Don't Let Ancestors Spoil Your Thinking

It might not be a bad thing if all Americans could find some way of forgetting that they ever had ancestors.

An ancestor ordinarily is not harmful. But there seems to be something in the air in this country that causes a man to go out and bay at the moon whenever he gets to thinking about the higher branches of his family tree.

Of the exploits of the D. A. R. we shall say nothing. But we read the other day of a new group called "The Minute Women of '36," formed in New Jersey to defend the Constitution of Roger Williams.

She took action, she explained, because she resented the mounting taxes on property inherited from Revolutionary ancestors.

Now the first thing that occurs to one in this connection is that, if there is any American who still is enjoying the fruits of property amassed by someone more than 150 years ago, it must be high time that the tax collector is having a whack at it; and the second is that this same Roger Williams was not a man to be over-anxious about his material possessions, since he built his distinguished career on the belief that the important things in this life cannot be put in banks or written down in double-entry ledgers.

But over and above these two meditations there is that silent wonder which comes on a person whenever he contemplates one of the more puzzling works of inscrutable nature: why is it that people who can trace their descent back to the fire-eaters of our great colonial period are just the people who want the life of today to run along in an established groove, without change or the threat of change?

What made the colonial era memorable is the fact that Americans at that time were reaching out for something new. Human life had outgrown its shell, in the America of those days; and the one reason any of us like to look back to colonial ancestors is the fact that they were brave and reckless enough to toss everything they had into the scales in an attempt to bring about a better way of living.

Now that period is a long way from 1935, and there is no sense in expecting every descendant of a colonial hero to mount his horse at dusk every evening and go galloping through the town crying, "The redcoats are coming!"

CHRISTIAN SCIENCE SERVICE

"Ancient and Modern Necromancy, alias Mesmerism and Hypnotism, Denounced" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, December 1.

The Golden Text is: "Search me, O God, and know my heart: try me, and know my thoughts; and see if there be any wicked way in me, and lead me in the way everlasting." (Psalms 139:23,24).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I am the Lord, I changed not; therefore ye sons of Jacob are not consumed," (Malachi 2:6).

The Aftermath of "and Sudden Death"

By A. J. BRACKEN in Readers Digest

After the sensation created by "And Sudden Death," The Reader's Digest was bombarded by proffered "follow-ups." But we thought enough had been said. Then, from an embalmer in the village of Chapel, Nebraska, came the following—important in its emotional sincerity, impressive in its photographic directness. As in the case of the previous article, we caution the sensitive reader not to read too much of it.

JUST PASSING

Two o'clock in the morning. Is that the phone? There it goes again. I grope my way sleepily to it. Hello... yes, I understand... a wreck on the highway, two miles east... We'll be right out... What a sight! One car, a new one, now a tangled heap of scrap off on one side of the road, shat-

tered glass everywhere. The crowd has gathered and they have dug one body out and it lies a bloody, grotesque, twisted thing under the pale light of the moon. Another lies groaning and mumbling. "My back is broken I think." We lift him as gently as possible to the ambulance cot and hurry to the hospital. He dies two hours later calling for "Edith."

How did it happen? The report is they were trying to pass a car against a too close oncoming car. What does it matter! We go back for the dead body and in the operating room under the strong light we find that we have a job on hand trying to embalm this poor thing, to put it bag together as best we can in an attempt to relieve the terrible heartache of those loved ones who will hasten to see him. What a mess! Ragged bones sticking out through torn coat sleeves, head crushed to a pulp. Can we make it look like a human being and resemble the fine strong young man that it was only an hour ago? It is just our job and we're getting used to it.

Does it make us gun-shy of this fast driving? Well, we wish all the speeders could spend a night with us, occasionally, in the operating rooms of the mortuary.

Old Barleycorn

Three little kiddies, poor little tykes, the oldest only seven. They hardly know what it is all about. This time it is a young mother returning home, with her husband and children, from a happy visit. Kiddies are playing in the back seat of the car. Bang! Crash! A sickening twisting and tearing and it is all over.

Just two drunks in an old car coming over the top of the hill on the wrong side of the road, but what slaughter! We work feverishly all night attempting to place a new nose and one side of the face on this mangled body which has been the loving mother of these three small helpless chil-

dren, now in the hospital, two not expected to live.

