JAP HARBOR TAKEN; 65 PLANE S DOWNED

Well, i dunno, but--

When doctors, already overworked because of the shortage in civilian practice of men in their profession, give hours of their time for a free clinic to children who will start to school for the first time at the beginning of the fall term, it seems a considerable contribution. Dr. P. M. Kuykendall, Dr. W. L. Jackson, and Dr. A. K. Wier each set aside hours today for the free clinic and Dr. W. L. Downham will give dental examinations from 5:30 to 6:30 o'clock Friday afternoon.

The clinic was sponsored by the Parents-Teachers Association of the Ranger schools and is a commendable effort.

While friends rejoice at the appointment of L. H. Flewelling as assistant to the attorney general of Texas because of his recognized ability to serve well in that position, it is with regret that Ranger citizens see the "Judge" and Mrs. Flewelling leave Ranger. Few couples have been as closely associated with the civic, social and church activities of this community for the past 25 years and their absence will be felt.

Watching breathlessly the aerial antics of pilots flying over Ranger, it's hard to shake the feeling that they mean business when they zoom toward some imaginary target, then quickly climb again.

The reunion of former residents of Thurber to be held Sunday at the cross roads where once stood the rich mining town, will stir memories of one of the most prosperous boom towns of this area. The fame of Thurber goes back as far as the horse and buggy days when the young blades from miles around hired carriages to take them to what was then the financial and social mecca. Thurber lived to see the days when block-long, sleek automobiles replaced the buggies of an earlier period.

When coal produced at Thurber bowed to the discovery of oil in this section, the once prosperous town began folding her tents until today only a filling station and empty building, plus brick ruins mark the spot where the thriving community stood and attracted notables from the world over.

It's hard to believe that even political ambitions can stir up as much petty squabbling as goes on among the leaders of this country's government in Washington. If these are the "big" men of our country, we have at last found some consolation for being one of the "small fry."

It wasn't exactly with pride that we watched boys who are training to defend this country, land on the local excuse for an airport, climb out of their planes jump to the ground and his square in the middle of the grass burrs that cover the field. Of course, they'll meet up with worse things in actual battle, but since Ranger isn't enemy territory, couldn't we make their stop here, remembered by something beside the grass burrs they collected in their pants at the airport.

Ickes Says More Gas Cut Likely

WASHINGTON, (UP)—Petroleum Administrator Ickes today declared that sterner steps may have to be taken in both the Midwest and the Pacific coast area to conserve petroleum supplies.

Reed Says Ruling Will Double Work

AUSTIN, (UP)—State Labor Commissioner John D. Reed, estimated that work of his department will double as result of an attorney general's opinion holding all interstate businesses may apply for permission to work women a maximum of 70 hours a week for the duration.

MUCH ACTIVITY IS PREDICTED BY CHURCHILL

LONDON, June 30.—Speaking before a large gathering at London's Guildhall, Tuesday, Prime Minister Winston Churchill, predicted that this summer will see fighting in the Mediterranean and elsewhere and told of the sinking of more than 30 U-boats in May alone.

"Very probably here will be heavy fighting in the Mediterranean and elsewhere before the leaves of autumn fall," Britain's war leader and master phrase-maker, told a victory-minded assembly.

Churchill delivered a confident war review there after receiving the ancient capital's highest token of acclaim—the freedom of the city—and after a tour through streets of cheering citizens and soldiers of Allied nations.

And Churchill concerned himself earnestly with the Allied unity, declaring that upon British-American co-operation depends more than any other factor the immediate future of the world, that if "acting together we can help all nations safely into harbor and that if we divide all will toss and drift for a long time on dark and stormy seas."

His war analysis repeated the Allied demand for unconditional surrender of the Nazi, Fascist and Japanese tyrannies, and against the Prime Minister promised that, should Japan still stand when Germany and Italy are toppled, every man, every ship and every airplane in the King's service that can be moved to the Pacific will be sent there to fight "as many years as are needed to make the Japanese in their turn submit or bite the dust."

Of invasion, he stated directly the prediction of probable heavy fighting.

Of the submarine war, he declared that in May the Nazis made a determined effort to halt the Allied convoy bridge from the United States to Britain but that this vital battle, ended in the total defeat of the U-boat attack.

"More than thirty U-boats were certainly destroyed in May, and since mid-May scarcely a single merchant ship has been sunk in the whole of the North Atlantic," Churchill announced.

Because of this "we have had in June the best month we have ever known" in the war, he said, and shipyards of the United States, Britain and Canada have produced between "seven and ten times as much as our losses from enemy action in the month of June."

