UNITED PRESS SERVICE BRINGS LATE NEWS OF THE WORLD TO TIMES READERS

RANGER, TEXAS, WEDNESDAY EVENING, FEBRUARY 8, 1939

PRICE TWO CENTS

NO. 205

Rumor hath it that Great Britain may reopen the question of war debts to the U. S. in the light of new threats to the empire's security. She probably wants to add a few ciphers to that string.

## PROJECT RANGER IS APPROVED

Approval of a WPA project for Ranger was announced today by the City Commission. The project, which is being handled by L. Garrett and J. J. Connelly, is for the construction of a new sewer system for the city.

The allotment is for \$10,000. The project is being handled by L. Garrett and J. J. Connelly, who are in charge of the city's sewer system.

The project is being handled by L. Garrett and J. J. Connelly, who are in charge of the city's sewer system. The allotment is for \$10,000. The project is being handled by L. Garrett and J. J. Connelly, who are in charge of the city's sewer system.

## Wildlife to Convene

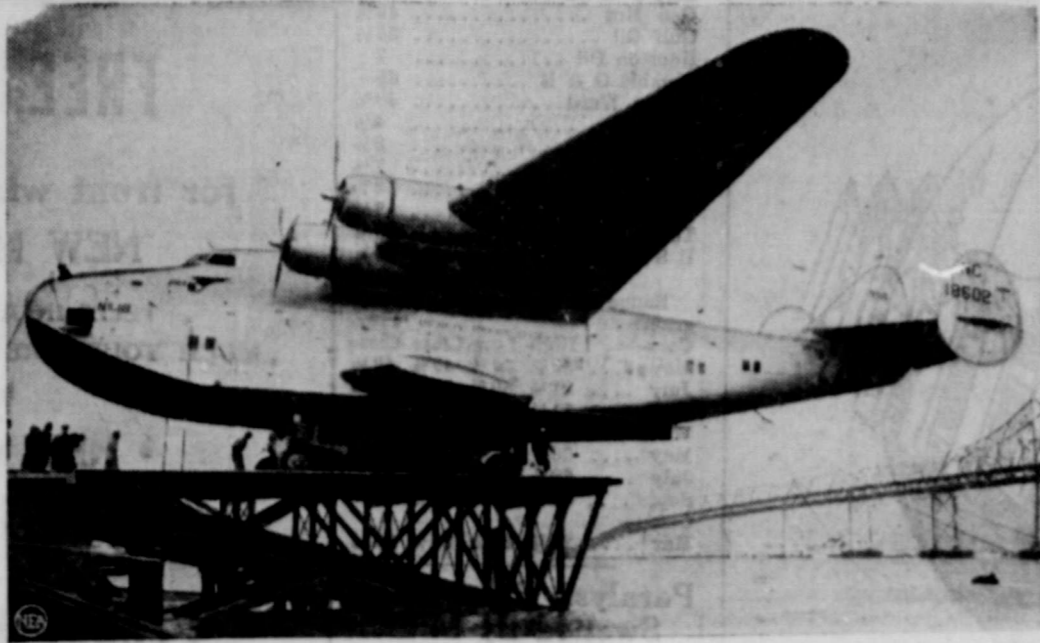

The Wildlife Conservation Commission will convene at the Eastland Hotel in San Antonio, Texas, on Thursday, Feb. 9. The commission is composed of representatives from various agencies and is charged with the task of conserving the state's wildlife resources.

## Sex Rooster

A sex rooster was found in a flock of chickens on a farm near Ranger, Texas. The rooster was found to be a rare breed and is being kept by the farmer.

## Weather

The weather is expected to be cloudy with a chance of rain today. The temperature will be in the 40s and 50s.

Just wheel it into the hangar, boys. Easy to say, but not easy to do when you're handling the world's largest commercial airplane, 42-ton Boeing clipper No. 18 of the Pan-American Airways, shown above being brought ashore at Treasure Island air terminal in San Francisco for a checkup before going into trans-Pacific service. A combined railroad and elevator does the trick.

