dier William S. Girard for killing Hargus, and Albert Zavala. a Japanese woman. Girard him-

This is setting a dangerou precedent. Any American soldier Cooper. either on or off duty has specific or implied orders to protect Army property by any means at his disposal should the occasion arise -not to do so would subject him to court martial for noncompliance

with duty. The Japanese are very polite and condescending in their native land, but while they bow and scrape it is hard to ignore the feeling that they would like to give somebody a kick in the pants.

It may turn out that Girard is not a very high type of citizenhe may be guilty as sin if and when all the facts are known. It may be he deliberately tempted the woman within range of his grenade launcher and shot it at her (that's what the Japanese say -but we've never heard of a grenade launcher being fired at anybody, since it fits on to the end of a rifle-barrel in a more or less semi-permanent manner). If this is the case, and we doubt it, Girard still should be tried and punished by his own countrymen. At this point it appears Girard was

entirely within his duty. The Japanese woman Girard killed was a scavenger. There are many of those people in both Japan and Korea, where a little brass from shell casings will get them enough money to live or thing, gives it away properly and frowns upon people who take things, even shell casings, machine-gun clips, or what have you High Plains Underground Water from firing ranges as this woman was doing. (.30-cal. shell casings and machine-gun clips are reus able, incidentally). In the strict est interpretation this is nothing but stealing, since these things still have value to the Army. Whether Gerard was merely trying to frighten the woman or not, outright whether she were stealing cartridge cases or electronic

Then the grand old Army, who has told this man every time he went on guard duty to protect with his life the sacred property of the United States, turns around and hands to the Japanese to send to prison (a Japanese prison at that) a man who did what he scribed by them as highly suc- Fox & Higgins Drilling Co., Pe-

MOSQUITO CONTROL ON THE FARM

Most mosquito sources in agricultural districts are manmade and can be reduced or eliminated by man. A farmer or rural resident can do much to help protect his family and livestock from mosquito-borne disease and mosquito annoyance by: 1. Properly preparing fields and pastures so water is not

2. Properly constructing and maintaining ditches so they some interest about the impending more, Paul Delao, Bobby Owen, do not become overgrown with vegetation or hold water for

3. Reducing waste irrigation waters to the lowest prac-

4. Eliminating of standing water in well pump sumps.

Keeping house screens in good repair.

6. Destroying all mosquitoes that enter the home. Any commercial household spray is satisfactory. 7. Removing all artificial water containers on the premises

as tubs, barrels, cans, old tires, etc. 8. Screening or closing cisterns so mosquitoes can neither

enter or leave. 9. Eliminating any openings to septic tanks or cesspools by which mosquitoes might enter or leave.

10. Connecting all sink drains, etc. to home sewage dis-Larry Scoggins, Mike Honea, Rus- posal system so water is discharged above ground. 11. Stocking large stock watering troughs with fish and

preventing overflow and pooling of water. 12. Consideration of some form of modification of any 'playa" lakes or ponds that exist upon the premises.

13. Larviciding of mosquito sources until they can be eliminated or modified. Equipment and chemicals already pre-About sixty-five boys have signed sent on the farm may be satisfactory.

14. Residual spraying of sheds, garages, storm cellars, shrubbery and other daytime places of adult mosquitoes, particular attention should be given to livestock sheds and chicken houses.

15. Prevention of pooling of water from evaporative type air conditioners. Where recirculating pumps are used a teaspoon full of household spray placed in the water pan weekly will control this possible source.

Consult your County Agricultural Agent or County Home Demonstration Agent regarding your mosquito problem.

READ THIS STARTLING FACT

5 out of 10 Smaller Cars wear a Pontiac Price Tag -yet none gives you Any of Pontiac's Advantages

PONTIAC GIVES YOU UP TO 8.9% MORE SOLID CAR PER DOLLAR!

> Not one of the smaller cars can give you the heavy-duty construction, the road-hugging heft and solid security that surround you in every Pontiac. Yet Pontiac's the nimblest heavyweight you ever manage I-and your Pontiac dealer can show you more than six dozen gone all out to make this genuine big car the best behaved beauty that you ever had the pleasure of bossing. You'll find Pontiac's exclusive Precision-Touch Controls make steering and braking the surest, easiest you've ever experienced! Park it, cruise it, try it in stop-and-go traffic . . . this is driving the smaller jobs can't

PONTIAC GIVES YOU 4 TO 7 INCHES MORE WHEELBASE!

The small cars extend bumpers and fenders to look big-but Pontiac puts the extra length where it counts-between the wheels! Pontiac's longer stride brackets the bumps instead of riding on them. And this extra length shows up nside, too, in stretch-out space for six footers. Add to Pontiac's bonus in length its all-new suspension system and you have an exclusive Level-Line Ride no car at any price can surpass . and a built-in sense of direction and security that will spoil you for the smaller cars forever.

PONTIAC'S PERFORMANCE TOPS THE BEST THE SMALL CARS CAN OFFER-BY A WIDE MARGIN!

> Not one of the smaller cars can measure up to Pontiac Performance. Whether you judge a power plant by engineering statistics or on-theroad performance, Pontiac's Strato-Streak V-8 stands head and shoulders above anything in the low-price field. Your Pontiac dealer will be happy to show you a complete facts-and-figures comparison-then an eye-opening test drive in traffic or out on the highway will supply all the heart-lifting proof you need that Pontiac has separated the men from the boys when it comes to performance!

-AND PONTIAC HAS ALWAYS BEEN FAMOUS AS ONE OF AMERICA'S TOP TRADE-INS!

> Maybe it comes as a surprise to you that so much more car can be yours at the same price you've seen on the smaller cars. But there's the fact! And Pontiac is a wonderful investment, too! As you know, it has always commanded a top trade-in. So why not step out of the small-car class and into a Pontiac . . . there's nothing in your way. Your Pontiac dealer has the keys and an eye-opening offer waiting for you right now! So why not look and feel like a millioninstead of a million others?

NOW! If you want the ultimate in both economy and extraordinary performance, new Tri-Power Carburetion is available at extra cost on even the lowest priced Pontiac models 's America's newest power advance and exclusively Pontiac's at so low a cost!

WHEREAS, it appears that Dulin, R. L. Belsher, Rubus Bed- twenty-five year Statutes of Lim

"But seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you." Matt. 6:33.

Things of supreme importance should have our first consideration. In fires and floods we rescue the people before the furniture. In olden times God required the first-fruit, firstlings of flocks and herds and the first-We are to seek the kingdom of God because of its

importance. It was the subject of the first petition Christ taught his disciples to pray, Matt. 6:10. Its treasures are eternal; not meat and drink, Rom. 14:17. Its worth is illustrated by the parables of the Hidden Treasure and the Pearl of Great Price, Matt. 13:44-46. To seek first the kingdam is to seek first the church, because the church and kingdom are the same, Matt. 16:18,19. This is not "Churchanity" instead of Christianity, because the church is the Body of Christ, Col. 1:18. So, to seek first the kingdom, the church, is to seek or put Christ first, his rightful place in every
