## Dimmitt Has New 1965 Fire Truck

Dimmitt has better fire protection with the addition of 1965 Howe fire truck to the present equipment announced Guy Waldrop, fire marshal. The new truck will be used for city fires only. The older trucks will be used in county fire-fighting. The special ordered custom-made truck features a 400 gallon water tank. The truck is run by a F817 Waukeasha engine. The truck has a dual ignition system. Waldrop says, "If one unit fails, the boys can switch over and start on the other unit."

The truck has all the latest equipment in fire-fighting including a 500 watt-110 volt generator. This light plant can be used in case electricity fails and the firemen need light. The truck can pump 400 lbs. pressure at idling speed. According to Waldrop, the old truck would barely pass state inspection (state requirement is 400 lb. pressure) at wide open speed.

The truck will carry 1,250 feet of 2 1/2 inch daron fire hose as a main line. Also the truck will have 600 ft. of 1 1/2 inch daron fire hose for lead line. Truck has Keystone valves with strainer and all the latest in spray nozzles. Additional equipment includes one 14 foot extension ladder and one 12 ft. aluminum ladder, two salvage covers to place over furniture to hold down water damage, two purple "K" fire extinguishers for all types of fires, one CO2 extinguisher and two MSA air masks to use when fighting chemical fires.

The truck has power steering and power brakes. The five passenger over-cab features a hydraulic driver's seat. The truck stripped of water and fire hose weighs 18,620 lbs. E. B. Noble, city manager and Guy Waldrop, fire marshal flew to Roanoke, Virginia and drove the truck to Dimmitt. They left Virginia about 8 a.m., CST or 10 a.m., EST Monday morning, July 19. They arrived here last Thursday afternoon about 2:45. Dimmitt fire force now can boast of the largest fire truck in the area between Lubbock and Amarillo.

The Fire Department has a 1943 Army Surplus Chevrolet fire truck which will be kept in reserve for use in city and county fires. The 1953 GMC will make all the county fires.

## Dimmitt Little League Places Second In Tourney

Dimmitt Little League took second place in the District Tournament held at Canyon last week end. This is the first time that a Little League team from the county has placed in area play. Dimmitt stopped Amarillo Air Force base, 4-1, in action Friday night. Mark Wohlgenuth was the winning pitcher. In six innings of play, Wohlgenuth struck out 11 batters, and threw nine called balls, allowed one hit and as a whole team effort, Dimmitt only made two team errors. The umpire behind the plate who has been in Little League baseball for a number of years said, "Wohlgenuth is the best Little League pitcher I have ever called for." Dimmitt's first run was picked up in the first inning when Perry Floyd hit a single to left field, advanced to third base on overthrow by pitcher. He scored on a fielder's choice. In the second inning, Ray Johnson hit a ground rule double which bounced over the fence. He scored when the catcher missed two balls, one right after the other. Mark Wohlgenuth hit a 225 foot home run on a 3-2 pitch in the third inning. No one was on base. Doug Shackelford scored the final run in the fourth inning. Dimmitt met Canyon Saturday night at the tournament. Canyon downed the Dimmitt team, 106. Los ing pitcher was Jimmy Davilla. Dimmitt had Canyon tied 66 in (Continued on page 7)

Hi Folks! Well, Dimmitt Fire Department has something new - a colossal red fire truck, larger than any city can boast of between Lubbock and Amarillo.

The 18,620 lb. truck (weight when truck was stripped) will carry 400 gallons of water. It contains 1,250 feet of 2 1/2 inch dacr on fire hose and

600 feet of 1 1/2 inch dacr on hose. An overcab will accommodate five firemen comfortably. Dimmitt citizens may be assured that the latest fire fighting equipment is available for their protection.

We invite you to drop by and see the new giant which has taken residence at the fire station.

Guy Waldrop, fire marshal and James Slough, fire chief registered Sunday at College Station for the annual Texas Firemen Training School. The week of training included Sunday through Saturday.

The two firemen are taking part in actual fire fighting incidents. They are fighting oil fires, chemical fires, butane fires, b-v-ne fires, car fires, etc. They go through practice of operating air masks.

Dimmitt's fire marshal earns the city 3 percent key rating by attending the school. Slough will earn one percent key rating. Dimmitt will not receive a 5 percent rating due to the need of one more fireman attending the school. Dimmitt will earn 4 percent key rating.

The Dimmitt Fire Department wishes to thank O. A. Oldham for a generous donation. The contribution

was given in appreciation of a call the fire department made at the Elmer Dikon farm Wednesday, July 21.

A farm laborer was burning weeds around the barn and caught the trailer home on fire underneath. he trailer and its contents were a total loss. The fire also scorched some of the machine sheds. Oldham is farming the Dikon place.

### Dimmitt Riding Club Hosts Tour On Canyon Trails

Excitement tingled in the air as the guide said, "Shall we try the larger hill?" "Of course," came the ready answer of a chorus of Dimmitt riders Sunday afternoon at Palo Duro Canyon.

Among those riders was this reporter. Now horseback riding is one of my favorite pastimes. Sunday's experience on horseback in the picturesque Palo Duro was a climactic adventure to this rider.

The horseback ride was taken at the extreme end of the canyon where the paved road ends. This territory offers unlimited opportunity for exploration of new terrain. Rugged hills rear their heads from the canyon floor. Time, the elements and the river have carved an artistic design in brilliant reds and contrasting whites and somber browns on the canyon ground.

The horses scrambled uphill squeezed through narrow rock passages, slid down hills and galloped through tall verdant green pasture lands in the half day ride. The horseback adventure offered thrills and glorious views at every turn. We were even treated to the delightful experience of watching a deer bound up the hillside in the canyon.

Two of the riders were offered extra thrills when their horses reached the creek. The horses knelt down and started to roll over in the creek much to the dismay of the riders and to the merriment of other riders.

Returning home, tired riders were treated to the aroma of barbecued steaks. A gladsome sight for the hungry riders included bowls of cold potato salad, tossed salad, thick juic steaks, beans cooked in big iron kettle and plenty of ice cold tea.

The food revived the riders and several of the younger ones climbed the notorious Devil's Slide at the Canyon. The day was concluded after several riders took another short trip via horseback in the Canyon. Dimmitt riding club plans more such outings during the future.

An investment in Your Future ...ATTEND CHURCH

DO YOU RECALL.....

