LAW'S DELAY UNFAIR TO MAN AND SOCIETY

The law's delays have been proverbial since the time of Shakespeare. But—as Mark Twain once remarked about the weather—although everybody talks about them, nobody ever seems to do anything about them.

These delays add a vexing and incalculable element to our administration of criminal justice. They cut two ways—against the interests of society as a whole, and against the rights of men accused of crime.

Consider the case of David A. Lamson, the young Stanford University Press executive who was convicted a year ago of murdering his wife, and to whom the California supreme court has just granted a new trial.

Young Lamson's wife was found dead in their home on the morning of Memorial Day, 1933. Lamson was accused of killing her and was brought to trial early in the fall. He was convicted and sentenced to hang, and was lodged in a condemned cell at San Quentin prison.

His attorneys prosecute an appeal, and the case came before the supreme court several weeks ago. In its decision, just handed down, this court orders a new trial, stating that the evidence upon which the young man was convicted was "no stronger than a mere suspicion."

Consider the implications of this for a moment.

Here is a man convicted of an atrocious crime on exceedingly flimsy evidence. Such things are bound to happen, occasionally, under the best legal systems; appellate courts exist to correct such mistakes. But think what society has done to this man, in the meantime.

It has confined him in the death house for a solid year—one of the most excruciating bits of mental torture that can be inflicted on any man.

Our legal system, in other words, was unable to correct an obvious mistake without inflicting an appalling injustice which can never quite be righted.

Now look at it from the other angle—the case where a real criminal is convicted and appeals. In his case, too, there is a long delay. The deterrent effect of his sentence is automatically lessened.

If he awaits execution, he, too, suffers long-drawn mental torture; if convicted of a lesser crime, he may actually be out on bail for a year or more after his sentence, free to repeat the offense for which he was originally arrested.

Either way, this long delay is an intolerable thing. If we are the efficient nation we believe ourselves to be, we should find some way of rushing things so that only a few weeks may elapse between sentence and final disposition of the case. The present system is unendurably clumsy.

ALECK IN WONDERLAND

Platinum Is More Alluring Than Oil

DALLAS, Oct. 22.—Visitors to the American Petroleum Institute convention here Nov. 12-15 may find that platinum is more alluring than their own black gold.

For Jean Harlow has been asked to appear on the entertainment program and much of Jean's movie fame has been founded on her glistening platinum-blonde hair.

In addition to Miss Harlow, Captain J. F. Lucey, general chairman of arrangements, conferred with Leo Carrillo, movie star, about taking part in the program.

Also Lucey conferred with Fanchon & Marco, famous producers, while in California, regarding the production of a special revue especially for the banquet. Definite plans for the entertainment are not yet complete but officials say it will be "big time."

A special train will be used to bring delegates to the convention from the West Coast, Lucey said.

REAL JACK AND BEANSTALK

ABERDEEN, Wash.—Jack and the Bean Stalk had nothing on Nicholas Radinsky, gardener of Aberdeen. Common garden beans planted near his house climbed poles 22 feet above the ground and were still going at last reports. The crop was picked from the upper portions with a ladder.

ROBBED AT BALL

WASHINGTON—Evening wraps valued at \$257 were stolen from the check room of the Raleigh hotel here while their owners attended a dance sponsored by a group of beauty parlor operators. The loot included a seal coat and several velvet jackets.

Hitler made a mistake in trying to Nazify the church, when what he should have done was to churchify the Nazis.

CRAWFORD BURTON...gentleman rider...twice winner of the Maryland Hunt Cup...dean of the strenuous sport of steeplechase riding...and a Camel smoker.

GET A LIFT WITH A CAMEL!

Have you ever tried this enjoyable way of heightening energy?

HOUSEWIFE. Mrs. Charles Daly says: "Camels pick up my energy when I feel tired, and they have a mild, delicate flavor that a woman likes."

AIR HOSTESS. Miss Marian McMichael: "When the run is over, my first move is to light a Camel. A Camel quickly relieves any feeling of tiredness."

SPORTSMAN. Rex Beach, famous fisherman, says: "When a big fellow is safely landed, I light a Camel and feel as good as new."

