## Harvesting of Bumper Wheat Crop Gets Under Way Here

### County Quota Still Holding Out Against Bond Buying Assault

With the second week of the 5th War Loan Drive drawing to a close, a beachhead reaching approximately one-third of the county quota had been established, with progress being slow in the vicinity of the Dimmitt State Bank and Postoffice, where bonds are available to Commandos with ready cash or negotiable checks. Clerks at both places are armed with typewriters and fountain pens, and are prepared to meet the onslaught of all out buying that will be necessary to push the campaign over to a successful conclusion according to plan. Approximately \$45,000.00 worth of bonds had been sold at the close of business Thursday, leaving a balance of \$85,000.00 to be raised. In commenting on the slow progress made thus far in the 5th War Loan drive in Castro County, Mr. H. W. Golden, County Bond Chairman, declared that he had full confidence in bond sales in the county skyrocketing when proceeds from the wheat harvest began reaching the producers.

Back the Attack With War Bonds—Buy More than Before.

### Methodist Church

We were glad to have you in our services last Sunday, and bid you welcome to all of our services every Sunday, and thru the week. It's a good thing to make church attendance a regular thing of life. Thereby you help to create the best community life, and contribute to the welfare of our world. It is a good thing to go to the house of God, and worship with the people of your community. Attend church somewhere next Sunday. Sabbath breaking is like an opiate, it seems to satisfy at the time, but produces harmful things that are costly in the future. Seek first the Kingdom of God and His righteousness, and all these things shall be added unto you."

During the Bond Drive don't forget your Church. We are steadily building a church building fund. Buy a bond for the church, and help the government, and at the same time help the church build a house of worship.

Sunday School 10:00 A. M. Devotional by the WSCS, Mrs. Joe Golehon director.

Preaching 11:00 A. M. and 9:00 P. M. by the pastor.

MYP at 8:15 P. M.

WCS Monday at the church at 4:00 P. M.

Prayermeeting and song services Wednesday 9:00 P. M.

Ural S. Sherrill, Pastor

### Nanny Pasture Scene Of Large Irrigation Project

According to information from the Castro County Soil Conservation District, work is under way on an irrigation project in the Nanny Pasture in the Southeast corner of the county. Application was made to officials of the Soil Conservation District for assistance in locating well sites, to be drilled on every half section. The eleven sections comprising the original Nanny Pasture, has been leased by Mr. Jess Slate, who has charge of the irrigation project. Drilling and installation of irrigation equipment will begin as soon as the harvest season rush is over. It is reported that 10 pumps have already been purchased.

### Count Agt. Assisting In Placing of Hands In Wheat Harvest

With harvest expected to move into full swing next week the labor problem already appears to be serious. There have been few tractor drivers come into the county, according to a statement by County Agent M. U. May, who has established an employment agency in his office and is making an effort to get drivers into the county through the State Farm Labor Office at Plainview. As yet wage scales have not been established for harvest labor as there has not been enough cutting going on to establish rates. Numerous and different wage rates are reported but none have been definitely established yet. This year's labor problem has been made difficult, stated May, as the whole Plains wheat area has wheat ready to cut. Farmers in the North Panhandle are reporting 40 bushel wheat in large acreages which may cause them to bid up labor more than in normal years.

Every farmer needing help during harvest should report his needs to County Agent May, who will do everything possible to help solve the labor problems. He stated that a number of trucks and combines had already been placed and that if the needs of individual farmers are reported to him, when labor and equipment arrives in the county, he will immediately cite them to the ones who have applied for help.

### Big Square First To Reach Bond Quota In County

Purchases of war bonds Monday, by citizens of the Big Square community, resulted in that community being the first in the county to meet and exceed its 5th War Loan quota. According to a report by Mr. W. W. Brancum, Big Square Bond Chairman, that community had oversubscribed its quota of \$7,150.00 with the purchase of \$9,000.00 worth of War bonds.

Visitors in the Glenn Smith home this week were Mrs. Marvin Boyd and children of Portales, N. M., Patay Kay Tate of Mangum, Okla., Betty Sue Jones of Carlsbad, N. M., Mrs. J. G. Davis and Mrs. J. G. Davis, Jr., and little Keitha Kay of the Easter community and Mr. and Mrs. Pat Hardy and family of Dimmitt.

