PRICE FIVE CENTS No. 212

## Taft Favors Limited Cut In Arms Funds

### Blast Wrecks Utica Plant

Utica, New York, firemen inspect all that remains of the J. A. Firthing textile machinery manufacturing plant. An explosion, which started the fire, demolished a two-story building housing the plant and also wrecked two adjoining buildings. Firemen were handicapped by heavy ice and snow. (NEA Telephoto).

### A. L. STILES FILES FOR RE-ELECTION

A. L. Stiles, water and sanitation commissioner, has filed his name with City Secretary E. T. Eubank as a candidate for re-election to that office. Stiles is the fourth to file for places on the city commission and for mayor. J. E. Meroney has filed for mayor, H. E. Angus for police and fire commissioner and Glyn Covington for street commissioner. The city election always falls on the first Tuesday in April which this year is the first day of April and the school board election is the Saturday after the first Tuesday which in this case is April the fifth.

There are four commissioners, a mayor and two members of the school board to be elected this year.

### Deadline For Filing For City Races Is Sat.

E. T. Eubank, city secretary, stated today that the laws of the state of Texas require candidates in any city election to file their names with the city secretary at least 30 days before the election date.

This is so required in order that ballots may be printed in time to allow 20 days for absentee voting. In as much as the election in Ranger this year falls on the first day of April, the deadline for filing names with Eubank will be midnight March 1.

It is the custom of the city office to close at noon on Saturday but Eubank stated today that in as much as this Saturday is the deadline for filing, that the office will remain open until 5:30 o'clock Saturday afternoon.

### Denies FBI Ever Investigated Atomic Nominee

WASHINGTON — A spokesman for the Federal Bureau of Investigation said today that the FBI had never investigated David E. Lillenthal "or any other member of the Atomic Energy Commission."

The spokesman told the United Press that nobody had ever asked it to investigate Lillenthal, chairman-designate of the commission, or his associates.

Lillenthal's nomination has been under consideration for four weeks by Senate members of the joint atomic energy committee. The nominee has been accused by Sen. Kenneth McKellar, D. Tenn., and Robert A. Taft, R. O., of countering Communism in the Tennessee Valley Authority when he was TVA chairman.

### Claim Big Nazi Underground Army Smashed

FRANKFURT — British intelligence officials announced today that they had smashed the biggest Nazi underground army organized since the war, which was believed to be planning bacteriological warfare against the Allies.

An intelligence officer said the "use of a devastating secret weapon" definitely was a part of the underground plan, and it was a fair assumption that the group was "drawing plans to use a bacteria weapon."

An announcement from headquarters of British occupation forces said the two-day round up now was almost complete, and was so successful that "as an immediate effective force, any underground had ceased to exist."

### SAYS FINAL BUDGET CUT TO BE ABOUT 5 BILLIONS

WASHINGTON — Sen. Robert A. Taft, R. O., said today cuts in President Truman's budget recommendations for the armed forces should be limited to 10 per cent.

Taft said in a speech to the American Retail Federation that the final reduction in Mr. Truman's proposed \$37,500,000,000 budget would be about \$5,000,000,000.

The House has voted for a \$6,000,000,000 cut. The Senate is expected to approve, probably late today, a slash of \$4,500,000,000. A House-Senate conference then will adjust the two versions.

The \$6,000,000,000 cut proposed by the legislative budget committee and approved by the House reportedly includes a cut of \$2,250,000,000 roughly 20 per cent. in the War and Navy Department budgets.

Sen. Homer Ferguson, R. Mich., accused Army and Navy leaders of "bad taste" and impropriety in campaigning against proposed military cuts. He said such decisions rest with Congress, not with the spending units of the government, and urged the Senate to join the House in approving a \$6,000,000,000 budget cut.

Taft said he favored a 20 per cent income tax reduction, ahead of debt reduction. He said it does no harm to leave the debt where it is for a while in order to help the taxpayer.

### Committee Ok's Bill To Outlaw Portal Pay Suits

WASHINGTON — The Senate judiciary committee today approved, 9 to 3, legislation designed to bar all portal-to-portal pay suits.

