## Jap Surrender To Be Signed August 31

### Signs Of Reconversion

Indicative of a post-war world, President Truman substitutes a model of a plow for the model gun that formerly occupied a place on his desk. (NEA Telephoto).

### C. D. HARTNETT NAMED MGR. OF COMPANY

Con. D. Hartnett who for the past 20 years has been manager of the C. D. Hartnett Wholesale Grocery company in Ranger, will leave Thursday for Weatherford where he will be general manager for the company which serves a wide section of this part of Texas.

Hartnett came to Ranger as manager of the store on April 1, 1925. Prior to the establishment of the store here in 1918, Ranger had been part of Hartnett's territory while he was working out of the Weatherford office and he made his first call on Ranger grocery men in 1912. The Ranger store was established while Hartnett was serving in World War I and while he was still in France. Mr. and Mrs. Hartnett have purchased a home in Weatherford and both have expressed regret at leaving Ranger.

### Ranger Man In Germany Given A Promotion

Herbert Rapp has received a letter from Beauford Anderson who is stationed in Amberg, Germany, and who, the letter relates, has been promoted to technical sergeant.

Sgt. Anderson's letter read in part: "Thanks for all of those Ranger Times. I read them and passed them on to our chaplain whose wife also lives in Ranger. He was pastor of Baptist church down by the depot. His name is Messinger."

The copies of the Times were evidently thoroughly read by the sergeant as he referred to the Tower Theatre ad, wondering if that was Rapp's new theatre.

Weather in Germany was most pleasant when the letter was written August 5, but Sgt. Anderson was anticipating a severe winter for those who are still in Germany.

Less than a score of Ohio's hundreds of populated communities have any kind of air mail or transport service.

### HOME FROM WAR

David T. Coffman, seaman first class with the United States Navy and son of Mr. and Mrs. D. H. Coffman who has just returned from 16 months service in the Pacific is the guest of his parents. While in the Pacific, Seaman Coffman participated in amphibious operations on Guam, Saipan, and Iwo Jima.

### Five Year Old Letter Received By Ranger Man

Saul Perlestein received a letter from his niece, Dr. Flora Weis of Tel Aviv, Palestine, Tuesday, the first in over five years. Perlestein read the letter thinking it contained the latest news of his relative, when he glanced at the date and discovered that the letter was written June 7, 1940. The long delayed letter had been censored in Palestine and evidently enroute had been held by some country at war with the United States.

Dr. Weis formerly practiced medicine in Dortmund, Germany, but just prior to the war had purchased a farm in Palestine. Her mother resides in the United States.

**VISITOR TO PREACH**  
Rev. H. T. Pendley of Abilene will preach at the mid-week service at the Second Baptist church this evening at 8:30 o'clock and the membership and public are invited to attend the service.

Rev. Pendley is a prospective minister for the pastorate of the church.

### WOUNDED GIs FIND STAMPS GOOD HOBBY

VAN NUYS, Cal. (UP) — Soldiers convalescing at the Army's Birmingham General Hospital here are finding out that stamp collecting — once confined mainly to childrens playrooms and idlers' studies — has come into its own as a prime aid in rehabilitating wounded GIs.

Thousands of servicemen were first introduced to philately — "the hobby of kings and the king of hobbies" — after they landed overseas, picked up stamps in far off countries and sent them to the folks back home.

Now many of them, returned to the United States to recover from battle wounds, are seizing the chance to pursue their new hobby. Today stamp collecting ranks near the top as an occupational therapy aid.

GI philatelists at Birmingham hold a meeting one afternoon a week at which experts from Southern California stamp clubs give them pointers on collecting and information on stamp values.

And the Birmingham boys have one booster few other stamp clubs can match—movie star Adolphe Menjou. A prominent stamp and coin collector, the dapper Menjou volunteers his time to help Birmingham patients get started with the hobby. Other celebrities, too, have promised to bring their albums to the hospital for the combat veterans to study.

"Mother" of the project at Birmingham is Miss Affie McVicker of North Hollywood, Cal., regional director of the national "Stamps for the Wounded" organization. This group, sponsored by the nation's leading philatelic societies, co-operates with the Red Cross recreation program by distributing materials for stamp collections to hospitalized GIs.

