NO. 274

## Young Husband Kills Wife and Then Himself

### Girl, 16, Held as a Bigamist

Although this dark-eyed girl is only 16, the police of St. Louis booked her as Mrs. Mildred Pershall, as the above picture was taken, and accused her of bigamously marrying two husbands. They said she married Harry Pershall in December and William Waller in April, giving her name as Kay Milly Cordillo.

### VERDICTS IN DEATH FOUND BY E. E. WOOD

#### Burial of Victims Due Wednesday Afternoon at Kokomo Rites.

Murder and suicide were written Tuesday into the Monday night deaths of 26-year-old Cleo Everton and his wife, Opal, 19, at their farm home five miles south of Eastland.

Justice of Peace E. E. Wood, Eastland, who conducted an inquest at 10 o'clock Monday night two hours after the deaths, rendered the verdicts that the man shot his wife and then himself.

R. L. Jones, former county clerk, and his wife, upon whose land the Evertons resided, came to the vicinity of the young couple's home when they heard sounds of confusion.

According to Jones, Mrs. Everton was being put into a car, telling her husband to take her to town and "now take me." Jones had offered to take her to the hospital.

Mr. and Mrs. Jones were returning to their residence when the Everton automobile, a Model A Ford coupe with a pick-up body stopped on the way to the Eastland highway and three shots were fired. When the Jones arrived Everton's body was at one side and his wife's on the other.

It was theorized Everton took his wife's body from the automobile, laid her upon the ground and shot her a second time when he became cognizant she was dying. Also it was believed, in Everton's nervousness he shot a bullet from his pistol which lodged in the steering wheel. Also evident to authorities was that he shot himself and layed upon the ground at the opposite side of the automobile from which his wife was found. The pistol was shoved partially into sand.

Five empty cartridges were found. Four were in the pistol and another in the bedroom of the Everton home. Blood was found splattered in the room.

The first shot, according to investigating officials, was fired into Mrs. Everton's body slightly below the center of the breast bone. The second, believed to have been fired at the car, was through the breast in the region of the heart. The first shot went through her body.

Everton was shot through his breast. The fifth cartridge was unaccounted for.

The husband was clad in overalls and wore no shoes, hat, socks or shirt. His wife wore a silk slip and a smock, similar to a type used at a peanut plant at Carbon at which she formerly worked.

The testimony of Jones at the inquest was: "About 8 p. m. I heard his wife Opal scream and my wife and I ran to his home and upon our arrival Cleo told us Opal had shot herself; he had her in his car at the time. I offered to take her to the hospital and Opal told Cleo that he had promised to take her to town and 'now take me.' I then left her and he in his car and walked back to my house and he started around the road to my house but before he got there she stopped his car and I heard three shots fired. I then went to this place (Jones' farm and home) and found Opal on the right side of his car and he was laying on the south side with the gun or pistol near by. They were both only partially dressed in underwear only, he had on overalls.

"I saw the gun found near the last place of the shooting. It was a 32-20 shot. It had four empty shells in it and we found one empty shell at the place where he had put her in his car near his place of residence. I had understood that they had some domestic trouble and on two occasions and about two or three months ago went away from his home and was gone some two weeks at that time. It is my opinion that he first shot her and decided to take his own life, and stopped his car and carried this into effect. He was shot through the heart and his wife was shot twice, both or either being fatal and could have caused instant death almost."

Everton was a farm-laborer and, friends said, performed work for Jones in return for rent. The couple had had one child, who died.

Burial of the husband and wife (Continued on page 2)

### YOUTH SHOTS GIRL AND SELF IN A QUARREL

WASHINGTON, Ind., April 20.—Henry Roney, 19, died today as police stood by to charge him with the "puppy love" murder of his schoolgirl sweetheart.

He died without denying he shot pretty Mary Hartman, 15, to death, because she wouldn't go riding with him. Mary died a few minutes after the youth fired one bullet into her heart as her mother watched last night.

"It was just a puppy love affair," police said.

