This announcement was made in order that the more than one million cotton farmers who signed 1934 and 1935 cotton contracts can proceed with their farming plans for the next season with full assurance that the voluntary cotton adjustment program will be made effective for 1935 under the terms of the two-year contracts.

It was emphasized by officials of the Agricultural Adjustment Administration that the Secretary's announcement did not constitute the formal proclamation which the cotton contract requires. It is assurance that by December 1 such a proclamation will be issued.

THIS CURIOUS WORLD By William Ferguson

HERE IS A PLACE WHERE NOTHING HAS WEIGHT; WHERE THERE IS NO UP OR DOWN! THIS PLACE IS ABOUT 160,000 MILES FROM THE EARTH'S SURFACE, IN THE DIRECTION OF THE SUN! THE GRAVITATIONAL PULL OF THE SUN AND EARTH ARE EQUAL AT THIS POINT. DRAGON FLIES CAN FLY SIXTY MILES PER HOUR! EVERY ONE knows the effect of gravitation, but no one knows the cause. If we could reach the point between the earth and the sun where the pull of the two is equal, then we would float.

Less Aircraft and Pilot Licenses Shown in a Report

WASHINGTON, Oct. 23.—There were 13,812 aircraft holding active department of commerce licenses on Oct. 1, 1934, according to an announcement today by the bureau of air commerce, department of commerce. These totals, taken from a study just completed by the bureau may be compared with those for Oct. 1, 1933, when there were 16,176 licensed pilots and 6,992 licensed aircraft. The decrease in the number of pilot licenses is due in part to the reversion of many private and solo licenses to the student grade when the private pilot requirements were raised and issuance of new solo licenses was discontinued. This is shown by the fact that on Oct. 1, 1933, there were 9,056 student licenses, while on the first day of October, 1934, this number had increased to 13,456.

Fee System Condemned

Rep. Emory B. Camp has reached the conclusion that adoption of the pending constitutional amendment to abolish the fee system of paying county and district officials would keep such officials from getting any sort of compensation after November until the legislature passes a law granting them salaries.

He backed this view up with citations from state supreme court decisions.

Rep. Camp conferred with Sen. George C. Purl, author of the present fee limiting law, and prepared to ask Gov. Ferguson to submit enabling legislation at this session, so if the amendment is adopted, the payment of these thousands of local officials will not be in a chaotic condition for months.

Rep. Camp cited the quo warranto case of State of New Mexico, ex rel. Delago, vs. Romero, county treasurer, 124 Pacific, 649, which said that no official is entitled to a salary until the legislature expressly has granted it, and the mere abolition of one form of compensation creates no right to another.

DID YOU EVER STOP TO THINK.

By EDSON R. WAITE, Shawnee, Oklahoma

One does not like to pit his feeble wits against those of the brilliant Brain Trusters, but I cannot see how trade can be increased and work created by the raising of prices and getting them so high that the average citizen cannot pay and does without.

No matter what Brain Trusters or Economists may say, purchasers will buy as cheaply as possible, and if they can't buy at a reasonable price will do without, even in normal times. How much more does this apply in times of depression when wages are low?

Politicians and Brain Trusters are working day and night to turn things upside down in an endeavor to not only convince the world that there is over production, but to reverse all economic laws by insisting that the raising of prices will lead to larger consumption and bigger trade.

What is needed is a greater volume of trade—not to stifle it.

FAMOUS FOOTBALL FEATS!

YALE and Dartmouth played a heart-breaking game in 1929. The Big Green never had beaten the Blue, and early in the game a powerful Yale squad rolled up 10 points. But at the start of the second half Al Marsters, one of the greatest backs of all time, took matters into his own hands. He hit the Eli line with the fury of an enraged grizzly, and in six plays covered almost 60 yards for a touchdown. In five minutes he had plunged for another. Dartmouth cohorts went wild. Here was their first victory against Yale. But the cheers were short-lived. 'Hoot' Ellis, noble son of Eli, intercepted one of Dartmouth's passes, outfooted the entire Green team, and scored a touchdown that took 20,000 hearts.

