HOUSE APPROVES TAX-THE-RICH-MEASURE

Pool Board Will Meet with C. of C. Directors Tonight

The pool board was called again tonight by the C. of C. directors. The board will meet with the C. of C. directors tonight and all directors of the organization are urged to be present. The board also will be present at the meeting of the C. of C. directors tonight, as matters of vital importance to the C. of C. directors will be taken up for consideration. The board will meet at 8 o'clock tonight, it was stated.

Mayor to Sponsor Good Will Trips

Mayor De Leon announced today that he will sponsor good will trips to neighboring towns this fall. The trips will be to De Leon, Del Rio, and Comstock, Tex. The trips will be made by the city of Ranger. The mayor will be accompanied by the city council and other city officials. The trips will be made during the month of October.

Business

Ranger delegations are to neighboring towns this fall. The trips will be to De Leon, Del Rio, and Comstock, Tex. The trips will be made by the city of Ranger. The mayor will be accompanied by the city council and other city officials. The trips will be made during the month of October.

Boys

Boys will be to De Leon on Friday, with the motorcycle club. The trip will be made by the city of Ranger. The mayor will be accompanied by the city council and other city officials. The trip will be made during the month of October.

Recruits Flyers for Ethiopia

Claiming to have enlisted a dozen aviators already, Hal Duborrier (above), of Chicago, who says he was a member of the famous Lafayette Escadrille, is recruiting an air force in France for service with the Ethiopian army in event of war with Italy. Eight of his aviators are American, he says.

ROOSEVELT IS PLANNING FOR OIL CONTROL

WASHINGTON, Aug. 5.—The administration is planning to seek congressional action this session to reestablish the new deal power to regulate the oil industry. Present plans call for president Roosevelt to back the Thomas oil bill, giving the government to regulate production through state allocations. The strategy was revealed as the president called a group of congressmen to the White House for a conference this afternoon. The government has only the Connally bill through which the tender board operated in East Texas.

Canada Watches Railroad Trends

MONTREAL.—The spectacular duel being waged in United States between advocates of the Diesel engine and supporters of the locomotives is being watched closely by Canadian railroad leaders. Canadian railroad men believe that the whole course of the future operating development of the Dominion's railways depends on the outcome of the duel.

Zenge Is Charged With Mutilation

CHICAGO, Aug. 5.—A warrant charging Mandeville Zenge with the mutilation murder of Dr. Walter Bauer, was sworn out today. The warrant, ending Zenge's hopes of obtaining release, came as the grand jury prepared to investigate a strange love triangle which preceded the murder.

GRAPEVINE VISITORS

Mr. and Mrs. J. M. Seaboury of Grapevine had as Sunday and Monday guests her sister, Mrs. Cordelia Huddleston and grandsons, Wade Meadows and Douglas Ray Huddleston from Abilene.

NEW DEAL TO FACE DECISION ON ITS COTTON

WASHINGTON, Aug. 5.—The new deal this week approaches a billion dollar decision on what it is going to do about American cotton. On Thursday at 11 a. m., EST, government experts will announce the first official estimate of the 1935 cotton crop, most valuable agricultural harvest. The government is expected to decide—after the estimate, whether it can pour some \$306,000,000 back into the treasury by unloading here and abroad its stocks of cotton.

The world supply of American cotton is expected to be valued roughly at \$1,000,000,000 regardless of the number of bales. The decision on the cotton loans this year will involve this supply. The government now has about 5,100,000 bales of cotton, acquired at a cost of \$206,000,000 which it would sell and turn the money back to the commodity credit corporation if market conditions permitted. The cotton was acquired through loans to farmers.

Marital Law Is Proclaimed In Crete

ATHENS, Greece, Aug. 5.—Marital law was proclaimed in Candia, Crete, to cope with a revolt against the government which started among workers. The government dispatched two destroyers and five planes to the island and said the strikers had not captured the government building as claimed. Four thousand workers gathered and clamored for higher wages and police and troops charged them. There was sharp fighting and 50 were injured. The strikers refused to disperse and raided a gunsmith shop where they took guns and pistols.

