A Dictator Leads, But People Push Him On

Reading about the cheers that greet Mussolini every time he makes a speech to his constituents, and the acclaim with which Hitler's public appearances are greeted, one is forced to admit that the dictators are not the only people who want war these days.

The people themselves seem to want it. They are in fact, rarin' to go. Italian soldiers leave for Africa with laughter and shouts, chock to the guards with morale—which is an army man's way of saying that they are eager for a fuss.

Germans look fondly on their new fighting equipment; Japanese continue to give their militarists a deep and unshaken loyalty.

And although we are fond of saying that wars are made by selfish men who have life-sized axes to grind, it must be admitted that the common people have a way of taking the bit in their teeth and dashing enthusiastically toward the abyss.

Indeed, they often outrun the dictators themselves. It is quite possible, for instance, that Mussolini would accept a compromise solution of the Ethiopian crisis if it were not for Italian public sentiment. His people have their mouths fixed for a war; it's up to Il Duce to give it to them.

All this represents one of the queerest and most tragic perversions of human behavior that you could possibly imagine.

The human race has managed to get itself into a very dark sort of blind alley. The social and economic system that seemed to be working so well a decade or two ago has bogged down somehow, and getting it started again is taking a painfully long time.

It is easy to get the feeling that we are simply marking time, that we are more or less helpless in the grip of forces we cannot control—and the strain is very great.

What a dictator, or a militaristic government, does is to take this widespread human impatience, intensify it, and focus it on some external foe.

The citizen of a nation which is eagerly preparing for war no longer feels that he is marking time or that his country is helplessly waiting for the inscrutable currents of economics to straighten themselves out. He has a definite, clearly visible goal to look at, a tangible enemy to face.

In other words, once he is persuaded to look ahead to war, he can stop worrying. Times may be hard, but he can tell himself that as soon as the war has been fought and won everything will be lovely.

He does not have to plague himself wondering how consumption can be adjusted to production, how the unemployed can be put back to work, or how the budget can be balanced.

It is the dictator's job to set his people feeling this way. Once he has done that, he need not worry about how he can lead them into war—they will lead him into it.

All he needs to do is to invent an external problem to take their minds off their real problems at home.

Wilmer Allison at the Peak

Whatever disappointment some of us felt at the defeat of Wilmer Allison in the Davis Cup tennis matches must be assuaged by his brilliant victory over the mighty Fred Perry at the Forrest Hills national singles play. Perry had been regarded as the most probable winner of the championship, and his defeat completely upset the plans of the gate-watching managers of the sporting event.

From the beginning, the program had been arranged that Perry and Donald Budge, the California sensation, who played with Allison in the Davis Cup singles matches, should meet in the finals. This was designed to fill the Forrest Hills cub coffers, we must presume, since Budge was assigned the place usually given the No. 1 ranking American. Perry got the place customary for the No. 1 foreigner, and Allison, who was the American top player, took pot-luck in the bracket with the Englishman.

But neither Perry nor Budge could reach the final round, and Allison defeated Sidney Wood for the American championship. The victory for Allison cinched for him the No. 1 American ranking again.

The Slaughter Goes On

It is an appalling thing to reflect that automobile traffic killed no fewer than 2,670 men, women, and children in one month in the United States; and it is hard to believe (though gratifying enough, once believed) that this shocking figure actually represents a substantial improvement over July of last year, when 3110 deaths were recorded.

Just why a nation which is supposed to be so clever at handling mechanical appliances should go on killing people with automobiles at such an astounding rate is one of the mysteries of the age. The one ray of light seems to be the fact that in some states, at least, the situation is improving slightly.

Twenty-one states, to be exact, have recorded fewer traffic deaths this year than during the same period of 1934. As far as it goes, that is excellent news; but we won't be able to crow until all the states over a period of years, have shown a steady decline in the dreadful toll.

