RANGER, TEXAS, THURSDAY EVENING, SEPTEMBER 12, 1935

PRICE TWO CENTS

No. 88

If Ethiopia decides to send Harlem's "Black Eagle" back to this country, he might make a good mascot for the "little NRA" of the coal industry.

## Netherlands Urges Penalties For Aggressor

### OBLIGATIONS TO BE FILLED SHE DECLARES

"Conscience of the League" Wants Penalties for Aggressor Nations.

GENEVA, Sept. 12.—The Netherlands' first spokesman for the countries called "the conscience of the league" announced today it would fulfill all obligations including collective penalties in event any member became a victim of aggression.

Sweden came to the Netherlands' support with the statement the league could not take decisions contrary to justice under pressure of force or military measures.

They were the first to back Great Britain in leadership in demand of "collective maintenance of the league covenant in its entirety and particularly for steady collective resistance to any and all acts of aggression."

The Netherlands, aside from being a power in Western Europe, is one of the "conscience nations." Others are Spain, Norway, Sweden and Denmark. Finland has voted to support the league with the Scandinavian countries.

The nations are called the league's conscience because when the others suggest compromise with the basic principles of the league, they insist on enforcement in the spirit and letter.

### Deep-Test Looms on DeLafosse As Humble Buys Land

BRECKENRIDGE, Sept. 12.—Another test for oil on the George DeLafosse ranch, which may open a large new producing territory, now looms, it was said today.

Pitzer & West of Breckenridge, have sold to the Humble an undivided half interest in their lease of 3,400 acres on that ranch, the properties lying at the west edge of the county line, and a new test will be started after Pitzer & West got what appeared to be a 300-barrel well in a first attempt for production, the hole being ruined by a premature blast of nitrogen.

It was said today by C. K. West when questioned about the reported deal, that it has been closed, subject to examination of title.

Such a deal would bring into the play there one of the leaders of major oil companies, and should a producer be brought in it will renew oil interests in this section for years to come.

It was said today that under normal procedure in such a deal that drilling of a new hole will start about a month. Pitzer & West recently sunk a hole to 4,460 feet where pay was encountered in the Ellenberger lime. They will drill the new test.

With pay in the Ellenberger lime, Breckenridge would not only be furnished a large new area for production, but a new producing horizon. Success in the second test there will mean exploration in other sections for pay at that lower depth.

The purchase of half interest and the starting of a new hole on the DeLafosse ranch indicates judgment that oil in paying quantities is there both by a company that met with hard luck, once before, and the largest Standard subsidiary in Texas. It costs about \$25,000 to sink a hole to the pay sand encountered.

### Release Man Held For Shooting Son

An Eastland man held for over 24 hours following the admitted shooting of his son, whom he said he thought was an intruder, was released from the county jail Wednesday. No charges were filed.

The youth was shot through the hip with a .38 caliber pistol. The shooting occurred Tuesday night. An investigation by the grand jury is likely. District Attorney Grady Owen stated.

### Adult School to Be Reopened Soon

The school board has been authorized to conduct the Federal adult school for this year, having been officially authorized by E. K. Tremble and W. H. Seale of the Eastland county relief office.

All former teachers are asked to meet at high school Friday afternoon at 4:30 o'clock for an important business along the line of the school.

Those having already been approved are: Roy Holliday, Mrs. Corinne Roundtree and J. F. Connel, and colored, Christine Small.

### Army Worms Delay New Mexico Trains

MOUNTAINAIR, N. M.—Trains in this section frequently are thrown off schedule in the winter time because of snow storms, but railroads have just discovered a new summer-time menace—army worms.

Dispatchers discovered that trains were having a difficult time maintaining schedules between Mountainair and Abo. They investigated and found that the trouble was worms.

The worms, which literally covered the ground in many sections, were crushed under the train wheels, making the track as slippery as if it had been soaped.

### LONG'S BURIAL SIGNAL FOR A POLITICAL BOUT

BATON ROUGE, La., Sept. 12.—The moment the body of Huey Long is lowered into its grave a bitter and protracted political war will break out.

