Have Eyes Tested Early

By IRENE KEATING

This week I've taken several days off. My twin sister, Nelle Albrecht, who is an agent in Arkansas is here for a visit. And my parents came Monday. Mother will visit me and my sister-in-law in Tu'ia while my daddy and brother are hunting in Colorado. So I've had a very nice week.

IT IS IMPORTANT to all of us that we see clearly and well. But how many of you have taken your pre-schooler to have his or her eyes checked? Your child's eyes should be checked for a condition known as "lazy eye" medically called amblyopia. This is a most serious condition which can lead to one-eye blindness if it is untreated. Fortunately it is preventable if diagnosed early and treated in the pre-school years.

There is a slim coloring book available which is designed for pre-schoolers and which will reveal "lazy eye" symptoms that might not even be suspected if a youngster's eyes appear normal. It is "Lazy Eye Coloring Book," Public Health Service Publication

No. 1765. For a free copy write to Office of Information, National Center for Chronic Disease Control, 4040 North Fairfax Drive, Arlington, Virginia, 22203.

ANOTHER EYE ailment your child might have is "Dyslexia." This occurs in people of all intelligence levels, but more often in those of superior intelligence.

For some unexplained reason it affects twice as many boys as girls. The most baffling part of the problem is that dyslectic readers have high IQ's, show facility in math, have normal vision, and show no signs of brain damage and appear healthy in every other way.

Dyslexia can be detected by simple kindergarten tests, and if detected early the child can be helped with special training, and no amount of ordinary tutoring will produce results.

Dyslectic readers see "saw" for "was" and "no" for "on"; they also confuse alphabetical look-alikes.

A TEAM of John Hopkins medical scientists is presently tackling the problem. It is estimated

that this disorder afflicts about half a million children in the United States.

More information can be obtained by writing The National Society for Crippled Children and Adults, 203 West Ogden Avenue, Chicago, Illinois, 60612.

I am not trying to scare you but I think we all need to be aware of these eye disorders. Take your children for eye check-ups soon.

A NEWSPAPER ad is your "silent salesman" — it's welcome in the home, and it works for you even while you sleep!

Castro Lodge AF & AM 873, Regular meeting, 3rd Monday, Practice every Thursday. Billy Henderson, Worshipful Master; Ira E. Brown, Secretary. Visitors Welcome.

Bible Thoughts

OF REAL VALUE

By Ronnie Parker

It is a great day in the life of any person when he comes to understand the value of his soul. Jesus asked, "What shall it profit a man if he gain the whole world, and lose his own soul?" and again, "What shall a man give in exchange for his soul?"

Benjamin Hill, a Georgia statesman, once had a quarrel with Alexander Stephens who later became vice-president of the Confederacy. In the heat of argument, the frail Stephens challenged Hill to a duel. Hill declined the challenge, telling Stephens, "I will not engage in fighting a duel with you or anyone else, because I have a family to support and a soul to save."

Chrysostom, archbishop of Constantinople (A.D. 347-407) wrote, "God hath given a man two eyes: if he lose one, he hath another. But he hath but one soul: if he lose that, it is irrecovable; it can never be made up again." Since the soul is eternal, the one vital thing for you and me is that we do the will of God in our daily life. God, through Christ will save our souls if we will let Him. Our part is to believe and obey. Without faith it is "impossible to please God" (Heb. 11:6).

Whate'er of earth is form'd, to earth returns,
The soul

Of man alone, that particle divine,
Escapes the wreck of worlds, when all things fail.

DEEP AS THE SEA

Standing in the sand, looking at the sea, one cannot help thinking of the boundless, fathomless love of God toward us. Oh, how he loves us, uplifts us, protects us and encourages us. There comes to mind many of his precious promises and the heart swells with gratitude. Recalled first of all, perhaps, are verses like these:

"Fear thou not; for I am with thee: be not dismayed; for I am thy God: I will strengthen thee: yea, I will help thee."

"Yea, I have loved thee with an everlasting love: therefore with loving kindness have I drawn thee." Jeremiah 31:3.

"For God so loved the world that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life."

"For God sent not his Son into the world to condemn the world; but that the world through him might be saved."
John 3:16, 17.

Many more words of comfort await you in the Bible and in the Church as His words are proclaimed from the pulpit. We invite you to attend church this week. You will be glad you did.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

The Dimmitt FFA Chapter held a meeting Oct. 8, to discuss plans for the trip to the State Fair in Dallas. DISCUSSIONS were carried on and it was voted that all members who met the requirements for the trip could go, by paying \$2 to help pay expenses. To qualify for the trip members must have sold five magazine subscriptions in the recent magazine sales. All money must be paid by the end of school Thursday and the bus will leave at 12 o'clock Friday night after the ball game.