Roney, a WPA worker, met Mary, a student, in a Washington grade school, seven months ago. They "dated" frequently. Henry and Mary quarreled. Henry went to Mary's house last night, apparently hoping to patch up their quarrel. Failing he shot their girl, then walked a few blocks away and shot himself.

### Judge Mapping Test Case After Editor's Defy of Jury News Ban

When Judge Walter B. Wanamaker, left, of Akron, O., attempted to keep grand jury procedure secret as an experiment "in the spirit of the law," Editor Morrow, right, of the Akron Times-Press printed the names of the grand jurors and the first day's witnesses. Judge Wanamaker then indicated he would make a test case of the incident with a contempt citation against Morrow. Grand Jury Foreman John S. Knight was excused after the Akron Beacon-Journal, of which he is editor, followed the Times-Press in publishing news of the jury procedure.

### BUDGET MESSAGE OF ROOSEVELT ASKS FOR STRICTER ECONOMIES

WASHINGTON, April 20.—President Roosevelt revised his budget figures today in a special message to congress, which asked \$1,500,000,000 for work relief in the next fiscal year and projected an economy drive to offset lack of revenue. He indicated there would be a tax bill at the next session of congress.

The message estimated a net deficit of \$2,557,000,000 in the current fiscal year and \$418,000,000 in the twelve-month fiscal period to begin July 1, 1937. In his January budget message he estimated a \$2,248,126,774 net deficit next year and no such deficit thereafter.

Next year the budget would have balanced except for an item of \$401,000,000 for debt retirement. The deficit forecast for next year and the debt retirement combine to establish a probable 1938 deficit of \$319,000,000.

Mr. Roosevelt asked congress to extend "nuisance tax" levies which will expire this spring, and demanded that congress refrain from passing expenditures beyond budgeted items.

An emphatic demand for economy marked the budget message, which was prepared by the president after it became evident his estimates of last January were overly optimistic. He asked congress to resist the pressure of "special interests" for appropriations. He said pending flood control legislation would impose an unjustified burden on the treasury. He reiterated congress should not vote more than \$500,000,000 annually to public works.

It was revealed the White House had withdrawn support from pending legislation to relieve the farm tenancy problem.

### Britain Warns She Will Protect Her Ships On High Sea

LONDON, April 20.—The British navy is ready to give armed assistance to British ships in Spanish waters, Sir Samuel Hoare, first lord of the admiralty, declared today in the House of Commons.

"In the last two or three days," Sir Samuel said, "Gen. Franco has been warned that Britain will not tolerate interference with its merchant ships on the high seas and will hold him responsible for damage, even within territorial waters."

### BRITISH DECLINE SEEN

LONDON.—There will be 7,000,000 fewer people in Britain in 1971 than there are now, F. C. Honey, president of the National Confederation of Employers Organization, said in an address to the Institute of Actuaries.

### Stain on Harlan's Record

This stack of Harlan county, Ky., court records was subpoenaed by the Senate civil liberties probes after Larkin Baker, right, testified he negotiated several months "to get a man" to kill Union Organizer Lawrence Dwyer. Baker acted, he said, at the instance of Harlan county's chief deputy sheriff and "got a man" who exploded several sticks of dynamite in Dwyer's bedroom. They failed to kill Dwyer. Baker's testimony was only part of the story of conflict in the coal fields of "bloody Harlan."

### Urged as Leader of Spanish Junta

Formation of a military dictatorship under the leadership of General Jose Miaja (above), commander-in-chief of Madrid's defense, has been urged in European left-wing political circles as a solution of the Spanish civil war, which threatens to end in a stalemate through exhaustion of resources by rebels and loyalists.

### Man Finds Double With Similar Name And Experiences

DALHART, Texas.—J. S. Pitman of Amarillo, temporary director of the Dalhart Maverick Club, was part of an unusual coincidence when he first moved to Amarillo.

