## BULLDOGS WILL TAKE TO ROAD IN '39 SEASON

The Ranger Bulldogs of 1939 might well go under the name of the "Ranger Ramblers," as the football schedule for the team, worked out by Coach Bill Tipton, calls for seven games away from home and three at Bulldog Stadium. Of the three home games only one is a conference affair, being with Mineral Wells.

During its travels the Ranger high school football team will go to El Paso, San Antonio, Wichita Falls, Cisco, Breckenridge, Brownwood and Stephenville, the longest trip being to El Paso, where they will play Ysleta in the first game of the season on Sept. 15.

Home games for the Bulldogs will include a game with Weatherford on Oct. 6, one with Eastland on Oct. 20 and one with Eastland on Nov. 24.

The complete schedule of 10 games was announced by Tipton as follows:

## Boys Are Warned About Flying Kites Near Electric Wires

With the kite flying season at hand, Texas Electric Service Company issued today its annual appeal to parents to warn children flying kites to keep away from electric power lines.

"That the innocent pastime of kite flying can be exceedingly dangerous is brought out forcibly by the fact that many accidents occurred in the year just past because of children getting their metalized kites tangled in power lines," according to J. E. Lewis, district manager of Texas Electric Service Company.

"Too often children use metal wire in the place of string on their kites and when this wire comes in contact with a power line the result is instantly disastrous. Even plain kite strings sometimes carry current, especially if the string is wet. The best idea, regardless of how the kite is built or what kind of string is being used, is to see that it is flown in open spaces where no power lines are located," Mr. Lewis stated.

"If a kite should become entangled in power lines, be sure that children do not climb the poles or use long sticks to try to get the kite down. Call our company office and a trained lineman will be sent to rescue the kite if it is possible to do so."

Employees of the electric company will pay their annual visit to local schools shortly and will make a detailed explanation of the dangers of flying kites near power lines.

## FRENCH PLANE SALES URGED BY PRESIDENT

WASHINGTON, Feb. 18.—Secretary of Treasury Henry Morgenthau, Jr., told the Senate Military Affairs committee, it was disclosed today, that President Roosevelt considered the sale of new-type American war planes to France "good business."

Morgenthau said that "instead of being ashamed" of the transaction, "it was something to be proud of."

As the committee revealed another chapter in the story of the cooperation given to a French air mission at the President's direction, Morgenthau was shown to have testified that the French representatives were "under pledge that none of these planes should leave France and that none of them should be shown to anybody."

Morgenthau said that France had been prepared to spend \$65,000,000 for 1,000 planes, provided deliveries could be made within six months, by July 1. France actually ordered about 600 planes in addition to 100 bought last year.

The new chapters of testimony bore out the general outline of the situation previously revealed as surrounding the negotiations that the army objected to the sale of some of the newest fighting planes being developed in this country, but that the president directed that the negotiations be assisted, nevertheless.

WASHINGTON, Feb. 18.—An authoritative source today said that President Roosevelt is seriously considering securities and exchange commission chairman William O. Douglas for the supreme court vacancy, caused by the retirement of Justice Louis Brandeis.

The main objection to Douglas was said to be geographical. He is a "transplanted" westerner, now residing in Connecticut. It was understood, however, that Mr. Roosevelt would not let that factor stand in the way if it means depriving the court of proven talent.

Considerable pressure is being exerted from Western congressmen for a representative on the court since none of the present justices reside west of the Mississippi.

The authoritative source said the president might change his mind during a two-week vacation in the Caribbean. Before leaving Washington Mr. Roosevelt indicated he would not name Brandeis' successor until his return early in March, but it was understood Douglas was getting major consideration.

Fire Chief G. A. Murphy gives much of the credit for the fire record to an efficient department and the booster tank truck, which has put out many fires before other equipment could be put into use.

A score of bricklayers, carpenters and general helpers were called in today as preparations were speeded for the meeting.