THANKSGIVING DINNER
... By home management class

Class Gets Jump On Thanksgiving

Did you ever have a festival at school? The Home Management class did last Friday. It was a Thanksgiving meal and it climaxed three days of hard work. PRE-LAB for the meal started Wednesday, Oct. 2. During second period on Wednesday and Thursday a real Thanksgiving dinner was prepared which consisted of two turkeys, green beans, homemade bread, cranberry salad, candied yams, fudge, divinity, cake and three kinds of pie. THE TABLES were set at the beginning of Friday's class period. After the tables were set and the food was made ready to eat, the scene was one of a true holiday festival.

Miss Sanders' favorites are: song, "Born Free"; food, shrimp; and color, blue. Her pet peeve is people who think they know everything. AFTER graduation, Miss Sanders plans to attend Amarillo College, then get married.

Thespians Act For Each Other

The Drama Class this year is putting on it's own plays for their class. MR. FARRER, teacher of the class, has divided the class into groups of two and three people who will find a play, practice it, and then present it to the class. This will call for outside work and a lot of thought on the part of the actors and actresses. They will be responsible for all movements in the play. THE PLAYS will show the abilities of each person as far as stage direction, personal acting, and ability of conveying the meaning of the plays to the audience.

Make Every Week Spirit Week

By SHARRON FLYNT
Spirit defined by Webster's Dictionary is to show a sudden burst of energy, burst suddenly, jet spurt.

When the team or an individual knows they have the entire student body behind them, they are bound to do their very best on or off the field. This week the halls of DHS have been overflowing with Spirit, but it need not be just for this week, it should be there each and every week whenever DHS has its students participating in some type of contest.

Dress Decided For Senior Pix

Some of the senior girls met and talked about the senior pictures. They discussed with Mrs. Smith what to wear when they have the pictures taken on Oct. 31.

SOME OF the suggestions were ruffles, lace, cloth and feathers. The girls decided that the ruffles would be best. This suggestion will be presented to the other senior girls.

In another recent meeting held in DHS a committee of five was elected to decide how the senior boys were to dress for their senior pictures.

Several good ideas were presented and it was decided they would wear a dark coat and a regular long tie.

Other ideas were a bow tie and cross ties.

THE MEMBERS of the committee were Steve Buckley, Mike Bell, Stanley Reed, Gail Crum and Richard Jackson.

It doesn't take much, because spirit is like a disease in that it is highly contagious.

IF ONE student has got it others close to him are bound to catch it and in the overcrowded halls of DHS it shouldn't take much to start an epidemic of spirit.

Art Show Popular

By HELEN BRAAFLADT
The art show in connection with the Garden Club Home Tour and Horticulture Show was represented by many art forms and many degrees of artistry.

WE WERE most fortunate in having works from two non-local artists, M. Loys Ramer, sister of Joe Carver, and Carl Smith, brother-in-law of Edna Earle Henderson Smith, a former Dimmitt resident.

The Ramer painting, "The Flying Dutchman," was a sensitive all-white textured oil depending on light-cast shadows for delineation. Mrs. Ramer exhibits internationally, and is much in demand for her portraits.

CARL SMITH'S work was a collective of Dust Bowl days, with its sandstorm-yellow luminosity. Mr. Smith exhibits throughout the Southwest and is popular among art collectors in many states.

Virginia Gilbreath, Dorothy Mayfield and Mildred Tate showed productions of Tole painting and decoupage which were decorative and pleasing. Virginia's amusing Cloron portraits in oil were well-received.

Two local husband and wife teams, the Jasper Profitts and the Harold Bischoffs, contributed paintings to the show.

WATER COLORS, oil paintings, mixed media of several types, gouache, and photography were on display. Seascapes, landscapes, portraits, still life and florals were all represented in the show at the Country Club.

Other Dimmitt artists were Katy Graham, Alice Anthony, Babe Scoggin, Helen Braafladt, Jeannine Wimberley, Ginger Medders, Trudy Dennis, Mildred Shetty, and Linda Kuntz. Other out-of-town contributors were Nelda Thomas of Amarillo, Aurilia Sanders of Earth and Edna Earle Smith of Canyon.

Square Dance Tips

By **BILL HARMAN**
Dimmitt Promenaders have been enjoying the calling of Sid Perkins, Roy Johnson and Larry Medders.

A GROUP of Promenaders traveled to Clovis Saturday night and won prizes for being the largest group from the farthest distance. The dance was at Clovis Air Force Base, and was called by Sid Perkins.

Plans are being made for the graduation of 22 students Tuesday, Nov. 5. Sid Perkins has done a wonderful job teaching these new dancers.

A new class will start soon, because we have quite a number interested in learning to square dance. If you're interested, too, just let us know.

THE DIMMITT Promenaders dance every Tuesday night in the Catholic Community Building in East Dimmitt. Lessons for students begin at 8 p.m., and most of the Promenaders are present at that time to encourage and help the students.

If you have ever square danced in the past, you are invited to attend these sessions and brush up on the basics as well as the new calls. Some of these new calls are Spin chain through, Wheel across, Spin the web, Bat the breeze, Spin through, Spin the top, and Pair off. Add these to the 79 basics, and you have square dancing at its best.

Remember, square dancing is fun!

