## Discharge Requirements To Be Eased

### Ranting of Evangelist Made Him Nervous

Isaac E. Coker, 75, (right) is being held by Oklahoma City, Okla., police in connection with the shooting of Rev. Haskell Coppedge, 38, (left) traveling evangelist for the Pentecostal Holiness Church. Coppedge reveals gunshot wounds in his chest and arm, which he allegedly received from Coker after one of his services. Coker told police "that ranting (from church) made me nervous." NEA Telephoto.)

### A-BOMB SPURS NEW RESEARCH IN METALLURGY

CHICAGO (UP)—Inability of metallurgists to specify the alloys required for application to the atom bomb may have aroused technologists to new, concentrated research, in the opinion of Prof. Cyril S. Smith, director of the Institute of Metals.

In a paper read before the Chicago University Citizens Board, Smith said that metallurgists kept ahead of the engineers in properties of quantity production in the 19th century, but were lagging in the 20th century.

"The atom bomb was almost what the physicists predicted in operation, power, and effect," Smith said, "but for the metallurgists, it was quite impossible to say beforehand what kind of metal plutonium would be. Although metallic uranium had been known for 100 years, there also was no information on its alloys."

"And what is worst, there was no means whatever, short of actual trial, of determining what alloys were likely to have the particular properties required for the application of the bomb."

Smith indicated the "monopoly of industry in metallurgy" and said that with a few exceptions, research had been "to a very large degree colored by industrial requirements."

### Project Plans Irrigation For 126 Farm Units

LINCOLN, Neb. (UP)—Nebraska will have an "irrigation showpiece of the nation" when the Mirage Flats project is completed next spring, soil conservation service experts report.

The project, being developed under the Case-Wheeler act, contains 14,785 acres, of which 12,000 are irrigable. Boundaries of the 126 farm units have been determined according to efficiency plans which utilize main laterals, drains and waterbeds.

Contracts were let for clearing and leveling, along with construction of farm laterals and irrigation structures, in October, 1944. Since then, according to Joseph P. Collopy of the service, an "assembly line style of irrigation development" has been in operation.

"Precision-like planning plus manpower is bringing irrigation to the fertile, gently sloping area," he said.

Most of the land was sold to the government when the project was approved. Many former owners made an agreement to repurchase the property after engineers and farm management technicians had laid it out in economic size units according to topographic conditions.

First operation of the engineers was land leveling, after they had determined what land could be irrigated without leveling. The amount of dirt moved was held to a minimum, and cuts over six inches deep seldom were made.

When the supply laterals had been located and surface drains made, a profile was run and a grade laid. Then drops, checks and turnouts were installed. Those concrete structures were designed after exhaustive tests had been completed in a field laboratory.

Water for the irrigation system will be obtained from that impounded behind an earth filled dam across the Niobrara river eight miles north of Hastings.

The service estimates that 90 per cent of the work already has been finished. The job, it was said, is being completed in record time.

### SUBSIDY LOSS TO CUT INCOME FOR FARMERS

WASHINGTON (UP)—The U. S. Department of Agriculture estimates that farmers' income next year will drop from 10 to 15 per cent below their estimated 1945 income of \$2,100,000,000.

Farmers already have been prepared for the loss of direct and indirect food subsidies which a 1 1/2 year cost the government approximately \$1,750,000,000. Even so, Bureau of Agriculture Economics officials forecast a post-war farm income far above the pre-war average over the next two years.

In the event of sharp breaks in the price of major commodities the Commodity Credit Corporation would be required under law to support prices at 90 per cent of parity.

Moves are already under way to cut production of some of the war crops—notably soy beans—to avert heavy purchases of such commodities in carrying out the support program. Price guarantees are being dropped to the minimum under the law to discourage production of surpluses.

Meanwhile, the parity structure is worrying Secretary of Agriculture Clinton P. Anderson and other department officials. They point out that if dairymen are forced to fall back to 90 per cent of parity such prices would be too low to enable them to stay in business. On the other hand, poultrymen would probably produce poultry and eggs far in excess of demand, for they would profit at prices reflecting 90 per cent of parity.

