UNITED PRESS SERVICE BRINGS LATE NEWS OF THE WORLD TO TIMES READERS

RANGER, TEXAS, TUESDAY EVENING, JUNE 5, 1934

PRICE FIVE CENTS

No. 4

The father of quintuplet daughters in Ontario is worried. Well he might be. Imagine five sons-in-law coming on, all at about the same time!

Eastland County Man With Escaped Convicts

GAS RATE SUIT OUTCOME IS IN BALANCE

AUSTIN, June 5.—The fate of the state's suit to enforce lower natural gas rates set by the state railroad commission hung in the balance again today.

District Judge Charles Wheeler, declaring "I am one small man trying to decide a big question," asked attorneys for the state and the Lone Star Gas company to give him all the assistance possible. He deferred a ruling to hear from them again this afternoon.

The points worrying Judge Wheeler, he said, was whether the attorney general has any constitutional or statutory power to maintain the injunctive suit in the public interest.

Unless such provision exists, Judge Wheeler told the attorneys today there was no hope for the state to stay in court.

Large Gathering At Central Baptist Church Revival

The spirit of the Central Baptist revival is growing with each service. Last evening a large crowd had gathered for the prayer bands before 7:30, the hour set for beginning. All hands showed an increase both of attendance and interest. All sponsors are earnestly endeavoring to have their group in the spirit of song and prayer before they enter the preaching service. Many requests for prayer were made. There were 112 in all hands.

The orchestra and choir had new additions. Mr. Maddox is using only old-time sacred hymns and the congregation is singing them with a spirit and with power. Emphasis is being placed upon everyone taking part in the singing.

At the preaching hour Rev. E. D. Dunlap spoke with earnestness to a well filled house. His subject for the evening was "What a Revival Will Do in Your Church." Although this was Rev. Dunlap's first message to the people here, all formality and curiosity were laid aside and both Rev. Dunlap and the great congregation were more interested in the message of the hour and the saving of the souls than they were in observing each other. When the appeal was made 21 came forward, some upon statement, some for membership by letter and many accepting Christ. The field is ripe unto harvest and the forces of Central is united in sincere desire to see many saved.

Each day's services are as follows: Morning service, 9:30; prayer bands, 7:30; preaching, 8:30.

Everyone is most cordially invited to hear Rev. E. D. Dunlap. Don't miss the great renewing of spirit that is in store for the Christian and the bread of life offered to those who know Him not in the forgiveness of sins. Bring your burdens and sorrows and let Christ and God's children help you bear them. There is a blessing in every service for those who attend. Members of Central are urged to let nothing keep you from putting your best in this campaign. Other Christians of the city are cordially invited to attend and the unsaved are urged to come.

The results of the meeting are: By letter, six; by statement, two; approved for baptism before the first service of the revival, making 19 approved for baptism. Total additions to date, 27.

Three made profession who did not join the church.

Texas Flag Was Specified In a Legislative Act

AUSTIN.—The state legislature has taken official action on most of the patriotic and sentimental observances. Exact dimensions of the Texas Lone Star flag are specified by an act of the legislature in 1933. The same act directs that it shall be flown with the white above the red.

The Lone Star became an official Texas symbol in 1839 when it was made the central part of a coat of arms adopted by the Republic of Texas. An oak wreath is used in this coat of arms, but the legislature in 1919 made the pecan the state tree. The bluebonnet, or buffalo clover, became the state flower by act in 1901; in 1927 the mockingbird was made the state bird. "Texas Our Texas" was adopted as a state song by the legislature in 1930 and the same year "Friendship" was made the state motto.

PREXY PEADED, STUDENTS FLEW

GAMBIER, O.—While student pilots of Kenyon College's new school of aeronautics are cutting weird figures in the sky, Dr. William Foster Pierce, no less than an A.M., L.H.D., D.D. and L.L.D., the school's president, has become a bicycling enthusiast. Dr. Pierce is "driving" a shiny new cycle, which he pedals to and from the college airport.

BONUS VOTE ASSURED

WASHINGTON, June 5.—A Senate vote on the controversial soldiers' bonus issue was assured today when the senate finance committee decided to place the matter before the senate.

Figures Tell Tragic Story of Drouth

A clear picture of the extent and severity of the drouth over the middle west may be had by comparing the figures on this map of the stricken region. These figures give, in light face type, the total normal rainfall, averaged over the last 50 years, for the first five months from January to June, as compared with the total rainfall over the same period this year, as shown in black face type. Although the figures cover only the places designated, they represent fairly closely the condition of the surrounding country. In no spot you will observe, has this year's rain fall approached the normal, while in some places, as at Bismarck, N. D., this year's precipitation has gone as low as 15 per cent of normal.

Silver Sentence Is Commuted to Fifteen Years

AUSTIN, June 5.—The life sentence of J. R. Silver, convicted of robbery and assault in the slaying of Roscoe Wilson, treasurer of the Majestic Theatre in Fort Worth, today was commuted to 15 years by Gov. Miriam A. Ferguson.

Silver will be released from the penitentiary July 11, 1936, by virtue of today's clemency.

Wilson was slain and robbed of \$3,900 in January, 1927. Silver was convicted in February of that year and sentenced to death. Former governor Dan Moody commuted the death penalty to life in prison.

Forest Fire Smoke Endangers Famous Girl Quintuplets

NORTH BAY, Ont., June 5.—Clouds of smoke hovering over burnt timberlands, a mile from the rough home of Mr. and Mrs. Ovidia Dionne today added another element of danger in the fight to save the lives of their tiny, quintuplet daughters.

Dr. A. R. Dafeo, who brought the babies into the world eight days ago, feared smoke would endanger the health of the five girl babies, first quintuplets in medical history to live more than a few hours after birth.

Although the forest blaze was under control this morning, an emergency squad of fire fighters remained to check the spread of the smoke and flames to the home of the Dionnes.

Nine In Race For Representative

Six candidates have filed for representative from the 106th district which is composed solely of Eastland county, and three for electoral representative from the 107th district, which is composed of Eastland and Callahan counties.

Those filing for the 106th district: E. M. Threatt, Eastland; George Davison, Jr., Eastland; J. M. Mann, Eastland; Joe Parker, Gorman; Ed T. Cox, Sr., Eastland, and Oscar Lyoria, Eastland.

Those filing for the 107th: Cecil Lotief, Cross Plains, the present incumbent; D. L. Kinnaird, Eastland, and Ed Curry, Pioneer.

All filings were with County Democratic Chairman Earl Conner Jr., and were made in time to be assured a place on the Democratic ballot.

The time for filing expired Monday.

