Truman Sharply Attacks GOP Plan

Well... I Dunno, But...

In reading of a fine tribute paid to a man who has served in our post for 50 years we were impressed with his response. He said, "I don't deserve all of this, but I like it." And ain't that the truth. Whether we deserve it or not we like praise, and appreciation from others.

We sometimes wonder what joy, if any, "knockers" get out of life. The people that see the bad in everything and have to talk about it. We'd rather put our shoulder to the wheel and try to help a cause, even though it has some weak spots. Sometimes those weak spots can be eliminated through a little help, and a little faith. Certainly builders aren't knockers and there's considerable difference between constructive criticism and knocking.

Yes sir, we feel sorry for the knocker. They must be pretty unhappy people.

If you're expecting to buy one of the children's books being sold by the library committee in the lobby of the Gholson hotel, you'd better get busy because the sale will close Saturday. It was originally planned to run the sale through December 20 but plans have been changed and the sale will close Saturday.

Proceeds from the sale will be used to purchase children's books for the new public library.

Freezing weather Wednesday night and Thursday morning and during the morning a fine snow was falling. It's true you practically had to have your binoculars to see it, but it was sure falling.

Which reminds us! Wonder if the Stranded-In-Ranger-Texas Club will reconvene this year. At the organization meeting last year that was the plan.

And wouldn't it be fun to have a white Christmas this year.

Noticed this morning that Marshall is just about ready to quit talking to Russia. He might as well, 'cause he's not getting to first base, and a little silence might make Russia do a little thinking.

Soon as we get over the Christmas rush, we'll all have time to start framing up New Year resolutions, those things that we make, and then promptly forget and about which we rarely do anything.

About the only good that ever comes of New Year resolutions, is the fact that we have to confess to ourselves, our own shortcomings. At least we think about 'em once a year. And that we usually make the same ones every year. One that we never fail to make is to promise that we'll start early preparing for Christmas next year and be all ready when the day arrives. Just as surely as we make it, just as surely do we know that it won't be kept.

Which reminds us. A fortune teller once told us, years ago, that 1948 was to be our lucky year, the year in which we'd get rich. Bless her, we hope she's right.

Policemen on duty in Portland, Me., reports The American Magazine, are required to stand at least six feet away from any post or other structure.

Primo Cranera Accepts Short Bed But Other Stars Feel Differently

By Harman W. Nichols
United Press Staff Correspondent
CHICAGO (UP) — Primo Cranera, the hulking former boxer or turned wrestler, always has acted a little on the zany side but he's outdoing himself now that he has gone Hollywood.

Italy's break-busting gitt to the American scene admits coyly that he can't sleep a wink unless his feet (size 18) are hanging over the end of the bed, looking like a couple of hindquarters of beef.

This is interesting intelligence comes from Mrs. Rose Ginecig, who knows more about the sleeping habits of the stars than anybody else. A head of a Hollywood bedding manufacturing company, she has designed sleep-pads for most of them.

The great and want-to-be-great of flickerland, she said, want vast acres of sleeping space, unlike Cranera. It probably has something to do with the fact that nervous people are nervous sleepers.

Mrs. Ginecig got the idea several years ago when she, herself, got tired of falling out of bed every night. So she designed the king size sacks.

Burl Iver, among other actors and actresses, has one of the largest beds built. It's eight feet wide and eight feet long.

One Hollywood couple approached Mrs. Ginecig, who calls herself a

Boston To Cairo Beat Keeps This Dentist Busy

BROOKLINE, Mass. (UP) — When Dr. Isaac Gerson says he has patients waiting "in the other office," he's talking about Cairo, Egypt.

Dr. Gerson, a dentist, has divided his practice between the Egyptian capital and his Boston suburb since 1945. He and his wife, a native of Milton, have commuted the 5,000-odd miles four times in the two years and plan another trip to Cairo in January.