Anderson has spoken out almost in indignation of the National Grange's proposal for a modernization of parity which would bring commodities into closer balance. Congress is in a mood to act. But few observers expect any revisions in the principle during the coming year.

The chief obstacle to revision legislation is the fact that the leading farm organizations, are in sharp disagreement as to what should be done. Members of the farm bloc in Congress are also confused over the issue.

### Jack Phillips Just Discharged Here For Visit

Jack Phillips of Arlington, formerly of Ranger, who has just received his discharge from the service of the Navy is here for a visit with friends.

### COACHES NAME TOURNAMENT BALL TEAMS

Coaches whose teams participated in Ranger's invitation basketball tournament played here last week named an all tournament team which was announced at the close of the tournament Saturday night.

Those named to the team and who were presented gold basketballs were Frank Ford of Ranger, Smith of Stephenville, Shamburger of Merton Valley, Don Ford of Ranger and Morris of Brownwood. Wheat and Tarrant of the Ranger girls team were named on the tournament girls team.

Stephenville's boys team took first place in the tournament by defeating Brownwood by a score of 27 to 18. The score at the half was 14 to 4 in favor of Stephenville. Kay was high point man for Stephenville and Johnson was high point player for Brownwood. The team was presented a trophy.

Mineral Wells boys won from Eastland by a score of 24 to 4 to take the consolation prize. High point man for Mineral Wells was Weatherly with 7 points and Edelman made three points to make Eastland's high point player. The score at the end of the half was 12 to 1 for Mineral Wells.

In the girls' games Lipan defeated Ranger to win the tournament first place, the score being 24 to 9. Score at the end of the half was 16 to 5 for Lipan.

Strawn girls took the consolation by defeating Olden 14 to 13. High scorers for Olden was Duncanson with 10 points and Gasco of Strawn scored 8 points for fifth place.

### Charter Members For VFW Chapter Are Still Open

Members of the Ranger chapter of the Veterans of Foreign Wars stated today that charter memberships in the organization are still available and those who wish to join the group may learn the details by contacting Everett Weaver, Bob Hansford or Capt. Jack Palmer. Deadlines on the charter memberships has been extended 30 days.

The charter will be accepted at the next meeting which will be held at the First Methodist church on January 21 at this meeting members will be "mustered into" the VFW.

### Two Classes For Mechanics Set Up In Ranger

Elmer Freese, automotive instructor with the department of extension of the University of Texas, who is conducting a class for mechanics stated today that due to the fact that so many enrolled for the class at the opening session last Thursday that two classes will be conducted each week, one on Thursday night and the other on Friday night.

The meeting will begin at 7:30 o'clock each night and will be held at the Leveille Motor Company. Subject for this week classes will be the generator regulator.

### T. & P. President To Visit Ranger On Thursday

It was announced today that W. G. Vollmer, president of the Texas and Pacific Railway, will be in Ranger Thursday and will be the guest speaker at the noon meeting of the Lions Club.

### EXPLOSION RIPS WEST VA. MINE

WELCH, W. Va. (UP)—A "very violent" explosion ripped through the shafts of the Havaco No. 9 mine of the New River and Pheasant Coal Co. here this morning, trapping an estimated 150 to 175 men and causing heavy damage throughout this southern West Virginia community of 6,000 persons.

Early an unofficial report from the mine indicated that 267 men were working in various levels of the pit when the explosion occurred. An estimated 75 to 100 men were removed from the first level, some injured and others not. The explosion, however, was reported to be in a dip section of the second level.

It is not known how far into the deep mine the blast occurred, but the entire triple construction at the entrance to the shaft was wrecked.

More than a score of negro children were showered with bits of flying glass when the windows in their school were shattered, 450 feet from the mine entrance.

All windows in the company store, 1000 feet from the mine entrance, were broken.

The force of the explosion was heavy throughout Welch, one-half mile away.

### Iran Threatens Appeal To UNO General Assembly

LONDON (UP)—Iran threatened today to appeal to the United Nations General Assembly for protection of Iranian rights if Russian-Iranian differences are not settled soon.

Iran's chief delegate, Seyed Hassan Taqizadeh, announced his country's intentions of appealing to the UNO at the eighth full session of the assembly.

