SCREEN

A week of the most outstanding pictures ever shown on the local Arcadia screen start Friday when Clark Gable appears in "Men in White," his latest film, with Myrna Loy and Elizabeth Allen. "Men in White" is acclaimed by Broadway as the biggest stage hit in years and is now in its eighth month on Broadway. Gable, who will be remembered for his brilliant performance in "Dancing Lady" and "It Happened One Night," takes the lead as a noted surgeon, with Myrna Loy as his leading lady. In addition to this great screen attraction, Mary Bell Downtown will present her students of the dance on the stage at 9 p. m. Friday only. Mrs. Downtown's students have made several appearances on the local stage and are considered quite an attraction.

Sunday, Joe E. Brown will be seen on the screen in his latest sensational hit, "A Very Honorable Guy." Joe E. is the most popular of the comedians ever to be seen in Ranger and holds the house record for attendance. In his latest picture, Brown has the role of a gangster who couldn't be crooked. He was just too honest to live and almost didn't. Alice White co-stars with Brown in this film which promises to be filled with fun. A 20-minute musical short and Paramount News conclude this bill for Sunday only.

Ranger theatergoers have a real thrill in store for them Monday when Bing Crosby and Carole Lombard appear in "We're Not Dressing," the latest musical hit. Crosby does more singing in this film than in any he has ever starred. "Love Thy Neighbor," "May I," "Once in a Blue Moon," "She Reminds Me of You," and "Goodnight Lovely Little Lady," are the songs he sings with Bing. On this same bill Chic Sales appears in a 20-minute laugh maker, "Oils Well."

Wednesday and Thursday May Robson, the star of "Lady for a Day," will be seen in "You Can't Say Everything." Jenn Parker co-stars with May Robson in this picture. Miss Parker had the role of Beth in "Little Women," and appeared on the local screen this past week in "Lazy River." A real stage attraction will be offered in addition to this picture. The Tom and Jerry Trio will appear on the stage after each program and entertain with melody and music. Tom and Jerry played this city two years ago at the Columbia where they were a great success. An Edgar Kennedy comedy and Paramount News conclude this already complete bill.

The Columbia theatre shows "West of the Divide," Saturday and also starts a new serial, "Perils of Pauline." This bill is supported by an Our Gang comedy, "First Round-up." Sunday the Columbia gets "Above the Clouds," an air picture with Robert Armstrong, Dorothy Wilson, and Richard Cromwell. This picture promises much action and good entertainment. A 20-minute musical short, "Roman Vandals," and an Oddity complete the bill for Sunday only.

We're well on our way to becoming hairless, toothless, and boneless, says a New York scientist, and when man gets that way he'll look back at the people of today and be sure Darwin was right.

## Joe E. Brown

Get set for a grand time when this lad steps out as "A Very Honorable Guy," the First National comedy hit coming to the Arcadia. Others in this riot of laughs include Alice White, Alan Dinehart, Irene Franklin and Hobart Cavanaugh. It shows Sunday at the Arcadia.

### MAY 17

"May I hold you to my heart?" words from one of the hit tunes in Bing Crosby's Paramount Picture "We're Not Dressing," which comes on Monday to the Arcadia theatre, is what he's singing to Carole Lombard—and suiting the action to the words.

### BIBLE IN 233 TONGUES

DULUTH, Minn.—Bibles, written in 70 different African dialects, were received recently by the Northern Bible Society here, in addition to the 15 African Bibles already in the society's possession. Members said there are 233 different African tongues with their own translation of the Bible. The society is seeking samples of the other 148.

### STICKS TO FORKED STICK

TAYLOR, Tex.—Henry Wilson, well digger, backs a forked switch for finding underground water with 25 years' well-digging experience. Four out of five times a "switch" will locate the water, Wilson says. Why it misses the other time, he does not explain.

## Exceptional Cast Supports Brown In 'Honorable Guy'

An exceptionally talented cast has been announced in support of Joe E. Brown, the prince of comedians, who comes to the Arcadia theatre next Sunday in the First National picture, "A Very Honorable Guy."

Alice White, the diminutive blonde, who was a reigning star two years ago, plays the leading feminine role. Miss White recently returned to screen work and has played the leading feminine role in three pictures, "Employees' Entrance," "Picture Snatcher" and "The Hair Chaser."