Negro Drives Into Church Group and Injures Several

NACOGDOCHES, Aug. 5.—A negro named Forney, driver of a truck which crashed into a group of churchgoers, injuring four, two seriously, was in jail today and Sheriff Fitch said he hoped to have the negro's companions soon. Sheriff Fitch said that Forney claimed that he was driving to work and did not see the people. The accident occurred as the crowd gathered for evening services. The truck sped out of the night, ran into the crowd before they had time to dodge. The truck went several hundred yards before it stopped and the three occupants fled.

Japanese Ired At U.S. Cartoon Showing Emperor

WASHINGTON, Aug. 5.—Japanese Ambassador Hiroshi Saito confirmed today that he was making informal representations to the state department concerning a caricature of the Japanese emperor published in the Vanity Fair. The ambassador said he was expressing the Japanese feeling regarding the reverence the empire holds for her emperor. This will be in an effort to avoid irritations to relations in the future. The cartoon depicting the emperor, receiving the Nobel peace prize, was received in Japan with considerable feeling, due to special regard in which the ruler is held.

SALT LAKE CITY, Utah.—Police

Police radio patrolmen have varied experiences, including a call here which sent Officers G. M. Hopkins and C. W. Farnsworth hustling to a minister's home to act as witnesses for a wedding.

ROMANCE IN THE AIR

Out of the west flew Jayne Shaddock, motion picture actress, who, until her divorce a few days ago, was the wife of Jack Kirkland, the playwright. Meeting her at the Newark, N. J. airport is wealthy young Harry Topping, Jr., who, say the wisecracks, will be her next husband.

Mr. and Mrs. L. M. Cook Have A Fine Peach Orchard

One of the finest peach orchards seen in this section in a long time is owned by Mr. and Mrs. L. M. Cook on Caddo highway about three miles north of Ranger. Mr. Cook says he moved to the place in 1923 and told his wife he expected to have some peaches to sell someday. That promise has been fulfilled. There are nearly 1,000 trees in the orchard and most of them are loaded down with fruit, notwithstanding the fact that several hundred bushels have been disposed of at market prices. Mr. Cook displayed three peaches of unusual size and weight. They were of the Elberta variety and were beauties to look at. Mr. and Mrs. Cook are both past 70 and do most of the work themselves and really enjoy it. "The only thing we do not like to see is peaches going to waste, so we have three trucks that will be here this week to help us save the best peach crop that we have ever raised," Cook said.

H. H. Vaughn Acting As Night Patrolman

H. H. Vaughn, who is a member of Ranger's special police force, is working regularly on the night shift, relieving Bill Angus, regular patrolman. Chief of Police Jim Ingram stated today that Vaughn would substitute for Angus for 17 days, while Angus is at the annual National Guard encampment at Paliacis.

Texas' New Laws Which Go Into Effect on Aug. 10 Are Outlined In Series of Austin Dispatches

Editor's Note: This is the third of a series of articles on the new Texas laws which become effective Aug. 10, 90 days after adjournment of the 44th legislature. AUSTIN.—Farmers who let their livestock graze along the highways of Texas will soon be required to pay up to \$200 a day for the privilege. Previous attempts to keep cows, horses, hogs and other stock off designated state roads had failed, so the 44th Texas legislature decreed that after Aug. 10 fines of \$200 or less would be levied against the owners. State highway Chief L. G. Phares has ordered patrolmen to "crack down" on violators when the new law becomes effective. Another law affecting highway travel which aroused great popular feeling is that permitting the state

TWO MEXICANS ARE CHARGED WITH ASSAULT

Angelo Romero, Mexican, was in the Ranger city jail this morning, charged with assault with intent to murder, and Amdo Moreno was in the West Texas Clinic and Hospital suffering with gunshot wounds as the result of a fight at a Mexican dance Saturday night. Moreno was also charged with assault to murder. Charges against the two were filed by Chief of Police Jim Ingram in justice of the peace court before J. N. McFatter, and both are to be turned over to county officers.

Two different versions of the shooting scrape were told, one by one of the participants and the other by witnesses. Romero said that Moreno started shooting and he took the pistol from Moreno, shot him once in the face and then beat him over the head with the pistol, according to the chief of police. Witnesses, however, told the chief a different story, stating that both Mexicans were shooting. Only one gun was found, however.