Funeral rites were conducted Saturday afternoon at Sylvester for J. M. Free, 63, brother of Mrs. Maggie Perdue of Eastland.

Mr. Free died after an illness of two years. Born in Belton, he had resided at Sylvester 23 years.

Rev. H. W. Hanks of Hamlin, assisted by Rev. C. W. Parmenter and O. D. Henley of Sylvester, conducted the services at the Sylvester Methodist church.

Survivors are his wife; one brother, J. E. Free, Putnam; three sisters, Mrs. M. J. Bolding of Ring Star, Mrs. Ora Compton of Colorado, and Mrs. Perdue of Eastland; one daughter, Mrs. A. L. Josey of Sylvester, and one son, E. S., of Goldston, and five grandchildren.

Interment was in Sylvester cemetery.

## RANGER'S FIRE CREDIT RAISED BY 5 PER CENT

Word was received in Ranger late Friday night that the city had been granted an additional five per cent fire insurance credit, making a total credit of 15 per cent for the city. Maximum credit a city can obtain is 25 per cent.

Saturday morning it was pointed out that this makes a total of 30 per cent reduction in fire insurance rates for the city, as last March the city obtained a 25 per cent reduction. In 1937, because of bad fire records several years ago, Ranger had a penalty of 15 per cent. The 25 per cent obtained last year made a 10 per cent credit and the additional five per cent this year raises the credit to 15 per cent.

C. E. May explained this reduction in dollars and cents Saturday by giving the following examples:

"In 1937 Ranger had a 15 per cent penalty. This meant that for every dollar's worth of insurance one had to pay \$1.15. In March 1938 the 10 per cent credit made it possible for residents of the city to buy a dollar's worth of insurance for 90 cents, and now it can be obtained for 85 cents."

"With another year like the past two, when fire losses have been at a minimum, Ranger could be rated as high as 25 per cent, meaning that one would have to pay only 75 cents for each dollar's worth of fire insurance."

It was estimated the new rating would save \$2,000 to \$3,000 annually.

Much of the credit for Ranger's splendid fire record is given to Hal H. Hunter, fire and police commissioner, and Fire Chief G. A. Murphy. Both have worked hard to obtain a better fire record and better insurance rating for the city.

Last week Hunter wrote to the state insurance commissioner and requested that Ranger be re-inspected, in order to determine if anything could be done to eliminate fire hazards and to preserve Ranger's good fire record of the past two years.

An inspector was sent to Ranger last Thursday. He inspected all fire plugs and mains, to determine the amount of water pressure, inspected all fire fighting equipment in the city and looked over the entire fire zone to determine if there were any hazards that should be removed or corrected.

His final report has not as yet been received, it was stated Saturday, but is expected soon. This was the first re-inspection Ranger has been given since 1934. The inspector stated that many towns in Texas had not been re-inspected in eight or nine years, but that Hunter's interest in keeping down fire hazards was appreciated and the inspector was sent on his request.

Fire Chief G. A. Murphy gives much of the credit for the fire record to an efficient department and the booster tank truck, which has put out many fires before other equipment could be put into use.

## France Reclaims African Territory

PARIS, Feb. 18.—France, moving to offset Italian claims in East Africa, has re-occupied a triangle of territory on the western border of French Somaliland, which was ceded to Italy in 1935, a foreign office communique revealed today.

The communique said that Senegalese infantry had established a modern frontier defense system of connected outposts in the triangle.

## EASTLAND ASKS NEXT DISTRICT LEGION MEET

Eastland will make a spirited bid for the next meeting of the 17th district American Legion convention at a session Saturday and Sunday, Feb. 25 and 26, in Sweetwater.

Henry Pullman, commander of the post, disclosed the plan to secure the convention Saturday. He said Eastland would have a large representation to promote the city's bid for the meeting.