The bill was written to outlaw all such suits—past, present and future. Pending suits seek nearly \$6,000,000,000 in back portal pay.

Chairman Alexander Wiley, R. Wis., said he considered the measure an "excellent" bill. He hoped it would reach the Senate floor by Friday.

A similar bill is scheduled for House consideration on Thursday.

### Asks Airport Help Be Turned To Safety Aids

WASHINGTON — Congress was asked today to halt federal spending for new airports and divert available funds to installation of modern safety aids at existing major terminals.

The recommendation was made by the Senate commerce committee. If finally approved by Congress, it presumably would kill most of the Civil Aeronautics Administration's plans for starting work this year on 800 airports on a 50-50 financing basis with state and local governments.

TO RESTORE POWER LONDON (UP)—The government announced today that power would be restored to industries in the northwest area of the country next Monday, as it was to those in the midlands today.

The world's largest postal district is Boston.

### The Weather

Fair this afternoon and tonight, low 18-26. Tuesday partly cloudy, continued cold. Temperature at 1:30 p.m. today: Maximum 40, Minimum 24, Hour's Reading 40. Temperature for the last 24 hours ending at 8:00 a.m. today: Maximum 62, Minimum 23.

### Senate Speeds Set Up For A Negro University

AUSTIN — The Texas Senate moved swiftly today to pass a bill setting up the "Texas State University for Negroes" to be located at Houston.

The bill was passed by a vote of 25 ayes to two noes and sent to the House of Representatives. Voting "no" were Sens. Howard Carney of Atlanta and Ben Ramsey of San Augustine. Announced reason for the haste is a court hearing less than a week away on an appeal of a negro from a court decision which denied him an order for admittance to the University of Texas.

To head off possible court ruling that a negro must be admitted to the state university the bill calls for a total expenditure of \$2,850,000.

### Jaycees Will Meet Tonight

Members of the Junior Chamber of Commerce will hold their regular meeting tonight at 8:00 o'clock in the Blue Room of the Gholson Hotel.

All members are urged to attend the meeting.

### Fort Worth Livestock

CATTLE 400. Slow. Good fed steers and yearlings steady. Medium and good beef steers and yearlings 15.00-22.00. Few medium and good cows 11.50-13.50. Calves 13.00. Slow. Good and choice fat calves 17.00-20.00. Good and choice stocker steer calves 16.50-18.00. Hogs 13.00. Good and choice 325-450 lbs 25.50-26.25. Good and choice 150-175 lbs 24.00-26.25. Stocker pigs 20.00-23.00.

### RECORD RATTLER

ROCKPORT, Tex. (UP)—W. M. Moss, Rockport hunter, says he recently killed the largest rattlesnake seen in this section in many years. The reptile had 14 rattles and a button.

### Marriage Worth Effort Oklahoma Solons Believe

OKLAHOMA CITY (UP)—Regardless of what may be said for or against marriage State Rep. Rhys Evans thinks it's worth any inconvenience that may stand in the way.

During house discussion of a bill that would have made marriage licenses valid in any county of the state, regardless of the county where issued, Evans said there was no need to make it more convenient to get married. The law-maker expressed the opinion that the joys of matrimony were worth any inconvenience that might exist under the present law.

The house killed the bill by voice vote.

### Former Resident Dies In Dallas

Friends received word in Ranger today of the death of J. W. (Wilbur) McFarland in Dallas Sunday night. Mr. McFarland was reared and educated in Ranger and will be remembered by a great many residents.

Funeral services are to be conducted in Dallas on Wednesday.

### Hog Prices Hit All-Time High

CHICAGO — Hog prices reached an all-time high of \$28.50 a hundredweight at the Chicago stockyards today. The previous high of \$27.50 a hundredweight was set shortly after the removal of price controls last October and was equalled last week.

Veterans who served in the armed forces during peacetime are entitled to government hospital benefits only if they have service-connected disabilities.

### Moose Can't Halt Interpid Mailman

COLUMBIA FALLS, Mont. (UP)—Earl Ryan, rural mail carrier along the Canadian border, no longer believes in being kind to animals—particularly moose.

His snow tractor loaded with mail, Ryan was heading north inside the boundary of Glacier National Park, which has a moose population of nearly 200.