## PLANS ARRANGED FOR ANNUAL SAFETY MEET

(Special) ABILENE, Feb. 8.—Men who founded and have developed the Oil Belt Safety Conference in four years to one of the largest and most effective in the country came Tuesday night to Abilene and told local men the objectives and program of the conference, and the work that must be done to make the 1939 meeting, here May 4 and 5, the best.

Forty men met at the chamber of commerce to review the preparations necessary to promote the two-day program. Those who have attended previous annual meetings, in Ranger, Breckenridge and Eastland, predicted the Abilene meeting would attract more people to the city than any convention in the city's history. S. M. Shelton, chairman of the Abilene chamber of commerce traffic safety committee, presided.

L. H. Taylor, Ranger, president of the conference, outlined its objects and program. Others heard were J. C. Watson, Abilene, conference secretary; Sam Gamble, Eastland; Chief of Police W. J. Peters, Eastland; Secretary H. J. Tanner of the Eastland chamber of commerce; Horace Conley, Cisco, conference vice president; Manager C. E. Sawyer of the Breckenridge chamber of commerce; Fire Chief G. A. Murphy of Ranger; H. S. Fatheree, assistant superintendent, of Abilene schools; County Judge Carl P. Hulsey; Sim O'Neal, deputy supervisor, railroad commission oil and gas division; Cecil Loukas, Breckenridge; Chester Rogers, Ranger.

Committee chairmen for the 1939 conference were named, as follows: first aid, Chester Rogers, Ranger, chairman, Ray Marshall, Abilene, vice chairman; arrangement, Elbert E. Hall; parade, J. Ray Roe, publicity, Gene Elso; schools, L. E. Dudley; finance, E. A. Ungren and O. B. Stephens, co-chairman.

The Oil Belt Safety Conference, President Taylor said, was organized in Ranger in 1935 by two industrial safety engineers. He told of industry's experience with the promotion of safety; how years ago improvements in machinery and elimination of physical hazards, followed by enactments of law to protect industrial workers failed to stop an increase in accidents; and how the training of the men themselves is doing the job.

Industry found, he pointed out, that the human element had to be controlled and to do this it spends millions annually to train employees. Today safety work centers upon education and discipline through law enforcement.

Object of the Oil Belt conference is to bring a safety program to the public—to make people safety conscious. Experience with this Oil Belt organization has been that in communities where the conference has been held the people have become very much more conscious of safety than they had been.

## CATALONIA IS ABANDONED BY JUAN NEGRIN

(Special) PERPIGNAN, France, Feb. 8.—Premier Juan Negrin and the Spanish Republican general staff, abandoned Catalonia today before the advancing insurgents and entered France.

Negrin refused to discuss his previous plan to fly to Valencia and continue the war from Central Spain. He was accompanied by chief of staff, Gen. Vincente Rojo, and other officers of the general staff.

The party came across the border after the fortress at the temporary capital, Figueras, had been blown up, apparently in a new advance of the nationalist armies, closing in on the frontier.

Negrin met the general staff in republican headquarters at a private home on the Spanish side of the border town of Perthus. He spent most of the day trying to convince them that they should accompany him by airplane to Valencia to continue the war.

The result of the conference was not disclosed, but it was believed that the general staff had refused Negrin's plea to go to Valencia.

It was expected that Gen. Jose Miaja, commander of the Madrid sector, would start independent negotiations with Generalissimo Francisco Franco if Negrin and Rojo were unable to reach Valencia.

## Frances Perkins Defends Herself Before Hearing

(Special) WASHINGTON, Feb. 8.—Secretary of Labor Frances Perkins, defending herself against an impeachment resolution, said today that the record of her conduct in office shows a consistent purpose to support the ideals of democracy.

Miss Perkins appeared before an executive session of the House Judiciary Committee, to defend herself against the resolution, which was introduced by Rep. J. Parnell Thomas, republican, New Jersey.