Bad patches might still lie ahead, and "we must redouble our efforts and ingenuity" against submarines he cautioned but—since U-boat warfare is held out to the Germans as their last great hope—those successes are bringing the Nazis "a somewhat raw and black outlook."

Soil Conservation Supervisors Meet July 8, 2:00 P. M.

The District Board of Supervisors for the Upper Leon Soil Conservation District will hold a field day July 8 at 2:00 p. m. in the Round Grove conservation area, six miles E. of DeLeon, to examine soil and water conservation work and to explain the work of the District. Supervisors are urging all interested farmers, ranchers and business men to join them at the District office in the DeLeon City Hall at 2:00 p. m. July 8 to make a short trip over the area. Transportation will be furnished by the Comyn school.

The District Supervisors for the Upper Leon Soil Conservation District are: Walter Hamilton, Dublin; Walter Fritts, Comanche; H. J. Huddleston, DeLeon; and Duster; J. B. Eberhart, Rising Star; and T. E. Castleberry, Eastland.

Legion Objective Is To Care For Disabled Veterans

"The first objective of The American Legion is to take care of our disabled and sick comrades. We now realize that our responsibility to our disabled comrades along the lines of rehabilitation is greater than ever before in the history of The American Legion," Lee Dockery, local Post Service Officer, stated today.

A series of rehabilitation schools of instructions are now being conducted at each district convention of The American Legion throughout the state, in order to enlighten Post Service Officers and other members of The American Legion on the new veterans' regulations pertaining to World War II veterans and their dependents. The Department Rehabilitation Committee of The American Legion and the Veterans' State Officer are supervising the rehabilitation school of instructions being conducted in different sections of the state, Dockery said.

The National Rehabilitation Committee of The American Legion is now working with the Veterans' Administration on a new proposed rating schedule, which will be beneficial to the new group of veterans and their dependents. The aim of The American Legion is to see that the returning disabled comrades are properly rehabilitated so that they may assume their normal sphere in life as nearly as possible, and to find their proper place in society, stated Dockery.

New California Law Restricts Jap Fishermen

SACRAMENTO, Cal (UP)—The state of California is resolved to not make the same mistake twice about Japanese aliens and citizens.

Two new laws approved at a recent legislative session are to go into effect in August to restrict activities of Japanese fishermen along the coast and to give closer control over Japanese ownership of land.

The fishing measure resulted from charges that Japanese, before they were sent to relocation centers, used high-powered fishing boats to spy on fleet maneuvers and took soundings around defense positions.

The new law will prohibit Japanese aliens from obtaining commercial fishing licenses and extend the same ban to corporations with Japanese officers or majority stockholders.

Although California for years has had an alien land tract restricting land ownership by non-citizen Japanese, state legislators were told Japanese had contrived to gain control of property surrounding many military objectives through giving nominal title to the land in the names of American-born relatives.

Amendments to the alien land act will give courts closer control over these "guardianship" arrangements, impose stiffer penalties for violations and require periodic reports to law enforcement officers on uses to which the lands are put.

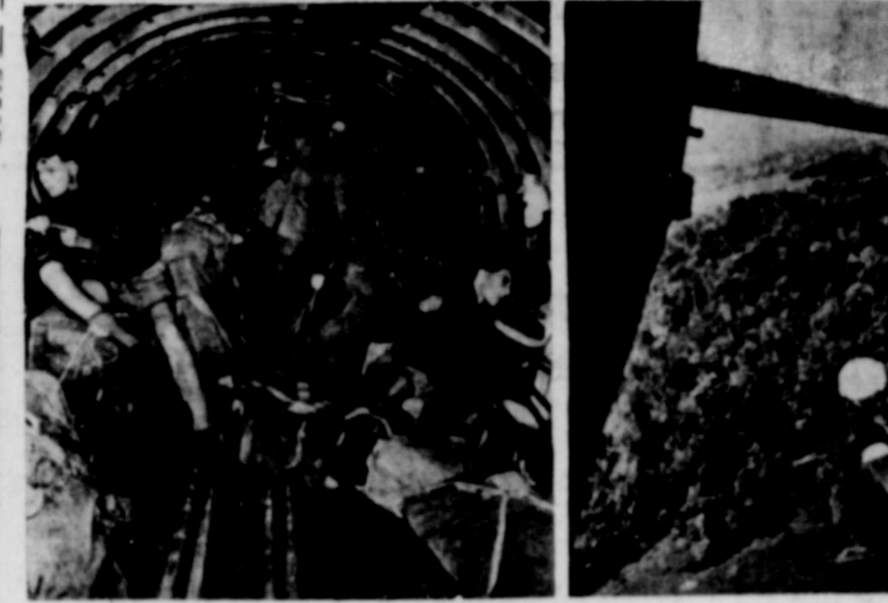

Meter To Aid In Study Of Rays

AUSTIN, Tex. (UP)—The University of Texas' new cosmic ray meter at the McDonald observatory, astronomical plant in the Davis mountains, will enable University astronomers to measure the barrage of cosmic rays which strike Mount Locke.