Others in the cast are noted both on the stage and screen. Robert Barrat, who recently came to the screen where he has appeared in such pictures as "Gambling Lady," "Hi, Nellie" and "Massacre," was famous on Broadway for many years. It was while laying in "Lilly Turner" in New York that he was engaged to play the same part on the screen.

Alan Dinehart also is an old stage player although he has been doing picture work for the past several years, his most recent being "The Hair Chaser," "The World Changes" and "The Bureau of Missing Persons."

"A Very Honorable Guy" is the

fourth picture for Irene Franklin, a headliner in vaudeville and on the musical comedy stage. Her other picture include "Registered Nurse," "The Cat and the Fiddle," and "The Women in His Life."

Among others in the cast are such well known players as Hobart Cavanaugh, Arthur Vinton, George Pat Collins, Harold Huber and James Dondan, Harry Warren and Al Dubin, the famous song writers, appear in the picture in their professional roles.

"A Very Honorable Guy" is a distinct departure in Joe E. Brown comedies, Joe playing the role of an underworld character. The picture is based on the hilarious story by Damon Runyon, famous sports and short story writer. It was directed by Lloyd Bacon from the screen play by Earl Baldwin.

### Actress Jealous of Gables' Affection For Myrna Loy

Dorothy Gray's sad dilemma is that she is utterly lacking in sex appeal.

Dorothy, slim and pretty, frankly admits it and bemoans the fact. It is particularly trying, she says, when playing in the same picture with such romantics as Clark Gable and Myrna Loy.

Ten-year-olds are never taken seriously—that is the root of little Dorothy's trouble.

In "Men in White," new M-G-M production showing at the Arcadia

theatre, Dorothy plays the role of a young hospital patient whose life is saved by Clark Gable, enacting the part of Dr. Ferguson in the dramatic story of hospital life.

"It isn't fair," she said. "Clark pays no attention to me except for a pat on the head now and then. And he holds Myrna in his arms in scene after scene."

Dorothy's first film role was in "The Scarlet Letter." Her charm was so captivating that she has been appearing in pictures ever since.

### HAD TO SWIM

After being shipwrecked for scenes in Paramount's "We're Not Dressing," most of the cast, including Bing Crosby, Carole Lombard, Ethel Merman and Leon Errol, had to swim ashore. When they arrived at the beach, they found George Burns and Gracie Allen waiting for them.

### HOG SQUEAL TELLS WEIGHT

BOLCKOW, Mo.—George Hobson who lives east of Bolckow has become famous throughout this region for his ability to tell within a few ounces how much a hog weighs. "I can tell the hog's weight by hearing it squeal," Hobson explained.

We can live to be 200, says a French doctor, if we breathe properly. Hum. We can live forever as long as we breathe at all.

## Boats and Beasts Appear On List Of Film's Props

What would an ordinary citizen do if he were suddenly required to produce a steam yacht, a lion, a gorilla, a gold framed picture, and a set of footprints, along with a hundred other equally extraordinary things?

Those are just a selected few of the list of requirements handed in to the Paramount property and location departments by Director Norman Taurog, when he began work on "We're Not Dressing," coming Monday to the Arcadia theatre. The picture features Bing Crosby, Carole Lombard, George Burns and Gracie Allen, Ethel Merman and Leon Errol.

The lion and the gorilla were not the only animals required. The list also asked for a bear, one hundred and fifty clams and a dead duck—with the shotgun that killed him.

As for mechanical aids and hardware, there was one ocean freighter and passenger steamship, each with captain; a water bicycle; two stone choppers; a chest of tools that would float; and a case of prop whisky.

"We're Not Dressing" is a merry comedy about the shipwrecked passengers of a palatial yacht, who are forced to submit to the

authority of a witty sailor, who is the only practical member of the party. After they are comfortably settled in their jungle home, a ship comes to their rescue, but the sailor succeeds in toning the haughty heiress, and winning her hand.

### Books Received At Library to Be Available to All

In addition to the 100 books recently received by the local library at the high school there will be sent from the state library at Austin two traveling libraries of 50 volumes each, one-third each of juveniles, adult fiction and adult non-fiction. These books, as well as the ones owned by the high school-junior college library, will be available to any child or adult through the summer months, without the payment of a fee of any kind. This summer library will be made possible by the co-operation of the school board, women's clubs, service clubs and fraternal organizations of the city who believe we must continue to invest in the human resources. That through good books we can help liberate and develop the untapped energies of the mind and spirit and pass from the depression into a nobler prosperity and a more general power.