Thomas had charged that she violated immigration laws by failing to deport Harry Bridges, west coast labor leader. Miss Perkins denied that and said she had "entire faith and confidence" that congress would "protect me and my rights and my reputation if I have done no wrong."

## Notice of Affirming Case Is Received By District Officials

Mandate from the Court of Criminal Appeals at Austin which affirmed a case in which May King had been given a sentence of 90 days and a fine of \$100 for driving intoxicated has been received. Criminal District Attorney Earl Conner, Jr., stated Wednesday.

## County Cage Title Series Will Begin At Cisco Tonight

First of a series of games between the Cisco Lobos and Morton Valley basketball teams to determine the county champion will be played on the Cisco court tonight at 7:30.

The Cisco team won the Class A title while Morton Valley is the Class B champ. Second of the series of games will be on the Morton Valley court Thursday night and a third game, if necessary, will be played on a neutral site.

Survivors beside his wife and one son and daughter are the following brothers and sisters: H. E. Lawrence of Eastland, A. T. Lawrence of Coleman, Ross Lawrence of Comanche, Okla., A. L. Lawrence of Snyder and Mrs. P. K. Lofton of Snyder.

## LADIES' NIGHT ROTARY CLUB BIG SUCCESS

What was declared by all who attended to be the best Ladies Night program the Ranger Rotary Club ever presented, was given Tuesday night at the Gholson Hotel.

The banquet room was beautifully decorated in a Valentine motif, with red and white streamers of crepe paper forming a ceiling and all the columns in the room being decorated with red and white, with red hearts superimposed upon a white background.

A unique decorative feature was a Rotary Wheel, carved from ice by Tony Toti, chef of the Gholson Hotel. The ice wheel was on a hollow ice pedestal, with interior lighting which illuminated the entire wheel. The whole design was carved by the chef with a hand saw and chisel.

The program was opened with an old fashioned grapevine handshake, followed by group singing led by W. T. Walton, with Mrs. Weldon Webb at the piano. The songs were in keeping with the Valentine season.

The entire program was presented cabaret style, with each course of the dinner being followed by one part of the program.

The invocation was pronounced by Rev. Charles T. Tally, Jr., after which the program was turned over to Felton Brasher, president of the Rotary Club, who was toastmaster. Brasher delivered an address of welcome to the Rotary Annex, with a beautiful response being made by Mrs. C. E. May. New members and guests were then introduced.

The toastmaster then turned the program over to the program chairman, who brought out the first surprise of the evening when he introduced the toastmaster's son, Pete Brasher, as master of ceremonies. This phase of the entertainment was a complete surprise to the toastmaster.

Pete Brasher called upon the assembly to join in group singing, the song selected being "Let Me Call You Sweetheart." As the song was sung the Rotarians presented their wives with favors.

## Lace Gets the Edge in Fashion

Crisp dotted Swiss embroidery outlines the V neckline of Mainbocher's soft navy wool dress. Note the molded silhouette and the Victorian sleeves, also the petticoat showing below the slightly flared skirt.

## DISTRICT MEET OF LIONS WILL BE IN RANGER

A district meeting of Lions Clubs, with visitors from Eastland, Cisco, Breckenridge and Albany, will be held at Ranger, Thursday night, Feb. 9, with members of the Ranger club as hosts.

An interesting program for the affair has been worked out by the entertainment committee from the Ranger club, with each club in the district furnishing a part of the program.

Officers of the Ranger Club stated today that the meeting would be entirely informal.

No word had been received in Ranger this morning as to what the other clubs would have as their contributions, but each has been allotted a portion of the time.

Dr. Rupert E. Richardson of Hardin-Simmons University, governor of District 2-E, will be the principal speaker of the evening.

The Ranger portion of the program, in addition to the address by Dr. Richardson, will be presented by Mrs. Mamie Ruth Hamrick's sextet.

## PENSION BILL ACTION HAS BEEN URGED

AUSTIN, Feb. 8.—A resolution asking the Texas House of Representatives to give preferred consideration of old age pension bills was sent to a committee today.

