No. 190

Ranger is the center of the agriculture and livestock industries of the area with relative industries bringing much business to the town. It is also the home of Ranger Junior College, one of the best public junior colleges in the state.

Winter's Worst Storm Losing Grip On Texas

COMMUNICATIONS HARDEST HIT IN HISTORY OF PHONE COMPANY

BY UNITED PRESS

A three-day paralyzing ice storm that has isolated nine communities, closed schools and brought highway and bus traffic to a near halt was ebbing today.

The communications crippling ice storm was described by Southwestern Bell Telephone Co., Wednesday as one of the worst in its history. The utility estimated damages at \$300,000.

The company had 450 trouble shooters working to restore service. It reported 900 circuits were out 2,000 poles down, and 8,600 wires broken.

Two radio telephone sets were taken to the hard-hit Abilene-Lubbock area to bridge gaps in lines.

At least six persons have died as a result of the storm and a light plane enroute from Big Lake, Tex., to Tulsa, Okla., was missing. Civil Air Patrol planes stood by at Dallas awaiting a break in the weather that would permit them to search for the missing craft which had one man aboard.

Communications trouble interrupted service of numerous newspapers and radio stations, including Sweetwater, Breckenridge, Ranger, Eastland, Coleman, Pecos, Lubbock, Lamesa and Hamilton.

Sweetwater's only outside link was an underground cable. All Sweetwater hotels were packed with stranded travelers who waited for the storm to break. One hotel reported it had guests from 44 states.

The telephone company said it was improbable that communications would be restored in the Lubbock-Sweetwater region before "several days."

A freezing rain fell at 3:30 P. M. at Lubbock. A light rain was reported at Corpus Christi, Waco, and Brownsville. Brownsville, which had basked in summer-like weather earlier this week, reported a chilly 49 degrees.

Wichita Falls and surrounding towns closed schools, and city buses and taxicabs operated the best they could.

INDIANAPOLIS, Jan. 13 (UP)—The 10th Air Force sent a domestic emergency team to Lincoln, Neb., Wednesday and alerted rescue units in nine states, including Texas, for possible flights over snowbound Nebraska communities.

The alert was issued at the order of Lt. Gen. Curtis Lemay of the Strategic Air Command, after Nebraska Gov. Val Peterson requested aid in dropping supplies.

Planes flew from Stout Field, here, Headquarters of the 10th A. F., with an emergency team in charge of Lt. Col. Joe M. McNay. Headquarters said it had alerted two air-sea units from El Paso, Texas, and Selfridge Field, Mich., and 10th A. F. units from Fort Riley, Kas., Austin, Texas, Denver, Colo., Omaha, Neb., Sioux City, Ia., Minneapolis, Minn., Chicago, Kansas City and Fort Leavenworth, Kas.

"Infantile paralysis is certain to strike again next summer," the governor said, "and adequate resources must be available to meet its menace."

The sand hills region in Nebraska is devoted chiefly to cattle raising.

Issues March Of Dimes Proclamation

AUSTIN, Tex., Jan. 13 (UP)—Gov. Beauford Jester today proclaimed Jan. 14-31 as the dates for a March of Dimes appeal in Texas.

"Infantile paralysis is certain to strike again next summer," the governor said, "and adequate resources must be available to meet its menace."

The sand hills region in Nebraska is devoted chiefly to cattle raising.

The annual March of Dimes campaign will officially get under way tomorrow, January 14, throughout the nation.

Joe Collins, Eastland county chairman, is hoping for a total contribution of \$5,500—or over twice as much as last year. A high quota of cases in the county last year necessitated the borrowing of \$1,550 from the National Foundation. This sum must be repaid this year.

Eight county cases were treated in 1948 and a little over \$4,000 was spent on hospital bills and special medical equipment.

The county drives are held in conjunction with the state-wide campaigns. Texas' share in the 1949 drive is \$1,250,000 thus placing a heavy burden on county organizations.

The largest March of Dimes campaign to date netted the National Foundation about \$18,000,000. But this year to meet the financial emergency brought about by two nation wide epidemics in three years the quota has been upped to \$30,000,000.

