PRICE FIVE CENTS No. 158

## Congress Warned Of Price, Wage Freeze

Well... I Dunno, But...

Ranger is really beginning to take on an atmosphere of Christmas and the merchants are going all out in making their window displays and store decorations elaborate and attractive.

One of the first to get the Christmas decorations out in the windows was Rip Galloway at the Chamber of Commerce. Rip denies knowing anything about Christmas decorating but you couldn't tell it from the attractive windows at his office.

The Paramount Hotel Coffee Shop is one of the most attractively decorated places that we've ever seen. Dark blue cellophane fringe lines the walls and hangs from the ceiling drops, and at the top of the tile wainscoting are autumn leaves and cedar. Red bells and wreaths of holly are interspersed in the fringe.

V. V. Cooper, Sr. tells us one of the best deer hunting stories that we've heard

Ten people made up a party of hunters that brought home 20 deer, two a piece. Though not all or 'em killed two. Members of Mr. Cooper's family accounted for 16 of the deer.

Mr. and Mrs. O. R. Cooper of Tyler, Mr. and Mrs. Charlie Cooper of Kilgore and T. C. Cross of Kilgore were the members of the family who were on the trip. This was Mrs. O. R. Cooper's second hunting trip and she got her deer. And come deer season next year, there'll be no holding her, they say.

Mrs. G. D. Chastain sometime ago sent a box of clothing to the World Church Center in Webster Groves, Mo. to be sent to countries where they were needed. She did not specify the destination but evidently they went to Warsaw as she received a letter Saturday from a woman in Warsaw who appealed to Mrs. Chastain to send her some warm clothing.

Mrs. Chastain is preparing to send the woman some clothes and if there are those who might have something they would like to send she will be glad to include it in her package.

How this woman secured the name of Mrs. Chastain is unknown to her as no name was included in the clothes when she sent them from here.

Following is the letter from the Polish woman:

Having heard of your kindness to Poles by sending them warm clothes, I apply to your good heart and beg you to send me something of that kind for the winter.

I am an elderly woman. I belong to the intelligent sphere and have worked a great deal for the relief of the poor in my life. At present I am myself in great need of such help. I have been completely ruined by calamity and disease. So, I hope you will not refuse me your aid.

Yours respectfully and Thankfully,

Wanda Kominvke

**Johnsons, Smiths Abound In Moscow**

MOSCOW (UP) — There are more Johnsons and Smiths—or at least the Russian, equivalents thereof—in Moscow today than there are persons of any other name.

The Moscow Central Address Bureau is authority for the fact that there are 127,000 persons with the family name of Ivanov, which means son of John. Forty-eight thousand are named Kuznetsov. "Kuznets" is the Russian word for "smith."

Five hundred of the Ivanovs whose fathers were named Ivan also have been given that Christian name, resulting in the full name, "Ivan Ivanovich Ivanov." There are 6,000 Maria Ivanovs. There are also 45,000 Smirnovs, 31,000 Petrovs (Peters), and 20,000 Mikhailovs (Michaels). "Smirnov," from the word "smirny," apparently has no English equivalent. It means "peaceful."

Using only two consonants, W and I, it's possible to spell the full names of two states of the Union— Iowa and Ohio.

French Premier Robert Schuman, left, greets his new Minister of Finance, Rene Meyer, prior to Cabinet meeting in Paris, which report to be planning a general mobilization of striking dock workers, miners and railway men in an effort to break the Communist-led strike of 2,000,000 workers. (NEA Radio-Telephoto).

### SOCIETY MOVES TO MAKE LAFITTE HOME SHRINE

GALVESTON, Tex. (UP) — The red brick home of Jean LaFitte, one of the last of the free booters in the Gulf of Mexico and a man that time has changed from pirate to a legendary figure, is slated to become a historical center.

Between 14th and 15th streets, has been requested by the Galveston Historical Society. The society asked the city to waive tax claims which had accumulated over a period of years and to convert the home into a historic center and recreation for underprivileged children.

