WASHINGTON COLUMN
New Report Gives Finger-Tip Picture of U. S. Business

WASHINGTON—(NEA)—A quick picture of U. S. business conditions is revealed in a new series of some 30 charts and supporting statistical tables prepared by the President's Council of Economic Advisors. First of the series, ready April 1, will be issued under the title, "Economic Indicators."

WHAT the first set of charts reveals factually and without interpretation is a still expanding economy. Consumer prices—the cost of living index—are still going up, though wholesale prices leveled off in February.

Personal income of individuals is approaching an all-time high of \$210,000,000,000. Installment buying, charge accounts and other consumer credits have risen above \$13,000,000,000. This is 50 per cent above a year ago, a third greater than prewar.

Industrial production has been rising since January, 1947, to an index number above 190, as compared with 100 in 1939 and 247 in November, 1943. Construction continues its usual winter decline, but is higher than mid-summer, 1946.

Other charts cover production in various industries, expenditures for new plants and equipment, strikes and lockouts, bank deposits, purchasing power, corporate profits, consumer income and spending, savings, average earnings, stock prices, cash farm income, prices received and paid by farmers and the parity ratio.

Circulation of "Economic Indicators" is being held down to 100 copies because Council of Economic Advisors has no money to go into the publishing business. In spite of the limited edition, this is not the most exclusive of the government's publications. That honor is reserved for a series of hand-made, colored charts called "The Budget in Operation." Only six copies of this work are in existence.

THE President keeps copy number one in his top desk drawer. This is the book which Mr. Truman held up for reporters to see at a recent press conference when he wanted to show how the cost of living had been rising steadily since the end of the war.

Other copies are held by Budget Director James E. Webb, Nourse, Treasury Secretary Snyder, Acting Chairman Marriner S. Eccles of Federal Reserve Board.

The sixth copy is a "floater." Charts in the book are revised monthly. While one copy is being brought up to date the floater is substituted as no holder will ever be without his book.

"The Budget in Operation" was originally prepared by Bureau of the Budget to deal with government finances only. Then a few charts on general business conditions were included. Then Budget Bureau began duplicating a cheap reprint of the general economic charts for wider circulation.

Yanks Reluctant to Give Up, But Fear Keller Is Finished

BY HARRY GRAYSON
NEA Sports Editor

ST. PETERSBURG, Fla.—(NEA)—Reluctant as they are to give up on him, the Yankees fear that the spinal ailment which put Charlie Keller in the hospital last summer has definitely cut down the renowned slugger at the very peak of his career.

While King Kong Keller, one of the more fearsome lefthand hitters, stuck out with the New York Americans for nine seasons, he is only 29.

Keller was treated surgically for a disc, which is a cup or washer, at the base of the spine. The Maryland alumnus had to wear a brace for several months. His muscles softened.

But Keller is still hesitant about opening up, afraid something will snap.

"I'd love to say Charlie was coming along," said one of the older Yankees, "but I'm afraid he won't make it. He tried to break from the pliffe the other afternoon, and you would have done it quicker." It was pitiable. His spinal trouble has affected his swing, too. It looks like the old Keller swing, but all he has in it is his arms. There's nothing behind it. He hits the ball, and nothing happens.

"Keller's running is about 80 per cent normal," explains Bucky Harris. "He asked me to let him play April 1, and we will know more about him, and see what happens then. Charlie is perfectly all right physically now for everything but something like playing major league baseball."

KELLER suffered chronic back trouble for three years after he returned from service in the Merchant Marine. Any sort of severe strain could have caused the injury.

The five-foot 10-inch, 185-pounder of Frederick, Md., had to quit early last June when it became too painful to run.

He was batting no more than .238, but his tremendous value to the club in 45 games was stressed by his identical hits, runs and runs-batted-in totals of 26, and a total base figure of 82. Charlie was good to the last step, still pasting the long ball when it counted.

With Keller out of it, the outfield will be composed of the set that swept the Yanks to 19 straight victories, the pennant and world championship in 1947—Lindell, DiMaggio and Henrich—with six-foot three-inch, 195-pound Cliff Mapes possibly alternating with Lindell in left field against right-hand pitching.

The Yankees reared on without him last season, and there are capable replacements, but it's tragic to see such a fine figure as Charlie Keller bow out when there should be so much good baseball left in him because of a physical ailment that leaves him perfectly able to do anything but the one thing he does best.

But that's life—and baseball.

THE STORY: Patience Mond goes to London three times a week to attend dressmaking school. It is the only freedom allowed her by the two old-fashioned aunts who have brought her up and with whom she lives in the country.