Let's find out why Turkish tobacco is so important to a good cigarette

On the sunny slopes of Smyrna... in the fertile fields of Macedonia... along the shores of the Black Sea... grows a kind of tobacco that is different from any other tobacco in the world.

THESE Turkish tobaccos are the only tobaccos of foreign cultivation that are used to any great extent in making American cigarettes.

Turkish tobaccos are famous for their spicy aroma, and a blend of the right kinds of Turkish tobacco with our own home-grown tobaccos is better than any one kind used alone.

In Chesterfield we balance mild, ripe tobaccos grown in this country with just the right amounts of the right kinds of Turkish.

It is by blending and cross-blending these different tobaccos that we make Chesterfield the cigarette that's milder, the cigarette that tastes better.

Breckenridge to Have Homecoming For Football Game

BRECKENRIDGE, Oct. 23.—An original idea of a football game celebration and a small fund to give prizes for school children with defective eyesight has developed into a city-wide affair which not only promises to give Breckenridge its most largely attended fête in many years, but a general homecoming which will find hundreds of former residents here greeting each other.

The date of Oct. 26. About 5,000 former residents have been contacted with invitations in distances as far apart as Alaska and Florida and scores of letters have been received, accepting the invitation and saying that parties were being formed to make the trip.

The football game is the annual Cisco-Breckenridge meeting but a program has been worked out offering entertainment continually through Friday and Saturday and extending over to Bible classes on Sunday. Tickets for the game are practically all sold, and hotel reservations have been going like hotcakes.

No estimate in figures could be made of the crowd to be expected, but it is foregone conclusion that Buckaroo stadium will be filled at the game and the streets lined with visitors at all times.

THE WHEEL OF FATE

Joe E. Brown seems to have gotten himself into a pretty little mess, in this scene from his latest First National film, "6 Dya Bike Ride." This picture celebrates Joe's 10th year in movies, and is said to be funnier, if that is possible, than any of his past comedies. Maxine Dole, Frank McHugh and Gordon Westcott are in the cast, along with Reggie MacNamara and a troupe of world famous bike riders. The film is coming to the Arcadia Theatre on Saturday.

NOW EATS ANY KIND OF FOOD, AND NO CONSTIPATION

Mr. Durigan Finds Relief in Kellogg's ALL-BRAN

Here is his enthusiastic letter: "An 70 years of age, and for 10 of those years there never was a week but what I had to take a pill or some kind of cathartic.

"I took everything, but gained only temporary relief. Until last spring my daughter, who is a nurse in a hospital, brought me some Kellogg's ALL-BRAN.

"At the end of the week, I knew I had something that was it, and I kept on taking it. I haven't taken a cathartic since. I can eat most any time, as often as I like, or any other kind of food, and no constipation." Mr. L. M. Durigan, 6811 Buffalo Ave., Jacksonville, Florida.

Laboratory tests show Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to help muscle tone. Also iron for the blood.

The "bulk" in ALL-BRAN is much like that of lettuce. Inside the body, it forms a soft mass. Gently, it clears out the intestinal wastes.

How much safer than patent medicines. Two tablespoonfuls daily are usually sufficient. With each meal in serious cases. If not relieved this way, see your doctor.

Sold in the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

Counties Collected 76 Per Cent of the Current 1933 Taxes

AUSTIN.—Texas counties col-
lected an average of 76.01 per
cent of total current taxes levied
during 1933, according to statis-
tics compiled by George W. Callier,
Dallas, editor of the Texas Bond
Reporter.
Reports from county tax collec-
tors showed that 1933 tax levies
for county purposes only totaled
\$32,083,038.52. Between Oct. 1,
1933, when current taxes became
due and payable, and June 30,
1934, final delinquent date for
payment, \$24,386,867.93 was col-
lected.
"Total collections for the full
tax year ending June 30, 1934,
were \$31,952,010.38," Callier
said. "This figure includes the
above current tax collections as
well as all back taxes collected
during the tax year. This total
collection figure is 99.59 per cent
of the 1933 tax roll."