LaFitte, with his brother Pierre, came to the Galveston area following the War of 1812 in which they and their followers played a prominent part in the defeat of British General Pakenham at the Battle of New Orleans. The 2 Frenchmen whose origin never has been learned, were restored to citizenship by the American government as a reward.

The life of respectability paled on them, however, and they again set up their smuggling and pirate band on the Texas coast. It was during this period that LaFitte maintained his home in Galveston, which he originally called Galves Town. A pugnacious American navy, however, kept close tab on the activities of the outlaw community and finally the commander of an American war

### WORK OF BIG FOUR SLOWED BY CRISIS

LONDON — The French crisis, in which the "cold war" between the East and the West was being fought with action instead of words, threatened today to slow down still further the snail pace of the Big Four conference.

Foreign Minister Georges Bidault of France planned to return to Paris tonight for urgent consultations with his fellow cabinet members.

If he is absent tomorrow, Bidault might assign his deputy Maurice Couve de Murville, to sit in for him on the council of foreign ministers. But no decisions would be possible without Bidault at the conference table.

One influential member of the American delegation admitted that the ministers were parrying for time while the issue was being fought in Paris.

"The East and the West are debating their conflict with words here," he said. "In Paris, the cold war is being fought in the streets and the chamber of deputies. If the Communists win in Paris, our arguments here will become even more academic."

Secretary of State George C. Marshall continued consultations with his delegation and staff on German policy. He planned a private meeting with Foreign Secretary Ernest Bevin of Great Britain soon.

Rebuffed in his first attempt to have a quiet talk with Foreign Minister V. M. Molotov of Russia, Marshall was anxious to try to clear up with Bevin some outstanding Anglo-American deadlocks.

### Communists Raided In Paris

Police and Mobile guards enter the plant of the Humanite, one of two Communist newspapers in Paris, France. Premier Schuman asked the National Assembly for power to crack down on agitators for strikes or sabotage "by speeches, writing or tracts." (NEA Telephoto).

### RANGER MAN BADLY CUT IN FIGHT SAT.

Attendants at the West Texas Hospital in Ranger stated this morning that Joe Galaviz of Ranger is in a serious condition as the result of a fight and cutting Saturday night in Ranger.

According to reports of the incident, a group of Mexicans were having a dance at a home on Cypress street when several fist fights broke out. Galaviz it was stated, attempted to separate some of the fighters and while doing this was attacked by Severino Lopez of Cisco.

Galaviz's abdomen was severely cut, the intestines penetrated in several places and one end of the bladder severed.

Dave Morgan and A. C. Ames, Ranger policemen on duty at the time, went to the home to investigate the incident after they were summoned by a brother of the wounded man. They found the place deserted but later, along with District Attorney Everett Grisham, they secured a statement from the wounded man, his brother and others who were present.

Lopez was turned over to the sheriff and is being held in Eastland, pending further investigation.

### Three Alarm Fire In Philadelphia Takes Six Lives

PHILADELPHIA — Six homeless men employed in making Christmas toys for orphans were killed today and 20 others were injured in a three alarm fire which swept through a charity organization building.

Firemen searched for hours through the blackened wreckage in the belief 17 other men were unaccounted for, but at 10 a.m. Battalion Chief Ray Wilkinson said no other bodies were found in the four-story industrial institution of the Volunteers of America, Inc.

The fire broke out shortly after 1 a.m. trapping 68 men sleeping in dormitories on the second and third floors.

### New Priest In Charge Of St. Rita's

Rev. August J. Merkel has taken up his duties as priest in charge of St. Rita's parish and missions.

Father Merkel replaces Rev. J. B. Duesman who was transferred to Ahilene and comes to Ranger from All Saints Catholic church in Fort Worth.

### Directors To Meet

The regular meeting of the directors of the Ranger Chamber of Commerce will be held Tuesday night at 7:30 o'clock at the office of the manager.

All directors are urged to attend.

### Builds Own Auto And It Runs Swell

EAST MOLINE, Ill. (UP) — The car shortage didn't bother Walter W. Sankpille, who works for International Harvester here. He built his own.