HER aunt's eyes were hard and angry. "I'm not interested in whether you consider him nice. You know, Patience, how very strongly your Aunt Alice and I feel about that sort of thing. That you should have formed a friendship with a young man—someone we don't even know—"

It was the next time she came back from her day at the academy that she walked into the sitting room and realized instantly that something had happened. Her aunts were obviously waiting for her. The expression on their faces turned her heart to water.

And then her resentment died away. She remembered how good both her aunts had been to her. How they'd stunted themselves in order to educate her; to feed and clothe her. How they were now going without things in order to pay her fees at the dressmaking academy.

"I'm waiting for your promise, Patience," said her Aunt Helen.

"Patience dear," interposed her Aunt Alice gently, "I think you should understand that it is for your own good your Aunt Helen is asking you to make this promise."

Patience swung round to her. "But why? Aunt Alice, can't you see that it is asking too much of me? There's no harm in my seeing him. In our being friends. He—I—oh, Aunt Alice, I thought perhaps you might understand!"

Patience said miserably: "Very well, Aunt Helen, if you insist I give you my promise." And then she turned and stumbled blindly from the room.

Economy Oven Menu

Just one and one-half cups of ground meat serves six in two-in-one biscuits. The entire menu can be baked in the oven.

Economy in meal planning means attention to small details—like using leftovers, purchasing of seasonal foods, getting the most for your money whenever a food item is added to the market basket.

This menu has been planned to help you make a good start on the spring budget—and still please the family with food that looks and tastes good.

Two-In-One biscuits make excellent use of a cup or so of left-over meat or of fresh ground meat, always less expensive because it does not need to be tender. Enriched flour in the biscuits gives more for your money because it contains added B-vitamins and iron at no additional cost.

Tomatoes and asparagus are foods that spring makes inexpensive, yet they provide just the right color touch.

A saving in time is accomplished by using the oven for the entire menu. Yes, asparagus and tomatoes can be baked, and you'll find that color is retained when a moderately hot oven is used. Place the asparagus in a flat, shallow pan with just enough water to cover the bottom of the pan. Season to taste and bake uncovered until tender, turning the spears just once. The tomatoes are cut in half, brushed with melted butter or margarine and heated until they bubble.

Two-In-One Biscuits

1 cup sifted enriched flour
1/2 teaspoon salt
1/4 teaspoon baking powder
1 to 2 tablespoons shortening

2/3 cup milk
1 1/2 cups ground meat (may be either cooked or uncooked)
Salt and pepper to taste.

Sift together flour, salt and baking powder. Cut or rub in shortening. Add milk to make a very soft batter. Fill greased muffin pans one-third full with seasoned meat. Pour batter on top of meat, filling pan two-thirds full. Bake in a moderately hot oven (400 degrees F.) 30 to 40 minutes. Remove from pans. Turn upside down and serve with grilled tomatoes.

Yield: Six three-inch biscuits.

"We believe this program will be an incentive for farmers to begin improvements now by adopting an efficient and carefully made plan."

The contest will run on a July to July basis for three years with yearly awards. The first contest closes July 1, 1948, and entries must be made by April 30. Basis for the first year's judging will be on work done for farmstead improvement between July 1, 1947, and July 1, 1948. Awards will be made in September following final judging.

Mack said a farmer must derive most of his income from farming to be eligible to enter.

The improvement programs will be held on a county basis in each state and merchandise prizes in keeping with the farmstead improvement will be awarded. Selection of the winning entry in each state will be made by a special judging committee picked by each state's improvement committee. A prize in merchandise equivalent to approximately \$1,000 will be awarded the state winners.

Judging on improvements to the farmstead will be made on six general points which were agreed upon by representatives of the five states. They are:

1. Plans, drawings, and pictures of proposed improvements.
2. Efficiency and usefulness in arrangement of the farmstead.
3. Improvement of dwellings.
4. Improvement of other farm buildings such as barns and hog houses.
5. Attractiveness and livability of the farmstead.
6. Maintenance and upkeep of the farmstead.

Says Colleges Would Share In UMT Program

LUBBOCK, Tex. (UP)—College facilities will be utilized to an unprecedented degree if universal military training or other forms of intensive training of young men for military service is authorized by Congress, it has been predicted by Dr. W. M. Whyburn, president of Texas Technological College.

The president devoted much of his time during the last war to service as adviser to the War Department on various scientific, technical and training problems.