20th Tooth Calls For Dental Visit

When should a child first see the family dentist?

BY HIS third birthday or as soon as all of his primary teeth have appeared, urges Jennie Kitching, Extension family life education specialist.

Never neglect the primary teeth. If one of these teeth is lost prematurely, the space may close and the permanent teeth can't grow into proper position, according to the Texas A&M University specialist.

Early visits to the dentist make possible preventive dental care. On the first dental visit, routine cleaning and careful inspection of teeth and gums may be all that is necessary for your child, Miss Kitching said. However, Texas records indicate that this is often not the case.

Irrigation Study Figures Released

The 1968 High Plains Irrigation Survey, just released by Leon New, area irrigation specialist for the Texas Agricultural Extension Service, reveals 4,080,900 irrigated acres in a 21 county area of the High Plains.

IRRIGATION in the 21 counties is from 55,866 wells pumping from the Ogallala formation that underlies the Plains area.

Grain sorghum under irrigation in the 21 counties for 1968 is reported to be 1,611,832 acres. Another 1,149,053 acres is accounted for by cotton and the remaining 1,300,015 irrigated acres are in vegetables, small grains, castors, soybeans, alfalfa and a few other crops such as watermelons, forage crops for grazing and sugar beets.

The entire survey covers 72 counties ranging from the top of the Panhandle down through Howard and Mitchell Counties to the south, and also shows acreage of dryland crops and acreage tilled by land in the soil bank, diversion programs, fallow land and skipped rows.

CROPLAND ADJUSTMENT PROGRAM
The 1969 Agricultural Appropriation Bill did not include funds for approving agreements in 1969; therefore, a Cropland Adjustment Program for 1969 will not be announced. This will in no way affect 1966 and 1967 agreements as funds will be available to producers for the duration of the agreement period.

PRICE SUPPORT LOANS
All commodity loans, grain sorghum, corn, soybeans and cotton, may be obtained at the county

office. Cotton loans may also be obtained from approved loan clerks in the county.

1969 SUGAR BEETS

Proportionate shares (Farm Acreage Allotments) will not be established for the 1969 crop of Sugarbeets. This is the same as it was in 1967 and 1968; therefore, if you are interested in growing beets in 1969 contact your sugar beet company concerning a contract.

Longer Staple Cotton Evident in Plains Area

The US cotton industry's trend toward longer stapled cotton is strongly evidenced by USDA's cotton quality report for upland cotton ginned in the US prior to Oct. 1, 1968. Similar evidence is seen in figures on first ginnings on the High Plains.

ACCORDING TO THE USDA, both the average staple and the proportion stapling 1 1-16 of an inch or longer are the highest on record.

Of the 1,416,000 bales ginned so far this season, almost 80 percent stapled 1 1-16 inch or longer and the average came to exactly 1 1-16 inch. These figures compare with 73 percent 1 1-16 inches and longer and an average of 1 3-16 of an inch on this same date last year, when 1,913,000 bales had been ginned.

The Oct. 1 report show cotton in the 1-inch and 1 1-32 inch staples making up 13 percent of ginnings as opposed to 26 percent in the comparable period last season. The percentage of ginnings stapling less than an inch to date has been smallest on record, coming to only 6.8 percent.

FIBER strength of the crop to Oct. 1 is only slightly improved over 1967. Test results indicated the average zero gauge fiber strength was 85,000 pounds per square inch against 84,000 pounds at this time last year. Cotton stronger than 90,000 pounds, how-

ever, accounted for 21 percent of ginnings, compared with 15 percent a year earlier.

The average micronaire reading of cotton so far is down a little from last year, from 4.4 in 1967 to 4.3 in the corresponding period this year. Cotton miking below 3.5 comprised 8 percent of ginnings through Sept. 30, compared with 3 percent last season.

Cotton in the 3.5 to 4.9 premium micronaire category was equivalent to 82 percent of the current total against 86 percent a year ago.

HERE ON the High Plains, a total of 5,131 bales were classed by USDA's Cotton Classing Division as of noon Oct. 11, out of an estimated total crop of about 1.5 million.

But even this small sampling indicated that the trend to longer staples and higher fiber strength is not restricted to areas outside the US.

While at this time last year only 2,545 bales had been classed, classing office personnel have observed both staples and strengths running considerably above the level experienced early in the season last year. Lamesa area cotton staples so far have averaged between 31-32 and 1 inch, but both Lubbock and Brownfield staple averages are running in the neighborhood of 1 1-8 inches.

THE COOLEST August on re-

cord for the Plains has given all cotton observers reason for concern over the micronaire, or maturity, of this year's crop. But about 88 percent of cotton tested so far has miked in the desirable 3.5 to 4.9 range.

It should be noted that most of these first ginnings were either hand harvested or gathered with a spindle-type, selective picker. It remains to be seen what micronaire readings will show when full-scale stripper operations get underway.