They met and married in 1927, when Dr. Gerson, who was born in Egypt, was winding up his studies at Harvard Dental School. For the next 18 years they lived in Cairo, raising two children who are now enrolled in Massachusetts schools.

Dr. Gerson is president of the Odontological Society in Cairo, where his list of patients includes several members of the Egyptian royal family and the Aga Khan, supreme religious head of the Moslems.

His Brookline office occupies one wing of a house which he shares with a high school principal and his family, who look after the Gerson children while the parents are abroad.

Student Loans Rising At Texas University

AUSTIN, Tex. (UP) — Student loans, like everything else at the University of Texas, are experiencing a post-war boom.

The loan committee chairman, Jack Holland, said 15 students a day now seek loans. One loan a day was the pre-war average.

High prices and tardy arrival of checks for GI enrollees are given as causes for causes for the increase.

Overall loan loss is less than one per cent. Most applications are for 90-day loans averaging \$35.

Builds His Own Church In Gratitude

COMSTOCK, Mich. (UP) — Herman Meints, celery grower, felt so thankful for the safe return of his four sons from military service a year ago that he decided to build a church.

Without previous building experience, Meints single-handedly erected a neat cement block structure, which he called the Comstock Bible Church. A congregation grew.

About 150 At Supper Honring Football Squads

About 150 attended the chili supper Tuesday night honoring Ranger's football squads and given by the Quarterback club. The supper was given at the First Baptist church at 7 o'clock.

G. B. Rush was the principal speaker and spoke on football officials, Class A football and Junior College football. A film of the Weatherford - Ranger football game was shown.

J. A. Bates, president of the Quarterback Club, was toastmaster and welcomed the football boys. Responses were made by Bob Hatch of the Bulldogs and Johnnie McClendon of the Rangers. The invocation was offered by Rev. D. C. Ham and a toast to the football players was given by Miss Jo Oyler.

Coach Warden introduced members of the A team, Coach Ailis presented members of the B team and Coach Yarbrough introduced members of the College team, and told of prospects for the coming year.

Short talks were made by Dr. G. C. Boswell and H. C. Henderson.

TWO KILLED, 2 MISSING IN TRAIN CRASH

NEW BRAUNFELS, Tex. — Fires still burned early today through the wreckage of two MKT passenger trains which collided head on late last night, killing at least two crewmen and injuring five others.

Katy officials in Dallas said at least two trainmen were missing in the jumble of overturned, flaming engines, tenders and cars.

Sheriff W. A. Scholl of Comal county called out the local National Guard company to guard tons of mail and express shipments saved from the flames. Twenty police officers also arrived to help guard the trains.

Scholl identified the dead as George W. Steinhorpe, San Antonio carman, and Jack B. Coleman, Waco fireman on one of the trains. Coleman is the brother of Odessa High School football coach Jack Coleman.

The railroad said the missing engineer R. O. Calloway and a negro porter, Will Maney.

Scholl said the wreck occurred at 11:43 p. m., yesterday when the Katie Flyer, heading north from San Antonio, plowed head on into the Katie Limited, 19 miles south of here on a virtually straightaway stretch of track.

Christian Church To Dedicate Baptistry Sunday

The First Christian Church will have their dedication services for their new baptistry Sunday. The program will be from 9:45 a. m. until 3 p. m. Patrick Henry, state secretary for missions, will bring the message Sunday morning at 11 o'clock.

Rev. Bob Mathney will bring a message in songs. At 1:30 p. m. Rev. Dick Crews, pastor of First Christian Church of Cisco, will give a talk on "Crusade for a Christian World."

All members are urged to be present and to bring a basket lunch. Lunch will be served in the annex following the morning service. Visitors are welcome.

Last Rites For Mrs. Foreman Held Wednesday

Last rites for Mrs. Karl C. Foreman of Route 3, Ranger were conducted Wednesday afternoon at 3 o'clock at the Second Baptist church with Rev. Jasper C. Masseege, pastor of the church officiating. Interment was in the Alameda cemetery with Killingsworth's in charge of arrangements.

