Col. Lawrence Westbrook Given Important Post

Col. Lawrence Westbrook is a citizen of Waco, Mc Lenan county. He is a native Texan who has administered the federal government's rural rehabilitation program.

z Now a Washington correspondent of the Waco Times Herald announces that Westbrook will be contact man between the states and the works progress administration under the new relief works set-up. According to the Washington correspondent in his new position the colonel will act as right hand man to Harry L. Hopkins, "work progress administrator who is admittedly the dominant federal figure in the first stage of the new \$4,000,000,000 works program."

The Texan's official title will be assistant to the administrator of works progress and as his first official duty he has been assigned to the job of preparing information which is to be given to state works progress administrators when they meet at Washington Jhne 17 for the first round table conference on the new program.

Col. Westbrook has been in public life for years. He was a valued member of the Texas legislature for several terms. He has held important jobs since th coming of the Roosevelt administration. Now he has been promoted to a very important post. Texas has not been overlooked by FDR or those who are close to the chief magistrate.

As a Scientist Lindbergh Is In the Big Picture

Col. Charles A. Lindbergh has found a place in the world of science. He may become one of the noted biologists of history. He has been mastering scientific lore for four years. He has invented a dummy man. That dummy carries an artificial heart and lugs an da mechanical pump. He is a polished product of the Rockefeller institute laboratories. These American sons of the Scandinavian race-Swedes and Danes and Norweigians-have been makers of history for hundreds of years-but why a dummy man? There are dummy men everywhere. They are found in all the fields of human endeavor and effort. They are dummies but they never admit it. Why add an iron man in armor to the collection? Very interesting indeed is the story of the March of Time and now the most famous ace of the air the world has known appears to be determined to add a new chapter to the most advanced books or periodicals devoted to scientific literature. Colonel Lindbergh does not believe that a human being should linger along in the rut where he was born. He has been a sensation for years, he is mentally equipped, he is physically fit and as a flyer he holds all records. His new dummy has a record to

PUT YOUR CAR IN OUR HANDS for a 3-week "Tank Test"

A Sporting Offer

Unless you've made friends with Gulf gas recently, you can't know what a really great fuel it is!

Just try it 3 weeks. Then see if you don't check with the motorists who've already made this "tank test."

750 "takers"

These 750-average owners of average cars-agreed to try That Good Gulf and judge it themselves. They drove it 3 weeks-comparing it against their reg-ular brands for mileage, starting, pickup, power, all-around performance.

555 converts

555-more than 7 out of 10-found Gulf definitely better in one or more of the 5 ways. Many chose it on all five. Reason? Gulf is 5 good gasolines in one. Controlled refining gives it not merely 3 or 4, but all 5 important gasoline qualities.

Try Gulf 3 weeks-and you'll never leave the bandwagon!