He told the following story: Two years ago, he (J. S. Pitman) went to Amarillo as field director for an extension university. He met a man there named William H. Pitman, employe of a laundry. Both noted that the other spelled "Pitman" with a single "i" where most persons of the name used two. Comparisons brought out that they were amazingly similar in appearance and experiences.

The two Pitmans roomed at the same house in Amarillo. When they were often mistaken for each other. Both had light brown hair (thin at the same spots) and a red-tinted beard. Both are 5 feet 10-12 inches tall and weigh about 185 pounds. Both wear size seven and one-eighth hats and nine and a half shoes.

Although J. S. Pitman was born in Texas and William H. Pitman in Michigan, their lives have paralleled uniquely. Apparently, they are no relation.

Both were born Jan. 27, 1886. Both were married Jan. 17, 1906. J. S. is in Texas and William H. is in Michigan. Each has a son named Bill and a sister named Mattie. Both worked their way through college as printers' assistants.

Friends of William H. Pitman in Amarillo often stop J. S. and inquire: "Are you Pitman?"

Although the identity is mistaken as often as not, the reply always is: "Yes."

### Middleton, O., Is City of Steel Homes

MIDDLETOWN, O.—This industrial city of 30,000 in southwestern Ohio has more steel homes than any other city in the world.

Varied in design from four-room Cape Cod cottages to a two-story house with porcelain enameled exterior, there are 27 steel residences in Middletown in addition to numerous service stations and other steel buildings.

The Iron Age Year Book for 1936 fixed the number of steel houses built in this country since 1930 at about 1,000.

### Collie Asks Equal Pensions for Aged

AUSTIN, April 20.—The Texas Senate today continued its consideration of revised old age assistance, to be financed by a sales tax. It adopted 13 to 10 a proposal by Sen. Wilbourne Collie of Eastland to make payments equal to all needy persons over 65 years of age.

### Young Boy Killed In Automobile Mishap

GREENVILLE, April 20.—Clarence Tippett, 14, living near Commerce, died in a hospital here today after he was struck by an automobile as he sighted from a bus.

### Oil Proration Rate In East Texas Stands

AUSTIN, April 20.—A continuation of the present rate of oil production in the East Texas field was recommended today at an oil proration hearing of the Texas Railroad commission.

An estimate from the bureau of mines placed the market demand for Texas oil at 1,340,800 barrels daily during May.

### ATHER DEVINE'S SOUGHT IN ASSAULT CASE

NEW YORK, April 20.—Police arrested today an eight-state Harlem negro evangelist, who followed him "God," in charge of assault in connection with the stabbing of a process server.

Father Devine is charged in connection with an attack on Harry Green, who was taken to a hospital in a serious condition after he attempted to converse with the evangelist.

Green was stabbed in the abdomen and lacerated. Several ribs were fractured.

Investigators said Green attempted to serve Father Devine who was conducting a service of 2,500 of his disciples in a "Temple."

### Powers Foreseen In Most of State

MIAMI, April 20.—Cooling waters were in prospect for Texas tonight and Wednesday to re-warm temperatures, the U. S. Weather station reported here tonight.

Powers were forecast for East Texas tonight and for West Texas tomorrow.

North Texas received nearly an inch of moisture Monday night. A trace was reported near the Amarillo reported .28 of an inch. Lubbock .74, Abilene .72, Wichita Falls .24.

BOSTON, April 20.—Small warnings were hoisted along Texas coast from Brownsville to Port Arthur today because of surbanes created by small, low pressure areas centered near Albany, Texas, and Dodge City, Kan.

### House Committee Approves Agri. Department Fund

WASHINGTON, Apr. 20.—The House appropriations committee moved today a \$927,398,548 agriculture department appropriation bill for the 1938 fiscal year, a \$148,402,149 increase over the appropriation last year, but \$87,407 below the budget estimate.

The bill appropriates funds for AAA soil conservation, weather bureau, highway aid and dozens other activities.

### Kokomo Club Hears Dressmaking Hints

Shapes, hooks and eyes should be snapped on with a button-hole stitch," says Miss Cornelia Faye, assistant home demonstration agent, who met with the Kokomo girls' 4-H club at Kokomo school house Tuesday, April 19.