DROUTH RELIEF IS PROMISED BY ROOSEVELT

WASHINGTON, June 5.—President Roosevelt sent assurance to drouth stricken farmers today that more than half a billion government dollars will be poured into the sun-dried areas for relief.

CHICAGO, June 5.—Scattered rains over large sections of the drouth stricken middle west freshened dusty and sunbaked fields today, but gave little hope to disappointed farmers.

Crop experts and statisticians estimating loss in livestock and crops at more than \$1,000,000 were unanimous in predicting even heavy rains would not bring a more than 40 per cent normal wheat crop in the northwest.

Deadlock Over Wagner Bill May Delay Adjourning

WASHINGTON, June 5.—A determined effort to block the Wagner labor bill developed today with indications congress would be in session indefinitely if President Roosevelt insists on its passage.

Opposition to the bill, which prescribes a formula for carrying out the collective bargaining provisions of the National Recovery act, is taking form in Republican filibustering.

With the reciprocal tariff bill disposed of after nearly three weeks of senate debate, the obstructionist methods would be carried over to the administration's silver bill, the senate's new unfinished business.

Eastland Boy Is S.M.U. Graduate

Frank P. Castleberry, son of Mr. and Mrs. G. F. Castleberry of Eastland, graduated from Southern Methodist university at the commencement exercises held Tuesday night, June 5, in the McParlin Memorial auditorium. Dr. E. E. Oberholzer, superintendent of public schools at Houston, delivered the convocation address.

Castleberry was a student in the Dallas School of Commerce at the university and received the Bachelor of Science degree in commerce. He was a member of Delta Chi Alpha social fraternity; Punjaub, inter-fraternity organization, and was vice president of the junior class in 1933.

Legion Commander Plans a Big Feed For Next Thursday

G. E. (Bob) Robinson, commander of the Carl Barnes Post of the American Legion, has announced a big free feed and entertainment for Legionnaires, to be held at the regular meeting next Thursday night.

The meeting is to start promptly at 8 o'clock, Commander Robinson said today, and stressed the fact that the opening would be exactly at 8 o'clock. All Legionnaires are cordially invited to be present, he said, and indications are that there will be a good crowd from other towns in this section of the country.

Bob Hansford and Si Golden are in charge of the refreshments and the entertainment feature, which has not been announced as yet, will be taken care of by A. N. Larson.

Speaker Stresses Home Ownership

Emphasis on home-ownership was made by Edward K. Russell, candidate for governor, who delivered an address from the lawn of the county courthouse at Eastland Monday night. "I believe that every man in Texas should own his home," was Russell's declaration.

Russell indicated in his speech that it was not his aim to endeavor to win the governorship by prejudice and that there would be no "mud slinging" on his part in the campaign although he did say that not another candidate in the race was capable of handling the biggest job in Texas and there were only two candidates in the race who were making their stands on all issues outwardly.

Youth, Russell said, would be given a better chance if he were elected. They, he said, were the most valuable assets of the state. Every boy and girl should be sent to a finishing school, he declared.

The tax situation was mentioned. It was his expression that he believed it possible to cut the present taxes in half. The income tax as a measure of revenue was suggested and a decrease in the ad valorem.

Other planks touched upon in his speech, which he said were only a minor part of his real platform made to attract the voters were: Full payment of teachers' salaries; tightening of the pardon system; friendly attitude towards all legitimate businesses which desired to operate in Texas, better labor conditions, strict attitude towards prohibition and gambling, and better relief administration.

Russell throughout the "counsel meet," as he termed it, made his declarations with the ease and air of a man who understood and was sincere in all he said. Russell commands attention because of his dignified appearance and straightforward manner.

BRITAIN PLANS TO SUSPEND DEBT PAYMENT

LONDON, June 5.—The British government proclaimed its intention to parliament today of suspending war debt payments to the United States and indicated its earnest desire for a general revision of war debts between all nations.

The announcement by Neville Chamberlain, chancellor of the exchequer, was an apparent bid to Washington to take the next step and start conversations.

He was careful not to propose a general conference, however, in deference to Washington's refusal to deal with its debtors collectively.

PARIS, June 5.—Opponents of war debt payments in the cabinet jubilantly treated the British note to the United States today, confident that it indicated France also would default its June 15 installment.

School Inspector Inspects Eastland Public Schools

Commendation of members of local organizations for the institution of the recent tax-paying campaign and recommendations for the improvement of study in Eastland schools were made by Miss Sue B. Mann, district school supervisor of the state department of education, who inspected Eastland schools May 7, in a report to P. B. Biddle, superintendent of Eastland schools.

Miss Mann's recommendations in full were: "That the course of study be improved. Courses in home economics, public school music, and courses in manual arts or skills suitable for boys should be included in the curriculum."

"That teachers' salaries be made standard. Minimum salaries in a classified and affiliated system are \$90 a month for high school teachers and \$75 a month for teachers in the elementary grades."

"That the board of education be commended for its plan to carry through a federal project (FERA) in improvement of school grounds and building."

"That members of local organizations, both men's and women's clubs and societies included, be commended for the tax-paying campaign that they organized and instituted in the interest of the schools of the city. The financial status of the school has been improved this year because of this campaign."

"That administrators, teachers, and students be commended on the standard work that they have done throughout the year."

R. D. Parker Is Candidate For R.R. Commission

SULPHUR SPRINGS, June 5.—The name of R. D. Parker was listed today among the candidates for state railroad commissioners that will appear upon the democratic election ballot.

J. K. Brim, chairman of the state democratic committee, said that a petition bearing the names of 40 qualified voters of Parker's candidacy had been filed with him yesterday, the final day of filing.

Parker, director of the state railroad commission's fight against hot oil in East Texas, reportedly has been under fire of his supervisors, who were said to be contemplating his removal. It was understood Parker had no knowledge of the petition filed in his behalf by his friends.

Ranger Masons to Meet On Thursday

Ranger Masonic Lodge will hold the last meeting of the Masonic year on Thursday night, June 7, according to announcement by officers of the organization. Officers for the ensuing year will be elected at that time and all members are requested to be present.

Calendar of June Political Dates

The month of June has a number of important political dates that should be remembered by voters and candidates alike. The political calendar for the month is as follows:

June 4—Last day for filing on primary ballot for state and district offices.

June 11—State executive committee meets at Austin and prepares ballot.

June 16—Last day of filing on primary ballot for county offices.

June 18—County committee meets to determine order of names on primary ballot, estimate the cost of holding the election and apportion this expense among the candidates, and appoint a committee to prepare the ballot.

June 25—On or before this date candidates must pay ballot fees.

June 28—First day for candidates to file first statement of campaign expenses.

MEAT CUTTERS OF FORT WORTH MAY STRIKE

FORT WORTH, June 5.—Meat cutters and butcher-employees of Fort Worth packing houses will meet tonight in sympathy with strikers in Oklahoma City.