The district is composed of Eastland, Callahan, Taylor, Nolan, Stephens, Palo Pinto, Comanche, Erath, Hamilton, Brown, Coleman and Young counties.

## President Azana Demanding Peace In War-Torn Spain

PARIS, Feb. 18.—President Manuel Azana of Republican Spain, was understood today to have sent an ultimatum to Premier Juan Negrin, threatening to break relations with the Negrin government if it refuses to seek peace.

If Negrin refuses it was believed that Azana would issue a proclamation declaring the Negrin government in rebellion against the republic's highest authority. If Negrin accepts, Azana is ready to open negotiations with the French and British governments to obtain their intervention.

## Pope Election To Be Held March 1

VATICAN CITY, Feb. 18.—A high Vatican prelate said today that the conclave, which is to elect a successor to Pope Pius XI, would open late on the afternoon of March 1. There was a possibility that the conclave would meet Feb. 28 if all the cardinals from the American Hemisphere arrived in time, the informant said.

A score of bricklayers, carpenters and general helpers were called in today as preparations were speeded for the meeting.

Funeral rites were conducted Saturday afternoon at Sylvester for J. M. Free, 63, brother of Mrs. Maggie Perdue of Eastland.

## PRESIDENT IS WATCHING ALL FOREIGN MOVES

KEY WEST, Fla., Feb. 18.—President Roosevelt is concerned about the international situation, and may be forced to cut short his cruise with the fleet and return to Washington ahead of schedule, it was revealed today as he sailed for the navy maneuvers.

From the highest sources came the word that the international situation is still regarded as disturbing. In view of this Mr. Roosevelt has arranged his program in order that he can return home before March 3 or 4 as originally planned.

Information being received by the president, it was understood, relates to the possible renewal of demands by certain countries, the demands being advanced not through diplomatic channels, but through the more recent technique, which plays on the fears of aggression.

It could not be learned, however, what countries the president has in mind. The foreign reports have been received by him since his arrival in Florida last night, it was learned.

## Bids Are Asked On Pension Loan

AUSTIN, Feb. 18.—The state board of control, acting as the Texas Old Age Assistance commission, today called for bids on Feb. 24 on a \$900,000 loan for temporary financing of aid under terms of an emergency act of the legislature.

Because the board is unable to determine how much of the amount will be needed before the legislature adopts a permanent finance plan the bidders will be required to show ability to supply all of the amount.

## Economic Balance Is Country's Need

DES MOINES, Iowa, Feb. 18.—Edward A. O'Neal, president of the American Farm Bureau, said today that the lack of economic balance between agriculture, industry and labor is the greatest problem that faces the nation.

"Labor's wage and hour policies have been restrictive," he said. "Because they have led to reduced production at higher wages. Agriculture, on the other hand, has always followed a policy of abundant production."

O'Neal spoke at the final session of the National Farm Institute.

## Police Find Man Stalking President

FLORIDA CITY, Fla., Feb. 18.—Police and secret service men today found a man making his way through underbrush near the car in which President Roosevelt was having breakfast with friends.

They gave chase, but the man escaped in the dense undergrowth along the railroad right-of-way.

Mr. Roosevelt was not aware of the incidence and shortly after he left by motor for Key West.

'I Did Not Know Much,' Said Lincoln of His Youth

The best possible observance of Lincoln's Birthday would be for every American to read some of the words Lincoln has written.

He wrote so clearly, so simply, so beautifully. And he learned practically unaided.

In the brief "autobiography" which Lincoln wrote once in a personal letter just before the Civil War, he told the story of his education:

"There were some schools, so called (in Spencer county, Indiana) but no qualification was ever required of a teacher beyond 'readin', 'writin', and 'cipherin' to the rule of three. If a straggler supposed to understand Latin happened to sojourn in the neighborhood, he was looked upon as a wizard. There was absolutely nothing to excite ambition for education. Of course, when I came of age, I did not know much. Still, however, I could read, write, and cipher to the rule of three, but that was all. I have not been to school since. The little advance I now have upon this store of education I have picked up from time to time under the pressure of necessity."

