Gorman Team Has Plenty of Experience, With Several Three Year Men on Team, Three In The Backfield Bulldogs Have Edge In Average Weights

The Ranger Bulldogs will meet 28 the Gorman Panthers in the first non-conference football game of the current season at Bulldor Stadium tonight, in what promises to be a real test for the local team in its initial appearance.

The Punthers boast five lettermen with three years of previous experience each, one with 2 years and two with one year, making a total of 19 letter-years of experience on the team.

And the Gorman lads, too, are 50 a husky lot, the largest being a 77 220-pounder, 18 pounds heavier 55 than the largest Bulldog, and several ranging in the 160 and 175 pound class. The Gorman backfield, composed of experienced men, is lighter than the Bulldog backs, ranging in weight from 120 pounds to 155 pounds, but three of the three-year men are in the, backfield.
The Bulldogs will not be with-

cut experienced men, however, and boast the heaviest team, mun for man, the school has put ous since the heyday of football in Ranger, or to be more exact, since 1934. Heaviest man on the team Carson Dabbs, a letterman tackle, who tips the scales at 202, 63 while Mace Oyler, also a lineman, weighs 200. Other linemen bring the average up to around 170 pounds, which is about the average for the entire starting linewith lettermen being avail- 69 able for almost every position, both in the line and backfield, for

WE CARRY A COMPLETE LINE OF

We Deliver

It's a proven fact, that a stored car deteriorates faster than one that is sensibly driven every day. The same is true of tires. As proof place a box of rubber bands in storage. After a few months they lose their resiliency, may even fall apart. So be patriotic and keep your car running-but remember drive fewer miles and sensibly!