Through the woods charged a belligerent cow moose headed for the snow tractor. Ryan started shooting when the animal came in range, and it dropped a few feet from the tractor.

### Recitals Due Tonight, Tuesday

It was announced today that recitals by students of Wilda Drago of Eastland will be given at the First Methodist church in Eastland tonight and Tuesday night at 7:30 o'clock.

A number of musicians from Ranger will appear on the program and those in Ranger interested in the recitals are invited to attend.

### FROZEN FOOD MADE BETTER BY USE OF NEW METHODS

ALBANY, Cal. (UP)—Further improvements in the color and taste of frozen foods are being made as the result of intensive research in biological changes that occur in foods before and after freezing, James A. Berry of the Department of Agriculture research laboratory here, reports.

Berry said there was no future in second-rate frozen foods and "the steady and orderly progress of the industry can only be assured by strict adherence to one guiding principle—quality at its best."

Commercial food freezing is a relatively young industry but the process dates back to early history. In 1626, Francis Bacon caught a fatal cold while seeking to preserve a goose by stuffing it with snow, Berry said. A little later, Samuel Pepys noted in his famous diary that thrifty burghers in Königsberg, Germany, were freezing fowl in the late fall to assure themselves of a supply of fresh meat through the winter.

"The idea of freezing fruits," he said, "appears to date from 1904, when the United States Bureau of Plant Industry froze strawberries and other fruits, which proved suitable for pies and pastries. It is recorded that early as 1905 one firm froze 14 carloads of huckleberries. Real development of fruit freezing, however, was delayed until the early 1920's, and vegetable freezing made its debut as late as 1929."

Freezing preserves food through preventing microbial growth and the food must be kept at a temperature not higher than 15 degrees Fahrenheit.

A food at this temperature, Berry said, will not spoil, but it has been found advisable to use temperatures below zero in order to preserve more fully the color and flavor. Under the best conditions frozen peas have been known to retain all their bright green color for as long as eight years.

Powerful enzymes must be reckoned with in vegetables which cannot be handled by freezing alone. Berry said vegetables must first be given a steam bath before they are frozen, varying from one minute for peas to eight minutes for corn on the cob.

Freezing processes are little more than an improvement on nature which has been known to preserve mammoths in the ice of northern Siberia for thousands of years.

### ROCKET RESEARCH PROMISES VARIED PEACE-TIME USES

SEATTLE, (UP)—Once more Americans will see a familiar sight—a rocket's red glare.

This time, however, according to Willy Ley, rocket expert and research engineer for the Washington Institute of Technology, it will be put to peace-time uses.

Chimney sweeps, mountain climbers, fishermen—whose pursuits were little altered by industrial revolution—will find even they can't escape the coming rocket revolution.

Improved methods of rocket manufacture and dropping cost have made unlimited post-war uses feasible.

Ley suggested reaming factory chimneys, emergency safety lines strung by slipping alpinists, and even surf casting up to 1,000 feet by reclining, weak-armed fishermen—all by rocket.

Already it is recorded that Swiss engineers have used rockets to string wires over mountains break up hail storms and deliver mail.

The day is near when mail between London and New York may be delivered by rocket, Ley thinks. Automobiles by a reversed rocket action may be braked instantly on icy hills.

Ley promised aids to the skier. With rope attached to a rocket gun, he will be able to snake a line to the crest of the slope he just descended and thus pull himself up. Then there's stump-pulling—maybe. Or hot lunches dispatched to isolated ranchers or rangers.

American experiments with

rockets for peace-time use have included trials in braking aircraft landing in restricted spaces, boosting motorless gliders in the air and improved life-saving, line-carrying rockets.

Other uses that suggest themselves are bridging chasms, fire-fighting, foamite-loaded rockets, and possibly hunting. A leashed rocket with harpoon-like head may bring down ducks, eliminating retrievers.

### Proposes Labor Peace Plans

WASHINGTON — The Committee for Economic Development today proposed a labor peace plan calling for a compulsory 10-day mediation period before strikes or lockouts.

It called for amendments to the Wagner, Norris-Laguardia and Clayton Acts to deal with jurisdictional strikes, ban unionization of foremen, restrain violent and unlawful picketing by court order, and curb monopolistic tendencies of labor unions.