'But, O For the Touch of a Vanished Hand'

BEHIND THE SCENES IN WASHINGTON WITH RODNEY DUTCHER

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON—Further notes on lobbying: The "power trust" lobby, which for years has spent more money and hired more lobbyists than any other, probably will join the prohibition lobby as a has-been. Its devious, secretive methods are blocked by a provision in the utility holding company act forbidding anyone paid by a holding company or subsidiary from lobbying without publicly registering with the SEC.

You can get a rough idea how many resident lobbyists there are here by counting some 2500 lawyers and law firms in the city telephone directory. Several hundred other lobbyists don't profess to be lawyers. Nobody knows how many, among those who do, ever passed bar exams. Sometimes lobbyists start with an ace in the hole. A congressman who voted against the "death sentence" tells me he made a survey among colleagues who did likewise and found about 85 per cent of them either owned holding company securities or had members of their immediate families who owned some.

ONE of the most recent officials to resign and join the brotherhood is former Assistant Attorney General William Stanley, who has established law practice and has been representing certain financing companies which want more out of the Federal Housing Administration set-up than they've been getting.

Some congressmen insist on putting themselves under obligation to lobbyists. Millard of New York, who recently was yelling so loudly about the Jim Farley stamp scandal, requested the

United Drydock Co. to give some of its sheet metal work to a New York man. A company official sent an inter-office memorandum suggesting compliance with the request. "As, of course, a member of the House naval affairs committee may be very useful in future dealings with the navy. About 20,000 lawyers and agents (most of them not Washingtonians) are licensed to practice before the Treasury. More than 200 have been disbanded, suspended or reprimanded in the past few years by a Treasury committee appointed to enforce ethical standards. The cream of this business is in tax refunds for corporations and rebates for huge estates.

A FEW newspapermen have deserted their trade to take up lobbying. Jim West, who left his job covering Hoover for a press association to become press agent for the Republican National Committee for a while, received \$4400 from shipbuilding companies during the Senate munitions hearings and \$7500 from duPont, Remington, and Curtis-Wright.

Very rarely a correspondent is discovered to be on the secret payroll of an organization engaged in lobbying or propaganda, whereupon he is fired from the Senate press gallery if he hasn't formally disclosed the connection. A political writer representing a Boston newspaper used to brand such progressives as Norris and Wheeler regularly as "bolshheviks" until it was discovered he was working on the side for the New England Power Association, which then hired him as one of its officials. I observed him dining with Senator Walsh of Massachusetts at the Carlton not long ago.

The BLUE DOOR Rachel Mack

BEGIN HERE TODAY. WOODSON, pretty, high-school girl of 19 in search of work, seek refuge from a storm in an old frame house with a blue door in the little town of Worthville. The owner, also known as "PENNY," mistakes Ruth for ELAINE CHALMERS, whose grandfather built the house. Ruth, needing shelter and talking to her with the young man next door, JOHN McNEILL, decides to stay in Elaine. Elaine, meanwhile, at Graycastle College, is in a society meeting to win the love of John McNeill, her childhood hero, and plans to go to Worthville. A man known as JOHN SMITH escapes from an asylum, buys a step ladder, and starts for Worthville. Penny seems happy to have Ruth in the house until one night when she is summoned to the front door by a knock. After a half hour's absence she returns to find the room a changed person, festive in her actions and concealing some mysterious news. Ruth next day things seem normal and John McNeill, who has fallen in love with Ruth, takes her to Cleveland on a business trip. Ruth waits for him, alone having a gift for Penny. NOW GO ON WITH THE STORY CHAPTER XVII AS she walked through the late afternoon shopping crowds to meet John, Ruth was struck with an idea so arresting that it staggered her. The idea was simply this: that she should not meet him at all; that she should lose herself in Cleveland, the city which had been her objective, and thus, solve the Gordian knot of her entanglements by cutting it with one quick stroke. Then, just as she had decided on her course, there came the realization that it would not work at all! She was Elaine Chalmers to John McNeill and Bertha Gibbs, and if she should stage a disappearance this evening the entire detective force of Cleveland would be working on the case before midnight. "And telegrams would be sent to Elaine's mother," she thought in consternation, "scaring her out of her wits!" There'd be scandal and headlines, of course. First they'd say "Helene Disappears While on Visit to Mother's Old Home." Then in a later edition, "Helene Found Safe at College. Unknown Girl Impersonating Her Sought!" "I must have been crazy to think of such a thing," Ruth marvelled aloud. Suddenly she was happy again because her noble conduct was out of the question, and because she was going to meet John presently and drive back to Worthville with him. "I must have been absolutely crazy!" She said the words clearly and emphatically, and an impudent youth with freckles and a turned-up nose, just beside her in the crowd, said, "Talking to yourself, sister?" "To myself," Ruth replied, and laughed. "To the world!" And then she saw John at the hotel entrance, waiting for her, scanning the crowds a bit anxiously. Nothing else mattered. He said, "We'll have dinner here and drive home afterward. There's a good orchestra."