Recently installed, the meter built at the University of Chicago cosmic ray laboratory, is expected to help furnish significant results concerning the intensity of the rays.

Not much is now known about the cosmic rays other than that they are invisible radiations of enormous power produced by release of vast stores of energy in the interiors of atoms.

Flying Supplies to British in Burma

Planes and parachutes carry the supplies to British forces fighting behind Jap lines in Burma. Here the planes are on the alert for enemy planes, left, as cargo filled transport heads from India to Burma. The supplies are dropped by parachute, right, while at other times planes land on jungle airfields.

Boot Hits Bull's-Eye

(Official U. S. Marine Corps photo from NEA) An all-time recruit record on Parris Island, S. C., range is set by Pfc. Mahlon E. Rieke—328 out of possible 340. The 26-year-old resident of Auburn, Ind., tops by three points all previous scores made with M-1 rifle at Marine Corps' boot camp, wins expert rifleman medal with 22 points to spare. Until he arrived at Parris Island, he had never fired a rifle.

Farm Products Bring Increase In Farm Income

AUSTIN, Tex.—Texas farmers sold \$74,000,000 worth of agricultural products during May, as compared with \$54,000,000 in May 1942, the University of Texas Bureau of Business Research reports.

This 37 per cent gain was due to higher prices rather than to increased marketings, however, points out Dr. F. A. Buechel, bureau statistician.

He cited that total cattle marketings, for example, dropped 23 per cent, but prices were 17 per cent higher than a year ago, helping to offset the drop in numbers.

Shipments of calves, however, were 148 per cent higher than in May 1942, while income from sales was 180 per cent above last year. The number of hogs shipped increased by 50 per cent, while cash income from hogs gained 70 per cent.

Marketings of milk and milk products increased only 4 per cent, but income rose 40 per cent.

APPLICATIONS FOR A BOOK HAVE ARRIVED

Application blanks for the second A coupon book for gasoline are now available at the Chamber of Commerce and persons eligible for the books are urged to attend to the filing of the application at once.

Assistance in filling out the blanks will be given by Miss Dorothy Ferris, stenographer at the Chamber of Commerce.

B. E. Garner, member of the gasoline rationing board, stated that there are about 5,000 books to be issued in the county and that at least ten days will be required to complete issuance of the book after the application is received by the board. Garner also emphasized the fact that the back of the first A book must accompany the application for the second book, even if there are coupons still in the original book. He also stated that the applications should be mailed to the board or left at the chamber of Commerce. Persons should not attempt to deliver the application to the board in person.

Colony To Have Singing Sunday

It was announced today that a community singing will be held Sunday afternoon, July 4 at 3 o'clock at the Colony school. A patriotic theme will feature the gathering and the public is cordially invited to attend.

NAZI DRIVES ON RUSSIANS ARE REPULSED

LONDON, July 1 (Thursday) (UP)—Russia reported Thursday the repulse of German attacks on the Leningrad, Smolensk and Kursk fronts and said that its own troops had captured a strongly fortified German height on the Veliki Luki front northwest of Smolensk.

After a twenty-four hour a day aerial attack on Russian communications and other defenses, the Germans attacked the Russian lines in several groups on the Leningrad front.

The Russian Wednesday midnight communiqué said the Red army met the Germans at the approaches to its forward lines with massed artillery and mortar fire, while heavier guns opened a violent bombardment on positions in the enemy rear.

The Germans retreated, leaving many dead and wounded on the field, the communiqué said.

German attacks of local nature were reported from the Smolensk front and the Belgorod area at the lower end of the Kursk Salient. Both enemy attacks were in the nature of reconnaissance forays, and the midnight communiqué said they were repulsed with heavy losses. Seven German planes were shot down over the lines west of Rostov.

Germany reported in broadcasts the repulse of four Russian attacks on the northern Finnish front. Berlin also gave repeated reports of big Russian landing operations in the Kuban. In some instances the Russians tried to land men behind the German lines, broadcasts said.