### Production Credit Interest Rate Is Now Five Percent

E. R. Maxwell, secretary-treasurer of the Breckenridge Production Credit association, has just received word from Governor W. W. Myers of the farm credit administration in Washington, D. C., that the interest rate on new loans from production credit associations has been reduced from 5 1/2 to 5 per cent. According to Mr. Maxwell the new 5 per cent interest rate becomes effective immediately on all new loans and advances made by the association and will be applicable until further notice. "The new interest rate of 5 per cent will not affect loans already advanced in full," Mr. Maxwell said. "Those will continue to bear the rate of interest prevailing at the time the loan was closed. The interest charges on loans from the association are collected when the loans mature. The Breckenridge Production Credit association is now making loans on acceptable crop and chattel security (farmers in Jack, Young, Palo Verde, Throckmorton, Eastland, Ackelford, and Stephens counties).

"The reduction of the interest rate to 5 per cent on new loans," Mr. Maxwell continued, "is made possible by a recent sale of federal intermediate credit bank debentures to investors at an unusually low rate of interest. The association gets money to lend; farmers from the federal intermediate credit bank of Houston. "The lowering of the interest rate on new loans to 5 per cent is the second reduction in two months, the rate having been reduced from 6 to 5 1/2 per cent on March 16. "According to Governor Myers," Mr. Maxwell, the federal intermediate credit bank is passing immediately to farmer-borrowers from production credit associations the savings made possible by the reduction of interest. The confidence of investors in the security of the intermediate credit banks has been such that the banks are able to get money to lend at the lowest discount rate in their history. Governor Myers says the resulting low rate of interest on production credit associations is enabling farmer-borrowers to save thousands of dollars on the cost of their farming operations this year. If the associations can collect an adequate supply of low cost money will continue to be available."

### Lone Star Is

(Continued from page 1)  
by Koch and a two-base blow by Wyatt.  
The Gassers gave Robinson almost perfect support, the only error being charged against them, going to Hill when he let Koch's single get past him for two extra bases.  
Onis Littlefield, Gasser third baseman handled the hot corner in grand style coming up with two hard hoppers and getting his man by a hair. He also made several nice fly ball catches.  
Both Ford for the Gassers, and

Smith for "Aunt Maggie" made nice running catches.  
Big Tom Yonker showed the fans that a fat boy can be fast at times, when he outran Coe to first base in the seventh inning.  
After Foy had nattered in the first for Lone Star, with two away, Croft, Davis and Goe singled in succession to score one run and tie the score, Davis being out at home base trying to score from second on Coe's single. Foy made a perfect throw to Griffin to demonstrate that a runner cannot always score from second on a clean single.  
Lone Star took advantage of Magnolia's four errors in the third combining them with two base blows to score three runs and take the lead again.  
They bunched five hits and a walk to tally five more runs in the fifth.  
Magnolia scored one run in the fourth on Koch's single, Hill's error and a line single by Anderson. From then on the Gassers were "air tight."  
Robinson got in a bad hole in the fifth walking Smith and Kindred to fill the bases but fast, snappy fielding held the Magnolia boys scoreless as Littlefield took Koch and Davis via the sky route and Gene Yonker threw Coe out