With the help of other members of SFTW's Los Angeles branch Miss McVicker has installed similar projects in other service hospitals up and down the Pacific coast.

### Chinamen Bet On Race Between Cockroaches

NEW ORLEANS (UP) — The room was bare, except for a huge table with a four-foot circle painted on it. Swirling tobacco smoke dimmed the light. Eight Chinese stood around the table and others were jammed behind them.

Drifting into the room were pungent aromas of soy sauce and dried shrimp. Nothing seemed to move. The atmosphere was tense.

A hand of each of the eight Chinese at the table was upraised as if in a salute. But in each upraised hand was a brown cockroach. At a given signal the eight cockroaches were dropped in the center of the white circle.

The cockroaches began to teel the air about them with their long antennae. The room was hushed, then a silent Chinese at the head of the table cleared his throat and shouted in Chinese.

The eight men then began a sing-song chant.

The cockroaches moved. They gradually picked up speed and then they began rushing for the edge of the circle. The smallest passed over the edge first. The noise died down. One of the eight picked up the small roach and placed it in a small box.

He then held out his hand and quietly the cockroach Chinese put money in it. He had won the race and was collecting his bets.

This did not happen in the back room of an opium den in China. It happened in the French Quarter, in New Orleans.

**THE WEATHER**  
WEST TEXAS—Cloudy with showers and thunderstorms this afternoon and in south and east portions tonight and Thursday. Cooler in northwest portion this afternoon and in north and west portions tonight and Thursday.

### MATH EXPERTS HELP BOMBERS HIT TARGETS

LOS ANGELES (UP) — Twenty-five expert mathematicians at Occidental College are helping aim the bombs to turn Japan's industrial might to smoking ruin.

Under supervision of the Army Ordnance Department they are engaged in the only project of its kind in the country—a 25 man "adding machine" to compute the results of experimental bombing runs on the California desert.

Dr. Vernon L. Bullman, physics professor, heads the project, organized by officers of the Army's Aberdeen proving grounds, Md. They realized that theoretical speeds and trajectories of falling bodies, computed in a vacuum, were of little value in combat. More realistic tests were needed.

The result was the Aberdeen Bombing Mission, a detail of Army fliers under Maj. H. W. Lewis which carries on daily experimental flights, dropping bombs of varying size and weight—replicas of live combat bombs.

A California desert air base was chosen for the experiments. Dr. Bullman said, because of the clear visibility and broad expanse of unoccupied territory.

Spotters note the landing place of each bomb dropped, as well as wind and weather conditions. A photographic device records the position, course, altitude and speed of the plane at the moment the bomb is released.

Records are taken to Occidental, where the 25 computers reduce them to mathematical form. Most of the men are students who work part-time on the project.

### Something For The Movies To Capitalize Upon

DALLAS, Tex., (UP) — Marriage — Texas style; Miss Maxine Clark and Jessa Parker were married at the Pleasant Mound rodeo while on their respective horses, Buckskin Joe and Buddy. Officiating while astride his horse, Coyote was the Rev. James E. Hayes, chaplain of the 35th Battalion of the Texas State Guard.

The bride, given in marriage by rodeo producer Roy Sharp, wore a cow-girl costume with western-styled accessories.

Immediately following the ceremony, there was a wild Brahma bull riding event at the rodeo stadium.

### Explosion Gives Firemen Shortest Run of the Year

HOUSTON, Tex., (UP) — The Central fire department recently made the shortest run of the year. It also was more than a professional interest to the firemen.

E. R. Boland, painter, was mixing some paint remover at the M. & K. cafe, being renovated. It exploded, singed his eyebrows and started a fire.

The cafe is just around the corner from the fire station, and was quickly extinguished after a big truck wheeled around the corner. The cafe was the favorite coffee spot for the firemen.

### Miss Barton Is Made Assistant Co. H. D. Agent

Announcement has been made of the appointment of Miss Frances Barton as assistant County Home Demonstration Agent for Eastland county to replace Miss Lema Fay Hoarn who recently resigned to accept another position.

Miss Barton comes to Eastland County from Littlefield. She is a graduate of the University of Texas and for the past two years has been employed by the Farm Security Administration. She will take up her duties on September 1.