Mrs. Foreman passed away at her home Monday, December 8. She was a native of Erath county having been born there January 5, 1900. Prior to coming to Ranger she had resided in the Alameda community for 16 years.

She is survived by her husband, Karl C. Foreman of Ranger, four sons, J. C. Foreman, Clyde Foreman, Floyd Foreman, and Kenneth Foreman, all of Ranger; two daughters, Mrs. Euster Sugar of Deademona and Miss Mary Lou Foreman of Ranger; her mother, Mrs. C. M. Rodgers of Ranger; four brothers Clyde Rodgers and Dee Rodgers of Ranger, Lee Roy Rodgers of Canton and W. Rodgers of Olden; five sisters, Mrs. C. A. Russell of Henderson, Mrs. J. L. High of Breaux Bridge, La., Mrs. J. D. Yardley of Cisco, Mrs. A. E. Rogers and Mrs. J. M. Yancy of Ranger and four grandchildren.

Funeral services were held at the home of Mrs. Foreman, 1111 N. Main, Monday, December 8, at 10 o'clock. Burial was in the Alameda cemetery.

The railroad said the missing engineer R. O. Calloway and a negro porter, Will Maney.

Scholl said the wreck occurred at 11:43 p. m., yesterday when the Katie Flyer, heading north from San Antonio, plowed head on into the Katie Limited, 19 miles south of here on a virtually straightaway stretch of track.

11 Killed In New Violence In Palestine

JERUSALEM—A fresh outbreak of violence in Palestine today killed 11 persons—five of them in a bus which was bombed at Haifa.

The new casualties included 10 Arabs and one Jew killed.

A bomb hurled at a bus in Haifa killed five Arabs and wounded 30 others.

Another bus loaded with Arabs was fired on after it entered Jerusalem on a trip from Jericho. Bullets killed one Arab outright, and when an Arab mother and son tried to aid the casualty, they, too, were shot to death. Two other Arabs died in Haifa, as Jews began to show more and more offensive combat.

The lone Jewish victim was killed by a sentry at the Lydda airport after he failed to stop when challenged.

WANTS HIS 10 POINT PROGRAM ADOPTED IN ITS ENTIRETY

WASHINGTON — President Truman took sharp exception today to the Republican proposal to combat inflation by granting industry exemption from the anti-trust law to help spread supplies of scarce materials.

At the same time he told a news conference that the price and wage control legislation would be offered to Congress by the administration within a couple of days.

The President called again for 1948-49 action on the anti-inflation program, saying that anything short of that would be inadequate to do the job.

He declined to comment directly on the whole four-point program submitted by Republican leaders in Congress yesterday, but expressed himself bitterly on any attempt to relax the anti-trust laws.

He said these laws would be enforced to the limit as long as he is president.

The President said that all 10 points of his anti-inflation program would be submitted to the Congress in the form of legislation in the very near future. So far, in getting down to cases, the administration has offered only a bill to give the government new allocation and rationing powers.

Asked about the four-point Republican substitute, the President said he had given no thought to a Republican substitute—that, as a matter of fact, he had not seen it.

Then, speaking firmly, the President said what he wants is the program he submitted to Congress in his message which opened the special session and he said he wanted it to the letter.

The Republican program was scheduled for discussion at a Senate GOP policy committee meeting today. The House banking committee also met to consider the program and was expected to approve it today or tomorrow.

O'Daniel Would Consider No. 2 Job Of Nation

WASHINGTON—Sen. W. Lee O'Daniel, D. Tex., said today that if the MacArthur-for-President boosters should happen to pass him the No. 2 spot on their slate, he would consider it.

The one-time Texas governor protested he was "not interested one iota" in the office itself. But he said he would give it serious consideration "if and when it is proven to me that the great rank and file of American citizens desire me to run."