Though declining to say if a strike will be discussed, leaders admitted feeling is running high among local workers. Almost 1,000 members have been summoned for the meeting, Secretary John Nesbit of Amalgamated Meat Cutters and Butcher Workmen announced. Union members are extremely in sympathy with striking workmen, Nesbit said. International Secretary John Malone was expected to return from Oklahoma City for tonight's meeting.

Heads of large packing plants expressed little concern over the outlook.

OKLAHOMA CITY, June 5.—Striking packing house and stock yard workers sought today to add the boycott to their weapon in the struggle of union recognition and higher wages.

Union members went over the city urging business houses and citizens not to use products of the companies involved. The strikers kept their picketing of entrances to the stock yards and plants on an orderly basis.

Rusk Citizens Are Still Excited As Well Still Flows

RUSK, Texas, June 5.—Rusk citizens and hundreds of oil men and others who have crowded this community since a well came in Sunday, continued their activities today.

They seemed little perturbed over the fact that first estimates of production from the Wood No. 1, New Birmingham Development company, were too large.

Their interest seemed to lie in the thought that, regardless of the quantity of flow from the test well, a new field had been discovered. First reports were that the producer was flowing the rate of from 10,000 to 12,000 barrels daily. Actually the flow was later revealed to be in the neighborhood of 25 barrels per hour.

Posse Surrounds Murderous Bandits

SCOTTSBURG, Ind., June 5.—Advancing slowly in search of two murderous bandits, approximately 600 possemen closed in through a dense forest five miles south of here today. The bandits were believed to be surrounded after seriously wounding a patrolman and killing Deputy Sheriff Harold Amick, 24, Scottsburg.

GEORGE WRIGHT WAS AMONG THE DESPERADOES

Was Serving Four Years On Robbery Sentence From Eastland County.

HOUSTON, June 5.—Four desperate convicts, who braved the gunfire of guards, still were at liberty today after a sensational break from the Harlem prison farm, 25 miles west of here, late yesterday.

The escaped convicts were Frank Callan of Dallas, serving 25 years for murder; Odett McHughes of Waco, serving nine years for burglary; Jim Lucas, of Breckenridge, serving 15 years for robbery, and George Wright of Eastland county, serving four years for theft.

The escape from the farm was effected when the prisoners left their work in a construction gang and stole an automobile belonging to a guard.

All trace of the fleeing convicts was lost last night. They were said to be headed north toward Dallas on the main highway several hours after their escape.

NASHVILLE, June 5.—Convicts who seized a prison here shortly after midnight surrendered today when authorities threatened to use tear gas.

A guard who was held hostage was released unharmed. The mutiny, officials said, was engineered by three desperate life-term convicts.

The mutineers surrendered as 100 guards and police officers deployed around the cell block preparatory to an attack.

Ickes Tells About Alleged Blackmail Attempt On Him

CHICAGO, June 5.—Secretary of Interior Harold Ickes testified in disbarment proceedings against two Chicago lawyers and told of alleged attempts to blackmail him into obtaining political appointments.

Ickes accused Lucius Malmann, former federal judge of the Virgin Islands, and C. W. Larsen, former assistant corporation counsel of Chicago of attempting to intimidate him into arranging Malmann's appointment as governor of the islands.

Eastland Wants Firemen's Meet

Eastland business men in an effort to bring the 1935 Firemen's convention to Eastland are taking a delegation to Mineral Wells on June 12, where firemen are convening this year.

Promise of the support of Cisco and Ranger in aiding Eastland has been evidenced by civic organizations of the two cities.

DEFEATS CISCO

Eastland All-Stars in a night game with Cisco All-Stars at Cisco Monday emerged victorious to the tune of 15-5.

Home runs were ruled out by officials of the two clubs because of the inadequacy of length of the field. Brown and Cheatham of the Eastland delegation however were responsible for several two baggers. June Hargis pitched for the Eastland All-Stars.

LOST WATCH FOUND

BROCKTON, Mass.—Henry Noonan lost his watch while serving with the French ambulance unit during the World War. He was notified recently that it had been found. Mrs. Mary O'Neil of Tarhant, Minn., who just came into possession of it, asked in a letter to the Brockton Lodge of Elks to locate Noonan for her, because his name and lodge number were inscribed on the back of the watch.

Critical Stage Is Near For Crops In Drouth Area

WASHINGTON.—Weather during the next two weeks will just about tell the story for many of the principal crops of the country, now suffering from drouth and intense heat.

Both winter and spring wheat are entering the most critical stage of their growth right now, according to J. B. Kincer of the U. S. weather bureau. Already badly damaged, these crops must have a rainfall before the middle of June if they are to make anything like a satisfactory yield.

Pastures and hay crops are already scorched in many places, and small feed grains such as oats and barley must get rain within a few days if rain is to do any good, says Kincer.

Corn still has a chance. The principal damage to corn so far has been the delay of germination. Rains within the next week or 10 days could help the corn crop. Ordinarily the last half of June and the month of July is the critical time for corn. However, delay of germination beyond the middle of June endangers the corn crop from an early frost this fall.

The cotton belt has had excellent weather for the most part. Alabama, Georgia and South Carolina had more than normal rainfall in May, while parts of Texas and Oklahoma were deficient. In no large section has excess rainfall been harmful to cotton or sufficient to encourage exceptional boll weevil development.

In areas covered and moisture deficiency this drouth surpasses any on record for the United States. The only other one to which this could be compared is the one in 1894, which occurred early in the season. Recent drouths, such as the one in 1930, have occurred considerably later than the present one.

Court of Honor To Be On Friday For Three Troops

Announcement was made today that a court of honor for troops 8 and 10 of Ranger and troop 32 of Olden would be held at the Fire Station park in Ranger next Friday night, June 8, with Guy N. Quail, scout executive of the Comanche Trail council presiding.

All scouts of the three troops, the troop committeemen and the parents of the scouts are invited to be present. The scouts have been urged to have their tests passed and ready for the court of honor Friday.

Body of Hickey's Brother Not Found

Dr. P. M. Kuykendall was today in receipt of a telegram from Wayne C. Hickey, who is in Corpus Christi, where his brother died, stating that the body had not yet been recovered from the bay.

Planes are aiding in the search, a telegram stated.

The man was fishing in the bay today when the boat capsized and he drowned.