### Two Held In Missouri Kidnapping

ROCKPORT, Tex. (UP)—W. M. Moss, Rockport hunter, says he recently killed the largest rattlesnake seen in this section in many years. The reptile had 14 rattles and a button.

Robert Humbarger and his wife, Betty, who are accused of kidnapping Donnie Waltman, 14-months-old son of a Neosho, Missouri, waitress, leave the Neosho courtroom on their way to jail after failure to make \$5,000 bond each. At left is Mrs. Virginia Waltman who is ill at the home of a friend in Neosho, after a trip to Toledo, Ohio, to get her son Donald, shown on mother's lap. Standing front to rear are Mrs. Faltman's other children, Eldon, 2; Jerry, 4; and Earlene, 6. Mrs. Waltman charges that Donald was kidnapped by Mr. and Mrs. Humbarger. (NEA Telephoto).

### Buffalo, N. Y. Teachers On Wages Strike

BUFFALO, N. Y.—Seventy-seven of 98 Buffalo public schools are closed today, with 2,200 teachers boycotting classes for higher wages.

For 60,000 pupils it was an unscheduled holiday to play in freshly fallen snow but to the city administration it was a grave situation which may prove the spark to set off similar walkouts by teachers organizations throughout the state.

The boycott fulfilled a threat to strike made on Feb. 4, when the Buffalo Teachers Federation, an independent organization, protested failure of repeated efforts to obtain "satisfactory" salary increases from state and city authorities.

### Allis-Chalmers Officials Say Union Communist

WASHINGTON — Five officials of the Allis-Chalmers Co., today charged the existence of a Communist fifth column in the labor movement with the purpose of undermining the U. S. government.

They told the House labor committee that the leadership of local 248 of the United Automobile Workers, CIO, in the firms strike-bound West Allis, Wis., plant is "unquestionably Communist" and is the active tool of the Communist party.

### CURE FOR COMMON COLD SOUGHT IN PRISON TEST

COLUMBUS, O. (UP)—Further progress in the effort to free mankind from the curse of colds may be achieved through the efforts of 1,500 prisoners and guards at the Ohio penitentiary.

The volunteers are taking a course of immunization shots consisting of one a week for three weeks and one every three weeks thereafter. It is one of the largest cold serum experiments in medical history.

Medical scientists hope the experiment will prove the efficiency of a comparatively unknown serum. If it reduces the number of colds among inmates, they feel they will be on the right track.

The mass tests are being conducted by Dr. J. B. C. Eckstrom, resident prison physician, and Dr. O. F. Roseau, medical consultant at the prison.

The cold serum they are using was developed by Dr. Roseau's cousin, Dr. E. C. Roseau of Cincinnati, who is doing research work at the Longview State Hospital. He is a retired associate of the Mayo Clinic at Rochester, Minn.

Not a single unfavorable reaction has developed despite the

assembly-line methods by which 13 men receive injections every minute.

"We have checked every man receiving the cold serum and have not found a single case where there has been any allergic reaction," Dr. Eckstrom says.

The plan of mass cold immunization has been offered on a volunteer basis only to active workers. So far, 1,408 of the 2,200 workers have volunteered.

After the three weeks' course of shots are completed, Dr. Eckstrom explains, the doctors will compare the number of colds caught by the treated men.

After the present experiment is completed, Dr. Roseau plans to offer shots to the inactive prisoners on a volunteer basis for further study of the effect of the serum.

The men are lined up with their right sleeves rolled up and pass through the laboratory in an assembly-line manner. Three inmate-technicians administer the injections under the supervision of the doctors.

### Hardwood Available For New Homes

CHICAGO (UP)—People lucky enough to build homes during 1947 probably won't have to worry about hardwood flooring, the National Oak Flooring Manufacturers' Association reports.  
Secretary Henry H. Willins said that under favorable conditions production can reach 550,000,000 board feet during the year. He said

that should be sufficient for the 700,000 to 1,000,000 new homes predicted for the year.

Willins said the production rate has gone up nearly 7 per cent since last August. That was when the Civilian Production Administration prohibited the use of flooring hardwood for other uses. Increased growing brought by suitable weather was another supply factor, he said.