Crawford Burton, the famous American steeplechase rider, is speaking: "Whether I'm tired from riding a hard race, or from the pressure and tension of a crowded business day, I feel refreshed and restored just as soon as I get a chance to smoke a Camel. So I'm a pretty incessant smoker, not only because Camels give me a 'lift' in energy, but because they taste so good! And never yet have Camels upset my nerves." Note these important points: that Camels taste so good. And that they make available your stored-up energy. Science tells us that Camel's "energizing effect" has been fully confirmed. Try Camels yourself. You can smoke them constantly. For Camels are made from finer and MORE EXPENSIVE TOBACCOS. They never taste flat...never get on your nerves.

TOBACCO MEN ALL KNOW:

"Camels are made from finer, More Expensive Tobaccos—Turkish and Domestic—than any other popular brand."

CAMEL'S COSTLIER TOBACCOS NEVER GET ON YOUR NERVES!

### Lady Luck Has Played Big Part In Oil Production

**By United Press**  
DALLAS, Oct. 22.—Lady Luck has been the Patron Goddess of Texas' most fabulous industry—oil. The American Petroleum Institute owes the convention to be held here Nov. 12-15 to a wave of that lady's hand at Corsicana in 1894, when she changed a water well into the first spigot to tap the greatest petroleum pool in the world.

Townspeople of Corsicana were seeking a municipal water supply. They drilled a deep well, but into their shaft came a black, slick liquid they could not drink. Disappointed, they drilled deeper and found water, drank and were content.

By the next year, however, East Texans began to realize the value of the vast sea of fortune that lay beneath their feet and wells were drilled in increasing numbers.

The well that opened the Electric field in North Texas also was a water well.

W. T. Waggoner, ranch owner of Wichita county and founder of Texas' first oil millions, promptly recognized the value of the oil and developed the field. It was named for his daughter.

The Burk Burnett field owes its being to a teamster's mistake in judgment.

S. L. Fowler, a farmer, formed a pool for a test well from contributions of his friends and neighbors. The site of the well was selected by the teamster who heeled in the material dumped it far from the selected spot. Where it was dumped the field was located. The original site later was found barren.

Trucks which could not navigate the rough and sandy lands of Reagan county provided a source of wealth for the University of Texas. The machines became hopelessly stuck on university land. In order to pull them clear they were unloaded. And where the materials were unloaded was found the oil.

Visitors to the A. P. I. convention, between meetings, will be taken to visit the working fields. Among the prominent men who is scheduled to address the sessions is C. C. Chapman of Portland, Ore., publisher of the weekly "Oregon Voter" and originator of the gasoline tax, a levy which has produced more than \$3,700,000,000 revenue since its inception in 1919.

**PRINCE SWAPPED RAMS**  
**By United Press**  
TWIN FALLS, Idaho.—L. L. Breckenridge, president of the Idaho Hampshire Breeders association, and the Prince of Wales traded outstanding Hampshire rams of each's flock. Breckenridge chose the best ram from the prince's band at his ranch at High River, Canada, and Dean W. L. Carlyle, superintendent of the ranch, picked out the foremost ram of Breckenridge's flock.

**RELIEF ROLL DECLINED**  
**By United Press**  
VICTORIA, B. C.—British Columbia relief roll registrations have declined steadily since March.

### Business Up, Says Company President

**GREENSBORO, N. C., Oct. 22.**—Business conditions are improving, and indications are that the upturn will continue at an even swifter pace during the fall and winter months, President L. Richardson of the Vick Chemical company declared in an interview here today.

As an evidence that the Vick Company is backing this opinion, Mr. Richardson pointed out that Vick's advertising appropriation for this season is larger than ever before—over \$2,500,000.

Mr. Richardson attributes much of the tremendous sales of Vick's preparations—over 53,000,000 packages last season—to honest, consistent newspaper advertising of highly meritorious products.

"Our nearly 30 years of experience have convinced us that the newspaper provides the most flexible and reliable form of advertising," he stated. "Newspapers, as always, head the list of media we are using this season. Especially heavy schedules will be run in connection with the new size of Vapo-nol. This handy half-size package—convenient for instant use at any time or place—is now available at all drug stores, in addition to the regular large size."

### Shoppers With Bags Watched In Stores

**By United Press**  
EL PASO, Oct. 22.—Shoppers who carry paper bags are watched closely by store employes here these days.

Youthful shoplifters have been reaping a bumper harvest by walking into stores, carrying inflated hat sacks and paper bags. They pick their chance, stuff merchandise into the bag and walk out unobserved.

The steamship company owning the ill-fated Morro Castle asks the government to limit its total liabilities to \$20,000. And still they want the government to keep out of business.