The plain seam was suggested for the gowns, either plain seams French seams for the pajama tops, and the flat felt seams for the pajama trousers. These gowns were noticed in the garments were scored. The three given were, first, Ina Mae Timmons; second, Verda Mae Eaves; third, Phyllis Jean Walden.

Those present were Billie Timmons, Ina Louise Timmons, Mae Mae Eaves, Louise Eaves, Estelle Jumper, Wanda Fern Walden, Phyllis Jean Donaldson, Mrs. J. C. Timmons, visitor, Mrs. L. R. Higginbottom, club nurse and Miss Cornelia Faye, assistant home demonstration agent.

### Oil Men Indicted In Oil Conspiracy

HOUSTON, April 20.—Federal indictments of ten oil men and six companies on charges of conspiring to raise oil illegally was announced here today by assistant U. S. District Attorney George E. Murr.

Most of the men indicted were charged in state court at Cameron last fall with violation of state oil production laws.

A native of India walked 12 feet over red-hot embers without burning his feet. A man like that could break the spirit of the average "hot-foot" artist.

Local Governments Can Use a Lot of Reform

It would be a very good thing if the present arguments over proposed changes in the Supreme Court would lead people to meditate on other branches of the American system of government that could do with a little reform.

It probably won't work out that way, because people are getting so emotional about the Supreme Court that everything else is forgotten. One group seems to feel that our chief problems will be solved if the President's plan is adopted; the other, that they will be solved if it is defeated. No one has any time to look at humbler institutions.

But in the long run it is probably far more important that we do something effective about our local governments than that we come to a final decision on the place the high court ought to occupy.

The word "government" doesn't simply mean Washington. It means the 48 state capitals, the innumerable city halls of the country, the thousands of county court-houses, the infinite number of offices in which local boards, commissions, and supervisors do their work. If we want to clear the decks for a new era, we might well forget about Washington for a time and go to work on these less exalted places.

For the obvious fact is that very, very few of these lesser divisions of government function without the most appalling waste, inefficiency, and confusion. And it is because of that fact that we are forever piling new jobs on the federal government at Washington, asking it to do the things that states and cities should be doing for themselves. The matter of unemployment relief is a single example.

Nebraska recently gave us a helpful tip about state governments. By doing away with the traditional two-house legislature, Nebraska automatically eliminated much waste and expense and made the processes of state government far more directly responsive to the will of the people than they ever are apt to be under the old system.

In the same way, such cities as Cincinnati and Milwaukee have shown that it is possible to have city governments that work honestly, efficiently, and openly. Any city can follow suit, whenever its citizens grow tired of being fooled by the bewhiskered devices of old-line politics.

But where are we going to get an example of country reorganization? It would be hard to imagine a more antiquated or expensive unit of government than the county. There are thousands of such units where there should be hundreds, or scores; each one eats up the taxpayer's money with unfeeling appetite, and most of them are the breeding ground for petty politics of the most sordid type.

If we could bring these state, city, and county branches of government up to date, rid them of lost motion, graft, and the runaway expenses that those two things breed, we would find the federal government immeasurably benefited. And the democratic process as a whole would flow along much more smoothly.

BY THE WAY—

### Tremors to Jar the Midwest

#### Quake Will Be Light, Concludes University Seismologist

By FRED A. McCABE  
Press Staff Correspondent

CLEVELAND—The area comprising six states throughout the West, jarred by earthquakes in two succeeding weeks, is visited by recurring mild tremors, believes Rev. Fr. S. Joliat, S. J., head seismologist at John Carroll University.

Joliat said the disturbances are traceable directly to the earth's crust through geologically "old" Middle

West because of the tremors is movement of the earth's crust, and 10,000 years ago by the glacier that extended over northern and lower Canada. Other movements of the crust will result in adjustments. But they won't be serious, the Jesuit said.