With his skilled hands, he made a three-wheeled job, which gives him good service.

Sankpille built the car from parts of other automobiles. The power generates from a two-cylinder motorcycle engine mounted in the rear. Under the hood in front, where you usually find a motor, is a spot for luggage.

Sankpille says he gets around 40 miles to a gallon of gas and can whoop it up to 35 miles per hour.

### Fort Worth Livestock

Cattle 4600. Active, fully steady to strong. Good and choice fed steers and yearlings 2300-3000. Good beef cows 1550-1800.

Calves 3700. Fairly active, mostly fully steady. Good and choice fat calves 1850-2400, top on fed heavyweights.

Hogs 1400. Butcher hogs opened steady to strong, later sales 25-50 higher than Friday, sows mostly 25-50 higher, stocker pigs 50-100 higher. Top 2625. Good and choice 200-300 lb. butchers 25 1/2-26 25.

### Communist In France Oppose Emergency Laws

PARIS — The Communist majority of the general confederation of labor flung an all-or-nothing challenge at the government today, announcing that it would never negotiate to settle France's chaotic strikes if emergency measures now before the Assembly become law.

The sudden breakoff of feelers toward negotiation served blunt notice that the Communists would plunge ahead with their program to battle the government all along the line, regardless of what happens.

New strikes plagued the crippled country. The Assembly debated amid Communist-created bedlam the measures which Premier Robert Schuman demanded to put legal weapons in the hands of the government.

### Myrl Squyres Pledged In Delta Phi Epsilon

Word has been received that E. Myrl Squyres, son of Mrs. Senthia Squyres of Ranger, has recently been pledged to Delta Phi Epsilon, oldest professional foreign service fraternity in the United States.

Myrl who is a Junior in the School of Government of George Washington University in Washington, D. C. was the highest honor graduate in the 1947 Class of Ranger Junior College, and his records indicate that he is maintaining a splendid record at the university.

An article telling of the pledge ceremonies was printed on the front page of the November 25 issue of the Hatchet, weekly student publication at the University.

### Junior Hi Team To Play Cisco

Coach Munneryn stated today that his Junior High School football team will meet the Cisco Junior High school team in a game at the Bulldog stadium Tuesday night at 7:30 o'clock.

Proceeds from the game will go toward paying for the uniforms that were bought for the boys this year and the public is urged to attend the game and contribute to the cause.

### Mass For Tom Bryant Jr. To Be Tuesday Morning

Requiem high mass for Tom Bryant, Jr. will be said Tuesday morning at 7:30 o'clock at St. Rita's Catholic church.

The mass is being said at the request of the Knights of Columbus and Rev. J. J. Donnelly will conduct the service.

### SMU 19 TCU 19

The game between SMU and TCU, played in Fort Worth, certainly gave the fans their money's worth. It was a hard fought battle until the very last second. Here, No. 43, Lindy Berry, who played a superb game, flies thru the air after being hit by an SMU tackler. Three plays later TCU scored a touchdown. No. 36, Howard Parker, SMU; No. 72, Clarence Marble, TCU, and No. 37, Doak Walker, SMU. (NEA Telephoto).

### WOULD RESULT IF SELECTIVE CONTROLS NOT AUTHORIZED

WASHINGTON — Secretary of Commerce W. Averell Harriman warned Congress today that failure to authorize "selective" price and wage controls now may make it necessary later to impose a general freeze on prices and wages.

Harriman told the House banking and currency committee he does not like price and wage controls. But he said that if the limited powers are granted the administration will try first to correct price abuses "by appeals to industry and to consumers."

He said that a voluntary program could be undermined by a thoughtless or selfish minority.

For the reason, he added, powers to impose limited, direct control of prices and wages, and to set up consumer rationing on a few items, should be granted now.

"Adequate advance preparation makes for fairness," Harriman said. "I believe that it is advisable to start developing a program now rather than to risk the need of hasty action later when the only feasible course might be to put on the brakes by some type of general freeze of prices and wages..."