THOSE WONDERFUL YEARS... They shall abundantly utter the memory of thy great goodness... The Lord has blessed us with children and now grandchildren. Our lives, and now theirs have been molded in the church. One generation shall praise thy works to another, and shall declare thy mighty acts. Pass on this priceless heritage to your children and grandchildren.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

### Young Baby Injured In One-Car Wreck

Bobby Gene Baccus, seven month old son of Mr. and Mrs. Neal Baccus of Lawton, Oklahoma was injured in a one car accident Saturday evening at 7 o'clock near the La Posta on Highway 385 in Castro County. Mrs. Edna Mae Baccus, driver, suffered bruises in the accident. They were taken to Deaf Smith County Hospital by an unidentified passerby. Five stitches were needed to close the wound in the right foot of the baby. Mr. Baccus, 40, was not injured. According to investigation by Highway Patrol, Mrs. Baccus lost control of the Pontiac after leaving the pavement three times. She was headed north when she ran off the east side of the pavement twice. Third time the car left the pavement, she pulled back onto the highway - crossed the center stripe into southbound lane and the rear wheels of car hit the shoulder. The car slid completely around until it was headed south and then overturned on its top. Pontiac had extensive damages.

### MRS. JAKE SPEAKS UP

As I didn't make the last edition of the paper, I would like to say that the Jaycee-Ettes gave an ice cream party for the Jaycee-Ettes and their families. It was held at Mary Lou Smithson's home and an enjoyable time was experienced by about 50 people.

At our meeting of July 13, we had three guests, Ann Barns, Nancy Curd and Beth Gabel. We enjoyed having them and want to extend an invitation for them to come again.

Discussion was held on Roundup Week.

Last night, it was announced we have an entry in the "Miss Grain Sorghum" contest. We are all going to be real busy beginning with this contest. We have been asked to make potato salad for the air show. So that means pounds and pounds of potatoes and onions to be peeled and chopped. Also, the Jaycee-Ettes will have a concession stand at the air show.

Then work-work-work as we get our float ready for the Roundup Week parade. If it sounds like I'm griping, I want you to know I'm not because we all enjoy every single thing we do. It's fun for all of us to pitch in and work together. It's teamwork and this is what makes America a great country. See you later.

Mrs. Jake

### Walter Rogers' WASHINGTON NEWSLETTER

#### TO COMBAT THE WATER CRISIS

The Mayor of New York went for a blimp ride recently over the depleted reservoirs serving his metropolis of more than 8 million residents. Upon his return he declared there was no need for "panic." He urged caution and touched off a campaign to encourage New Yorkers to curtail their water consumption. The city's reservoirs, on July 21, were at 47.8 percent of capacity. On his inspection flight, Mayor Wagner could see stone walls and foundations first inundated by rising waters of the reservoir more than 100 years ago.

The crisis confronting New York City and much of the drought hit Northeastern United States is serious indeed. As I have said repeatedly, the real and threatened water shortages in our country constitute our No. 1 domestic problem. For many Americans, the crises in water are going to get worse before they get better.

It would be of interest to Panhandle residents to know that the capacity of all New York City reservoirs is less than the usable capacity of the reservoir being backed by the Canadian River dam near Sanford. Because the Northeast normally receives substantial amounts of rainfall, it is difficult for many residents of that area to realize the seriousness of the shortage they now face.

On July 22, I was honored to be among several Members of Congress invited to the White House to attend the ceremony as President Johnson signed the "Water Resources Planning Act."

This legislation which was shaped in the Subcommittee on Irrigation and Reclamation of which I am chairman, declares the policy of the Congress to be "to encourage the conservation, development, and utilization of water and related land resources" on a coordinated basis.

This means that all levels of Government, as well as affected corporations, business enterprises, and individuals, will participate in planning the development of water resources. The Act sets up a cabinet-level Water Resources Council to keep the President and the Congress informed on the Nation's water needs and to guide the planning effort; authorizes the President to establish river basin planning commissions when needed; and provides for financial assistance to the States for water resources planning.

By the way, at the bill signing ceremony the President appeared hale, hearty, fit and tanned, despite the recent pressures brought on by the close attention he must pay to events in Viet Nam.

John Ellsworth Rogers of Candian, Texas, is working in my office this summer as a "Congressional Intern." John, who is 22, is the son of Mr. and Mrs. Ted Rogers of Canadian. By coincidence, the name of my oldest son is John E. Rogers. In my son's name, the "E" stands for Edward, which is my middle name. There is no known relationship between the Walter Rogers and Ted Rogers families. We'd be proud to claim John Ellsworth Rogers, for his pleasing manner, good looks, and scholarly attainments, which are indeed compliments to his fine mother and father.

John last month was graduated magna cum laude from Harvard College. In September he'll enroll in the law school of Columbia University. John's special field of interest and study is U. S. foreign policy, particularly as it relates to Latin America. This summer he is interested in observing at close hand relationships between U. S. domestic and foreign policy as reflected by actions of the House and Senate.

Other Panhandle area college students working this summer in Washington include Mark Blonstein of Shamrock (at the Federal Power Commission), Miss Wanda Pierce of Wheeler (at the Federal Communications Commission), and Miss Mary Rapstine of Amarillo (at the National Park Service). Mark is the son of Mr. and Mrs. Sol Blonstein of Shamrock and last year attended Texarkana College; Wanda is the daughter of Mr. and Mrs. Marvin Pierce of Wheeler and is a student at Wayland College; and Mary is the daughter of Mr. and Mrs. Frank Rapstine of Amarillo and is a student at Texas Tech. All report they are enjoying their work this summer and learning all they can about the operation of the Government.

### Plains Memorial Hospital Surgery Class Graduates

Words of commendation and praise are due the staff of Plains Memorial Hospital as they strive to offer more qualified service to the people of Castro County.

The Hospital has just completed a three month course in surgical training. Mary Baldrige, director of nursing service and Stanley Kennedy medical technician dedicated two nights weekly to give lectures and demonstrations to the surgery class.

The doctors and hospital manager, Don Newman cooperated to the fullest extent in backing and aiding this practical experience.

The students earning certificates are to be lauded for sacrificing many of their off-duty hours to attend class or take actual surgery calls.

Students giving of their time so willingly and earning the certificates were Mary Thompson, Oma Stokes, Leola Riles, Omega Johnson and Steve Hutton.

Many hours of free time were donated by the instructors and students as they worked together to produce more efficient service for patients.

According to Nurse Baldrige, there will be more classes in the future. She is presently engaged in starting a nurses aide course.

The graduates of the surgery class and their instructors were honored with a banquet Monday night at the Colonial Inn Restaurant.