### CHILDREN'S COUGHS NEED CREOMULSION

Always get the best, fastest and surest treatment for your child's cough or cold. Prudent mothers more and more are turning to Creomulsion for any cough or cold that starts.

Creomulsion emulsifies creosote with six other important medicinal elements—it is truly an elegant prescription. It is not a cheap remedy, but contains no narcotics and your own druggist is authorized to refund your money on the spot if your cough or cold is not relieved by Creomulsion.

**THESE \$1 SCHOOLHOUSES SELL LIKE HOT CAKES**  
**By United Press**  
PORT PECK, Mont.—Schoolhouses are selling like the proverbial hot cakes here. Reason: They only cost \$1 each. Government agents, to meet increased needs made necessary by booming populations at towns surrounding the Fort Peck dam project, are selling buildings for class rooms at one dollar each.

William Fox may reap millions from his patents on the talkies. Being the result of sitting silently by and letting others do the talking.

**FIRE DIDN'T HALT FAIR FANS**  
**By United Press**  
RALEIGH, N. C.—The North Carolina fair, held here recently, was plagued by fire and water when one of the main exhibit buildings burned, but that did not dim the enthusiasm of fair "fans," and the attendance for the week was one of the largest in the fair's history.

**ALLEY OOP**  
NICE KITTY - GO WAY NOW 'OL ALLEY DIDN'T MEAN T'STEP ON YER TAIL - G'WAN NOW HURRY UP - GIT GOIN!

THASSA STUFF, OL FELLA! G'WAN ABOUT YOUR BUSINESS - AN I'LL GO ON 'BOUT MINE!

WHAT? OH, SO YER GONNA START SUMPIN, HUH?

AWRIGHT, YA BLASTED YAP I SUPPOSE I'LL HAFTA BRAIN YOU IN SELF DEFENSE!

## The Clew of the Forgotten Murder

**A CARLETON KENDRANE**  
©1934 M. A. SERVICE INC.

**BEGIN HERE TODAY**  
When DAN BLEEKER, publisher of the Blade, learns that "CHARLES" is a police reporter, he has mysteriously killed his employer SIDNEY GRIFF, famous criminologist, to solve the murder.

Morden had been investigating the sister of FRANK B. CATHAY, wealthy and prominent, who had threatened to sue The Blade because the newspaper reported Cathay had been arrested. The man arrested was an impostor giving the name of Cathay and accompanied by a girl called MARY BRIDGES.

Soon after Morden is found dead some weeks that Cathay is dead—possibly poisoned.

Morden's fingerprints are found in the apartment of a girl named ALICE LORTON, who has reported the disappearance of her roommate, ESTHER ORDWAY. Griff learns that CARL RACINE, detective employed by MRS. CATHAY, is trying to locate a MRS. BLANCHE MALONE.

**NOW GO ON WITH THE STORY**  
CHAPTER XVI  
SIDNEY GRIFF took the cigaret from his lips. "Mrs. Blanche Malone," he repeated thoughtfully. His eyes sought Dan Bleeker's. "You don't know who she is, do you—what she looks like, how old she is, or anything else about her?"

"No," Bleeker said. "All we can get is the name. Racine is looking for a woman of that name. That's all I know."

"And Racine is working for Mrs. Frank Cathay," Griff reminded him. "Anything else?"

"That about sums it all up," Bleeker said. "The medical examination of Morden's body shows that he was killed about noon on Thursday. Perhaps a few minutes after noon. It's impossible to tell. He hadn't had any lunch. He'd been doing quite a bit of running around. He hadn't kept any notes of what he'd discovered—I told him not to—but there was a notebook in his pocket in which he'd kept his expense account and he had spent quite a bit for cab money."

Griff closed his eyes once more. "Do you remember the items?" he asked.

"No, I don't," Bleeker said. "There were two or three small ones and that a bill of \$2.50 all at once, as though he'd taken a long trip somewhere in a cab."

Griff frowned for a moment. "Anything else?" he asked.

"No."

Griff got to his feet, started pacing the floor, the long legs taking swift, nervous strides, the woolen bathrobe flapping against his shins. Once or twice he reached out in front of him with the extended fingers of his hands as though trying to feel his way through the room, giving the impression of stroking the atmosphere with the tips of his fingers.

Bleeker watched him anxiously.

ABRUPTLY Griff turned and, when he spoke, his voice was as rapidly explosive as that of Bleeker himself in his most driving moments.