### Tokyo Won't Like This

A graduate of the University of Tokyo and Military Academy of Kyushu, Lt. Minora Wada, briefs U. S. pilots for strike against his own command. Here Lt. Wada points to exact location of Jap Division Headquarters on a map. Left to right are, Col. W. T. Scott, operations officer; Lt. Wada; Col. Stanley E. Ridderhoff an interpreter, (Marine Corps photo via NEA Telephoto).

### Sgt. Brown Back From Pacific War Visits Here

Sgt. William H. Brown, who has been in the Pacific theatre of war for the past 32 months has arrived in the States and is here for a visit with his parents, Mr. and Mrs. Calvin Brown.

Sgt. Brown will have a 30 day furlough after which he will report to Camp Crowder, Mo. Among other stations in which he served in the Pacific, Sgt. Brown was in Australia and New Guinea.

Also here for a visit with the Brown's are Mr. Brown's mother, Mrs. H. E. Brown and his sister, Mrs. H. E. Bennett, both of San Antonio.

### Iron Mountain Plant Produces Gliders Quickly

DEARBORN, Mich. (UP) — Production records set by the Ford Motor Co.'s Willow Run bomber plant also are being made by its cargo — and troop-carrying glider plant at Iron Mountain, Mich.

This plant is the largest glider producer in the United States and already has sent out 4,000 CG-4A type gliders. At present eight gliders daily are being turned out and are snatched from the Ford airport by C-47 ATC planes. The top planes make two round trips daily from Iron Mountain to Milwaukee.

As one source put it, they are hopeful that the outcome of the conference will be "a mighty step forward toward the attainment of national self-government of all dominated nations in Asia and Africa."

The general Burmese disappointment with the set up provided in the recent Burma White Paper is accompanied by hope that a more energetic and realistic approach will be made to the Burmese situation some time in the near future.

### Meat Points o Be Reduced On September Third

WASHINGTON (UP) — Red point values on beef will be reduced "substantially" on Sept. 3. But it will be "at least 30 days" before any meats can be made ration-free, it was learned today.

Food officials said the government was not going to remove ration controls on meat until the potential supply and non-civilian demands have been thoroughly clarified.

### SURRENDER TO CHINA

CHUNGKING (UP) — Japan's formal surrender of 1,000,000 troops in China appeared possible within 48 hours, as a Chinese government spokesman announced today that the agreement presumably would be signed at Nanking.

### Tokyo Reveals Atomic Bombing Damage to Cities

SAN FRANCISCO (UP) — Japanese broadcasts today said atomic bomb raids on the cities of Hiroshima and Nagasaki had cost nearly half a million "casualties and sufferers" and levelled buildings within a radius up to 10 miles.

The second atomic bomb dropped August 9, on Nagasaki took a toll of "more than 10,000 persons killed, more than 20,000 wounded and more than 90,000 in the vicinity of the city," Tokyo said.

### More Allied War Prisoners Freed From Japanese

CHUNGKING (UP) — American parachute teams reported the liberation of 1,700 or more Allied war prisoners and civilian internees from Japanese camps in China and Manchuria today.

From Mukden came word that an American bomber had taken off from that Manchurian city yesterday for Sian, approximately 100 miles to the north, to bring out the most famous prisoner—Lt. Gen. Jonathan M. Wainwright, hero of Bataan and Corregidor.

### Army Reducing Troops To Be Sent To Pacific

WASHINGTON (UP) — The army is calling down the number of troops to be sent to the Pacific by 60 to 75 per cent, it was learned today.

Meanwhile, as rapidly as schedules permit, the Army will put into effect a policy of redeploying only young men with low point scores and others who volunteer to stay in the service.

### Bulletins From Washington, D. C.

WASHINGTON (UP) — The bureau of international revenue today modified its salary stabilization rules to permit limited increases in salaries, bonuses, commissions, fees, incentive pay and other types of compensation.

WASHINGTON (UP) — The Army, Navy, and Veterans' Administration are dissatisfied with present types of artificial limits and have asked the industry for "better models."

WASHINGTON (UP) — The war production board announced today that it is reactivating itself for peace-time operations.

Rural electrification is furnished to 149,807 farms in Texas for lighting and power.