PLACE GEOFFREY HERMAN IN THE BIG PICTURE

Henry Ford has the human touch. Henry Ford for 30 years has been one of the most remarkable men on the American stage of action. He has spent more than \$1,000,000 this year for a remarkable display or exhibit at the Century of Progress Chicago show. Well, Sunday was the opening day of the second year of the show. This was a top notch dispatch: "A 10-year-old boy from Boston, Mass., took precedence over a half dozen executives at the World's Fair when he was taken on a tour of the new Ford exhibit by Henry Ford himself. The boy was Geoffrey Herman, and Mr. Ford, hatless and coatless, came upon the youth at the Ford exhibit. They struck up an acquaintance and Mr. Ford proceeded to guide him around. Soon other boys joined the impromptu tour and it became a pilgrimage with Mr. Ford leading the way." Henry's important secretaries and guides stood aghast. They were horrified. They reminded the wizard of the West of previous engagements with men "high in the world of business and finance." Well, the big boss gave his secretaries the laugh. He waived aside his secretaries. This is what he said: "The boys come first. We don't need to be afraid of anything in this country if we can train our boys right. I don't get a chance like this very often. Come on boys. What did you say, Geoffrey?"

Henry Ford was endowed by nature with a large stock of horse sense. He said a lot when he handed this line of thought to his secretaries: "We don't need to be afraid of anything in this country if we train our boys right." Correct to the last letter. We propose this amendment to the Henry Ford advice: "We don't need to be afraid of anything in this country if we train our boys right—and our girls, too."

INTERESTING RULING BY SUPREME COURT

According to a recent decision by the supreme court of Texas railroads have rights-of-way over public waters subject to the state police power and cannot recover more than actual damages when the right-of-way is flooded in improvement projects. The ruling was made in the Chicago-Rock Island and Gulf railway suit against a Tarrant county water control and improvement district. The railway had sought to recover, not only the damages caused by the water improvement district to its line along the Trinity river, but for the cost of relocating the tracks at another site. It appears that a corporation continues to be without a soul.

CAUGHT TROUT UNDER SIDEWALK

By United Press
SHEPHERDSTOWN, W. Va.—Bob Davis has a new kind of fish story—he dropped his line through

a sidewalk grating and caught a trout. A mountain stream flows through the town and part of its course is through a viaduct under the street.

SHOT WOLF FROM PLANE

By United Press
MACOMB, Ill.—Claim to being the first person to shoot a wolf from an airplane is made by Walter Zettle of Camomb. Zettle killed a large gray wolf recently with buckshot while shooting from a plane piloted by Harry Clugston, also of Macomb.

2500 tons in weight and including more than a thousand separate machines to be used in telling the complete story of the manufacturer of automobile parts from raw materials to finished products are now in place and in operation. They were assembled at rush speed from all parts of the United States. Most of them were lifted bodily from factories.

The "Roads of the World," unique 2,000 foot stretch of roadway in Ford Gardens illustrating in exact reproduction 19 of the most famous roads of roadbuilding history, have been entirely completed in less than three weeks of working time.

Ford Gardens itself, two weeks ago a mere stretch of sand waste, has been transformed into a lake front park complete with shrubs, flowers and trees in less than two weeks. A huge shell to be the scene of a 13 week series of two-day concerts by the Chicago Woman's Symphony Orchestra and the Detroit Symphony Orchestra, not needed until June 7th, is completed in structure and is receiving final acoustical treatment.

The world's largest geographical globe—20 feet in diameter, 12,000 pounds in weight, electrically driven and illuminated is completed and in operation in the "Court of the World," central open court in the Ford rotunda.

The world's largest photographic mural, 600 feet in length, 20 feet high 40,000 pounds in weight, printed on four fifths of a mile of photographic paper is in position on the interior wall of the great rotunda.

Sixty-nine historic vehicles comprising the Ford "Drama of Transportation," tracing the development of vehicular transportation from prehistoric times to the present, are in place on the concrete and tile platforms in the Grand Concourse.

The Ford Museum containing priceless relics of Ford and his lifelong friend, Thomas A. Edison, and showing the evolution of the machines hop during the last century is completed and with its ancient machines humming.

The Ford Industrialized Barn built in 1863 on Henry Ford's father's farm and transported board by board and shingle by

Ford Exhibit at World's Fair Now Open to Public

CHICAGO, June 5.—Unparalleled feats in engineering and construction are represented by the opening of Henry Ford's giant exposition at the Chicago World's Fair. Ford was not in the Fair last year. He got away to a late start this year. The result was that he was faced with what ordinarily would have been a year of work, to be completed in three months.

Sixteen-hundred men working

day and night under the direction of a whole regiment of engineers, technicians, artists, architects, field men and Ford officials smashed even war time construction records in doing this job, the biggest ever done by a single exhibitor for any world's fair.

The Ford project covers eleven acres. Some idea of the immensity of it is indicated by the fact that it employs more than seven hundred permanent employees. Twenty-one big manufacturers in addition to Ford are participants.

The main building with its 12 story high rotunda in the shape of a truncated gear and its 600,000,000 candle power "pillar of light" in itself covers five acres. The industrial hall, a single wing, is the

size of three football fields placed together.

Fourteen hundred tons of steel, 1,600,000 lineal feet of lumber, 5,000 cubic yards of concrete, 7,500 cubic yards of gravel, 700,000 square feet of wallboard and 200,000 square feet of roofing were required for the job.

Electrical installations unprecedented in size and wholly new in type included more than 100 miles of wiring, 9,000 multi-colored flood lights, thousands of lineal feet of lighting units, more than three hundred loud speakers and other units that will consume a power load of 7,000 kilowatts, more than a third of the total power load of the entire Fair last year.

BRITISH TO SEE OUTLAW HORSES

By United Press

CHEYENNE, Wyo.—The pick of the West's top hands and some of the worst outlaw horses known are on their way to England, there to assist the stolid Britishers with their daring and trick riding. The party numbers about 50.

Legs and wings of house flies are being used to provide a pattern in a new kind of paper. Nevertheless, the sticky kind of fly paper is best.

Mrs. Ruth Owen to Make Greenland Trip

By United Press

COPENHAGEN.—Mrs. Ruth Bryan Owen, United States minister to Denmark, probably accompanied by Fanny Hurst, will visit Greenland in August.

The trip will be made aboard the Danish inspection ship, *Disco*, which will start from Copenhagen. Daugaard Jensen, chief of the Greenlandic Trading company, will accompany Mrs. Owen, who will stay in Greenland for six weeks. Mrs. Hurst is expected to visit Copenhagen some time this summer, and if she arrives before the *Disco* sails she will join Mrs. Owen on the trip.

On her return from Greenland Mrs. Owen will go to the United States for an autumn visit.

