

DAN MOODY TO SPEAK FRIDAY IN EASTLAND

Will Address District Rally From Courthouse Steps At 9:00 P. M. Band To Give Concert

Former Governor Dan Moody, candidate for the seat in the United States senate now held by W. Lee O'Daniel, will address a rally of his supporters from the south steps of the Eastland courthouse at 9:00 o'clock Friday night.

The Eastland meeting, members of the Eastland Moody-For-Senate committee, stated, is intended as a district affair and invitations have been extended the general public and Moody supporters in particular, in Eastland and adjoining counties, to attend.

Committee in charge of the meeting will have the streets roped off and plenty of seats for the crowd. A brass band will give a concert on the grounds immediately prior to the speaking.

Stimson Hints At Lower Draft Age

WASHINGTON, D. C., July 16.—Secretary of War Henry L. Stimson said today he believed it would be necessary, ultimately, to lower the draft age to 18 years.

U. S. Is To Ignore A Protest by Vichy

WASHINGTON, D. C., July 16.—Virtually the entire rubber production of Bolivia for the next five years will be purchased by the United States under an agreement announced today by the State Department.

Smart Surplice

The shortage of slide fasteners for women's dresses helps make surplice fronts real style news. Alexis Smith, above, a Warner Bros. actress, models a casual frock of soft yellow linen that uses two large, covered buttons that fasten the set-in belt, eliminating need for slide fastener.

KITCHENS ARE NEW ARSENALS OF THE ALLIES

The kitchens of the country are becoming the arsenals of the allies. From the frying pans, the roasting pans and the broilers of the nation, at least 500 million pounds of waste cooking fats are expected to flow during the course of a year into the rendering plants to be transformed into useful materials for strategic war industries.

Loss of the Philippines, the Dutch Indies and Malaya cut off fully half of our normal imports of fats and oils. These fats were of inestimable value to our war industries. They were used not only for food, but to make the tough paints and varnishes now needed in greater quantities than ever for planes and tanks and guns and ships.

So the housewives of the country must come to the rescue to help make up a part of the loss of these imported fats and oils. At least 2 billion pounds of kitchen fats have gone out with the pings of roast beef, roast lamb, roast ham and poultry, of broiled steaks, chops and bacon, and the remains of the deep or fish were cooked—once they were waste. But today they take their place with other strategic war materials and must be salvaged for victory.

How To Put Them In

A wide-mouthed metal can is the preferred container for salvaged kitchen fats. A coffee or vegetable shortening can is perfect. It should be spotlessly clean.

How To Prepare Them

Salvaged fats should be poured into the can through a strainer. The strainer should be fine enough to prevent food particles from entering the can.

Where To Keep Them

The can of fats should be kept in a cool place, preferably in the refrigerator. This will insure that they keep fresh, for if the fat grows rancid the glycerine content is lessened.

How To Dispose Of Them

Meat dealers everywhere are cooperating in the salvage of fats and greases. The can of fat should be taken to one of these, usually the neighborhood butcher, for weighing and for payment.

What Not To Do

Don't take less than one pound to the meat dealer. A pound and a fraction is OK, but the fraction alone should be kept until it weighs a pound or more.

Don't use glass or paper or cardboard containers if metal can be secured. Glass is heavy and it is difficult to weigh accurately the fat content of a glass container. Paper or cardboard containers are apt to peel off into the fat.

Don't take salvaged fats to the meat dealers on a week end. That is his busiest time. Early in the week is the most convenient time.

Queer Problem of Compensation Is Puzzle For State

AUSTIN, Tex.—A strange problem was presented to state departments when an employee of the state highway department was killed under conditions that entitled his beneficiary to compensation.

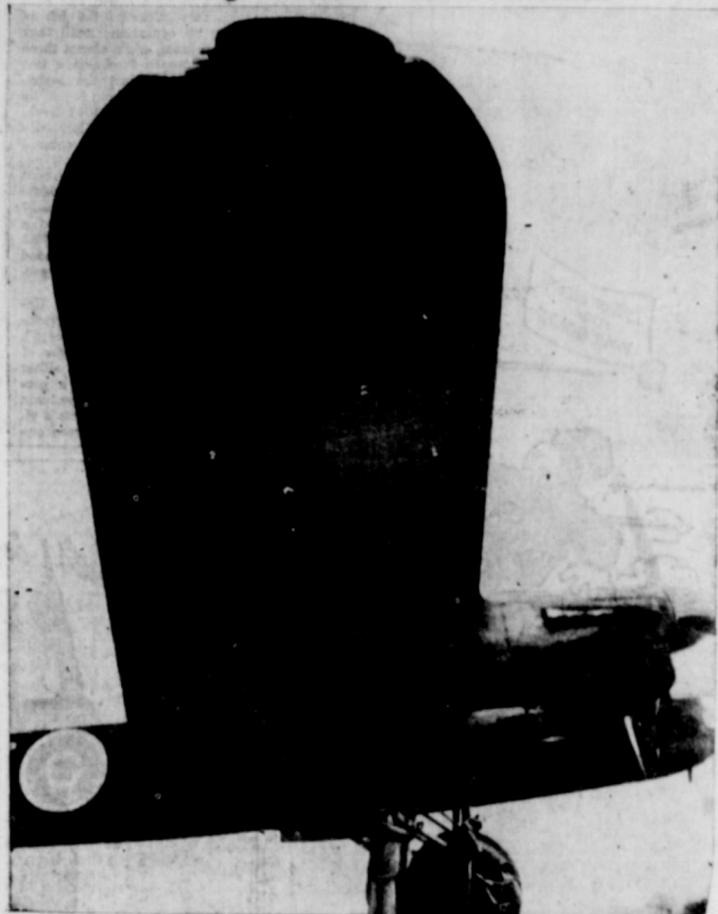

It happened that the beneficiary, the employee's father, was an inmate of the state hospital at Terrell.

Unless persons are indigent, the state requires payment for their treatment.