Don Newman told the group that one of the most pressing problems in hospital work was getting qualified personnel to do the work in the hospital. He pointed out that only 7 per cent of the Nation's young women are going into the field of medicine. Only 3 per cent of the young women in Texas are entering the medical field. Ten per cent of Castro County's young women graduates this year entered the field of medicine.

**'Cats To Start—**  
(Continued from page 1)

Texas A & M. He will be coaching the 7th grade team and working with Pat Privett on the 8th grade team. He will be teaching P. E. in Junior High School. Anderson earned a bachelor of science degree. He will also be teaching track in High School. He will be doing some scouting for the Bobcats.

Coach Hunter and Coach Narrell will be teaching the freshmen football team. Workouts for freshmen will start when school opens.

Six of the coaches will attend Coaching School at Dallas, August 2-6. The school will include lectures exchange of different ideas and philosophies of coaching, and training clinics. The week will climax with All-Star football and basketball game.

Each Smith comments, "Since the coaches are new, there will be 22 positions wide open, everyone will have an equal opportunity to make the ball club."

"We have three complete schedules, varsity, 'B' team, and freshmen." Varsity will primarily consist of juniors and seniors. Sophomores will have opportunity to make the "A" team. The "B" team will consist primarily of sophomores and some juniors. All freshmen will be kept together for freshmen team.

Coach Smith states, "We coaches feel that championship teams are made by playing together for a few years. We hope to keep the boys same age and same size playing together as much as possible."

Brown says, "We invite the public to come and visit with the coaching staff at anytime. Also we welcome you to watch the workouts."

Smith says, "By watching last year's films of the games, we have a lot of good looking boys. It looks like we should have a real good season."

Coach declares, "We play a real tough schedule. We will meet three AAA ball clubs, Muleshoe, Tulia and Hereford. We will start our season by meeting a tough club, Muleshoe."

Coach Smith concluded, "The kids seem ready to go and they want to win. This spirit is one of the main factors in making a winning club." Bobcats will scrimmage White Deer in the near future. Date will be announced later.

Schedule for Bobcats, "B" team and freshmen follow:

the fifth inning. Then in the last two innings Canyon cut loose with four hits to win the game.

Mark Wohlgenuth hit a home run in this game. Danny Ebeling, center fielder, scaled the fence during the game in an effort to stop home run hit by Canyon. According to Bob Myers, Ebeling made a beautiful try for the ball.

Myers, manager of the team, comments, "Dimmitt can be proud of their boys. They were highly praised for their sportsmanship on the field and for the gentlemanly way they conducted themselves through out the tournament."

"Dimmitt needs to support the youngsters as they work and learn to know the rules of baseball as well as life's game," says Myers. The need is urgent for a regulation Little League baseball park.

Farming 6 miles North and 2 East of Dimmitt . . . has this to say about TRI-40 . . .

"To date it has matured my cotton 10 days ahead of that which wasn't sprayed. With approximately 1/3 to 1/2 more cotton squares on area sprayed with TRI-40. Anyone is welcome to look over the field."

**More Yield Per Acre**

Foliage Feeding with tri 40 when plant requirements are the greatest will give you a substantial yield increase — averaging from 10% to 30%. When you harvest your tri 40 sprayed crop, be sure to check the actual yield increases.

**Better Quality**

Time and again growers report evidence of better quality such as less "wind whip" damage on cherries, higher protein corn, better color in apples, more firm and tasty strawberries, cleaner tomatoes, etc. tri 40, a complete plant food, provides the necessary nutrients for best plant cell formation.

**Earlier Maturity**

Get your crops to market earlier and get the high price. Actual field reports shows from 1 to 2 1/2 weeks earlier maturity on tri 40 sprayed crops. The high phosphorus content of tri 40 aids maximum fruit development in a shorter period of time.

**Spray tri 40 CROP BOOSTER**

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER NINE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 8 proposing an Amendment to Section 24, Article III and Section 17 of Article IV of the Constitution of the State of Texas...

ment shall be self-enacting and appropriations heretofore made in the General Appropriations Bill for the biennium ending August 31, 1967, for the salaries of the Lieutenant Governor and Speaker of the House of Representatives shall not be invalid because of the anticipatory nature of the legislation.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 24 of Article III of the Constitution of the State of Texas be amended to read as follows:

"Section 24. Representatives shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year. The Lieutenant Governor and the Speaker of the House of Representatives shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year. The Lieutenant Governor and the Speaker of the House of Representatives, also shall receive from the Public Treasury a per diem of not exceeding Twenty Dollars (\$20) per day for the one hundred and forty (140) days of each Regular Session and for thirty (30) days of each Special Session of the Legislature. No Regular Session shall be of longer duration than one hundred and forty (140) days. This Amend-

ment shall be self-enacting and appropriations heretofore made in the General Appropriations Bill for the biennium ending August 31, 1967, for the salaries of the Lieutenant Governor and Speaker of the House of Representatives shall not be invalid because of the anticipatory nature of the legislation.

In addition to the per diem of the Members of each House shall be entitled to mileage in going to and returning from the seat of Government, which mileage shall not exceed Two Dollars and Fifty Cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller to each county seat now or hereafter to be established; no Member to be entitled to mileage for any extra Session that may be called within one (1) day after the adjournment of the Regular or Called Session."

ing the time he administers the Government, as Governor, he shall receive in like manner the same compensation which the Governor would have received had he been employed in the duties of his office, and no more. The President, for the time being, of the Senate, shall, during the time he administers the Government, receive in like manner the same compensation, which the Governor would have received had he been employed in the duties of his office."

Sec. 3. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday following the first Monday in November, 1965, at which election all ballots shall have printed thereon the following: "FOR the Constitutional Amendment allowing an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives and allowing a per diem for Members of the Legislature not to exceed Twenty Dollars (\$20) per day for the 140 days of each Regular Session and 30 days of each Special Session."

"AGAINST the Constitutional Amendment allowing an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives and allowing a per diem for Members of the Legislature not to exceed Twenty Dollars (\$20) per day for the 140 days of each Regular Session and 30 days of each Special Session."

Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 5 proposing an Amendment to Section 49-b, Article III of the Constitution of Texas so as to authorize an increase in the total amount of bonds or obligations that may be issued by the Veterans' Land Board to Four Hundred Million Dollars (\$400,000,000); providing for the issuance of said bonds or obligations and the conditions relating thereto and the use of the Veterans' Land Fund; and providing for an election and the issuance of a proclamation therefor.

not less than par value and accrued interest; shall be issued in such forms, denominations, and upon such terms as are now or may hereafter be provided by law; shall be issued and sold at such times, at such places, and in such installments as may be determined by said Board; and shall bear a rate or rates of interest as may be fixed by said Board but the weighted average annual interest rate, as that phrase is commonly and ordinarily used and understood in the municipal bond market, of all the bonds issued and sold in any installment of such bonds may not exceed four and one-half per cent (4 1/2%). All bonds or obligations issued and sold hereunder shall, after execution by the Board, approval by the Attorney General of Texas, and registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchaser or purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas; and all bonds heretofore issued and sold by said Board are hereby in all respects vacated and declared to be general obligations of the State of Texas. In order to prevent default in the payment of principal or interest on any such bonds, the Board shall appropriate a sufficient amount to pay the same.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended so that the same will hereafter read as follows: "Section 49-b. By virtue of prior Amendments to this Constitution, there has been created a governmental agency of the State of Texas performing governmental duties which has been designated the Veterans' Land Board. Said Board shall continue to function for the purposes specified in all of the prior Constitutional Amendments, except as modified herein. Said Board shall be composed of the Commissioner of the General Land Board and two (2) citizens of the State of Texas, one (1) of whom shall be well versed in financial affairs and one (1) of whom shall be well versed in financial matters. One (1) such citizen member shall, with the advice and consent of the Senate, be appointed biennially by the Governor to serve for a term of four (4) years; but the members serving on said Board on the date of adoption hereof shall complete the terms to which they were appointed. In the event of the resignation or death of any member of said Board, the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.

"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited in the State Treasury and shall be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund hereafter shall likewise be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and the lands purchased thereunder) shall be used for the purpose of retiring all such bonds, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and the interest thereon, together with the expenses herein authorized, of any other such Division of said Fund. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violative of any contract to which said Board is a party.

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchaser thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such terms and regulations as are now or may hereafter be provided by law to

retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and the interest thereon, together with the expenses herein authorized, of any other such Division of said Fund. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violative of any contract to which said Board is a party.

moneys of said Fund in conformance with the Constitutional provisions authorizing such bonds, the purchase of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes.

"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited in the State Treasury and shall be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund hereafter shall likewise be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and the lands purchased thereunder) shall be used for the purpose of retiring all such bonds, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and the interest thereon, together with the expenses herein authorized, of any other such Division of said Fund. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violative of any contract to which said Board is a party.

Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. SENATE JOINT RESOLUTION NO. 24 proposing an Amendment to the Constitution of the State of Texas by amending Article VII, Section 17, providing a method of payment for the acquiring, constructing and equipping of buildings and other permanent improvements at certain state institutions of higher learning; providing for allocation of funds therefor; authorizing the issuance of bonds or notes and the pledging of allotted funds for the payment of same; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 17 of Article VII of the Constitution of the State of Texas be amended so as to hereafter read as follows: "Section 17. In lieu of the state ad valorem tax on property of Seven Cents (7¢) on the One Hundred Dollars (\$100.00) valuation heretofore permitted to be levied by Section 57 of Article VII, as amended, there is hereby levied in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two Cents (2¢) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the continuing payment of Confederate pensions as provided under Section 51, Article III, and for the establishment and continued maintenance of the State Building Fund as provided in Section 51b, Article III, of the Constitution.

"Also, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Ten Cents (10¢) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings or other permanent improvements at the designated institutions of higher learning provided that none of the proceeds of this tax shall be used for auxiliary enterprises; and the governing boards of each such institution of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as

hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed four per cent (4%) per annum and shall mature serially or otherwise in not more than ten (10) years; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and the taxes provided for the benefit of the public free schools, shall never exceed Thirty Cents (30¢) on the One Hundred Dollars (\$100.00) valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas, and shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

"The following state institutions then in existence shall be eligible to receive funds raised from said Ten Cent (10¢) tax levy for the twelve-year period beginning January 1, 1966, and for the succeeding ten-year period: Arlington State College at Arlington; Texas Technological College at Lubbock; North Texas State University at Denton; Lamar State College of Technology at Beaumont; Texas College of Arts and Industries at Kingsville; Texas Woman's University at Denton; Texas Southern University at Houston; Midwestern University at Wichita Falls; University of Houston at Houston; Pan American College at Edinburg; East Texas State College at Sam Houston State Teachers College at Huntsville; Southwest Texas State College at San Marcos; West Texas State University at Canyon.

Stephen F. Austin State College at Nacogdoches; Sul Ross State College at Alpine; Angelo State College at San Angelo. "Eighty-five per cent (85%) of such funds shall be allocated to the Comptroller of Public Accounts of the State of Texas on June 1, 1966, and fifteen per cent (15%) of such funds shall be allocated by said Comptroller on June 1, 1972, based on the following determination: (1) Ninety per cent (90%) of the funds allocated on June 1, 1966, shall be allocated to state institutions based on projected enrollment increases published by the Coordinating Board, and the State Treasury in order to carry out the purpose of this Amendment, and the State Treasurer shall pay warrants on such issue out of the special fund hereby created for said purposes; but the amount shall be self-enacting. It shall become operative or effective upon its adoption so as to supersede and repeal the former provisions of this Section; provided further, that nothing herein shall be construed as impairing the obligation incurred by any outstanding notes or bonds heretofore issued by any state institution of higher learning under this Section prior to the adoption of this Amendment; and the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.

"The Commissioner of the General Land Office shall act as Chairman of the Board, and shall be the administrator of the Veterans' Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Acting Clerk of the General Land Office shall be the Acting Chairman of said Board with the same duties and powers that said Commissioner would have if present.

"The Veterans' Land Board may provide for the issuance of bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund, Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for

semester of the tenth year. All such designated institutions of higher learning shall not hereafter receive any general revenue funds for the acquiring or constructing of buildings or other permanent improvements for which Ten Cent (10¢) ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount not to exceed the uninsured loss so incurred may be made by the Legislature out of any General Revenue Funds. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this Amendment, and the State Treasurer shall pay warrants on such issue out of the special fund hereby created for said purposes; but the amount shall be self-enacting. It shall become operative or effective upon its adoption so as to supersede and repeal the former provisions of this Section; provided further, that nothing herein shall be construed as impairing the obligation incurred by any outstanding notes or bonds heretofore issued by any state institution of higher learning under this Section prior to the adoption of this Amendment; and the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.

"The Commissioner of the General Land Office shall act as Chairman of the Board, and shall be the administrator of the Veterans' Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Acting Clerk of the General Land Office shall be the Acting Chairman of said Board with the same duties and powers that said Commissioner would have if present.