DONNA of the BIG TOP by BEULAH POYNTER

BEGIN HERE TODAY

DONNA GABRIEL, circus performer, falls from the trapeze and is injured. To please her partner, MADDELINE SIDDAL, Donna goes to Madeline's home to recuperate, pretending to be the other girl. She is ashamed of this deception but keeps it up, even when BILL SIDDAL, Madeline's cousin, asks her to marry him. MADDELINE SIDDAL, Madeline's grandmother who owns the farm, is blind. MRS. PLANTER, a nurse, is charged by Donna, to her enemy. Donna and Bill are married. Meanwhile Madeline has married CON DAVID, circus animal trainer, and takes part in the animal act.

Amos Siddal has a stroke. A New Orleans Madeline goes into the cage with the Bengal tiger and is killed. Con is discharged. Unable to get work, he decides to go to the Siddal farm. From the nearby town he sends a note to Donna. She agrees to meet him the next afternoon.

CHAPTER XXXV

MRS. PLANTER'S head was in a whirl. She had just uncovered the choicest bit of scandal it had ever been her luck to come across.

At first Mrs. Planter was uncertain just how to make use of her information. She had visions of following the guilty couple and telling Madeline what she thought of her. She soon dismissed this thought as too trivial a revenge for a terrible insult.

If she had been at liberty for the afternoon she could have spread the news to a few cronies who could be trusted to see that it would kindle and flame like a forest fire before 24 hours passed, becoming the chief subject of conversation at Lebanon dinner tables. But Mrs. Planter knew only too well that the person most concerned in the affair might never hear this scandal. Madeline might meet her lover over and over again and everyone in town be aware of it without Bill Siddal learning what was going on. Hadn't Doc Freeman's wife been traipsing around with her boarder since last June? Everybody for miles around knew about it, but Doc didn't. Poor fool!

Mrs. Planter recalled, with righteous pride, that when the sewing circle of the church had held a meeting to discuss the advisability of telling Doc Freeman he should keep a closer watch on his wife, she had voted against it. That she had voted thus because the minister's wife was opposed to meddling did not rob Mrs. Planter of feeling that she was a kindly, generous soul.

BUT no meeting to determine whether or not Bill should be kept in ignorance need be held. In the first place, neither Madeline nor Bill attended the same church as Mrs. Planter. In the second Mrs. Planter intended to get the information to Bill in some manner—and with proof that could not be doubted.

To telephone him would be out of the question. She knew Bill's habits too well to believe he might be in the farmhouse to answer the phone himself. If his wife answered she would see to it that he did not get the message.

Studying over the problem she went about preparations for the noon day meal. Janie Sauer, one of the chambermaids, assisted with

North Woods Quintuplets Owe Lives to Calm Country Doctor

Kindly, Blunt Physician Is Unruffled By Furore That Beats About Him; Nurse "Still Trembling."

By HELEN ALLYN

NEA Special Service Correspondent.

NORTH BAY, Ont.—I have talked to Dr. A. R. Dafeo, the kindly country physician who is fighting to save the lives of the Dionne quintuplets.

He has told me about their birth, the illness of their mother, their diet and their chances to survive their strange and premature birth.

I have talked to Mrs. Alex Legros, the neighbor woman who got up at 4 a. m. May 28 to help Mrs. Olive Dionne through a childbirth—and found she had walked in on a phenomenon.

I flew here from Cleveland to reach the spot on which the world's attention is focused—the tiny four-roomed log cabin where a medical miracle is occurring.

Kindly, but Blunt

It is taking place under the direction of a short, stocky country doctor who never expected that he was stepping into the path of fame when he chose to set up his practice among the simple people of the north woods.

He is kindly, but he has the unruffled bluntness which comes to a country doctor who has to deal with people who are stubborn about medicine and medical care.

He was not called in on the Dionne confinement until a week before the five little girls were born. He found Mrs. Dionne suffering from a kidney ailment.

"Ernest Dionne, the husband of the sick woman, didn't want a doctor," Dr. Dafeo says.

Didn't Want Doctor

"He reasoned that the other six were born with only the help of a neighbor woman, and the one that was coming—as far as he knew it was only one—could manage on the same basis.

"I told him that he could either get a hired girl or plan to get a new wife," the bluff practitioner said.

There will be another brush between the father and the doctor when the father comes back from conferring with a representative of the Chicago World's Fair.

Bars Trip for Babes

The doctor isn't at all enthusiastic about the idea of taking the five fragile bits of feminine life on a trip.

"As long as I'm boss," he said, "there will be no trip anywhere

Father Didn't Want Medical Aid In Case; Firm Veto Is Placed On Ambitious Plan For World's Fair Trip.

over that night yet. See, I still tremble."

At first the babies were fed cow's milk, mixed with corn syrup. They were fed with eye-droppers. But now Dr. Dafeo has ordered natural human milk.

The babies have a good chance of surviving, Dr. Dafeo says. If they can pull through the three weeks which should still have been part of a normal pregnancy, they have the normal child's chance of living.

They have already passed one great danger—the danger of death which threatens every child born of a multiple pregnancy.

Pass One Great Danger

The first official weight of the babies was exactly 12 pounds—all together, with their clothes on. Take off four ounces for the clothes.

All expenses for food and supplies are being taken care of by the Toronto Red Cross. The Ontario Relief commission has promised to see that nothing is lacking.

I found the road to the Dionne cabin a difficult one. Two cars cannot pass. Sharp rocks stick up every few feet. Roller-coaster dips and curves abound. It took us 30 minutes to travel two and a half miles from Callander, the nearest town.

Road Is Difficult One

When we got there, we found the house placarded with signs in French and English telling visitors to stay away.

Besides the signs, there were guards recruited from among the neighbor men. Armed with clubs, they protect the privacy of the Dionne cabin.

Such protection is needed, because hundreds of curious persons are congregating here. They come in automobiles of all sorts over the narrow, bumpy road and they come afoot through the woods and the clearings.

Thought It Wasn't News

They are telling a story about the naivete of the world's most famous father.