SPORTS

BY HARRY GRAYSON
NEA Sports Editor

NEW YORK—(NEA)—Samuel Bredon left the sidewalks of New York in 1904 to sell popcorn at the St. Louis World's Fair and wound up a baseball millionaire.

The price the Robert E. Hannegan group is reported to have paid for the Cardinals, \$3,500,000, may not be far off. While the Red Birds are tenants at Sportsman's Park, the chain owns modern plants in Rochester, Columbus, Houston and Allentown, and a projected site at Grand and Chouteau Avenues, on the near south side of St. Louis. The St. Louis National League club was heavily in debt when Branch Rickey took over in 1917, and peddled stock at \$25 a share.

DURING the winter of 1919, Sam Bredon, by then a St. Louis automobile distributor, came in with an original investment of \$2000. The shrewd Bredon parlayed this into 75 per cent of the most powerful of National League franchises. He quickly bought up stock, succeeded Rickey as president in 1922.

Rickey, enthusiastic and tireless, and Bredon, the balance wheel and "no"-man, made an ideal combination.

The farm system was born of necessity. The Cardinals came close to supplying the league with players, their multiple sales being by no means a small share of the business. They won nine pennants and six world championships in 21 years.

Bredon was a constructive baseball man, but the Cardinals lost the pulse of their carburetor when Rickey moved to Brooklyn with the close of the campaign of 1942.

Bredon and Rickey broke over their daughter, Mrs. Fay Penny of Carbon; grandson, George and Mrs. Nolen, and friends, Mr. and Mrs. Cecil Cooper of Rotan.

Miss Charlene Tonn, of Carbon, and Miss Emma Lee Wilson, spent the week-end with Miss

I'm dreaming of a bright Christmas... and here are some of the ideas I've dreamed up to brighten up holiday dishes. Try them on your table... and your Christmas dinner will be a compliment-winner!

ARCTIC APPETITE-AROUSER

Make your relish tray gay by decorating it with a pearl penguin made of a hard-boiled egg. For his wings, cut a ripe olive in half lengthwise and, with toothpicks, attach one half to each side of egg. To make his head, center a whole ripe olive on a toothpick; stick one end into top of egg, and on the other end fasten a piece of raw carrot for a beak. After cutting a slice off bottom of egg, perch it on a mound of snowy cottage cheese, and surround with SULTANA OLIVES. They're the kind of relishes everyone relishes! Buy a jar at your A&P!

STAR OF THE SEASON

You'll take the Yule cake if you top off your Xmas dinner with JANE PARKER FRUIT CAKE from the A&P. Garnished with green-tinted hard sauce and holly, this rich, luscious cake is a festive favorite that's sure to click with St. Nick and all his helpers.

AS JOLLY AS HOLLY

Beets are the berries when served on a wreath of spinach and fixed like this: To liquid from a #2 can of A&P's IONA CUT BEETS, add enough water to make 1/2 cup. Combine 1 tbs. cornstarch, 3 tbs. sugar and 1/4 tsp. salt. Add beet liquid, 1/4 cup vinegar and 4 whole cloves. Boil gently about 1/4 hr. Just before serving, add beets and 2 tbs. butter. Heat thoroughly. Serves 4.

SANTA CLAUS SALAD

To turn a canned pear half into a ringer for Santa Claus, tint it with red coloring, and use cloves for eyes, half a maraschino cherry for the nose and a strip of pimiento for the mouth. With a pastry bag and fluted tube, make hair and whiskers of soft-ened cream cheese. Add a jaunty cap of pimiento topped with a ball of cream cheese, and serve with ANN PAGE MAYONNAISE from the A&P.

Texas 4-H Champions

TEXAS winners in the 1947 state 4-H Canning and Farm Safety activities, and brief outlines of their records, follow:

John Byars

Lorene Probst

Lorene Probst, 16, of Bastrop, will be one of the state's delegates to the 1947 Club Congress as a reward for having the highest rating state record in the National 4-H Canning activity this year. Her trip award is provided by the Kerr Glass Corp. During four years in club work Lorene canned 3,275 jars of vegetables, meats, fruits, jams and jellies. She won many placings on her canning exhibits, including \$37.50 in cash prizes. Lorene estimates the value of her canning project as \$760.15. She was named grand champion of exhibits at the Bastrop County Youth Fair this year.