"The Veterans' Land Board may provide for the issuance of bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund, Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. ### Congressman Rogers' Week

## Section 14(b) Controversy Nears A Decision In House

Congressman Walter Rogers said today "the year's most heated floor fight" is in prospect this week as the House of Representatives conducts its debate on proposed repeal of Section 14(b) of the Taft-Hartley Act.

Congressman Rogers said no one could predict with certainty the outcome of the issue. "Both sides are claiming to have the necessary votes," Congressman Rogers said. "It appears that the outcome will be extremely close."

The Congressman said he believed most House members from Texas would oppose repeal of the section. Congressman Rogers said, "It has been my position that the basic issues involved in this controversy are matters within the jurisdiction of the States and should not be pre-empted by the Federal Government. Section 14(b) preserves this right in the States."

Section 14(b) of the Taft-Hartley Act, on the Federal lawbooks since 1947, permits States to enact laws prohibiting membership in a labor union from being required as a condition of employment.

"The decision by the House on this matter will clear the way for consideration - probably in the week of August 17 of the Omnibus Farm Bill," Congressman Rogers said.

Meanwhile, Congressman Rogers will preside Wednesday, Thursday, and Friday as the Subcommittee on Irrigation and Reclamation conducts hearings on three reclamation projects proposed in Western areas.

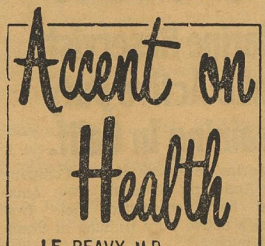

They are the Tualatin Project, Oregon; the Manson unit, Chief Joseph Dam Project, State of Washington; and the Southern Nevada Water Project.

Congressman Rogers is chairman of the subcommittee, which has initial House legislative jurisdiction over Federal reclamation projects providing municipal, industrial, and irrigation water supplies and conservation and recreation benefits.

The House Committee on Interstate and Foreign Commerce, of which Congressman Rogers is a ranking member, will continue hearings this week into legislation proposing a massive Federal program to battle heart disease, cancer, stroke, and other major diseases.

Congressman Rogers will also take part during the week in a House-Senate conference committee meeting to resolve differences in water desalination program legislation passed by the two houses of Congress.

Summer offers its own brand of fun - outdoor recreation, cookouts, get-togethers and the like.

But summer enjoyments, like others, have their hazards or pitfalls.

Take sunning for example. It's practically an all-American sport. For those who participate, a beautiful tan is a status symbol well worth baking for. Too much roasting, however, results in a burn.

Everyone reacts differently to the sun. But, no matter how easily you tan, follow the rules for even baking.

First, take it easy. Ten minutes on a side is enough for the first day. Increase the time by about five minutes on each successive day. And don't be fooled by a cloudy or hazy sky. You can burn on cloudy days, too.

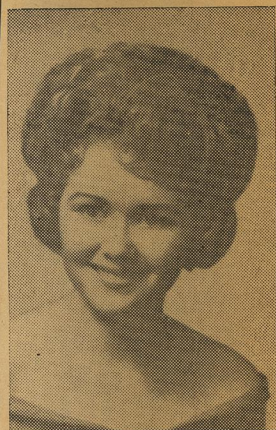

Be choosy about where you sun. If you are near reflections from aluminum, water or sand, the sun's rays are intensified.

Keep your defenses up while you

The prospective groom is a graduate of Turkey High School and has completed two years at West Texas State University.

The couple plan to make their home in Canyon where they will attend college.

### Sen. John Tower's

## Washington Report

Thousands of Texans have written to me urging retention of our state's right-to-work law. I certainly agree with them that Texans should state's Right-to-Work law. I certainly support union membership.

It is illegal to deny employment to any person because of race, color, creed, or national origin. It would seem strange, therefore, to deny employment to a citizen who prefers not to join a union.

Right-to-work means a man is free to become an active, dues-paying union member if this is in his best interest. Right-to-work means he also is free not to join a union if he feels that is best. This is the way of free men. It should continue to be the way of Texans.

Texas unions are strong and well led. They are that way because they pay better attention to their knitting than do unions in states where compulsory membership is required. Right-to-work does not interfere in any way with legitimate union activity. It merely guarantees all workers against compulsion.

We should not any more make a man join a union to hold his job than we would force him to work for a specific firm, if he wants a job.

In addition, our state's continued favorable economic progress is at stake. Over the past decade all Texans have benefited because freedom of choice has been preserved for our workers.

For instance, in the number of new jobs created over the decade, Texans enjoy nearly a 10 percent advantage over non-right-to-work states.

In number of new manufacturing jobs created, the Texas advantage is 29 percent. And, all these new jobs are available for all Texans whether they prefer union membership or not.

Because of our Right-to-Work law, we have a better state, better unions, more jobs, and better labor-management relations.

The U. S. House of Representatives may vote this week on the question of repealing our state law. If the House does vote for repeal, the fight will shift to the Senate, where I will do all I can to see that our state law is retained and that the right of changing such state laws remains with the states and their people.

Mr. and Mrs. Ernest Martin returned home after a wonderful trip to Ontario, Canada. They left on the 28th day of May, traveling through Oklahoma, Kansas, Nebraska and Minnesota. They arrived at the Red Lake area about 300 miles North of Lake Superior. Traveling by pickup with a camper, they met friends from Iowa, there at the lake. Mrs. Martin said they slept in the camper and stayed in their friend's cabin all the time they were there. She said there was no traveling by car, only by boat, because of the brush country and just lake. Fishing was very good. They caught the trout, Golden Bass and others. Mrs. Martin said they got pretty choosy about what fish to keep because of the variety and good fishing. Coming back, they came through Manitoba and saw the best sugar beets and the prettiest wild flowers they had ever seen, good timber and farming country also. Irrigation isn't needed because of plenty of rain. Mr. and Mrs. Martin also came back by North Dakota where they visited the Sunken gardens and South Dakota and visited the beautiful parks and Mount Rushmore. After being away for seven weeks, the Martins say that it's pretty great to be home. There will be skating each Saturday at the Hart Elementary School. It is sponsored by the Hart Public Schools. Skating will start at 6:30 p.m. and end at 9:30 p.m. The public is invited to attend each Saturday.

**LIONS CLUB MEETS** — The Hart Lions Club met for their regular meeting in the dining room of Alford's Cafe, Monday, July 26. There were thirteen members present and one new member, Rev. Rogers, Otto Dinwiddie, Kenneth Lambert, John Holloway, W. T. Sanders, Wister Clevenger and Rev. Douglas Gossett. In the District playday at Lubbock the Hart Junior Riding Club brought back 93 points. Members participating were: Nelda Henderson, James McClain, Retta Henderson, Jerry Swindle, Rex Henderson, Jerry Smith, Harley Malone, Dana McClain, Jim Swindle, David Dalton, Kerry McClain, Pam Houston and Roma Swindle.