"The great weight of the earth's crust is bending upward. Now it is bending downward. The effect is similar to that of a piece of glass is bent. It will just so much strain before it snaps."

Joliat placed the center of recent disturbances in western Ohio.

tal, bespectacled seismologist, stated the latest center of the Middle West relative to the earth tremors was, which shook a 500,000-sq. mi. area.

center of that disturbance was about 400 miles north of Erie in Ontario.

### Before and After a Fast One; 1937 Version

Ready for the 1937 battle for pitching supremacy, Carl Hubbell (left), mainstay of the New York Giants and leading hurler of the National league last year, ends his wind-up and prepares to steam one over. Lon Warneke (right), formerly of the Cubs and recent acquisition of the St. Louis "Gas House Gang," is shown here at the finish of a fast delivery. Other signs of a record-breaking baseball season throughout the country are shown in the revived interest in the game by amateurs. During Ward Week at the Montgomery Ward store here, from April 21 to May 1, amateurs will find pro gloves autographed by Hubbell and baseballs bearing Warneke's signature.

Father Joliat emphasized, however, that the tremors in the Middle West had no connection with recent California quakes.

This section, he explained, is not located in what geologists term a "seismic" region—a region where an earthquake is most likely to occur due to weakness in the earth's crust.

California, he pointed out, rims one of the world's most pronounced seismic sections.

### 13 States Start a Move to Prevent Diverting Road Tax

**NEW YORK.**—Measures designed to prevent future misuse of automotive tax funds to purposes other than highway financing have been introduced in the legislatures of 13 states this year.

Since 1930 the practice of tapping road funds to meet current general expenses has become widespread until now more than \$150,000,000 or approximately one-seventh of the annual gasoline and other automotive taxes collected by the states is misappropriated. Such diversion of automotive tax receipts, resulting in neglect of roads and increasing the hazards of motoring, is meeting with strong public opposition.

Five states—Colorado, Kansas, Maine, Minnesota and Missouri—have constitutional or statutory bans, adopted prior to 1937, prohibiting the practice. Last year Maine by a popular vote of three to one outlawed such diversion by the state.

Of the 13 state legislatures to consider diversion of road funds this year, already four have passed legislation. In Indiana a joint resolution for a constitutional amendment has been adopted by the legislature. This must be passed by the next legislature, and then it is submitted to the state electors. In North Dakota a law forbidding diversion of road funds has been signed by the governor. In Alabama both a law forbidding diversion and a measure to submit

a constitutional amendment to the electorate in the 1938 general election have been adopted. South Dakota has enacted a law rescinding the diversion of 2c per gallon of the gasoline tax to retro rural credit bonds. It is expected that similar favorable action against diversion will be taken by several other state legislatures before they adjourn.

Because diversion of highway tax funds was little known before the depression, comparatively few states have statutory laws. For centuries it has been a traditional and accepted principle of public

conscience that taxes collected by a government in the rule of a proprietor should be used exclusively to pay the cost of the service rendered. That principle is adhered to in water taxes and the rates of municipally owned gas and electric plants. Yet when state revenues slumped in 1930 and the following years, several states seized upon the road funds to make up deficits in the general administrative funds. Besides violating tradition, the misuse of highway funds resulted in widespread neglect of roads and an increase in the hazards of motoring.

Also it saddled an unfair tax burden upon the motorists, forcing them to pay a disproportionate share of the general costs of government.

### MALAYA GETS RUBBER SCARE

By United Press  
**SINGAPORE.**—The threat to Malaya's rubber-growing industry from the synthetic rubber factories of Centray Europe was stressed by Jan Bata, Czechoslovakia shoe king, in an address to the Rotary Club here.

**Robinson, Leola Usery, Patsy Williams, Ruby Wilhelm.**

**Large Crowd Sees Tent Show Monday**  
Brunk's Comedians opened last night to one of the largest crowds that has ever attended a show of this kind in Ranger in a number of years. The title of the play, "Girl Meets Boy" was a real comedy drama and kept the large audience in laughter throughout the performance.