Stores To Close Monday July 5

Mrs. M. A. Oyler, secretary to the Retail Merchants Association, stated this morning that as July 4 falls on Sunday, the merchants of Ranger have decided to take Monday July 5 as the holiday and all business houses will be closed on that day.

The public is urged to bear the date of the holiday in mind and transact their business accordingly.

Goat Nothing If Not Patriotic

SWEETWATER, Tex. (UP)—Buddy Wade's young nanny goat has gone all-out to further the war effort.

Doing her part to double war production, the nanny recently gave birth to quadruplets, her first born family.

Two sets of twins is double the usual number of kids for goats to have.

FURIOUS LAND, AIR, AND SEA FIGHTING RAGING ALONG 700 MILES ARC LEADING TO RABAU

Allies take Viru Harbor, Trobriand and Woodlark Islands for which they paid one transport and 17 planes

Allied combined forces striking into a 700 mile defensive arc toward Japan's main south Pacific base at Rabaul fought furious air land and sea battles on Tuesday and Wednesday when they seized Viru Harbor on New Georgia Island and shot down 65 of 110 enemy planes. Land and shot down 65 of 110 enemy planes.

The offensive under Gen. MacArthur appeared to be making satisfactory progress, according to the War Department, but heavy fighting still was in progress following occupation of Trobriand and Woodlark islands and landings on New Georgia and Rendova Islands and at Nassau Bay, just below Japanese held Salamaua on the North New Guinea coast.

The U. S. Army transport McCawley was sunk by enemy air and submarine attack after it had unloaded all personnel at Rendova, while 17 American naval planes were lost in battle against all of the aerial strength the Japs could muster.

The Allies occupied Trobriand and Woodlark Islands off the southeastern tip of New Guinea and have landed near Salamaua, where the landings were unopposed.

Gen. Douglas MacArthur himself is directing the entire operations, a headquarters communication announced.

The islands occupied off New Guinea are 450 miles south and west of the Allied landing at Rendova Wednesday in the Central Solomons.

Timed with the action was a heavy raid by Allied Fortresses and Liberators on Rabaul, New Britain, 500 miles northwest of Rendova and 800 miles above Trobriand.

The Japanese tried another raid on Darwin, resulting in aerial dog fights in which six of their twenty-seven bombers and two of their twenty-one fighters were lost as against six intercepting Spitfires. The communiqué admitted some damage to ground installations and slight casualties.

Salamaua, near which new landings were reported, is on the Huon Gulf of New Guinea in an area toward which jungle fighters have been infiltrating from the south to a point within twelve miles of that base at Mubo.

Salamaua and Lae, also on the Huon Gulf, are important Japanese air bases whose fall would put the Allies on the coast looking directly across Dampier Strait at enemy holdings on New Britain.

On New Britain's northern tip the Vunakanau and Lakunai airfields at Rabaul were pounded by nearly twenty-three tons of high explosive, fragmentation and incendiary bombs which burst in the dispersal area. One fire started could be seen for 100 away. One of the Allied raiders was lost as the Japanese threw up a heavy screen of anti-aircraft fire and sent up night fighters.

Eighty - Three Per Cent of Miners Are Back at Work

WASHINGTON, (UP)—Coal administrator Harold L. Ickes reported today that 83 per cent of the nation's soft coal miners had ended their strike and returned to the mines.

Ickes, who told the miners in a radio address last night that coal must be mined whatever merits of their rejected wage demands, reiterated at a press conference that intensive production efforts were needed.

Cigarette Tax Evaders Warned By Comptroller

AUSTIN, (UP)—State comptroller George Shoppard today reversed the "gamblers slogan" "10 may get you 20" with a warning to cigarette tax invaders that "three cents may cost you \$77."

The warning was backed by records showing that evaders already have paid more than \$50,000 in penalties for ordering cigarettes shipped to them parcel post from out of state mail order houses.

Bombings Heavy, U. S. Loss Light

LONDON, (UP)—American bombers dropped between two and three thousand tons of explosives on Germany and occupied territory in June—the eighth air forces peak month so far—at no rise in the percentage of losses, it was announced today.

WEST TEXAS—Little change in temperature this afternoon and tonight except warmer in the northwest portion this afternoon and north portion tonight. Scattered thundershowers this afternoon and early tonight in extreme south portion.

JOSEPH'S DRY GOODS

Traveler: I thought maybe ordinary personal long distance calls were out for the duration.

