## Woman Held in Slaying of University Beauty

### L. R. Pearson Installed as Rotary Head

L. R. Pearson, newly elected president of the Ranger Rotary club, was installed at office at regular meeting of the club today, and eulogized the past president of the organization. He said he intended no changes in the club other than a diversification of the programs.

A rising vote of thanks was expressed to Walter Harwell, retiring president, for the excellent work he has done during the past year.

H. C. "Andy" Anderson gave a report on his trip to the annual convention of Rotary International, which was held in Detroit June 29. He also attended the convention the week preceding the convention.

He stated that 43 nations were represented at the convention by 200 delegates, making it one of the largest conventions of its kind ever held. Mexico City was selected as the site for the next convention.

One highlight of the convention, said, was when the curtain was shown, showing a banked assembly of 13 flags of the world in which rotary functions.

During the convention 800 new automobiles were on hand at all times to take delegates to any part of the city they wished to visit, he said, and Detroit showed her hospitality in the way the delegates were entertained.

### Killers to Die Friday, July 13

Friday, the 13th, traditional day of misfortune, will be doomsday for two slayers who will pay the penalty in gas chambers of two western states on July 13. Joseph Behler, 36, top photo, killer of a dance hall girl, will die in Nevada's death house at Carson City, and George Shaughnessy, 19, below, auto dealer's slayer, in the Arizona lethal chamber at Florence.

### STRIKES OVER NATION STILL CAUSE RIOTS

**SAN FRANCISCO, July 11.**—A general strike, with all the attendant chaos and bloodshed, appeared imminent today as meddlers failed in a desperate effort to arbitrate the 64-day-old dispute between marine workers and ship owners. Seventy-nine other unions prepared to vote on a general strike.

**MINNEAPOLIS, Minn., July 11.** Employees and operators of Minneapolis truck lines refused an offer of arbitration of differences today, making a paralyzing, general strike a probability.

**PORTLAND, Ore., July 11.** First bloodshed of the local longshoremen's strike here occurred today when police fired at a group of strikers who stopped a freight train bound for a terminal. Four persons were wounded.

**MILWAUKEE, Wis., July 11.** Two shots were fired and 11 men arrested in a strike riot today at a steel casting plant. The fight broke out when workers attempted to get through a picket line to the plant.

**FORT WORTH, July 11.**—The federal regional labor board at San Antonio re-entered the traction company labor dispute today, bringing a new hope for settlement of the threatened street car and bus operators' strike.

**EDWIN, Tex., July 11.** International vice president of the operators' union, said he received a communication from Decker Busfield, board secretary. Peproux said he accepted Busfield's offer but notified him "quick action would be necessary."

### Trades Her Fan For a Bubble

Fame's just a bubble, as Sally Rand proves here. Sally, back at the Chicago World's Fair, has tossed away her fans and now there's nothing between her and her gazing audience but this six-foot balloon.

### GRAIN EXPERTS PESSIMISTIC OVER OUTLOOK

**CHICAGO, July 11.**—Grain experts, after studying the new government crop estimate, were frankly pessimistic today regarding the wheat situation.

Statisticians predicted wheat in America's surplus bins would be at a dangerously low level and by July 1, 1935, this country would be forced onto an import basis.

There was spontaneous trading at the start of today's market but as the buyers' enthusiasm grew the sellers became fewer and fewer until near the close there was almost no trading. Holders of wheat decided to hold it for higher prices.

**FORT WORTH, July 11.**—Wheat bids rose several cents today, reaching \$1.04 a bushel on No. 1 hard wheat. There was no trading as holders preferred to keep their wheat.

### Marijuana Crop At Dallas Large

**DALLAS.**—The biggest marijuana crop reported here in years was destroyed recently when officers found a carefully cultivated crop growing in a vacant yard.

At the same time 500 marijuana cigarettes were found in a Mexican woman's possession and were destroyed.

The plants from which the cigarettes are made were growing seven to 12 feet high. Leaves from the stalks would have made enough cigarettes to supply all the marijuana addicts of Dallas for weeks, police said.

The cigarettes sell for 5 cents each retail, two and a half cents wholesale. Police learned vendors of the drug were seeking to extend their market among high school children.

### Given Premier's Post in Japan

A moderate in his outlook on domestic and foreign affairs, Admiral Ketsuke Okada, above, is the new premier of Japan. He has been a naval officer for more than 40 years and served as minister of the navy from 1927 to 1933.