Pressing the administration's campaign for anti-inflation legislation, Harriman reiterated President Truman's request for consumer credit controls, allocation of railroad equipment and facilities, export controls, and priority and allocation powers.

He said these controls can make a substantial contribution to the anti-inflation program.

### Violence Flares Afresh As Arabs Oppose Partition

JERUSALEM — Violence which had taken 14 lives in the middle east since the United Nations decided to partition Palestine broke out afresh in Jerusalem today as Arab leaders called a council of war to block the decision.

A Polish Jew was shot and wounded gravely outside the Damascus Gate here at midday. Officials said he was hospitalized with neck wounds. First reports of the outbreak had said the Jew was killed.

The Arab League summoned its leaders to meet Saturday in Cairo to map strategy for "safeguarding Palestine for the Arabs." In announcing the meeting, Premier Riyad Al-suh of Lebanon, who will preside, voiced conviction that the partition agreement never would be carried out.

### Merchants And Banks Are Warned About Vets' Checks

Ranger merchants and banks were requested today to ask for sufficient identification before cashing veterans' readjustment allowance checks. Hollis Bennett, manager of the Eastland office of the Texas Employment Commission, said that he had received word from Austin that at least 50 Texas veterans had been the victims of theft and forgery of their readjustment allowance checks.

In at least two cases indications were that the veteran had knowledge of the forgery and apparently had acted in collusion with the individuals who cashed the checks. If evidence supports collusion, the veterans themselves will also be subject to prosecution.

Victims were all recipients of the \$20 a week unemployment allowance provided by the G. I. Bill of Rights. Malefactors not only will be subject to charges of theft and forgery but also to action under the penal sections of the G. I. Bill. Bennett said the TEC state office at Austin has received 50 affidavits from veterans that they did not get the allowance checks sent them. But investigations reveal that the same checks bearing spurious endorsements have been cleared through Texas banks to Austin for payments. Such checks necessarily are dishonored by the banks sending them in. The TEC representative said that all pending action under Title V of the G. I. Bill is handled by the Veterans Administration and that he had been informed that the 50 cases had been turned over to the chief attorney of the regional VA office. Prosecution, he said, will be in either state or federal courts.

### Guam Takes a Cut

GUAM (UP) — Cock-fighting on this island has been legalized by the island congress. Betting is permitted under a system which gives a percentage of all wagers.

WASHINGTON COLUMN

BY PETER EDSON
NEA Washington Correspondent

WASHINGTON, D. C.—(NEA)—An idea that American business should make its own direct contribution to European recovery by furnishing for free the services of its top executives, engineers and technicians is being presented to Congress and Washington officials by Roy W. Gifford of Chicago, board chairman of Borg-Warner International Corporation.

The plan is to mobilize American businessmen to aid Europe as they were mobilized to aid in the war effort. Just making the money available is not considered enough. The United States must also furnish its industrial know-how to help put Europe back on its feet.

The idea has been tried out on British and French members of the economic missions here for consultation on the Marshall Plan. First reactions have been favorable. U. S. Chamber of Commerce and National Association of Manufacturers have also been brought in on the preliminary discussions. As finally worked out, the exchange of technicians may be arranged through established trade organizations—N. A. M. with the Federation of British Industries, for instance—rather than through the U. S. and European governments.

It is not contemplated that American experts would be forced on any European industries. But if any European firm requested technical advice, a panel of American industrialists would attempt to find the best team of experts available and persuade them to take their experience overseas. The aid would not be confined to top management. Front office sub-executives might have to be furnished.

Mr. Gifford explains it, the American industrialist could be the best possible doctor for Europe's sick economy. For the doctor, it would be a charity case. But Mr. Gifford believes that the doctor would be repaid by the increased economic health of the world. If all this sounds like a lot of altruistic big talk from a luncheon club speech, from a selfish and practical standpoint it has been proved that the more industrialized a foreign country becomes, the better customer it also becomes for America.