During the past three years two polio epidemics have swept Texas. After the state was recovering from the damaging epidemic of 1946, new disaster struck in 1948. The epidemic first attacked the Rio Grande Valley—spread east

along the Gulf coast then north and west, sparing no region. By December 4 Texas had suffered 1,725 cases and 1948 was recorded as the worst polio year in the history of the state. Despite heroic help from local chapters outside help was needed. The National Foundation placed all resources at the disposal of Texas. Finally the epidemic was brought under control. Through its Epidemic Aid Reserve Fund the National Foundation sent to Texas Chapters, \$520,561.42.

The demands on the emergency fund during 1948 have exhausted that reserve. More than \$6,000,000 has been advanced to local chapters in 42 states. Presently this funds is two and a half million dollars in debt. Officials are hoping for a record breaking 1949 campaign to replenish the exhausted fund.

An encouraging note remarked Collins is that over \$500 has already been raised in Eastland alone. During the entire 1948 campaign but \$281 was raised locally. The entire county was able to contribute \$2,137.56 last year.

Numerous benefit events are being arranged in respective towns in Eastland County. Locally, a dance will be held at the American Legion Hall, January 26.

Annual Meeting Of Loan Ass'n Held Tuesday

The annual meeting of the directors and stockholder of the First Federal Savings and Loan Association of Ranger was held Tuesday night at 7 o'clock at the Paramount Coffee Shop.

A. J. Ratliff, president presided at the business session, following a dinner, and in which the annual report of the finances of the association was given.

E. P. Brasher Sr., and J. T. Harness were elected to the directorate of the association, their terms having expired at Tuesday's meeting.

Officers of the association are Ratliff, President; L. R. Pearson, vice-president; F. P. Braiser, vice-president; C. E. May Sr., secretary and treasurer and two more directors, H. P. Earnest and C. B. Pruet.

The association at present holds \$100,063.77 in first mortgage loans and total assets of the association are "106,477.02."

Those attending the meeting Tuesday night were Ratliff, May, Earnest, Harness, J. E. Matthews, Pearson, Brasher, Dr. G. C. Boswell, Pruet, E. T. Eubank, and Joe Denni.

Father McClain Returns To Radio To Help Church

The radio and Father James McClain will be doing business again when the Episcopal priest will take to the air lanes again as an announcer for a shortening program.

Father McClain bid farewell to a 50,000 a year radio job in 1944 to devote his full attention to religion.

Formerly Dr. I. Q. on the radio he was assigned in July 1947 to the Eastland and Breckenridge church. But an urgent need for funds to pay off a \$12,000 church indebtedness necessitated his return to the air waves.

He will make a series of transcribed broadcasts starting January 31. All money earned will be used to pay building costs for the Episcopal Church here in Eastland.

Non-Firer Fired

BOSTON (UP)—Frederick W. Cook, 75, boasts that during 27 years as secretary of state he has never fired an employee. Yet in the election Massachusetts voters "fired" him, electing his youthful Democratic opponent.

Trio Return From Relative's Rites

Mr. and Mrs. George Robinson and Mrs. O. R. Gafner have returned from Waco where they attended funeral services for the sister of the woman, Mrs. E. M. Schneider.

Hongkong Declares Ban On Japanese Pedicabs

HONGKONG (UP)—Some 600 pedicabs have been ordered off the streets in the first move to mechanize pedally-operated vehicles.

The pedicabs—known variously throughout the Far East as tri-shaws and trycycles—are three-wheeled affairs which the operator propels like a bicycle, carrying two passengers seated side by side. They are a Japanese innovation.

The police department also plans gradually to remove rickshaws, replacing the traditional "ricepower" vehicles with gasoline-powered motor scooters.

Oldster Prefers Bicycle

DURANGO, Colo. (UP)—This year marked a third of a century that 65-year-old Billy Heard of Durango has spent bicycling around Colorado's mountains and valleys. This year Billy traveled from Durango down into New Mexico and back, a round trip of more than 250 miles.

Tacoma, Wash., has the cheapest electrical power of any city of comparable size in the United States.

'I'M SORRY I SHOT YOU'

From his hospital bed in Chicago, Policeman Rudolph Loula, 28, identifies 19-year-old Raymond R. Polenik, Jr., (wearing hat) as the man who wounded him and killed his partner, Policeman Jerry Lebloch in a Chicago suburb. Police and court officials stand alongside the bed. After signing a confession, Polenik told Loula, "I'm sorry I shot you." (NEA Telephoto.)

