Albany Bank Robbed by Two Bandits Today

University of North Carolina professor says it takes intelligence to be a modern wife. Husbands come home with such sick alibis nowadays.

COLONY ANNUAL PICNIC TO BE STAGED SATURDAY OF THIS WEEK

Plans have been completed at Albany for the big annual picnic, which is one of the big occasions of that section of the county each year.

An all-day barbecue has been arranged with a good program of entertainment which will begin at 10 o'clock in the morning and will continue all day.

The first thing on the program is a baseball game in the morning between two teams, probably Colony and Merton Valley, which will be 10 o'clock.

Immediately following the baseball game will be the political speaking by the county candidates of whom have indicated that they will be on hand all day. The speaking will end at noon.

A big barbecue will be served from noon, to which the merchants of the town are invited. As the majority of the Colony community are furnishing all the meat and other items, those from Ranger attend have been requested to bring along a loaf of bread, a pickle, which would be a cheap price to pay for a meal such as Colony has planned. The merchants of Ranger can leave about 15 minutes early for their lunches, it was pointed out, take along a loaf of bread and a pickle, return only 15 minutes later than usual and mingle with their friends and customers at Colony. A large number from Ranger is expected to attend throughout the day and particularly at noon.

Following the big dinner and barbecue another baseball game will be played, with a team from Ranger entered. The winner of this game will play the winner of the morning game for the championship of the day.

Plenty of cold drinks and cold watermelon will be on sale throughout the day, the proceeds from the two concessions going to the Colony baseball team to furnish hats, bats and other needed equipment.

Fire Chief G. A. Murphy has been put in charge of part of the arrangements and has secured leave of absence for the day in order that he can be on hand and superintend the barbecue.

STRIKES SEEM TO BE LOSING OVER NATION

Defections in the ranks of organized labor held a promise today that a breakdown in strikes over the nation was near.

In San Francisco conservation unionists pressed for arbitration and an end of the general strike. The city generally was quiet. Food was more plentiful.

In Minneapolis threats of a general strike in sympathy with truck drivers seemed diminishing.

Portland's situation remained critical, with mediators striving to prevent a general strike.

Seattle labor proceeded cautiously on voting on a general strike.

Alabama's strike was taken up by a labor board.

Wife in Futile Plea for Poni's Pardon

Hope that he would be saved from deportation to Italy dimmed for Charles Poni, notorious "get-rich-quick" wizard, when Governor Ely of Massachusetts denied him a full pardon after he had served a prison term for his international reply coupon swindle. Here he stands solemnly while his loyal wife makes a tearful but ineffectual plea in his behalf.

GROCERIES IN TEXAS GO UP TO NEW HIGHS

FORT WORTH, July 18.—The family pocketbook will get some setback when the housewife goes out this week to fill her larder with flour, sugar and vegetables.

A survey of grocery stores showed food had risen from 5 to 10 per cent in the last few days, due to drought, and in some instances, federal taxes.

Some items were expected to advance again this week, grocery men said.

The same situation, grocers said, is generally true over Texas.

Flour has jumped 20 cents a barrel in the last week. A further advance was expected. Bacon has risen four cents a pound in the last month. One vegetable counter manager estimated all fresh vegetables had risen from 5 to 10 per cent during the week.

Lone Star Gas Rate Case to Go To Jury Today

AUSTIN, July 18.—Arguments before a Fifty-third district court jury here on fairness of a rate reduction ordered for the Lone Star Gas company were to be completed today.

Then, for the second time in the history of Texas, a jury in a state court will retire to determine if a fair return to a utility in fixing its rate.

The only precedent for a jury trial of a rate was the recent Laredo gas case, tried in the same court.

The suit against the Lone Star Gas company was filed by the attorney general's department to compel the utility to abide by a commission order reducing the cost of gas delivered at city gates from 40 to 32 cents a 1,000 cubic feet.

TWO ESCAPE IN CAR BEARING LOCAL LICENSE

ALBANY, Texas, July 18.—The First National bank of Albany was robbed of between \$6,000 and \$9,000 in cash today by two unmasked bandits who entered the bank with drawn machine guns.

The two men entered the bank unmasked, but armed with sub-machine guns, at 12:30 when but four persons were in the bank. They robbed the vault, taking between \$6,000 and \$9,000 in cash and fled northwest toward Stamford.

Sheriff Goodwin of Shackelford county quickly formed a posse and started in pursuit, while the sheriffs of surrounding counties were notified to be on the lookout for the bandits in case they doubled back on their trail.