The youth of the First Baptist Church met in Fellowship Hall after the services Sunday night. Mr. and Mrs. Bob Lacy are sponsors for the group. Refreshments of sandwiches, cookies and iced tea were served. Eleven youths attended.

The youth of the Methodist Church had Youth Activity week at the church last week. There was an average attendance of thirty.

Tuesday night Bro. Douglas Gossett spoke on the Morals in Teenage Relationships. Bro. Albert Lynley of Earth talked about the Stumbling Blocks to Christian Living on Wednesday night.

Thursday night Bro. Lyle Hamilton of Kress, a student preacher spoke on The Christian Answer to Race Relations.

On Friday night the youth all went swimming at Olton.

Next Wednesday night will be Churchwide Family Night at the Methodist Church. The youth will furnish the watermelon and activities. The devotional will be brought by the pastor of the church, Bro. Douglas Gossett.

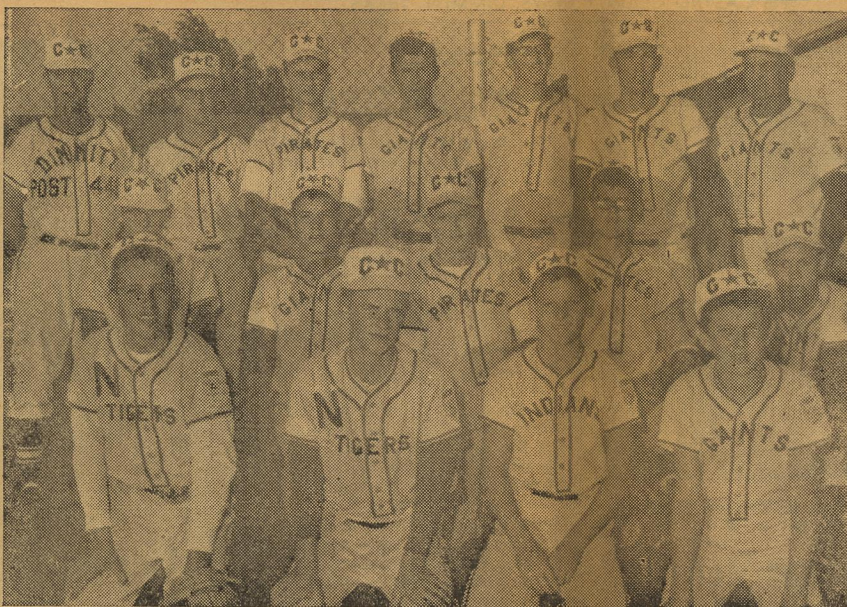

Mr. and Mrs. Carl Rambo and family visited a few days in Dallas last week with her sister Mrs. Jack Fause and family.

**MARINE RESERVIST**—Pfs. Charles L. Birkenfeld, Nazareth, performs minor repair work on an "Ontos" anti-tank weapon before going out on maneuvers at Camp Pendleton, Calif.,

## Marine Reservists Take Active Duty Training In Calif.

Marine reservists of "C" Company, 4th Anti-Tank Battalion, from Amarillo have completed their first week's active duty training at Camp Pendleton.

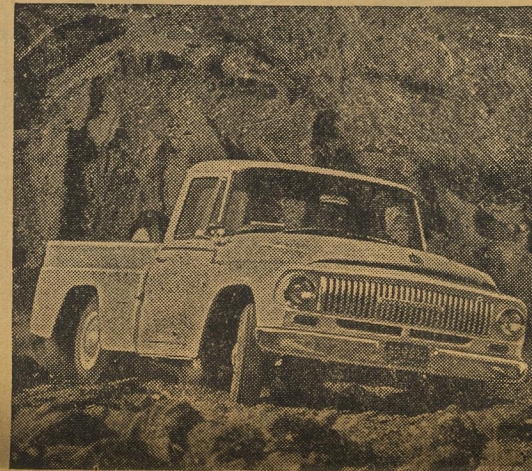

The anti-tank unit, armed with the awesome Ontos (a Greek word meaning "The Thing") delivers death-dealing blows to their opponents with six 106mm recoilless rifles. The Ontos is capable of destroying any known tank in the world today. During their first week at Camp Pendleton the unit conducted extensive exercises in both day and night

good, as for one thing the skull is valuable as trophy and for another it is the most unreliable mark on a grizzly. Spinal shots should be avoided. Although a front spinal shot severing the vertebrae is effective, it is a chancy thing unless you (1) possess an extraordinary knowledge of grizzly anatomy and (2) are a highly skilled marksman. A spinal hit to the rear of the diaphragm (mid-section) will immobilize the hind-quarters, but this does not end the incident, as the grizzly gets about very rapidly indeed with only his front legs — and at this juncture his rage is such that just viewing it would scare the loincloth off a Mau Mau executioner. A grizzly customarily does not maul a human past the stage at which he feels the human is dead (no longer a source of danger). "People have saved their lives by playing dead, though of course any encounter with a grizzly leaves you with a bit of a going-over," writes John Johnson, Camping Editor of Sports Afield Magazine.

Sometimes grizzlies bury the victim in a shallow grave and cover it with brush. They do not eat human flesh, as a rule, though they are often accused of it. More likely it is smaller, less discriminating beasts who do the foul deed.

**Dear Blabby:**

By Oma Siler

HASN'T HE GROWN UP?

Dear Blabby: My son is only twenty-three but I'm in terror that he may have gotten himself involved with some girl. Blabby, he's my only child. I would have been married twenty-five years a week from now, if his father was living. The thought he'll leave me now fills me with despair. The reason I'm so afraid is, I saw him the other day in ALLENS HOME FURNISHING. He was pricing a beautiful lamp, and I'm sure he had actually bought a Mixer. That means only one thing to me... he's planning to marry some little snip. How can I head it off?—DESPERATE WIDOW.

