UNCLE ANDY AS PRESIDENTIAL MATERIAL

There are two blind senators on the roster of the American congress. Sen. Thomas R. Schall, republican of Minnesota, has been peering into the future—or reading the stars. He has announced the result of his peering and reading. He has let it be known that "the United States needs a man like Andrew Mellon for its next president."

Oklahoma has a blind senator, a democrat—Thomas Pryor Gore. Well, Sen. Gore sees the country going to the dogs—he sees the New Deal leading to an economic revolt. Indeed, this is his prophecy: "We may now be standing on the threshold of an economic revolution."

He won thousands of recruits to his standard. Many is the time he declared from the platform that "the gold kings of Wall street after enslaving the people will destroy American civilization and this free republic unless the populist party wins control for the reins of government."

A lot of our lawmakers continue to flog the same old dead horse, apparently in utter ignorance of the fact that a whole team of new horses have galloped away with the situation that they imagine they are discussing.

DONNA of the BIG TOP by BEULAH POYNTER

BEGIN HERE TODAY DONNA GABRIEL, circus performer, falls from the trapeze and is injured. To please her partner, MADLINE SIDDAL, Donna goes to Madeline's home to recuperate, pretending to be the other girl. She is shocked at this deception but keeps it up, even when BILL SIDDAL, Madeline's cousin, asks her to marry him. AMOS SIDDAL, Madeline's grandfather who owns the farm, is blind. MRS. PLANTER, a nurse keeper discharged at Donna's home, is charged by Donna to get work. Con decides to go to the Sidal farm. Bill sees a letter Donna wrote to Con and becomes jealous. They quarrel.

there couldn't be anything to it and that you never cared for that fellow. If you'll forgive me I'll never be jealous again. "Of course I forgive you! And I want to tell you what was in the letter." "I don't want to hear it. I don't deserve to know." Confession at that moment, with Bill's arms holding her close, Bill's lips against her hair, would have been very sweet and soul-cleansing and would have prevented many future heartaches. But Bill's attitude, his desire to be generous and chivalrous prevented confidences and Donna slipped from his embrace with the words unspoken. "You know, Honey," he said as she piled the chickens on a blue platter and stirred cream and flour into the browned butter to make gravy, "now that Grandpop is better we ought to get out a little. All work and no play—you know the rest of it. Why, it's been weeks and weeks since we've seen a picture show or had any kind of amusement. What say we take the old bus and go into town tonight? Sometimes they have pretty good pictures at the Elite."

she realized the evening's attraction was "Polly of the Circus." Had there been another picture theater in the town or a concert or even a skating rink Donna would have sold her nose and did not care to see the picture and suggested that they find other entertainment. But it was "Polly of the Circus" or nothing. She could shut her eyes, in the darkness, against anything too poignant to endure, but she could not close her ears. As she and Bill moved down the aisle her nearsighted eyes were fixed on the screen. "Cold, sweetheart," he whispered. "No." Donna, knowing that he was watching her, forced herself to look at the moving figures on the screen. Everything she saw there and every word uttered that had to do with circus life was like a knife thrust in her heart. When the heroine was injured in an accident a smothered cry came from Donna's lips. "Bill, I'm—I'm ill!" she stammered miserably. "Let's go home."

NOW GO ON WITH THE STORY CHAPTER XXX BILL had a bad hour alone. He had had to fight his jealousy before. Many times, watching Donna working about the kitchen, he had contrasted her present life with her past, and a little green devil perched on his shoulder, whispering things he strove to put out of his mind. Striding along the raw wind whipping color into his cheeks, Bill fought his battle. Fresh air did much to give him a clearer view of the situation. If he refused to believe her explanation that she had never written the letter before and that the letter concerned her former partner, Bill would have to disbelieve everything she had said in the past. And if he had cared for this fellow, why had he married Bill? Looking at the matter rationally, he felt ashamed of himself, and when he returned to the house at five o'clock he was contrite and ready to beg forgiveness. Thus again Donna lost the opportunity to tell him that Madeline had married Con, and that Con was now a widower. It was not easy for Bill to apologize. Humble pride did not set well with him but, once he made up his mind to do anything unpleasant, he went through with it. Donna was frying chicken in the kitchen, a rather warm smile on her face as she closed her ears to Minnie's gabble. When Bill walked in unceremoniously and said he wanted to speak to her at once she anticipated another scene. "I'm busy, Bill. Wait until I finish this."