### BATTLESHIP MISSOURI TO BE SCENE OF FINAL SIGNING

MANILA, Thursday (UP) — Gen. Douglas MacArthur announced early today that the surrender of Japan will be signed aboard the Battleship Missouri in Tokyo bay on August 31.

MacArthur announced the detailed plans for the occupation of Japan following in general the outline already broadcast by Tokyo radio.

He revealed that all Japanese shipping had been ordered to remain at its present location in preparation for surrender to the Allies.

Japanese submarines were ordered to remain surfaced and fly a black flag.

The first American occupation troops will be flown into the Atami airbase in the western outskirts of Tokyo on Sunday, August 26. On Tuesday, Naval and Marine forces will land in the vicinity of the Yokosuka naval base.

MacArthur will accompany the main landing force on Tuesday. MacArthur gave the Japanese ultimatum at 4 P. M. August 28, — 4 P. M. CWT August 27.

MacArthur had ordered all Japanese military, naval and civil aircraft grounded but in response to a special appeal from Tokyo gave his permission for a minimum number of flights on urgent missions.

The outline of the occupation plans was given as huge fleets of C-54 transport and other large aircraft, hastily mobilized from Army cities and combat regions all over the world and assembled on the Okinawa airstrip made ready to carry the occupation troops to Japan.

### De Gaulle Due In Washington This Afternoon

WASHINGTON (UP) — Gen. Charles De Gaulle, whose relations with the late President Roosevelt were always strained, gets a chance today to start a clean slate with a new American chief executive.

De Gaulle, president of the provisional French government, will arrive here at 3 P. M. CWT for a three-day state visit and important conferences at the White House.

### Jap Leads Marine Air Attack

Lt. Minora Wada, Jap Army transport officer, captured in the Philippines, volunteered to guide Marine planes against the long-sought headquarters of the 100th Jap Army Division. Here he is shown seated in the waist of a Billy Mitchell Marine Bomber picking out land marks and transmitting data to air-strike co-ordinator in the nose of the ship. Framed in the port are other units of the striking force. (Marine Corps photo via NEA Telephoto).

FOR RENT — Big bedroom with private entrance. Across from high school. Mrs. Jewel Green, 325 Pine Street.

The first American champagne was produced in a small winery in Cincinnati, O., in 1842 by Nicholas Longworth.

#### Dream Turns Real

For nearly 15 years, Dr. Syngman Rhee, above, has been president of the provisional government of Korea. For most of that time he has headed a mission in Washington seeking U. S. aid for his Korean independence campaign so that his government might take over. Two years ago the United Nations pledged his country independence. With Japan beaten, Dr. Rhee's dream nears reality.

#### Veteran Piano Tuner Asserts Work Is An Art

CINCINNATI (UP) — Tuning a piano is a long way from being child's play and can't be learned in a hurry, says veteran tuner Edwin Shearer who is at odds with the Cincinnati Music Conservatory about it.

Shearer has been tuning pianos for more than half a century and he thinks that all piano tuners have to be musically inclined and "that the art—he contends it is an

art—cannot be learned in a classroom. What brought it up was the Conservatory's offering of a piano tuning course for returned war veterans. Alfred T. Reeves, who will instruct in the school, denied that any considerable knowledge of music was necessary to the prospective tuner. Shearer sniffed, said that the only way to learn it right is to serve an apprenticeship in a piano factory for at least 3 years.

#### Defies Chiang

Gen. Chu Teh, above, commander-in-chief of Chinese Communist forces, recently sharply warned by Generalissimo Chiang Kai-shek against independent action in accepting surrender of Jap troops, defied the Chungking leader by issuing surrender ultimatums to Jap forces in China's four north-western provinces. From Yenan, Communist capital, a broadcast accused Chiang of fomenting civil war.

Wyoming has ranked last among the 48 states in population since 1880.

Columbus, O., recorded a low of 48 degrees in the middle of July this year and mothballed blankets came out in thousands of homes.

Empty water canteens tied together provide makeshift floats for airmen downed at sea. Swimmer here grabs for floating containers. This is one of the water safety measures taught in six-day survival aquatic course for physical instructors of the First Air Force at Mitchel Field, N. Y. Men are also instructed in swimming with weights and how to protect themselves against water animals.