Long's enemies and enemies of his all-powerful organization that controlled Louisiana were waiting only for his burial to open a direct frontal attack on the sub-leaders attempting to keep his dictatorship intact.

At least one anti-Long leader will issue a public statement proclaiming Dr. Carl Weiss a "patriot and martyr," the United Press was informed. Other leaders will respect the dead and aim their fire at the dictatorship and the loss of civil rights it has brought about.

Long's sub-leaders, alarmed by unmistakable indications that Long's enemies, heretofore divided among themselves, were uniting on a common front, did not wait for the funeral.

Earl Christenberry, Long's secretary, issued a statement early today enlarging on his previous charge the assassin carried out the premeditated plan of Long's enemies.

### OIL STATES IN MEETING TO FOR COMPACT

OKLAHOMA CITY, Sept. 12.—Oil states representatives meeting here to put into operation an ambitious interstate oil control scheme, were disappointed today when California was not represented.

The morning session steps in organization of an enforcement group were taken.

Gov. E. W. Marland called the conference to make effective a compact ratified by congress last month. The conferees were to appoint a chairman and name committees to carry through a program calling for control of domestic production of crude oil, elimination of water gas and oil in all fields and cooperation in determining market demand and cooperation among states in passing uniform regulatory measures.

### Elect Pastor of Strawn, Eastland Church Moderator

Rev. Charles W. Estes, pastor of the Presbyterian church in Eastland and Strawn, returned home Wednesday evening from Albany, where he was elected Moderator of the Presbytery of Abilene of the Presbyterian church.

Rev. Estes will serve for the next six months. The next regular meeting of the Presbytery will be held in April, 1936, at Snyder.

"At this meeting," said Rev. Estes, "a delegation was present representing 1400 members of the Presbyterian church in this part of Texas. Three young men have recently accepted pastorates in Texas, graduating from Princeton Seminary in New Jersey, a great added strength to the important work in this part."

"Much concern was shown in behalf of the needy fields and definite plan established to secure settled pastors for every field in the Presbytery. The Matthews Memorial Church, Albany, rendered a very great service in the manner of entertaining all delegates to this meeting. The Rev. Eugene H. Surface of Lamesa resigned to accept the position of Bible instructor in Trinity University, at Waxahatchie."

### Report \$87,000 PWA Projects Are Approved

Report of the approval of an \$87,000 permanent fair grounds project submitted to public works administration officials over a year ago were being investigated by H. C. Davis, Chamber of Commerce secretary, Thursday.

According to reports from what the secretary believed were reliable sources, the PWA has approved the fair grounds project, one for a county library at a cost of \$10,000, and another for a \$10,000 swimming pool.

The approval report was a surprise to the chamber secretary and others in Eastland. The projects had been submitted last year and nothing had been heard.

The fair grounds project includes plans for erection of a race track, gymnasium-auditorium, exhibition buildings and other structures.

The Chamber of Commerce last year sent representatives to Washington in behalf of the project. E. Bedford Jones drew plans for the proposed project.

The purchaser sold it to a brother for a corn cob pipe and the brother took it apart and sold it for almost enough to buy a wooden leg. Joe said all but two of the fish were spoiled and he got the worst end of the deal.

### Large Crowds Go To Long's Funeral

BATON ROUGE, La., Sept. 12.—City folk and country folk came to the capital today for the funeral of Huey P. Long.

The quiet streets were stained with the black loam of the bayou parishes of the south and the red clay of the hill parishes to the north. There were bill billies from Long's native parish and Creoles from New Orleans. Bushels of peanuts and gallons of soft drinks were dispensed along the streets.

The body of the assassinated dictator, clad in a tuxedo—a costume he rarely wore in life—lay in a plain casket in the memorial hall. Board fences guided the throngs past it in single file.

At 4 p. m. today the Rev. Gerald Smith, who gave up his pulpit to become a leader in Long's "share-the-wealth" movement, will preach the funeral eulogy. The casket will then be lowered into the hole on the capital lawn.

### Billy Cheatham Is Jacksboro Coach

Election of Billy Cheatham, son of Mr. and Mrs. J. H. Cheatham Sr., of Eastland, as head athletic coach at Jacksboro High School has been learned by friends.