Mr. and Mrs. J. W. Skipworth and Mrs. Glenn Smith and Ladell made a business trip to Tulsa this week.

Born Wednesday to Mr. and Mrs. Charles Rogers a daughter, named Bobbie Charline.

FATHERS DAY CELEBRATED

Fathers Day was celebrated in the home of Mr. and Mrs. W. J. Dempsey by the following: Mr. and Mrs. Todd of Houston, Raymond Chism and family, Earl Hembree and family, Velma Gunnels, Mary E. and Phyllis J. Behrends, Jack Hawkins, all of Dimmitt; Mrs. J. W. Jones and daughter, Mrs. J. E. Dimpsey and son and Mr. Claude Dempsey all of Amarillo.

Mrs. A. H. Smith and daughter, Patricia, of Bella, Texas, are here for a visit in the home of her sister, Mrs. E. L. Hance and family of the Mulkey community.

### CITY WARNS AGAINST LETTING LIVESTOCK STRAY

Elsewhere in this issue of the News is an official notice by the City of Dimmitt to owners of livestock which has been allowed to run loose within the city limits. Attention is called to the fact that City Ordinances prohibit cattle, hogs, chickens and other livestock from running at large and that, if necessary, these laws will be enforced and animals impounded that are not kept penned. The successful production of Victory Gardens, as well as the beautifying of lawns and yards depends on livestock owners keeping their animals penned.

Mr. and Mrs. C. E. Mixon and family moved to Amarillo Monday where Mr. Mixon has employment in a large grocery establishment. He was manager of the local M System Grocery for a number of years.

### NAZARETH SENIOR HAS EXCEPTIONAL RECORD

Bonita Kern who has just graduated from the Nazareth High School has an exceptional attendance record. She has completed twelve years of work at the school and has not missed one day during the entire time. Bonita is the second graduate of the school to make this record. Rita Hochstein who graduated in '43 enjoyed the same honor.

### Milk Producers Must Turn In Sales Stubs

To receive the subsidy offered by commodity credit corporation, all producers who sell milk or butterfat are urged to turn in their March and April, whole milk or butterfat sales stubs to the A. A. A. office. They must have the date of sale, your name, and the name of the person or company who bought your produce on them.

Keep your May and June stubs until after July 1, 1944, they too, must have the above information on them before we can make payment on future produce stubs.

### REGULAR GIRL SCOUT MEETING

The Girl Scouts had their regular meeting Wednesday. Plans were made for passing the Junior Citizen Badge at the first meeting in July. At the close of the meeting the Scout leaders took them to the drug store for cold drinks.

All girls interested in Scout work are urged to come the meeting at 4 o'clock next Wednesday. Mr. and Mrs. George Youts of Lawton, Oklahoma, are here for a visit with friends and relatives.

### CASTRO COUNTY 4-H CLUB BOYS ARE GUESTS AT ARMY FLYING SCHOOL AT LUBBOCK

Ten Castro County 4-H Club boys were honored guests along with 150 other Plains 4-H Club boys last week at the South Plains Army Air Base. These boys were invited to visit the base as a result of their outstanding club work during the year and the fact that they had produced enough food to feed one or more soldiers for an entire year.

Castro County boys making the trip were Charles Frye, Dimmitt; Lewis and Julian Huseman, Nazareth; Jimmie and Junior Cluck, Dimmitt; Rodney Smith, Cecil Ray Jones; Buddy Hill, Bobby Hill and Billy Joe Hill, Hart.

The boys spent the entire day at the base, eating at the camp mess hall and seeing all types of airplanes, and gliders, as well as all different types of small arms fired at the range. All of the boys were impressed with the visit and are determined to do more to produce more food for fighters next year, stated County Agent M. U. May, who took the boys to the air base.

Of the 150 Club boys there, they had all produced enough food to feed one fighter, which was the requirement for their being eligible to visit the air base.

### NEWS FROM THE COUNTY AGENTS OFFICE

(By M. U. May)

If you have lice or other sucking insects in your garden use this spray on them: One ounce of black leaf forty, with one-half bar of neutral soap, and six gallons of water, well emulsified and applied thoroughly to affected plants will control sucking insects, such as plant lice, leaf hoppers, leaf miners mealy bugs, must thrips, and similar insects. Dusting with a mixture of one quart of lime to two tablespoons nicotine sulphate is also effective.

