NAZIS PUSH ON TOWARD CAUCASUS OIL AFTER A BITTER ROSTOV BATTLE

Hitler Is Throwing All His Might Into One Big Gamble To Overthrow Southern Russian Armies And Reach Vital Resources This Summer

By United Press A reinforced Axis offensive, us Local Delivery ing air-borne whippet tanks, battered into the oil-rich Caucasus and toward Stalingrad industrial center today in a spreading campaign to isolate the Red Army from supply routes for Allied war

For the time being Hitler was throwing everything, including 11 plaints of violations of Office of fresh divisions from Holand and Defense Transportation local de-France, into the onslaught and the livery orders have been received Russian army newspaper, Red by S. J. Cole, Dullas field man Star, acknowledged that the battle ager of the Office of Defense was becoming increasingly difficult due to enemy superiority in tanks and men.

The German high command was faciliating the Caucasus drive by fighting a holding battle in North

raids with contaratively & attacks on England. Eight of the 50 to 70 Nazi planes were brought down in last night's at tacks, apparently on Birmingham

Thus the Germans were follow ing their usual method of massing strength on one front. Their prime objective was to smash through to the Caucasus of fields and to move eastward to the Volga before the United States can invade Europe. On the fighting front the Ger-

mans had pushed southward through Rostov on the railroa leading to the West Caucasus of

The Axis gains have not been either easy or cheap. Russians, probably at considerable cost to themselves, have been fighting to delay and weaken the enemy, rath er than to stop him north or west of the Don river.

Moscow dispatches told again but these were replaced by fresh that rumbles on brick but "purry of 968,255 votes tabulated by the enlistments for naval service has troops drawn possibly from 1,000;-

NOTICE TO THE PUBLIC

Any erroneous reflections upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of this paper will be gladly corrected upon being brought to the attention of the publishers.

Entered as second class matter at the postoffice at Ranger, Texas, diary bombs, described in the latunder Act of March 3, 1879.

How Good Men Go Wrong

Meditating upon the fallacy of human judgment, the od has already been adopted in cricans than they are like the perils of prognostication and the blind spots of skilled ob- England and New Zealand." servers, we turned back to the January issue of a national | Chief Murphy said that the publication to reread an article by a veteran press associa- que is that which calls for the use tion correspondent who spent more than a dozen years in of a jet of water instead of a Tokyo.

The thesis of the article may be judged from this state- knock the bomb out in less than lat ment, quoted by the writer with approval and agreement; one minute, thus saving valuable "As a matter of cold fact, Japan as a Great Power is a hollow bubble, blown almost to the bursting point."

Thenceforth the article went on to assert, among other

Japanese fleets are not capable of operating successfully far from their bases . . . But remember Pearl Harbor.

The people of Japan individually lack initiative . . . But remember what happened in the Philippines, at Singapore, the Aleutians.

Nippon has no ships for overseas commerce because all are needed to supply the expeditionary forces in China. quench the fragments and the re-velope "Censored by Lt. Jack W. . . . But remember the other expeditionary forces Japan moved by sea, while carrying on the war in China.

Gasoline is so scarce that Japanese water police could | Gre is out before you leave the runs not operate their launches . . . But there seemed to be seeme plenty for the planes that devastated Hawaii, captured 5. Use a course spray only Guam and Wake, the Philippines and Hongkong and Sin-avoided gapore and Burma, and bombed Australia.

Finally, quoted with approval as of today:

"As a menace to any country of any fighting conse- able quence, Japan does not exist. As a first-class power, Japan is a myth."

These conclusions become significant in the light of their timing-for publication almost simultaneously with the er, a pump-tank extingu first onslaught of had war in which, up to date, the Japan- a stirrup pump. ese have beaten us badly.

Lacks pretty bad, doesn't it? One might say that this vet- Attendance Good eran newsman scored close to zero. But that would be unfair. In spite of this and other equally erroneous appraisals of Japanese potentialities, this correspondent's batting average was ordinarily rather high.

What is the moral, and what does it all matter?

Just this: It is easy to second guess, in war. Almost any reasonably intelligent analyst can make the experts look like simpletons, after the event.

Remember how Hitler's experts worked with the Russians intimately, and knew to the last uniform button what | the Reds possessed-on the strength of which the Nazis Every citizen in Ranger should began a three-month stroll through Russia which still is God and his power to save. Every going on.

How to Make Your Appliances Run Smoothly and Last Longer*

Your electric fan, and other motor-driven electric appliances, will run more smoothly and last longer if oiled according to the recommendations of the manufacturer. Now that the manufacture of fans has been restricted and many other motor-operated appliances are out of production due to the war, every needed attention should be given them to make 'em last.

A complete cleaning and oiling by a qualified electrician should make your fan operate more quietly and prolong its life. This attention is particularly important after a fan has been idle al winter.

*This message is one of a series designed to aid you in getting the maximum benefit from your present electrical equipment.

GROCERY & MARKET We Deliver

Ever Figure What Your Family Is Worth To You?

You probably don't think the members of your family can be weighed like sugar or salt, but you must have a pretty high value for each and every one of them. Well, how much are you worth to them-alive, working, and as their providen? Should the unexpected happen, how much would you be worth to them? Now is a good time to discuss this matter,

> LLOYD L. BRUCE INSURANCE

CAR CONSERVATION TIPS HIGH SPEEDS KILL TIRES, MOTOR AND MAYBE YOU!

SO, Drive at 40 and under! High speeds not only rick your life, but also shorten tire life by half, decrease gasoline nilleage and hasten the need for motor repairs that will further deplete the nation's dwindling stock of replacement parts. Observe that rule and bring your car to Western Auto Store regularly for inspection and maintenance work that keeps small disorders from becoming hig repair bills. Keep, your car rolling . . . efficiently, and you'll be serving the interests of your country