"This thing is delicate," he said. "It's got to be handled with the delicacy of a surgeon performing a brain operation. But the thing is here. It's in our grasp. It's all ready to be smashed wide open."

"The trouble is we're overlooking something somewhere. There's some point, probably an obvious one, something that's logical as the very devil and yet we aren't seeing it. I have that feeling. I'm never wrong when I have that feeling. There's something that I'm overlooking—something big, something vital, something that's already in our minds—something that's staring us in the face so close that we can't see it."

Bleeker shrugged his shoulders and said nothing.

Griff was pacing the floor again when he went on speaking it was as though he had forgotten the other man's presence.

"The last time," he said, "that Morden reported to The Blade office he said he had a live lead. He didn't want to mention names. He said it was going to be necessary to cultivate a girl. Almost immediately after that call he must have gone to the apartment occupied by Alice Lorton—the one from which Esther Ordway is reported to have disappeared. The Ordway woman has been gone for two days."

"Suddenly Griff stopped short. "We've got to find the man in this case," he said. "I want that apartment shadowed. I want a check-up on this thing from every angle. I want a report on everyone who comes and goes to that apartment. How quick can you get the men there?"

Bleeker spoke in a voice in which there was no enthusiasm.

"Remember," he said, "that we're running a newspaper. We can't take all of our men to chase down Morden's death. We're doing a lot of work now."

GRIFF'S voice was cold and ominous.

"You mean you're laying down on the job?" he asked.

"No, I don't mean that," Bleeker said.

"You mean you've lost your enthusiasm for bringing Morden's murderers to justice?"

"No, we're going to get them. But, frankly, Griff, it seems to me you're using up a lot of energy on a blind lead."

Griff stared steadily at the publisher.

"It wasn't a blind lead," he said, "when I told you to check up on the woman who had disappeared. Now I'm telling you I want to check up on the men who come to that apartment. There's a man in the case somewhere. We've got to find out who he is and then we've got to find him."

"But he wouldn't come to the apartment after the girl had disappeared," Bleeker objected.

Griff shrugged his shoulders impatiently.

"Either," he said, "you're going to work with me on this thing or

### Save Local Seed Old or New For the 1935 Corn Planting

WASHINGTON.—Because corn does not do well if planted long distances from the locality where the seed is grown, farmers in certain sections of the corn belt are faced with unusual problems in locating seed supplies for next spring. Dr. M. T. Jenkins, who is in charge of corn investigations in the U. S. department of agriculture has toured the corn-growing states where the drought was most severe and offers the following suggestions to insure adequate supplies of locally-adapted seed:

The first recommendation is that farmers in Kansas, Missouri, and southern Iowa—where some of the 1933 crop is still stored under seal—take advantage of the plan recently announced by the agricultural adjustment administration whereby options may be obtained to sell the corn at \$1 a bushel on or before May 1, 1935. This corn will be used for seed. The danger is that most of the corn under seal in these states will be used for feed this winter unless farmers co-operate with the AAA in saving seed supplies. Already this old corn is moving out of storage at a rapid rate.

Another area where there is sure to be a shortage of good seed for next spring includes North Dakota, northern and western South Dakota and the northern half of the corn-growing area of Minnesota. There is practically no sealed corn in this area and the crop this year is very poor.

Stored corn in southeastern South Dakota can safely be shipped west for 100 miles without serious loss in yields, and this seems the logical source of supply for farmers in this part of South Dakota. In the Red River valley the crop this year is very poor. All corn in this area that is fit for seed should be conserved. The southern half of the corn-growing area in Minnesota still has some stored corn. This is the best source of supply for counties to the north.

North Dakota—except for the eastern counties which can get some seed from the Red River valley—will be dependent mainly on corn carried over from last year. There is no other locality from which it can import seed that will make a crop of grain. Seed from the south will mature fodder but no grain.

The third area where there will be some shortage of seed next spring includes Arkansas, Oklahoma and Texas. Arkansas can safely buy seed from Tennessee and Mississippi. Oklahoma and Texas, however, will have to utilize every bushel of corn grown in creek bottoms and other favorably situated spots. In Texas some corn is grown also on irrigated land, and this will help to supply seed.

Even in areas where the crop this year is poor and there is no outside source of locally-adapted seed farmers can expect reasonably good corn from nubbins of a good strain if the kernels are well developed. This is true because such corn has all of the hereditary characters necessary to produce good ears under favorable environmental conditions. This fact is often overlooked in selecting seed corn.