Two other resolutions to create a "business man's" committee, to study ways of eliminating the deficit in prison operations, were referred to the House Penitentiaries Committee. The committee, composed of eight members, was recommended yesterday by Gov. W. Lee O'Daniel to search for ways of eliminating the \$1,000,000 a year loss in prison operations.

The pension resolution was offered by Rep. Jim Pace of Gainesville, who referred to Gov. O'Daniel's transactions tax for paying pensions as "a tax on weak and strong, on rich and poor alike."

It was the first time that even indirect support of the transactions levy had been expressed upon the floor of the house.

A hearing on the governor's plan has been set for Feb. 15, by the committees on revenue and taxation, and constitutional amendments.

Approximately 125 visiting Lions and their ladies are expected to be in attendance from the five towns.

## COLD WEATHER SWEEPS DOWN FROM NORTH

Icy winds blew down from Canada and the Rocky Mountains today and temperatures in Texas fell toward freezing.

By Thursday night, government forecasters said, the cold wave will be felt all over the state and it will be freezing as far south as the upper coast.

The cold came suddenly. At Amarillo the temperature dropped from 56 yesterday to 16 today. Abilene reported a drop of from 74 degrees to 38 degrees and Wichita Falls from 72 to 24.

At Dallas the temperature fell from 74 degrees to 40, then warmed up a few degrees when the sun came out, but the weather bureau forecast that the temperature would drop again tonight to 20 and possibly as low as 12.

Other temperatures this morning included 60 at Brownsville, 62 at Corpus Christi, 32 at El Paso, 58 at Galveston, 44 at Houston, 52 at Palestine, and 33 at Fort Worth.

A polar cold front, sweeping eastward from the Rocky Mountain shelf, dropped temperatures more than 50 degrees in the middle west. It carried dry, icy air south and east to 35 to 40 miles an hour last night, and tonight was expected to spread freezing temperatures, or below, across the Ohio River flood area, thus reducing danger of overflows due to melting snows.

## Local "Will Hays" For Texas History Is Being Urged

(Special) FORT WORTH, Texas.—Local critics suggest that the motion picture industry have another "Will Hays" to insure factual handling of Texas history.

One movie fan has complained that Marc Lorentz, federal government movie producer, referred to "The Virginia Gentleman" who "stole" Texas from the Mexicans as being "drunk with the Creek Indians for eight years before he did it."

"We've always been taught," reported the critic, "that it was a Tennessee gentleman and that he possessed the jug around with the Cherokee during that lengthy liquor bout."

Fort Worthians also suggest that Republic Pictures be given a volume on Texas history. They accuse that organization of distributing advance publicity on "Man of Conquest" telling how Davy Crockett lay ill during the siege of the Alamo. James Bowie was the Alamo defender who was bedridden.

John Winters of Mineral Wells, general chairman of the contest, said the premiums will be the largest ever offered for such a contest in the southwest. Day money for dancers for each of eight days will be \$20, \$15 and \$10 for first, second and third places, respectively. The grand champion, to be selected on the final day, will receive the trophy and \$75. Second winner will get \$50 and third, \$25.

Prizes Are Offered For Square Dances At Fat Stock Show

(Special) FORT WORTH, Texas.—A trophy and \$510 in cash will be awarded as prizes during the ninety-day square dance contest at the Southwest Exposition and Fat Stock Show here March 10-19.

John Winters of Mineral Wells, general chairman of the contest, said the premiums will be the largest ever offered for such a contest in the southwest. Day money for dancers for each of eight days will be \$20, \$15 and \$10 for first, second and third places, respectively. The grand champion, to be selected on the final day, will receive the trophy and \$75. Second winner will get \$50 and third, \$25.

Road Project In County Approved

(Special) SAN ANTONIO, Feb. 8.—Twenty-eight Works Progress Administration projects, involving expenditures of \$459,430 in federal funds, and \$223,302 supplied by local governmental agencies, have been approved, Starns S. Tucker, deputy state administrator announced today.