The Iran-Soviet situation was the first of the urgent world political controversies mentioned in the general debate which started late yesterday. The possibility was seen that it might touch off more controversial issues.

### Launched 9,000 Bomb-Carrying Balloons On U. S.

TOKYO (UP)—The Japanese launched 9,000 bomb-carrying balloons against the United States during the war until the supply ran out in March, 1945, six months before she surrendered. It was revealed officially today.

The Allied intelligence section said about 200 balloons were released in February and March of 1944, but that from Nov. 3, 1944, until March, 1945, the Japanese loosed about 150 into the stratosphere daily.

### Navy Yard At Capital Renamed Gun Factory

WASHINGTON (UP)—The name of the U. S. Navy Yard here, one of the oldest such installations in the country, has been stricken from Navy lists. Under a reorganization ordered by the Secretary of the Navy, it is now known as the U. S. Navy Gun Factory, which formerly was part of the old Navy Yard.

The new organization, in force since Dec. 1, is chiefly administrative in effect. Rear Adm. F. L. Reichmuth, who is commandant of the Potomac River Naval Command and also superintendent of the Naval Gun Factory, will retain both commands until relieved. There will be little if any change in the physical arrangement.

Plans for the yard were first submitted in 1792 by Maj. Andrew Elliot. He, together with Maj. Pierre L'Enfant, had been appointed by President Washington to a survey and plan the new capital. Included in Maj. Elliot's recommendations was a naval reservation of 20 acres to be located along the Anacostia River.

The first Secretary of the Navy, Benjamin Stoddert, purchased the ground in 1799. The area was known as the Navy Yard from that date until the recent change was made.

### Riboflavin Seen Cure To Horse Blindness

CHICAGO (UP)—Science finally is believed to have solved the strange "moon blindness" that has afflicted horses for centuries.

Brig. Gen. E. A. Kelsor, chief of the Army Veterinary Service, told the recent annual meeting of the Horse and Mule Assn. of America that the mystifying, periodic blindness was believed due to a food deficiency.

"Moon blindness," known to veterinarians as periodic ophthalmia, has been known for 2,000 years and has cost horsemen millions of dollars by blighting horses with temporary and sometimes permanent loss of sight. Research specialists at the University of Pennsylvania, Johns Hopkins University and the Universities of Ohio and Kentucky long have sought the answer to the disease.

At the Front Royal, Va., Army remount station, new cases of periodic ophthalmia had affected more than 10 per cent of 1 1/2 horses received. For three years, the Veterinary Research laboratory conducted research into possible cures and preventatives. Veterinarians found a clue that led to the administration of crystalline riboflavin in the feed, which prevented recurrences of "moon blindness," Kelsor said.

### First Snow Of Winter Has Kids All Excited

Ranger kids pressed eager faces to windows today to watch the first snow of the winter and many of them were heard to groan because it was melting as fast as it fell.

But if weather predictions hold good, they may get to see a snow covered home town in the morning. The snow started falling about 10:00 o'clock this morning and was still falling at 1:30 this afternoon.

### Gets Discharge From The Navy

Robert Virgil McCollum, a Route 2, Ranger, has received his honorable discharge from the service of the Navy after serving 21 months in the Pacific theatre. He was discharged at the separation center at Norman, Oklahoma.

### DIRECTORS FOR C. OF C. ARE NAMED MON.

Five directors and two alternates were elected at a meeting of the Chamber of Commerce directors held Monday night at 8:00 o'clock.

Those named were T. C. Wiley, J. Floyd Killingsworth, A. J. Ratliff, L. R. Pearson and Willard Swann. The two alternates are E. T. Eulank and H. C. Henderson.

Five directors whose terms carry over another year are M. L. King, Hall Walker, Lee Deckery, W. F. Croager, and David D. Dickson.

Terms which were expiring this year were those of J. J. Kelly, Pearson, Ratliff, Killingsworth and H. P. Earnest.

A president of the Chamber of Commerce will be elected from the directors at the next regular meeting which falls on January 28.

In the business session Monday night directors voted to close the Chamber of Commerce office at noon on Saturdays. Those with business to transact at the office were asked to reach this change in schedule.