The importance of saving locally adapted varieties may be illustrated in the case of Kansas and Missouri, says Doctor Jenkins. If the stored corn in these states is used for feed and the farmers buy seed from Iowa they are certain to take a loss of from five to 10 bushels an acre in the yield next year.

### Copy of Almost Forgotten Portrait Of Houston Found

**By United Press**  
HOUSTON.—A copy of an almost forgotten portrait of General Sam Houston that had rested for 82 years on the dusty shelves of an New York shop was presented to Capt. W. B. Woodson of the cruiser Houston during its recent visit here.

The presentation was made by officials of a welcoming committee during an intermission of a formal ball for officers of the cruiser that carried President Franklin D. Roosevelt on his recent trip to the Hawaiian Islands.

The portrait was found in New York by C. L. Plack of Austin whose hobby it is to collect anything that reflects truly the spirit and purposes of the first Texans.

While looking through the Old Printing shop of New York, he discovered an old lithograph made from a daguerreotype of Sam Houston. The lithograph carried a copyright date, 1852, from Hartford, Conn.

The portrait was believed to be hitherto unpublished. It was believed to have been made when General Houston was in Washington as Texas' first senator.

Arrangements were made to have the lithograph reproduced in oils. It was this oil reproduction that was presented to the cruiser Houston's executive personnel.

### Copy of Almost Forgotten Portrait Of Houston Found

**By United Press**  
HOUSTON.—A copy of an almost forgotten portrait of General Sam Houston that had rested for 82 years on the dusty shelves of an New York shop was presented to Capt. W. B. Woodson of the cruiser Houston during its recent visit here.

The presentation was made by officials of a welcoming committee during an intermission of a formal ball for officers of the cruiser that carried President Franklin D. Roosevelt on his recent trip to the Hawaiian Islands.

The portrait was found in New York by C. L. Plack of Austin whose hobby it is to collect anything that reflects truly the spirit and purposes of the first Texans.

While looking through the Old Printing shop of New York, he discovered an old lithograph made from a daguerreotype of Sam Houston. The lithograph carried a copyright date, 1852, from Hartford, Conn.

The portrait was believed to be hitherto unpublished. It was believed to have been made when General Houston was in Washington as Texas' first senator.

Arrangements were made to have the lithograph reproduced in oils. It was this oil reproduction that was presented to the cruiser Houston's executive personnel.

**P. T. A. Carnival**  
 The Cooper Parent-Teacher association is sponsoring a Halloween carnival to be given on Thursday evening, Oct. 25, at Cooper school.

An interesting program has been arranged. There will be booths of various kinds. The public is invited. Come over and have your supper with us. Watch the paper for other reminders of this gay carnival.

By Publicity Chairman.

**Duckers Arrive For Visit**  
 According to plans Mr. and Mrs. Louis Duckert of Kansas City arrived in Ranger Sunday afternoon for a visit with Mr. and Mrs. Johnnie Duckert at their Spring street home.

Mr. Duckert, for a number of years was associated with the Pacific company and has a host of friends throughout this section of the country who will be pleased to know of his return to this place for a visit.

**Co-Workers Club Meeting**  
 With Mrs. Ferris Tuesday

Members of the Co-Workers club are invited to meet at the home of Mrs. J. B. Ferris, Tuesday afternoon at 1 o'clock. It will be at this time new officers are to be elected.

Work on the club quilt will also occupy a part of the hour.

**Rev. Stephens III**  
 Rev. J. H. Stephens, pastor of the Central Baptist church, is ill at his home, Flint street.

**Visits Parents Over Week-End**  
 Miss Lorene Crow, who is in training at the St. Joseph Hospital, Fort Worth, spent the week-end with her parents, Mr. and Mrs. W. B. Crow, Travis street.

**Ranger Roque Club**  
 Honors Eastland Club

The Ranger Roque club entertained with a wienie roast in compliment to members of the East-

land Roque club last Thursday evening.

Those present were: Mr. and Mrs. T. T. Notgrass, Mr. and Mrs. E. P. Robinson, Mr. and Mrs. R. A. Turner, Mr. and Mrs. H. L. Landtroum, Mr. and Mrs. J. T. Whitfield, Mr. and Mrs. Charley Pace, Mr. and Mrs. W. E. Herwick, Mr. and Mrs. Lesley, C. B. Minter, Misses Dorie Robinson, Nell Robinson, Mildred Herwick, and Mr. and Mrs. Claude Maynard, Mr. and Mrs. M. E. Greer, Mr. and Mrs. C. L. Noble, Mr. and Mrs. John Harrison, Mr. and Mrs. John Lee Roper, Mr. and Mrs. Bobby Burkett and Mr. and Mrs. Ralph Greer, and Misses Mary Street and Mable Greer.