John Byars, 15, of Lakeview, receives a Chicago Club Congress trip award from General Motors for his outstanding record in the 1947 State 4-H Farm Safety activity. John's achievements in safety work include making the home safer from fire by checking the wiring system and rebuilding defective fuses; fixing doors and the lost ladder in the barn, and taking steps to eliminate accidents with the farm tractor and truck. He serves as president of a club that holds two special meetings each year to discuss safety and has given 9 talks at various community meetings.

These activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

New Teachers Shunning Small Fry Positions

NORMAL, Ill. (UP)—Teachers with new diplomas apparently are shunning the small fry these days. The job placement director for Illinois State Normal University said the biggest shortage of teachers this year is in elementary schools. Dr. J. W. Carrington reported only 55 of the 194 new teaching from last year's graduation class went into elementary work. Not one is teaching in a rural school, he said.

YOUNGVILLE, N. Y. (UP)—Homer Wolf escaped injury and so did his car, in a collision with a large black bear. Bruin was dazed by the impact and suffered another bump when he lumbered into a fence while leaving the scene of the accident.

The money savings of families in the United States last year amounted to \$12,509,000,000.

Farm Cats Earn Keep, Survey Shows

CHICAGO (UP)—The American Foundation for Animal Health contends that the cat does more than any other farm animal to earn its keep.

The more the cat eats (assuming his diet is rich in rats and mice), the more money he earns for the farm owner, the association said. An industrious cat with a healthy appetite will return a profit of at least \$10 a year, the association reported.

Heartsease

THE DIGNITY OF PAIN

During the past fifteen years of my life, I have had occasion, almost every day, to witness suffering in all its gamut of emotion. And out of it all, I have conceived the definite knowledge that pain imparts a dignity that nothing else can give. I am a great respecter of courage... particularly courage that is gained through pain. I have seen bodily pain borne when the agonized human being had not even a place to lay his head. I have seen mental torture that the softest bed could not ease. And I am glad that I have witnessed human suffering because the insight into pain has taught me a lesson that has made my life more understandable.

There was a time when I questioned the injustices of pain: of what I thought was injustice. Have you noticed the eyes of those who suffer? The eyes have something in them that is different, indeed to those who do not suffer. And I am awestruck.

California Silk Growing Is Held As Impractical

BERKELEY, Cal. (UP)—Prof. E. O. Essig, University of California agricultural professor, takes a pessimistic view of prospects for a silk industry in California.

AGAIN we read that the old-fashioned family doctor is disappearing. Yeah—and so is the old-fashioned family.

Women are doing more flying—both away from their husbands and at them.

Judging from the advice of centenarians, the way to reach old age is to drink wine, abstain from alcohol, shun tobacco and smoke a pipe.

Some folks persist in paying rent and buying food with not a single new car in the family.

A rut is something some men spend half their time digging and the other half trying to keep out of.

fornia, even though the state may be one of the best places in the world to grow silkworms.

"The only persons who have made money from growing silkworms in California," he said, "are salesmen who unloaded land, mulberry trees and equipment on prospective silk growers."

Other crops can be grown in California with less labor and for higher prices Essig said competition from synthetics and silk from Japan and Brazil are hard for California producers to meet.

Essig reminded prospective silk producers that expensive, air-conditioned cocoons are needed and the silkworms must be fed day and night. The worms are so sensitive that cigarette smoke, a slammed door or drafts from an open window will kill them.

Anyhow, he concluded, Japan probably will produce more silk than the United States can consume.

Hospital Finds Way To Keep Nurses

ATLANTA, Ga. (UP)—It used to be that when maternity nurses at Crawford W. Long Hospital here became mothers themselves, they quit professional nursing.