The state board of control has been checking up on this type of patient, and notified the state highway department's compensation division that the state had a claim for care of the beneficiary's father.

The highway department referred the case to the attorney-general. He rules that the state must pay the compensation claim regardless of the fact that the beneficiary owes the state money for his care.

Dark Wings Of Death And Destruction

Gnomelike beside their giant charge, RAF mechanics groom new, highly secret Lancaster bomber for Rhineland raid. Lancasters' mighty wings carried them across Germany to attack Danzig in the most daring daylight raid of the war. (Passed by censor.)

Eastland Woman's Sister Died At Abilene Tuesday

Mrs. S. G. Oliver, 59, resident of the Wylie community, in Taylor county, for 28 years, died at the Hendrick Memorial hospital in Abilene at 4:40 a. m. Tuesday.

Her husband died in 1914. She had been seriously ill for several months.

Born Ollie Maude Gilbert Dec. 17, 1883, in Coryell county, she was married in Eastland to W. H. Seatrunk in 1900 and moved to Taylor county in 1914.

Her first husband died in 1919, and she was married to S. G. Oliver in 1922.

She is survived by her husband and two children by her first marriage, Mrs. Leola Moore of Bay City, and Gus Seatrunk of Wylie. Two sisters, Mrs. W. B. White of Eastland, and two brothers, W. H. Gilbert of Carbon and S. E. Gilbert of New Mexico also survive.

Funeral was held from Neal Baptist church near her home at 3 p. m. Wednesday. The Rev. F. A. Hollis, former pastor, officiated, assisted by the present pastor, Rev. J. H. Ballard. Mrs. Oliver had been a member of the Baptist church for many years.

Burial was in the Cedar Hill cemetery at Abilene.

Supply Bill Sent Back to the House

WASHINGTON, D. C., July 16.—The Senate today passed by a voice vote and returned to the house the \$1,681,000,000 supplemental appropriation bill carrying \$125,000,000 for the Office of Price Administration and providing funds for 18 other war agencies.

Southern District Judge Is Selected

WASHINGTON, D. C., July 16.—President Roosevelt today nominated Allen B. Hannay of Texas to be United States District Judge for the Southern District of Texas, succeeding James V. Allred, who resigned recently to become a candidate for the United States Senate from Texas. Judge Hannay is from Houston.

Old Political Beliefs About An Election Are Disproved By New Poll Tax Lists Of Texas Counties

AUSTIN, Tex. (UP)—Political strategists have ditched an old idea that elections were won and lost in a 100-mile circle around Dallas after studying this year's poll tax payments and exemptions.

At one time two thirds of the voting strength was within 100 miles of Dallas and candidates, naturally, exerted most of their efforts in that area.

But that time is past and today a 100-mile circle about Houston will take in almost as many voters as the same swing around Dallas.

Based on poll tax and exemption reports from the counties that fall within the 100 miles about Dallas there are potentially 279,608 votes. The similar area centered about Houston provides a possible 235,959 votes.

This comparison is based upon poll tax reports made to the office of State Comptroller George Sheppard by the county tax officials. The reports cover the poll taxes paid before Jan. 31, and from some counties the exemptions are merely estimates.

The actual voting strength may have varied since the reports were made by transfers of voters and by deaths.

Both Dallas and Tarrant counties, which include the cities of Dallas and Fort Worth, have fallen off in voting strength since the last general election year, 1940.

U. S. To Purchase All Bolivian Rubber

WASHINGTON, D. C., July 16.—The United States will ignore Vichy's protests over the appointment of two American representatives to consult with the French National Committee in London, it was learned today in highly authoritative quarters.

Will Soon Receive Lieut. Commission

Cecil Walters, son of Mr. and Mrs. W. W. Walters, is stationed at Lake Charles, La., for instruction in advanced flying. He will complete the course in five weeks and will receive his commission as second lieutenant.

GERMANS KEEPING UP A STEADY ADVNCE AGAINST RUSSIANS IN UKRINE

Typewriters Are Needed By Federal Government Now

DALLAS, Tex.—Businessmen and others of the Southwest were urged today to make available to the government every typewriter they can spare.

The appeal was issued by Eugene Risser, region director of the War Production Board, in line with WPE Chairman Nelson's recent plea.

"The typewriter is even more essential in modern warfare than in modern business," Mr. Risser declared. "For our fighting services, the typewriter is as vital as communication itself. Every bombing plane, every destroyer, must be equipped with typewriters."

All new typewriter dealers now are acting as purchasing agents for the U. S. Treasury Procurement Division, Mr. Risser said. They are authorized to purchase for the Army and Navy any machine made on or before Jan. 1, 1935.

"Persons selling their typewriters will receive an official government receipt, and a black and gold label will be placed on the machine, to show that the typewriter actually is joining the Army and the Navy of the United States," Mr. Risser said.

The War Production Board is seeking 500,000 used typewriters for use by the War and Navy departments. Production of new typewriters, already cut sharply, soon will cease, so that the facilities of the typewriter plants can be devoted to production of weapons of war.

New Aviation Service Schools Will Be Opened

A new field of aviation training and service is now open. The War Department has authorized the expansion of Field Artillery Air Observation Pilot Training.

For the past few months the initial group of these pilots has made thousands of landings in such unorthodox places as small fields and roads. During the advanced experimental training at Fort Sill in connection with the Field Artillery Air Liaison, so careful and thoroughly specialized that their accomplishments met with success beyond the predictions of all officials; hence, the authorized expansion of this highly specialized service.

Opportunity is now afforded students to enter Civilian Pilot Training and enlist for this work. Upon completion of the ten-week that is being conducted by six specialized training centers in this region, the student receives advanced liaison flight training at Fort Sill, Oklahoma. Food, shelter, insurance and medical attention are furnished by the government during the entire course.

The student, upon reaching Fort Sill is also furnished clothing and \$50 per month pay while completing advanced training. Immediately upon graduation he is rated as a flying staff sergeant and receives his wings and staff sergeant pay, plus 50 per cent flight pay, and is assigned to flying duty.