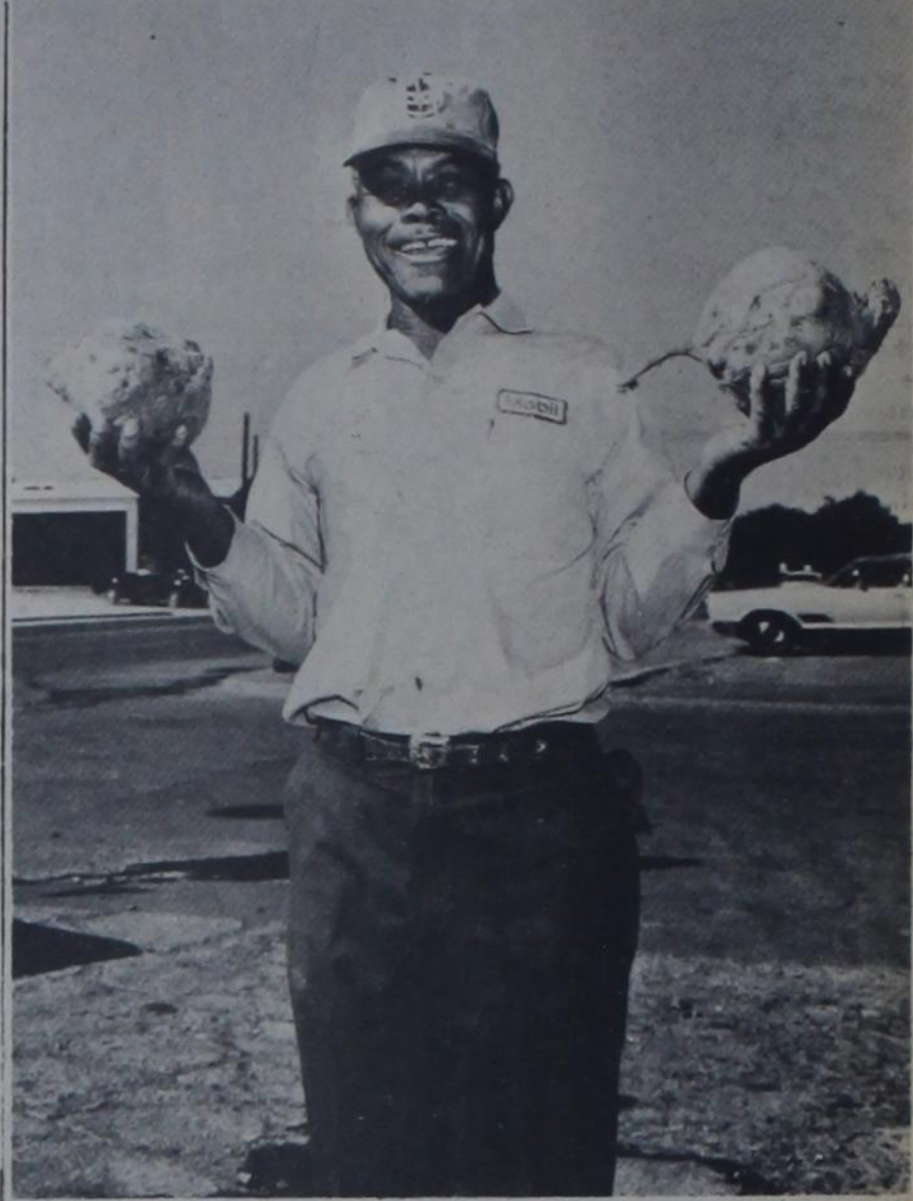

Lubbock to Host Freeman Monday

Secretary of Agriculture Orville Freeman, making his second appearance on the Plains, will speak at the Lubbock Municipal Auditorium on the Texas Tech campus Monday at 2:30 p.m.

THE ADDRESS is being billed as a major farm policy address on the future of US agriculture.

This is expected to be the first of five such appearances scheduled by Freeman across the country between now and November.

Freeman took over the reins of the US Department of Agriculture in 1951 under the late President John F. Kennedy, and has announced his plans to retire to private business in January 1969.

SWEET POTATOES aren't considered a significant crop in Castro County, but they might become just that if every producer grew yams like these. Matthew "Mack" Daniels shows a pair of five-pound sweet potatoes brought to Choc's Mobil Station by H. C. Nelson, who grew them experimentally on his farm this year. One of the Nelson potatoes in the small patch weighed seven pounds.

Hawkins Elected Bank President

Willis A. Hawkins Jr. was elected president of the Farmers State Bank of Hart at a board of directors meeting Wednesday of last week.

HE SUCCEEDS Norlan Dudley, who moved to Earth last month to become president of Citizens State Bank after the principal owners of Farmers State Bank bought controlling interest in the Earth bank.

Dudley remains on the board of Farmers State Bank as an executive vice-president, and Hawkins holds the same position with Citizens State Bank of Earth.

Hawkins, 43, has been associated with Farmers State Bank since 1965, when it was purchased and reorganized by its present owners. He served two years as vice-president and agricultural re-

Willis A. Hawkins Jr.

presentative, and last January was named executive vice-president and cashier.