WTCC BACKS DIVERSION OF AD VALOREM TAXES

SAN ANGELO, Jan. 13 (AP)—A program calling for permissive legislation for counties to benefit under the recently voted constitutional amendment diverting the state ad valorem taxes to the counties, has been approved here by the legislative enactment committee of the West Texas Chamber of Commerce.

The meeting was held under the chairmanship of W. R. Cusenberry of Sonora for the purpose of studying the bill which will be offered in the present session of the legislature by Sterling Williams of Snyder, and I. B. Holt of Olton, to be known as the William-Holt bill.

"This is a most constructive program and will improve and augment the economy of all West Texas for the next 50 years," said John D. Mitchell, Odessa, WTCC president, who attended the committee meeting with General Manager D. A. Bandoen and Joe C. James, research director, from the Abilene office.

Municipalities also may benefit the proposed bill, which provides the manner in which the farm-to-market and lateral road program and flood control program may be carried out. Under the act a municipal corporation within the county may receive for water conservation and flood control purposes not to exceed one-third of the tax being levied upon the property within its corporate limits. In addition it is provided the property may not be assessed at a higher value than that fixed for county purposes.

The act also would give municipalities the right to pledge these funds in advance for bond financing purposes, which would permit the municipalities to benefit under a large protective program. The act would make a potential minimum of approximately \$1 million annually available to the cities. By proper funding of these amounts it would be possible for municipalities to inaugurate immediately some of their water programs, it was pointed out.

At this meeting Judge Roger Garrett of Jones County, secretary of the West Texas County Judges Assn., give assurance that the organization will conduct a campaign among all West Texas county officials in behalf of the measure's passage. Judge L. M. West of Channing, who is president of the association, could not be present, but previously had lent his support to the proposal. Other county officials in the

Taft To be 1950 Target Of C. I. O.

NEW YORK, Jan. 13 (UP)—CIO President Philip Murray said tonight that Sen. Robert A. Taft, R., Ohio Co-author of the Taft-Hartley law may be labor's chief victim in the 1950 elections.

He said in a speech prepared for delivery at a banquet sponsored by the Labor and The Nation Magazine that labor "defeated" Gov. Thomas E. Dewey in his presidential bid and can look forward to other victories in 1950.

Jack Kroll, director of the CIO Political Action committee he added "tells me that 2 years from now labor and the people of Ohio are going to win in a very important seat in the Senate of the United States." Murray did not mention Taft by name, but the veteran Ohio Republican us up for re-election in 1950.

Murray commended President Truman for "starting so early to carry out his campaign pledges to the people." Mr. Truman's "magnificent" state of the union message, he said, contained many of the ideas which labor has been supporting for the past decade.

"We applaud our President," he said. "We will demand of the new Congress that it, too, quickly erase the Taft-Hartley Act from the law books, re-enact the Wagner Act and legislate the great programs sponsored by the CIO."

Generissimo Chiang Kai-Shek meanwhile conferred at length with his cabinet on some means of achieving peace. Authoritative sources said the government was considering a direct peace approach to the Communists contemplating vast political concessions possibly entailing resignation of Chiang and his cabinet members.

Reliable sources said Chiang's two rebellious central China commanders, Gens. Pai Chung-Hsi and Cheng Chien, now not only demanded his immediate resignation but asked that he delegate military authority to Marshall Li Chi-Shen, an Anti-Chiang veteran Kuomintang (government party) leader. Li was reported in North China for independent peace talks with Communist leader Mao Tse-Tung.

Telephoned reports from Tientsin (3 A. M. EST) today said there was increasingly heavy fighting for that modern industrial city and that there had been no word from a truce team which was sent to the Communist lines to seek an armistice.

The Communist radio said Tu was captured while wearing the uniform of a private and that the rest of his 25 surrounded division had been annihilated.

Military sources here said two of Tu's leading generals, Chiu Ching-Chuan and Li. Mi, were missing.

These sources said only 6,000 of his 180,000 straggling troops had survived the five-weeks' encirclement and that they were seen marching south to join other government forces.

