**When Nothing But A Loan Will Help**

Borrowing on life insurance is just one of the many privileges that our policy-holders enjoy. Occasionally, there are times when nothing but a loan will help. At such times, our friends have come to us, explained their problems, and loans have been arranged. They not only had the advantage of the ready cash, but they also had protection for their families while the loan was in force.

**LLOYD L. BRUCE INSURANCE**

**CAR CONSERVATION TIPS**

**SPARE ROOM IN YOUR CAR? ... SHARE IT WITH OTHERS!**

So, Pool your car with friends' cars and lengthen the life of them all. Groups are getting together all over town with car owners alternating the use of each car to conserve space, transportation, tires and to reduce wear and mileage. Observe this rule to lengthen car life and let Western Auto Store help out, too. Our systematic check-up and service systems are designed to keep your car in shape, and to conserve the nation's limited supply of replacement parts. Keep your car rolling... efficiently, and you'll be serving the interests of your country as well as yourself.

She's in the Army Now!

— and happy about the whole thing!

"They also serve who only stand and wait" is cold comfort for the American woman of 1942 whose fighting spirit and love for her country make her look with longing eyes toward the battlefield where her brother, husband, son or sweetheart is stationed.

Her chance to help is here! Besides her hours at the Red Cross, her production work at a factory bench, her job as Air Raid Warden or seller of War Bonds, she carries a little white ration book in her purse—badge of an American housewife who is re-arranging her menus to include less sugar, conserving gasoline by walking instead of riding and stands ready to accept with a cheerful smile any other restrictions that are necessary to bring Victory. Hats off to the lady—she's in the Army now!

For latest war developments on the home and fighting fronts, read the ads and articles in your home newspaper—

THE RANGER TIMES

Transportation Is Essential For A Victory

Two careful surveys of the use of the privately owned motor car were made in this country before we entered the war. A total number of registered cars at that time was 23,556,463—about the same as statisticians reckon are in operation at the present time, when East Coast gasoline restrictions, and the rationing of tires and new cars necessarily reduced the numbers which were on the roads at the time of Pearl Harbor.

One very important conclusion was reached:

"More than half the total of 198 billion passenger-miles traveled, and three-fourths of the 15 billion round trips made, were for purposes connected with earning economic pursuits, which must be classified as necessity driving."

That was in our last full year of peace. This year, between 4,500,000 and 8,000,000 automobiles (authorities differ in their computations) will have to leave the roads, some of them because they are simply worn out, but the great majority of them simply because there will be no tires for them.

The pre-war survey gave another important finding was that as the age of cars increased—they came closer and closer to the junk yard—their ration of "necessity mileage" sharply increased. Growing cheaper year by year, they were in the hands of workmen, farmers, small wage earners who used them for essential transportation, not for pleasure.

Political Announcements

- The newspaper is authorized to publish the following announcements of candidates for public offices, subject to the action of the Democratic primaries:

  - For Constable: Constable Precinct No. 2: L. J. (LUKE) HARDIN, G. J. MOORE, LON D. TANKERSLEY
  - For Justice Peace: CHARLES BOBO, MAJ. E. H. (Bob) HANSFORD

Father Byrne Will Go To New Church In Dallas Aug. 1

Rev. S. E. Byrne, who for the past few years has been with St. Rita's Catholic Church in being transferred, on Aug. 1, to a newly-established parish in the northwestern part of Dallas.

Replacing Father Byrne in Ranger will be Rev. Francis Mallis from St. Joseph's Church, Clarksville.

In the "Southern Messenger," the official Catholic newspaper of Texas, the following account of the new parish was published:

"Most Rev. Joseph P. Lynch, bishop of Dallas, and his board of consultants have deemed it necessary to provide for the spiritual welfare of the faithful living in the northwestern part of the City of Dallas; consequently a new parish has been established in that district under the patronage of St. Mary Magdalen.

"A site for the new parish has been purchased for a cash consideration of \$8,600 at the corner of Anson and Cortland Ave, the property measuring 150 feet on Anson and 622 on Cortland.

"A brick residence is on the property.

"Rev. Stephen Byrne, of Ranger, who has been appointed pastor of the new parish, will take up residence at the above-mentioned address on Aug. 1 and immediately begin the work of organizing the parish and constructing the church."

These are exactly the classes, vital to the war effort, whose deprivation of transportation will endanger our victory.

In the past, their own prudence rationed their tires and gasoline. Now the nation's necessity applies that prudence to all car owners. War time transportation, just as truly as fighting itself, is "all for one and one for all."