For insects that have chewing mouth parts, or one that eats the foliage, dust or spray with cryolite, calcium arsenate, or a rotenone garden mixture.

If you want to have real tomatoes give them a shot in the arm. Dissolve a cupful of commercial fertilizer in five gallons of water, and once or twice a week pour one or two quarts of this solution around each tomato plant. Makes for healthy, vigorous growth. Tomato fruit worms are putting in their appearance. They are greenish or brownish striped, feed on tomatoes, beans, peppers and sweet corn. Dust with equal parts cryolite or calcium arsenate and sulphur every two weeks until fruit is half grown. Then change over to dusting sulphur and rotenone.

Try this to keep horn flies off your milk cows. Mix ten pounds of wettable sulphur and one pound of cube or derris powder and dust on the cow's back, sides, necks and polls. Some have reported that this has kept flies off for three days. Blue prints are also available for fly traps that get results and if you are interested come by my office and I will be glad to furnish blue prints.

### First Wheat Reached Dimmitt Fri. June

The opening phase of the harvesting of Castro County's bumper wheat crop got under way Friday when the first load brought to Dimmitt by Mr. Gladden and was weighed at the Castro County Grain Commission. The wheat tested 61 pounds per bushel. The first wheat marketed its first wheat about 15 minutes after Gladden's wheat reached the elevator. The Kemp wheat marketed another load. Another load was also marketed Friday by J. C. Gilbreath at the Wheat Growers, which is a pound test. All elevators were some wheat this week, but will not get into full swing next week.

Early wheat being harvested is testing 60 pounds or more, and according to reports from the various elevators all wheat harvested thus far has been excellent and free from weeds. Maturing, what is probably the county's latest wheat crop, is being hastened by temperatures hovering around the 100 degree mark. The yield on wheat being harvested has ranged from 15 to 40 bushels per acre, and it is estimated that at least a 20 bushel average will be produced.

Although a large number of trucks have been pouring into the county, it is feared there will be an acute shortage of combine and tractor men. To facilitate employment of all available labor County Agent May has established an employment agency at his office, and is assisting in the placing of harvest hands.

### GUADALCANAL VETERAN EMPLOYED BY LOCAL FIRM

Carl Eugene Bryant, veteran of the Guadalcanal campaign, of Portales, N. M., assumed his duties as mechanic at the Dimmitt Implement Company Monday.

Mr. Bryant went in with the first wave of United States Marines when Guadalcanal was attacked by U. S. forces August 9, 1942, and remained on the island five months, participating in the battle of Lunga River, where the Marines desperately defended their small beachhead and the island for five months. He was eventually captured by the Japs. He was in the back of a truck when he was eventually captured by the Japs. He also received a serious back injury while assisting in the unloading of ammunition from a boat that was the victim of a near miss by a Jap bomber. He was evacuated from the island by a Catalina Bomber to Wellington, New Zealand, where the shrapnel was removed from his back and legs, and where he received treatment for malaria. Following treatment in New Zealand and New Calodonia, Mr. Bryant was transferred to the States landing at Mare Island January 6, 1944, where he was hospitalized until April.

## LIVES ARE IMPORTANT TOO

*As we enter the harvest season the urge to increase our driving speed, as in previous years, while driving cars or hauling grain on the City Streets may again seem to be necessary and important. However, fast and reckless driving within the City Limits can add very little, if any, to the speeding up of the harvesting of the wheat crop, while it could be responsible for the death of a child, or for that matter wholesale recklessness is a threat to the safety of every individual. It would indeed be hard to enjoy the benefits from the bumper wheat crop if we are haunted by the memory of a tragedy that could have been avoided with the exercising of necessary precautions.*

### Traffic Laws Will Be Enforced

*As a precaution for the protection of lives City Traffic Laws and Regulations will be enforced, and especially the speed limit of 20 miles per hour must not be exceeded. Mr. Wyatt, who has for the past several months served as Nightwatchman, has been duly appointed City Marshal and vested with authority to enforce all traffic laws.*

### Caution Signs Warn Traffic

*Caution Signs have been placed on each of the Highways and main roads at the City Limits to caution drivers that they may not unthoughtfully break traffic rules, and thus infringe on the rights of others.*

**City of Dimmitt**

### Election Arrangements Are Made By County Committee

#### HOMEMAKING NEWS

Mrs. Elder and a group of twenty-one girls, for Summer Project work, are improving our labs, living room and teachers' lounge.

