Labor Clears Economic Sky

Washington observers now believe that the threatened wave of strikes in major industries will not materializie this spring, after all.

A few weeks ago the outlook was dark. Leaders of organized labor were on the outs with the administration. Serious trouble threatened in soft coal, automobile, steel, rubber tire, and textile trades; and no one needs to mediate very long to realize what a succession of strikes in these basic industries would do to the recovery program.

Now, however, the sky is brighter. Concessions have been made by both sides. President Roosevelt's dream of an industry-labor truce seems closer to realization, with Fordlabor leaders mollified by assurance of administration support for at least part of labor's legislative program.

It is to be hoped that this new optimism is justified. Widespread labor trouble is always costly to everyone concerned. It would be especially costly just now.

It is the responsibility of labor, industry, and government to find a peaceful solution for current difficulties.

#### Back to the Middle Ages

An enterprising British real estate firm, marketing a new residential subdivision in Middlesex, has equipped its new estates with built-in dugouts, guaranteed gasproof and bombproof, and is making quite a point of the matter in its advertising.

It would be hard to find a grimmer bit of testimony to the insecurity of life in the face of modern warfare. Centuries ago, people built their houses without windows so that each home could stand a siege. Today we have ad- Eleventh Supreme Judicial Dis- vs. E. C. that?

"Oh, no." "This is your room?"

"Yes." "You couldn't hear a small caliber gun fired back in the chauf-feur's room, anyway," the officer

"A small caliber gun?" she echoed questioningly, trying to avoid the appearance of sparring with him, yet seeking to draw him out

and save herself as much questioning as possible.
"Yes, a small caliber gun. Some-

one shot Harry Felding with a mall caliber gun. "When," she asked.

"Probably around half-past four five o'clock this morning." "Oh," she said.

"Someone who was waiting for him inside the room where he sleeps. Felding had been out. He'd taken one of the cars-probably Bob Caise's car. He'd run out of gasoline and come back to house. Apparently, he'd walked back. We found Caise's car down the street. It was out of gas. Harry Felding opened the door of his room, and someone popped him with a pistol."

He stared at her frowningly and aid, "It was one of those little toy vest-pocket pistols."

"A toy?" "I'd call it a toy. It was one of those little automatics that's made to fit into a lady's handbag, but it did the job all right-one shotrigh smack through the heart." She shook her head slowly and

said, "I didn't hear any shot." "Okay," he told her. "I'm sorry "He brought me here because I I bothered you, but I'm just making a check-up on everyone. It doesn't look like an inside job. You don't know anything about

### Brighten up with ALL-BRAN!

You've had days when you've felt-discouraged and low. Nothing seemed to gu right. Frequently these dreary days can be traced to common constipation, due to lack of "bulk" in your meals.

This ailment may cause headaches and loss of energy. Correct it by eating a delicious cereal. Laboratory research shows Kellogg's ALL-BRAN provides "bulk" to

nid elimination. ALL-BRAN also fur-nishes vitamin B and food-iron. The "bulk" in ALL-BRAN regists digestion better than the fiber in

fruits and vegetables. It is gentle-and often more effective. Isn't this natural food better than taking pat-ent medicines—often harmful? Two tablespoonfuls of ALL-BRAN daily are usually sufficient. With each meal, in chronic cases. If not

WALLACE BEERY APPEARS IN HIS GREATEST FILM

"West Point of the Air," which pened last night at the Arcadia Theatre, fulfills two purposes excellently.

It is a splendid, warm, human vehicle for Wallace Beery, whose popularity was amply attested by an enthusiastic crowd.

Secondly, a strong dramatic story is played out against a new background, a background which few Americans know anything about, a background of utmost importance to the future of the United States . . . the huge air college at Randolph Field, Texas. Beery, as a grizzled old aviation

sergeant, bridges the gap between the army air days of rickety "crates" or "flying coffins," as they were playfully called, to the ultra-efficient air arm of today. He does even better than his usual job. This extra margin of excellence is undoubtedly due to the fact that aviation is Beery's great hobby. He is the most experienced pilet in acting circles, the only

### A Small World We Live In!

The world seems small when, with a twist of the dial, foreign stations are tuned in on these radios. Circling the globe with a radio is great fun with these sets which are to be featured during Ward Week in Wards 489 stores from Thursday, March 28 to Saturday, April 6 inclusive.

actor, in fact, who holds a trans- Toledo policemen are being taught politeness. Perhaps then port pilot's license.

Great in that flying picture of the Navy, "Hell Divers," Beery is ting caught. ven greater in "West Point of Fort the Air." The reason undoubted ly lies in the story; the great int est that revolves around this o Two girls, Maureen O'Sullivar and Rosalind Russell, are mixed up in the plot melange, and both pleasant jobs, as does Young