Projects approved, with amounts of federal funds, sponsor's funds, and number of workers to be employed, included:

Eastland county: Widen, grub fence, cut hills, gravel, 4.2 miles of farm-to-market roads north of Eastland; Federal funds, \$22,828; Sponsor's funds, \$5,856; workers, 147.

## College Fishing Should Start With Izaak Walton

And now, in the midst of that strange mixture of the learned and the practical which constitutes higher education today, comes a course in fishing.

Columbia University's Teachers College, which has in the past taught baseball, poultry-raising and piano-tuning, is going to teach fishing. Beginning Feb. 13, Dr. Francois D'Eliscu will survey in eight weekly lectures the whole field of fishing from baits and lures down to cooking or mounting the catch. And John Alden Knight will teach an advanced course in "The Theory and Technique of Fresh Water Angling."

Just when one is about to wax indignant at this perversion of the higher education, there comes a quiet voice of remonstrance echoing down through the corridors of nearly 300 years. It is the voice of gentle Izaak Walton, who once fished the untroubled streams of England.

"You know, gentlemen, 'tis an easy thing to scoff at any art or recreation: a little wit, mixed with ill-nature, confidence, and malice, will do it . . ."

"And for you that have heard many grave, serious men pity Anglers, let me tell you, Sir, there may be men that are by others taken to be serious and grave men, which we condemn and pity. Men that are taken to be grave, because nature hath made them of a sour complexion, money-getting men, men that spend all their time, first in getting, and next in anxious care to keep it; men that are condemned to be rich, and then always busy or discontented; for these poor-rich men, we Anglers pity them perfectly . . ."

