Republicans Vow To Wear Out Filibuster

9 Dunno,

The Little Round Man, as his boss calls him, is getting communicative again and in the mail this morning was a sassy communique from him. He is complaining about our telephone being so busy and offers the free suggestion that we should have one installed and "restricted to business." He claims that he called our number 11 times at three minute intervals Friday and concluded his complaint with "and knowing when I have met a champion and am beat, gave it up. The above suggestion is free. From You Know Who."

What the guy overlooked is the fact that we are snow and ice bound and have to use the telephone so that he will have some thing to read in the best little daily newspaper anywhere.

However, we always appreciate suggestions from our readers and will give the above free advice due consideration.

If the temperature goes much lower we'll have to order a new type of weather bureau thermometer, one designed for below zero tmperature readings. Last night it nearly hit the bottom when the one below temperature was recorded. It made a dizzy climb back up to zero by 8:00 a. m. this morning.

The tourist population continued to grow last night and in At 8:00 a.m. Saturday it was ists" banquet. No, we don't think thawing of ice and snow was hunger, the idea was to give for another hard freeze Saturday Home.

The Garvin Chastains, just back from a long trip across sey-eral states in which they trav-eled snow and ice covered highways, tell us that Texas ought to be proud of its State Highway Department and the State Highway

They say that Texas is the only sone of the states that they were in that had any signs of protective work done by highway de-partmer and the only one where the partmen were around to help out in congested and dang-erous situations. All along Texas roads they found that dangerous apots had been graveled, and in many cases ice and snow removed from the highways.

. Heard one man saying, "Oh, this is warm weather," when the mercury had climbed from the ow zero to 12 degrees shortly before noon today. We'll have to agree. We, too, could tell the difference.

Most buyers in these modern days don't take risks-they get an abstract. And if the seller is about to convince you that his title is good and you don't need an abstract, better play safe. The abstract, among other things, reveals the condition of the title and is always worth far more than it costs.