We secure a recent picture of this mother and by long hours of patching and filling those mutilated features and showing the body under indirect light we keep from the loved ones the horrible picture of this mutilation.

The Lonely Pedestrian

Such a freak. We found his arm, hanging on the latch of the car door, torn completely from the socket at the elbow. The mangled body lay doubled up in the ditch nearby.

Just an old man walking along in the dark on the wrong side of the road, the car coming over the brow of the hill, headlights shooting up. Not a chance of escaping it.

Endurance vs. Death

Just three happy boys on their way across the country to Detroit. Constant driving, day and night, with a change at the wheel every four hours, but endurance lost and we pick them up on the side of the road where they have crashed a telephone pole and overturned. Not an easy thing to telephone the poor father out on the Coast and inform him that the body of his boy lies in our mortuary.

A wig that matches his hair, plastic art and dermasurgery restore the body to almost lifelike appearance, but we cannot bring back that youthful smile or happy laugh which he carried when he left home. These are only memories to his loved ones.

Dangerous Corners

We natives all knew that was a mean corner, properly marked with a turn sign, but such a sharp turn. To take it at more than 20 miles was unsafe. He must have been going 50 at least. No one saw it happen. They found him with the car overturned, the sharp edge of the runningboard, where it joins the rear fender, resting on his head. Why do they always have their heads mashed up so? I wonder if this isn't the hope of

every embalmer when he receives an auto accident call: "I hope the head is all right." They usually are not.

Such a great big fellow in the pink of health and prime of life. And his poor young wife... We put her to bed when she arrives and try to make her comfortable until we can finish our work, so she will never know what he looked like when we found him.

A babe to come soon, who will never know a father except by tales which are told.

Dense Fog

The lunch for school was in the back seat, the case of eggs for the grocer intact, but the beautiful life of a little schoolgirl was gone forever.

A foggy morning, a narrow bridge. The sharp, splintered end of the bridge rail drove through the windshield and tore away one side of her face.

Poor little brother, who had been driving, how heartbroken and sorrowful. It was hard to see, and how was he to know that he should have pulled to the side of the road and stopped until the fog lifted, even though they were late for school?

Loose Gravel

Not much to do this time. The whole thing was on fire when we arrived. We could see his tracks where he had come over the top of the hill and hit the loose gravel.

The warning sign was up so the Highway Department had fulfilled its duty, but there it lay where it had skidded and turned completely around and over. A twisted mass of hot iron, that fetid smell of burning flesh and a few bones to tell the tale.

How will we prepare THESE remains for burial? Well, how would you?

And so it goes, on and on, in this small town of not quite 3,000. Add what befalls us here to the tragic toll in metropolitan cities and the countless towns larger than ours, and we have a very faint idea of what is happening out our highways.

Over 35,000 killed this way last year. Will it be more next year? And will you be one of that number? Why won't you?

put on the building and many other improvements made and will then move their grocery store into it.

Mr. and Mrs. I. N. Williams drove to Ranger on business Friday.

Mr. and Mrs. Clay Emde of Kilgore were guests of his mother, Mrs. Mollie Emde, Saturday and Sunday.

Mrs. Mattie Henry, assisted by her mother, Mrs. John Mendenhall, entertained the Methodist Missionary Society very delightfully Thursday afternoon. The meeting was called to order by the president, Mrs. Charles Lee who led the devotional after which the minutes were read by the secretary, Mrs. S. E. Snodgrass. Officers were then elected for the coming year and will be installed the last of December after which the list will be published. The meeting was then closed and the hostess led in some contests that were quite interesting. A special guest was Mrs. P. M. Kaykendall of Ranger, who had come down to visit old friends and was invited to the meeting but stayed only a short time as she had to visit at several places. Mrs. Henry served a lovely refreshment plate of chicken sandwiches perfection salad on lettuce and date loaf with cranial sauce and coffee. Favors were Thanksgiving turkeys with tiny baskets of candy and nuts.

Those present were Miss Mollie O'Rear and Mrs. Charles Lee, W. H. Whitworth, G. S. Bruce, C. O. Bragg, Tom Nabers, Harry Gallagher of Albany, Preston Sparks, S. E. Snodgrass, W. C. Bedford, Joe Gibson, E. M. Dalley, wife of the new pastor, P. M. Kaykendall of Ranger, and the hostess.