### DONNA of the BIG TOP by BEULAH POWYLER

**BEGIN HERE TODAY**  
DONNA GABRIEL and MADELINE SIDDAL, who call themselves "The Gabriel Sisters" are nice performers. Years earlier Madeline ran away from her grandfather's farm.  
When Donna is injured by a fall from the trapeze Madeline arranges for her to be taken to GRANDFATHER SIDDAL'S farm to recuperate. To please her particular Donna pretends to be Madeline. She falls in love with BILL SIDDAL, Madeline's cousin, and though she is ashamed of deceiving Bill and Grandfather she is afraid to tell the truth.  
Meanwhile Madeline marries CON DAVID, animal trainer with the circus, and although she pretends to be Madeline, she takes part in the animal act.  
MRS. PLANTER, the housekeeper on the farm, is hostile to Donna.  
Bill asks Donna to marry him.  
**HOW GO ON WITH THE STORY CHAPTER XX**  
DONNA'S wedding day! The sun shone in an almost cloudless sky. The air was crisp and cool after several sultry weeks. A robin, singing in a catalpa tree outside her bedroom window, awakened Donna.  
She looked at the clock on her dressing table and was amazed to find that it was after 8:30. How had she ever come to sleep so late? What consideration had prompted Mrs. Planter not to call her?  
Of course she had lain awake very late the night before. Earlier in the evening she and Bill had sat on the river bank, their hands interlocked, until the dew had made shoes and clothing dank and uncomfortable. Then, under a brilliant moon, they had strolled slowly back to the house. There they had clung together in a good night kiss that was like a farewell.  
"Never again, a sweetheart," Bill had whispered. "This is the last time we'll ever part."  
The wedding was to take place at 12 o'clock. Only Grandfather Sidral and Mrs. Morgan, the minister's wife, besides the Reverend Morgan himself were to be present. Mrs. Planter had laughed noiselessly when she had been informed there was to be no wedding breakfast and no guests.  
"Not that I expected to be invited. My land, no! Even if I lived here for five years I ain't anything more'n a servant to Madeline. I'd like to know what Amos Sidral would have done without me while that girl was galivantin' around the world!"  
MINNIE JONES helps Donna dress. Shortly after Donna had eaten a breakfast consisting of little more than coffee, Minnie arrived, tearful and excited. She shampooed Donna's hair, saving over the glint of gold in the copper waves, regretted that the bride was not to wear a veil and trailing satin dress, but "reckoned" pink chiffon and a white leghorn hat trimmed in wild roses were just "too sweet."  
From the living room window Mrs. Planter watched the trio depart—Grandfather in an old Prince Albert coat he insisted upon wearing (though the seams were green with age) since he had worn it at Madeline's father's wedding; Bill in a new suit of gray tweed; and

Donna, looking lovelier than ever in the shell pink chiffon with tiny puffed sleeves and innumerable ruffles on the skirt.  
The housekeeper turned away from the window, her lips set more tightly, if possible, than usual. She told Minnie to "shut up and go on home." Then she went upstairs to the room she had occupied since coming to the farm over five years before.  
Of course that young upstart could send her packing. She'd natter all along that Madeline Sidral had no use for her. Might as well start packing now as any time. Mrs. Planter dragged her old camel-back trunk down from the attic and took out the upper tray. The first thing she saw was the cigar box containing her most cherished possession, a lock of Nub's hair when his curls had been cut, a tintype of the late Mr. Planter, a bit of her wedding cake (a gray rock now), a sea shell picked up beside Lake Michigan the only time Mrs. Planter had ever visited Chicago, and—a rolled up, gaily-colored sheet of paper.  
She took out this last and studied it, squinting over the tops of her spectacles. She scratched her head and pursed her lips. Madeline Sidral getting married in the arena, so the advertisement said.  
SHE felt certain that neither Bill nor Amos Sidral knew anything of the wedding described in the hand bill and equally certain that Donna would not want them to know. It was, she thought, a good thing that she had kept the bill. She tucked it into the pocket of her apron and decided to wait a while before packing up to leave the farm.  
Two hours later the bridal party returned. Donna was flushed and beautiful; Bill, ruddy and slightly embarrassed. The housekeeper was sitting in the hammock on the front porch, as bland and smiling as if she wished the young couple all the happiness in the world.  
"I'm a husband, Mrs. Planter!" Bill cried, springing up the steps. "Congratulations! I'm the happiest man in the world!" He caught her hands and swung her to her feet.  
"Land sakes," she gasped. "Don't do that! Well, I hope you will always be happy, but I don't approve of cousin merryn' and I'm not going to pretend I do."  
"That woman is sheer vinegar," Donna laughed as Mrs. Planter went into the house.  
A simple mid-day dinner was served. Then Donna, whose happiness made her desire peace with all the world, offered to help Mrs. Planter in the kitchen. Always before Donna's overtures had been refused but today the housekeeper nodded and said she reckoned a little help might come in handy.  
As usual Grandfather went to his room for a nap and Bill went off to the fields. The two women were practically alone in the house. Mrs. Planter piled the dishes in the hot, sudsy water in silence and placed them, shining and dripping, in another pan for Donna to wipe

on an easy boulder.  
There was quite a little conversation as to illegal pitching, several fans and Magnolia players declaring Robinson was making illegal deliveries in this game.  
Possibly I am wrong as I certainly do not hold myself as an authority on soft ball rules, however, my interpretation of the pitching rule allows the pitcher to move in the box as he desires AFTER the ball has left his hand but only one step forward in making the delivery. Robinson was watched closely and umpire Davenport, Chief Murphy and Dave directly behind home base agreed that Robinson released the ball before taking more than the one step allowed.  
I want to say here that I have watched every ball pitched to date in league play this season and to my knowledge there is only one pitcher in the League that pitches every pitch legal. He is Ernest Glazner, pitching for the Ranger Times.  
Possibly we all could use some good pointers on just what is and what is not a legal pitch.