Don Parker Named As County Auditor

Don D. Parker, who has been serving as county auditor, filling the unexpired term of the late W. S. Michael, has been named for the two-year period beginning Aug. 20. The appointment was made by District Judges B. W. Patterson and George L. Davenport, record on file in district clerk's office showed Monday. Parker, who has worked in the county auditor's department for many years, was named chief when W. S. Michael was killed in an automobile accident near Cisco, July, 1934.

Hot Check Gang Reported Here

Word has been received here that a gang of hot check passers was operating in this section and the merchants were warned to be on the lookout for them. According to the information received the gang has checks similar to those used by oil companies. The checks are filled out for amounts ranging around \$65 and cash them in stores where they make purchases, taking the remainder in change.

Butchers Alarmed Over Meat Buyers Strike at Detroit

DETROIT, Aug. 5.—With almost 400 butcher shops closed through a strike of housewives, dealers planned to meet tonight in an attempt to avert "almost certain ruin." They seek conferences with the leaders of the strike after riots in which strikers were injured.

German Drive On "Undesirables" Is Indicated Today

BERLIN, Aug. 5.—War on three selected fronts against the undesirables among some 22,000,000 people, was indicated today as the immediate aim of Nazis in the fight to "totalize" Germany. Official pronouncement which has succeeded the unofficial outbursts of recent weeks against "enemies of the state" were summed up in a talk with Dr. Paul Goebbels, minister of propaganda, made to a mass meeting of Nazis yesterday. Jews, Roman Catholics and members of the Steel Helmet organization were picked by Goebbels as the first targets.

Governor Commutes A Death Sentence

AUSTIN, Aug. 5.—Taking the roll of the thirteenth juror, Gov. James Allred today commuted to life in prison the death sentence of Hugh McCann and asked his successors in office not to extend additional clemency. McCann was to be electrocuted Aug. 31 for killing Mrs. Lillian Davis at Temple, Sept. 19, 1934. While he found no justification for what he termed a "terrible murder" the governor said it was doubtful if McCann was in possession of his full faculties at the time.

Grandson Shares Rogers' Millions

Peter Salm, (above), grandson of the late Col. H. H. Rogers, was made a very rich boy by the oil magnate's will which bequeathed to him a one-third interest in an estate worth many millions.

ETHIOPIA IS THANKFUL FOR LEAGUE PLANS

GENEVA, Aug. 5.—Emperor Haile Selassie of Ethiopia telegraphed the League of Nations today expressing Ethiopia's intentions of reaching a peaceful solution of the dispute with Italy. The emperor's telegram said: "Please thank the members of the council for efforts to arrive at the council resolution. The imperial government repeats Ethiopia is resolved to reach an equitable and peaceful solution. It is hoped the league will be successful in maintaining peace." League officials regarded the telegram hopeful, since in "thanking the members of the council" it applied thanks to Italy, which is a member and did not vote against the resolution passed Saturday.

Two Negroes Are Lynched By Mob

PITTSBORO, Miss., Aug. 5.—A mob took two negroes from the county jail late last night and early today lynched one of them, and possibly the other one, it was learned today. The two negroes, the identity of one unknown, were accused of attempting to assault a young white woman. One was taken from the jail about 11 p. m. by the mob and hanged from the bridge a mile south of Calhoun City. The mob returned for the other negro about 2 a. m. and officers have not been able to locate him.

INMATE FROM ASYLUM TELLS OF A MURDER

KANSAS CITY, Aug. 5.—A former inmate of an insane asylum confessed he stomped Dr. Paul Rogers, dentist, to death. The confessed slayer, Clarence Edwards, who lives near Smithville, Mo., did not resist arrest at his farm home. Later at police headquarters he re-enacted the stomping, rattling the floor with the force of his jumping. The dentist's crushed body was found Sunday beside a Missouri river bottom road near Wellborn, Kansas. Heel marks were on his shirt and several ribs fractured. One pierced his heart. Edwards, 35, told officers he hit Rogers several times after the murder, reached for a heavy glass mug during an altercation.

Rehabilitation of Rural Districts Is Expected to Start

WASHINGTON, Aug. 5.—Rexford Turwell swung today into his \$500,000,000 program to rehabilitate rural America. He applied for \$10,500,000 to set up eight projects in seven states, converting some 750,000 acres of poor farm lands into public forests. The projects to be established in Connecticut, Georgia, Illinois, Indiana, Minnesota, Mississippi and New York, will give employment to 6,731 persons on relief rolls.