So the man looked back on the days of his youth. "I did not know much," he recalled. But he taught himself much later on, after school days were over.

That is the key to all education. Its aim is to make a man wise. Some men, true, became wise without any formal education. Lincoln would never have been a fool, even if he had not been able to "read, write, and cipher to the rule of three." He might even have become wise, for he was observant, curious, reflective.

But education, which means in its original sense, merely the "drawing out" of latent abilities, was necessary to bring out the Lincoln who stands like a colossus over the American scene. Lincoln knew, that, and, since ready opportunity was denied him, he fought for every chance to read books, to meet interesting people, to do everything that would widen his horizons and open the broad world to his eager mind.

Read his words, and see how this man who as a youth "did not know much," taught himself mastery of his English language. It enabled him to pass on to people of his own time, and down to us by the written word, the wisdom that came to him as education helped him to develop it.

The ceremonials are well enough. But the best tribute to Lincoln would be for every American to read his inaugural addresses, the Gettysburg speech, his letters and papers. For by his own naked efforts, Abraham Lincoln made himself not only an educated, but a wise man.

Reporters Covered Many Famed Talks And Court Cases

FT. WORTH - Court reporting has kept Jim Feagin on the news front in Texas for 38 years. Transcriptions of his shorthand notes would make a history. He took down the celebrated debate between M. M. James E. Ferguson; the Texas-Oklahoma boundary suit before the U. S. supreme court in 1920 and 1921; and the trial at Fort Worth of Dr. Frederick A. Cook and his associates on charges of mail fraud. "And the transcript of my longest case makes 'Gone With the Wind' look like a mere synopsis," he recalled. That was the 4,620,000 words Feagin wrote on 15,400 pages of paper during the Fort Worth telephone rate case hearings in 1924.

SERIAL STORY WOMEN WANT BEAUTY!

BY LOUISE HOLMES

Yesterday, Susie began her beauty treatments. At first she wanted to back out but Jeff had encouraged her.

CHAPTER XIII SWEN, the physical director, stood over Susie. "How much is the weight?" he asked. About to hedge she answered honestly, "One hundred and sixty."

UPON taking Susie to the gymnasium Swen turned her over to his athlete wife, a grim-faced woman named Emma. She led Susie to a dressing-room and literally squeezed her into a play suit.

Knowing that she resembled nothing so much as a clumsy bear cub she struggled on. At noon, when Susie was weak with hunger, a girl, starchy in a green uniform, brought her lunch.

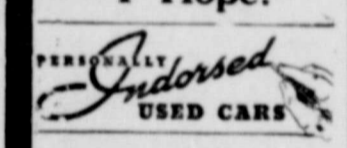

Upon waking, stiff and sore and half starved, she listlessly dressed. Pinning back her hair which was already softer, fluffier, she thought, "Some girls are born with it."

SUSIE nodded feebly while indignation beamed her brows. So they had to sand watch-dog Jeff. They couldn't trust her. Knowing how near, how very near, she had been to ordering just a small portion of ham and eggs, she covered her gut with indignation.

Jeff looked at her admiringly. "Good sport," he said. "How you coming, Susie?" She sighed wearily and pushed at her soft hair. "My back is broken, my stomach is gnawing at itself and I'm a martyr to the cause."

Eddy: "When we realize that there is one Mind, the divine law of loving our neighbor as ourselves is unfolded, whereas a belief in many ruling minas hinders man's normal drift towards the one Mind, one God and leads human thought into opposite channels where selfishness reigns."

### 1920 Club Has Most Interesting Meeting

Ranger club life was featured Friday afternoon when a large number of women, club members and their guests, met in the Colonial Room of the Gholson Hotel for a regular club meeting.

Dr. W. F. Donoho of the English department of Texas State College for Women was presented as guest speaker for the club.