"Of various methods used in training men during World War II," he observed, "those which made full use of established college courses, facilities and faculties proved most effective. I use this experience of the armed forces as the basis for my prediction of full and expanded facilities in colleges for use in all future military training programs."

Atomic Trade Mark Rush About Over

WASHINGTON (UP)—Bombardment of the trade mark office has virtually ceased. Department of Commerce officials report.

Desegued since Hiroshima with applications requesting registration of trade marks using the word "atomic," the barred officials said they were glad the demands had "run their course."

Of 180 "atomic" applications, 54 have been registered, ranging from toys to medicines and horse-shoes.

Officials said "atomic" applications were the most popular and confusing in their memory but added that "Shangri-la" did well and "Flying Saucers" hit their applications records soon after they were headlined.

German Boy Asks Band To Send Him Cowboy Suit

ABILENE, Tex. (UP)—A letter addressed to "The Cowboy Band, State Texas, North America," has been received by Marion B. McClure, director of the Hardin-Simmons musicians. The letter came from Elberstrasse, Germany, and was written by a 12-year-old boy, Wolfgang Dauner.

Young Dauner "begs my worthy friends to send me a cowboy suit." McClure said he did not know how Wolfgang had learned about the cowboy band.

The request for a cowboy suit was written in German, necessitating a translation of the letter by Dr. Otto O. Watts, head of the chemistry department of the University.

The letter follows: Dear Cowboy, It has been my wish for a long time to be a cowboy. As there has been no possibility for me to come to America, I beg my worthy friends to send me a cowboy suit. I would be thankful to you for it. I am now 12 years old. If I had an opportunity I would in the next week become a cowboy in Texas or Mexico.

Charges Against Krupp Works Heads Dropped

NUERNBERG, Apr. 5 (UP)—A United States war crimes court today dropped the charges of conspiracy to wage war against 12 directors of the Krupp Works, makers of German arms for 133 years.

After they had been on trial for nearly four months, the court suddenly announced the partial clearing of Alfred Krupp, head of the family dynasty since 1943, and his 11 fellow defendants.

The only charges left against them were those of abuse of slave labor in Krupp factories and spoliation of industrial plants in the European nations overrun by the Nazis.

Justice H. C. Anderson of Jackson, Tenn., the presiding justice, made the wholly unexpected announcement regarding the changes early this afternoon.

The charges were that the Krupp directors criminally helped wage aggressive war, and conspired to commit crimes against peace and humanity by aggressive war measures.

"There is insufficient evidence to sustain conviction on these counts," Anderson announced.

GOVERNOR BIDS "GOD-SPEED" TO SAFETY TOUR OF TEXAS MOTOR TRANSPORTATION ASSOCIATION

Pointing out that if all Texans observed "Courtesy and Safety" on the highways, Governor Beauford H. Jester tells Erwin Zunker, "Driver of the Month," that the accident frequency could be slashed in half. The picture was taken in Austin as the Texas Motor Transportation Association started a statewide safety tour to visit 65 cities. The safety exhibit consists of a truck-trailer combination containing equipment on which drivers will be given free tests in each city visited. Public demonstrations will be held, and the message of safety carried to many thousands of Texans in a practical way. The Department of Public Safety is cooperating with the transportation association on the safety tour.

ORDER TO CALL OFF STRIKE IS ACCEPTED

WASHINGTON, Apr. 5 (UP)—John L. Lewis today accepted service of a federal court order directing him to call off the 22-day soft coal strike.

But Lewis gave no indication whether he intends to recognize the order. He maintains that he did nothing to induce the walk-out.

Virtually all of the 400,000 miners were remaining away from work despite the court order which was issued Saturday night.

"O. K. boys, he accepted it at 11:22," two U. S. marshals told reporters as they emerged from the elevator in the United Mine Workers office building.

The marshals, H. B. McCauley and Michael Colasanto, told reporters that Lewis "had smiled and 'Thank you, gentlemen' when they handed him a copy of the order."

Reporters earlier had asked Lewis as he walked to his office, but he had no comment on anything.

Assistant Secretary of Commerce David K. Bruce said, meanwhile, that steel production this week will drop to 75 per cent of capacity, or less, unless coal miners go back to work.

East Texas State College Planning Expansion Program

COMMERCE, Tex. (UP)—President James Gee of East Texas State Teachers' College has announced plans for an immediate expansion program at the school.

The building program, scheduled to proceed simultaneously with construction of a student union building, a cafeteria and 10 dormitory - apartment units for veterans, will include a dormitory for agricultural students conducting projects on the East Texas State experimental farm.