**Plans In Making For P. T. A. Carnival**  
 Interesting plans are in the making for a Halloween carnival to be staged at Young school Thursday evening, Oct. 25th.

Booths of various kinds will be open for the children adding fun to the hour which has been set for 7:30 o'clock.

Program committee names: Mrs. W. W. Jarvis and John L. Turpin, publicity committee; Mrs. H. D. Bishop and Mr. Turpin.

Decorations committee: Mrs. Herbert Stafford and Mrs. J. E. Matthews.

**Mrs. A. B. Conway Improved**  
 Mrs. A. B. Conway of Mineral Wells, who underwent an operation at Hospital, Rushing, Dallas, is reported by Mrs. D. W. Conway as much improved.

Ranger friends included among a host of others will be happy to learn of her splendid condition.

**Daughter Born to Mr. and Mrs. Jarvis**  
 Mr. and Mrs. Glenn Jarvis announce the birth of a nine pound daughter at home, Strawn highway, October 17th. She has been named Shirley Margaret.

Mother and baby are doing nicely.

**Mrs. Outlaw Given Pleasant Surprise**  
 When Mrs. F. E. Outlaw returned from church Sunday morning she was glad surprised to find waiting her arrival the following sons and daughter: George and Melvin Outlaw of Sweetwater and Mrs. George Cunningham of Abilene.

**Littlefield Counts On Four Juniors to Break Race Record**  
 AUSTIN—Four University of Texas juniors are being counted on by Coach Clyde Littlefield to break the national collegiate half-mile relay record next spring and endanger the existing quarter-mile relay mark.

The addition of H. V. Reeves, Jr., of El Campo gives Littlefield four of the Southwest's finest sprinters. All have two years of competition remaining. Reeves, a student at Schreiner Institute last year, out-ran the best that

**BY MARY E. DAGUE**  
 NEA Service Staff Writer

EVERY once in awhile I come across some mourner for "the beautiful and open-handed hospitality of other days" and right then and there I begin to do battle. For I prefer the modern brand of hospitality. It may not be, in fact, I suppose it isn't, as picturesque as the old. The great hearths and groning boards that we picture on our Christmas cards are no more 'tis true.

But as far as the housewife is concerned, they are well gone if in return she may continue to enjoy today's adjuncts to gracious entertaining—electric grills, percolators and toasters that make it possible for hostesses to take care of unlimited guests with ease.

A late leisurely breakfast which combines breakfast and lunch and has come to be known as "branch" offers a delightful way to entertain informally guests of all ages and the new gadgets minimize the work to an incredible degree.

**Table Cooking Is Simple**

Take the electric toaster which automatically prevents too-brown toast and insures piping-hot, non-sooty variety at any moment, comes, too, on a tray all equipped with close compartment dishes designed to hold marmalade, butter, cheese, relishes, and savories.

The technique of table cookery is simple but exacting. First of all, in using any piece of table equipment, be it toaster, waffle iron, grill or what have you, be sure that the food to be cooked on it or in it is ready and that all other utensils are at hand.

If there is to be a first course before the electric appliance is needed, let the toaster or iron heat while the first course is being eaten. Then the first pieces of bread may be slipped into the toaster just as the course is finished so that there will be no awkward

**Hour's Figure**

Texas offered on two occasions, however, and will probably run as anchor man on the new team.

Harvey (Chink) Wallender of Tyler, Beverly Rockhold of Big Spring, and Charles Grunstein of Dallas, were members of the quartet that last spring tied the collegiate half-mile time of 1:25.8 at the Kansas relays. Aided by Reeves, Littlefield has no doubt that the record will fall in 1935. Captain Buren Edwards of Big Spring will be the fifth member of the team.

From the first mentioned four and Moody Pickett of Beaumont, another second-year man, Littlefield will select a 440-yard relay team. Barring mishap, the Southwest Conference mark of 42 seconds will be lowered by Texas in this race.

With most of his 1933 squad back for another year, the Texas coach predicted a third consecutive conference title for the Longhorns "if all come through in their courses." The team he explained will be similar to that last year, strong in all departments except middle distance races and weight events.