SINCE the time the present owners bought control of Farmers State Bank, its deposits have grown from \$1.3 million in April 1966 to \$1.9 million as of Sept. 30, 1968. The bank has a staff of six.

Hawkins is a native of this area, and attended public schools in Nazareth, Hart, Plainview and Canyon, graduating from West Texas High in Canyon in 1941. He attended John Tarleton College for a semester, then served 21 months in the Army Air Corps during World War II.

When he returned from military duty he attended West Texas State University receiving a bachelor's degree in agriculture in 1949. He farmed near Hart while attending WTSU.

After graduating from WTSU, he continued farming at Hart until he joined Farmers State Bank in 1965.

DURING his college and military days, Hawkins was an amateur boxer. Fighting in the middleweight class, he won the Amarillo Golden Gloves championship in 1946, 1947 and 1949, and was named "Outstanding Competitor" in the 1947 tournament. He also won the consolation trophy in the Fort Worth Golden Gloves Tournament that year.

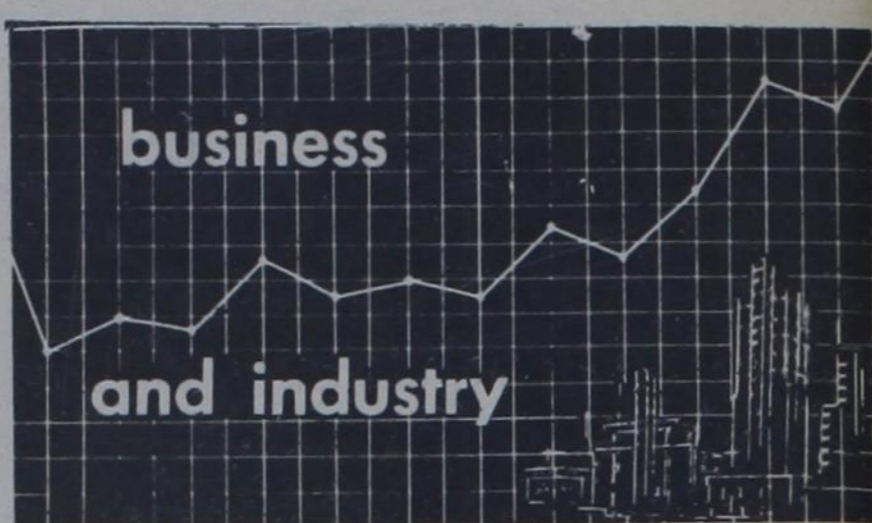

As an Air Corpsman, he was the middleweight on the boxing team from Frederick Army Air Base, Okla., in Golden Gloves and AAU competition.

Hawkins is the former District 18 commander of the American Legion, and has held most offices in the Hart American Legion Post. He is also member of Hart Lions Club and the First Methodist Church.

HE IS on the board of directors of the WTSU Ex-Students Association, and is also a member of the university's "Committee of 67," which studies and analyzes the future needs of WTSU and the ways and means of financing the university's growth.

He also substitutes for his father when necessary on the board of the High Plains Research Foundation. His father, W. A. Hawkins Sr., is chairman of the board and former president of Farmers State Bank.

Hawkins and his wife, Johnnie, have four children — W. A. III, 19, now a freshman at Cisco Junior College. Quincy, 17, Gaylene, 16, and Suzanne, 14.

New 'Student Life Committee' Being Formed at Dimmitt High

Principal Ike Moore is organizing a "Student Life Committee" in Dimmitt High School to promote extra-curricular activities of a scholastic and cultural nature. **MOORE SAID** the new committee "could promote such activities as exchange assembly programs between schools, and perhaps even symphony concerts and theater presentations from throughout the area."

The committee will include students and faculty members from every DHS class and department, Moore said.

AS ANOTHER means of coordinating student activities, Moore is considering naming a dean of men and dean of women in the high school to advise and consult with students on dress, extra-curricular activities and personal matters."

"They would be helpers, not disciplinarians," Moore said. "For instance, there are a lot of problems that girls would want to talk over with a Jean of women which they wouldn't want to talk over with a male principal or counselor. Also, the deans would set up the standards for dress, haircuts and so forth, within the regulations of the school."

Ford Proposes 'Action Plan' On Area Water

Campaigning in Castro County this week, Frank Ford proposed an "action plan for total development of water resources in this area."

THE Hereford Republican is opposing Rep. Bill Clayton of Springlake.

"Beginning with each of us at the local level," said Ford, "continuing efforts must be made to capture and utilize every drop from the rainfall that we receive. This means maximum use of lake pumps to use the water in playa lakes when available to conserve underground water, and more conservation dams to prevent runoff from this area in our creeks."

"Additional research is needed to determine ways of getting this maximum use from rainfall water, which is the cheapest water we have. Irrigation from playa lakes and the percolation value of conservation lakes on our streams will greatly extend the economic life of our irrigated land while importation efforts are pushed forward."