We come each Monday and Wednesday during the month of June.

We spend part of each day doing group work and we have a recreation period.

Mrs. Elder is going to visit each of the girls some time during the summer to see their projects.

Wednesday the 28th we plan to have a wicker roast and a theatre party.

The Castro County Executive Committee met Saturday made arrangements for the Primary. Costs of the election estimated and filing fees for various candidates were assessed. According to a statement by E. F. Harman, County Democrat Chairman, lots were also determined to determine the order in which the candidates names were to appear on the ballot. Mr. Harman declared that many of the candidates had already paid their fee, and that the others had \$18.00 check Saturday night to pay for a place on the ballot by the assessed fee.

## Bow Your Heads

**T**HIS is Invasion! Now in the hearts, brains and muscles of our American Youth lies the future of our country.

Bow your heads. Pray with millions of mothers the country over, as their hearts reach out over the seas, each one seeking out her boy, to protect him with the shield of her love.

Believe that in this world there is definite strength in decency and honor. Believe that in our devotion there is moral force. Believe that our will to victory will aid that victory.

Seek and ye shall find! Let us seek added strength and fortitude for our men in our own sacrifice and devotion.

Let us focus every thought, every action, and every prayer on the boys fighting for us.

And, while each one bends to his task with ever-growing fervor and energy, let us adopt a common symbol as our faith in Victory.

Let that Symbol be War Bonds. Let us pour our money in a gigantic flood of goodwill toward our sons and brothers, as a spiritual shield for them.

This is the Invasion. The lives of our boys are at stake. Let them see that the Soul of America is with them.

Let it not be too late . . . not next month, next week, or tomorrow, but today . . . now.

### Wartime Washington

(By Congressman Eugene Worley)  
The big news this week in Washington was the bombing of the Japanese Mainland. Most officials in Washington knew that the B-29, the Super-Fortress, was in production but no one knew just how effective it would be in actual combat operation. The successful bombing of the Japanese Mainland has proved its worth and a new phase of the war against the Japanese has begun. Undoubtedly the high octane gasoline which supplied these Super-Fortresses came from Texas and perhaps came from the Texas Panhandle plants. While the names of those who carried out the raid are not known at this time there's bound to be many Texans among them.

Texas' contribution to the war in every respect either equals or surpasses the contribution made by any other state in the Union. This is one reason war bond sales, scrap metal, scrap paper, waste fat, and rubber drives have always been high in the Lone Star State. Incidentally members of Congress from other states have often expressed the fear that Texas might make a separate peace but the Texas Congressmen have assured them that the rumors were unfounded.

Labor shortages for farms and munitions and other war plants is exceedingly tight. For the past several weeks I have urged the War Department to be as lenient as possible in granting furloughs and passes to the military personnel stationed in the Texas Panhandle in order to help in the bumper wheat harvest. They have offered every cooperation in doing this where the plan would not interfere with the war program. Their reasons for not releasing military personnel in wholesale lots is because when (1) they failed to attack the

### HUNTER GETS HALF 'N' HALF

BUREAU, ILL.—Beginner's luck brought a hunter fame recently when he bagged a hybrid wonder, a half mallard and half pintail duck, near here on Lake Sonawhine. The rare bird was shot by Joe W. Hicks (right), well-known Chicago public relations counsel, on the second of his kind on record bagged in America during the last century. The first one was shot 24 years ago on the same lake. Photo taken in Chicago shows Mr. Hicks pointing to the pintail-like posterior of the unusual specimen, which has set hunters and scientists agog.