"Can't let Minnie do it?" Donna gave Minnie the fork she had been using to turn the fragrant brown morsels and stepped into the entry which opened into a hall leading to the dining room. BILL waited until the swinging door closed. Then he caught her in his arms and crushed his mouth over hers. "I'm sorry," he mumbled, "I was a cad. Forgive me?" "Oh Bill!" Donna sobbed happily. "Oh, Bill, I wish I had showed you the letter! It was horrid of me to tear it up! I should have—"

"No, you did the right thing. I was a brute to doubt you. Common sense should have told me that she realized the evening's attraction was "Polly of the Circus." Had there been another picture theater in the town or a concert or even a skating rink Donna would have sold her nose and did not care to see the picture and suggested that they find other entertainment. But it was "Polly of the Circus" or nothing. She could shut her eyes, in the darkness, against anything too poignant to endure, but she could not close her ears. Channel Shipments At Houston Grow

HOUSTON.—Tonnage over the Houston ship channel in April was the heaviest ever recorded in a single previous month since the port was built 19 years ago as a deep water terminal, Port Director Russell Wait reported. The movement totaled 1,664,674 tons, Wait said. Largest previous month was January of this year when a new high tonnage record was set at 1,625,527 tons. A total of 448 ships plied the water during the month of April, Wait said. Only 365 moved on the channel in April a year ago. Ocean-going tonnage last month amounted to 1,541,134 tons, approximately 30 per cent more than was handled the same date a year ago.

Negro Tubercular Hospital Planned

EL PASO.—The proposed Fred Douglas national tubercular hospital for negroes, to be built near El Paso at a cost of \$2,500,000 if a PWA is granted, promises to be one of the most useful and gigantic negro projects of its kind, sponsors said. The hospital will have a capacity of 1,157 beds—more hospital beds for negro tuberculars than there are now devoted to that purpose in the United States. The building also provides for the future for 600 more beds. The site of the sanatorium is about eight miles north of El Paso. The building will depict a Moorish influence in Spanish architecture, and when completed will resemble an old Spanish feudal estate. There will be provision for about 27 units. A beautiful library model after the Taj Mahal in Agar, India, are planned. Equipment to be installed in the hospital will be the most modern in the world, the sponsors said.

FRECKLES and HIS FRIENDS—By Blosser

Battle Impending Over a Site For Texas Centennial

FORT WORTH.—From all indications the impending battle over the site for the Texas Centennial in 1936 will lay San Jacinto in the shade. Sam Houston, David Crockett, or others of the leaders for independence might enjoy a whiff of the battle smoke if they could return to life for the next year or so. San Jacinto, home of the Alamo, and Houston, near the San Jacinto battlefield, are placing their bids on an open market. They are backing the claims of proximity to the centers of inception of independence. Dallas and Fort Worth, more distant from the historic spots, are getting ready to come in with arguments they hope are equally as effective. In fact, Fort Worth's chamber of commerce has instructed its centennial committee to enter actively into the bidding. The committee agreed, within itself, unanimously, that Fort Worth was the logical place to hold the centennial. The committee's problem is to convince the legislature as thoroughly as it has convince itself. For a time it appeared Dallas and Fort Worth would unite efforts to bring the Centennial to North Texas, holding it between the two cities. But Fort Worth balked, ignoring the proposal. So the battle is on.