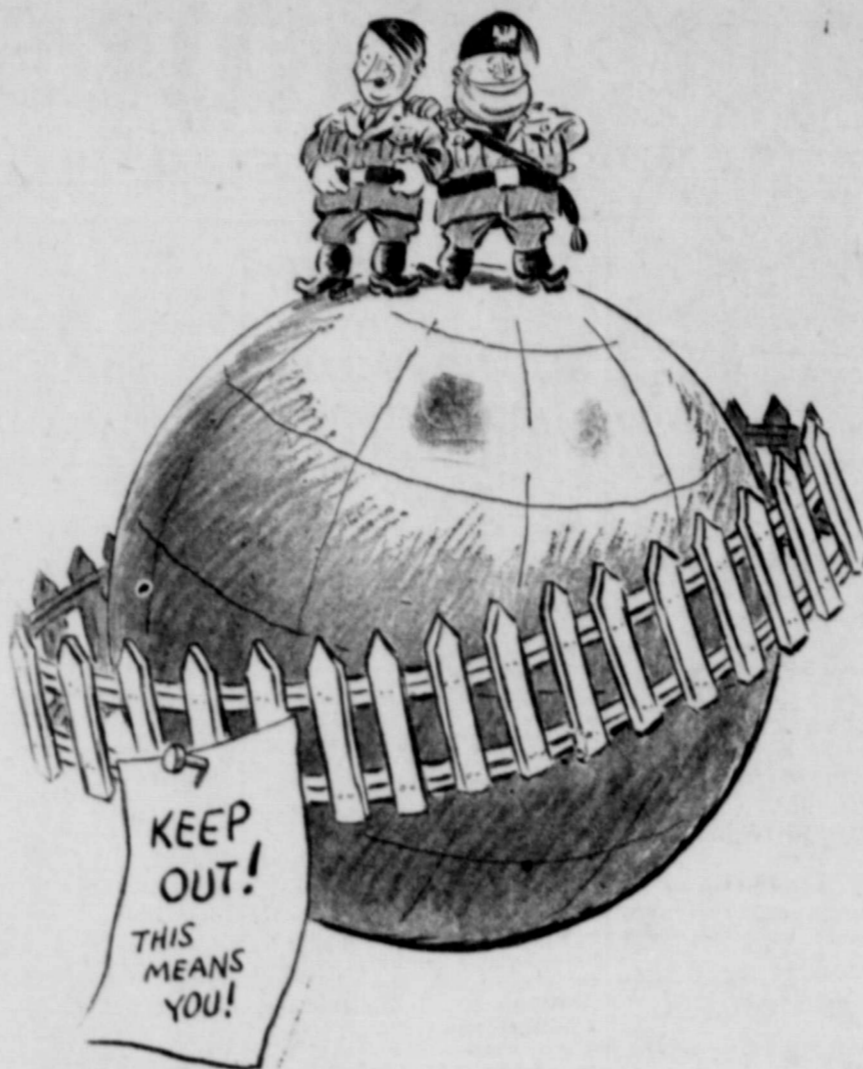

Now if the Columbia anglers will only use old Izaak for their text-book, and teach a coming generation of fishermen to be the philosophers that all good fishermen ought to be, possibly even fishing may be made a fit subject for higher education.

The gentle Walton learned things prevaillingly forgotten today, and if these may be drawn in at the end of a rod with a fine pickarel, so much the better. Said Walton, counting his many blessings of clean conscience, contentment, and a quiet heart:

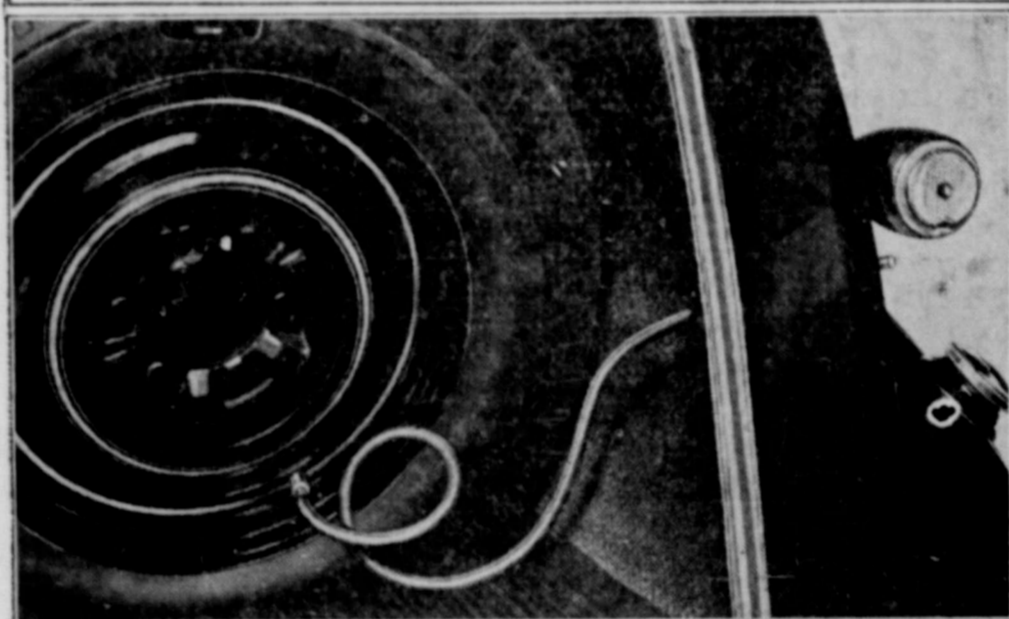

"And for most of them, because they are so common, most men forget to pay their praises; but let not us; because it is a sacrifice so pleasing to Him that made that sun, and us, and still protects us, and gives us flowers, and showers, and stomachs, and meat, and content, and leisure to go a-fishing . . ."

Keeping the mouth shut is recommended as a great aid to health. It's good for the teeth too, since opening the mouth at the wrong time permits a handful of knuckles to break the teeth.

## All They Want Is to Be Left Alone

## Another Convenience for Motorists

Since spare tires have been retired to the innermost recesses of built-in trunks, many motorists have a tendency to overlook them when other tires are checked. A new device has been made available to Chevrolet owners which permits inflation of the spare tire, without opening the trunk, through a valve connection installed outside the trunk door. Thus the spare tire pressure can be watched as conveniently as the other tires, without moving trunk luggage.