**Dishpan Hints**  
Right way to use soap in the dishpan is the way a chef adds seasoning—just enough for perfect results. Not a speck more or less. Remember, soap is made of precious war materials.  
To keep from wasting soap, use it in proportion to the amount of water and the greasiness of the dishes. If suds die down, add a little more soap, swirl it around with a mop or shaker to get foamy bubbles.  
**West Texas Gas Company**

### Formals Add Glamour to Wardrobe, War Bonds Give You Safe Feeling

Every young wardrobe should include a formal for these important events in life, whether they be a June graduation or dancing under the stars. This model is wearing a white cotton eyelet gown with sweetheart neckline and snug waist. Red roses are caught at intervals along the skirt. Make your own clothes in order to save money for War Bonds. This or a similar pattern is available at your local stores. Back the Attack—Buy More Than Before.

It is possible that civilian production will be increased 25% just as soon as the military leaders are sure the invasion liberation is successful. . . . The military officials say the Nazis made two mistakes when (1) they failed to attack the

several thousand ships which participated in the invasion and (2) failed to throw their diminishing air force against our beachheads. . . . MacArthur is working up to a major offensive in the Pacific with the Philippine Islands as an early objective. . . . the success of military operations will depend on unqualified support on the home front. . . . so Back the Fighting Fifth War Loan Drive and buy an extra bond today.

### Wartime Washington

(By Congressman Eugene Worley)  
The big news this week in Washington was the bombing of the Japanese Mainland. Most officials in Washington knew that the B-29, the Super-Fortress, was in production but no one knew just how effective it would be in actual combat operation. The successful bombing of the Japanese Mainland has proved it: worth and a new phase of the war against the Japanese has begun. Undoubtedly the high octane gasoline which supplied these Super-Fortresses came from Texas and perhaps from the Texas Panhandle plants. While the names of those who carried out the raid are not known at this time there's bound to be many Texans among them.

Texas' contribution to the war in every respect either equals or surpasses the contribution made by any other state in the Union. This is one reason war bond sales, scrap metal, scrap paper, waste fat, and rubber drives have always been high in the Lone Star State. Incidentally members of Congress from other states have often expressed the fear that Texas might make a separate peace but the Texas Congressmen have assured them that the rumors were unfounded.

Labor shortages for farms and munitions and other war plants is exceedingly tight. For the past several weeks I have urged the War Department to be as lenient as possible in granting furloughs and passes to the military personnel stationed in the Texas Panhandle in order to help in the bumper wheat harvest. They have offered every cooperation in doing this where the plan would not interfere with the war program. Their reasons for not releasing military personnel in wholesale lots is because the war training program would be delayed or seriously affected.

It is possible that civilian production will be increased 25% just as soon as the military leaders are sure the invasion liberation is successful . . . The military officials say the Nazis made two mistakes when (1) they failed to attack the

### Formals Add Glamour to Wardrobe, War Bonds Give You Safe Feeling

Every young wardrobe should include a formal for these important events in life, whether they be a June graduation or dancing under the stars. This model is wearing a white cotton eyelet gown with sweetheart neckline and snug waist. Red roses are caught at intervals along the skirt. Make your own clothes in order to save money for War Bonds. This or a similar pattern is available at your local stores. Back the Attack—Buy More Than Before.

several thousand ships which participated in the invasion and (2) failed to throw their diminishing air force against our beachheads . . . MacArthur is working up to a major offensive in the Pacific with the Philippines Islands as an early objective . . . the success of military operations will depend on unqualified support on the home front . . . so Back the Fighting Fifth War Loan Drive and buy an extra bond today.

### HUNTER GETS HALF 'N' HALF

BUREAU, ILL.—Beginner's luck brought a hunter fame recently when he bagged a hybrid wonder, a half mallard and half pintail duck, near here on Lake Senawhine. The rare bird was shot by Joe W. Hicks (right), well-known Chicago public relations counsel, on his first duck hunting expedition. Naturalists describe the duck as only the second of its kind on record bagged in America during the last century. The first one was shot 24 years ago on the same lake. Photo taken in Chicago shows Mr. Hicks pointing to the pintail-like posterior of the unusual specimen, which has set hunters and scientists agog.

### Dishpan Hints

Right way to use soap in the dishpan is the way a chef adds seasoning—just enough for perfect results. Not a speck more or less. Remember, soap is made of precious war materials.

To keep from wasting soap, use it in proportion to the amount of water and the greasiness of the dishes. If suds die down, add a little more soap, swish it around with a mop or shaker to get foamy bubbles.