SUNDAY SCHOOL LESSON

THE CHRISTIAN'S STANDARD
OF LIFE
(International Temperance
Sunday)
Eph. 4:17-27; 5:15-21
Paul wrote this letter to the
Christians in Ephesus, Asia Minor,
during his first imprisonment in
Rome, A. D. 61, 62. This epistle
has been classed as "one of the di-
vinest compositions of man." It
embraces every doctrine of prac-
tical and sublime Christianity por-
traying a writer whose intellect
and affections were of the highest
order.
Ephesus, in Lydia, was the larg-
est as well as the chief commercial
city of the Roman province and the
capital of Ionia. It was located at
the mouth of the Cayster river
which in latter times filled the
mouth and covered city with mud.
The Goths captured the city in A.
D. 262.
The chief glory of the city was
the Temple of Diana. This mag-
nificent temple was one of the
seven wonders of the ancient world.
It was the storehouse for all their
treasured works of art. It was also
a refuge for criminals. No one
could be arrested for any crime
when within bow-shot of its walls.
Naturally a village of criminals
sprang up around its very doors.
It was in this city that Paul
knew a few Christians who had
been baptized but were ignorant of
the atonement which Christ had
made for their sins. They did not
understand the work of the Holy
Spirit. To such Christians he wrote
this letter clearly portraying two
pictures, the dark picture of igno-
rance and the happy picture of
those who knew Jesus who said,
"I am the light of the world."
The pagan was vain, with a
darkened mind that alienated God
from their minds and hearts
through ignorance. They had life
all around them but could not par-
take of it. Their hearts were
hardened and "they gave them-
selves up to lasciviousness, to
work all uncleanliness with greed-
iness."
There is no darker picture than
man, "made little lower than the
angels; shutting out all light and
beauty from his heart and living
for self in greed. This develops a
repulsive personality which is even
stamped upon his features and
body.
Paul wrote them, "But ye did
not so learn Christ." He further
explained, "If so be that ye heard
him, and were taught in him, even
as truth is in Jesus," that they
would leave the old life behind and
be a new man. They would not be
angry but speak the truth in fair
dealing with their fellowman.
In Ephesians 5: he warns them
to be careful how they walk, and
use their time. They must not be
foolish and waste time in sinful
conversations or evil song but
"Speaking one to another in psalms
and hymns and spiritual songs,
singing and making melody with
your heart to the Lord."
Giving thanks for all things in
the name of our Lord Jesus Christ
to God, even the father."
To the man without God who
revels in drink, the father of sin,
nothing is promised but eternal
death. The only true death is the
separation of man from God.
To the Christian is promised
fellowship with God in Christ
Jesus, with other Christians here
as we journey along life's path and
eternal life.
In the Christian's yearning to
know more of God in all his beauty
and holiness a new character and
personality is developed when the
heart cry is heard and the spirit
renewed with strength from day
to day. Their conscience is not stifled
but responds to the wooing of the
Holy Spirit to higher standards of
living where their will is lost in the
will of the Father.
They find true happiness and
freedom in consecrated service to
the Lord of Lords by taking each
hour as it falls from the hand of
God and holding it high above the
mud of sin and strife.
This does not mean long and

will prove of much interest to the
fans, with the odds in favor of the
big line being able to more than
hold its own against the onslaughts
of the large Bulldog backfield. Be-
cause of this difference in the bal-
ance of power of the two teams
and the fact that it is probably the
deciding game of the 1934 season,
Lillard field's capacity is expected
to be taxed to the utmost to hold
the crowd.
Not even the Armistice Day
game with Cisco and the Thanks-
giving Day game with Brecken-
ridge, always big drawing cards,
are expected to have the attrac-
tion for the crowd that the en-
counter here Saturday will have.
While the two teams are battling
it out for supremacy this week-
end, Cisco will be playing in
Breckenridge on Friday in a con-
ference game that Breckenridge is
expected to take with ease, while
the Eastland Mavericks will be
playing the Weatherford Kangaroos
of District 7 in a practice
game, with Eastland being the fa-
vorite.