## Short Cut Taken In Passing Bills Speeds Up House

AUSTIN, Texas.—Every session of the legislature a short cut is taken that may kill a bill. Certain rules prevail for passage of bills of general nature. Local bills can pass under less stringent procedure. To offset this leniency in the legislature, the statutes require that notice of a local bill be published locally before presentation to the legislature. To get around the necessity of such notice some one devised the plan of drawing a local bill in such a way that it would pass muster as a general bill. It then goes through the legislature with the announcement of the sponsoring senator and representatives that "it doesn't affect any other place."

Courts have warned that such a classification is not valid unless there is a reason for different population, but the bills still are passed that way.

## Crack-of-the-Week Concerns Governor

AUSTIN, Tex.—Many quips came from the inauguration and succeeding events in the Texas Legislature, but one of the sharpest concerned the Senates' opposition to Governor O'Daniel's highway and tax commission appointments. Crack-of-the-week was: "It's a good thing that the Senate didn't have to confirm the governor's election."

## Hungry Hounds Jail Mistress

Shown with two of 34 starving dogs, found tethered to her San Francisco home, Mrs. Douglas Brown, under arrest, said the animals were being used in study for psychology degree, had been well fed until financial support was withdrawn by sponsors.

## Applications Set Civil Service Mark

WASHINGTON.—The Civil Service Commission received more applications for jobs during the last half of 1933 than during any previous six-month period, according to figures just released.

## 300 Baptists Take Part In Meeting at Cisco On Tuesday

CISCO, Feb. 8.—More than 300 Baptists from the Cisco district, comprising the three counties of Eastland, Shackelford and Stephens, were here Tuesday for the regular monthly meeting of the workers' conference at the First Baptist church. The morning session was occupied with a general meeting with Rev. H. D. Blair, associate missionary and moderator of the conference, presiding. The Rev. N. Balderee, H. N. Balderee led the devotional and there were addresses by the Rev. R. L. Nipp of Moran, Mrs. J. B. Buckley, district W.M.U. president and the Rev. J. I. Carlidge of Eastland. The Rev. Bradley Allison, pastor of the Riverside Baptist church of Fort Worth, preached the sermon. The afternoon period was occupied with two meetings, one of the Woman's Missionary union, and the other of the associational board.

There seems to be a new note in the diplomatic exchanges between Germany and the United States.

STORY WOMEN WANT BEAUTY!

BY LOUISE HOLMES COPYRIGHT, 1939, NEA SERVICE, INC.

The carriage was a roadster, long and low and swanky. Susie tripped on her long dress and literally fell into the seat. The top was down and the night air blew some of the frizz out of her hair, leaving dismally unmanageable strands. On the drive to the fraternity house she laughed too much, talked too much, was jumpy as a toy balloon. All at once Susie was stricken with fear. What went on at a fraternity dance? She hadn't an idea. Excitation dissolved and with it went confidence. "I've never been to a nice party," she said to Dick. "Maybe I shouldn't have come."

her and Dick's angry exclamation. Bewildered, she saw Dick tear the pledge pin from his vest. The older boy backed away, rearing the pin, laughing, saying, "Okay—you don't need to get sore." None of it made sense to Susie. Sitting comfortably in the roadster beside a strangely preoccupied escort, Susie pondered over the incident in the hall. Obviously the upper classman had not wanted Dick to kiss her. Her blood pounded furiously at the thought. And Dick had been angry at the interference. Tremblingly, Susie waited. At last she glanced at him from under her heavy brows. "Why didn't he want you to kiss me?" she asked, rather ingeniously for one unversed in subtleties. Dick looked at her quickly, startled. He muttered, "Those guys had better mind their own business."

What Susie had answered still lay like a scorching coal in her heart after four years. She had said, "Well—if you want to and—and if I don't care—" Flaming with indignation, Dick, hungry for love, flung with it. DICK stopped the car at Susie's shabby rooming house. "Look," he said, "I don't like fellows who kiss every girl they take out. I think it's common and not very complimentary to the girl."