## Your Cough Yields Quickly To This Home Mixture

Surprisingly Quick Relief. No Cooking. Saves Money. Gives you a full pint—a family supply—of very wonderful cough syrup. It's thirty two—about four times as much for your money. Children take to it, because it tastes fine. This home mixture takes right hold in a way that's surprising. It soothes the phlegm, soothes the throat, and helps clear the air passages. It soothes the throat, and helps clear the air passages. It soothes the throat, and helps clear the air passages. It soothes the throat, and helps clear the air passages.

### Leunging Room For Cows Included In Model Farm Run By Children

By HARMAN W. NICHOLS  
United Press Staff Correspondent  
CENTRALIA, Mo., (U.P.)—One of the most fertile farms in fertile Missouri. The most modern of buildings. One of the finest dairy herds in these parts. Chickens which outlay those of the neighbors, who have pretty fine chickens. Even a lounging room for cows. And all cared for by a bunch of "teen-aged kids."

These things, and more, add up to a place near here called "Sun-nydale Academy," a unique school founded outside of Centralia last fall.

The show-place originally was owned by A. B. Chance, a Centralia millionaire, who would rather sponsor education than blooded cattle. There are 863 acres on the "ranch" and Chance, who dumped \$50,000 into improvements last year alone, almost "gave it" to the present owners.

The school buildings are occupied, but are still in the process of completion. The farm now is operated by the Missouri Conference of Seventh Day Adventists as a co-educational rural school, whose motto is to improve the head, heart and hand through work in the classroom and through work in the chapel and plowing

The most interesting thing about the place to this old farmhand was that lounging room for cows. When we stopped by that barn three bossies (left to right, Rose, Violet and Martha) were lounging. The steam heat was turned on, and the lights were low.  
It was the first time I knew a cow could snore.

Dr. G. L. Carlson, born Jan. 1, 1883, and still living in Norfolk, Neb., is credited with developing artificial breeding methods for draft horses.

### Hunting Costs In California

SAN FRANCISCO (UP)—The average sportsman in California spends \$454 annually to hunt and fish, the United States Forest Service reported in estimating the yearly income of the business at \$125,000,000.

After analyzing reports from several hundred sportsmen, the service computed that the average deer hunter spends \$270 a year for ammunition, boat rental, guides and pack stock, club dues, food, lodging, clothes and liquor. In addition he travels 2,235 miles, which at five cents a mile would total \$112. He invests \$504 in

guns, camping equipment and fishing tackle, representing a yearly cost of \$72, considering that equipment lasts an average of seven years.

The average hunter spends 14 days a year on his big game hunts, 4 1/2 days hunting pheasants and quail, 3 3-4 days hunting geese and ducks, and more than 10 days fishing.

He loses on the average \$119 in wages for time taken off to hunt and fish.

### High Pal

Photographer's mate Joe Sommers had a tall story to tell his shipmates at Great Lakes Naval Station, after he danced with six-foot, one-inch Kay Puppini. Joe, five feet tall, was among those present when Chicago's Tall Girls' Club, for the first time in its six years, welcomed all comers to their dance instead of restricting guests to tall men.

### Reluctant Fare Bites Cabbie

FORT WAYNE, Ind. (UP)—Leonard Smith, Tax driver, is going to take a second look at his fare to see if they look like "the biting type." A fare refused to pay for his ride. When Smith forced him from the cab, the customer bit the cabbie's finger.

Illinois made approximately 60,000,000 pounds of cheddar cheese in 1944, and now ranks as the second state in cheese productions.

### One Thing After Another -

... can and may happen to land titles over a period of years. The fact that no abstract was required when the place was purchased puts the owner in a position of not knowing what he bought. The land and improvements are worth little if the owner fails to prove his title. The abstracter in a sense is your land title guardian for he keeps the records day after day as they are made. Use him often. The cost is small; the benefits are large.

### New Type Camera

A new type of camera has been built which delivers a finished, positive print one minute after the shutter has been snapped. The inventor, Edwin H. Land, president of Polaroid Corporation, New York City, shows a self-portrait taken by the camera. (NEA Telephoto).