WEATHERFORD WINS FROM RANGERS 13-6

Weatherford Junior College Coyotes defeated the Ranger Junior College Rangers at Lillard field in Ranger Thursday afternoon by a score of 13 to 6 in a closely contested game.

Early in the game it looked like almost anyone's ball game, but the longer they played the better the Coyotes got, and they came from behind to score their 13 points after the Rangers had gotten off to a six point lead in the first quarter without much exertion.

The Coyotes defense tightened up, too, so tight, in fact, that after the first quarter touchdown the Rangers made but one first down, while the Coyotes were chalking up 13 in addition to the three made in the first quarter, to make the first down count 16 to 3 in favor of the visitors.

Rabbit Jones, Mackall and Williams were outstanding on the offense, with Williams being the mainstay on the defense as well. Ranger's touchdown came in the first quarter when Splawn fumbled and Mackall recovered on the Weatherford 38-yard line early in the game.

The Rangers picked up two quick first downs, with Mackall and Williams carrying for eight and 11 yards respectively. Aided by a Weatherford penalty the Rangers carried the ball to the four yard line, where Williams went over for the touchdown.

Weatherford made a serious bid for a touchdown when Splawn took the ball on his own 22 yard line after the kickoff and raced 73 yards down the field. He had passed all the Ranger men, but Rabbit Jones overtook him and hauled him down from behind on the five yard line, and Weatherford failed to convert it into a touchdown. On another occasion

McCarthy lateralled to Gaskin, who went around the Rangers right and for the score and Bradford's kick for the extra point went wild.

Rabbit Jones got off some beautiful punts in the game, kicking the ball out of bounds within the 10-yard line on several occasions, and punting from deep in his own territory to the five yard line, where the ball was killed.

It was after one of these punts which went out of bounds on the Weatherford 15 yard line that Weatherford lost five yards, then McCarthy circled the Ranger left end for 35 yards, being brought down by Jones.

The Rangers attempted four passes three were incomplete and one intercepted, while the Coyotes attempted seven, one being completed for 34 yards and none were intercepted. Ranger drew six penalties for a total of 50 yards, while Weatherford was penalized five times for a total of 45 yards. Weatherford made 16 first downs to three for Ranger.

Col. Thompson Is Leading Fight For Rights of States

AUSTIN.—A red-headed Texas Colonel who laid down the biggest machine gun barrage of the World War is engaged in another battle.

He is leading the fight of oil states against national control of oil production.

This Texas defender, who is resurrecting the slogan of "states rights," is Col. E. O. Thompson, member of the Texas Railroad Commission. He gets loud cheers from one oil faction and condemnation from another when he beards Federal Oil Administrator Harold Ickes in his den at Washington.

Aid of new governors of both Texas and Oklahoma is expected in the Colonel's fight.

James V. Allred who becomes governor of Texas in January, contends that the NRA and its oil code could not suspend Texas laws as courts have held. Oklahoma's new oil Governor, E. W. Marland, is calling for a state compact on production.

Thompson, only 42, is known for decisive moves.

As Mayor of Amarillo, he sent for a newspaperman to solve a bombing mystery the officers could not clear.

When the telephone company refused to abide by a city order for reduced tolls, he headed a campaign to get citizens to discontinue telephone service.

He was appointed to the Texas Railroad Commission when former Governor Pat M. Neff resigned to head a religious university. This commission has oil control as part of its duties. Thompson was assigned the East Texas oil field, still the country's greatest, as his special charge.

His Austin office is hung with pictures of his war-time commander, Gen. Henry T. Allen of the 90th Division, and autographed photographs of the Allied leaders, including General Pershing and Foch.