West Texas Gas Company

### POLITICAL ANNOUNCEMENTS

## Fire! Fire! Fire! Fire!

Yes, Sir, you can insure your grain against fire and lightning while it is standing in the field, while it is being cut, while it is being threshed and while stored in bins, granaries, stacks, or other buildings on the farm.

The premium for a 30-day policy per bushel is only 10 cents per \$100.00 Insurance.

Can you keep the combine crew or truck drivers from smoking?  
Can you keep sparks from flying out of exhaust pipes of combines, tractors, pickups, and automobiles?  
Will inexperienced help be as careful as experienced workers you've had heretofore?  
Wouldn't you like to know more about "Harvest Fire Insurance"? See us, or phone us for further information; or insure your fire insurance on wheat, barley, or small grain.

**Harrison Insurance**  
Dimmitt, Texas

**LARGE FOOD CROPS NEEDED IN 1944**

One million Victory gardens in Texas must be seen through to harvest, says F. F. Roeborough, horticulturist for the A. and M. College Extension Service. This means not only cultivation and control of harmful insects, but planting of heat resistant vegetables as quickly as the early plantings have been harvested. No part of the garden should be allowed to lie idle this year.

Last year's garden taught a very useful lesson. They prevented a shortage of fresh vegetables and made possible lower ration points on many varieties on grocer's shelves. With more production in 1944, gardens can play an equally important part in preventing a shortage of canned vegetables.

Mr. Roeborough says that our present food situation is good because people last year did a record job of growing, conserving, and sharing their food. Farmers topped all previous food production. Housewives canned, dried, stored, or froze a record amount of fruits, vegetables and juices. Large numbers of them, women and children left their normal work to help out on farms. The results are that our armed forces are the best fed in the world and, on top of that, we fared well at home.

In addition to keeping Victory gardens producing at capacity through the summer, housewives must beat their canning record of last year, Roeborough says. What canned goods civilians have this fall and winter will depend largely on what they do in their gardens on what they do in their gardens and kitchens this summer. In 1944, 45 civilian supply of commercial canned goods will be the smallest in years.

If all of these things continue to be done with the zeal which has been shown since the war began we will be able to say that the food battle has been won.

Mr. and Mrs. Claude Merritt of Abilene and Lubbock visited Friday and relatives here Sunday. Mrs. Merritt was Pvt. Ava A. Grindstaff before her recent marriage and is a former Home Demonstration Agent of Castro County.

**RECIPE OF THE WEEK**

This is the time of the year when most homemakers lean pretty heavily on salads from their Victory gardens. Those on the lookout for speedy salad dressings may welcome the recipe for tomato French dressing from the County Home Demonstration Agent. She says it is good on a variety of vegetable salads. One ingredient is a vinegar sauce which is good in other dressings as well. Miss Petty suggests it in combination with bacon drippings dressing for wilted salads, standard French dressings, and cooked salad dressings.

Here are the two recipes:

**Tomato French Dressing**

3/4 cup thick tomato juice  
2 T to 4 cups salad oil  
3/4 cup vinegar sauce or pickle juice  
1/2 t. salt  
2 t. sugar  
Dash cayenne  
Shake well together.

**Vinegar Sauce**

2 slices of onion  
1 slice garlic  
2 T chopped parsley  
1 t. whole mustard seed  
1 t. celery seed

Pour this in a quart bottle of apple cider vinegar. Let stand two weeks and strain.

**RECOMMEND 1945 NATIONAL WHEAT AND RYE GOALS**

A national goal of 67 to 70 million acres of wheat for harvest in 1945 has been announced by War Food Administrator Marvin Jones. This compares with an estimated 67 million acres planted for this year's wheat crop and with 55 million acres in 1943.

The goal is based on the estimated requirements for use in the 1945-46 year on preliminary information from all wheat producing states as to their wartime capacity for wheat production in desirable balance with other crops, and without plowing up marginal land which should stay in grass.

The goal acreage will provide adequate wheat for food, and as much margin for livestock feed and industrial uses as can be produced in wheat more effectively than in any other grain or feed crop.

The national wheat goal is being submitted to the states, through the USDA War Boards, along with the suggestions for the establishment of individual State goals within the local determination of necessary crop balance to get the greatest over all production of grains.

