PETER EDSON REPORTS ON CONFERENCE

(Editor's Note: Each day there will appear in this column news from the San Francisco conference as reported by Peter Edson, NEA Staff Writer, and as he is covering the conference. For pertinent comment on the progress of the meeting read this column each day.)

BY PETER EDSON

SAN FRANCISCO, April 25 — Nerve center of interest for 4th United Nations conference on international organization isn't going to be the opera house or the veteran's building where the formal sessions will be held, but the Fairmont Hotel up on Nob Hill overlooking the bay and the city. The show will be down in the civic center, but the work will be done at the Fairmont where the American delegation has its headquarters.

Secretary of State Edward R. Stettinius lined up his San Francisco "team" for its first public exhibition and a press preview at the Fairmont 24 hours before the conference was to get under way. They said the presentation would be in the red room. But somebody around here is either color blind or viewing this conference through rose colored glasses, because the red room had green walls with gold trimmings.

At all conventions there is one hotel where the important things seem to happen and as far as the U. S. delegation and American interest is concerned, the Fairmont is going to be it in San Francisco. The Saudi Arabians in their following robes are also quartered here but don't attach too much significance to this because it doesn't necessarily mean that they'll come under a U. S. trusteeship.

It's a wonder somebody hasn't made an issue of this, however because every other person you meet in San Francisco seems to be hipped on the subject of trusteeships. All the other every other persons are hipped on Poland.

Most amazing aspect of this situation is that while everyone tries to talk learnedly and deeply about these two issues, nobody ever says anything.

When Secretary Stettinius submitted to questioning, he didn't say anything on these subjects too. On Poland the secretary said he had nothing to add. On trusteeships he said the U. S. position had been established and was prepared to discuss it. But he didn't.

Somebody asked how this position had been established and the secretary said, "In consultation." It got a big laugh, but doesn't seem very funny now.

Funniest things you see around the Fairmont are some of the people you wouldn't expect to see there. You wonder why they're there. Maybe they wonder that too.

Ely Culbertson, the bridge expert who now has a system of bidding, take out and play of a hand in a book he calls, "Total Peace of What Makes Warm" Clarence Streit, complete with out hat and with hat and with brief case full of his own plans for "union now."

Phil Murray and Jim Carey of the CIO, Dave Beck of the teamsters and Bob Watt of the A. F. of L.

An American Indian in full war paint and feathers but without guns, Dutch and French will probably get a big belt out of this because Americans have said so many nasty things about the way these countries treated their dependent peoples.

If the U. S. delegation has to listen to all such outsiders as these who have bills of patented goods to sell, it's hard to see how they can get much else done in six weeks, but they'll try.

Secretary of State Stettinius lives in a swell pent house on the Fairmont roof. Under-Secretary Jimmy Dunn and Nelson Rockefeller and Archie MacLeish, the other six men and one woman delegate.

WASHINGTON COLUMN

BY PETER EDSON

NEA Washington Correspondent

WASHINGTON, D. C.—The Business Advisory Committee of the Department of Commerce is planning a testimonial dinner, but not for Henry Wallace. The guest of honor will be Jesse Jones.

Edson

Secretary of Commerce and Mrs. Wallace sent out Easter greetings to their many friends and followers in Washington. They took the form of little boxes about two by two by three inches, and in each box was perhaps 30 grains of corn. The accompanying card wished the recipient a Happy Easter and said that the corn was Hybrid Golden Bantam. The card didn't say whether it came from Wallace's hybrid seed corn establishment in Iowa.

Freshman Senator Wayne Morse of Oregon and family have finally found a house, which is news. They've been looking ever since the new Congress convened last January. Washington housing situation is tight.

Of the nearly 150 members of the present Congress who are veterans of World War I, a surprising number hold decorations for battle honors. J. LeRoy Johnson of California won the Silver Star as an aviator. Edward V. Isaac of California holds the Medal of Honor.