If you are over 18 and under 37 years of age, weigh less than 170 pounds and consider you can meet the physical requirements for CAA Commercial Pilots without waiver, you may be eligible. If interested, it is necessary that you write immediately, giving full particulars about your self, to CPT, Box 1689, Fort Worth, Texas. Don't delay, as only a limited number of students can be assigned to this highly specialized course. Remember—write immediately to CPT, Box 1689, Fort Worth, Texas, if interested.

Security of essential commodities and ineffective price control has caused an abnormal price advance in Finland cities, says the Department of Commerce.

August 1 and 2, Eastland County Homecoming Date

Eastland County Homecoming will be held this year at the Eastland City Park Saturday and Sunday, August 1 and 2.

This is an annual event and a program of music and singing will be presented throughout the two-day celebration.

An invitation is extended to everyone in the county to attend and to bring picnic lunches.

Roosevelt Sends Assistant to China

WASHINGTON, D. C., July 16.—President Roosevelt has sent his administrative assistant, Laughlin Currie, to China to confer with Generalissimo Chiang Kai-Shek, the White House announced today.

How Three Markets Of Auto Owners Developed Is Revealed By Report

When the automobile industry in 1910 produced 181,000 passenger cars, pushing passenger car registrations up to the 600,000 mark, some economic experts predicted that in a few years the market for cars would be saturated.

In 1910 most automobiles were selling for \$2,000 or more and it was believed that a only a small part of the nation's families could afford to own and operate cars. Automobile ownership, the experts said, would go no faster than the increases in national income and population. Car registrations, it was believed, would hover around the million mark for many years.

Although wrong in their predictions, the experts were right in one thing. The market for expensive cars definitely became saturated. Even today there are probably less than 1,000,000 car owners in the United States who buy cars costing as much as \$1,500. After 1910 sales of expensive cars leveled off, and sales of such vehicles have been largely replacements.

The next period in American automobile history saw the introduction of mass production methods make available attractive and efficient cars at retail prices of less than \$1,000. By 1922 the industry was producing more than 2,000,000 cars annually, and registrations had reached 10,000,000. Retail prices of most cars sold at that time were less than \$500, or approximately one-third of cost during the first period of development of the American automobile.

New economic experts again began to predict that nearly every body who could afford a car had bought one and that the market soon would be saturated. Even as late as 1934 economists in the automotive field predicted that the rate of expansion of automobile ownership would decline, and that 28,000,000 passenger cars would not be registered in the United States until 1950. However, in 1941 passenger car registrations totaled 28,856,000.

The experts again were wrong in their predictions, but right in their process of thinking. In 1922 when automobile registrations hit the 10,000,000 mark it was believed that nearly every family that could afford \$700 or \$800 for a car owned a motor vehicle. The market was again saturated. But beyond that market was an even bigger market—the used car buyers. After 1922 this market developed rapidly and by the end of 1941 there were more used car motorists in the United States than new car buyers. The importance of this group of car owners has not been fully realized until the past few years. This is evidenced by the fact that the predictions of the experts in 1934 underestimated by 2,000,000 the growth of used car ownership in a seven year period.

The brief economic history of the automobile, outlining the unfolding of its three major markets to the point where, in 1941, better than two out of every three families in the United States owned a car, proves that the motor vehicle is one of the outstanding dynamic forces in modern society. During the war manufacture of cars has stopped and the market is static and artificially saturated. But after victory, expansion of the usefulness of the motor vehicle will be resumed, and it will provide even greater benefits to the mass of the population than in the past.

THE WEATHER

West Texas—Little temperature change today. Scattered thunder showers near the upper coast today.

Headlines Or Victory?

Sufficient time has elapsed since the capture of eight submarine-borne saboteurs was announced to permit calm consideration of such facts as have developed publicly.

On the basis of what is ascertainable, we believe that this episode is the best illustration to date of the urgent need for unification of all war publicity under intelligent direction.

Frequently we have criticized Washington for withholding information to which the public is entitled and which could do the enemy no good.

Here is a sensational instance of information which we believe should not have been given publicity, for several reasons of which two will suffice to make the point.

Both the British and our Navy make a point of refusing to publicize submarine sinkings, on the ground that it is good strategy to keep the Germans in ignorance, to the last possible moment, as to the fate of these under-cover agencies of destruction.

How much more, then, should Hitler have been left to worry about his saboteurs; to wonder why their scheduled sabotage did not come off; to waver whether to wait or to send substitutes—who might not get caught; to vacillate in ignorance whether resident fifth columnists, expected to help immigrant saboteurs, were at large or in custody, unsuspected or under 24-hour surveillance?

Again, one of the earliest psychological reasons learned by a cub newspaper reporter is the power of suggestion. Let the papers report suicide by a hitherto unthought of poison, and a wave of such deaths with the same poison often follows. Let it be reported that so-and-so killed himself by jumping from such a skyscraper, and that building seems to become a Mecca for those who have tired of living.

There were millions who never had heard of the Horseshoe Curve at Altoona, or, having ridden around it, had no conception of its military importance.

Out of these there undoubtedly are a few Hitlerites, a few malecontents, a few unrecognized maniacs who—to serve Hitler or to injure the United States or merely to do something sensational—now know just where to turn their attention.

If these don't like Altoona, or live too far away, or find the curve too well guarded, they can turn to John Edgar Hoover's official list and choose another vital spot at which to strike.

In organizing and directing the Federal Bureau of Investigation's current setup Mr. Hoover has done, and is doing a marvelous job. No criticism of his love for headlines should detract from his very real achievements.

The Ol' Triple Play

A VICTORY POSTER

NEW POSTER FOR MAIN STREET: War Bonds buy the planes needed for victory, and this arresting sign, originated by Douglas Leigh, the Broadway Sign King, will constantly remind millions of Americans of that fact during the summer.