There are of course a number of obvious drawbacks to the Gifford plan. With national pride, European manufacturers may say that they know as much about efficient factory management as the Americans. Representatives of CEEC, the 16-nation Committee on European Economic Cooperation which drew up the Paris report, have already indicated that their sovereign countries want no American interference in the way they handle their affairs and utilize the recovery funds advanced to them under the Marshall Plan.

AMERICAN capitalists will have to be sold on the idea that they will not just be building up competitors who will later undersell them in world trade. Reluctance of some companies to donate their best men will have to be overcome. From the men themselves there may be some feeling that work overseas will knock them out of chances for promotion at home.

The motives of "Uncle Shylock" in this big-hearted gesture are bound to be questioned. From the Communists will come the familiar chant that this is merely another proof of how American monopolists and Wall Street are planning to take over Europe.

From Planner Gifford's point of view, communism can best be stopped by raising the world's standard of living. That can best be done by direct application of the methods used in the world's most productive free society—the United States. Gifford believes this is the biggest aid American business can render in the present emergency. American businessmen, for their part, will have to be convinced that their own salvation and prosperity depend on the continuance of capitalism as a going concern, abroad.

What the U. S. government has to gain out of this international industrial cooperation is insurance that the American-financed recovery is accomplished with minimum outlay and maximum return.

SPORTS

BY HARRY GRAYSON
NEA Sports Editor

CHICAGO—(NEA)—Casting is tremendously important in any team sport, especially so in football, where the time is so short. It is up to the coach quickly to size up the material and put it where they belong. The better coaches are more skillful at casting than the finest directors in Hollywood.

The writer happened to be with Frank Leahy when he took over Notre Dame in the spring of 1946. Changes were under way the last day. There were several major switches. Felts hardly knew the variety when it took the field that fall.

AMONG the switches I recall that paid rich dividends was Harry Wright moving from guard to the blocking quarterback post and fullback Bernie Grimm becoming a running guard, where he won his third letter in as many positions and All-America recognition.

Deeming it the thing to do, Leahy in 1942 had the courage to jump the so-called Notre Dame system and install the modern T with man-down motion. Largely because it affected Angelo Bertelli's passing, the Irish were tied by Wisconsin and shaded by Georgia Tech, but as quickly as the Spring-Bell Rite got the knack of passing, the man down order in the T, the Cats were off and running again.

This year at Texas, Blain Cherry did precisely what Leahy did at Notre Dame in '42, and the numerous changes he made further stressed the importance of proper casting.

Cherry was widely criticized for switching from the single and double wing to the T because following in the Longhorns' footsteps was considered a blunder in the college world. Leahy's return to the T like

"This Is Where I Stand On the Matter, Mr. President"

Seventy-one per cent of the earth's surface is covered with water, according to the Encyclopaedia Britannica. First library to be set up in the American colonies by legislative enactment was established at Bath N. C.

## TURKISH GRAIN ROTTING AS U. S. SENDS EUROPE GRAIN

By Menno Duerksen  
 United Press Staff Correspondent  
**ISTANBUL, Turkey (UP)**—Qualified experts estimate that 30,000,000 bushels of grain are going to rot in Turkey.

It also is estimated that as high as 50 per cent of Turkey's crop is going to waste. Rivers and harbors have been observed full of floating apples.

It is not because the Turks want to waste this valuable food. On the contrary, Turkish newspapers advocate supporting the American food-saving plan.

It is because the Turks are helpless to save it. Turkey is a country potentially rich as a food-producing area, but for an area larger than Texas she has less than 4,000 miles of railroad. Most of that is single track.

Turkey has almost no highways. She is desperately short of rolling stock for the railroads and has almost no trucks. She has insufficient storage facilities for grain and hardly any canning plants to can the fruit.

She has a desperate shortage of manpower caused by the mobilization of her peace-time army. The nearness of Russia makes it impossible to decrease the size of the army, the government believes.

Thus the grain lies in fields or is stacked beside the railroad stations. The fruit has rotted already or is rotting and the grain will rot as soon as the autumn rains begin.

With a third of her 192,000,000 acres of land under cultivation, and even with this year's drought, Turkey has produced enough grain to export a substantial amount. No one knows exactly how much because of inadequate statistics.