Senator C. Wayne Brooks of Illinois served in the Sixth Marines and holds D. S. C., Navy Cross and Croix de Guerre. Forest A. Harless of Indiana was awarded the Purple Heart. Ernest P. Scrivner of Kansas has Purple Heart and Silver Star. Senator Millard E. Tydings has D. S. C. and D. S. M. Robert W. Keen of New Jersey holds Silver Star and D. S. C.

Joseph Clark Baldwin of New York won Legion of Honor. Pat Kearney of New York has Legion of Honor and Croix de Guerre. Walter G. Andrews of New York has D. S. C., B. Carroll Hooper of Tennessee has D. S. C., D. S. M., Purple Heart, Croix de Guerre with palm and five citations.

What to do with the 2000 Japanese prisoners of war now held in the United States may prove one of the more puzzling jobs after the war is over. They can't stay in the United States. But at home, because they have been captured, they have been declared dead and their funeral services have been held by their families.

Another rumor had it that German prisoners were allowed to eat their lunches on the porch of the Arizona Biltmore Hotel, outside Phoenix. The whole story is that the hotel was then closed and the prisoners were assigned as contract labor on the grounds.

Report that Army was buying \$60 hearing aids for deaf German prisoners grew out of a story that International Red Cross had a fund to buy such devices, artificial limbs and eyes for prisoners in any country. No hearing aids have thus far been ordered for prisoners in U. S.

SPORTS

BY HARRY GRAYSON

NEA Sports Editor

ATLANTIC CITY.—Joe McCarthy has infield and outfield problems, of course, but 27 years of managing have taught the manager of the Yankees that no one he is seeking is any more important than what he calls a fifth pitcher.

That is something in the way of a new baseball term, and the builder of champions employs it to differentiate from the garden variety of relief worker.

"A relief pitcher is sent in when a starter is knocked out in an early inning or when a game is apparently lost," explains McCarthy. "A pinch pitcher goes in and saves a game."

Had pinch pitcher Johnny Murphy been on the roster last season, McCarthy believes the New Yorks would have bagged their fourth consecutive pennant.

IREMAN MURPHY had the requirements for pulling a starting pitcher out of a hole in the eighth or ninth, holding a slender lead. The Fordham alumnus possessed a good curve, control, nerve. The Irishman was a fifth infielder. He developed the knack of taking alarming situations in stride, kept the ball low, forced batters to hit it on the ground, frequently into double plays, when any kind of a fly spelled the tying run.

Championships are rarely won without what McCarthy calls a competent pinch pitcher. Butleigh Grimes, Flint Rhem.

Without Painful Backache Many sufferers relieve nagging backache quickly, when they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pain, leg pain, loss of pep and energy, getting up night, swelling, puffiness under the eyes, headache and dizziness. Frequent or steady passage with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 12 ounce of kidney refuse dump out poisonous waste from your blood. Get Doan's Pills.

The bell hops think things will quiet down now that all the delegates are here and assigned to rooms, but that's just what they think. Wait till the delegates start bombarding room service with calls for aspirin.

FIRST DAY OF SCHOOL

When the **San Francisco Conference** ends, the delegates will have experienced their "first day of school" for the study of the complex problems of world peace, and for the development of a curriculum for a permanent school.

Everyone everywhere should clearly understand that this Conference is the most important international meeting in history.

We can be thankful that our nation is represented by wise and experienced statesmen with a sincere desire for peace, and we are sure the other nations have the same type of representation.

The Conference will furnish the leadership and the plan, but peace depends upon the peoples of the United Nations—upon their will to peace, upon their sacrifice for peace, upon their works of peace.

The difficulties are enormous, some of the problems cannot be solved immediately, and compromises will be made by all nations in order to arrive at conclusions that will be fair to all countries.

The Conference cannot create an enduring peace. But it will lay the foundations for a plan for peace to be put into effect as soon as possible, and which we and future generations of the world must maintain.

Let us be sparing in our criticism and generous with our encouragement and constructive suggestions.

And above all let us pray that the thinking people of the world will take advantage of the opportunity afforded by the "first day of school" and build continuously toward an enduring peace.