Ford pointed out that the funding for feasibility studies on various importation plans must come from Congress, and the necessity for maximum cooperation and coordination between the state and federal levels of government. He also warned of the danger of injecting partisan politics into water importation efforts.

"WHETHER our grandchildren can rise their families in this area depends to a large degree upon all of us working together in the field of water resources," Ford concluded.

South Texas Truckers File Suit After Dimmitt Firm Gets Permit

By VERN SANFORD Texas Press Association

Three fresh-vegetable truckers have sued the Texas Railroad Commission for granting three other truckers permits to carry fresh vegetables for hire around the state.

Charles Long of Rusk, Alvin Land and his Land Trucking Co. of Raymondville and Rio Grande Truckers Inc., the plaintiffs, are each authorized to transport "fresh fruit and vegetables from and to any point in the state."

L. T. Waldrop of Seminole, V. R. Nelson of Dimmitt and W. A. Jobe of Saragosa got Commission approval to begin trucking vegetables from within 200 miles of their home towns to any point in Texas.

The three contestants claim that the Commission's granting of the permits amounts to unfair competition for them. Their lawsuits are pending in Travis County district courts.

CAMPAIGN '68

Presidential candidates, wooing Texas voters and the state's 25 electoral votes, are becoming familiar visitors in the Lone Star State.

REPUBLICAN Richard Nixon swooped into Dallas for a rally Friday. He's likely to return, as is his running mate, Spiro T. Agnew, who also was here earlier.

Vice-President Hubert Humphrey will try to breathe new life into the late-starting Democratic drive with a barnstorming tour starting Oct. 22. Ed Muskie, Humphrey's No. 2 man, is supposed to drop in around the 30th.

Third party candidate George Wallace made plans to return to Texas this week. He scheduled a

high-noon rally for Fort Worth today (Thursday). Both Wallace and Vice-Presidential candidate Gen. Curtis E. LeMay are being encouraged by backers to make repeat performances before Nov. 5.

While waiting for the candidates to make their personal appeals, their supporters fought the battle of the polls.

Humphrey's national headquarters claimed a Belden sampling showed 35 percent of the Texans interviewed favored Humphrey; 33 percent were for Nixon; and 26 percent for Wallace; with just six percent undecided.

"Strange," retorted Nixon's state camp, since its Merrill-Wirthlin poll showed: Nixon 34 percent; Humphrey 27 percent; Wallace 22 percent; and undecided 17 percent.

Houston Chronical interviewers concluded Nixon is leading with

40 percent of the vote. Humphrey ran second in the Chronicle's poll with 33 percent; and Wallace third with 28 percent.

Activity in the Humphrey camps definitely is on the upswing. Texas Citizens for Humphrey-Muskie, headed by Sen. Ralph Yarborough and Texas Democrats for Humphrey-Muskie, led by Congressman Jim Wright of Fort Worth and Will D. Davis of Austin are battling against time to rally the traditional Democratic strength.

Former Gov. Allan Shivers, who emerged as national chairman of Democrats for Nixon, is actively encouraging "splitting the ticket" — for the GOP national nominee and the Democratic state and local candidates.

WOULD YOUR CONGRESSMAN VOTE FOR GEORGE WALLACE?

Some fine Texans are tempted to vote for the 3rd party candidate because they admire his stand and his statements on some of the major campaign issues ...

STOP AND THINK WHAT WILL ACTUALLY HAPPEN ...

The best that Wallace supporters can hope for is enough strength to throw the election into the turmoil of a Congressional election by the House of Representatives ...

THEN WHAT HAPPENS?

The answer is certain and simple. Wallace supporters are at the mercy of Washington Politicians! Every vote for George Wallace automatically becomes a vote for Hubert Humphrey!

THERE IS A BETTER CHOICE ...

A vote for the NIXON-AGNEW ticket is a positive vote for "change" with the definite promise that our National Affairs will take a new direction ... the direction you want it to take!

YOU CAN TAKE OUR WORD FOR IT!

The Bible In The American Home

The Bible is the world's least read best seller. This affirmation may be questioned, even challenged.

Ask first, Why is it the best seller? Then ask, Why is it not read more. From the human standpoint, it is difficult to see why it would be a best seller. It is an old book. It comes from an ancient culture, telling of people whose apparent problems are so different from ours that men cannot understand them.

The way the Bible is printed lends additional weight to those who would suggest its vast importance. It is often clothed in an unattractive covering; it is printed in type often difficult to read; its division into chapters and verses offers some help but also some disadvantages.

In part, the reasons which would cut down on the sales records do cut down on the reading record. The Bible is a difficult book to read, but it will fill the cup brought to. Do people who do not read the Bible because they cannot understand it think they will understand it by not reading it?

The Bible is and must remain close to the heart of all Christian worship worthy of the name of worship or of Christian. The first Christians were converts from Judaism, and every Jewish Christian thus knew the necessity of teaching the Word of God to those of his own household. But what of the worth today? Jesus blamed the Pharisees for not knowing the Scriptures. Would he blame us today? It was while Jesus expounded the Scriptures that the disciples felt their hearts "burn within them." Could this be the reason some churches are dead and do not know it; why some Christians are empty and wonder why! why some homes are missing the mark in Christian living and flog about doing nothing?