Cheatham, graduate of St. Edward's University at Austin, where he was an outstanding player, was known as one of the most able ball carriers and all-around players on past Eastland High School teams.

The following will make the Mineral Wells trip and likely will see action: Centers, Hab Simmons and Roy Taylor; guards, L. A. Dolberry, Jim Taylor, Co-Captain Bob Sikes, Charley Van Geem and Andy Taylor; tackles, Ralph Greer, Jack Trantham, Evans Mitchell and Jean Gage; ends, James Hill, Co-Captain Troy Taylor, Rod Hanlin, Jack Sikes and Pete Garrison; backs, Ralph Hamilton, Cleo Key, Clyde Garrett Jr., and Harry Taylor.

Bill Shoepman and Tommie Hammond are team managers.

### BAND COMMITTEE MEETING IS POSTPONED UNTIL FRIDAY ON ACCOUNT OF LEGION MEETING

The re-organization meeting of the Ranger band committee, which was scheduled for tonight at 7:30, was postponed today by John Hassen, chairman, because of the meeting of the Carl Barnes Post of the American Legion, which is to be held tonight, and at which officers for the coming year are to be installed.

At a meeting Wednesday it was brought out that the band was in dire need of at least one bass horn, probably two, a new head for the drum major's baton and a few minor incidentals.

At that meeting it was decided that a complete inventory of the band equipment, including uniforms, music and instruments, be made out for presentation at the meeting Friday morning, and that a financial statement for the past year, including the list of those who made monthly donations, be submitted.

From these reports it was expected that ways and means for aiding in financing the band could be worked out and the materials needed could be purchased.

Two lists are to be made out by J. F. Whitefield, director of the band, and presented at the meeting. One list is to contain only those things that must be secured before the band can function as a musical organization and is to include such things as the bass horn and the drum head. The other list is to contain the items needed through the year to bring the band up to the high standard it has attained and maintained during the past few years.

With the re-organization of the committee, it was decided, a complete inventory is to be kept of all equipment and this is to be kept up to date from time to time, so that a record can be made available at all times of the disposition of equipment, music and uniforms.

Everyone in town who is interested in the band has been urged by the chairman to attend the meeting Friday morning.

### Auto Brings Almost Enough For Wooden Leg In This Deal

COMPTON LAKES, N. J., Sept. 12.—John Bongiovanni sold his auto for six fish. Today he said he got the worst of the deal.

The purchaser sold it to a brother for a corn cob pipe and the brother took it apart and sold it for almost enough to buy a wooden leg. Joe said all but two of the fish were spoiled and he got the worst end of the deal.

### IT'LL BE LIGHT MAV TEAM TO PLAY SPA CITY FRIDAY, OPPONENTS TO BE IN DARK

It will be one of the lightest teams ever bearing the colors of Eastland High School to play that will play the Mineral Wells Mountaineers Friday night at Mineral Wells.

It will be one of the most problematical type of play, too, that their opponents may expect.

This was indicated by the coach of the 140-pound average team, Johnny Kitchen, Thursday as he planned avenues of attack in the first Oil Belt Class A engagement.

Aerial play can be expected in big portions, the quiet coach indicated. "We'll throw more passes than we run," said the former pupil of Francis Schmidt, now at Ohio State.

The coach stated that the team possesses four or five passers and a like number that can receive the pigskin.

The team was due to receive rubdowns from an Eastland chiropractor Thursday afternoon. Outdoor practice has been engaged in by the team all this week. Last week blackboard drills were held in the school gymnasium.

Carl Miller, all-conference end for three years at N. T. S. T. C., is assistant coach.

The Eastland band will play at the first game of the year, G. W. Collum, director, announced Thursday. Forty members are expected to make the trip. Transportation has been arranged for 25 of the group. Collum stated, urging that all meet Friday afternoon at 4:30 on the south side of the square. The Lions Club is sponsoring transportation arrangements for the band and pep squad members.

The game has been called for 8 p. m.