### Wounded Veteran Makes Most Of Hospital Course

SAN ANTONIO, Tex. (UP)—When 21 year old Jim Holmes, Denton, was wounded in the left knee at Okinawa while aboard the USS Tennessee he dreaded being bedridden for some time.

That's where the Veterans Administration came in.

While at Brooke General Hospital, Jim passed the armed forces' general education development test. What's more, he not only qualified for a high school diploma and college training, but the Navy veteran also became the first ex-serviceman at the hospital to pass the test.

He hopes to begin a watch-making course at Brady Tech College at Peoria, Ill. next September.

### Get Big Price For Hereford Bull

DALHART, Tex. (UP)—One of the highest-priced bulls ever to go out of the Panhandle country has been sold by the W. O. Culbertson and Sons Ranch to D. A. Thornton, nationally-famed Hereford breeder and owner of the Thornton Hereford ranch at Gunnison, Colo.

The Culbertson firm disclosed it sold Prince Wilton, 2nd a senior yearling to Thornton for \$15,000.

## HOUSING EXPERTS SEEK WAY TO SOLVE SHORTAGE

CHICAGO (UP)—The nation's leading housing authorities will meet in Chicago to discuss nearly every aspect of the housing problem at the National Association of Home Builders annual convention and exposition, Feb. 23 through 27.

More than 4,000 home builders will be joined by bankers, realtors, labor leaders, veterans' representatives, government officials and manufacturers in a concentrated effort to devise workable policies to relieve the housing shortage.

The session will stress such issues as veterans' housing, community development, slum clearance, apprentice training, wages, productivity of labor, new materials and methods, financing new homes, architecture, and building codes and regulations and materials.

Speakers will include national don; Rep. Jesse P. Wolcott, chairman; Rep. Jesse P. Wolcott, chairman of the house banking and currency committee, and Raymond M. Foley, national housing administrator and commissioner of the Federal Housing Administration.

A monthly average of 47,000 veterans filed applications last year to convert their national service life insurance to permanent government policies.

## Miss Robinson, Mr. Maedgen Married In Sunday Ceremony

Sunday afternoon at 4:00 o'clock in a ceremony performed at the First Baptist church in Ranger, Miss Caroline Robinson, daughter of Mr. and Mrs. George H. Robinson became the bride of Mr. C. L. Maedgen of Troy, son of Mr. and Mrs. D. V. Maedgen of Troy.

Rev. David C. Ham read the service before an altar centered with a white grided arch below which stood a white floor basket filled with white stock and gladioluses and tied with a white satin ribbon. A seven-branch white floor candelabra holding white candles stood behind the arch. On each side of the arch were baskets of the white flowers and floor candelabra.

Pre-nuptial music was given by Miss Wilma Thiele of Dallas, pianist, who played Clair de Lune, and accompanied Miss Rosemary Bruce, violinist, as she played Ave Maria. Miss Thiele also accompanied Mrs. Ralph Koen of Temple who sang At Dawning and Ah, Sweet Mystery of Life. The traditional wedding marches were played by Misses Thiele and Bruce who also played Liebstraum during the ceremony. As the pre-nuptial music was being rendered ushers lighted the altar candles and spread the white bridal carpet.

Miss Willie Mae Donnelly of Crane, bridesmaid, and Mrs. W. F. Haddleton of Tyler, brides-matron, wore gold gowns fashioned with tight fitting bodices and short puffed sleeves with long full skirts. Their head dresses were tulle caps from which hung shoulder length veils and they carried colonial bouquets of blue and white cornflowers. Mrs. R. E. Lawson, Jr., of Abilene was mron of honor. She wore a blue gown designed the same as those

of the other attendants. Her head-dress was of pink tulle and she wore pink elbow length gloves. She carried a colonial bouquet.

The bride who was given in marriage by her father, wore a white satin gown designed with tight bodice and a drop shoulder yoke of marquisette. The edge of the yoke was marked by a fold of the satin and the long tight-fitting sleeves were pointed over the hand. The long hooped skirt fell into a graceful train. Her illusion veil was attached to a sweetheart coronet of illusion. Her only ornament was a strand of pearls, a gift from the groom and her bridal bouquet was of white orchids and gardenias.

