Strike Leaders Asks Johnson's Resignation

NEGOTIATIONS MAY PUT END TO WALKOUT

Disorders Again Flare Up in South As New England Is Peaceful.

WASHINGTON, Sept. 15.—Textile strike leaders demanded today that Gen. Hugh S. Johnson resign as national recovery administrator, because of his speech in New York last night in which he accused the textile union of bad faith in calling the walkout.

Francis J. Gorman, chairman of the special strike committee, acting as spokesman for the textile workers, voiced the resignation demand and accused Johnson of not telling the truth, of bad faith and of idleness while "the textile workers were being slowly strangled to death."

Johnson said the walkout was an "absolute violation of an agreement with the government."

The leader charged Johnson with bad faith in the operation of the textile code, and accused him of not telling the truth last night in his attacks on the United Textile Workers.

Gorman said that on June 2 an agreement was reached between General Johnson, the Cotton Textile Institute and the Union but its first clause read "this agreement does not prejudice the right to strike."

PROVIDENCE, R. I., Sept. 15. Plans probably will be made whereby the national textile strike can be settled through negotiations with individual mills, the United Press learned today from a high authority in the strike ranks.

ATLANTA, Ga., Sept. 15.—New outbreaks of violence in the textile strike today caused authorities to tighten military defenses thrown around mill property in Georgia and the Carolinas.

SENATE CUTS BOND AMOUNT TO \$5,000,000

AUSTIN, Sept. 15.—The senate today reduced the amount of the \$9,500,000 relief bond bill to \$5,000,000 by vote of 13 to 12.

"We've got a peck of seed corn now, and you fellows come down here and want to eat it up. I warn you now, where, oh where will we get another crop?" asked Sen. T. J. Holbrook, Galveston, in urging adoption of the lower amount.

The senate also voted to budget the \$5,000,000 allotment, allotting \$1,000,000 to November and limiting the amount of bonds to \$1,500,000 each for the months of December and January.

Issuance of the entire \$9,500,000 in hunger bonds now would leave the state without money to care for destitute persons next year, Senator Joe Moore said.

Referring to efforts to retard the inquiry, Nye said: "There is talk to the effect that the revelations being brought to light are quite apt to start a war. One can guess where this talk and other like it comes from.

"The facts are that if all the world will just hold its temper and finally know the facts about this war trade, nations will become very angry and will want to fight. KEEPING THRU THE KNOTHOLE

with HILL MAYES

Today we did not get to go to the Breckenridge Comanche but we did go over for the "PRICES OF THE HODGES DAY BANQUET" going with Prof. Holloway, Coach Moore, Aaron Anderson and H. S. Von Roeder, who had over for the game, joined at the feed, as did A. N. Larson and J. J. Kelly.

We heard very little about the game, though we talked with several who saw it and none seemed enthused. Anderson, who you probably know is not the runt of the bulldog team, said that he had not much about how small the negroes were this fall, but that didn't see anyone as small as was. He might have been exaggerating some, though.

The score, 19 to 0 in favor of Breckenridge, does not sound so good when compared to the 54 to 0 score of 1931, and the 40 to 0 score of 1932 and the 26 to 0 score of 1933.

However, everyone who saw the game agreed that Breckenridge would probably be one of the real big contenders in the 1934 campaign.

At the banquet Coach Moore is the newcomer in the Oil Belt, he was the one against whom most of the fun was directed. He shined light compared to Dexter and Red Petty last year.

When he was called upon to talk a member of the Breckenridge Lions club got up and his talk for him in which he spent some 10 minutes in telling about what a whale of a fellow he was and what a wonderful coach he is now.

Some of the highlights of the program was when a man, who was Burns of the Burns agency, presented a bill for \$375 for services alleged to have been rendered in getting the information on other teams, and he installed a telephone in the office of R. F. Holloway and a conversation that showed Ranger kept players eligible long. The conversation, which was supposed to be between Holloway and Britt, ran something like this:

Holloway—Britt, tomorrow as you know, is the day of the Abilene game, and we have to win that game. We need you in there to help us win, but some of the chaps tell me that you are not doing very good grades. I have read a series of 19 questions. If you can answer any three of them I will give you passing grades on all your subjects so you play. What is the capital of the United States?

Britt—Austin.

Holloway—Who is the president of the United States?

Britt—Miriam Ferguson.

Holloway—How do you spell football?

Britt—A-s-i-f-f-t-t-l-e.

Holloway—The record ended, but records showed that Britt was in the Abilene game. These records gave an address P. E. Shotwell in which he accepted the presidency of the high school football coaches association, or something, and a talk in which Dewey Mayhew was talking he Abilene team before a game in which he told the men in the faces, told the girls to gouge out the eyes and the others to win fairly if they can, but if they couldn't win knocking out the opposing team.