**NEWS FROM Desdemona**  
(by Special Correspondent)

DESDEMONA, Tex. Aug. 20—R. K. Peak, C. W. Burrow and Travis C. Burrow, all of Girard, and Dan Peak, of Peacock, visited Mr. and Mrs. J. C. Peak and family last week.

Desdemona schools open Monday, August 27.

Mrs. James White of DeLeon visited her parents, Mr. and Mrs. A. R. Tarpley, the past week end.

Mrs. Emma Browning of Eastland is visiting her son, C. M. Browning, and family.

Mr. and Mrs. N. E. Riley and Mr. and Mrs. Owen Riley, all of Munday, visited the Koonces here over last week end.

Mr. and Mrs. C. M. Browning and children, Emma Lou and Bruce, attended a Browning family reunion at Ellison Springs,

Saturday. Mr. and Mrs. Floyd Nicholson visited friends here last week.

Mrs. Paul Baker and children of Mexico, visited her parents, Mr. and Mrs. Hughie Abel, last week.

Miss Eva Tarpley returned home Saturday after a few days' visit with her sister, Mrs. James White, at DeLeon.

Mr. and Mrs. W. L. Moore, Jr., and daughter, visited his parents, Mr. and Mrs. W. L. Moore, Sr., last week.

Mrs. Clayton Williams has returned from Circle Back where she spent a few days. She will teach in the Circle Back school again this year.

We are happy to report that Mrs. Jim Disham, who underwent a major operation in a Dallas hospital about six weeks ago, is again at home here and is improving.

Ange Baxter, William Eyrhe and Talulah Bankhead in a scene from the 30th Century Fox picture, "A Royal Scandal."

**OLD TIMERS HOAXED BY PETRIFIED MEN**

FORREST CITY, S. D. (UP)—A lot of old timers would like to know what became of the "petrified men" which put Forrest City on the map more than 60 years ago.

In 1891 the scientific world was amazed at the purported discovery of a "petrified man" in the bottom of the Cheyenne River near here.

The stone man was "found" by William Suttan, a Forrest City butcher, who later exhibited his find at the world's fair in Chicago in 1893.

James Horn, a lime-burner on the Little Cheyenne, spread the story and a curious group of townspeople gathered to see the body removed from its watery grave.

In removing the body a leg was broken, revealing a well preserved human femur, later attested to by medical lions and wrangles in its face indicated a man past middle age, with well rounded muscles preserved in solid stone.

Two years later another "stone man" was unearthed by Suttan

and Horn, which they announced was for sale.

So much money had been taken in through display of the first find at various fairs throughout the country they had no trouble finding a buyer.

James Reid, a Forrest City trader, took an option on the second specimen and then dickered

with Peter Person, a farmer, to sell it at a profit.

Person agreed to pay part cash and give a mortgage on his farm for the balance—which resulted in a tragedy.

Person and his wife quarreled over the transaction, and the quarrel ended by Person killing his wife and then committing suicide.

The tragedy resulted in a confession that both "petrified men" were manufactured of bona fide human skeletons exhumed from graves, and ordinary concrete.

Suttan confessed to the idea, and Horn confessed that he and an unnamed Redfield doctor did the work. Using one of Suttan's relatives for a model, they made a plaster cast of a human form, hung a skeleton inside, and poured in concrete from the top.

People here still like to talk about the time when the eyes of the world were on Forrest City—and its "graveyard of stone men."

**Talking is all Right—**

If you are running for office or courting your best girl but when it comes to buying land or town properties don't let anyone talk you out of an abstract. The fact that the seller has owned the land for many years doesn't mean that the title is always good. The safest plan is to get an abstract before you buy. The cheapest property on earth is too high if the title is faulty.

C. Wood, Mr. and Mrs. Bob Pierce and son, Max all of Eastland; Mr. and Mrs. Charlie Browning and children, Mr. and Mrs. Tom Jordan, Mrs. Iva Buchanan and daughter, Lillie all of Desdemona; Mr. and Mrs. J. C. Whitehurst of Aquilla; Mr. and Mrs. Vera Creager and son Billy of Odessa; Mrs. Johnnie Anderson of Stephenville; Mrs. Clyde Wright and daughter, Mackie Dee of De Leon; Mrs. Ida George of Sweetwater; Mrs. Irene Hodge and daughter of DeLeon; Mrs. Elsie Ezell of Wickert; Mr. and Mrs. Ed Jones of Garman, and Mr. and Mrs. McFadden and children of Garman.