The estimate of waste for this year is based on last year's figures, when 3,650,000 long tons of wheat were produced and enough barley, corn, rye and oats to bring the figure upward of 5,500,000 tons of grain.

The estimate of waste is based on a figure reached by Turkish and foreign export observers here, as approximately 15 per cent. Some experts have gone as high as 20 per cent.

Nevertheless, Turkey will be able to export some grain this year, although the figure will be disappointingly small. Turkish officials admit. If the 30,000,000 bushels could be saved it could be added to the export figure.

The same officials have been searching desperately for a solution. None is in sight. Kasim Gulek minister of public works, said that the road building program made possible by the \$100,000,000 American aid program will offer some help next year and later.

American officers stationed here to help administer the aid program said it is theoretically possible to save the grain by laying steel landing strips near the collection depots and flying it out

with cargo planes. But the cost of such an operation would be "terrific," they said, and action would have to be taken with "fast-time speed" if planes and landing strips were to be brought in before the rains begin.

### Site Of Cromwell Plot Wants Buyer

**GREAT YARMOUTH (UP)**—Unless some dollar-rich American individual or organization steps in, the 351-year-old house in which Oliver Cromwell's followers plotted the assassination of King Charles I will be demolished.

At a meeting of the town council, one of the members, F. H. Stone, suggested an American might like to buy the house, transport it to the United States and re-erect it there "as a national memorial, as they have done with other buildings."

### This Home-Mixed Cough Syrup Is Most Effective

Cough medicines usually contain a large quantity of plain syrup—a good ingredient, but one which you can easily make at home. Take 2 cups of granulated sugar and 1 cup of water, and stir a few moments until dissolved. Or use corn syrup or liquid honey, instead of sugar syrup.

Then get from any druggist 2 1/2 ounces of Pinex, pour it into a pint bottle, and buy the honey syrup. This gives you a full pint of wonderful medicine for coughs due to colds. It makes a real saving because it gives you about four times as much for your money. Never spoils. Tastes fine.

This is actually a surprisingly effective, quick-acting cough relief. Swiftly, you feel it taking hold. It loosens the phlegm, soothes the irritated membranes and makes breathing easy. You've never seen anything better for quick and pleasing results. Pinex is a special compound of proven ingredients, in concentrated form, a most reliable soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way.

## No Comfort for Pilot in Nazi Glider

Cockpit close-up of the "Horten 6," 78-foot, swept-back flying wing glider developed by the Germans in 1944, which is now being studied in the U. S., shows the position of the pilot in flight. He must kneel, place his head under a tiny plastic bubble and control one-man craft with conventional wheel and toe-rudder pedals.

### Customs Seizures Offer Variety

MOBILE, Ala. (UP)—Shoppers visiting the federal building here can find a greater variety of merchandise than at a five and ten cent store.

More than 650 articles, seized by the customs department from seamen and travelers entering the port this year, have been offered for sale. Among items which the owners sought to smuggle in were grass skirts, perfume, cameras, marmalade, and jewelry.

Also included, and sold at auction, were stockings, a bicycle, an alarm clock, a sextant, many watches and bracelets, whips, shoes, fans, dolls and a dagger.

### "You'll Find Out" Coach Told Pointedly

MADISON, Wis. (UP)—Harry Stuhldreher, University of Wisconsin football coach, had a reply at a university rally at which faculty members were asked to give their names and positions.

"As of today, I'm athletic director and football coach. After tomorrow's game, I don't know," Stuhldreher said.

"Never mind," replied M. C. Frank Holt, public services director. "plenty of people will tell you."

The North American population more than doubled in the 60 years between 1880 and 1940, according to Encyclopaedia Britannica.

## SOCIETY

### Eastland County Aggies Have Dance Friday

The Eastland County A&M Club was entertained Friday evening, November 28, with a dance at the Ranger Country Club.

Decorations were of maroon and white carrying out the Aggie theme. A snack bar was furnished by Mrs. W. M. Brown and Mrs. A. N. Larson of Ranger.