The following will make the Mineral Wells trip and likely will see action: Centers, Hab Simmons and Roy Taylor; guards, L. A. Dolberry, Jim Taylor, Co-Captain Bob Sikes, Charley Van Geem and Andy Taylor; tackles, Ralph Greer, Jack Trantham, Evans Mitchell and Jean Gage; ends, James Hill, Co-Captain Troy Taylor, Rod Hanlin, Jack Sikes and Pete Garrison; backs, Ralph Hamilton, Cleo Key, Clyde Garrett Jr., and Harry Taylor.

Bill Shoepman and Tommie Hammond are team managers.

### Joins Pioneers and Relates Some Interesting Bits of Family History

The following story about one of Ranger's pioneer citizens, and a pioneer citizen of the state, is being reproduced from the Fort Worth Star-Telegram because of the interest it will have among the citizens in this part of the state:

"Mrs. F. E. Outlaw of Ranger, who came to Texas, 63 years ago and whose first married residence was a Stephens county log cabin covered with dirt, included an interesting sketch of her family history through her application to join The Star-Telegram West Texas Pioneers Association.

"My grandfather, Robert M. Echols, was Senator from Walton county, Georgia, and was president of the Senate 10 years. He then was made a general and sent to war with Mexico and was thrown from a horse and killed. His body was placed in a metallic coffin and buried in one of Santa Anna's haciendas under a rosewood tree.

"After the war his body was exhumed and sent back to Georgia. I received letters about him from different parts of Texas, and one from Oklahoma, a Hill County woman telling of having been at the ceremony when his body was brought home. Another letter was from an old man named Mason who lived at Big Spring, who said that when he was a boy he was my grandfather's page.

"Another letter was from an old man in West Texas, who said that after the war someone cut a limb from that rosewood tree and made a walking stick and gave instructions that it be sent to an heir of Gen. Robert M. Echols. I went and got it and it now hangs in my clothes closet.

"Eliel Melton, one of the martyrs whose name is engraved on the walls of the Alamo, was my grandmother's brother.

"My father was Capt. Troup Scott, a captain during the Civil War. He died after the memorable march to try to head off Sherman's army from Atlanta. He was sent home but lived for only a day or two, and my mother was left with five children and with everything gone. It has been about 63 years since we came to Texas. We spent one year in Rusk County and spent many happy years there in the old "Sand Flat" neighborhood, a few miles from Cleburne. Later we moved to Stephens county."

"Mrs. Outlaw then tells of her marriage to George Outlaw, a "Western cowboy who lived at Old Phantom Hill." They settled in Stephens County, their first home being a little log cabin covered with dirt. They soon built a home and Outlaw became a farmer. Later they moved to Breckenridge, then to Ranger and later to Sweetwater, where Outlaw died. Mrs. Outlaw then "came back to the old home and took up life again alone."

"Mrs. Outlaw concludes with the statement that "I would love to get a letter from every old friend I ever knew, if they have not all crossed over the river."

### Union School Will Open Next Monday

The Union school will begin its year's program next Monday, Sept. 16, at 9 o'clock.

The presence of the patrons is earnestly desired by the principal and teachers, as the teachers will have a few words to say regarding the procedure and the year's program.

"We wish each and every patron to possess the attitude that the school is theirs," Roy Holliday, principal of the school said, "and that we, as teachers, are but servants who desire to serve your best interests.

Let us all realize that it is not the outward appearance of the house that we live in that characterizes high and noble ideals, but it is the quality of real living in the house which promulgates those standards which elevate and promote worthwhile human activities.

"Let us all co-operate to make this school year a great success."

### Rio Grande Flood Passes Into Gulf

BROWNSVILLE, Sept. 12.—Six hundred men patrolled levees of the Rio Grande today as a precaution although assurance was given the worst of the flood had passed into the Gulf of Mexico.

Levees were holding and the floodwaters were confined by secondary levees. The citrus area of the valley was believed in no further danger.

### Demonstration of Hanging Realistic

NEW YORK, Sept. 12.—John Zargone, 12, mounted a box and put his neck in a belt moose to show two brothers how a man is hanged.

But the box collapsed and John soon ceased being amusing to the audience, four and two, and they walked out of the garage. His parents found John dead.