A suggestion or two. A truck-driver in North Carolina had a run-in with the driver of a small car. The truck cut in front of the small car without any signal. A little farther along both had to stop for a red light. The driver of the small car got out, took a tire tool, and smashed the rear-view mirror on the truck, calmly looking at the driver of the truck, he said, "As long as you don't use it, you don't need it." He went back to his car and drove off. A suggestion about the Bible — read it. Read it regularly. Then let your heart "burn within you" as you discover the living Christ, coming through its pages to transform your life.

See you Sunday? It's Bible Sunday.

Farmers Union Cotton Group Recommends 15-Point Program

The District 2 Farmers Union Cotton Committee, composed of cotton growers representing 17 counties on the South Plains has recommended a 15-point cotton program for 1969.

The recommendations have been sent to the state Farmers Union office at Waco, and will be forwarded to National Farmers Union as part of the Texas recommendations for the 1969 cotton program.

THE VIEWS expressed by the Farmers Union cotton committees will be presented to Secretary Freeman by National Farmers Union President Tony Dechant, in response to Freeman's request for FU views on the kind of program he should announce for 1969. The announcement on marketing quotas was to be made by Oct. 15, and details of the program are expected before December.

The District 2 committee agreed that the regulations for 1969 should "focus on improving the cotton producer's net income."

The committee urged a production of 12 million bales in 1969 and projected that a carryover of

5 1/2 million bales should be adequate. It recommended that the mandatory diversion level be increased to 10 percent, and that payments for voluntary diversions up to 35 percent of the allotment should receive a payment rate of 10 cents per pound.

OTHER recommendations highlighting the meeting, which was held in Lubbock Sept. 30, were that small farm, skip-row and lease and sale regulations remain the same as in 1968.

The committee opposed any increase in the loan level, giving as its reasons the possible reduction in program participation, adverse effect on exports, and possible reduction in direct payments.

FALL produce is brightening the markets. Gwerdolyne Clayatt, Extension consumer marketing specialist, recommends sweet potatoes, hard shell squash, mustard greens, cabbage, celery, carrots, green onions and radishes as economical items.

Hard-fighting Cats Go Down, 34-12

DIMMITT'S BOBBY BAKER (83) AND JIMMY COLEMAN (21) BREAK UP ... Baker intercepted two aerials against the powerful Mustangs.

By JIMMIE CHAPMAN

The undefeated Olton Mustangs, then were forced to rolled into Dimmitt Friday night again. Baker got it off, the first punt of the entire game, and No. 5 in the state in Clanton took over on its 30-yard line. And they proved it, 34-12.

OLTON moved the ball at will against the lighter Mustangs but managed only four touchdowns to score. The TD came that covered 10 yards or so. They were forced to punt once in the game, and for their five touchdowns were on the passing of quarterback Johnny Lewis.

The running of Mustang back Kenneth Johnson overpowered the highly rated Charles Clain and Benny Akin. The charging 182-pound senior gained 144 of the 309 yards that Mustangs were credited with on the ground.

Dimmitt failed to move the ball after the opening kickoff. Bobby Baker punted to the 1-yard line, where an alert Dimmitt lineman killed the ball. Dimmitt failed to move the ball during the night, going 48 yards. The Mustangs moved the ball out to the midfield before they were also forced to make their only punt of the game. Halfback Benny Akin booted the ball to the Bobcat 14-yard line.

FROM HERE it took the Mustangs only six plays to move 70 yards to score. The TD came on a pass play from Johnny Lewis to Kenneth Johnson that was good for 35 yards. Eddie Hooper tried to kick the extra points but the kick was wide, and Olton had a 6-0 lead when the first quarter ended minutes later.

On the first play of the second period, Bobby Baker leaped high into the air to intercept a pass from Lewis on the Dimmitt 45. The Bobcats launched their first touchdown drive from here.

On the first play, David Land passed incomplete to Brady, then after two running plays by Roy Thomas, Quarterback Bill Sanders hit end Jerry Brady on an 18-yard pass play to the Olton 17. Danny Newton gained six yards, but the Bobcats drew a five-yard penalty. Land tried the line once and moved the ball to the 12, then Thomas made four to put the ball on the 8. With fourth-and-one facing the Cats, Roy Thomas took the pitchout from Sanders and rambled into the end zone for the tying touchdown. Bobby Baker made his first extra-point attempt of the year but it was no good, and the score remained 6-6.

OLTON TOOK the kickoff on its own 30 and went 70 yards in 11 plays to score the go-ahead touchdown. The score came on a two-yard pass from Lewis to end Joe Leura. Hooper kicked the extra point and the score was now 13-6, Olton leading.