BY PETER EDSON NEA Service Washington Correspondent

SUGAR bag instead of sandbag fortifications are now being erected for an all-out post-war war between beet sugar interests on the one hand and cane sugar interests on the other...

Edson

This is an old line, but it is not without its saccharine political appeal. The cane sugar lobby recognizes the potency of the argument, and is scared. And when the so-called sugar trust lobby in Washington is scared, that's something. It has been damned and branded from the White House and Department of Agriculture on down...

ONE factor that will lend support to the cause of the cane sugar people is the theory of the international new dealers and free traders that in this perfectly planned post-war world, there must be no international trade barriers and the world's goods must be equitably divided and apportioned so that every producer country and every consumer country can do business.

West Indies ports are bulging with raw sugar waiting for boats and sugar people all over the western hemisphere are sitting up nights, trying to figure out ways to increase shipments. Ships aren't running to the usual re-nervory ports of Baltimore, Boston...

Persistence Is Keynote Of The Freshmen Now

AUSTIN, Tex. — "Freshman persistence" is pretty high at the University of Texas, records compiled by the registrar's office indicate.

More than a third of each year's crop sticks to the job of getting an education until they obtain a degree, while almost three fourths of each freshman class returns for at least the sophomore year, the office found by tracing the records of 1551 freshmen who entered the University in 1935-36 and 1633 who entered in 1936-37.

Of the first class 36.8 per cent graduated by June, 1942, while 33.5 per cent of the 1936-37 group have already completed a degree. Of the first group, 73.6 per cent returned for a second year, 74.6 per cent of the second class.

"Freshmen remain in the University longer and more graduate than was generally supposed", the report points out. "Some of our freshmen transfer to other schools, and undoubtedly a portion of these transfers graduate from other schools. It seems evident, therefore, that between one

third and one half of our entering freshmen graduate from college. The survey also revealed that the better scholars have a better chance of graduating—44.8 per cent of the freshmen who ranked in the upper half of their high school classes pushed on to University graduation, while 16.7 per cent of those from the lower half of their high school classes graduated from the University.

NANCY... By ERNIE BUSHMILLER

She's in the Army Now!

— and happy about the whole thing!

"They also serve who only stand and wait" is cold comfort for the American woman of 1942 whose fighting spirit and love for her country make her look with longing eyes toward the battlefield where her brother, husband, son or sweetheart is stationed.

Her chance to help is here! Besides her hours at the Red Cross, her production work at a factory bench, her job as Air Raid Warden or seller of War Bonds, she carries a little white ration book in her purse—badge of an American housewife who is re-arranging her menus to include less sugar, conserving gasoline by walking instead of riding and stands ready to accept with a cheerful smile any other restrictions that are necessary to bring Victory. Hats off to the lady—she's in the Army now!

For latest war developments on the home and fighting fronts, read the ads and articles in your home newspaper—

THE RANGER TIMES

Beaumont Foregoes Hospital Plans For War Hospital

FORT WORTH, Tex. (UP)—Joining in the effort to conserve materials vital to the war effort, the Beaumont city council has decided to forego plans for a projected \$263,000 permanent type municipal hospital and will seek a temporary war time structure instead. City Manager C. Raymond Edmonds has notified George F. Harley, regional engineer for the Federal Works Agency...

Need for additional hospital facilities in Beaumont because of ship building and other war activities was determined months ago. The Federal Works Agency had approved an allotment to aid the city in constructing a new hospital. Plans and specifications had been submitted to the regional office for approval but bid opening dates had not been set...

Tomato Growing Championship Held

HOUSTON (UP) — S. T. Bryant and his son-in-law, A. C. Blunt, believe they are the tomato-growing champs of Texas. The first one they pulled this year weighed one pound, 11 ounces.

Several hundred million gallons of water are produced daily from the wells of Texas to supply the needs of the majority of Texas' larger cities and to irrigate several hundred thousand acres of land.

HERO'S SON

TRY A WANT AD - IT ALWAYS PAYS!

Waste Rubber Called A Gift For Axis Powers

"It does little good to send our sons to war, or buy bonds and pay taxes to finance the war effort, if we waste rubber, America's most critical war material," says Mr. Board, manager of the local Montgomery Ward Store, in commenting on the supply of rubber, and the ways motorists can cooperate in the conservation of rubber.

"The enemy now controls over 90 per cent of the world's rubber growing area. Regardless of conflicting statements that have appeared frequently, the facts prove that all of the crude rubber, reclaimed rubber, and gully now on hand or in sight will not be sufficient for the war needs of ourselves and our Allies during the next two years, unless the tires and tubes now in use on the nation's 'non-essential' as well as 'essential' motor vehicles are conserved."

"No fifth columnist, no subversive group, no armed force the enemy could land on our shores is capable of harming our war effort so much as car owners who blindly refuse to believe there is a rubber shortage."

"All of us must cut out speeds. Tires will last twice as long at 40 miles per hour as at 60. High speeds at high temperatures is even more disastrous. Don't drive over 40 miles per hour, and reduce speed under 40 when the thermometer reaches the high 80's."

"Don't speed around curves. That literally grinds the tread away. The tread wear on curves at high speeds is ten times greater than on a straight stretch of road."

"Inflate tires weekly to recommended or rated air pressures. Be sure the gauge is accurate. Never let pressure fall more than 3

pounds below the recommended minimum. Even 5 lb. under inflation can rob a tire of 5,000 miles of tread wear."

"Don't make 'pack rabbit' starts. Quick stops should never be made except to avoid accidents—and accidents, or the possibility of them, have already become less frequent due to safer, slower driving speeds.

"Brakes should be checked frequently and necessary adjustments made before flat spots on the tread surface of the tire indicate the need for brake adjustment."

"Avoid striking curbs, road holes and rocks. The beating a tire takes in normal service can be greatly reduced by the exercise of a little driving judgement. The impact on a tire from even an ordinary chuck hole is tremendous—avoid them, or reduce speed to a point where their effect is nullified."