The seven acts of vaudeville was thrill after thrill, especially the juggling act and bike riding. The company will continue the week in Ranger under the auspices of the Ranger Fire Department. An announcement was made last night by the management of the show that regardless of rain or sunshine the big tent would be comfortable in all weather conditions.

Tonight's show, "Petticoat Fever" is another of the leading attractions announced by Brunk's.

**Ward Week to Open Wednesday, Apr. 21**  
The local Montgomery Ward Store opens to the public in the morning with an event that hundreds of Ward customers look forward to each year and that event is "Ward Week."

The big sale will start on Wednesday and continue through May 1.

The store has been redecorated and rearranged for the event and the carnival of bargains, typical of Ward Week awaits those interested in money saving values.

**COURT MARTIAL IN ANTIQUITY**  
By United Press

JERUSALEM—Records of a court-martial which took place in Palestine more than 2,500 years ago have been discovered by Prof. I. L. Starkey, head of the Wellcome Expedition to the Near East and deciphered by Prof. H. Torczyner, lecturer in Hebrew at Jerusalem University.

### SOFTBALL IS INAUGURATED HERE MONDAY

The Ranger softball season was officially ushered in Monday night at Municipal field before a nice crowd which assembled to see the two scheduled games and the rodeo features between games staged by Sig Faircloth and B. S. Lemma.

In the first game the Elks defeated Lone Star by a score of 8 to 3, and in the nighttime Strawn defeated Junior College by a score of 18 to 8.

Faircloth, in a demonstration of how the rodeo pens and chutes would work, and to test the arrangements of the lights for rodeo purposes, roped three calves in almost record time, all the calves running out before the grandstand so the spectators could get a good view.

The wild cow milking was staged directly in front of the grandstand, with Lemma doing the milking, assisted by Faircloth. Both the roping and wild cow milking were completed in rapid order, which will be speeded up with a number of contestants ready to perform.

The softball games were unusually good, with sparkling plays featuring both games.

Box scores for Elks vs Lone Star and Strawn vs Junior College.

### HE ATE ALL-BRAN AND IMPROVED WONDERFULLY

Read this voluntary letter: "In regard to your ALL-BRAN, it is marked on the package 'best as a cereal, best for cooking,' and, as far as I am concerned, you might add 'best for health.' Since I have begun to eat it, I have improved wonderfully."

Mr. H. E. Poole, 312 W. Franklin Street, Jackson, Mich. ALL-BRAN corrects common constipation, due to meals low in "bulk." Within the body, it absorbs water and forms a soft mass, gently sponging out the system.

ALL-BRAN also supplies vitamin B to tone up the intestines, and iron for the blood. Isn't this food better than taking weakening pills and drugs?

Eat two tablespoonfuls daily, either as a cereal with milk or cream, or in recipes. In chronic cases, with each meal. Sold by all grocers. Made and guaranteed by Kellogg in Battle Creek.

**Ward Week to Open Wednesday, Apr. 21**  
The local Montgomery Ward Store opens to the public in the morning with an event that hundreds of Ward customers look forward to each year and that event is "Ward Week."

The big sale will start on Wednesday and continue through May 1.

### Five Famous Magazines LIBERTY

One of America's best read weeklies that will be enjoyed by every member of the family. There is something in it to interest everyone—fiction, sports, articles of national and international importance, editorials, cross-word puzzles, contests, movie reviews, styles, etc. World famous headlines are regular contributors to Liberty. Over 2,300,000 people read this highly popular weekly magazine every week.

### TRUE STORY

A monthly magazine, just what its name implies, containing intriguing tales of love, romance, passion, hate, greed, success and failure. A sworn statement confirms the truth of every true story published. In addition, many special features including smart styles from Paris months in advance, attractive serving ideas for bridge parties, etc., new tasty dishes, suggestions on child raising, time-saving household ideas, prize contests, and humor.