The groom was attended by Mr. Donnell Dixon of Temple as best man and groomsmen were Messrs. Gene Wier and W. O. Maedgen of Troy. Ushers were R. E. Lawson, Jr., of Abilene and Norris Smith of Ranger.

Following the wedding a reception was held at the home of the bride's parents. Guests were received by the mothers of the bride and groom, the bride and groom and members of the wedding party. Mrs. Mary Claude Cheatham presided at the guest book.

The bride's table was laid with a cutwork cloth and centered with a crystal bowl filled with pink and white stock and blue iris and fern. Crystal candle holders held white candles which lighted the table. Mrs. Melba Richey presided at the wedding cake which was in three tiers in gold and white and topped by a miniature bride and groom beneath an arch. Mrs. Perry Pittman of Archer City presided at the silver coffee service.

When the couple left for a

trip to New Orleans, the bride wore a green wool crepe suit with wine accessories and a white orchid on her shoulder. They will make their home on a ranch near Troy upon their return from New Orleans.

Mrs. Maedgen is a graduate of Ranger High School and North Texas State College at Denton. She is an accomplished musician and just prior to her wedding had been a member of the faculty of Temple public schools.

The groom is a graduate of Troy High school and Texas A & M College and served with the Armed Forces during World War II.

Out-of-town wedding guests were Messrs. and Mmes. D. V. Maedgen, W. O. Maedgen, W. L. Maedgen, J. O. Simmons, Miss Carrie Nell Simmons, Mrs. Mattie Moore Fry, Mrs. L. A. Edwards, Mr. Jean Wier, all of Troy; Mrs. W. P. Stockmier, Mr. Raymond Stockmier, Mrs. Robert Stockmier, Mr. and Mrs. Eric Wiegand, all of Dallas; Mr. and Mrs. Van Maedgen and children of Grand Prairie, Mr. and Mrs. Henry Wiegand of Gateville, Mr. and Mrs. L. E. Green of Mound, Mr. and Mrs. W. R. Clardy of Weatherford, Mr. and Mrs. Ralph Koen and children of Temple, and Mrs. Walter H. Smith of El Paso.

Following the wedding rehearsal Saturday evening, a dinner was given at 7:00 o'clock in the home of Mr. and Mrs. Leslie Hagaman. The bridal party was seated at the dining table which was covered with white satin Damask cloth and centered with an arrangement of pink and white and blue iris and fern. The smaller tables were centered with bud vases holding pink roses.

Those attending the dinner were Miss Robinson and Mr. Maedgen, Mr. and Mrs. D. V. Maedgen, Mr. and Mrs. George H. Robinson, Mr. and Mrs. W. O. Maedgen, Mr. and Mrs. Ralph Koen, Mr. and Mrs. R. E. Lawson, Rev. and Mrs. David C. Ham, Misses Rosemary Bruce, Wilma Thiele, Willie Mae Donnelly, Mrs. Melba Richey, and Messrs. Jean Wier and Donnell Dixon, and Mr. and Mrs. Hagaman.

### Class Luncheon To Be Thursday

The regular monthly luncheon for the Martha Dorcas class of the First Methodist Church will be held at the church Thursday, February 27, promptly at 12:00 o'clock.

Hostesses for the luncheon will be Mmes. L. Wolfe, Grady Ramsey, John Reuser, E. P. Mills, and George Williams. All members are invited to attend.

### HODGES P.-T.A. MEET POSTPONED

It was announced today that the regular meeting of the Hodges Oak Park Parents-Teachers Association will not be held Tuesday afternoon because of illness among members.

**Ohio Bridges Busy**  
CAIRO, Ill., (U.P.)—The end of the war has brought a steady increase in travel, figures for Ohio River bridge traffic show. Traffic increased from 354,658 vehicles in 1945 to 502,757 in 1946.

### Married Sunday

Mrs. C. L. Maedgen, the former Miss Caroline Robinson, daughter of Mr. and Mrs. George H. Robinson of Ranger, who was married in a ceremony at 4:00 o'clock Sunday afternoon at the First Baptist church. Mr. Maedgen is the son of Mr. and Mrs. D. V. Maedgen of Troy. After a trip to New Orleans the couple will make their home on a ranch near Troy.