NOW GOES TO SENATE WHERE IT MAY PASS

House Voted 282 To 96 For The Measure After Killing Substitutes.

WASHINGTON, Aug. 5.—The house, by a one-sided vote, today approved the \$250,000,000 tax-the-rich bill, designed to carry out President Roosevelt's program against "unjust concentration of wealth and economic power." The vote was announced as 282 to 96. Just before the final roll call, the house rejected a republican motion to kill the bill by sending it back to committee. As the bill now goes to the senate it forces the onus of adjournment on that body. Leaders considered the bill the main barrier in the way of adjournment by August 25. Formal house passage was delayed until today under an agreement with republicans. The house, Friday and Saturday knocked down scores of amendments offered as share-the-wealth plans. The bill provides for inheritance and new gift taxes, raises personal income taxes of persons making over \$50,000 a year, imposes new gift taxes, high excess profits taxes and new graduated corporation tax with a penalty on "bigness."

Last Rites For Mrs. R. H. Bundick Held On Monday

Funeral services for Mrs. Esta Bundick, 80, pioneer resident of Ranger, were conducted from the First Baptist church of Ranger Monday afternoon with Rev. G. W. Thomas conducting the services, assisted by other pastors of the town. She died in a Ranger hospital after several days illness. The decedent was born in Gonzales on April 27, 1865, and was married to R. H. Bundick in 1888, and in 1906 moved to Ranger, where they settled in their present home. The decedent is survived by her husband, who is well known and respected throughout this section, one son, Otto of Ranger, and one step-son, R. H. Bundick, Jr. Other surviving relatives include two brothers, J. E. Hargis of San Antonio and T. E. Hargis of Bixbee, Ariz. Interment will be in the Evergreen cemetery following the services at the church.

Eastland Man Is Charged With a Liquor Law Violation

Charged in two complaints in connection with alleged possession of liquor, Pete Theous, operator of the Little Queen cafe in Eastland, made \$1,000 bond in each case, Milton Newman, justice of the peace, stated Monday. Complaints charged possession of liquor at the Eastland man's business and residence, Steele Hill, deputy sheriff, was complainant. Named as witnesses were Robert Ball and Bill Mend, Eastland police, and E. L. Woods, deputy sheriff.

Death of Charles Rosner, Widely Known Business Man

Charles Rosner was one of the outstanding business men of Austin. He died in the city of New York Monday. He was found dead in bed in his hotel room where he had gone with managers of his Austin and Taylor stores on a buying trip. He left Austin Saturday with the manager of the Rosner department store here and the manager of the Rosner store at Taylor. His son was already in New York City, having gone there about two weeks ago. According to press dispatches, he was a victim of heart disease.

Mr. Rosner had a long and interesting career. For more than a third of a century he had been a leading figure in the business life of Central Texas. He had engaged in the retail clothing business here for 35 years. And since June, 1931, he had operated a department store at Taylor. He was a director in two Austin financial institutions—the American National Bank and the Security Trust company and was interested in other Central Texas enterprises of a financial nature. He was identified with commercial organizations of the city, active in civic progress and thoroughly identified with all movements for the advancement of his people, liberal contributor to all charities and held in high esteem by a large circle of friends. He had been a citizen of the United States for 50 years—a loyal and most worthy citizen. He began at the bottom rung of the ladder and fought his way to the top. He was self-made and proud of it and ever loyal to the flag of his adopted country, a devoted husband and father and a square dealer as he saw life and living in this vale of tears.

Refusal to Work Means 'Off the Relief Rolls of the State'

Harry L. Hopkins is the federal relief administrator. He was interviewed and very promptly said that removal of families from the relief rolls was up to the state administrators. In other words, he is backing the administrators of the wheat belt states in their orders to cut from the rolls persons who refuse to accept jobs in the harvest fields. His words: "It is the policy of the administration to back state administrators, not only in this instance but in all instances where persons refuse to accept jobs in removing them from the relief rolls."

Nineteen thousand families were removed from the relief rolls in the state of South Dakota. This is their grievance! Wheat farmers are willing to feed and house them until the grain has been harvested and marketed and in financial condition to meet all demands for wage payments. They are to be fed and housed. They are to be given employment, and when the cash returns are in they are to be reimbursed and given every cent that is due them.