DEAR DESPERATE: Hold on, sister. In the first place, at twenty-three, he's old enough to marry if he likes. But actually he isn't. He, too, knows your silver anniversary is coming soon, and he did buy that beautiful Lamp and Presto mixer as gifts for you. You've got a fine son there... for one thing, he's wise enough to shop at ALLENS HOME FURNISHINGS and get the best for you... he'll do the same for his wife when he does marry. He's a grown man. —BLABBY

It is doubtful that any other North American animal remotely approaches the grizzly as a source of legends, folklore and conversational gambits around the hot stove. He is, without question, extremely tenacious of life and can be a monumental problem to get down and keep down. The classic shot for a grizzly is much the same as with most other soft-skinned dangerous game, you try to break the shoulders and destroy the lungs. Follow-up shots may be required, once he's anchored. The so-called brain shot ("get 'im square between the eyes") is not so

### Secretary of Agriculture

# MAKES STATEMENT CONCERNING PENDING COTTON LEGISLATION

This is in response to numerous inquiries on cotton legislation received by the Department of Agriculture as a result of my testimony before the Senate Committee on Agriculture and Forestry last Thursday, and as a result of the approval by the House Agriculture Committee of the Farm Bill, H. R. 9811. It is essential that the public be fully aware of this important bill.

The major provisions of the House Bill are:

A. The cotton law would continue the one-price approach that has increased the use of cotton in the United States this year and give cotton farmers greater freedom of choice.

B. The Feed Grain Program which has added \$3 billion to farm income the past four years would be extended, and improved.

C. An improved wheat program would boost wheat farmers' incomes by \$150 million a year while reducing government costs and providing more freedom in the marketing system.

D. A new cropland adjustment program would help farmers shift a part of their allotted acreage out of crops into conservation and recreation uses - if they wanted to and be paid for it.

E. In addition, the Wool Program would be continued.

In order for farmers to have the

benefit of any one of these programs, congressional approval of H. R. 9811 will be required. It is already late in the season, and there is much opposition from nonfarm, anti-farm and some farm groups.

The proposed cotton legislation, if passed by the Congress, would not only extend the one-price idea that is in effect this year, it would help the Government to bring under control the high costs which otherwise could wreck the entire program. We have too much cotton for our markets - our 16 million acre allotment will produce from 3 to 4 million more bales than it produced when first established by law in 1959. Growers would have maximum freedom of choice in making use of the new program.

A. Farmers could plant within the farm domestic acreage allotment 65 percent of the regular allotment and receive a higher per pound income from cotton than they are getting this year. In 1966, this return would be made up of a 21-cent price support loan and payments to bring the total price to \$5.65 (higher if market price above loan).

B. Other farmers might choose to plant in excess of their farm domestic allotments - either 75 percent or 85 percent of regular allotment - and be eligible for loans and smaller payments which would average 32.30 or 29.73 respectively for cotton produced (again, higher if market above loan). These rates are all in excess of the 1965 guarantees.

C. Or, if a farmer chose, he could plant all the cotton he wanted without having to pay penalties. He would simply do without price support loans and payments and would depend on a market price of 21 - 22 cents per pound.

D. If a farmer with an allotment wants to plant no cotton, he can receive a payment of approximately \$45 - \$55 per acre for 15 percent of his allotment. He could then release the remaining 85 percent or transfer it to another farmer by lease or sale.

The cotton community would not suffer damage or be destroyed. Actually, cotton income would be maintained. Allotment transfers would be permitted within a county; also within the State if producers agree to such transfer in a referendum.

The Cropland Adjustment Program would assist local and area economies. It is expected that very little cotton acreage would go into the Cropland Adjustment Program - only 628,000 acres of cotton allotment nationwide were enrolled in the conservation reserve of the Soil Bank at its peak in the late 1950's. The new program would have a number of safeguards to minimize the impact on any one community.

The Release and Reapportionment Program would be continued. Farmers who have been relying on release and reapportionment would not be deprived of this allotted acreage. In fact, they could acquire additional acreage permanently by purchase or on a long-term lease.

If the farm bill fails to pass, we would go back to the 1958 law on cotton, with price support at 65 to 90 percent of parity and continued overproduction. There would be no effective feed grains, wheat or wool programs, while the unfairness of the two-price system would drive American textile mills into still greater use of man-made fibers. The use of synthetic fibers on a cotton equivalent basis already exceeds the use of

cotton.) The two-price system could eventually eliminate a substantial portion of our domestic market.

The program proposed in the omnibus bill (H. R. 9811) would make U. S. cotton competitive - both in the world cotton market and with synthetics here at home. The administration is in favor of a strong cotton economy and would oppose any limitations on payments. The bill provides ways to support the income of cotton farms through other means if limitations on payments are prescribed by the Congress.

Farmers have more at stake in this proposed program than does anyone else. The problem facing cotton farmers is more critical than it has been at any other time since programs started in 1933. I hope that the vast majority of growers who stand to benefit substantially from a farm program will give serious thought to the cotton situation and the need for a sound cotton program.

The cotton provisions of the omnibus bill, H. R. 9811, as reported by Chairman of the House Agriculture Committee, are not necessarily the final answer on all counts, but they do provide the foundation of a good program. Without this bill, we will return to a discredited program that can only damage grower incomes, give comfort to the competitors of American cotton and threaten destruction of the entire program.

Dear Fellow Texans:  
The United States Senate has passed the Cold War GI Bill.

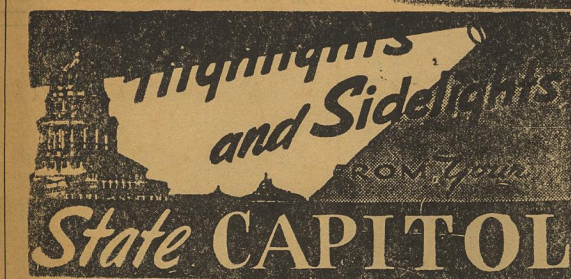

After working long and hard for over six years on behalf of our 5 million forgotten veterans of the cold war, 250,000 of them in Texas, I am proud to report to you that the Senate voted more than 4 to 1 to give these veterans a chance in life.

Under this Senate bill, any veteran who has served more than 180 days on active duty between January 31, 1955 and July 1, 1967, will be eligible for educational assistance and farm loans. Education benefits will be provided for not more than 36 months at the rate of 1 1/2 days for every 1 day on active duty.

The bill now goes to the House of Representatives, where it will be referred to the Veterans Affairs Committee, chaired by Texas Congressman Olin Teague. It is hoped that the passage of this worthy bill in the Senate by a strong 69-17 vote will be matched by an equal desire in the House for equal justice for all our veterans.

This is a bill for all cold war veterans, not just for the small percentage who have served in so-called areas of hostility. Today, our defense system operates as a team and every military person is always subject to being ordered at any minute into the areas and perils of armed conflict.

The opposition sought to cripple this bill by limiting it to Viet Nam, to less than 10 percent of our veterans. This effort to kill the Cold

Rising insurance rates continue to stir up most of the excitement in the state capital.