### Parental Aid Points Youth to The Right Path

**CHICAGO.**—When Johnny wants a saxophone get him one. Let the blue notes waft unrestrained because Mrs. Elizabeth Burford, child psychiatrist, believes that after all a saxophone is better than a revolver.

Mary, the daughter, perhaps she wants a little more love and understanding. Let her boy friends call at home. If you don't see the probability will sneak into a public dance hall, or some night club, Mrs. Burford said.

Experience gathered from the thousands of cases handled has taught Mrs. Burford that the boy or girl whose aspirations are met with parental opposition sometimes grows into a law breaker.

She is an attaché of the Illinois juvenile research department and stationed in the University of Chicago area.

A complete understanding between children and parents is a fundamental necessity if a child is to grow up to be a good citizen.

Often times the unwanted baby develops criminal tendencies her records show. A child usually acts as it is expected to act and if parents are sure they have a footpad or a murderer in the making it is apt to occur that way.

To be happy and make others happy, Mrs. Burford believes the child needs:

- Physical and mental health.
- To be wanted and loved.
- Decent surroundings.
- Educational and vocational opportunities.
- Music and art.
- Good neighborhood surroundings.
- Religion.

### FREE SWIMS TO BE GIVEN KIDS ON THURSDAY

A. N. Larson, chairman of the Willows swimming pool committee, announced today that Thursday morning all children would be admitted to the pool free of charge and all the children of Ranger were invited to enjoy a swim.

The pool is to be drained again Thursday afternoon, after which it will be thoroughly cleaned and refilled in time for it to be reopened over the week-end.

In speaking of the draining of the pool, Mr. Larson stated that the reason it was being drained again, after only about 10 days, was that the committee was ever mindful of the necessity of keeping the pool thoroughly clean at all times, and that while it might not need draining at this time the committee decided that it would be done in order to keep fresh water for the bathers at all times.

Refilling the pool will begin as soon as it can be drained and cleaned thoroughly, he said, and would be ready to reopen for business within a couple of days.

### Legion Post Will Have Big Program For Meet Thursday

G. E. (Bob) Robinson, who just recently took over command of the Carl Barnes Post of the American Legion, has been installing life into the organization and has been giving the members better meetings than the post has had for some time.

Each week he has been working toward the end of furnishing good entertainment, and wherever possible, a good feed to go with the meeting.

For this week he has announced a special occasion for the regular meeting night with a special feed for all members. All members have been urged to be present in uniform, Thursday night, at which time Walter Harwell will present a talk covering his experiences during the World War.

### SAID SHE TOLD YOUTH HOW TO DOCTOR GIRL

**NORMAN, Okla., July 11.**—The woman in whose little duplex apartment Marian Mills, 20, university of Oklahoma student, was found mysteriously dead, was ordered held today as a material witness in the strange campus tragedy.

Search continued for Neal Myers, 21, student from El Reno, believed to have been the last person to see the girl alive.

County Attorney Paul Updegraff said Mrs. Hazel Brown, cook for the Delta Upsilon fraternity, had told him she had counseled the boy in efforts to prevent maternity for the girl.

The body of Miss Mills, once chosen University queen, was found clothed and without marks of violence in Mrs. Brown's apartment yesterday. Myers had disappeared after calling a doctor.

An autopsy was performed but no findings had been revealed.

Investigators found quantities of quinine and castor oil as well as other medicines in the Brown home. Mrs. Brown told the county attorney she knew the campus beauty had been taking the first two preparations, but not the others.

She said Myers had come to her during the spring, asking if she knew any doctors. She said she gave him the name of one in Oklahoma City. The boy and girl were her guests Monday night, according to her story.

Miss Mills was a graduate student seeking a master of arts degree. Her father, Elbert Mills, is a veteran professor of engineering in the university. Neither he nor the girl's mother could throw light on the death.

### Drouth Robbed Farmers of Millions

**WASHINGTON, July 11.**—The drouth has robbed western soil of \$216,000,000 bushels of wheat and wheat farmers of \$162,000,000 analysis of agriculture department crop reports showed today.

The only income of many farms this year will be AAA benefit money, paid for acreage limitation, which the drouth made insignificant. They will get nothing from the sale of their crops because they have nothing to sell.

A small number of producers will benefit from the drouth and shortage which have caused a price boom.

### Stephens to Be Sent to Lubbock

**HOUSTON, July 11.**—J. B. Stephens, 28, Texas convict who faces a long prison term on robbery and burglary charges, was in the Harris county jail today awaiting transfer to the Lubbock jail from which he escaped June 24.