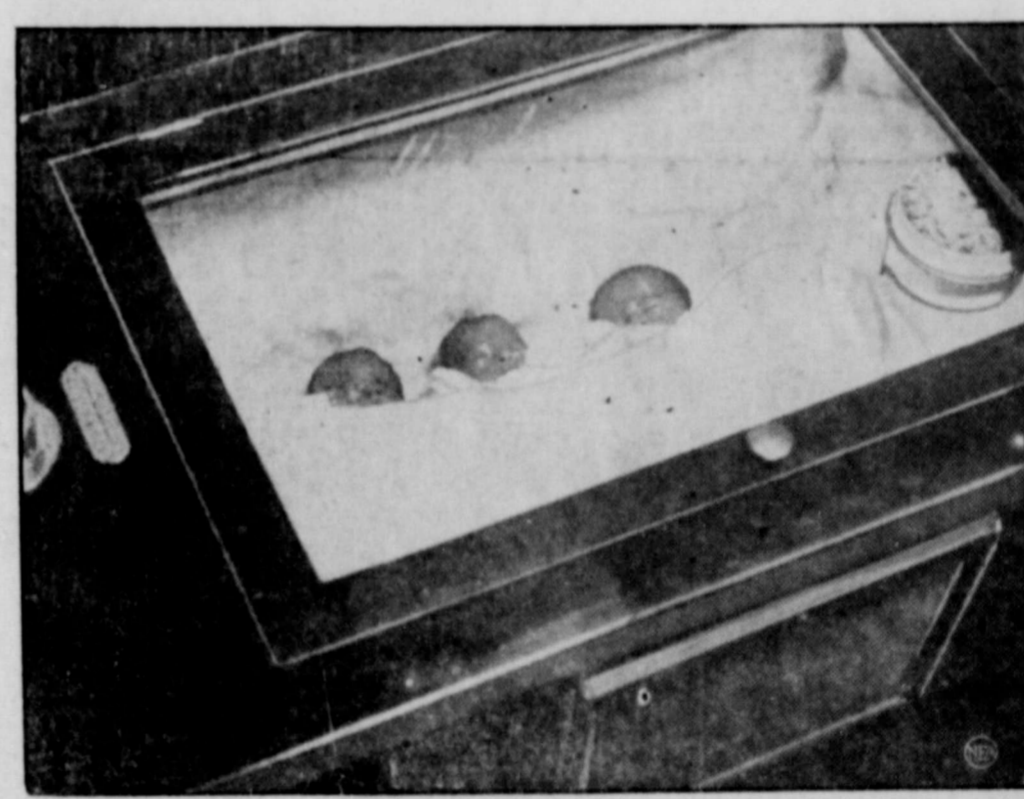

When Ernest Dionne had recovered from his dismay at learning that his family of children had suddenly leaped from six to eleven, what with the mortgage and all, he bethought himself that people might be interested to learn that five babies were born at once to his wife.

So he had his brother call up the local newspaper.

"How much," the brother asked the newspaper's city editor, "would it cost to have an item put in the paper about five babies being born?"

"I know what to do in such cases. But when three had come, I did not know what to do. I was so nervous that I shook. Then, thank the good Lord, the doctor came.

"The worry was off my mind then, but I still had plenty of work to do. I had to light the stove. I had to tend the other children. I should say I was busy. I am not

There was no lack of sympathy and kindly help in the Corbiel, Ont., home of Olivia and Elsie Lionne when news of their quintuplets spread. At top you see three of the quintuplets resting easy in an old fashioned incubator sent the parents from Chicago, while at right is shown a nurse, supervised by Dr. A. R. Dafeo, carefully feeding the tiny babies with an eye-dropper.

for these babies. The father can go if he wants to, but not the children."

Dr. Dafeo isn't getting much sleep these days. The quintuplets take most of his time and he has the rest of his practice to attend to, besides.

He had been up all night at another cabin. That was a confinement case too. But it was just a single baby.

In spite of his sleeplessness, he was still pleasant and unruffled.

"I'm used to this," he said. "Used to losing sleep and used to bringing babies. I have one every day. I guess I've had 1500 in the 26 years I've practiced here, but these are my first quintuplets."

Flooded With Queries

The pockets of Dr. Dafeo are jammed with letters from medical men far and wide. They ask questions about the triplets. Are their organs normal? Yes, says Dr. Dafeo.

Are they fraternal quintuplets born from five separate germs, or

identical quintuplets, all from one germ. Identical, says Dr. Dafeo. Mrs. Legros isn't taking the matter so calmly.

She is still trembling.

In charming broken English she told about the experience she encountered that eventful morning.

She Still Trembles

"One baby is nothing," she said.

ARRITTA DAVENPORT, Editor

Ranger Visitor Clerk in Treasury Department

Miss Gilbert Cunn, sister of Mrs. D. C. McRae, who hails from our capital city, Washington, D. C., is visiting in Ranger. She is a clerk in the treasury department and says she is "as crazy about the president as Ranger people are." She has had the distinction of having heard and seen Mr. Roosevelt and of attending a garden party given by the First Lady of the Land. She added that Mrs. John Nance Garner of Texas stood out as one of the most interesting and charming women at the affair.

It is worth while to note that

Mrs. McRae's first cousin has taken the vice president's place in congress.

Mrs. McRae Continues To Show Improvement

We are happy to report that Mrs. D. C. McRae, who was operated Saturday at the West Texas Clinic and Hospital, is doing exceptionally well. A large portion of her family have come from distant parts to be with her, and we know this will speed her recovery. From Fort Worth came Mr. and Mrs. Hall and Mr. and Mrs. Duncan McRae; Dr. and Mrs. Cone of Dallas and Miss Gilbert Cunn. Mrs. McRae's sister, on an hour's notice, from Washington, D. C.

Mary Eldridge of Chicago was not notified immediately of her mother's condition because of her teaching, but is coming later.

Why Let Your Skin Age?

Protect your skin with this new wonderful Face Powder and let MELLO-GLO give you that youthful bloom. Made by a new French process—stays on longer, prevents large pores, beautifies your complexion. Does not irritate the skin or give a pasty look. Purest face powder made. Try MELLO-GLO and you'll love it. 50c and \$1.

Political Announcements

This paper is authorized to announce the following candidates for office, subject to the Democratic Primary Election in July, 1934:

W. M. S. President Hears Reports From Committees

Climaxing a short but well filled business period of the Women's Missionary Society of the First Baptist church held at the church Monday afternoon, the president, Mrs. J. G. McGee, heard interesting reports from chairmen of both circles and eight standing chairmen of committees. These reports were very encouraging and point to a field of instructive work for the coming months.

It was voted to buy a \$10.00 bond for Leaders encampment at Leaders.

A large representation from the society reported for the called session marking the 2:30 o'clock hour.

Missionary Society President Elected

It is with great pride that the Women's Missionary Society of the M. E. Church may announce Mrs. Mills Davenport, as a new president. This was the climax of a business session held at the church 3 o'clock Monday afternoon. In conjunction with a program. The subject of study was "The 100th Anniversary of the First Women's Missionary Society Organized in the World."

Brazil, claiming some of its outstanding organizations, was discussed. Those taking part were Mmes. Stanley McAnelly, Roy Jameson, Fred Warren, H. D. Bishop and Mrs. H. J. Stafford. By Mrs. H. J. Stafford.

Leaves Tonight for State Executive Board Meeting

Mrs. C. E. Maddocks leaves tonight for Austin where she is to attend a state executive board meeting of Texas Congress of Parent-Teacher Association. Mrs. Maddocks will remain at the board session until Friday of this week.