Mr. and Mrs. George Key and little son left Sunday for their home at Hemet, California, after a visit of two weeks with relatives.

Congratulations and good wishes are being extended to Mr. and Mrs. Elmer Lee Anderson, who were married Sunday. The bride was Miss Margaret Moore, attractive daughter of Mr. and Mrs. A. C. Moore, and a member of the Senior class of Desdemona High School. The groom is the son of Mrs. Sallie Huffman and is an employe of the Rudco Gasoline Company. Both the bride and groom are very popular young people.

The season's lopsided football scores seem to have a rival in the recent Italo-Ethiopian tally: 200 natives to one Italian hit in the tank.

...was all this popularity to him. I will drop her, let her look out!"

Ronnie was pleading with Dana. "I can't talk to you at all. I get all your through a sentence and somebody taps me on the shoulder. I would take hours for me to tell you all I really want to say. Oh, Dana how beautiful you are!"

He held her closer. "Will you dance to the door with me and then step out on that side porch for a breath of air?"

"Should I?" Dana asked.

"It's a good old American custom," Ronnie said.

"Then all right," Dana agreed, impulsively.

The porch was cool, dim, vine-shaded. "Perfect," Ronnie said. "I know it doesn't sound romantic, Ronnie, but I'm frightfully thirsty."

"Just as romantic as can be," Ronnie said. "Remember what old Omar, the poet, said about a bowl of bread, a jug of wine and a girl singing in the wilderness? Well, I'll get the wine or rather punch here are the vines which must die or the wilderness. And that!"

"I can't sing though," objected the practical Dana.

She watched him, silhouetted in the light for a moment before the door closed behind him. Ronnie was awfully nice awfully good looking and of course awfully rich. He was probably an awful flirt too, like the young doctor who had said such flattering things. It was just an old southern custom, saying things to please people, and then forgetting you had said them. Like Dr. Scott Stanley who had boasted he'd come to her party, invited or not.

...Mrs. Cameron complacently watched her granddaughter's lively face and graceful form. Dana was agitated, with a certain indiffer-ence to attention which was prob-ably one of her chief charms. Nancy, on the other hand, was all indifference. Which, of course, got a girl nowhere. And where was Nancy now?

Only one person had seen Nancy come through the side door—Tommy who had slipped off Mrs. Cameron's conversational leash and stationed himself at a vantage point.

"Say, Nancy," Tommy's voice called her.

"Go away, Tommy," Nancy spoke in a petulant little girl, address-ing a bothersome little boy. She was up the stairs in a flurry of white ruffles.

NANCY went straight to her room. Something had happened. Something disastrous, terrible, overwhelming. No longer could she fight the truth with contemptuous words. She was in love with Ron-nie and might as well admit it to herself. The revelation had come with his kiss. The kiss Ronnie was so ashamed of. The kiss he had meant for Dana.

She flung herself down on her bed, and the perfection of the light spread which had been drawn into place so carefully by Dana's expert hands. The crisp place under her face was soon damp with tears. She thought of the crumpled loveliness of her gown with poignant bitterness. What did it matter? The dress had done nothing for her, except to reveal even more clearly the dif-ference between her sister and her-self.

Nancy sat up suddenly ashamed of her emotional upheaval. It she stayed away, Grin would be send-ing Dana scouting around for her. Perhaps Ronnie would wonder and suspect the truth. Which would be the worst thing that could happen.

"I'd better let her know," Nancy thought wildly. "If I get a chance I'll make him believe I think it was all a joke." She went to a mirror and began to repair the damage to her face.

Her eyes were shining with ex-citement when she entered the ball-room. When she passed Ronnie she smiled brilliantly at him. Ron-nie promptly cut in. "You're a brick, Nancy," he whispered. "I was worried."

"About what?" Nancy asked non-chalantly.

"About—about what happened a while ago?"

"I'd forgotten anything hap-pened," Nancy replied carelessly. "I'm glad of that," Ronnie said. And then he realized he wasn't. "I have it all figured out," Nancy said with a gasp. "Too gay if Ronnie had noticed. You thought I was Dana or dress-ess or twin models. But really we are not a bit alike."