Texas also may look forward to the resumption of Texas relays, one of the nation's outstanding spring events. The meet was abandoned in 1931 after seven years in which teams from all parts of the country competed. The 1934-35 athletic budget authorizes the meet, but final sanction is being withheld pending the financial outcome of the University of Texas football season. If money is available the Texas relays will be held March 29.

The figure of the hour is the hourglass figure, as exemplified by Mae West, the girl who made it popular to be plump. Her newest starring Paramount picture, "Belle of the Nineties," the dramatic story of a burlesque queen of the Gay Nineties, is now at the Lyric theatre.

**PEEPING THRU THE KNOTHOLE**  
 WITH BILL MAYES  
 (Continued from page 1)

was intended to add a little bit of comedy to the occasion, and nothing more. They will likely be seen again on future occasions between halves.

Wilson Ritchie of Breckenridge, after watching the Ranger-Eastland game from the press box, is of the impression that Ranger and Breckenridge are fairly even when it comes to offensive strength, while he believes the Backaros are a little better on pass defense. He thinks Spud Taylor is a better quarterback than Anderson, however. He was surprised when we voiced the opinion that Abilene had a better chance to win Saturday than did Ranger, though we have not tried to keep it any secret that we believed Abilene would take the district this year.

**Eastland Society and Club News**  
 Phone 601 or 288

**Eastland County Federation of Women's Clubs**, was received in community clubhouse, Saturday afternoon by the hostess clubs, Mrs. F. M. Kenney, president of Thursday Afternoon club; Mrs. W. K. Jackson, president of Civic League and committee Mrs. James Horton, R. E. McGlamery, W. P. Leslie and W. A. Martin.

The session was opened by the county club president, Mrs. Pitcock of Ranger with reading of the club collect by Mrs. Reagan of Cisco, parliamentarian.

H. C. Davis, secretary of Chamber of Commerce, gave a terse plea for co-operation in next Eastland county fair, which should be a county wide project, and for which there would be a little money on hand to help, and plead that different rural clubs take an individual interest in the fair's success.

Roll call brought response of several members from B&B Lake; Ranger Co-Workers; Elm; Romney; and Ward, the rural clubs; city clubs, Cisco, Twentieth Century; Ranger, New Era; and Eastland, Thursday Afternoon club, Civic League, Junior Thursday, Music Study, and Alphadolphian.

Minutes of the May meeting by secretary Mrs. B. E. McGlamery were approved.

Report made that the county federation quilt brought \$25, divided equally between the county council and A. & M. short course, given by Miss Ramey.

Mrs. James Horton, chairman of county library work, stated, if established, would remain in county seat under direct supervision of state librarian.

County library could operate at a small cost, and that county commissioners' court declares the need for a county library, and that, if strenuously desired, a popular petition circulated for such could be presented to county court.

President Pitcock, requested the

The Junior College goes up against Weatherford here Thursday afternoon in one of its hardest conference tilts. The Weatherford Junior College has a good team and is bringing the entire student body along for the game, which they expect to take in a big way.

The Rangers, however, realize they have a strong team against them and will not go into the game overconfident and will be putting out all they have, and then some. It may be a much harder game than Weatherford anticipates.

**KILLED 113 BLACKBIRDS**  
 MEXICO, Mo.—Marlow Wright, driving along a highway here in his motor car, crashed through a heavy flock of blackbirds. He stopped and counted 113 dead birds.

**SISTER MARY'S KITCHEN**

**Tomorrow's Menu**  
 BREAKFAST: Grape fruit, cereal, cream, cornmeal pancakes, syrup, milk, coffee.  
 LUNCHEON: Black bean soup, toast triangles, compote of mixed fresh fruits with whipped cream, nut cookies, milk, tea.  
 DINNER: Veal and pork roll, fried apples, scalloped potatoes, salad of sliced cucumbers, sauce browna butter, milk, coffee.

ward waiting.

This menu for branch may be changed, of course, to suit individual needs and tastes.

**Branch**

Wedges of bread honeydew melon, scrambled eggs with crisp broiled bacon, crisp radishes and carrot sticks, toast, breakfast cheese, marmalade, date bread, coffee.

A mild cheese such as Edam or Swiss is delicious with either toast or date bread and adds an original touch to the breakfast.