Acreage of rye for harvest as grain in 1945 at a level comparable with the 1944 acreage—about 2,500,000 acres—is being recommended. This will provide for maintenance of rye production in areas where rye will produce more food or feed than alternate crops. It is expected that the final State Goals will be announced in about a month.

**BETHEL**  
(Mrs. J. C. Williams)

The farmers are very busy re-planting field crops and killing weeds that are thriving on the late moisture.

Mr. and Mrs. Charles Beebe and sons, George Charles, Parker and Phillip of Amarillo spent Sunday in the Vern Lust home. George, Charles and Parker stayed for a week's visit with the Lusts. Other guests of Mr. and Mrs. Vern Lust Sunday were Mr. and Mrs. J. G. Davis, Sr., Mrs. J. G. Davis, Jr., and Keitha, and Mr. and Mrs. Earl Lust and Loyd.

Mr. and Mrs. E. B. Rothwell and granddaughters, Marlene and Carolyn are visiting this week with Mrs. Rothwell's sister at Rotan. James Rhodes of Jumbo is visiting his sister Mrs. Glenn Williams, a few days this week.

Corp. Houston Lust left Thursday for the Army Air Field at Dodge City, Kan., after spending a two weeks furlough with his parents. Mr. and Mrs. Vern Lust, Mr. and Mrs. W. L. Hogue of Albuquerque visited in the J. C. Williams home from Friday until Sunday. Mrs. Williams accompanied them to Dallas Sunday for a ten-day visit with relatives.

Mrs. Fred Bruegel and Mrs. Claud Heath were Clovis visitors Friday.

Mrs. C. C. Graef spent several days last week at Littlefield with a sister who was quite ill.

Mr. and Mrs. Harry Rothwell were Sunday dinner guests of Mr. and Mrs. Kay Roberts.

Mr. and Mrs. Earl Lust and Lloyd accompanied Earline to Amarillo June 15 where she entered for Albany, Ga., to visit her sister, Mrs. James Bradford, and to be present when Aviation Cadet James Bradford receives his wings at the graduation exercises on June 27.

Mr. and Mrs. Boyd Kimball and family of Portales were callers in the J. C. Williams home on Sunday afternoon.

Mrs. G. A. Shwen was a visitor at Bethel Sunday School last Sunday.

Mrs. Moss Howell and little daughter, Patricia returned home Friday from the hospital at Amherst where Patricia spent several days receiving treatment for a broken arm. Oran and Gail Howell visited in the Ivor Bagwell home while their mother was at Amherst.

Mrs. Harry Rothwell and Marlene and Mrs. Kay Roberts were business visitors in Amarillo Tuesday.

Mr. and Mrs. Bryan Sinclair were callers in the G. A. Schwen home Wednesday.

On Friday Jim Bagwell, assisted by Ivor Bagwell, moved a tractor and other implements to his recently purchased ranch north of Naravisia, New Mexico. Mrs. Jim Bagwell, LaTrelle and J. A. went with them and will remain at the ranch until J. A. can get a feed crop planted.

Mr. and Mrs. Ivor Bagwell took

their children, Milton Ivor and Ned-da Jean to Lubbock recently for dental treatment.

**CARD OF THANKS**

We wish to take this method to thank all our good friends who were so good in visiting Wayne and bringing him bouquets of flowers, and many other deeds of kindness shown during his long stay in the hospital. God bless all of you. Mr. and Mrs. J. W. Birchfield and Waymond

**Save Money—Yet Dress Smartly and Put Profits Into War Bonds**

The age-old art of needlework gains new significance as an aid to win the war. By crocheting your own accessories, you can add new color to last year's costume, and put the money time saved into War Bonds. One of the season's smartest sets is the crocheted white collar hat topped by a red feather, and crocheted pouch bag with a shoulder strap. Directions for crocheting a similar hat and bag set may be obtained at your local store. Back the Attack—Buy More Than Before.

**CASTRO COUNTY GRAIN CO.**

We solicit the opportunity of serving you during this Harvest Season and assure you that we will make every effort - despite the possibility of a shipping car shortage - to handle your wheat as fast as it is harvested.