Says Chinese Factions Have Made Agreement

CHUNGKING (UP)—The Chinese Communists have accepted in principle a nationalist program for reorganization of the government under the leadership of Generalissimo Chiang Kai-Shek and the Kuomintang, the central news agency said today.

Central indicated that a final settlement of the years-old political split between the Nationalists and Communists was imminent as a result of the leftist decision.

The main features of the program were that the Kuomintang would retain its status as China's leading, political party, with Chiang as president occupying a position about midway between that of the United States president and the British king.

In 1944, California, Iowa and Texas showed agricultural production valued at more than one billion dollars each.

### EISENHOWER ASKS HALT IN CONGRESS, GI CLAMOR

WASHINGTON (UP)—Gen. Dwight D. Eisenhower, Army Chief of Staff, today announced that Army discharge requirements will be eased during the spring and that every drafted enlisted man with two years service will be discharged or enroute home by July 1.

He coupled his announcement with a plea to the GI demobilization Congress to halt their clamor against the Army's demobilization. "There will no longer be any useful purpose" in troop demonstrations for faster discharges, he said.

"The time has come to replace hysteria with calm judgement and sound discipline."

The Army Chief of Staff appeared at a joint meeting of the House and Senate along with Adm. Chester Nimitz, Navy chief of operations, to answer complaints against the demobilization slowdown.

He told the congressmen bluntly that the Army has no intention of abandoning its jobs of occupying Germany and Japan guarding billions of dollars of government property abroad.

And, he said that by next July 1, every man in the army who has a right to expect release by that date will have been discharged.

By April 30, he said, all enlisted men with 45 points or 20 months of service will be separated or aboard ship returning home.

By June 30, all enlisted men with 40 points or two years service will be separated or enroute home.

Camp Committee To Meet Thurs.

Mrs. H. C. Croom announced today that the regular meeting of the Camp Bowie Camp and Hospital committee will be held at the camp Thursday and anyone wishing to make the trip may arrange to do so by contacting Mrs. Croom.

Asyrian, Chinese, and Egyptian are the oldest languages on record.

### March Of Dimes Opened Dime Box, Texas

Mildred Kourcek, 15 year old cripple proudly holds a cake bearing a photo of the late Franklin Roosevelt and adorned with U. S. flags. Miss Kourcek presented the cake to Mr. Basil O'Connor, President of the National Foundation for Infantile Paralysis, during the opening of the nation-wide March of Dimes campaign which received its kickoff from Dime Box, Texas. Dime Box was chosen for the kick off because of its unusual name and also due to its citizens being 100 per cent members of the March of Dimes campaign. (NEA Photo.)

### Do You Know?

That in some places in the Central Mineral Region in south central Texas where the Ellenburger limestone is exposed, it is metamorphosed into marble?

### Record Keeper Recalls Some Of His Experiences

FORT WORTH, Tex., (UP)—E. M. Allard, 82-year-old record keeper in the city water departments, can still recall the days of "injuns" and "cowboys."

In one instance, the one closest to him of all his experiences with the Indians, Allard was "totting a pail of water" for his mother when two Indians started taking pot shots at him. With arrows zinging around his head, Allard even surprised himself at the speed with which he made the house.

Starting 24 years ago as record keeper, the otogenarian, who isn't even thinking about retiring yet, arrives at his office at 5:55 every morning, two hours earlier than anyone else. The reason: He can't break the habit he formed of waking up early every morning during the days when he herded thousands of head of cattle up the Old Chisholm Trail.  
Fellow workers have named him "Judge" because he is so dignified looking. He is the oldest worker on the payroll today.

SECRET LAB HAD NEW SAFETY ALARM

ALABAMA (UP)—An ingenious "spy" alarm which kept intruders away from the General Electric Co.'s secret "dungeon laboratory," were Navy anti-submarine equipment was developed during the war, has been revealed.

Safety regulations prohibited locks being used on a wire gate which closed off the basement laboratory from other sections, so a special alarm was devised to give warnings that the gate was being opened.

If anyone other than the engineers who had passkeys to still the alarm opened the gate, a large

horn sounded a deafening blast within a few feet from the ear of the intruder.