### WHY... IS THE MECHANISM OF THE REFRIGERATOR YOU BUY SO IMPORTANT?

5 YEARS PROTECTION FOR ONLY \$1 A YEAR

With the General Electric Monitor Top refrigerator you get the standard 1 year warranty... PLUS 4 more years protection on sealed-in steel mechanism for only \$1 a year!

THE mechanism represents approximately 70% of your investment in any modern refrigerator. Look to its performance record for the greatest value in the refrigerator you buy... and your greatest satisfaction in its use year after year. Features alone are worthless unless the mechanism provides constant cold 24 hours every day throughout many years.

The General Electric Monitor Top set a new standard in dependable electric refrigeration at low cost. Its performance record is without parallel. Introduced in 1927, the General Electric was the first electric refrigerator to carry a 2 year guarantee, then a 3 year guarantee, then a 4 year service plan. Now, you are protected 5 years against any possible replacement cost on this famous sealed-in-steel mechanism for only \$1 a year!

See the new 1934 General Electric models you are now displaying and you will understand why the General Electric is universally recognized as the standard of refrigeration excellence.

### Refrigeration By Electricity Offers Many Advantages

By MISS CLARA DEAN

General Electric Kitchen Institute One of the biggest conveniences of an electric refrigerator is the extra storage space that permits the purchasing of the entire week's supply of food on one marketing trip. Food purchased on Saturday will have been kept in perfect condition until the next Friday. What a convenience this proves to be both in the hot summer and in the cold rainy winter weather.

It is hard for anyone not accustomed to such convenience, to realize how an electric refrigerator simplifies the preparation of a meal. Not only does it simplify the preparation but it adds variety such as frozen desserts, salads, and ice creams that can be made only in an electric refrigerator.

With dependable electric refrigeration, salad dressings, sandwich fillings and desserts can be made in advance and stored until needed. Garnishes of which only small portions are used at a time can be kept firm and fresh. Pastry for pies or hot rolls or biscuit dough can be made up in the morning and kept in the refrigerator until evening or even until several days later.

An ordinary meal can be converted into a company dinner at a moment's notice. It takes but little effort to put together a fancy dessert or salad—and the "trimmings" are always on hand. These various comforts and conveniences alone make an electric

refrigerator a worthwhile purchase—and when you add to them the absolute health protection which is worth hundreds of dollars per year, and the actual economies amounting to over \$150 a year, it doesn't seem possible that people would continue with the old methods of refrigeration.

The only reason they do, is because these things haven't been explained to them so that they can understand the real values of electric refrigeration. There are now over 5,000,000 electric refrigerators now in use and they have proven to be an actual necessity in every home where installed.

### Man Walking to South America In A Bathing Suit

By United Press

HOUSTON.—Fred R. Scott, 22, Tampa, Fla., is "strolling down to Rio" clad only in his bathing suit and a pair of tennis shoes.

Eight weeks after he strolled from his job at a riding academy in Tampa the former Cornell University student ambled into Houston, stunted and badly in need of a shave.

Life wasn't all it might have been even though he had a good job, the young adventurer said in reviewing his actions.

"I'm going for a stroll," he casually announced to his beach friends at Tampa.

"Where to?" he was asked.

"To South America," was his solemn reply.

His stroll through the main streets here nearly caused a panic. His brief attire and his heavy beard won him the sobriquet of "The Tampa Tartan."

Scott does not like the name. Quiet and unassuming, he spoke with the earnestness of youth in search of happiness. He is no fadist, he insisted.

His "pack" consists of an identification card and matches.

Scott isn't very crazy about civilization in its present state. He is happy among the wild natives of South America—he remains among them—never turning to the civilization for which he is fleeing. At least this is his story.

The Tampa Tartan accepts rides in automobiles. "It is so some," he said. He averages to 40 miles a day walking. At night he sleeps in a house if it is offered; otherwise he sleeps of doors.

He thinks nudism is rather silly. If he takes a notion to go he will do so when he gets among the South American primitives where it is appropriate.