### Beer Election Vote Result Canvassed

Canvass of votes by the commissioners' court this week of the recent beer election in Justice Precinct 2 as follows: Precinct 2—26 for, 10 against. Precinct 1—26 for, 13 against.

### Monroe Sweeney Is Wanting to Work In Ball Games Here

Letters have been received in Ranger from Monroe Sweeney, who is well known throughout the Oil Belt as a football official, stating that he would like to work in some of the Ranger games.

Sweeney stated in his letter that he and Buster Mills would likely return to Ranger together at the end of the baseball season in the East, where Mills is a player and Sweeney an umpire.

Sweeney, according to the letter, is to referee a game in Abilene on the night of Sept. 20 and is booked for Thanksgiving Day, but would like to be able to officiate in the Cleburne-Ranger game on Oct. 12.

He says that he likes Oil Belt football, and in fact, likes to live in the Oil Belt.

### Lions Club Has a Perfect Attendance At Today's Meeting

A 100 per cent attendance was noted at the Lions club meeting at noon today, when all 24 of the members were present for the regular luncheon.

A. N. Larson, who had charge of the program, presented Mr. and Mrs. Lamance as the musical part of the program. Mr. Lamance sang "My Texas" and "River Stay Away from My Door," accompanied on the piano by Mrs. Lamance.

L. R. Pearson made a very interesting talk on the industrial, economic and political aspects in Cuba, as he observed them on his recent trip to that country.

After the program A. N. Larson made a report on the swimming pool project of the club and it was voted that a written suggestion for a project should be turned in for the next meeting, which will be next Thursday.

A committee composed of Col. Braisher, R. V. Galloway and A. N. Larson was appointed to write a letter from the club to Congressman Thomas L. Blanton concerning the prospects of a post office building for Ranger.

### Laura Ingalls Off On Record Flight

LOS ANGELES, Sept. 12.—Laura Ingalls, curly headed distance flier, sent her plane rocketing east today toward New York on the trail of Amelia Earhart's non-stop record for women.

The plane lifted into the dawn from the Union Air Terminal runway at 5:44 a. m. PST. To lower Miss Earhart's mark Miss Ingalls must land in New York in less than 17 hours and five minutes elapsed time.

### UTILITY BILL WILL BE GIVEN SEVERE TESTS

NEW YORK, Sept. 12.—Terminating the recently enacted utility legislation "an attempt to advance a theory of state socialism already proved inimical to the right of American people" the Edison electric institute, representing the nation's greatest utility, today retained counsel to test constitutionality of the new deal control measure.

John W. Davis, one time democratic presidential nominee, Newton Baker, former secretary of war, James Beck, former solicitor general of the United States were the lawyers retained and they will carry the fight to the supreme court.

They will contest the legality of the Wheeler-Rayburn bill, a portion of the national recovery act, despite efforts to meet objections, they were unable to do so, maturing loans.

### Great Railroad Holdings Will Be Sold at Auction

NEW YORK, Sept. 12.—Control of the great financial dynasty led by the Van Sweringen brothers of Cleveland—a network of railroads, real estate and industrial holdings valued at more than \$200,000,000—will be sold today by J. P. Morgan & Co. in a sale, unprecedented in scope since financial history, will dispose of such railroads as the Erie and Ohio, the Erie, the Erie and Eastern Illinois, the Erie and Pacific, the Nickel Plate, and the Erie and International at Northern.

Since 1929, the Van court empire slipped out of the hands of the brothers last May, despite efforts to meet objections, they were unable to do so, maturing loans.

### ARE HELD AFTER A GIRL FOUND SHOT

CHESTER, Pa., Sept. 12.—Henry Rogers, Jr., 34, son of New York oil millionaire, was questioned in connection with the death of Evelyn Hoy, young musical comedy star. Hoy was shot to death in a room. She had been found on the right temple.

Advisory Board of Texas Youth Administration

Lyndon Johnson is naturally proud of the advisory board organized for the Texas unit of the National Youth Administration. Young men have been picked, and men who are interested in education and the welfare of those who have their lives ahead of them.