In the absence of the president, Mrs. J. W. Duker, detained at home on account of illness, Mrs. Hagaman was asked to preside for the program. In a few words of welcome to the guests of the club and appreciation of the fact that the guest speaker had come all the way from Denton in such inclement weather, Mrs. Hagaman presented Mrs. Maddocks as the leader for the program.

Mrs. Maddocks briefly spoke of the study of Browning and of the club's interest in this study. She then presented Dr. Donoho, who gave one of the most interesting and delightful lectures on the great English poet, Robert Browning, "the poet of optimism," and why he occupies the place in English literature that is given him. The value of the Browning collection at Baylor University was said to be the most valuable in the world. Many members of the club plan to visit this library and to meet Dr. Armstrong there March 2nd.

All in all this was one of the most outstanding of the many outstanding programs presented by this club.

A social hour was enjoyed before the program, with Mrs. O. L. Phillips, Mrs. J. S. McDowell, Mrs. C. E. Maddocks and Mrs. W. L. Jackson, the committee who arranged the program, and the hospitality committee, presiding.

### Sixth District, Texas Federation Of Women's Clubs, Holds a Most Interesting Club Institute And Board Meeting

More than one hundred club women and board members attended Sixth District Club Institute at Sweetwater, Thursday, Feb. 16.

This is the first institute and board meeting to be held during the present administration. The large attendance attested the growing popularity and importance of club institutes as a means of enlarged club activities. Six club women attended from Snyder in the Seventh District and two from Midland, in the Eighth District.

Mrs. M. H. Hagaman, Ranger, President of Sixth District, presided. All the federated clubs of Sweetwater were hostesses. Mrs. John Perry, former president of the district, was local chairman. Welcome was extended by Mrs. M. K. Stevenson. Mrs. Hagaman gave the response.

The program was arranged and directed by Mrs. Alex Spears, Cisco, District Chairman of club institutes.

Theme for the morning session was Public Welfare. Mrs. W. E. Cantrell, Lometa, district chairman, gave an excellent resume of the Welfare department and presented her departmental members. Dr. Loeb of Sweetwater was presented as the speaker for the department. He spoke of the necessity of cooperation on the part of the public with the medical profession and in the observance of quarantine regulation in the control of preventable diseases.

The luncheon program was featured by the presentation of a beautiful Bluebonnet oil painting to Mrs. Hagaman. The presentation was made by Mrs. Royal Headrick, fine arts chairman. The painting was by Mrs. Floy Sue Tansil, Sweetwater artist.

Mr. Fellows of Speech Department of McMurry College, Abilene, gave several impersonations as the entertainment feature.

Theme for afternoon session was International Relations. Mrs. D. L. Connally, Brownwood, District Chairman, presided and presented her speakers, Mr. Williams, Sweetwater, and Mrs. Gib Callaway, Brownwood, and Miss Ethel Foster, Sterling City. The importance of building international friendship by letting treaties take the place of war was the main thought of this conference.

The board meeting was the opportunity for the chairman of the various departments and committees to present the plans for their work during this administration. Seven of the nine departments were represented by at least one division chairman.

A significant feature of this meeting was the attendance of so many former presidents of the district. Five were present: Mrs. William Reagan, Cisco; Mrs. H. B. Broadus, Colorado; Mrs. John Perry, Sweetwater; Mrs. Greenleaf Pisk, Abilene; Miss Ethel Foster, Sterling City. All these women are still contributing their experience and help in promoting the interests of the State and District Federation.

Also all the elective officers of the district were present: Mrs. C. D. Bruce, Santa Anna, first vice president, and Mrs. C. C. Thompson, second vice president. Only illness prevented Mrs. Carl Hill, secretary, and Mrs. J. W. Duker from attending.

Attending from Ranger were Mrs. Dan Childress, Mrs. Louis Pitcock and Mrs. W. F. Leslie.