Traffic School Set Up for Motorists

By United Press EAST HARTFORD, Conn. — Ding-dong, ding-dong, school's open for all traffic violators — and a big red apple won't influence the teacher. In their survey of means of combatting highway infractions, state motor vehicle officials hit upon an experimental plan—the first in New England—of sentencing violators to school, should they be unwilling or unable to pay a fine. Classes of one hour each week for six weeks were decided upon, with instructions by experts in rules of the road, courtesy to other drivers, and pedestrians, and safe operation of an automobile. At the end of the course, "pupils" must pass an examination prepared by the clerk of the court. There are no diplomas. eDD— wxyttat cmfwp cmf hm

FSA WILL SEEK FUND FOR NEW CO-OP FARMS

By FRED BAILEY United Press Staff Correspondent WASHINGTON, D. C.—Rexford Guy Tugwell's most famous brain-child — co-operative farming — can stand alone now. Tugwell, a member of the original New Deal brain trust and under-secretary of agriculture, fathered the idea of community farming four years ago while administrator of the Resettlement Administration. Dr. William A. Alexander, a former Southern minister, who succeeded Tugwell, has become the foster parent of the growing child. The only change has been in remaining Resettlement Administration to Farm Security Administration. There are four large co-operative farms—Casa Grande, Ariz., La Forge, Mo., Lake Dick, Ark., and Irwinville, Ga.—ranging from 3,500 to 11,000 acres each and operated on a community basis under FSA supervision. The most successful of these farms in 1938 was the 4,200-acre tract operated as the Casa Grande Valley Farms, Inc., near Coolidge, Ariz. It provided 60 families with a "fair income" and may show a

slight profit to the government. Casa Grande is the prize "guinea pig" of the co-operative experiment in which the FSA expects to interest Congress to the extent that appropriations may be obtained for scores of other similar enterprises. The government has invested more than \$500,000 to establish the 60 families, recruited principally from migratory laborers, in comfortable modern homes, rent free. The entire tract of fertile, irrigated land in the Gila Valley is community farmed. Each family received a guaranteed income of \$50 a month and a share in any income from the farm above that amount. If the project reaches expectations of the FSA, each family ultimately will receive \$1,200 a year, in addition to housing. The families did not buy anything when they moved in and will never own any part of the project. When any disgruntled family leaves another takes its place. The project and all property remain in government hands. The corporation must pay the government one-fourth of the proceeds from the sale of its three principal crops—hay, cotton and wheat—the annual amount to be not less than \$8,300 nor more than \$22,847. The latter would mean a 3 per cent interest on the development. From the cash income each family buys its needs from a community commissary at wholesale prices. Each family has a one-acre plot for a garden. The government decides what is to be

Mr. and Mrs. S. D. Preslar and son, Sanford, and Mr. and Mrs. E. R. Hanp of Fort Worth, visited Mrs. Cora Preslar and daughters, Eunice and Eula, Sunday.

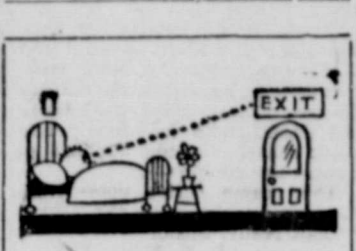

### Birth Records Show Englishman Is 109

By United Press  
LONDON—Doctors at a London hospital received a surprise when Charles H. A. Arnold walked into the out-patients' department to seek advice about his eyesight. He gave his age as 109.

Arnold, although he walked slowly, needed little support from his walking stick. He was born when George IV ruled, when Sir Walter Scott was still writing his novels and Coleridge and Wordsworth were penning their poems. An entry in the baptismal register of a London church, recording the birth on July 11, 1829 of Charles Henry Alfred Arnold is Arnold's proof of his age.

Without Calomel—And You'll Jump Out of Bed in the Morning Earliest to Go  
The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up, your stomach, you get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

A more bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. It costs. Stubbornly refuse anything else.

AN accident is one thing that costs nothing to get into but so much to get out of.