Not any more. The hospital has opened a "nursery for nurses' children" as a lure to old hands who are needed to open two floors in the hospital's new maternity center.

The advantage, according to the hospital, works both ways. First it gives the mother nurse an opportunity to make a little extra money while at the same time being assured that her child is receiving the best of attention. And,

second, it helps train novice nurses by giving them a chance to care for babies who are in the best of health.

From seven in the morning until seven at night, student nurses care for babies of graduate nurses. Instead of having to finish their training at nursery hospitals outside the hospital, student nurses now can learn about healthy babies without leaving the building.

Mr. Wigg's Turnip Patch All Grief

MEMPHIS, Tenn. (UP)—Mrs. Wigg had her cabbage patch but Mr. Wigg had his turnip patch—five acres of it and trouble.

When his corn crop was ruined, Roland Wigg's planted his fields with turnips. Now he has five acres that he can't sell at a profit. Picking, shipping and marketing cost him more than the prices paid.

"They might make hog feed," Wigg said wistfully, "but hogs won't eat 'em raw."

"I'm fed up," declared Mr. Wigg of the turnip patch.

Simple Suggestion Wins Him \$2,140
 ATLANTA, Ga. (UP)—What is believed to be the largest award ever made by the armed forces to a civilian employe has been given to Paul Salvo of Atlanta. He simply suggested that the Army and Navy use the timber from its own reservations rather than buy it elsewhere.
 Salvo, a former worker for the Engineer Corps here and now a lumberman at Durham, N.C., was awarded \$2,140 for his idea, which Engineer officials in Washington estimate will save the government some \$3,578,902 in its timber purchases.
 His idea was put forward as the result of the "suggestion program" begun by the armed forces during the war.

It Won't Happen to me Again—
 ... is the unhappy confession of those customers who come to us from time to time with title problems. They had previously bought a farm or home in town without an abstract. They are now selling and wise buyers usually demand an abstract. The seller not only has to pay the bill but he has no idea what kind of a title he has. More trouble! To avoid certain disappointment and extra expense buy it next time with an abstract.

I GIVE YOU TEXAS
By Boyce House

Had a letter from the officials of the State Fair of Texas and they say next year's exposition will be bigger and better. As far

as I'm concerned, the one this year was plenty good enough. Went over there on Dress Day and it's worth going a long ways just to shake hands with the fine folks of the Fourth Estate, especially from the smaller towns and especially the ones who run the papers that publish this column.

There was also a barbecue dinner, served by the Odessa Chuck Wagon Gang. And so many things to see, as guests of the management, that I never could get around to 'em all—but I did see the S.M.U.-Missouri football game that night and "Annie, Get Your Gun" that afternoon. The star was Mary Martin, and she is a Texas gal that every Texan has a right to be proud of. She sang, she danced, she got laughs and she was the romantic interest, too. Besides that, she was a dead shot with a rifle. (That is the only thing she did that I thought might have been fixed so as to make it look like the targets were being hit; that is, I would have been a mite suspicious if she hadn't been from Texas.)

Mary Martin's a Cinderella story. She was born in the peaceful town of Weatherford where she had a school where she taught singing and dancing. Also she sang over at the Baker (or maybe it was the Crazy Hotel) in Mineral Wells. She came to Ft. Worth while Casa Manana was being presented but Billy Rose wouldn't give her a place in the show. She went to New York, and was the under-study to a star who

kindly got sick one night. That was Mary's chance; she didn't need but one. She sang "My Heart Belongs to Daddy" and became the toast of Broadway. Then came stardom on the air and on the screen.

Her appearance at Dallas was her first visit back to her old home state and the home folks cheered and cheered.

When you hear anybody say that opportunity no longer exists in America, just call the guy's attention to Mary Martin.