An earlier report in the newspaper Central Daily News said reconnaissance planes spotted three columns of 50,000 men, and military spokesman Gen. Teng Wen-Yi denied the three army groups had been wiped out. The Communist radio also claimed that Nationalist troops had been wiped out in the suburbs of Peiping and

Mayor Issues March Of Dimes Proclamation

Mayor Lee Dockery today proclaimed Jan. 14-31 March of Dimes time in Ranger in cooperation with the state and nation in making a drive for funds for the fight against infantile paralysis.

In making the proclamation, Mayor Dockery appealed to the people of Ranger to support the drive to the best of their ability. "We have seen right here in our town, what great benefits come from this fund," he said, and added that the people should be whole heartedly for such a movement.

Mrs. J. A. Bates, Ranger chairman, announced today that in preparation for the opening of the March of Dimes drive in Ranger tomorrow, that fruit jars have been labeled and placed in churches, class rooms, business houses and in company offices.

She also stated that a special gifts committee will get to work within the next few days to solicit larger gifts from citizens.

In appealing to the people to support the drive, Mrs. Bates pointed out that Eastland County, and Ranger itself has benefited from the national fund and from funds kept in the county.

Ranger had two cases in 1948 that required assistance and in the county the demand on the funds forced officials of the fund to call on the National fund for \$1,500.

Mrs. Bates stated that the county chairman hopes to raise enough in this year's drive to repay the National fund what was borrowed.

While visiting with them, Miss Patzke commented, "we have much nicer weather in Michigan." It happened to be bright and sunny when the two left there several days ago. They were surrounded that Texas would stage such as we've had for the past few days. That, they must have thought, was reserved for their own neck of the woods, "cause they can't fool us. We know it ain't always balmy in Michigan, either."

Seriously, we think the ladies were rather enjoying their enforced stop in Ranger. And they were real good company, too.

Crews Repairing Electric Damage

All available manpower of the Texas Electric Service Co., is repairing damage inflicted to lines by current weather conditions.

Power failures disrupted service for various lengths of time in Ranger last evening and this morning. Service in Ranger this morning was close to normal but outlying communities such as Olden were still experiencing trouble.

According to Buck Pickens, assistant district manager, only 10 per cent of the difficulty is caused by ice formations on the lines. The major trouble is caused by ice falling from the lines.

This causes the lines to vibrate and come in contact with one another. This vicinity has been comparatively free of major trouble as the bulk of the failure has arisen between Morton Valley and Cisco.

All attempts are being made to continue normal service. Repair crews are active throughout the vicinity.

COMMUNISTS CAPTURE NATIONALIST GENERAL

NANKING, Jan. 13 (UP)—Gen. Tu Yu-Ming, one of China's great military heroes and leader of the trapped government forces below Suchow, has been captured by the Communists, military sources reported today.

(The Communist radio said Tu was captured while wearing the uniform of a private and that the rest of his 25 surrounded division had been annihilated.)

Military sources here said two of Tu's leading generals, Chiu Ching-Chuan and Li. Mi, were missing.

These sources said only 6,000 of his 180,000 straggling troops had survived the five-weeks' encirclement and that they were seen marching south to join other government forces.

An earlier report in the newspaper Central Daily News said reconnaissance planes spotted three columns of 50,000 men, and military spokesman Gen. Teng Wen-Yi denied the three army groups had been wiped out. The Communist radio also claimed that Nationalist troops had been wiped out in the suburbs of Peiping and

Well... I Dunno, But...

All this week we've been keeping our fingers crossed and rubbing that rabbit's foot in our pocket, hoping that Ranger would avoid any major accidents during the stretch of icy weather. But alas, it had to happen. We understand that a local man met with a tragic mishap at the Paramount Coffee Shop Wednesday afternoon. Yes sir, he was sitting right there on one of Jimmie's and Chief's stools, calmly drinking his cup of coffee, not bothering a soul, and hardly making a stir, when out from under his foot slipped a bottle — of milk, of course — that fell to the floor with a great crash and splash. Chief says that the man was so frustrated that he went off and left the bottle cap, which he may retrieve in order to get another bottle of milk.

Well, who ever said that Texas weather was always balmy! What we do claim is the greatest variety of weather anywhere, all bottled up in the confines of Texas.

Yep, the above is all by way of an answer to Miss Addie Patzke of Port Huron, Michigan. Miss Patzke and her traveling companion, Mrs. Vera Webster of the same Michigan town were among those that halted their travels at Ranger Wednesday afternoon late.