He was arrested here after his two companions, Ed "Perchmouth" Stanton, and Andrew H. Nelson, fled in a car when police approached to question the trio. Stephens was left on the curb.

### Girls' Camp Has Own Beauty Expert

**KERRVILLE.**—The girls at Camp Waldemar near here go most of the way back to nature in the matter of clothes while sunbathing and otherwise disporting themselves in the outdoors.

But when it comes to their dresses they insist upon retaining the mode of civilization.

The camp, which has nearly 200 girls enrolled from seven states, has added a professional beauty salon operator to its "facilities."

Permanent waves now vie with Guadalupe river waves at swimming time.

### Ranger's Future Farmers to Meet

### Times Advertising Pays Orchardist Ample Returns

R. E. Beeman, who lives on Eastland Hill, just two blocks north of the Breckenridge highway at the city limits was in the Times office Tuesday to bring a "Peaches for Sale" advertisement, which will be found in the classified column.

Several days ago Mr. Beeman brought in a classified telling of "Plums for Sale at \$1.00 a bushel." In less than an hour after the Times was off to press there were seven cars at his farm wanting plums, said R. E. Beeman.

The Times gives that type of results to every advertiser in its columns. It is worth a lot to see that the paper is being read each day with an eye to gaining any values offered.

See the circulation of the Daily Times and Weekly Times combination, one or both of which go into every home in Texas. Olden and the Ranger Times and thoroughly covering other towns and routes in Texas and nearby counties. It is small wonder that an advertiser gets RESULTS!

### Large National Park Is Planned At Fort Worth

**FORT WORTH, Tex.**—The federal government is contemplating construction of a 2,000 acre national park near here.

The park may be developed in the Eagle Mountain area, about 12 miles northwest of Ft. Worth. It would serve the Dallas-Fort Worth-Wichita Falls sector as a recreation ground.

Federal government agents will come here shortly to discuss the project and look over the prospects, according to Harry J. Adams, superintendent of parks here.

The project would be carried out by the Emergency Conservation Works administration which is constructing national parks over the nation, Adams said. Adams said he would recommend the Eagle Mountain Lake territory.

Besides providing a recreation ground after its construction, the project would provide work for several hundred needy men, Adams said.

**FEEDING NEEDY IN JULY TO COST \$70,000,000**

Federal Relief Administrator Harry L. Hopkins announced on the last day of June his agency would expend approximately \$70,000,000 to aid needy families in 41 states and three territories during July. Allotment for seven states, including Texas, had not been agreed upon, but is expected to bring the total well over \$100,000,000. If it will cost \$100,000,000 to feed the needy in the summer month of July, what will be the cost in the winter months of freezing time?

Notwithstanding all this, the Dun and Bradstreet weekly trade review issued on the last day of June editorially said: "While the trade tide undoubtedly is ebbing from the standpoint of sales and earnings, a gradual but irregular uptrend is noticeable in practically all major lines." That is, industrial indices are becoming more mixed, with new peaks being set down for some divisions, while in others the recession is more "accentuated than seasonal." This is the warning given by the review: "It cannot be denied that crucial points lie in the path which business must follow during the next six months, but with the reassurance given by the President that nothing is to be allowed to interrupt the recovery movement the overcoming of timidity and the jettisoning of the present excessive caution may result in a sudden forging ahead in the next few days."

All the experiments and New Deal recovery and relief acts or experiments are to be given the acid test the coming six months, according to the prophets of the hour as well as the critics of the administration.

**RETIREMENT PENSION FOR RAIL WORKERS**

President Roosevelt signed the Crosser bill which sets up a retirement pension system for railroad workers. A reminder the legislation provided retirement would come to railroad employes at the age of 65. It compels both the workers and their employers to contribute to a retirement fund. This fund to be built up under the new law to be administered by a railroad retirement board. As for the Crosser act the President branded the measure as "crudely drawn" and declared it will require many changes and amendments at the next session of the congress. Principal points of the act are interesting to the more than 1,300,000 railroad workers: A three-man board to serve for five years at \$10,000 annual pay; employes may retire after reaching 65, or having completed 30 years service; the annuity begins in six months and is based on the length of service and the rate of pay; upon retirement each employe is to receive monthly payment equal to 2 per cent of his monthly pay multiplied by the number of years he has served.

In the rail world old age insurance is not on the way—it is here.