### Killingsworth's Insurance Plan Being Offered

The new burial insurance, now being offered by Killingsworth's

Funeral Home, is a supplement to the \$150 insurance formerly obtainable through the funeral home, and which applies only in service. The additional insurance is payable in cash, J. F. Killingsworth pointed out Saturday, and makes possible protection in amounts

above the \$150 originally offered. "The new burial insurance can be in addition to that already carried," Killingsworth pointed out today, "and you may now have a cash emergency fund to complete your protection program. After a careful study of all the burial insurance offered we believe that this policy is really worthy of your consideration."

This is an old line, legal reserve capital stock insurance that is non-accessible and carries a level premium that does not increase with the age of the insured, and is family group insurance, covered by one application and one premium.

### A Decision On Mexican Labor Is Being Urged

AUSTIN, Tex.—A definite decision should be reached this week on the question of importing Mexican field labor to help with the harvest of crops in the United States, Secretary of Agriculture Claude R. Wickard told Commissioner of Agriculture J. E. McDonald in a conference in Mexico City, McDonald announced today upon his return.

McDonald flew to Mexico City to confer with Wickard and Congressman Dick Kleberg of Texas on the urgent need for labor to make the Texas harvest. Wickard and Kleberg are representing the United States in a Pan-American conference on agriculture as affecting the United Nation's war effort.

"The Mexican government is eager to cooperate with us on the labor question," McDonald said. "But they want reasonable assurance, and I am convinced rightly so, from our federal government that the labor that comes across the border will receive a fair wage and liveable quarters. They particularly stress the necessity that living conditions be such that laborers will not sicken and be stranded away from their homeland."

"Because of the nearness of harvest season, tightened immigration, and a demand for labor in Mexico, I am of the opinion that gratiation restrictions due to the little Mexican labor will be available to Texas for this harvest," McDonald stated.

### Camp Asks People To Send Only Food That Won't Spoil

CAMP SHELBY, Miss. (UP)—The thoughtful homefolks who believed Johnny Doughboy would appreciate a nice cooked rabbit or a bit of ice cream have caused headaches to the postal officer and near stomach aches to recipients.

Soldiers stationed here have received such delicacies as stuffed crabs, home-made butter, chickens, various birds, over-ripe peaches and bananas. In each instance the result was the same—thoroughly spoiled and contaminated food.

Maj. Paul S. Parrino, assistant medical inspector, paid tribute to the high motives which prompted the sending of food to soldiers, but warned that "the practice of sending perishable food products through the mails is potentially a very serious threat to the development of food poisoning."

"This threat is increased greatly during warm weather," he added. "In addition, the spoilage of food is a waste which we can ill afford at this time."

To prevent additional shipments of well-done rabbits and chickens, Major Parrino urged soldiers to request that they not be sent any perishable foods through the mails except well packed cakes and candies.

## FOR DISTRICT ATTORNEY

- Qualified By Experience
- Capable As Shown By a Good Record

Your Vote and Active Support  
Will Be Greatly Appreciated

### Eldridge Makes A Statement On His Candidacy

In making my announcement for the office of County School Superintendent, I wish to express to my friends and supporters my profoundest gratitude for the many favors you have shown me in the past and for your interest shown in the present campaign. I assure you no one can appreciate your good words and act of support more than I.

Again I am glad to tell the people of Eastland County some of my various experiences. You all know I am a native son, and what I am and hope to be is largely the result of your aid and co-operation and deep from my heart I thank you again and again. As you all know I am a farmer by birth and a teacher by profession.

I was reared on a tenant farm near Gorman, attended rural schools, finished Gorman high school and Hankin's Normal College and have done college work. At present I am qualified to teach in any school, regardless of rank, in Texas. I have been teaching for the past thirty-two years. There was a two-year intermission during World War I. The first of December, 1917, I left a good school and enlisted in the

United States Naval Aviation. In January, 1918, I arrived in France and was in active service until the war ended, and was honorably discharged April 28, 1919. I knew what it means to pull from a mother's fond embrace and answer my country's call, year call, our children's call, who at the time was the generation that now has the task to win this war. May the time soon come when our loved ones can return and again enjoy our good old American way of life.

For the benefit of those who have heard that I was opposed to old age assistance during my campaign four years ago, I wish to state that I did all that was in my power to get every thing possible for the aged. I am still of the opinion that every aged person sixty-five years of age or over should be getting not less than thirty dollars per month. If elected I shall continue to help when and where ever possible to see that the pension program is sufficient for our aged to get a decent living.

If I am elected, all business coming to the office shall be promptly, legally and courteously done. If it is necessary for me to be out of the office whenever my assistant is, will be given due power to act in my capacity while I am absent.

The distressed conditions have brought about a desire on the