Rev. Thomas and Dr. Jackson Contribute Fine Parts To Program

Monday afternoon members of the Women's Missionary society of First Baptist church met for a program, which will long stand out as one of the finest and completely instructive of any ever to have been offered since the society's organization. The subject, "Stewardship," was first touched upon with the giving of the devotional by the pastor, Rev. Thomas. Rounding out the program on the named subject and interweaving the beautifully blended thoughts Dr. Walter Jackson, who enjoys the reputation as

being a speaker who immediately engrosses the entire attention of his hearers, his sincerely, fluent and concise manner, touched upon, "Stewardship Having to Do With Personality, Talent, Time and Passion, when combined emphasized the reward for service and stewardship means.

Mrs. A. W. Lewis, whose invaluable directorship has achieved outstanding things for the organization sang a beautiful "ocal solo," "Have Thine Own Way," was soft piano accompaniment by Mrs. Felton Brasher. Closing prayer was said by Mrs. G. W. Thomas. Plans for the coming association's "Brotherhood" banquet were discussed with details to be worked out later. Pledge cards distributed brought pleasing results indicating full cooperation and personal service for the coming months.

Brilliant Attraction At Joseph Dry Goods Company Tonight

After reading the special page dedicated to the popular Joseph Dry Goods company's department store, appearing in Sunday's issue, there's little to be said about how complete in every detail the lovely open house is to be this evening.

Since Mr. Joseph purchased the building, all sort of improvements have been running rapidly through his head, only to be made real through the workmanship of skilled workmen who have, under his supervision, completed a store which will equal the most modern ready-to-wear and department store in this section of the country.

Every department of the store bids welcome this evening. Dr. Harry A. Logsdon, mayor of Ranger, will make the dedication address at the formal hour, followed with the program of music, introduction of personnel, music, introduction of speaker, by J. E. Mcromney, dedication address, Dr. Logsdon and appreciation, D. Joseph.

Time, 8 until 9 o'clock.

VETERAN RELIEVED OF CONSTIPATION BY NATURAL FOOD
Kellogg's ALL-BRAN Corrects His Condition

Here is an interesting, unsolicited letter: "I have used Kellogg's All-Bran for about 4 years, and find it a wonderful relief for constipation." While in Government Service in the P. L. I contracted constipation in 1898-99.

"I consider your All-Bran in terms of millions, instead of the cost of a box of pills, for it surely has saved me. I eat All-Bran every morning."—F. L. Yllie, Visalia, Calif.

"Constipation due to insufficient 'bulk' in meals. Research shows Kellogg's All-Bran supplies gentle 'bulk' to aid regular habits. All-Bran is also rich in vitamin B and iron. All-Bran is a delicious laxative food . . . far better than patent medicines. Two tablespoonfuls daily are usually sufficient. If not relieved this way, see your doctor."