A&M students and their dates present were Jib Donovan, president of the club, Cisco, Melba Woods, Ereckneridge, Dick Hodges vice-president, Ranger, Peggy Bundick, Ranger, Jack E. Roper, secretary - treasurer, Eastland, Ann Price, Ranger, Billy Ross Hodges, social chairman, Ranger, Freddie Larson, Lynn Pearson, Babe Thompson, Frances Ruth Haggman, Mr. and Mrs. Frank Johnson, Charlie Brown and Mary Gues, all of Ranger, John Halkias, Betty Armstrong, W. D. Crawford, Estes Halkias, Corky Harkrider, Dick Brogden, and Hill Eisenhauer and Jerry Farley of Cisco.

Others present were Jim Owens, Bob Palmer, Bill Brown, Jone McFarland, Pat Owens and their guests.

### Royal Neighbors To Meet Tonight

All members of the Royal Neighbors of America are urged to be present at the regular meeting Monday evening at 7:30 in the Elks hall for the election of officers.

After the election plans will be made for the Christmas party to be held December 8.

### BAND BOOSTERS TO MEET TUESDAY NITE

The Band Boosters Club will meet Tuesday night at 7:30 o'clock in the band hall and all members are urged to attend.

## Personals

Mr. and Mrs. Joe Dennis and Mr. and Mrs. Norman Dennis and daughter, Jo Ann, were in Fort Worth Sunday to attend the Shriners' circus.

Frances Anne Eubank has returned to Texas Technological College to resume her studies after spending the holidays with her parents, Mr. and Mrs. E. T. Eubank.

### 4-H Achievement Winners

Donald Stoten, Jr., 20, of Carthage, Illinois, and Lavona Thorndyke, 18, of Lamert, Oklahoma, won the Achievement trophies and \$200 scholarships at the 26th National 4-H Club Congress in Chicago. They received the prizes because of their work in the interests of the club. (NEA Telephoto).

### Heartsease

by Elsie Glenn

And Who Shall Be Called Guilty? Verily, verily, I say unto you:

Before you cut into human flesh with the lash you hold within your power . . . or attempt to break the spirit that lives within the flesh . . .

Stop to consider that you may not be the judge of these matters. The Prophet sayeth. "If any of you would punish in the name of righteousness and lay

the ax unto the evil tree, let him see to its roots;

"And verily he will find the roots of the good and the bad, the fruitful and the fruitless, all entwined together in the silent heart of the earth.

"And you judges who would be just, "What judgment pronounce you upon him who though honest in the flesh yet is a thief in spirit? "What penalty lay you upon him who slays in the flesh yet is himself slain in the spirit? "And how prosecute you him who in action is a deceiver and an oppressor,

"Yet who also is aggrieved and outraged?"

The Pharisee prayeth in the flesh in the spirit he thiefeth.

The murdered slays the flesh and the judge condemns him. What of the spirit of the man who murdered. Already slain leaving the man who was . . . without manspring to judge his action?

The roots thereof. How shall those whose remorse is already greater than their misdeeds be punished?

Have mercy, God. And in the blood shed . . . and in the slaying of the spirit within the flesh . . .

Let Thy children at long last look at the root of the man.

For otherwise . . . until we have the Grace to understand . . . we shall continue to suffer, to punish . . . and to die.

Oh, God . . . who knoweth better than Thee that the roots of a human being are all entwined together with good and bad, fruitful and fruitless, in the silent heart of the earth?

Teach us wisdom . . . God of Mercy . . . teach Thy children that they may at long last . . .

Look to the root of a man . . . For unless the root be seen and understood . . .

How can the judges be just?

### Ten Ten Years As Mayor No Fun

PITTSFIELD, Mass. (UP)—James Fallon, who served a "sentence" of 10 years as mayor of Pittsfield, sent condolences rather than congratulations to Mayor-elect Robert T. Capeless.