## Humble To Start Program of Gas Conservation

Authorization of four gas conservation projects costing \$3,500,000 and designed to conserve for productive use 56,000,000 cubic feet of natural gas daily was announced by Humble Oil & Refining Company today. The projects involve five fields in the Gulf Coast. They are West Clear Lake, Friendswood, Anahuac, and Lovell Lake Fields in Texas and the North Crowley field in Louisiana. Humble will construct two natural gasoline plants, one at West Clear Lake and the other at Anahuac, and install compressors at Lovell Lake and North Crowley.

The plant at West Clear Lake will process daily 5,000,000 cubic feet from Clear Lake, 20,000,000 cubic feet from Friendswood, and 6,000,000 cubic feet from the Dickinson-Gillock field. This plant is expected to recover from the gas 25,000 gallons of liquid daily.

The plant to be built at Anahuac will have a capacity to process 12,000,000 cubic feet of gas daily and recover 5,400 gallons a day of liquid products.

The Lovell Lake project involves the installation of additional

compressors in order to gather 4,500,000 cubic feet of gas daily and to boost the pressure so that the gas may be delivered to a transmission line which is already connected with the field. Additional equipment will also be installed at the North Crowley field in the Louisiana Gulf Coast which will deliver approximately 8,000,000 cubic feet of gas daily into transmission lines.

These projects represent an expansion of the Humble Company's gas conservation program which has been carried on for a number of years. The most important project by Humble last year was the installation of equipment at the Tomball field to conserve 8,000,000 cubic feet of gas daily by compressing it for gas lift and delivery to gas lines. The shortage of critical materials during the war has prevented the development of other projects previously. The gas which the West Clear Lake and Anahuac plants will process is that which is being currently produced with the oil from the fields the plants will serve. Completion of these projects will make possible full utilization of all the gas produced with oil in these fields.

### MISSES PERSON HOSTESSES AT COFFEE

Misses Lynn and Mercedes Pearson entertained with an informal coffee at their home Wednesday morning from 10:00 until 11:30, complimenting their friends who are leaving soon for college.

The home was attractively decorated with bouquets of orange and yellow marigolds and lilies. In the dining room the tea table was laid with a Maderia tealcloth with a centerpiece of orange and yellow marigolds arranged with fern.

Guests were received by the two hostesses and directed by Misses Catherine Adams and Frances Ann Eubank to the dining room where they were served by Mrs. Frank Hatton who presided at the coffee table. Misses S. U. E. Ann Vaughn and Beth Pearson assisted in the dining room.

Music was furnished by Miss Lillian Ashcraft and Miss Frances Ruth Hagaman.

"When You Get the Busy Signal

... please try again. We regret the inconvenience busy telephone signals cause our customers. The Texas and Pacific is carrying the heaviest freight and passenger load in its history—with the same equipment—consequently, our telephones are working overtime these days.

We are striving to give you the service you desire and expect from the Texas and Pacific.

When you call our number and get the busy signal, won't you please call again?"

A. J. CHESTER, Vice President

THE TEXAS AND PACIFIC RY.

### PERSONALS

Mr. and Mrs. Claud Stroud and daughter, Patricia, of San Antonio are the guests of Mrs. Stroud's parents, Mr. and Mrs. W. M. Bailey. The Baileys also have as their guest their son, Pfc. Norman Bailey who has just returned from service in the European theatre.

## RANGER JUNIOR COLLEGE

OPENING DATE  
SEPTEMBER 10th, 1945

A Home Institution established to be of service for our community, so your boy and girl may remain at home for two more years.

Offers courses leading to B. S. and B. A. degrees with a strong extra-curricular activity program. Every hour of our work is fully accredited and will be Accepted if taken in the right year, that is, freshmen courses in freshmen year and sophomore courses in sophomore year. Exceptionally strong fine arts department. College has membership in the Phi Theta Kappa and other national scholastic societies. Our national leaders are recommending "back to college" movement. A college education will pay a dividend.