Cluck and Dexter Shelley Cisco seem to have a lot of fun. Last year they took Leon Latch, we believe his name along as captain of the Lo-When he was introduced and other coaches got a look at they sized up his six feet, one night and something like 195 smart styles and immediately thereafter was declared ineligible. The new year they brought along Scully, the captain for 1934, let him be introduced, in spite of the fact that he looked just as fat as Latch did.

Pick some little fellow is of blue at least take him to have the habit of breckenridge Banquet.

In Mallory, er brands.

NEW YORK, Sept. 16.—Federal Judge Alfred Cox, today quashed the subpoenas under which Ward line attorneys would have been required to surrender to a federal grand jury the statements they obtained from members of the crew and passengers of the burned liner.

WASHINGTON, Sept. 15.—Cotton planters will receive about \$72,500,000 in benefit payments next month, the Agricultural Adjustment administration announced today.

The administration decided to combine the third payment in the 1934 cotton adjustment program—the parity payments due in December—with the second installment of the rental payment.

The parity payments to contracting cotton producers totals \$28,000,000 and the second installment of the rental payment is about \$44,500,000.

C. A. Cobb, chief of the cotton production section, said that tenants and share croppers had an interest in the parity payments and that to delay the payments until December, the usual season for many tenant and renters to move to other farms, would cause unnecessary complications.

Earl Bower, San Antonio lawyer, was the State's first witness. The defense stressed Bower's statement that so far as he knew Pollard was not appraised of his use of the stamps until he had caused their use.

"The State emphasized Bower's statement that when he called Pollard and told him of the trouble of customer's cigarettes being seized, Pollard asked if it were about stamps.

DEATH TAKES A HOLIDAY CRUISE

In the temporary morgue established at Camp Moore, N. J., the vastness of the Morro Castle sea disaster became apparent. Row on row of bodies lay on canvas covers, covered from head to foot by the white sheets symbolizing death. To Camp Moore had been brought from the coast communities, where the surf and life boats delivered their grisly burdens, all of the dead that were unidentified, because many had left all possessions except their night clothes aboard the burning vessel, identification by relatives had to be awaited.

Co-hostesses for the occasion were Misses Wyatt, J. C. Jarrett and Carl Jones. An excellent program was a feature of the afternoon. Stanton gave an appropriate reading, "Children in the Home." Miss Henderson sang a lovely number, "Just a Little Fellow," accompanied at the piano by Mrs. Coe. Mrs. Roberts played an artistic piano arrangement of Old Kentucky Home with variations, Mrs. Fred Warren read one of Edgar A. Guest's best loved poems "Home," in a sincere and touchingly expressive manner. Miss Olga McCoy sang "Mighty Lak a Rose," a Carrie Jacobs Bond favorite. She was accompanied at the piano by Miss Maxine Henderson.
- Following the program the guest of honor was presented with a hamper filled with lovely gifts from those attending. The gift packages were opened by the honoree and passed around the entire circle of guests, who were chatting informally about the room. CHRISTIAN SCIENCE SERVICE
"Substance" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, September 16.
The Golden Text is: "My God shall supply all your need according to his riches in glory by Christ Jesus" (Philippians 4:19).
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear" (Hebrew 11:3).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Substance is that which is eternal and incapable of discord and decay... Spirit, the synonymy of Mind, Soul, or God, is the only real substance. The spiritual universe, including individual man, is a compound idea, reflecting the divine substance of Spirit" (page 468).

FORD

offers this NEW SERVICE

... Instead of an "Overhaul" - a factory reconditioned engine

Every mechanism, no matter how finely made, eventually wears and must be reconditioned. Automobile engines are no exception.

The Ford V-8 is the finest, most dependable and most rugged engine Ford has ever built. But there comes a time when any piece of machinery should be reconditioned to renew the efficiency originally built into it.

The Factory that built this engine is best equipped to recondition it. Here are the men, the precision equipment and the inspection methods which insured the excellence of the engine in the first place. Therefore the Ford Motor Company has instituted this exclusive new service to owners of Ford cars and trucks. When the owner of any Ford built since 1927 finds that his engine needs an "overhaul", he can have a factory reconditioned engine—at approximately half the cost of an old-fashioned "overhaul".

The Ford owner not only gets a much better job at far less cost—but only a few hours are required to make the exchange.

This "Exchange Plan", which also includes many other units of Ford cars and trucks is an important forward step in automotive practice.

Steer is Hanged By A Grapevine

By United Press
 KERRVILLE — A tragedy of the ranges occurred on a Gillespie County ranch near here when a 2-year-old steer seeking green leaves for food slipped from a ravine bank, caught its neck between a grapevine and oak tree and strangled.