BEHIND THE SCENES IN WASHINGTON WITH RODNEY DUTCHER

BY RODNEY DUTCHER, NIA Service Staff Correspondent WASHINGTON — Gen. Hugh S. Johnson and Don Richberg are almost as confused about the future of NRA as are all the rest of us. They do think it's going to be a permanent part of the American scheme. They think they're drawing out of the experimental stage into a routine phase where consistent policies can be maintained and that they now have a fair idea as to what things can be entrusted to code authorities with reasonable assurance that they will not take advantage of labor and the consumers. But in virtually every attempt to achieve a more workable, fairer set-up, they encounter terrific pressures—and often those pressures come from half a dozen directions. Both bosses of NRA are convinced they can never get far without public support, but where the preponderance of that support lies is often impossible to determine. The present effort to shunt aside the minor codes—conspicuous among them those of the tailors and cleaners—is an example. It seemed like a swell idea, since industries and codes affecting less than 15 per cent of the recovery program were using up 85 per cent of NRA effort and funds. THE thousands of telegrams of protest promptly received assailed Johnson and Richberg, behind closed doors, to throw up their hands. Administration of those codes is sure to be decentralized, but the pressure is modifying original plans. Confronted with the fact that NRA has employed no more than a fourth of the unemployed army

SINCLAIR IS WINNER OVER TIMES 12 TO 7

The Sinclair defeated the Times 12 to 7 Tuesday afternoon in a game that was filled with tense moments, long hits and fast action.

The Times took an early lead of one run in the first, which Sinclair matched. Again the Times forged ahead with three runs in the second, while Sinclair made one in their half of the inning and the score was tied at 6—all in the fifth and three in the sixth, one being on a home run by Richmond which many fans claimed hit a car that was parked in foul territory, but which was called a fair ball. In the first half of the seventh inning several changes in umpires' decisions helped to retire the side when Wallace, Sinclair manager, called for time, causing a balk by Ice. Umpire Davenport sent Hughes, who was batting, to first, filling the bases. On further protests, however, Hughes was called back to the bat and Birdsong was declared out for leaving first base, after several pitches had been made by Ice.

Pictures of Last Ride of Clyde and Bonnie at Arcadia

A special feature, which will be shown at the Arcadia theatre today and Thursday, has been announced by B. E. Garner, manager of the theatre. It will include a complete film showing scenes taken at the spot where Clyde Barrow and Bonnie Parker were slain by officers.

A preview showing of the picture was held this morning at the theatre and all who saw it pronounced it one of the most interesting news shots ever shown on a local screen.

It shows the scene of the shooting shortly after the two desperadoes were slain, shows the death car in which the pair were riding at the time of their deaths, and shows the car being towed to Arcadia, not far from the spot where the two were killed.

Other interesting views give the public a good conception of how the trip was set and sprung by officers from Texas and Louisiana.

Decoration Day

WEEKS ago the advance guard of Spring crept stealthily upon us. Little by little the bedraggled patches of snow, the last defenders of winter's fortress, reluctantly surrendered. Then with a rush the conquering hosts of May came galloping over the hills with a blare of bugles and bravely flaunting banners.

It's the age-old onslaught, the age-old miracle of the victory of eternal life. But always it presents itself anew, flashing with strange beauty, brimming over with inspiration.

Decoration Day is a day of commemoration. Let us make it truly a day of decoration. First, let us trim the hours with garlands of friendly, happy thoughts. Let us take a lesson from Nature, tripping merrily in a new dress, embroidered gaily with bright flowers. A new dress for yourself, Mrs. United States. A new suit for you, Mr. America. New togs for Uncle Sam's little nieces and nephews. A new rug for the porch. Some comfortable wicker chairs with gay cretonne cushions.

Let's brighten up—freshen up—put Winter completely out of our thinking.

For inspiration look to the advertisements in this newspaper. They suggest scores of things you need, things you will enjoy, things of honest value sponsored by manufacturers and merchants on whose statements you can rely.