The men who have forged ahead and made a success of their own business concerns are putting in the same hard work towards the upbuilding of your city. Help them!

"The people who are seeking real values in service or merchandise read the newspaper advertisements before they buy."

THE SCENES IN WASHINGTON WITH RODNEY DUTCHER

The Washington column is written today by Willis Thornton, NEA Service staff correspondent, who will "pinch hit" for a short interval for Rodney Dutcher.

BY WILLIS THORNTON
NEA Service Staff Correspondent
WASHINGTON — Federal Public Works Project No. 634 is getting much attention. But as it is considerably more than just another public works job, perhaps it's worth while to go into it a little.

It's at the White House. And it has caused the whole north grounds (the lawn facing Pennsylvania avenue that you usually see on the postcards) to be shut off from auto traffic for the first time since President Wilson was ill.

You don't see much of this repair job from the street, for a district growth-pattern fence hides it except for the tops of concrete mixers and a tow stick of scaffolding.

Behind that fence, however, are great goings-on. A pit-like excavation, boarded up, has been sunk beneath the famous portico and driveway. And into this will eventually go a modern kitchen plant that will be almost like that of a small hotel.

Most of last winter was spent in modernizing and enlarging the business quarters of the White House. Now the domestic end gets its turn. The original White House cooking arrangements were the simplest with cranes and spits typical of the period.

Naturally they've been improved since, but never completely revamped as a unit.

after a short "on-the-record" stay at Campobello, is taking a personal interest in revamping the culinary arrangements of the White House. And meanwhile the family has to use the side doors.

Secretary Perkins works for shorter hours for labor, but she works long hours doing it. She's asking that the air-cooling apparatus in her department be kept going until 8 instead of 1 p. m.

SENATOR GEORGE NORRIS' vitality at 74 amazes his friends. The night of the recent Huey Long filibuster Norris stayed up all night and showed up at his office soon after dawn for a day's work. He had neither been home nor changed his clothes. Got about an hour's snooze in the senate cloak-room, and was chipper as you please.

INNOCENT bystanders, members of the diplomatic corps have been caught in the prolonged session of Congress. They usually duck out of town as soon as the hot weather comes along. But they can't leave while Congress is in session and anything might break at any time.

Incidentally there's nothing in the talk that so many members of Congress are leaving town in spite of the session that there will soon be difficulty in rallying a quorum. It is true, however, that the "better half" of Washington officialdom has been sadly depleted by wives who decided that hobbies could stay and sweat it out, but not they.

Farm Systems To End Floods

WASHINGTON—Floods such as recently paralyzed farming in the middle West can be reduced by a thorough application of erosion control measures, according to H. H. Bennett, Department of Agriculture chief of the soil conservation service.

Bennett, a department report said, drew his conclusion from reports submitted to him by regional directors of the agency in Kansas, Nebraska and Colorado—the states most affected by the floods.

A. E. McClymonds, Colorado Springs, advised Bennett that "proper erosion control measures and a well-balanced farm management program would prevent a repetition of the recent flood."

He explained that terraces, conservation reservoirs and contour cultivation between the drainage area and water courses would reduce run-off by more than one-fourth in torrential storms and would completely control the run-off in ordinary storms.

Regional Director F. L. Duley, reporting from Mankato, Kan., said that "if the whole basin were treated we could keep enough of the water out of the stream so that the flood stage would seldom be reached."

The "elimination of over-grazing" was emphasized in the report of R. L. von T'reba from Nebraska. All three directors reported the department said, that the region presented "ideal conditions for a flood," because the drought of the past few years had depleted vast areas of vegetation which formerly helped to hold rainfall in the soil.

All three directors reported the department said, that the region presented "ideal conditions for a flood," because the drought of the past few years had depleted vast areas of vegetation which formerly helped to hold rainfall in the soil.

Boy Scouts Plan Valley Menagerie

MERCEDES, Texas.—Mexican burros, armadillos, javalinas, or wild hogs, and other native animals will constitute the menagerie which Lower Rio Grande valley Boy Scouts plan to take to Washington to the National Boy Scout Jubilee Jamboree, Valley Scout Executive John Leslie said today.