"Check wheel alignment twice a year, or after any accident that could affect alignment, or immediately when excessive irregular tread wear appears. A tire one-half inch out of line will be literally dragged side ways 87 feet out of every mile. Alignment checks should be complete, not confined to front ends and steering linkage. Wobly wheels, bowed axles, loose spring clips, broken springs, bent frames are all capable of causing rapid tread wear and premature failures."

"Fix cuts, leaks, and breaks promptly; delay may cause damage that can't be repaired. Frequent inspection and proper permanent repairs are essential to real rubber conservation. Remove imbedded gravel, glass, etc., before it has a chance to harm the tread. Neglected tread cuts cause loose treads and carcass deterioration. Cuts penetrate the carcass or carcass ruptures must never be repaired by the insertion of an inner boot. Inner boots should never be used except in a temporary emergency. A boot can cause severe chaffing in the tire carcass

and result in a second blow out which usually renders the tire unfit for permanent repair and further service. All cuts and breaks should be promptly vulcanized by a competent repair man."

"Change wheel positions every 5,000 miles. Periodic switching of tires, right front and left rear, etc., equalizes tire wear and gives better mileage."

"Let's all get serious about rubber conservation and practice it as well as preach it. It is the vital duty of every car owner to get maximum mileage from his tires. It is the vital duty of every tire merchant to provide every possible service towards tire conservation. Remember, every ounce of waste rubber is a gift to the Axis."

A New Insurance Plan Offered By Killingsworth's

The Killingsworth Funeral Home is now offering a burial insurance plan for everyone from birth to 85 years of age, that pays the full amount in cash, anywhere in the world, in amounts up to \$1,000.

This old line legal reserve capital stock insurance that is non-assessable, and carries a level premium that does not increase with age. This is family group insurance, covered by one application and one premium.

"If you already have burial insurance," J. F. Killingsworth said today, "you may now have a cash emergency fund to complete your protection program. We believe you will find this policy worthy of your consideration."

This is an expansion of their burial insurance plan so that now protection may be obtained not only for \$1.00 in merchandise and service, but for any amount up to \$1,000, in cash on each individual. This increased cash benefit is issued by an old line legal reserve capital stock company.

Here's How To Use the Bayonet

Master Gunnery Sergeant Jess L. Reynolds, bayonet instructor at the San Diego, Calif., Marine Corps Base, demonstrates the proper method of withdrawing from a bayonet thrust. Sergeant Reynolds has trained thousands of Leatherneck recruits like those in the use of the bayonet.

Therefore 100 feet is 36 vars and 36 vars is 1,296 vars. A square is 3,600 vars square which equals 324 acres. A labor is 1,000 vars square which equals 177.1 acres.

The old expression, "a league and a labor" frequently found in Texas land, therefore amounts to 1,603 1-2 acres.

Giles suggests an easy method to switch the terms from one measure to the other. To reduce vars to feet, multiply by 100 and then divide by 36. To reduce feet to vars, multiply by 36 then divide by 100.

To reduce square vars to acres multiply by 177 and then divide by 1,000,000.

Under U. S. land measure a "Gunter chain" is 66 feet and 19 square chains make an acre.

Dr. Boswell stated: "The grade schools offer many opportunities to students coming into the grades for the work a 'done on the departmental plan' is added. Music, choral singing and many extra-curricular activities are given for the benefit of the students in the elementary grades. Ranger solicits your very careful consideration in sending children to the Ranger Schools."

More than 400 saw mills were operating in East Texas in 1940, according to the Texas Forest Service. Eleven of the sawmills produced hardwood lumber, the rest cut pine.

Starting Guard For Your Protection . . .

Day after day, year in and year out, we are at the Court House checking, compiling and posting data on Eastland County land titles. Ours is a responsible job, and we know it. When you come to us for your abstract work you can feel perfectly safe that we have the records complete and the experienced personnel to properly compile and assemble your title. The best is always the cheapest, and you get both here.

Old Land Measures Used In Texas Are Cited By Candidate

AUSTIN, Tex. — So many of the old land records of Texas give distances in terms of vars, and are in leagues and labors, that State Land Commissioner Bascom Giles is issuing a unique campaign card.

One side of the card announces his candidacy for re-election. The other gives a table of Texas land measures and U. S. land measures.

The vars is equal to 33 1-3 in-

Parents Urged To Transfer Children Before August 1st

Dr. G. C. Boswell, superintendent of the Ranger Public Schools is calling attention, again today, to the fact that this is the time for students to transfer from one school to another.

"Parents who expect to send their children to the Ranger schools for another year should make their transfers before August 1," Dr. Boswell warned.

Plans may be secured at the superintendent's office in Ranger for transfers from Stephens or Eastland County schools.

Dr. Boswell pointed out that Ranger High School has 29 units of affiliation. Students coming to the high school may be permitted to take typing, hand, piano, voice, chemistry, biology, physics, home economics, agriculture and many other vocational courses that should greatly assist students in securing employment at this particular time.

"Parents should see that their children are given the greatest possible advantages, and a high school with a large list of elective credits certainly offers the students attending such high

Salvage Of Tin Near Houston Is Urged By Governor

AUSTIN — Salvage of tin cans was the subject of a memorandum issued by Governor Coke Stevenson today in local defense counties, and thirty-five communities in a 100-mile radius of Harris County, and thirty-five communities in a 100-mile radius of Dallas County.

All other communities were advised to ignore tin can salvage until further notice.

Transmitting copy of a bulletin from George B. Butler, Executive Secretary for Texas, Texas Salvage Committee, Governor Stevenson advised the cities of Houston, Port Arthur, Bay City, Palacios, Angleton, Alvin, Freeport, Bryan, Caldwell, Wharton, El Campo, Hempstead, Huntsville, Richmond, Rosenberg, Galveston, Texas City, Sealy, Columbus, Eagle Lake, La Grange, Brenham, Conroe, Madisonville, Trinity, Liberty, Jasper, Beaumont, and Port Neches that the Shredded Steel Corporation will open a plant in Houston on or about July 15 for the purpose of handling tin can salvage.