The owner, Alfred Kordzik, discovered the steer after he had missed it for two days. The inch-thick grapevine had wound around the animal's left horn and under its jaw. Its feet were left dangling down the steep ravine without a foothold and it could not free itself.

Cattle Presenting A Traffic Hazard

By United Press

AUSTIN, — Texas' big cattle drive, federal herds enroute to slaughter or greener pastures, has created a new traffic problem. Motorists have been warned to watch carefully when driving along unfamiliar highways or roads where visibility is limited. One is apt to encounter a herd of cattle on the way to receiving pens.

Government purchases to September 1 totaled about 850,000 head, of which two thirds were accepted for shipment out of state. Condemned cattle are killed by the appraiser or veterinary, and the hide given to the former owner to repay him for disposing of the carcass.

Cows accepted for shipment are delivered to the nearest railroad

stock yards to be transferred to packing houses or pastures. With approximately 100,000 cattle per week being accepted for shipment, Texas' latest "big drive" has put many cows on the highways.

Even before government purchasing began, motorists learned to beware of stray herds. Many drought-harassed farmers turned their herds upon the highway to forage.

The New WATERLESS WAY

While the New Utility Cooker brings to you the possibilities of enjoying old-fashioned meals in addition, it permits you to prepare foods by the newer methods of cooking without water.

However, after we have cooked our foods we have poured off the excess water and with it we have poured the bone-forming, teeth-building minerals; the iron, calcium and phosphorus that constitute the essential elements which the human system must have. With the new perfected Utility Cooker you can prepare foods deliciously tender and full of these health-building elements. The Utility Cooker is ideal for the housewife who wishes to practice this modern, more healthful and more economical way of cooking.

Science has discovered that there is so much natural moisture in all meats, vegetables and fruits that it is entirely feasible to cook them with little or no water.

About the only reason why we have cooked with water was to avoid burning. Water distributes the heat evenly, conducting it away from the point nearest the fire.

There's always a thrill in a style show. One's enthusiasm leaps to fashion hints and we do pay attention to the fashion tips gleaned from the smart clothes to be worn this autumn and winter.

If you are at a loss as to what your fall wardrobe is to consist of, cease worrying about that, for Ranger merchants are going to present a style show Tuesday Sept. 25th and it is going to be the best show of any to have been given for your entertainment and clothes knowledge since we can remember.

One can't concentrate on what is going to be worn this winter with warm days filling the calendar, but with the present promise of winter just around the corner that's different.

Fall garments just lend a smarter appearance, one feels more dressed up and one's looks more swanky! Nebraska U. May Lift Cigaret Ban
LINCOLN, Neb. — This fall it may be no unusual sight to see the fair co-eds of the university of Nebraska walking along the university campus with their books in their left hand—and a cigarette in the right, or vice versa—if rumor proves true.

There is some talk of permitting the girls the same privileges as the men. At least, those privileges that they haven't already taken themselves.

This rumor, as all others, happened to start when the faculty in charge of women's governing rules was away. Then the students began to play. With the entire governing board vacationing this month, no denial of the rumor can be obtained.

One sorority has installed a smoking room for members in its basement, at a cost of more than \$2,000. Another sorority spent more than \$400 on their smoking room, and others are contemplating similar additions.

It is understood that there is no existing constitutional rule against women smoking. The National Pan-Hellenic Association, governing body for all sororities, has a resolution against smoking by undergraduate members in chapter houses and on the campuses.

A similar resolution was on the books of the local Pan-Hellenic organization, but it was dropped in May, 1934, according to university officials.

Furniture Company To Share Profits With Employees

By United Press
HOUSTON.—Employees of the Myers-Spalti Manufacturing company of Houston have entered into a co-operative contract with the organization and will share in profits, announces President W. S. Myers.

The Myers-Spalti company manufactures furniture and has 240 employees.

In announcing the contract, Myers explained that it will give employees "a chance to develop any talent they may have in management and also an opportunity to share, to some extent, in any excess earnings."

The contract became effective Sept. 1.

Myers sent copies of the contract to President Roosevelt, Gen. Hugh Johnson of the national recovery administration, Labor Secretary Frances Perkins, and William H. Green, president of the American Federation of Labor.

Committees will handle details of management and policy, instead of one or two officers, as formerly, said Myers. "We believe the main benefit should accrue to the stockholders who be the stronger and more permanent organization," he explained.

The company will divide with employees any excess earnings above the 5 per cent paid stockholders. Employees and stockholders will share in excess profits on a percentage basis, computed from the number on the payroll and the total capital.

Meetings of the co-operative will be at least once a year, if not more often. The contract reads:

"A majority of the members present and voting at any such meeting shall decide all questions submitted to the meeting and shall be binding upon all members."

A majority vote of co-operative members will fix salaries and fill all positions in the organization.