So, officials of the State Fair of Texas, next year's show may

have more exhibits and departments, and it may be better than the 1947 one was—but this columnist is one fellow who is going to have to be shown.

Yours, for Press Day and barbecue and football—and Mary Martin, of Texas.

Here Is A Good Food In Protein And Vitamin B1

Protein—in pork chops, beef chuck, and roasting chicken—comes at astonishingly high prices these days. However, there is a food rich in protein and Vitamin B1, and iron, and food-energy which still sells at less than a penny a serving.

So if you are aware of the importance of keeping your family well supplied in health maintaining elements, oatmeal will be your standby as a meat extender now as it was during the war years of rationing.

When your budget stipulates cutting down on meat, extend the meat you serve your family by adding protein-rich oatmeal to meat loaf, for instance—or veal patties, croquettes, or pork liver loaf. Millions of recipes have been distributed by The Quaker Oats Company for delicious ways to stretch meat by combining with oatmeal.

You'll be surprised at how much more you get from a pound of meat when it's supplemented with oatmeal. Chefs and home economists have discovered that the cereal is a taste-appealing and practical meat extender. Not only does it blend with meat and other ingredients to form a beautifully "sliceable" loaf it actually seems to give more meat. Oatmeal's bland flavor is ideal for effective-

ly absorbing meat juices and flavors in cooking, and adopting them as its own.

On a penny basis oatmeal leads all such common foods as white potatoes, beef chuck, American cheese, roasting chicken, whole milk and pork chops as an economical source of protein, Vitamin B1, iron, and food energy.

Oatmeal is generally available to all and is one of the most widely distributed food products in America. According to recent research oatmeal is available in

nearly 95 per cent of all grocery stores.

Nutritionists have stressed the importance of the difference in protein quality. Meat and eggs, for example, are said to be the most complete in amino acids. In qualitative protein studies using high quality egg protein as a standard of comparison food scientists found that the biological value of oats protein is 98 per cent that of egg protein. Actually, oatmeal contains all ten of the essential in the human dietary, amino acids known to be vitally

guests Sunday, of their parents, Mr. and Mrs. R. A. Parker and Mr. and Mrs. M. O. Hazard.

Jess Joplin of Merkel was a visitor recently in the home of his daughter, Mrs. Cecil Nelson.

Mr. and Mrs. A. E. Fox and children were guests Sunday afternoon of Mr. and Mrs. Bryant, in Eastland.

Mr. and Mrs. J. L. Little, and Mrs. Claude Biles of Eastland visited Mr. and Mrs. Winston Boles in Hamilton over the week-end. Mrs. Boles is seriously ill in a hospital in Hamilton.

Rains Slowing Peanut Harvest

Rain interrupted peanut picking in the southwestern region during

the past week as well as in the southeastern states and the Virginia-Carolina areas. All sections resumed picking as the weather cleared. From 10 to 25 per cent of the crop remained in the fields in North Texas and Oklahoma, according to reports reaching the U. S. Department of Agriculture's Production and Marketing Administration.

Southwestern crushers slowed up on purchases of farmers' stock peanuts with decline in the oil market. Most sales continued at government support levels in all producing areas.

Demand for shelled goods showed slight improvement in the southwest but remained slow east of the Mississippi River. Southwestern mills sold No. 1 Spanish at 16 1-4 and 16 1-2 cents per

pound. Peanut meal found good demand at around \$92 per ton in carlots, but oil sold lower at 26 to 26 1-2 cents per pound, basis prime crude at southwest mills.

Fleads Guilty, Judge Rules Him Innocent

GOSHEN, Ind. (UP)—Curtis Miller, 61, pleaded guilty to a charge of assault and battery, but a judge decided he was innocent.

Judge J. W. Simpson found Miller innocent after the elderly man explained why he had pushed a neighbor woman during an argument.

"I pushed her when she grabbed for a garden hose after I protested to her about her child's behavior," Miller said.

"They've been pestering and tormenting me for four years," he added.