### New Era Club Has Regular Meeting

The regular meeting of the New Era Club was held Wednesday in the home of Mrs. George Robinson at 4:00 o'clock.

In a short business session Mrs. Dayton Rutledge who was welcomed as a new member was named treasurer to fill the vacancy created by the resignation of Mrs. A. W. Warford.

Interracial equality was the topic for study with Mrs. Robinson acting as leader. Mrs. E. R. Green spoke on educational facilities for the negro, and their employment problems was discussed by Mrs. J. L. Turner. Their contribution to music was outlined by Mrs. Ross Richards and Mrs. Homer Healy sang three negro spirituals, accompanied at the piano by Miss Ruth Hightower.

Favors for each of the guests were negro heads designed out of peaches and with yarn hair.

At the close of the program refreshments were served to the following: Meses. L. L. Bruce, V. V. Cooper, Jr., Arthur Deffenbach, E. E. Green, M. H. Hagaman, Evin Landers, Paul MacDonald, Ross Richards, J. L. Turner, A. W. Warford, Dayton Rutledge, and Miss Ann Melver.

Committee Chairmen appointed were: Social Chairman, Carolyn Slaughter, Music Chairman, Barbara Ann Healer, Membership Chairman, Janice Page.

After the business meeting a social hour was held and refreshments were served.

Those present for the first meeting of the year were the above named guests, Dora Gaffner and Wanda Clett.

The meeting of the Happy Hour Club which was scheduled for Wednesday at noon at the home of Mrs. Lillie Wilson has been postponed until next Wednesday because of the bad weather.

Members of the Willing Workers class of the First Methodist church will be entertained with a covered dish supper at the church Wednesday night at 7:00 o'clock. Mrs. M. H. Hagaman is class teacher.

All members are invited to attend and are asked to bring with them a prospective class member.

The regular meeting of the 1920 Club will be held Thursday afternoon at 2:00 o'clock in the Blue room of the Galsbach Hotel. Mrs. M. H. Hagaman will be leader for the program which will have for its subject Youth Conservation. Mrs. Paul MacDonald will speak on Housing and Recreation and Mrs. Mamie Ruth Hamrick will discuss Employment and Education. Music will be arranged by Mrs. C. C. Boswell, music chairman.

### Beverly Hills Heiress Returns Home

### Southwest Ahead In Recruiting Work For Army

With enlistments already exceeding 50,000 men, the southwest has stepped far ahead of its original schedule in the current recruiting campaign for the U. S. Regular Army. Lt. Jay H. Mehaffey, Eastland U. S. Army Recruiting Station, declared today.

"Our previous goal was 70,000 enlistments by next June 30, for the Eighth Service Command area, of which Texas is a major portion," Lt. Mehaffey said. "As a result of extraordinary response in this area we have already realized slightly more than 71 per cent of our original quota."

While the current recruiting drive has been underway for less than five months, an all-time record of 4,000 is expected for the entire nation when final reports are completed, according to a War Department announcement in Washington this week.

"The Army's manpower requirements, however, still exceed the number we have recruited," Lt. Mehaffey pointed out. "So far voluntary enlistments are furnishing only a fraction of the needs of the service both abroad and at home."

"But the southwest is being well represented in the new peace time Army. And we hope to surpass our quota by many thousands of men," Lt. Mehaffey said.

THOUGHTFUL WASN'T HE AMARILLO, Tex. (UP)—Taxi Driver Douglas Jones told police that a man he picked up as a passenger held him up with a gun and took \$5.00.

"Then he handed me 35 cents for his taxi fare," Jones said.

Mrs. Alice Crawley has returned to her duties at the Commercial State Bank after a short vacation in Houston.

Mrs. Raymond Harris of Strawn visited friends in Ranger Sunday.

Mrs. Frank Walker who has been a patient in the West Texas Hospital has returned to her home in Strawn.

D. Joseph left Sunday for St. Louis where he will attend church.

Mrs. Lillie Wilson has been postponed until next Wednesday because of the bad weather.

Members of the Willing Workers class of the First Methodist church will be entertained with a covered dish supper at the church Wednesday night at 7:00 o'clock. Mrs. M. H. Hagaman is class teacher.