Joint Meeting of Ranger and Eastland Auxiliaries Held in Form of Luncheon

Mrs. J. LeRoy Arnold opened her attractive Eastland home to

Very Much Improved After Taking Cardui

"I have suffered a great deal from cramping," writes Mrs. W. A. Sewell, Sr., of Waco, Texas. "I would chill and have to go to bed for about three days at a time. I would have a dull, tired, sleepy feeling. A friend told me to try Cardui, thinking it would help me—and it did. I am very much improved and do not spend the time in bed. I certainly can recommend Cardui to other sufferers."

Thousands of women testify Cardui benefited them, if it does not benefit YOU, consult a physician.

IF YOU AWAKE
in the morning feeling badly, don't shave yourself but come down and get a shave with all the service that we give with one, and see how much better you feel.

members of both Ranger and Eastland Presbyterian Auxiliaries Monday afternoon at which time she hosted a prettily arranged 1 o'clock luncheon.

Numbered among the twenty-five guests present was the Presbyterian president, Mrs. Guild of Abilene, who gave a splendid talk along with the reading of several of her poems which she recently composed.

Another prominent guest was Mrs. C. W. Geue, president of the Eastland Ladies Auxiliary.

Included among Ranger guests who enjoyed the delightful courtesy were Mrs. Saunders Gregg, Mrs. L. B. Gray, Mrs. R. G. Getts, Mrs. Samuel Thompson, Mrs. E. L. Fontaine and Mrs. C. E. Maddocks.

Ranger Church to Be Represented at Cicco Revival Tonight

Tonight which has been designated as Ranger night at the Cicco Church of Christ revival now in progress, promises to be a worth while hour. Services are conducted by the Rev. L. S. White of Wichita Falls, who is noted as a fluent and forceful speaker.

The Ranger group from the local church plan on leaving around 7:15 o'clock, and those wishing to go are invited to call members of the church and make definite plans.

According to plans this morning a large number from the local church will be present for the evening service.

Bible Lesson Taken From 13th Chapter of Corinthians

Rev. D. W. Nichol opened the Bible study for members of the Church of Christ Bible class Monday afternoon, taking the lesson subject from the 13th chapter of Corinthians.

The continued study proved quite interesting to thirteen members present.

Arrives in Ranger To Join Husband

Mrs. P. A. Nelson and young son Allen, of Tyler, have arrived in Ranger to join her husband, Mr. Nelson, who recently assumed management of the local J. C. Penney Company. The Nelsons are at home, Main street.

Christian Endeavor Party Postponed

The party to have been given by Rev. and Mrs. H. E. Johnson, in compliment to members of the Christian Endeavor of the First Christian church on Thursday evening of this week, has been postponed. Time and date of the entertainment is to be announced at next Sunday's service.

Picnic Luncheon to Be Enjoyed by S. S. Class

Thursday at 12:30 members of the Goodfellowship class of the Methodist church will meet at the church and motor in a body to Hagaman lake where they will be entertained with a picnic luncheon.

Ways will be provided for every member of the class and the entire class personnel is urged by the president, Mrs. J. D. McClister, to be present for the entertainment.

Important matters are to be discussed during the hour which will be interesting to all.

Bridge Luncheon to Entertain Lone Star Social Club

Members of the Lone Star social club are to be entertained with a covered dish luncheon and bridge party at the clubrooms Wednesday afternoon at 1 o'clock. All members are asked to be present for this affair.

Personally Speaking

Mrs. Jack Lewis Sr., and son, Blair Lewis of Eastland, were Ranger visitors Monday afternoon.

Mr. and Mrs. Homer S. Perry and children left yesterday for their home at Longview, after a visit at the home of Mrs. Perry's parents, Mr. and Mrs. Earl S. Swelwood.

W. F. Barnes Jr., who has been attending school at State University this year, is the guest of Mr. and Mrs. Ed Baller, for several days visit before going to his home at Santa Anna, where he will spend the summer.

Misses Dorothy Mayo and Jo Burns are visiting in Austin at the home of their grand-parents, Mr. and Mrs. J. J. Burns.

Misses Dorothy Mayo and Jo Burns are visiting in Austin at the home of their grand-parents, Mr. and Mrs. J. J. Burns.

Mrs. C. S. Bronsted and little daughter of Caddo, visited at the home of Mr. and Mrs. S. B. Baker Travis street, yesterday.

Rev. and Mrs. G. W. Thomas and children have as house guests, Mrs. W. B. Dodd, and Miss Mary May Thomas of Graham. The latter guest is a niece of the Rev. and Mrs. Thomas.

Mrs. Annie Laura Jensen and children who left Ranger Saturday afternoon at 5 o'clock, according to telegram received by the parents of Mrs. Jensen, Mr. and Mrs. V. V. Cooper Sr., Monday morning at 9:30, reported the trip was made to Los Angeles in forty hours' driving time. Mrs. Jensen and children will join Mrs. Jensen at Long Beach after several days' visit at Los Angeles with relatives.

Mr. and Mrs. H. S. Packwood and children accompanied by Mrs. Packwood's mother, Mrs. J. A. Stephenson, have just returned home from a six day's visit at Medina Lake, at San Antonio, where they enjoyed a delightful outing in the form of a fishing trip.

SINCLAIR IS WINNER OVER STARGAS 10-3

Sinclair won a 10 to 3 victory over Stargas to administer the second defeat for the team in two games, the first defeat knocking them out of first place and the second toppling them out of a tie for first position.

Sinclair got all the breaks in the game, especially in the fifth inning, after Dinmore took up the pitching burden, Terry went from third to first base and Smith went from pitcher to third base. Russell, first man up for Sinclair flew out to second. Hudson singled, as did Hamilton and Horton. On Horton's safety Hudson started for the plate and Hamilton went to third, but Hudson doubled back to third, putting two men on the plate and Horton advanced to third when Brown raced in from short, took the throw to the plate and whipped it back to second, with no fielder covering the base. Hudson scored, but Horton and Hamilton remained on third and after considerable throwing both were safe when an easy out was in the hands of the Stargas players if they could have made up their minds where to throw the ball.

In the same inning Dodd hit an infield fly with men on first and second, which was dropped by A. Williams and the runners advanced, Dodd pulling up on second and was called safe.

Smith, who started for Stargas and Lee, who went the route for Sinclair, both pitched illegal ball, according to an interpretation of the rules by Dr. Harry A. Logsdon, soft ball commissioner, who last week ruled that Lee's delivery was illegal. Dinmore, who pitched the last two innings for Stargas, stayed within the pitching rules.

In the fourth inning Dan Long, Stargas left fielder, got a life at first and considerable excitement was caused when the bat he was using broke off at the handle when he hit the ball, the end of the bat flying through a windshield of a car parked back of the first base line near the backstop. No one was hurt in the accident, though a windshield was ruined and a lady sitting in the car got quite a scare when the bat crashed through the glass and landed on the seat beside her.