Troops Bring Some Order To Alexandria

CAIRO, Apr. 5 (UP)—Egyptian troops armed with orders to shoot on sight brought some measure of order to Alexandria late today after hours of wild rioting in which an estimated 20 persons were killed and hundreds were injured.

Premier Pasha flew to Alexandria to take personal charge of the efforts to put down the bloodshed and destruction. He directed army forces charged with restoring order to shoot on sight anyone who disobeyed orders or behaved in a suspicious manner.

Thousands of persons demonstrated and rioted in support of a complete walkout of the police force in Egypt's second city.

A nationwide strike of police was called to back up demands for higher pay. Alexandria was the heaviest sufferer in a country-wide rash of manifestations.

The Egyptian army went into action at Alexandria. It wheeled out tanks and armored vehicles, and fired broadsides into the frenzied masses of rioters who rampaged throughout the city.

due to this functional "middle-age" cause?

Are you between the ages 30 and 50 and going through that trying functional "middle-age" period peculiar to women? Does this make you suffer from hot flashes, feel clumsy, so nervous, irritable, weak? Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms! It's famous for trial.

Many wise "middle-age" women take Pinkham's Compound regularly to help build up resistance against this distress.

Pinkham's Compound contains no opiates—no habit-forming drugs. It helps nature (you know what we mean!). This great medicine also has what Doctors call a stomachic tonic effect.

NOTE: Do you may prefer LYDIA E. PINKHAM'S TABLETS with added iron.

Mrs. Rockefeller Dies In New York

NEW YORK, Apr. 5 (UP)—Mrs. John D. Rockefeller, Jr., whose marriage to the son of the oil billionaire in 1901 united two of the world's great fortunes, died of a heart attack today in her duplex apartment on Park Avenue.

She was 73. Before her marriage she was Abby Grege Aldrich.

Capt. Victor Pedersen, known as the "Flying Padre" of the Salvation Army, uses an airplane, a folding bicycle and a canoe to carry the Gospel to outlying districts in northern Australia.

The only charges left against them were those of abuse of slave labor in Krupp factories and spoliation of industrial plants in the European nations overrun by the Nazis.

Justice H. C. Anderson of Jackson, Tenn., the presiding justice, made the wholly unexpected announcement regarding the charges early this afternoon.

The charges were that the Krupp directors criminally helped aggressive war, and conspired to commit crimes against peace and humanity by aggressive war measures.

"There is insufficient evidence to sustain conviction on these counts," Anderson announced.

GOVERNOR BIDS "GOD-SPEED" TO SAFETY TOUR OF TEXAS MOTOR TRANSPORTATION ASSOCIATION

Pointing out that if all Texans observed "Courtesy and Safety" on the highways, Governor Beauford H. Jester tells Erwin Zunker, "Driver of the Month," that the accident frequency could be slashed in half. The picture was taken in Austin as the Texas Motor Transportation Association started a statewide safety tour to visit 65 cities. The safety exhibit consists of a truck-trailer combination containing equipment on which drivers will be given free tests in each city visited. Public demonstrations will be held, and the message of safety carried to many thousands of Texans in a practical way. The Department of Public Safety is cooperating with the transportation association on the safety tour.

'Utterly False'

'Utterly false' was Carrolle Drake Faulkner's answer to her husband's charges that Joe Louis, heavyweight boxing champion, stole her affections. The charges were contained in a \$500,000 alienation of affections suit, filed against Louis in Chicago by the 26-year-old model's husband, Rev. Matthew Faulkner, an Atlanta, Ga., Baptist minister. Mrs. Faulkner is shown in New York with her youngest son, Oran, 3.

Charges Against Krupp Works Heads Dropped

NUERNBERG, Apr. 5 (UP)—A United States war crimes court today dropped the charges of conspiracy to wage war against 12 directors of the Krupp Works, makers of German arms for 133 years.

After they had been on trial for nearly four months, the court suddenly announced the partial clearing of Alfred Krupp, head of the family dynasty since 1943, and his 11 fellow defendants.

The charges were that the Krupp directors criminally helped aggressive war, and conspired to commit crimes against peace and humanity by aggressive war measures.

"There is insufficient evidence to sustain conviction on these counts," Anderson announced.

Troops Bring Some Order To Alexandria

CAIRO, Apr. 5 (UP)—Egyptian troops armed with orders to shoot on sight brought some measure of order to Alexandria late today after hours of wild rioting in which an estimated 20 persons were killed and hundreds were injured.

