#### There Is Imperialism and Imperialism

The grant to the Standard Oil Co., of California of an oil concession covering the whole kingdom of Saudi Arabia is a very significant event.

Twenty years ago a great cry of "imperialism" would probably have gone up at any such announcement. But the very fact that this concession was obtained by Americans at all shows that today there is imperialism-and imperial-

There is the technical imperialism which is a matter of capital in Country A obtaining economic control of certain resources in Country B. But there is another imperialism afoot today, in which such a concession would be nothing but a stepping-tone toward a greater imperialism, one which would mean actual, tangible, physical and political

It is said to be because he mistrusted their motives that | King Ibn Saud rejected frantic offers for his oil concession on the part of Germany, Italy, and Japan, as well as Britain and France. He felt that none of them would be content merely to exploit the oil and have done with it, for each has political ambitions and plans which might affect Saudi Arabia. The United States has none, as King Ibn Saud well knows.

So, although the American offer was not up to the glittering marks set by special envoys from the German, Itallian and Japanese governments, the king accepted it, knowing it to be a plain, simple business proposition without political stings, from a people who could have no conceivable designs on his country.

So if this be American imperialism-and a few years ago it would certainly have been so called-make the most of it. For it is plain that this Arabian king found it infinitely preferable to the other kinds of imperialism with which he was confronted.

There might be the germ of a thought here for some of the South American countries who have been afraid of American "imperialism," at various times in the past perhaps not as ungrounded fear. But for 10 years the United States has made it quite clear that such business as it does with foreign countries is without political strings. And some of these countries may well start asking themselves, by pouring ginger over the cockist this true of all other countries with whom we may be tail just at the last moment, and a new sauce makes your meat loaf on my menu today you will tites. ### Greyhound Lines Add More Laurels To Safety Records

Dallas-El Paso division opera ors of the Southwestern Grey sound Lines added more laurels to their enviable safe-driving records this month when operator K. A. Jameson of Dallas was awarded a sapphire-studded gold pin for our years of accident-free driving for the Greyhound company, and V. P. Farley of Dallas and Roy V. Benskin of El Paso were riven pearl-bordered gold pins for perating Greyhound coaches two

ears without an accident. In announcing the awards, E. F. reeman, superintendent of the Dallas-El Paso division, stated hat of the 43 operators driving Greyhound coaches in the division, 38 have earned awards for from one to eight years of accident-

free driving. Announcement of the safe drivnig awards also disclosed that the Dallas-El Paso division of the Greyhound line now holds third position in a national safety contest among bus lines, being conducted by the National Safety Council. The Dallas-El Paso divison record for the first five months, of the contest is one acci-dent for every 116,920 miles of peration. National Safety Coun ril rules define an "accident" as any incident in which a moving bus comes in contact with any ob ect. According to Greyhound officials many of the company's "accidents" do not exceed \$1.00 in property damage.