The two men were described as being about 25 years of age and were driving a Ford V-8 bearing license number 316-019, which was issued in Eastland county. It was thought by officers that the two men who robbed the bank were the same two who held up the night watchman at Strawton the night before and obtained a number of guns and a quantity of ammunition, as the descriptions tallied somewhat with that of the Strawton robbers.

When the bandits entered the bank Joe Clark, cashier; Charlie Castles, assistant cashier; Mrs. Edith Hunter and another assistant cashier by the name of Dodge were in the bank. None was taken as hostage.

Bobby Connor Not Kidnaped Is Belief of Officers

HARTSDALE, N. Y., July 18.—Kidnaping theories in the disappearance and reappearance of Bobby Connor were abandoned today, retraced by convictions the 21-month-old baby crawled through brush and undergrowth for five days, subsisting on grass and vegetation his tiny hands crammed into his mouth.

Emaciated, starved, suffering from lack of water and his body covered with scores of scratches and insect bites, Bobby lay in a hospital today with an even chance of recovery.

Scores of federal agents at first scoffed at the possibility he could have lived alone in the woods since Thursday when he wandered away. But after doctors completed a thorough examination and announced their findings, even the most suspicious admitted the boy had not been abducted.

Judge Carl O. Hamlin of Breckenridge, district judge and candidate for congress from the 17th district, has announced that he will speak in Ranger next Friday night, July 20.

MARTIAL LAW IN FORCE IN NORTH DAKOTA

BISMARCK, N. D., July 18.—Armed soldiers tramped through the corridors of the capitol today enforcing Gov. William Langer's "reign of night" as martial law gripped the entire state.

The governor, facing a prison sentence resulting from his conviction on criminal charges, issued a proclamation of military law today and 1,200 national guardsmen were called out under orders to suspend civil law.

The governor's action came swiftly upon the heels of a supreme court decision ruling his conviction disqualified him from office.

Lieut. Gov. Olson termed the state's "real governor" by the supreme court, sought to break the martial law rule of Langer.

Langer apparently was sparing for time pending the convening of the special session of the legislature. The session, opening tomorrow, was called by him with instructions to determine his fitness for office. The legislature is overwhelmingly of his action.

Donkey Soft Ball Game to Be Played Sunday

Plans have been made for a donkey playground ball game, to be played Sunday afternoon at Lillard field.

Trained donkeys, which are being used all over this section of the state, and which were used in a game at Brownwood Tuesday night, are to be secured and used in the game, which will be staged by the Service and Elks.

Several from Ranger went to Brownwood Tuesday night to watch the game and came back enthusiastic over the interest and fun that can be had at the game. The donkeys are well trained and, according to members of the committee, "know more about the game than most of the players."

MAN IS SHOT BY DETECTIVE SEEKING GANG

OKLAHOMA CITY, July 18.—J. Ray O'Donnell, 33, Tulsa, was shot and killed today by a detective seeking Harvey Pugh, an asserted pal of the late Clyde Barrow.

Pugh, who admitted he was under \$10,000 bond in the killing of a Kansas policeman, was arrested two hours later when he presented a claim check for his car at a parking lot near the hotel in which O'Donnell was slain.

O'Donnell was lying in bed, gripping an automatic pistol and pointing it at the door, detectives said, when they opened the door. He was shot when he failed to drop his gun, they said.

Thieves Steal Man's Windmill; Leave Only His Water Well

BORGER, Texas.—Officers scratched their heads over this one:

The complaint charged Myers fatally injured Miss Mills while attempting to perform an abortion either by use of instruments or drugs.

Rep. William P. Cole, Jr., is the chairman of the special house oil investigating committee to ask officials of producing oil companies why oil prices failed to drop when congress passed no control legislation...