Premier Pasha flew to Alexandria to take personal charge of the efforts to put down the bloodshed and destruction. He directed army forces charged with restoring order to shoot on sight anyone who disobeyed orders or behaved in a suspicious manner.

Thousands of persons demonstrated and rioted in support of a complete walkout of the police force in Egypt's second city.

A nationwide strike of police was called to back up demands for higher pay. Alexandria was the heaviest sufferer in a country-wide rash of manifestations.

The Egyptian army went into action at Alexandria. It wheeled out tanks and armored vehicles, and fired broadsides into the frenzied masses of rioters who rampaged throughout the city.

WASHINGTON COLUMN

Costa Rican Revolt Takes Back Seat to Other Crises

BY PETER EDSON
NEA Washington Correspondent

WASHINGTON—(NEA)—In the larger world crises caused by Soviet Russian aggression against Western Europe, the Middle East and Eastern Asia, the little, two-bit revolution in Costa Rica—just up the Central American isthmus from Panama—has been pretty generally ignored. There is a tendency to laugh it off as just another Latin-American comic opera upheaval. But there are some new Communist twists to this Costa Rican affair, according to reports available in Washington.

U. S. Ambassador Nathaniel P. Davis has something extra special to watch in the Costa Rican capital of San Jose. For if the pattern of the Costa Rican election revolt spreads to other Latin-American republics, there may be trouble ahead. The trouble began last Feb. 8 after the four-year presidential election. Winner in that election was Otilio Ulate, a newspaper publisher. He ran as the candidate of four opposition parties joined as a National Unionist coalition.

Opposing him was Dr. Rafael Calderon Guardia. He has been president in 1940-44. But since a president can't succeed himself in Costa Rica, Calderon Guardia had dropped out for four years. In 1944 he was running for second term as candidate of the government National Republican party.

THIS National Republican party had first come into power on a platform of reform. It had instituted an advanced labor code. And it had the support of the left-wingers and the Communists, organized into the Popular Front. The combination of Republicans and Popular Front had only five seats in the Costa Rican Congress, that has been enough to give the Republicans a majority and keep them in power.

There had been charges of graft against this combination. In the February elections Ulate defeated Calderon Guardia by 10,000 votes—roughly 55,000 to 45,000.

Dr. Calderon Guardia at first declared that the national election had been honest and conceded his defeat. Several days later he changed his mind. The general belief is that the Popular Front, alarmed at the prospect of losing its power, egged him on.

On Feb. 11 Calderon Guardia charged fraud in the election and tried to seize the government. He was stopped by government troops. The National Election Tribunal—corresponding to the U. S. electoral college—met on Feb. 28 and declared Ulate had been elected President. Three days later the Congress met. The combination of Republicans and Popular Front held a majority. They voted to annul Ulate's election and called for a new election in April.

LEADING citizens, political neutrals, tried to effect a compromise. Ambassador Victor Manuel Sanabria, Catholic Archbishop of San Jose, took a prominent part in these negotiations. National Republicans and National Unionists seemed agreeable to a compromise settlement that would have called for a new election. But the Popular Front kept things stirred up.

On the day after Congress annulled the election, Ulate was found hiding in San Jose. He was seized and thrown into jail without a warrant. That brought on the fight.

Ulate was released after one night in jail, at the intercession of Archbishop Sanabria. With Col. Jose Figueres, a leader in the National Unionist party, Ulate left town. The two are now reported to have set up a secret headquarters in Southeastern Costa Rica, near the Panama border, and are working to "liberate" their country.

In the early stages of this unrest U. S. Ambassador Davis used his good offices to avoid bloodshed and to aid the Archbishop in finding a peaceful settlement. But the Ambassador has now been instructed to keep out and to let the Costa Ricans settle it alone.

The Danger Of Greediness

Daily Chores Go On As House Is Moved

WAREHAM, Mass. (UP)—Ernest W. Briggs, house mover, is one of those practical New Englanders who believes nothing should interrupt daily chores.

So when the John W. Todd family asked him to move their house to a new location, Briggs decided to maintain their daily regime during the moving operation.

Though the house actually would be relocated only 90 feet from its original position, a 500-foot trip was involved because the new site was on a higher level.

Finally Briggs hitched up a long cable and a hose that solved the primary problems of electricity and water.

When moving day came, Mrs. Todd was able to use her various electrical appliances, including a washing machine, and finish her household duties in time to wave from the kitchen window to neighbors as the house moved slowly down the street.