Mr. Durigan Finds Relief in Kellogg's ALL-BRAN

Here is his enthusiastic letter:

"Am 70 years of age, and for 10 of these years there never was a week but what I had to take a pill or some kind of cathartic.

"I took everything, but gained only temporary relief. Until last spring my daughter, who is a nurse in a hospital, brought me some Kellogg's ALL-BRAN.

"At the end of the week, I knew I had something that was it, and I kept on taking it. I haven't taken a cathartic since. I can eat most any time, as often as I like, or any other kind of food, and no constipation." Mr. L. M. Durigan, 6811 Buffalo Ave., Jacksonville, Florida.

Laboratory tests show Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to help muscle tone. Also iron for the blood.

The "bulk" in ALL-BRAN is much like that of lettuce. Inside the body, it forms a soft mass. Gently, it clears out the intestinal wastes.

How much safer than patent medicines. Two tablespoons daily are usually sufficient. With each meal in serious cases. If not relieved this way, see your doctor.

Sold in the red-and-green packages. At all grocers. Made by Kellogg in Battle Creek.

NOW EATS ANY KIND OF FOOD, AND NO CONSTIPATION

Next to Advertising Matter

THERE used to be a favorite phrase of advertisers. They asked to have their advertisements placed "next to reading matter" in the belief that such a position would assure more attention.

But today the editor might well ask to have his news items placed "next to advertising matter," for very definitely the advertisements have a tremendous reader following. Today's advertisements win eager attention because they help people buy intelligently, quickly, without waste of time, and get full value for the money spent.

That is the great function of advertising—to guide you swiftly and surely to wise, economical buying. The best advertisement is always the one that gives you the facts you want—simply, honestly, without exaggeration.

hits four runs off Smith in four innings; four hits, five runs off Dinmore in two innings; bases on balls of Lee 7, Smith 2, Dinmore 2; struck out by Lee 8, by Smith 2, by Dinmore 0; left on bases, Stargas 9, Sinclair 7. Umpires Davenport, Kirke, Hill and Vaughn.

Ross' Suspension Almost Laughable

By W. WINSTON COPELAND
United Press Staff Correspondent
FORT WORTH—Important as it may seem on the surface, the National Boxing association's suspension of Barney Ross is almost laughable.

The lightweight, junior welterweight and welterweight champion was suspended because he failed to keep his contract to meet Tony Herrera, the Mexican pride from El Paso, here April 21.

Paraphrasing his lambasting of Jimmy McLarnin indicated Tony may have had a "break" after all.

About the only thing of importance in the suspension was that the N. B. A. showed its willingness to co-operate with the Texas commission, which had demanded the suspension.

As far as keeping Ross out of the ring, the N. B. A. ruling will have about the same chance of doing that as a tailor has of selling a tuxedo in a nudist colony.

This, because the three principal fighting areas of the U. S. A. do not recognize the N. B. A. New York, Illinois and California all have given the N. B. A. the proverbial horse-laugh. Ross can fight in any of these states.

Grab your geography and try to figure out where else Ross would want to fight. Florida is the only other spot where big-time fights are put on, and lower weight fights in Florida have never proved successful.

The suspension will, of course, keep Ross out of Texas and other lesser important fight areas—until it is lifted. But he probably would stay out anyway except for exhibitions or non-title fights.

Had Ross lost to McLarnin he probably would have been willing to meet Herrera here or elsewhere in Texas. Promoter Dick Griffin had contemplated such a match.

But with three crowns resting on his raven locks, it is doubtful whether there is a city in Texas that could afford to offer him enough money to defend a crown.

Milk and Cream Consumption Down

By United Press
WASHINGTON, — Americans are drinking less milk and cream, an Agriculture Department report indicates.

Consumption in cities and towns last year was estimated at 3,629,470,000 gallons compared to 3,731,743,000 gallons in 1932, 3,739,645,000 gallons in 1931 and 3,782,042,000 gallons in 1930.

Per capita consumption declined from 40 gallons in 1931 and 1932 to 38.8 gallons last year. The decreases occurred chiefly in the North Atlantic states where about four per cent less milk and cream was used than in 1932. Consumption decreased 3.5 per cent in South Central states, three per cent in South Atlantic and about two per cent in North Central. Western consumers used about 7.5 per cent more and cream.

Medical Problems Will Be Discussed At A.M.A. Meeting

By HENRY B. HENSON
United Press Staff Correspondent
CLEVELAND.—Modern medicine's four "problem children"—cancer, tuberculosis, heart disease and arthritis—will be clinically viewed when 8,000 physicians and surgeons meet here June 11 for the 85th annual meeting of the American Medical Association. Sessions will continue through June 15.

Three hundred medical and scientific papers, detailing the latest advances in man's war on the four perplexing diseases, and others, will be read.

Epidemic Diseases

Epidemic diseases, which have ruffled the brows of medics particularly during the past year—amoebic dysentery and epidemic encephalitis (sleeping sickness), will be analyzed in two symposiums.

The first disease, caused by infection from an amoebic, broke out in Chicago during the summer of 1933. The second disease caused a serious epidemic in St. Louis.

Speakers on amoebic dysentery will include Drs. Charles F. Craig and Sidney K. Simon, New Orleans; Henry E. Meloney, Tenn.;

Thomas B. Magath, Rochester, Minn.; George W. McCoy, Washington, D. C.; Alfred C. Reed, San Francisco; and Kenneth M. Lynch, Charleston, S. C.

Other Subjects

Other subjects scheduled for special attention include forensic medicine, (the relation of medicine to law), lead poisoning, nutrition, new investigations on the functions of the outer layer of brain and indications for the interruption of childbirth.

The first general session will be held Tuesday evening, June 12, with Dr. Walter L. Biering, of Des Moines, new president, as speaker. Dr. Biering succeeds Dr. Dean Lewis of Baltimore, at that time.

Welcome addresses will be made by Mayor Harry L. Davis, Dr. Alfred A. Jenkins, president of the Cleveland Academy of Medicine, and Dr. Clyde L. Cumber, president of the Ohio State Medical Association. United States Senator Robert J. Bulkley, of Cleveland, also will speak.

"GRANDDADDY" HOPPER CAUGHT IN MONTANA

By United Press
MISSOULA, Mont.—Two Mis-

souri girls have captured they believe to be the daddy of all grasshoppers. They found a "hopper atop Mount Tinel" near here which measured two inches in length—not counting antenna, wings and legs.

A German scientist says we have 15 senses, instead of only five. Still, how many people do you know without any sense at all?