And here's the recipe for date bread:

One cup bran, 1-2 cups pastry flour, 1-1-4 cups whole wheat flour, 5 teaspoons baking powder, 1 teaspoon salt, 1 cup chopped pitted dates, 1 cup broken nut meats, 1 egg, 1-2 cups milk, 1-2 cup strained honey, 3 tablespoons melted shortening.

Mix and sift pastry flour with salt and baking powder. Add bran and graham flour and mix well. Add dates and nuts. Mix egg well beaten with milk and honey. Beat well and stir in melted shortening. Turn into well oiled and floured bread pans and bake one hour in a moderate oven. Remove from oven and rub crust with melted butter.

FOR SALE—Living-room suite, good as new. Mrs. J. R. Wood, Breckenridge highway.

library committee to continue to function.

Four women visitors from DeLeon were given official welcome and Mrs. H. M. Cowling, of Henrietta, mother of the speaker of the day formally presented.

Mrs. Pitcock stated, the theme for this year's work would be "County Co-Operation," and clubs were asked to contact Miss Ramey, Eastland county demonstration agent, and sponsor the rural clubs.

That each club could be of great help in being responsible for one rural club meeting once a month or alternate months.

Miss Hill, district demonstration agent of A. & M., the guest speaker, was presented.

Her subject, "When the AAA Came to Texas, What Did It Find," covered a vast field of information, new deal and organization, minute in specification.

Miss Hill held tense attention, and her message was inspirational.

Reports of delegates to the short course A. & M. were given by Mrs. R. L. Cooner of Gorman; Mrs. C. M. Brittain of Cisco, Mrs. William Mason of Gorman, Miss Eastland and Pitcock of Ranger, and a brief description of campus scene at course, by Mrs. McGlamery.

Mrs. Pitcock stated, the greatest thing she found in the short course was the development in leadership, with much demonstration work done by rural women.

The State T. F. W. C. convention, Austin, Nov. 12-16, was announced and delegates elected were Mrs. Lewis Pitcock; Mrs. James Horton, alternate.

Miss Ramey reported the achievement day demonstrations of rural clubs.

There were 50 women in attendance. The clubhouse was decorated with bowls of red roses for the session.

**Miss Dragoon Made Committee Member**  
 The executive board of the Texas Music Teachers association have selected Miss Wilda Dragoon as a member of the contest committee for 1935, with Mr. Robert Hopkins of Baylor university, who will be chairman of committee. Each will select the contest number to be reported at the association convention in Lubbock.

**B. T. S. Study Course**  
 A study course will be pursued by the B. T. S. of the Baptist church opening with session to-night at 6:45 p. m. The course will be continued each night this

week closing with Friday night's work.

The course directed by Terrell Coleman will be conducted section senior and adult R. Y. P. U. combined; intermediate room, the junior and primary group.

Those other than members have been extended invitations to attend.

**Cisco Couple Arrives in Eastland**  
 Miss Hortez Tyndall and Leon

Shockley of Cisco were married in the home of Rev. C. W. Lipsey, Friday evening.

Mrs. Shockley is the daughter of Dr. and Mrs. David Tyndall of Cisco. The groom is the son of Mr. and Mrs. F. E. Shockley of the same city.

A British woman novelist was able to see when parts of another woman's eyes were grafted on her eyes. There's the solution to the problem of getting others to see as you do.

**Free Samples at Druggists of Vicks Remarkable Aid in Preventing Many Colds**  
 Local Druggists Are Now Offering a Free Trial of Vicks Va-tro-nol For Nose and Throat—Also Other Vicks Aids to Better Colds-Control.

Each Package Carries Full Details of Vicks Plan for Better Control of Colds

**LOCAL SUPPLY LIMITED**

Each year, increasing thousands of enthusiastic users are broad-casting the good news of Vicks Va-tro-nol. They have proved for themselves its amazing effectiveness in helping them to side-step many annoying colds.

Va-tro-nol is especially designed for the nose and throat—where most colds start. It aids and stimulates the functions provided by Nature—in the nose—to prevent colds, and to throw off colds in their early stages.

Va-tro-nol is easy and convenient to use—any time or place—at home or at work. Just a few drops up each nostril—at the first sign of discomfort in the nose—irritation or dryness, snuffle or sneeze. Used in time, it helps to avoid many a cold entirely.

Where irritation has led to a clogged-up nose (a stuffy head cold or nasal catarrh) Va-tro-nol penetrates deep into the nasal passages—reduces swollen membranes—clears away clogging mucus—brings comforting relief.