McCarthy Is Tight-Lipped When Handing Out Tips

BY HARRY GRAYSON
NEA Sports Editor

SARASOTA, Fla.—(NEA)—The many Boston and New England baseball writers find in Joe McCarthy just what they expected. Consequently, they ask the new old manager of the Red Sox mighty few pertinent questions.

What's the use? Moose Joe won't tell them anything of importance about the Sox anyway. Maybe the obvious, such as switching Johnny Pesky from shortstop to third base in favor of Junior Stephens, and making the Oregon Special like it, in a nice sort of way.

One of the secrets of McCarthy's sustained success down through the years has been his intimate knowledge of opposing clubs.

Realizing the value of this, the winningest manager of them all is hesitant as a clam about tipping anybody off to whatever frailties may exist at the moment in his own organization. That's for the enemy to find out, and McCarthy's ballplayers quickly become as close-mouthed as the head man. "See the boss," soon becomes the stock reply to queries made to the big Joe.

McCarthy takes the firm position that his job is to win games, not that of a public relations counsel. There never was a more thorough baseball man, and the master of detail studies the opposition almost as closely as he does his own outfit.

THE Buffalo Irishman assigns trusted and observing lieutenant to the opponent coming up, and at the start of each day knows the exact condition of the club his team is playing.

The opponents' most formidable pinch-hitter might be off his feed, which could be the cue for strategist McCarthy to relieve with a left-hander or vice versa.

The opposing catcher could have a sore arm. The Boston Americans would be a base-running aggregation that afternoon or evening.

The Red Sox, under Joe Cronin, in the 1946 World Series, for example, discovered too late that young Joe Garagiola of the Cardinals could not throw to the bases accurately and on time.

At least one baseball man down here suspects McCarthy made his first mistake with the Red Sox when he transferred Pesky to third base. He predicts that Vernon Stephens and Pesky will reverse positions by June 1.

This pundit points to the fact that Pesky and Bobby Doerr know each other like Abbott and Costello, excelled as a double play combination for three campaigns, in a World Series and an All-Star game.

But this old-timer isn't one to second-guess McCarthy, especially when the builder of champions is so well acquainted with the chatters in question. As Joe McCarthy says, let's let him worry about that.

Eastland County Towns & Communities

Editor's Note—The following is taken from the forthcoming book, "History of Eastland County," by Ed T. Cox.

CARBON Continued
In 1896 the name and location were changed and Nash Creek became Kokomo which name it retains. The district voted the twenty cent tax early and has increased the rate at intervals until it now has a rate of 75 cents per hundred dollars valuation.

A new building was erected in 1917 when sixteen hundred dollars in bonds were issued for the purpose. Its highest point in advancement was probably attained in 1937 when it was an elementary high school of nine grades. At that time animal husbandry was taught and considerable interest was aroused in better livestock, especially dairy cattle.

LINE was school 5-C in 1883-84 but had been recognized as such in 1878. The school house was situated on what was known as the Slough Place but that part of it is now owned by a Mr. Stanfield and but little remains to mark the spot where it stood. The school house continued to function until 1889-90. In 1889 it had 8 pupils. The neighborhood was known as Sabanno and the school house was sometimes called by that name.

A school taught in this neighborhood in 1874 by N. C. Smith may have been at a picket house on the Tom Marsh place.

OAK GROVE was number two in District 13 in 1896 and had 38 pupils. Located about 4 miles south-west of Carbon, it continued to operate until 1931 when it became a part of the Carbon School System under the provisions of the high school law. It had voted a 75 cent tax in 1924.

ROGERS was on the County Rolls as a school in 1879 and at that time was housed by one of picket construction. In 1884 the district received money from the State School fund for building purposes and marked the passage from the one constructed of pickets to one of "Plank." Rogers became a part of the Bear Springs Consolidated School in 1902 and the old school house was sold in 1903 the proceeds from the sale of the old going to help pay for the new.

Bear Springs, Jewel and Oak Grove were grouped with Carbon under provisions of the High School law in 1931. The first teacher whose name is found on the records is that of L. W. Duffer in 1880-81. Keyed TO BETTER LIVING... Electric Refrigeration

• With food prices what they are, there's never been a time when dependable food preservation was more important than right now.

Left-over meats and vegetables have taken on new values. Quantity buying of groceries and meats on special days when prices are lowest means more to the family budget than ever before.

New electric refrigerators provide the most in dependable, economical food protection. Department stores, furniture stores and electrical appliance stores all sell electric refrigerators which are keyed to Better Living.