Dimmitt launched a good drive late in the second period when Danny Newton returned the kickoff off from his own 10 to the Olton 48. Land and Thomas moved the ball well on the ground, but a 15-yard penalty forced the Cats to give up the ball on the Olton 30 after a fourth down pass from Sanders to Brady went incomplete.

Olton plowed 70 yards to score another touchdown, capping the drive with a TD pass from Lewis to Akin that was good for eight yards. The score came with one minute left in the first half. Lewis tried to pass for two extra points, but the play was broken at the end zone. The score at the time was Olton 19, Dimmitt 6.

DIMMITT second and final period midway in the game. Dimmitt failed to move the ball on another pass from Lewis to Olton 36. Land gained

two yards and Jimmy Coleman rambled for six more before an interference penalty put the ball on the Olton 7. Land ripped off five more yards and Thomas one to put the ball on the Olton 1. Then Olton drew an offside penalty that gave the ball to the Cats on the 1-foot line with a big, important first down. Land smashed into the end zone to score, but Thomas was topped behind the line of scrimmage when he attempted to run the two extra points. The score was now 19-12, and it stayed that way until the final period.

The first half of the final period was fought on even terms until Olton started a 56-yard drive that ended in another touchdown with only 4:10 left on the clock. The score came on a pass from Lewis to Charles McClain that was good for eight yards. The pass was thrown a little short but the Bobcat defender, trying for an interception, deflected the ball and Akin, playing heads-up ball, made a diving catch and fell into the end zone. Hooper booted the extra point to make the score 25-12.

A 30-YARD kickoff return by Jimmy Coleman gave the Cats good field position on their own 48, but they couldn't take advantage of it. The Bobcats moved the ball to the Olton 40, but two penalties, moved it back to the Dimmitt 36. Olton took over after Dimmitt went for the first down and failed with only 3:09 left on the clock.

The Cats held the Mustangs at bay this time and took over on

the 4-yard line. They moved the ball out to the 9, then gambled with a fake punt on fourth down. The play didn't go, and Olton took over on the Dimmitt 9. It took the Mustangs only two plays to reach paydirt again.

Akin went for seven to the 2, then Johnson blasted over for the TD. Lewis passed to R. L. Copeland for the two points, making the final score 34-12.

OLTON GOT another scoring opportunity in the final 30 seconds when a Dimmitt receiver fumbled the Mustang kickoff on the Bobcat 25 and an Olton boy pounced on it. But the Mustangs — in an apparent show of respect for the team that had given them their toughest test to date — ran out the clock on the 25 to end the game.

Olton now stands 5-0 for the year and 2-0 in district play, while the Bobcats are 3-2 for the season and 1-1 in the district.

ROY THOMAS was Dimmitt's outstanding offensive player, running for 114 of the 186 yards the Cats gained on the ground. David Land and Danny Newton also stood out in the backfield, while Brady and co-captains Larry Gamble and Durward Strick-

land stood out in the line. On defense, Bobby Baker, Jerry Brady and Jimmy Coleman played an outstanding game.

For the Mustangs, Johnson was the outstanding offensive player and Akin, Lewis, Copeland and Hooper were standouts on the defensive side of the ledger.

A few plays later the Bulldogs' Will Moore ran on a trap play for 36 yards for the Bulldogs' first touchdown, but failed to make the extra point, to alter the score to 7-6, Hart.

The second touchdown for the Bulldogs was made by Micky Johnson after a Hart fumble. The TD came when Royce McAdams rolled out and passed to Micky Johnson. The extra point again was missed.

The Bulldogs had a very convincing second quarter when McAdams rolled off right end for eight yards for Amherst's third touchdown of the game. Tommy Kelton was successful in making the extra point, and the score climbed to 20-7.

But Hart rallied when a 20-yard pass from Gary Rambo to Luis Longorio was good. On the next play, Jimmy Robinson ran three yards around right end for the touchdown. The extra point try failed, making the halftime score 20-13, Amherst.

In the third quarter the Bulldogs' fourth TD when Royce McAdams again circled left end for a 31-

yard run for paydirt. The point pass was incomplete.

Hart fumbled on the kick and Amherst recovered. Then the first Amherst play, McAdams passed to Johnson for a 36-yard touchdown; McAdams attempt for the extra points was good and the scoreboard suddenly read 34-13.

An Amherst pass was intercepted by Longorio to set up the final touchdown of the night. Robinson came in for the score. The try for extra point failed.

Financial Facts

By Willis A. Hawkins, Jr.

Everyone is interested in money. It is our medium of exchange and is classified into three categories: coins, currency and demand deposits, namely — checking account balances.

When coins were first developed, they were not uniform as to the quantity and quality of the metal they contained. Each coin had to be weighed and tested by the recipient. Moreover, older coins became less valuable because of the general wear. Later, all coins were standardized and issued by the Treasury.

All paper money is classified as currency and falls into two divisions: currency outstanding and not in the process of being retired, and notes in the process of being retired.

National bank notes, 1863-1935; Treasury notes, 1890-1893; and Silver certificates 1875-1963.