**LET US Buy OR Store Your Wheat**

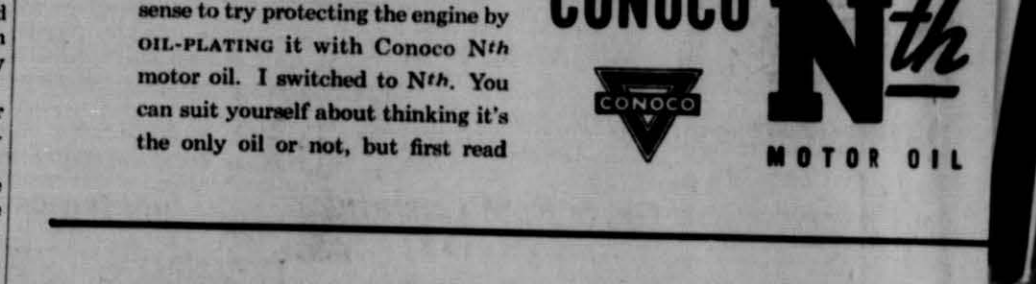

We show our appreciation of your past patronage by rendering a courteous grain service during your rush harvest season.

**CASTRO COUNTY GRAIN CO.**

**I'll predict no-miles-an-hour.**

I'll hand it to folks. They've had the patriotism to hold down their speed. But imagine war restrictions ended. Man, you'll see old cars overdoing till they can't chug another mile. You'll see every repair shop crowded for months, but I'm figuring to duck that! Of course, I couldn't see everything coming when I originally had this engine OIL-PLATED. I'd simply overheard that any engine forms dangerous corrosive acids. It made sense to try protecting the engine by OIL-PLATING it with Conoco Nth motor oil. I switched to Nth. You can suit yourself about thinking it's the only oil or not, but first read

the whole label. You'll see where Conoco Nth oil's special synthetic fastens OIL-PLATING to your engine's fine inside finish. Then OIL-PLATING is really sort of a special surface to block steady acid corrosion. When repairs might be just a promise, and you can only pray for a new car, you're way ahead with your engine safely OIL-PLATED by Conoco Nth.

Friday and Saturday, June 23-24. SMILEY BURNETTE "Beyond the Last Frontier" Chapter 11—"The Flying Cadets"

Sunday, Monday and Tuesday. GREAT DOUBLE BILL. Alton Lydon and Charles Smith in "Henry Aldrich, Boy Scout" and—"The Battle of Russia"

Remodeled from Man's Suit and Savings Invested in War Bonds

Proof of the sewing skill of the younger generation is this trim tailored suit, which recently won first prize in a sewing contest for junior girls. Remodelled from a man's suit, it is of navy blue wool flecked with red. The jacket is given professional finish by the red line across the front. Every wardrobe contains old "duds" that can be transformed into attractive new outfits, and at such a small cost that more money can be saved for War Bonds. Back the Attack—Buy More Than Before. U. S. Treasury Department

Is This Pest Bothering Your Victory Garden? CUCUMBER BEETLE—Color: Greenish yellow with 12 spots and yellow beetles with 3 black stripes. Feed on foliage and stems of plants. Dust with rotenone; or equal parts cryolite and talc; or calcium arsenate 1 part, gypsum 19 parts. Beetles usually attack plants when small. Early treatment essential. Repeat applications in 5 to 7 days to keep young leaves covered with dust. For further information, see your County Extension Service Agents.

JOIN GULF'S "Anti-Breakdown" Club TODAY! BEFORE THE WAR IS OVER, there may be only two kinds of people in America . . . 1. those who can still get to work in automobiles, 2. those who are forced to walk.

Here's Gulf's Protective Maintenance Plan. 1. It protects your car at 39 DANGER POINTS! 2. It gives you a CLEANER, smoother running motor! 3. It stretches your 'coupons! 4. Get an appointment at your GULF STATION!

Warning To Livestock Owners

Substantial damage is being inflicted on Victory Gardens and lawns by livestock being allowed to run at large within the City Limits.

City stock laws prohibit animals from running at large, and if necessary these laws will be invoked in the protection of Gardens and lawns from the depredations of cattle, hogs and chickens. All animals within the City Limits must be penned or they will be empounded.