Save Money By Mixing Cough Syrup at Home

It's So Easy! Needs No Cooking. Gives Very Quick Relief. Even if you're not interested in saving good money, you surely want a really effective relief for coughs due to colds. So try mixing it yourself in your kitchen, and be ready for a surprise.

It's so easy to mix a child could do it. Make a syrup by stirring 2 cups of granulated sugar and 1 cup of water a few moments until dissolved. No cooking is needed. Or use corn syrup or liquid honey instead of sugar syrup. Put 2 1/2 ounces of Pinex (obtained from any druggist) into a pint bottle.

Lighten your money will be refunded. Pinex is a special compound of proven ingredients. In concentrated form, well known for its quick action on throat and bronchial irritations. Try it, and if you're not really delighted your money will be refunded.

### SICKNESS-ACCIDENT HOSPITALIZATION INSURANCE for Everyone!

1. Enlistments for 1 1/2, 2 or 3 years. (1-year enlistments permitted for men now in Army with at least 6 months' service.)

2. Enlistment age from 17 to 34 years inclusive, except for men now in the Army, who may enlist at any age, and for former service men, depending on length of service.

3. The best pay scale, medical care, food, quarters and clothing of any army.

4. Reenlistment bonus increased to \$50 for each year of active service since such bonus was last paid, or since last entry into service.

5. A paid furlough (up to 90 days depending on length of service) with furlough travel paid to home and return, for men now in the Army who enlist.

6. Mustering-out pay (based upon length of service) to all men discharged to reenlist.

7. Option to retire at half pay for the rest of your life after 20 years' service—increasing to three-quarters pay after 30 years' service. (Retirement income in grade of pay for life.) All active federal military service counts toward retirement.

8. Benefits under the GI Bill of Rights.

9. Family allowances for the term of enlistment for dependents of men who enlist or reenlist before July 1, 1946.

10. Opportunity to learn one or more of 200 skills and trades taught in Army schools in U. S. or occupied countries.

11. Choice of branch of service and overseas theater in the Air, Ground or Service Forces on 3-year enlistments.

MEN NOW IN THE ARMY who reenlist before February 1 will be reenlisted in their present grade. Men honorably discharged can reenlist within 20 days after discharge in the grade they held at the time of discharge, provided they reenlist before February 1, 1946.

REENLIST NOW AT YOUR NEAREST U. S. ARMY RECRUITING STATION

EASTLAND COUNTY COURTHOUSE

Eastland, Texas

### "The Regular Army Offers You One of the World's Best Jobs"

### WAR DEPARTMENT OFFICE OF THE CHIEF OF STAFF

"The purpose of the Army's world-wide enlistment campaign is twofold: to release men of long and arduous war service who want to return to civilian life—and to build a strong Regular Army of volunteers.

"By our victory we have won the respect of the world. We can lose that respect, and with it our influence toward a just and peaceful world order, if we reduce our military forces to the point where they become weak or ineffective.

"The Congress has enacted and the President has approved legislation which makes enlistment in the Regular Army more attractive than ever before in our history. It gives the soldier a position in the new peacetime Army that merits the respect of all our citizens.

"Every American should know the valuable provisions in this new Armed Forces Voluntary Recruitment Act. They help place your Regular Army on the highest plane of any army on earth—with advanced study, training and travel at good pay in a career of high duty and responsibility.

"There is a solemn obligation on all of us to safeguard the victory we have won at such enormous costs. The rapid rebuilding of our Regular Army is a vital necessity if we are to meet that obligation."

Dwight D. Eisenhower

Chief of Staff, United States Army

### How much light is enough for shaving?

The best light is natural daylight, but daylight for your shaving mirror isn't always possible. But you'll find that the new improvements in artificial lighting are a long step ahead.

For example, look at these new bathroom mirror brackets. They give far more light, and because of their plastic shields are almost shadowless. Begin to enjoy the benefits of Better Lighting in your home by seeing that all lamp sockets are filled with large enough bulbs to make seeing easier.

The natural lighting you enjoy when reading under a tree is an example of good illumination. Better Light in your home brings you closer to nature's ideal.