A virtual replica of the summer camp at Camp Perry, near Rio Hondo, will be set up in the national capital and in addition, the valley scouts will construct a complete Mexican village, surrounded by a bamboo fence. Materials for the construction will be taken to Washington in a box car, Leslie said.

Food will be hauled between the two camps in a typical Mexican burro cart. The scouts will wear typical Mexican costumes and will make tortillas and black coffee to be served to visitors who come to their camp.

Regional Director F. L. Duley, reporting from Mankato, Kan., said that "if the whole basin were treated we could keep enough of the water out of the stream so that the flood stage would seldom be reached."

The "elimination of over-grazing" was emphasized in the report of R. L. von T'reba from Nebraska. All three directors reported the department said, that the region presented "ideal conditions for a flood," because the drought of the past few years had depleted vast areas of vegetation which formerly helped to hold rainfall in the soil.

S. R. Wood Company Moves Its Offices

S. R. Wood Company has moved its Maytag and Frigidaire business from the old location on Main street to the Bobo & Bobo Hardware company building at 106 Main street.

In their new location they will be in a better position to give their customers complete sales and service, it was said by S. R. Wood. Although this is a new firm in Ranger and has been operating in Eastland county only a short time it is now employing 12 salesmen, a sales manager and a service man. Three men are employed in the Ranger office and shop.

Orders have been placed for three car loads of Maytag for the fall business.

Old Fashioned Camp Meeting Planned For the Panhandle

DALHART, Texas.—Beginning Aug. 18 an old-fashioned camp meeting will be held in Nature's park, between Morse and Gruver, the first held in the North Texas Panhandle since the days of the cattle barons and the longhorns, Rev. I. D. Mitchell, pastor of the First Baptist church here said today.

Dr. L. R. Scarborough, Southwestern Baptist Theological seminary president, Fort Worth, will preach. People are being invited to come and camp, and all facilities of the park are being bought by the Baptists of the Trans-Canadian Baptist association, comprising

U. of T. Bandsmen Get New Uniforms

AUSTIN—University of Texas bandsmen who went on a strike last football season, will play "The Eyes of Texas" this fall in 90 bright new suits.

New uniforms were ordered by the school board of regents and will be of type permit ting caps to be cleaned. Burnett Pharr, veteran Texas band leader, will conduct the musical organization again this fall.

Regional Director F. L. Duley, reporting from Mankato, Kan., said that "if the whole basin were treated we could keep enough of the water out of the stream so that the flood stage would seldom be reached."

Parents Should See If Children Are Physically Fit

AUSTIN—Now is the time, according to Dr. John W. Brown, state health officer, that every parent should ask himself if his child is physically ready for school. A visit to the family physician and dentist will answer this question and give time for the correction of minor defects before time for school to open.

A child with defective vision can not be expected to do the required work in school until the handicap is removed. Infamed, watery eyes, granulated lids, chronic styes, nervous actions or habitual winking, maybe caused by defective vision and should be attended to immediately.

The far reaching effect of infected tonsils on the system has been recognized by health workers for many years. Many of the ills of later life, as heart disease, arthritis, deafness, etc., are directly traceable to tonsils that became infected during childhood and were allowed to remain untreated.

Dental defects are found in more children than any other imperfection, and for this reason children should be taken regularly to the dentist for examination and cleaning of the teeth. This precaution keeps the mouth clean and makes it possible to discover dental defects as soon as they appear.

Postural defects appear in the life of a child much sooner than we formerly suspected. Have your family physician see if your child's shoulder blades project and if his arches are low. Simple exercises, diligently adhered to, when the child is young, will prevent later serious developments in many cases.

Business Man To Get An Award

NEW YORK.—Announcement of an annual award "for achievement in industrial administration" is made by Fortune Magazine in its August number.

The conditions of the award are: "The editors each January will select from among those charged with the administration of American industries, small as well as large, the name of the individual whose achievement as an administrator during the preceding year seems to them most worthy of praise. To that individual Fortune will award \$1,000 in cash and an appropriate certificate."

The editors express the opinion "that an industrial administration in an industrial society is as fully, if less formally, charged with a public interest as was political administration in a political society."

"Industrial administration," the announcement said, "has contemporary industry understands the term, is as much an art as politics is an art" and "industrial administration in the modern world attracts very much the same kind of energy, intelligence and ambition as was attracted by the art of politics in the politically minded world of the 18th Century."