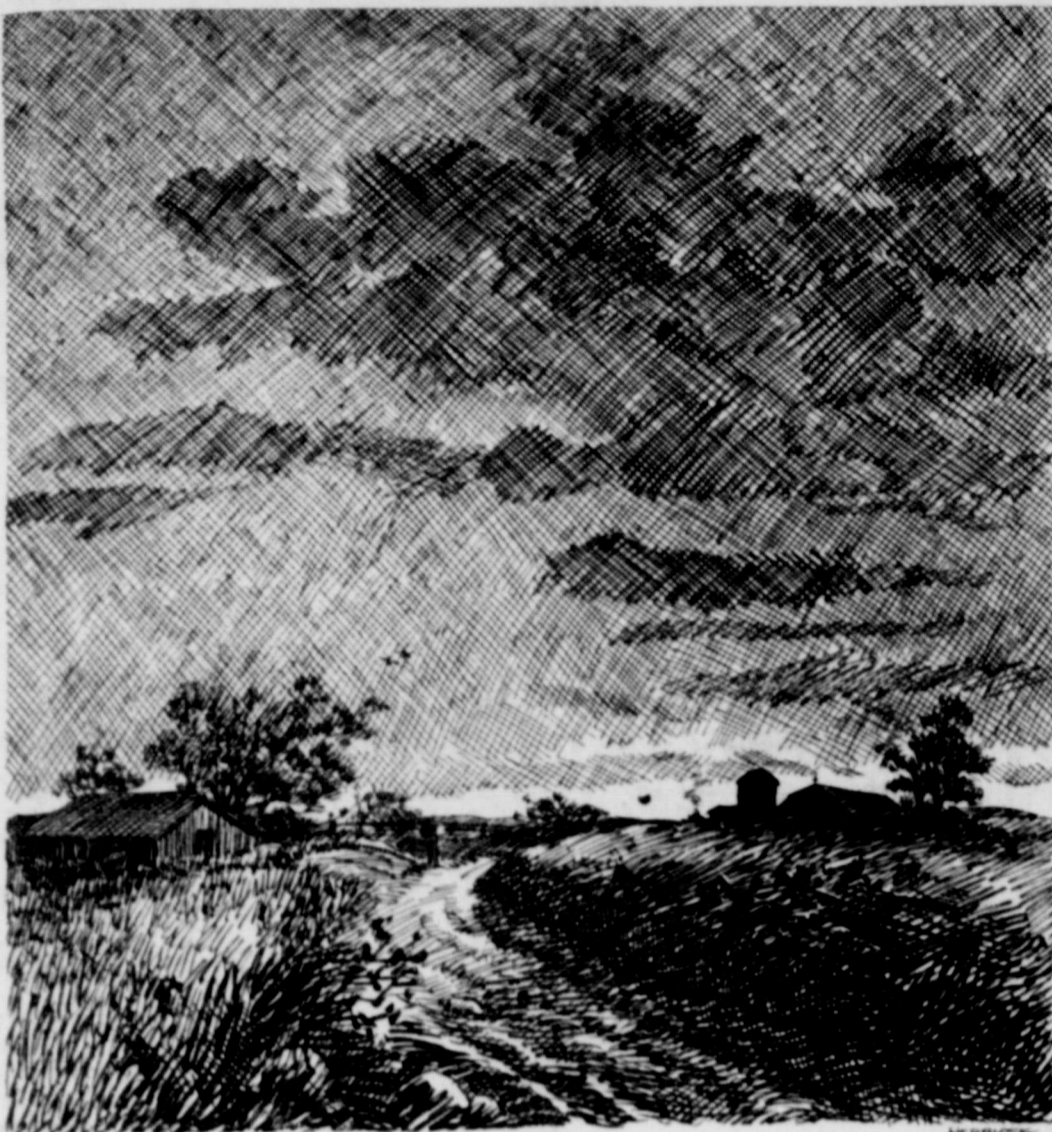

President Roosevelt, when given the actual facts as to the actual conditions, refused to place the Disney measure on his "must" list. It died. But the Cole committee was appointed to make a survey as well as an investigation of conditions in the oil fields and report at the next session of the congress.

Rep. E. W. Marland is the democratic nominee for governor of Oklahoma. He attended the session of the committee held in Tulsa. This new Moses of the Oklahoma democracy also had a control bill which failed of passage.

Rep. Marland for years was one of the outstanding operators in the petroleum industry of Oklahoma. He offered as a candidate for governor promising to do his best to lead the democrats of that state "out of the wilderness" and pledged his best efforts to bring about a restoration of not only progressive development but peace and prosperity to his people.

KNEE-ACTION

tops a 22-year record of engineering progress that makes Chevrolet the best riding car in the low-price field

CHEVROLET Year after year, it's been the same story: Chevrolet FIRST with the NEWEST and BEST! Chevrolet leading—others following. Chevrolet out in front with the latest proved advancements. Self-starter! Sliding gear transmission! Streamlined design! It was Chevrolet aggressiveness and progressiveness that forced all low-priced cars eventually to adopt these and other major improvements. And now, this year, comes the climax of Chevrolet's engineering leadership—the Knee-Action ride! This newest of motoring sensations is a marvel of smooth, easy, gentle motion. No other ride in the world can even compare with it. It makes Chevrolet far and away the best riding car in the low-price field.

Have you noticed how America has taken to the Knee-Action ride? In the first 6 months, demand for Chevrolet cars sent production to the highest total attained by any automobile during 1934.