A Dallas attorney, Bert Bader, filed suit in the 98th District Court here challenging legality of the State Insurance Board's order boosting insurance premiums an average of 13.4 percent.

In asking the court to set aside the recent order, which hiked some key liability and collision rates more than 20 percent, Bader maintained that the state law under which premiums are set is unconstitutional.

He also criticized the Board's allowance of 37 percent of premium income for company expenses and its failure to consider the investment income of insurance firms in fixing rates.

Bader pointed out that Texas' laws virtually make it mandatory that Texans buy auto insurance. Therefore, the arbitrary increase in rates violates due process of law.

Another factor cited by Bader is that the Board failed to take into consideration the actual operating expenses of the insurance companies affected.

He also said that the accident rate is decreasing. For these and other reasons he contends that the new rate, to become effective on August 1, is grossly excessive.

OIL ALLOWABLE CUT - State Railroad Commission set August oil production allowable at 2,905,312 barrels a day, a slight reduction from the July allowable of 2,911,115.

Figure is based on a formula of 28 percent of potential, compared with 28.1 percent for July.

August, 1964, allowable was 2,794,312 under a 26.5 percent factor.

COURTS SPEAK - Texas Supreme Court decided to hear appeals from both the state and four Gregg County oilmen penalized \$304,800 for allegedly drilling and perating a slanted oil well (1952-62) in Wood County.

Supreme Court left standing a verdict denying a \$4,000,000 suit against the estate of the late San Antonio oilman, Tom Slick. Suit resulted from a uranium venture which never got off the ground.

Fourth Court of Civil Appeals had ordered the trial court to determine whether two corporations owned by Slick breached a contract to furnish funds for a Colorado uranium mill.

High court said it did not necessarily agree with lower court's opinion that only nominal damages may be

War GI Bill by limiting it to one small area proved futile, as the Senate strongly voted down all of these crippling amendments. Senate passage of this bill by this landmark vote is also a strong rejection of the Defense Department's concern for our veterans once they have been drafted, served from 2 to 3 years and are discharged back into society.

In this draft system, only 40 percent of the draft eligibles ever serve in uniform and we must have educational justice for them to match the opportunities for the 60 percent who do not have to serve.

A penalty of time placed on these cold war veterans who defend our country should not set them back for a lifetime. This is progress for the veterans of the cold war and progress for the American people.

Counties.  
New Coordinating Board takes over junior college jurisdiction on September 1.

A variety of new school policies was laid down by the Board of Education, including rules for new vocational school districts, special education programs and "merit pay" raises for teachers.

Chandler School District was accredited for one year probationary period.

Board advised River Road Independent School District (near Amarillo) of possible violation of accreditation standards in its unauthorized start of a ninth grade. Consideration of formal application for the additional grade will be delayed.

VANISHING BOARD - Texas Commission on Higher Education held its last meetings prior to being replaced on September 1 by the yet-to-be-named Coordinating Board for Texas Colleges and Universities.

Commission approved 23 program and reorganization proposals of state colleges and universities. In summarizing results of its nine years Commission concluded it had done a good job but wished even greater success to the new Coordinating Board.

POVERTY PROGRAMS APPROVED - Governor Connally has approved application of Community Council of Austin and Travis County for a \$529,706 community action grant under the Economic Opportunity Act. Project is aimed at combatting causes of poverty in the capital.

Connally also announced approval of Neighborhood Youth Corps projects in New Braunfels, San Antonio, Pharr, Abilene, Daingerfield, Pasadena, Galveston and Carthage.

He said that new teaching methods at the Gary Job Corps Training Center near San Marcos (model installation in nation's war on poverty program) may well result in "a complete revamp of vocation and techni-

cal education in Texas."

Base soon will be offering 26 of the most modern vocational courses. A group of top industrialists working in an organization known as Opportunities Incorporated helped set up the curriculum and obtain up-to-date equipment.

BIG BISON - Research by the Texas Archeological Salvage Program - under contract with the National Park Service - reveals that the kind of buffalo which roamed Texas some 8,000 years ago were at least twice the size of present day buffalo.

Those facts, covered over and obliterated by centuries of deposited ever-broadening program of archeological field and laboratory work concentrated mainly in areas soon to be covered by reservoirs.

Contracts for such salvage programs have been negotiated with archeologists at the University of Texas, Texas Tech, and Texas Western. Southern Methodist University will start a program this fall.

Beginning September 1, a \$12,000-a-year salary will be available for an archeologist to be a member of the staff of the reconstituted Building Commission.

SHORT SNORTS - State draft quota for August calls for 891 men, compared to 908 for July.

As the result of weather damage, emergency loans were authorized by the Farmers Home Administration in Burleson, Duval, Floyd, Hidalgo, Jim Wells, Live Oak, Milam, Motley and Willacy Counties.

State Securities Commission authorized the sale of \$29,200,000 in securities in Texas during June.

Texas Highway Department has received an award of merit from National Safety Council for its 1964 safety record among employees.

A Texas Highway Department survey shows that a total of 11,700,000 tourists came to Texas by auto last year for an all-time record. They added \$24,700,000 to Texas' economy.

### Plans Progressing For Homecoming

Tentative plans are progressing for Dimmitt Ex-Student's homecoming, September 17-18.

The program has been planned to insure two full days of activities, beginning at 1:30 p.m. on September 17 and ending with a dinner at 7 p.m.

Prior to the dinner on Saturday night, there will be an informal coffee hour from 6 to 7 in the High School gym. This time is to allow ex-students and guests to meet to gether, renew old acquaintances and meet new friends.

Presentation of awards will be made during the dinner. Awards will be bestowed by Miss Dimmitt (Kathy Leinen) to the ex-student traveling the greatest distance to Homecoming and to the teacher who taught the earliest year in Dimmitt schools.

Special recognition will be given to ex-students who attended Dimmitt

schools prior to 1915. Also recognition will be given to the class with the largest attendance and to the family with the most generations attending the school.

Election of officers for 1966 will be held at the dinner.

Classes to be honored during Home coming will be 1965, 1955, 1945, 1935, 1925 and 1915.

Ken Fulfer, president of Ex-Student Association says, "If you plan to stay overnight, we will be glad to make reservations at the new Colonial Inn for you and your family."

"We are again asking that all Ex-Students contribute \$1 to offset the expenses. Your contributions may be mailed to Ken Fulfer, 608 West Cleveland, Dimmitt, Texas, 79027.

"We are counting on seeing you at this year's reunion, so please fill out and mail the following information to above address.