"No," said Ronnie. "I don't be-lieve you are."

Someone claimed her and she came home with a feeling of relief. Nancy decided was just one of those girls. Raising hell when they were kissed. Perhaps trying to force a man to say some-thing committing himself. And when the trick failed, they forgot all about it.

He was disappointed. Whatever she had failed to think of, Nancy had always considered her a straight shooter. Completely sincere. It all went to prove you couldn't tell a darn thing about a girl. (To Be Continued)

BEGIN HERE TODAY

After the death of her parents, lovely DANA WESTBROOK, the child of her mother's second marriage, comes to America to live with her grandmother, MRS. WILLARD CAMERON.

Dana's half-sister, NANCY WALLACE, feels bitter toward her.

Mrs. Cameron decides to introduce Dana to society with a party, hoping rich RONALD MOORE will become seriously inter-ested.

Dana meanwhile, has met and become attracted to young DR. SCOTT STANLEY, Nancy, who makes her love for Ronald be-hind an antagonistic attitude dresses happily for the party.

Her happiness fades when she sees Dana radiant and beautiful in a rich frock.

NOW GO ON WITH THE STU-CHAPTER VIII

THE two girls faced each other. Dana said, "Oh, Nancy, I never seen you look so sweet!"

Nancy still standing in the doorway, hesitated. Then she sat brusquely. "Cut her compliment. I suppose you haven't looked at yourself?"

"Do you like me, Nancy?" The question was anxious.

The other girl's eyes narrow appraisingly, taking in Dana's beauty. Yes, Grandmother had done a darn good job. If knowing Ron-nie Moore cold with beauty would win a proposal from him, the trick was done.

"Well, what do you think?" Nancy asked, avoiding a direct an-swer to her sister's question. "It's a nice dress all right—on you."

"Yours is exactly like it."

"Oh, I know. I'm not complain-ing about the dress. If it had an-other face and figure inside it, the dress would probably make a hit."

Nancy's voice was dry and mecha-nical, but Dana guessed this was only a disguise for emotion.

"You're being silly," she said. "If you only know how you really look!"

"How do I look?" Nancy asked.

Dana thought, "She isn't exactly pretty, but there's something aw-fully attractive about her. Some-thing exciting. It's as though you were looking at a volcano, about to explode. No, you couldn't possibly overlook Nancy in a crowd."

Aloud, Dana said, "You look like a charming elf that has been ran-gled up in a cloud and then come floating down to earth."

"Your fairy tale robe is a little mixed," Nancy told her. "Elves don't inhabit clouds. They are, or were supposed to be, very earthily people, and I don't recall they were any special charm or good looks. But you look like the beautiful fairy who appears on occasions to dazle folks."

SHE turned then, and was gone. Dana alone felt bewildered and troubled. Perhaps what she had said had been unfortunate. The wrong thing. "But were two grown girls," Dana told herself. "Not children. And were both give-ing such looking. Who cares about looks anyway as long as you can drive and swim and have some fairly bright ideas circulating in your head?"

Why had Nancy started all this foolishness anyway when the mu-sic stage downstairs were beginning to play a fox-trot? And it was time for both of them to go down. With Grandmother such a stickler for respect, it would be dreadful to have guests arrive before they were ready to receive them.

"Good girl," Scott said, crushing her hands in his. He stared down into Dana's laughing, eager face.

Dana was sure it was going to be a lovely party. The cakes that the Washington had been moulding so cleverly all afternoon were beau-tiful with their fluted edges and dainty flower decorations. At night, with the crystal chandeliers ring-ing down, most of the drabness of the big reception room was con-cealed, and the shining surfaces of fine old furniture were revealed. The worn rugs had been removed for dancing and flowers from the garden had been brought in abun-dantly, adding color. In Dana's mind the party had just one flaw. She had hoped to invite the attrac-tive young doctor to this party, but her grandmother had turned thumbs down on the suggestion—so vehemently Dana had been sur-prised.

"Scott Stanley's been away so long he's almost a stranger here," Mrs. Cameron had said. "He has a long way to go if he's going to amount to anything as a doctor. Besides I can't invite every Tom, Dick and Harry in this town."

That had been that. Still it was going to be a lovely party.