### WOMAN'S WORLD

All that its name implies. A monthly magazine devoted to woman's interests—her children, her home and herself. It brings her refreshing fiction by authors she knows and loves. It brings her stimulating, thought-provoking articles and brilliant editorials. It brings her the latest word in correct fashions with correct patterns to reproduce them and for her leisure hours, the newest in home needlework designs. It brings her beauty aids; dependable household and gardening hints; practical suggestions for redecorating and refurnishing; and reasonable recipes.

### HOUSEHOLD

A monthly magazine which has grown until it now has a nation-wide circulation of nearly two million readers. Articles on child-care, a page for the girls in the teens, continued and short stories by nationally known writers, fancy work patterns, household hints, recipes, and timely articles on subjects of national interest round out the carefully planned editorial program of the household. The Household magazine maintains a seven-room house, the searchlight, unique among testing services of women's periodicals in that it is equipped not only for laboratory tests, but is also maintained as an actual home.

### SILVER SCREEN

This famous movie magazine is edited for the benefit of those who want to read authentic news of the stars, the pictures, and the busy studios of Hollywood. Many of the stories are written by intimate friends of the stars and are remarkable for their clean, wholesome news quality. Many other features that are selected to satisfy the demand of readers who intelligently follow the latest trends in pictures.

### IT'S EASY TO ORDER

Merely give any official representative of The Ranger Times your order. Or if you are already a subscriber, authorize him to continue delivery and these five famous magazines under this remarkable plan. All six (the newspaper and five magazines) for only 15c per week for 30 weeks and a registration fee of 25c when order is given. A call to the circulation department will bring our representative. Or fill out the order blank and mail it to The Ranger Times.

**Alameda Co-Workers To Present a Play at Cooper Ward School**

The Alameda Co-Workers Club will present a play "The Spinners' Club" at the Cooper School Auditorium Friday night, April 23, at 8 o'clock, for the purpose of supplementing their funds for one of their members to the A. & M. short course this summer.

The characters in the play have been carefully selected by the members of the club and an evening of real entertainment is promised for all who attend.

At the meeting of the directors of the chamber of commerce Monday evening three representatives of the club solicited, and were promised, the support of the organization in making the play a success. All present at the meeting purchased tickets and promised to attend, if possible.

An admission charge of 15 cents for adults and 10 cents for children will be made for the play.

**19th Convention of WTCC to Start at Brownwood in May**

BROWNWOOD—Program for the 19th Annual Convention of the West Texas Chamber of Commerce to be held in Brownwood, May 10, 11 and 12 has been outlined and includes business discussions and entertainment features of interest to every West Texan.

Brownwood and the WTCC convention office here are making plans to entertain at least 10,000 people.

Speakers of national prominence will appear on programs of the convention business sessions. "West Texas Follies of 1937" in which West Texas' most beautiful girl will be crowned Queen will be staged Monday and Tuesday nights, May 10 and 11. Dances at

**"MADE TO ORDER FOR ROLL-YOUR-OWNERS"**

says PETE KERSCHER, who allows he's never seen the equal of Prince Albert!

PA. IS MILD, BUT THERE'S PLENTY OF BODY AND GOOD RICH TASTE!

SEE **BROWN'S** Transfer and Storage FOR MOVING & STORAGE Agents For **T. & P. TRANSPORT**

PETE KERSCHER says what most everyone agrees on in this section: "I've never seen the equal of Prince Albert for smooth, cool 'makin's' cigarettes. I smoke steady all day, but P.A. is always mild and tasty. Never bothers my throat or tongue."

Around here Prince Albert is the choice for those TASTY "makin's" cigarettes. Rolls fast, burns SLOW and COOL because "crimp cut." The special "no-bite" process makes it EASY on the tongue. PRINCE ALBERT MEANS REAL PIPE JOY TOO!

**PRINCE ALBERT**  
70 fine roll-your-own cigarettes in every 2-ounce tin of Prince Albert.

**PRINCE ALBERT**  
70 fine roll-your-own cigarettes in every 2-ounce tin of Prince Albert.