A. J. Wirtz of Austin, formerly a member of the legislature, is one of those who was chosen.

Miller Ainsworth of Gonzales, state commander of the American Legion under whose leadership much work was done for the youth of Texas, is another.

Joseph S. Meyers of Houston, spokesman for organized labor many years, and now a member of the United States conciliation service is another.

H. I. Lutchter Stark, widely known for his and his family's benefactions to the University of Texas, and for his intense interest in the welfare of young men and women, was invited to serve.

D. H. Perry of Robstown, director of the American National Cotton Cooperative association, who is particularly concerned with the Future Farmers of America, was enlisted.

There is Beauford Jester, another University of Texas leader, former chairman of the board of regents, whose interest in youth is respected throughout the state.

Sid Kyle of Pecos, an A. and M. College graduate, is another member of the board. He is a West Texas rancher, and can bring another land-holder viewpoint of youth to the board.

R. E. Anderson of Godley, state tax commissioner, at 24 is one of the foremost young men of Texas. He is on the board, too.

Wallace C. Reilly of Dallas, secretary of the Texas State Federation of Labor, completes the panel. He is a member of the state apprentice committee, which is concerned with finding a place for youth in industry.

This is the group which Mr. Johnson has enlisted to advise with his office on the Texas program. A group of wide interest and much experience, and Mr. Johnson will doubtless find its counsels profitable.

Planning More and Better Libraries for Texas

Texas libraries, if they remain inadequate, are poorly equipped laboratories for future generations. Some time ago a Berlin newspaper carried a story concerning the physical under-development of German youth. That girl models in Germany are flat-chested, round-shouldered and otherwise poorly proportioned was attributed to under-nourishment during the war period. This may describe, too, the mental undernourishment of our own boys and girls 15 or 20 years hence.

In the last few years schools and libraries have been cut to the breaking point. There have been no funds to provide adequately for educating the "child of the depression." Yet we expect him to grow up to run our businesses and our government. If his childhood equipment determines his strength of character, his ability to direct, to cope with social problems, his heritage is a lean one.

Three-fifths of the people of Texas are entirely without library service. The remainder are served by libraries that are showing little, if any, improvement in service. Many tax paying citizens never go beyond grammar or high school. For these, the state provides no further education. Libraries must, and can provide additional information necessary to successful living. The idea is taking root that schools are laboratories for teaching the students how to educate themselves. If this is so there must be some provision for further education after school days end. The free public library must be developed and strengthened for new demands placed upon it.

Librarians and friends of libraries, realizing the acute necessity for more and better libraries in Texas, and finding that systematic approach is the quickest way to achievement, have outlined a program of "Library Planning." If successfully carried out this program should eventually link the whole of Texas in a network of free public libraries. A committee of librarians and library trustees carefully devised a plan which was approved and launched by the Texas Library Association last Spring.

Extent to which the plan can function will depend largely upon the support and encouragement given it by the citizens of Texas. This state must do much before its educational facilities can rank with the best in the United States. But nothing can be conquered by despair. Texas libraries, at least, can be improved if the support of the people can be relied upon.

A film magnate admits he makes more money than a banker, but points out that "bankers can't make movies." Haven't they already enough to answer for?

After that tragic Italian flood and waterspout, Il Duce continues to be held up by Ethiopian rains. It's a wonder he washes in the treacherous stuff.

Nudists hold congress in New Jersey. It probably was difficult to gauge the popularity of various proposals, mosquitoes undoubtedly being responsible for much of the applause.

THIS CURIOUS WORLD By William Ferguson

The SUN is APPARENTLY THE LARGEST AND BRIGHTEST OF ALL STARS, ACTUALLY IS ONE OF THE SMALLEST OF ALL THE STARS THAT ARE VISIBLE TO THE NAKED EYE.

THE OFFICIAL NAME OF THE CAPITAL OF THE UNITED STATES IS "THE CITY OF WASHINGTON."

THE SUN is a dwarf star, although it has a mass amounting to about 332,000 times that of the earth. The sun's diameter is about 864,000 miles, or 110 times that of the earth. Its average density is only one-fourth that of the earth. Gravity is so great there that an ordinary man would weigh two tons.