A similar plant will be opened in Dallas for the salvaging of tin cans from the cities of Cleburne, Corsicana, Dallas, Denison, Denton, Fort Worth, Greenville, Pal-

ANNOUNCEMENT

In keeping with our desire to better serve the people in our community, we wish to announce the expansion of our burial insurance plan so that now protection may be obtained not only for \$150.00 in merchandise and service, but for any amount up to \$1,000.00 in cash on each individual. This increased cash benefit is issued by an Old Line Legal Reserve Capital Stock Company.

NEW BOND POSTERS

AID QUOTA CAMPAIGN: These two billboard designs, localizing and dramatizing county and city War Bond quotas, are being erected throughout the country as a part of a general cooperative advertising campaign involving newspapers, radio stations, and outdoor boards. Intended to bring the War Bond goal home to everyone by showing how each community helps build a tank, a torpedo, or any one of the military items needed to win the War, the advertising will be sponsored by patriotic local business houses.

HORSE SENSE

Eastland County is blessed with good schools and good colleges.

Now Eastland County has, in addition to good high schools and good junior colleges, a good business college. The natural course for a student to follow is to graduate from high school, take a good business course, then attend an institution of higher learning or take a position.

They usually run out of money after one, two or three years in college and have to attend a business college at last or take a job on a level with the untrained. Some, after getting a college degree, work at menial tasks or take a business course in order to get a better job.

The logical thing to do is finish high school, follow that with one year in a good business college, then attend college or university. After a business course the college student can take notes of the college lectures, transcribe them on the typewriter, thereby saving time besides making a better grade from neat typed lessons submitted to the teacher.

Many students work their way through college by mowing lawns and washing dishes. A business course, before entering college, often enables the student to earn more while in college by securing an office job as typist or stenographer.

The owner of Victory Business College enrolled a student who had had two years in university yet she was waitress in a cafe at \$7.00 per week. After finishing her business course Uncle Sam gave her an office job at \$1444 per year.

Victory Business College will prepare you, either for a position or for better work in college.

Victory Business College is new—this week—receiving new students for fall and winter courses.

Every day is enrollment day at Victory College. Enroll now and get a head start over the fellow who puts it off.

Call in person or write at once for courses and prices. Address Victory Business College, over Corner Drug Store, Eastland, Texas. (Advertisement).

PENNEY'S OLD FASHIONED BARGAINS

Three Cheers For The BARGAIN HUNTER!

Budget - stretching is a fine art . . . and one that we all must learn. It is vital to "Thrift and Savings for Victory."

One way to stretch budgets is to select the things that will give us the longest service or replacement can be put off as long as possible.

Another way to stretch the budget is to watch every penny. An advertisement like this for example, is full of things for the thrifty!

WE NOW KNOW

ONE OF THE 'TIGHTEST OF WEEDS IS POISON IVY. TESTS BY RAILROADS TO LEARN THE RELATIVE RESISTANCE OF WEEDS TO ROLLING SHOWED THAT IT TAKES 3.3 POUNDS OF DRY ROCK SALT PER SQUARE YARD TO KILL POISON IVY, WHEREAS MOST WEEDS WERE KILLED WITH A POUND OR TWO. TO CLEAR UP THEIR RIGHTS OFF-WAY & WEEDS USE ROCK SALT IN DRY WAYS.

SCIENCE HAS TAKEN A SERIOUS INTEREST IN MILK BOTTLES. A NEW SQUAT TYPE HEIGHT ABOUT FIVE OUNCES LESS THAN THE OLD HIGH NOY. IT IS SAID TO BE DESIGNED LIKE A SUSPENSION BRIDGE TO WITHSTAND STRAINS.

THE NAVY NEEDS BRACIOCLARS. IF YOU HAVE A PAIR OF ZEPHUS OR BAUSON LEOPARD BRACIOCLARS, 6.450 OR 7.450 THE NAVY CAN MAKE GOOD USE OF THEM.

Co-op Buying Is Being Tried By Student Houses

AUSTIN, Tex.—A four-month experiment with a co-operative buying club for student houses at the University of Texas resulted in a determination on the part of both students and merchants to continue the plan during the coming year, H. R. Gipson, assistant dean of men, has revealed.

The buying club was started last winter as a combined enterprise of several co-operative and fraternity houses. The project worked through Dean Gipson's office, and local merchants were called in for consultation.

"The club did a total business of nearly \$13,000 during the four months," dean Gipson announced. "It was mutually profitable, since it enabled student managers to buy food at wholesale prices, and reduced the merchants' costs of getting business, delivering goods, and collecting payments."

The buying club guarantees payment of accounts by the members, the dean said, and merchants of Austin have asked that the plan be continued.

The Payoff

By HARRY GRAYSON
NEA Service Sports Editor

BOSTON.—Joe Cronin was asked to put his finger on the player most responsible for the rapid rise of the Red Sox. "Bill Conroy," replied the fighting manager of the Boston. "He's the first rough Irishman the Red Sox have had since Bill Carrigan and the first big catcher since Carrigan and Forest Cady."

That's a fine compliment for a recruit—being compared with Carrigan, great catcher-manager of the Hub's matchless pre-World War I world champions.

A toulie-haired Mick standing an even six feet and weighing 180 pounds, Conroy is a slambang ball player after Cronin's own heart.

Conroy joined Connie Mack as a batting practice catcher in 1933, was farmed out. Slow to show progress, the Athletics let him go. Landing with the Oakland Coasters in '38, he found himself there last term, with a total base mark of 121 and a .292 batting average in 89 engagements.

BEANTOWNERS moaned when little Frank Pytlak was lost to the service last spring. Johnny Peacock lacked polish behind the log, and who was Conroy?

But Conroy has done everything well enough for the Red Sox except hit.