Dana touched the orchids on her shoulder caressingly. Her first or-chids. It was thrilling to be wear-ing them. She thought of Ronnie with a little glow at her heart.

DANA, whirling from the arms of one partner to another, felt she was moving in a dream. This was not Paris, where the social life of her school friends had been super-vised so rigidly. Nor was it like those parties, flung by Bohemian-ism, in which her father had par-ticipated occasionally after her mother's death—parties from which Dana had been carefully excluded.

...Everything here was bright, cheerful, colorful and informal. Girls and boys of Dana's own age, laughing, talking, almost drown-ing out the band's playing at times. They were all the "right young peo-ple," her grandmother had made plain. They all "belonged." Their fathers, or uncles or cousins had memberships in the Country Club.

Moving about as she had in her childhood, always living in differ-ent houses, Dana had given little thought to such things as clubs. Here in this southern city, they evi-dently counted for a great deal.

Grandmother had said, "Ronnie's only 24. But he has his own mem-ber-ship in the Country Club. He is a member of The Maskers, and if you play your cards right that will mean another big party for you. He belongs to the College Club, too, and a smart dinner group."

It was funny for Grandmother to be so interested in the social ac-tivities of another generation but there wasn't a thing that was social that she missed.

Evidently Dana was playing her cards right. Whenever she whirled into the south room where Mrs. Cameron sat surrounded by con-tem-poraries Dana met her grandmoth-er's pleased smile.

"The girl can't get two steps that Ronnie Moore doesn't cut in," whispered one dowager, whose eyes were acid as they rested on Dana.

"There's something about foreign girls, especially French girls, that men can't resist. What chances have our daughters who aren't trained in all those foreign tricks?"

"I guess she has him fooled. She if she hasn't, she'll find out she

...was all this popularity to him. I will drop her, let her look out!"

Ronnie was pleading with Dana. "I can't talk to you at all. I get all your through a sentence and somebody taps me on the shoulder. I would take hours for me to tell you all I really want to say. Oh, Dana how beautiful you are!"

"Margaret Rawlings" is a new name shining in bright lights on Broadway. It's the name of the charming actress pictured above who, though famous on the stage of her native London, has been comparatively unknown in America until she appeared the other night as the heroine of a new play, "Parnell." The audience, since then, has been in part made up of Hollywood scouts.

Nation's Oil Supply Is Adequate For Centuries

Predictions of Shortage Unfounded Report Shows; Federal Control Unnecessary To Preserve Resources

LOS ANGELES, CALIF.—The people of the United States need fear neither exhaustion of the nation's petroleum resources, nor scarcity in the supply of petroleum products.

Crude oil reserves now are larger than ever before, and supplies of petroleum products sufficient to meet demand for centuries are available from oil, coal, and shale.

These reassuring facts were reported to the 16th annual meeting of the American Petroleum Institute here by President Axtell J. Byles after Institute committees completed a survey of petroleum resources to bring up to date estimates made in 1925. President Byles said the data indicated crude oil reserves now exceed 12 billion barrels, or twice the amount estimated 10 years ago, with more than a billion acres of geological formation still to be explored. Improved methods of discovery and development were found to be recovering larger quantities of oil from new fields and from greater depths below old fields.

When economic conditions warrant, President Byles explained, crude oil can be supplemented as a source of petroleum products by bituminous coal and shale. It was estimated that the nation's virtually unlimited coal deposits would yield enough motor fuel for generations, if not centuries, and that more than 100 billion barrels of oil—enough for at least a century—is available in oil shale.

Progress in refining technique, he said, also has contributed to conservation of petroleum resources, with nearly one-half each barrel of crude oil now converted into gasoline, as compared with one-

Axtell J. Byles

sixth a few years ago. He added that modern refining plants can convert as much as 75 per cent, and known refining processes can convert almost 100 per cent, thus reducing the amount of crude oil needed.

Recalling that fears for shortages have been expressed repeatedly since oil production began in this country, President Byles declared that "so far ahead as the mind of man can run there is no possibility of a failure of this supply." He charged that "false prophets" are using shortage warnings "for the purpose of frightening the people and their legislative representatives into federal control of the petroleum industry." This, he said, would be "ruinous to the industry and calamitous to the country."