Day Of Stages Is Recalled In Texas. FORT DAVIS, Texas.—Days of the old stage coach drivers in Texas who came through this state on their way to the West Coast, were vividly brought to mind recently when a bronze plaque in their honor was unveiled on the highway near here.

By HARRY GRAYSON

ANNAPOLIS — William and Mary will have an exceptionally strong football team this fall. Don't overlook the old couple in making your prognostications. Yale will be better than last year, when it was good enough to upset Princeton.

"Why Bobbie, what did you do to that blouse?"

Yes, Bobbie's clothes are pretty much hors de combat. So are Elinor's. But remember, Mother, it's been a strenuous summer. And, anyhow, you wouldn't exchange those coats of healthful tan they're wearing for many times the cost of the clothes they've romped into tatters.

**Those present were Misses E. R. Green, Troy Grubbs, W. W. Jarvis, Brown Bradley, O. G. Lanier, Joe Thompson, and pleasant hostess, Mrs. D. W. Nichol.**

**MANY NEVER SUSPECT CAUSE OF BACKACHES**  
This Old Treatment Often Brings Happy Relief Of Pain  
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are one of Nature's chief ways of taking the acids and waste out of the blood. If they don't pass 3 pints a day and so get rid of more than 3 pounds of waste matter, your 15 miles of kidney tubes may need flushing.

If you have trouble with frequent bladder passages with scanty amount which often smart and burn, the 11 miles of kidney tubes may need flushing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes and dizziness.

Don't wait for serious trouble. Ask your druggist for DOAN'S PILLS, which have been used successfully for over 40 years by millions of people. They give happy relief and will help flush out the 15 miles of kidney tubes. Get DOAN'S PILLS.

**ED L. KEEN**  
European vice-president of the United Press, is a veteran of many wars. He was a war correspondent in the Philippines during the Spanish-American War and directed the corps of United Press correspondents during the World War. Keen is in London where he will co-ordinate United Press coverage in event of war.

**EDWARD W. BEATTIE**  
Beattie was sent from Berlin to Abilene by airplane and was the first indication of trouble. He was the first American press correspondent to take up the fight with Emperor Haile Selassie. He will be with the Emperor through the event of war.

# Preparedness

The eyes of the whole world are watching the dispute between Italy and Ethiopia.

Will Europe's diplomats prevent war between Premier Mussolini's blackshirts and Emperor Haile Selassie's troops?

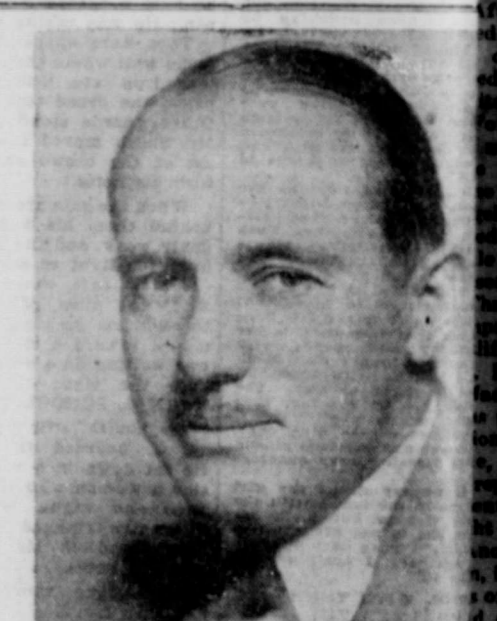

What is behind the diplomatic moves and counter moves? — the flood of statements from European nations? — the secret sessions of statesmen in nearly every European capital?

United Press is covering this story conspicuously with its traditional *accuracy and speed*.

Trained United Press writers have been assigned to all key news sources in the controversy. They sift fact from rumor. The result is a news report that is building reader confidence.

That is preparedness. Follow their articles in *this newspaper*.

# UNITED PRESS

**WEBB MILLER**  
General European News manager of the United Press in Mexico, was one of the first American newspapermen to reach the front in the World War, and at the front with the Italian troops in the event of a European war.

**STEWART BROWN**  
Brown, white-known League of Nations expert, reports the diplomatic and war activities in the League of Nations.