"And he hasn't been so bad in that department," observes Strategist Cronin. "He gets a hit when you need it and can blast the big one. He has three home runs."

"The main thing is, however, that Conroy, a remarkable throwing catcher, pulled our pitchers together. They love to pitch to him."

"The result is that we have solid pitching for the first time since I came to Boston."

"We're strong where a club has to be strong when it is thinking about winning a pennant—straight through the middle. Conroy catching, a capable hand in the box at all times. Johnny Peacock and Bobby Doerr on either side of second base and Dominic DiMaggio in center field."

"Ted Williams isn't hurting us any blasting the ball out of the park and hitting those runners home."

"But Conroy is the steady-state pitcher we needed."

BOMBER TO MONTREAL

CHAPTER X

CLYDE DAWSON was repairing the ravages of his stormy session with the spy ring in the Turkish bath of his Chicago hotel when, at about 8 o'clock that night, a telephone call was plugged into the steam room. It was the chief agent of the F. B. I.

"Something of special interest for you, Dawson," he said. "Your good-looking girl friend boarded a Canadian Colonial Airways plane at LaGuardia Field in New York 20 minutes ago. Our Manhattan office wants to know if they'll have the plane radioed back... it will be over American soil for about an hour more—is the regular evening plane for Montreal."

"No, let her go... I've a sudden hunch and want her to have a little more rope. My compliments to your Manhattan office—damn smart co-operation. One more favor, old man, the War Shipping Office must have a Traffic Routing Department. Would you use your authority to find out if the man in charge last night was, by chance, asked for any travel information by Carole Fiske?"

"We're one jump ahead of you there—I was about to tell you that we have received a report on the very subject. It was a lucky guess—the actually did call up about 10:30 last night and asked about flying schedules..."

"Where to?"

"This will tickle you—she asked for the best route to Newfoundland via Halifax..."

"It fits," Dawson murmured. From the Turkish bath he phoned directly to the Ferry Command headquarters in Montreal and had them locate the Air Marshal. Half an hour later Dawson was on his way to an airport just outside the Chicago limits. There was an Army Air Force officer waiting for him at the gate.

"I'm instructed to take you directly to the field, Mr. Dawson," he said crisply. "There's a twin-engine bomber being held for you on Ferry Command instructions."

AT Detroit the plane had to land for customs and immigration clearance and Dawson took advantage of the few minutes to phone the Montreal bureau of the Canadian Intelligence. He gave instructions for the 145 TCA plane to be held in case he was late and a reservation was made for Carole Fiske—she would have to use her right name unless she had a phony passport—to reserve the seat beside her for him. If the seat was already reserved he ordered that Intelli-

gence priority be used to secure it. It was a rough trip, with the plane flying into a strong headwind. But at 1:35 a. m. the pilot beckoned to Dawson and the latter squeezed his way past the large inside gasoline tank installed for the transatlantic flight.

"We're over Dorval now," the pilot yelled. "Sorry it took so long—that wind was plenty stiff."

Dawson hurried to the TCA airport office.

Outside the doorway, a man stepped out of the shadows. It was a Montreal bureau officer.

"I've got your ticket here—thought you might not want to go inside because the girl is waiting with the other passengers..."

"Nice going," Dawson cut in, "go inside and tell the dispatcher she's set for the take-off anytime, and I've gone directly to the plane. You hand in my ticket—they usually pick them up at the desk."

Dawson heard the flight announcement on the loudspeaker and saw the passengers filing through the door.

Carole Fiske came out alone. Dawson swung into stride beside her.

"Hello," he said simply.

Carole Fiske halted in consternation as she recognized Dawson. But she quickly recovered her poise. One hand slipped out of her muff and she held it close to her body. In it was a snub-nosed automatic.

"Don't try to stop me from taking this plane, mister, or you're a dead pigeon—I swear it!"

Dawson laughed. "The surest way of missing your plane would be to shoot me here, sweetheart. Instead of trying to stop you I'm actually making the jump in the next seat—chummy, eh?"

The girl was obviously suspicious. Keeping the gun trained on him she hid it with her muff.

"Very well, let's go," she commanded in lowered tone.

WHEN they reached the side of the waiting TCA plane, Carole Fiske slowed her pace and gave an almost imperceptible gesture with her head for Dawson to mount the movable stairway first.

"Emily Post wouldn't approve," grumbled Dawson.

On the second step he stopped suddenly as from the corner of his eye he caught a quick movement—a man had slipped up silently behind the girl and pinned her arms.

"Drop that gun!" he snarled into her ear. It was the Montreal agent and Dawson had completely forgotten about him. Of course the agent had picked up the bit of side-drama outside the waiting

room and... Dawson heard the hostess coming through the plane door, evidently attracted by the commotion. This was no time for delicacy.

Jumping lightly from the second step, he punched hard and true over the girl's shoulder straight into the agent's face. The latter reeled back, stumbled and piled into the snowdrift. Dawson made a flying leap and landed squarely on the stunned man.

"Never mind the poke," Dawson hissed, "act as if you are drunk and we're going in for a little horseplay..."

Both men began grunting and laughing as they rolled, Dawson finally yelling in a tone of mock surrender:

"Enough... enough... you got me, Joe."

They rose to their feet brushing the snow off their clothes. Carole Fiske was obviously amazed but she took a quick glance at the frowning hostess and played her part:

"Come on, darling," she spoke impatiently, "the plane is waiting—send your frisky friend on his way."

With apparent unsteadiness, Dawson followed up the steps, checked in with the hostess and sat down heavily in his seat. The girl and he had the two end spaces.

She was staring at him coldly.

"Nice way to treat a Boy Scout pal doing his good deed," she commented crisply, "but why did you wreck it?"

Dawson took from his pocket an object which he tossed into her lap. It was the snub-nosed automatic.

"You dropped it outside," he said. "Now come again with the \$36 question."

Carole Fiske shoved the gun into her purse, frankly bewildered.

"I asked you why you wrecked an excellent opportunity to turn the tables on me out there?"