Operator: No, indeed! X-ville is only sixty miles away. We hardly ever have delays to near-by towns where there are no big camps or war factories.

Traveler: That's fine! I do want to call, but it's not terribly important.

Operator: Believe me, we appreciate the way everybody tries to help. The operator will always tell you if others are waiting for the line. She'll ask that you limit your calls to five minutes.

*To telephone users: "X-ville" stands for any town within about 100 miles of here which is not busy with war work and not near big cantonments.

Upholsterer Wins \$900 For New Idea
CHICAGO (UP) — The Pullman Co. announced today that J. J. Kelleher, a Wilmington, Del., upholsterer, padded his savings account \$900 by developing a method of saluting carpet used in Pullman sleeping cars in replacing worn section. His method saved the company 1,943 yards of scarce carpet and about 4,000 pounds of wool last year. In line with a company policy whereby employees are paid 50 per cent of the next profit resulting from an original idea, Kelleher was paid \$900.

When You Buy Real Estate
... you not only buy the land and all that's attached to it above and below, but some kind of a title, good or bad. The abstract is a written history of the title and is the evidence of your security or insecurity. Since security is the basis and measure of all values the abstract becomes the most important factor in every real estate transaction. Always demand an abstract!

Miss Anderson And Cpl. Alexander Wed

Miss Jewell La Verne Anderson, daughter of Rev. and Mrs. L. C. Anderson of Cisco became the bride of Cpl. Doyle Alexander son of Mr. and Mrs. J. D. Alexander of Ranger, Tuesday June 29 at the home of the bride's parents.

The impressive double ring ceremony was read by Rev. Lewis Clegg before an improvised altar. The bride was attended by Mrs. Wayne Lingie, and the groom was attended by his brother, Odell Alexander as best man.

Miss Anderson was attired in a powder blue frock with black patent accessories, and her bridal corsage, was of pink carnations. Prior to her marriage Mrs. Alexander was a member of the nursing staff at the City-County Hospital here.

At present Cpl. Alexander, who is a graduate of the Ranger Schools is stationed at Barksdale, Louisiana, and the young couple will make their home there temporarily. Those present for the ceremony were Rev. and Mrs. L. C. Anderson, Mrs. Kessie Rutledge, Mrs. Shirley Anderson, Patsy, Lona and Blaise Anderson, Dwayne Doyle of Cisco, Miss Danny Daniels, Miss Wayne Lingie, Mr. Odell Alexander, and Mrs. Gordon Alexander of Dallas.

Personals

Mr. and Mrs. Lloyd Odum and son of Ft. Worth are the guests of Ranger friends.

Billy Wier of Los Angeles is the guest of his brother Dr. A. K. Wier.

Mrs. D. P. Lynn, who has been the guest of Ranger friends, has returned to her home in San Antonio.

Suggestion Given For Protecting Dried Peas, Beans

Weevils like dried peas and beans, so store them properly so that you will have them to eat instead of the weevils. The following method is suggested by Gladys Martin, County Home Demonstration Agent.

To store, shell dry well matured peas and beans as soon as possible after reaching maturity. A good method of protecting them from weevils is to store the clean dry shelled beans or peas in dry sterilized one-half gallon glass jars. Adjust the rubber, and just before screwing down the lid add 1-4 teaspoon of carbon disulphide, or "high life" in small paper container in each jar.

Let stand 36 hours, open and remove rubber, and paper holder, replace lid loosely, invert jar, and let stand one week. Set right side up and screw down lid. Store in a cool, dry, well ventilated room as aids in keeping the cooking quality of peas and beans. Watch carefully the first few days for any signs of moisture on inside of glass. To remove any noted moisture, remove lid, tie cloth on top and place in direct sun until evaporated. Screw on cap and store.

Soup Hound

Cornell Collection Adds Beecher Paper

ITHACA, N. Y. (AP)—A notable addition has been made to Cornell University's collection of Regional History with the recent acquisition of more than 2,000 manuscript briefs of sermons of Thomas K. Beecher, half-brother of Henry Ward Beecher and Harriet Beecher Stowe, father of Thomas, and several Mark Twain letters

are included in the group. Thomas Beecher occupied the pulpit of the Park Presbyterian Church in Elmira from 1851 to 1896, and was prominent in community life as well as a notably progressive church man. A set of Bramble-family papers is another recent addition to the collection. Charles Bramble was the contractor who built the original building of Cook Academy, which was founded in 1859 as a People's College. Historical letters of other famous people, various types of early account books and a general store day book more than a century old also have been donated to the growing collection of regional background.