# OWNERS LIKE the KAISER and the FRAZER!

## THEY WRITE FROM EVERYWHERE PRAISING PERFORMANCE, RIDE AND SERVICE

The Kaiser and the Frazer have been tried out in hundreds of millions of miles of motoring, by more than 115,000 owners. The verdict of these critical buyers is overwhelmingly favorable. Their experience adds up to such enthusiastic endorsement that more than half the sales we make result from owner recommendations!

Owners of Kaiser and Frazer cars write letters to Willow Run by the thousands, praising the performance, ease of control, roominess, economy and, above all, the ride that these great postwar automobiles give them. The following excerpts from unsolicited letters tell the whole story of why Kaiser and Frazer owners like these fine cars.

### These Voluntary Statements Are Typical of Thousands

- As Around Satisfaction**—"I purchased the first Frazer car sold in our town. It is the best automobile I have ever owned or driven—and that takes in a goodly number."—From a Hamilton, Mont., Farmer.
- Effortless Driving**—"I have never experienced such performance and effortless driving as I have since I became the owner of a Kaiser—wonderful to handle in traffic."—From a San Marcos, Cal., State Forester.
- The Best Ride of All**—"I have driven my Frazer 8,247 miles. On a recent 2,780-mile trip through Canada I averaged 30.6 miles to the gallon. I have owned and operated many different makes of cars over a period of a great many years and never until I bought my Frazer have I owned a car that was so economical and I can truthfully say that this car gives the best ride of any automobile I have ever owned."—From a Cranston, R. I., Physician.
- Safety**—"For comfort and safety, I am convinced—after 10,000 miles—that no other car in any price range can compare with my Kaiser."—From a Mayfield, Ky., Sgt.
- No Fatigue**—"Driving my Frazer an average of 15 hours a day, I made the run from New York to San Francisco in 5 1/2 days without the slightest fatigue. The road stability of the car is remarkable. Total absence of vibration. Absolute steadiness of the wheel."—From a Belgian Diplomat.
- Service Accessibility**—"I bought my Kaiser as I was sold on its workmanship, design and performance. Have just completed a 5,500-mile vacation trip and I like the lubrication layout and the way you can get at the engine. All parts that might need repair are more accessible than in any other car. These words are not only mine but those of service station attendants in many localities."—From a Peoria, Ill., Factory Supervisor.
- Comfort**—"After averaging 420 miles a day for 17 straight days on a round trip to California by way of Florida with my wife and three children, none of us were travel-fatigued when we got home. The Frazer is really a great car."—From a Trenton, Mich., Businessman.
- Good Service**—"A product is only as good as the service in back of it. My Kaiser has been well serviced everywhere, from the start, and I am perfectly satisfied."—From a Providence, R. I., Motor Vehicle Inspector.
- Performance**—"If any of your prospects want performance figures, here are a few: I just finished a 4,000-mile trip in my Frazer averaging above 20 miles per gallon at between 60 and 70 miles per hour. The car will hit 100 miles per hour anytime and will do 70 miles per hour in second gear. I can truthfully say that my car performs better as it gets older."—From a Laurel, Md., Businessman.
- Roominess**—"Friends who ride in my Kaiser are amazed at its roominess and at the smoothness of the ride."—From a Milwaukee, Wis., Retired Businessman.
- Styling**—"Our new Frazer has the more-expensive-car performance and styling and the less-expensive-car economy."—From a Hamilton, Ohio, Engineer.
- Excellent Treatment**—"We were on the list for 8 months when we took delivery of our Kaiser. In this day of 'under-the-table' deals, and 'accusations-or-clear' policies, it is refreshing to report the excellent treatment we have had from your dealer."—From a Passaic, N. J., Businessman.
- Most Satisfactory**—"I want to thank you for selling me a Frazer. It is the most satisfactory car I have ever driven—and I have owned several different makes of cars in both the low-priced and the high-priced lines."—From a Boston, Mass., Insurance Executive.

YOU PAY THE REGULAR PRICE • NO TRADE-IN NECESSARY • HONEST ALLOWANCE ON YOUR OLD CAR • CALL ON YOUR KAISER-FRAZER DEALER AND TAKE A DRIVE