Dawson puckered his lips and tapped his fingers together thoughtfully.

"Maybe it's because I like to see good-looking girls given a chance to achieve their ultimate ambition in life. You, for example..."

he turned to face her squarely, "seem to have the burning and insatiable purpose of killing me off. You put me on the spot in Chicago, then you threaten to make me a dead pigeon out here—I'd never forgive myself if I didn't let you kill me sometime. But, meanwhile..."

his tone changed, "if you start playing with that peace-shooter again I'll turn you over my knee. Understand, my little lamb!"

Transportation Payment Received For Rural Schools

County School Superintendent, T. C. Williams reported the receipt of the 8th payment on transportation aid in the amount of \$2,223.00. This is 95 per cent collection and the other 5 per cent will be received within the next thirty days.

100 per cent salary aid collection has been made. He says that the state has been unusually prompt in paying both transportation and the salary aid. This enabled schools to run on a cash basis.

June collections of local taxes have been received and distributed to the various districts as follows:

- Central, \$49.48; Lone Cedar, \$8.93; Union, \$15; Flatwood, \$44.53; Morten Valley, \$77.25; Colony, \$89.15; Cross Roads, \$215.34; Tanner, \$1.40; Kokomo, \$4.97; Alameda, \$147.04; Sandy, \$76.61; Shady Grove, \$3.45; Cottonwood, \$83.46; Bluff Branch, \$112.92; Friendship, \$9.27; Elm,

- \$4.70; Crocker, \$5.32; Grandview, \$6.72; Okra, \$9.89; New Hope, \$83.40; Bullock, \$15.54; Romney, \$26.78; Pleasant Hill, \$16.67; Cook, \$1.34; Center Point, \$56.42; Bedford, \$8.41; Grapevine, \$51.89; Bosgan, \$7.27; Scranton, \$4.21.
- Any child lawfully enrolled in any common school, district or independent district, may by order of the county superintendent, be transferred to the enrollment of any other district in the same county upon written application of the parents filed with the county superintendent.
- County Superintendent, T. C. Williams, requests parents to file applications before the first day of August. No transfer applications will be accepted after August 1, 1942. Blanks have been received and parents have until August 1, to transfer.
- T. C. Williams
County School Superintendent

Scarcity of lumber in Europe has developed new interest in the problem of reducing wood waste, according to the Department of Commerce.

Society, Club and Church Notes

Guest Complimented At Supper
Mr. and Mrs. J. Floyd Killingsworth entertained at their home Wednesday evening with a picnic supper on the lawn complimenting their guest, Mrs. Willard Phillips of Midland, sister of Mrs. Killingsworth.

Guests for the occasion were friends of Mrs. Willard, made during her residence in Eastland, and included, Mr. and Mrs. Ben Hamner, Mr. and Mrs. John Ernst, Mr. and Mrs. Orion Earnest, Mr. and Mrs. Fred D. Maxey and Miss Jessie Lee Ligon.

RANGER SOC Ranger Rebekahs Meet
The Ranger Rebekah Lodge No. 244, met in regular session Tuesday evening with Nettie Grand Viola Brink presiding. Routine of business was transacted and sick report given. After adjourned the Odd Fellows gave the Rebekahs a surprise chicken supper in the dining room. Chef Bill Rainwater and his assistants, Bill Morris, E. Y. Frock, and Kenneth Wilson of the N. Y. A. served the most delightful menu. About fifty Rebekahs and Odd Fellows and their families attended.

PERSONALS

Glenn West will leave Saturday for Abilene where he will enter the service as a member of the Candidates Officers Training School. Mrs. West will leave the same day for Ft. Worth to make her home with her parents for the duration.

Mrs. Willard W. Phillips and two daughters of Midland are guests in the home of Mrs. Phillip's sister, Mrs. J. Floyd Killingsworth.

Mrs. Ruth Musick returned Wednesday from a visit with friends in Ft. Worth.

Mr. and Mrs. J. B. Houghton have returned from a visit in New Orleans.

Miss Billie Jean Gorman has returned from a visit with relatives in Dig Sandy.

Mary Jo Singleton underwent a tonsillectomy at the West Texas Hospital this morning.

Mrs. Dick Phillips is in Killean for a visit with Mr. Phillips.

Mrs. Aileen Hansen and daughter have returned to their home in Sulphur, Oklahoma, after a visit with Mr. and Mrs. D. Joseph and family.

Frank Conley has received notice of his appointment to the commission of ensign in the naval reserve.

Mrs. J. E. Matthews and daughters, Jane and Ann, are expected home Friday from a visit with Mr. and Mrs. J. E. Morgan in Dallas.

Dr. Bob Hodges, Dickie Hodges and L. L. Neal left this morning for a fishing trip to Lake Brownwood.

Dorothy Jean and Jimmie Harrison of Dallas are guests in the home of Mr. and Mrs. C. E. May.

Mr. and Mrs. Stanley McAnelly and children, Helen and Stanley, Jr., have returned from a vacation spent at Kerrville and San Antonio.

Mrs. Kathryn Heasley and daughter, Miss Kathryn Heasley, left Tuesday for Denton where Mrs. Heasley will enter college to complete her M. A. degree.

R. R. Stafford has returned to his home in Post Arthur after a visit with his mother, Mrs. R. R. Stafford.

Mr. and Mrs. Lud McGown and son, Bobbie, have returned to their home in McAlester, Oklahoma, after a visit with Mr. McGown's parents. Mr. and Mrs. G. C. McGown. They were accompanied home by Miss Betty Jean McGown.

Equipment distributed in one Army Corps Area in one year includes 100,000,000 articles of clothing and footwear, 2,000,000 sheets, 1,000,000 blankets, 60,000 tents, 400,000 comforters, 2,000,000 dishes and 2,000,000 pieces of tableware.

Our faith in straw polls will not be renewed until we are convinced that public opinion can stand still long enough to be counted accurately.

Eldridge Makes A Statement On His Candidacy