### Lacasa H.D. Club Meet Wed.

The Lacasa Home Demonstration Club met Wednesday, February 19, with Mrs. W. C. Bradford for an all day meeting and a covered dish luncheon.

At two o'clock the president, Mrs. J. A. Caraway, called the meeting to order for a business session. The secretary, Mrs. Don Bradford, read the minutes and called the roll. Roll call was answered with current events, household and fashion hints, poetry, jokes and other subjects of interest.

The Social Committee reported successful socials for both January and February, each having a large attendance.

The following were appointed as a committee to consider the attainment of a Community House: Mmes. D. B. Roney, A. N. Bradford, and A. G. Ketchersid.

Following the business session, Miss Jean Bain, home demonstration agent, gave a lesson on slip covers, demonstrating by covering a chair.

Those attending the meeting were Mmes. V. L. Jones, J. A. Caraway, A. N. Bradford, Don Bradford, C. N. Dempsey, A. E. Howton, A. J. Prockrus, Roy Herrington, D. Z. Herrington, B. B. Newham, A. G. Ketchersid, G. A.

### R. A. Meeting In Cisco Friday

The Cisco Association of Royal Ambassadors of Baptist churches met at the First Baptist Church in Cisco Friday night for the regular annual recognition services.

The program was opened with a song and prayer and a very interesting devotional was led by Ranger R. A. Frankie Johnson.

The following advancements in rank since last year's meeting were recognized: fourteen to the rank of Page, six to the rank of Squire, one to the rank of Knight, one to the rank of Ambassador.

Royal Ambassadors from Ranger attending the meeting were Jerry Bobby, Joe Morris Young, Max Godwin, Buddy Godwin, and Frankie Johnson.

The Ranger R. A.s are jointly sponsored by the Brotherhood and W.M.U. of the First Baptist church. Any boys of junior age who are interested are invited to meet with the sponsor, Mr. Jimmy Berry, each Tuesday at 4:30 p.m. at the church.

### YOUNG P.T.A. TO SEE COLORED FILM

The Young School Parents-Teachers Association will meet at the school Tuesday afternoon at 2:30 o'clock. Dr. C. W. Harris will show a colored film entitled John-

### Insurance Agent Believes In Putting Out Fire

GREAT FALLS, Mont., (U.P.)—Nobody but the insurance agent was worried about a fire that smoldered in a davenport for 12 hours at a local residence.

Apparently caused by a lit cigarette, the fire was found by the householder. He poured a bucket of water on it and left it smoldering.

A few hours later the flames burst out again, and he poured another bucket of water on it.

Then he called his insurance agent and announced, "I've got a burning echesterfield at my house that's been blazing on and off all day, but I guess it's under control now."

The agent called the fire department.

### Husband, Wife Get Call To Jury Duty

BUFFALO, N. Y., (U.P.)—Mathematicians say it was only one chance in 196,000,000, but the rare coincidence occurred here when Commissioner of Jurors drew a husband and wife from 14,000 names.

Figuring in the juror duty rarity were Dr. and Mrs. Benjamin F. Clark of Grand Island. The Clarks served for two weeks, he in supreme court and she as a trial juror in County Court.

### PERSONALS

Miss Catherine Adams, a student at Texas Technological College in Lubbock, was the week-end guest of her parents, Mr. and Mrs. H. G. Adams.

Mr. and Mrs. Harvey Huffman of Albuquerque, New Mexico, are the guests of Mr. Huffman's mother, Mrs. W. A. Huffman and other relatives.

Among those from Ranger who were in Ft. Worth Sunday to hear the Jose Iturbi program were Mr. and Mrs. David D. Pickrell, Dr. and Mrs. P. M. Kuykendall, Mr. and Mrs. James P. Morris, Mr. and Mrs. W. F. Creager and family, Mr. and Mrs. Stanley McAnelly and Miss Helen McAnelly, Mr. and Mrs. Bruce Harris, Mr. and Mrs. R. C. Reynolds and Mr. and Mrs. H. W. Imholz and family.