Sailors aboard the grounded brigantine General Arnold outside Plymouth Bay in 1778 survived by pouring rum into their water-filled boots. The rum had a lower freezing point than the water that was soaking them.

The ice rings make a cooler drink say the experts, by presenting more surface to the liquid than the conventional cube. Shaping is accomplished by allowing ice to accumulate in a one-inch thickness inside pipes, slipping it out and slicing it off to desired size.

Win Texas 4-H State Awards

In recognition of their outstanding 4-H records in 1947 Leadership, Frozen Foods and Meat Animal activities, four Texas club members will receive state awards. The winners and brief outlines of their records follow:

Howard Altenhof, 18, of New Braunfels, receives a 17-jewel gold watch provided by Thomas E. Wilson, Chicago, for having the highest rating state record in the 1947 National 4-H Meat Animal awards program. His eight-year record in 4-H work shows that he handled 34 baby heaves and 253 hogs. Howard won many placings on his meat animal exhibits, including \$1,117.50 in cash prizes, which brought his estimated income from all 4-H projects to \$29,896.00. He began his steer feeding activities by first feeding fat hogs, many of which were champions. Home grown grains were used entirely except for protein feeds. Howard has exhibited 44 steers and 208 hogs in local, county, state and national shows.

Dorothy Terrell

Jackie Brock and Eloise Woodruff

Dorothy Terrell, 15, of Plainview, is Texas' top ranking participant in the 1947 National 4-H Frozen Foods activity. She receives the state award of a \$50.00 U. S. Savings Bond provided by International Harvester Co. Dorothy's projects show that this year she prepared and packaged 355 pounds and 79 pints of meats, poultry, fish, vegetables and fruits for placement in the home freezer. In addition she has held many offices in school and church organizations. Jackie completed 49 projects and won many placings on exhibits, including \$106.00, which brings the estimated value of his projects to \$19,475.00.

Eloise has been in club work for seven years. She has served as leader and president of her local club, vice president of the county, and president of the district organization. She has been awarded two trips to the State round-up, one to National 4-H Camp, and a trip to National 4-H Club Congress in Chicago. Estimated value of all of Eloise's projects is \$5,086.00. She has also been active in other community activities.

All of these activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

Song service was conducted by Arthur Wright with Miss Furr as pianist. An interesting Bible quiz was conducted at the beginning of the service by Rufus Brien. Prayers were offered by S. E. Carter and Earl Marsh.

Mrs. Rufus Brien read the program for the BTU for next Sunday evening after which Bro. Lee Fields will deliver a sermon.

Plan Medical Passports For Soviet Children

MOSCOW (UP) — Moscow maternity clinics have instituted a system of "medical passports" to trace the medical history of children from birth to their first school years.

The maternity clinic will make the first entries, recording the child's weight and health at birth. Thereafter entries will be made by the children's consultation clinics, day nurseries where many children are left while their mothers work, and the kindergartens.

Thereafter the passports will give way to the regular system of school health records.

Late Enemies To Hear Singing Commercials

CLEVELAND (UP) — The conquered German and Japanese radio listeners are going to get some of their lessons in democracy by singing "commercials."

That was revealed here by Richard Pack, special events director of station WNEW in New York. He said the station is translating into German and Japanese its "little songs about big things" which extol the virtues of tolerance and democracy. The transcriptions, he said, will be made available to the War Department for broadcast over the foreign stations.

The National Fire Protection year in—the United States there Association estimates that last were 608,000 fires, causing damage of about \$580,000,000.

Plea Goes On Air

EMFORIA, Kan. (UP) — Emerald L. Moon believes in the power of radio and the charm of music. Moon, who lives in Los Angeles, asked an Emporia radio station to play a request number for him. His wife was visiting in Emporia and his efforts to persuade her to return home had failed. So Moon asked the local disc jockey, "Won't you please play 'Aincha' Ever Coming Back?' or any other song giving my wife the same idea?"

The request was granted.