While visiting with them, Miss Patzke commented, "we have much nicer weather in Michigan." It happened to be bright and sunny when the two left there several days ago. They were surrounded that Texas would stage such as we've had for the past few days. That, they must have thought, was reserved for their own neck of the woods, "cause they can't fool us. We know it ain't always balmy in Michigan, either."

Seriously, we think the ladies were rather enjoying their enforced stop in Ranger. And they were real good company, too.

One of the chief pastimes of Ranger residents for the duration of winter's icy grip, was to take note of the various states represented on auto license plates, the autos being the property of people whose travels were halted here by the bad weather.

Maybe we didn't have enough states for the Union but there was a pretty good representation.

Mrs. T. K. Hardy says we don't know nothing about bad weather. On a visit to her son Kenneth in Crane, Mrs. Hardy was trapped by the current visit of winter, and had to take a train back home leaving Mrs. W. W. Brock and her car out there. Mrs. Hardy says that when it gets to the point where the load of ice can snap telephone poles like they were tooth picks, it's worse than anything we've seen around here. "Sleaz, she said, was three or four inches deep.

WASHINGTON COLUMN

FCC Sees Big Year Ahead For Booming Video Industry

BY PETER EDSON

NEA Washington Correspondent

WASHINGTON—(NEA)—Here is Federal Communications Commission Chairman Wayne Coy's size up on television prospects for 1949:

Seventy-four new stations to be completed, bringing the total to 122. A year ago there were only 17 in operation. Applications for licenses to operate 312 more stations are frozen until engineers solve problem of "tropospheric interference." There are two approaches—synchronizing all stations on same channel, or increasing distance between co-channel stations to more than the present 150-mile limit.

The number of television sets that will be in operation a year from now is put at about 2,750,000. Today there are 1,000,000. A year ago there were only 200,000. Big date in TV is Jan. 12, when East and Midwest stations will be linked by co-axial cable.

Arthur M. Hill had to resign as head of National Security Resources Board because Greyhound Bus companies demanded his return to head their organization. Hill had wanted to stay in Washington until his overall mobilization bill was presented to President Truman and Congress. Original deadline for submitting the bill was Dec. 15. Now it is said the bill will be ready shortly.

The job of presenting it will now fall on NSRB Vice Chairman Richard E. Gillmor, president of Sperry Gyroscope. Gillmor had originally planned to go back to private business before the end of 1948. The actual job of drafting the mobilization bill, which introduces many sweeping controls over all phases of the economy, has been under Kenneth D. Johnson, NSRB general counsel. Johnson is a 50-year-old former district court judge in Quincy, Mass. He is a veteran of both World Wars, enlisting in War I as a private, coming out of War II a colonel and special assistant to Secretary of War Robert Patterson.

An American official just returned from Japan reports that after the November election, some Japanese could not conceal their astonishment that President Truman had been elected. "How can this be?" one Jap demanded. "We have been assured that General MacArthur has approved the candidacy of Governor Dewey. Surely General MacArthur would not allow this to happen." The American then assured the Jap that General MacArthur was a very broad-minded man and would probably permit President Truman to continue in office despite the general's own preference for Dewey. The Jap was relieved to know that this would not lead to an ugly incident.

Members of the Hoover Commission, discussing rumors that their report on government reorganization would be by-passed, attributed the stories to union leaders who feared that Hoover would recommend abolition of the Labor Department. When Hoover heard this he wired several top union officials that it wasn't true, and he invited them to give their suggestions as to how the Labor Department could be strengthened. So far, he has received no reply.

ALCOHOL Tax Unit in Treasury's Bureau of Internal Revenue, which somehow got the job of making harmless the so-called automatic weapons brought home by war veterans, now reports the job is about done. During the past two years, Alcohol Tax Unit agents have inspected 97,466 weapons and have removed the firing apparatus from over 12,000 of them. Just after the end of the war these guns were bought up by gangsters, and accounted for many deaths.

When a plane load of correspondents and photographers was grounded by bad weather on the way back to Washington from independence, Mo.—where they had been assigned to cover President Truman's Christmas—they wired their offices: "Down on Icecap. Please Send Saipan With Helicopters."

THE SCOREBOARD

Boudreau Has to Win Again To Convince Veeck He's Good

BY HARRY GRAYSON
NEA Sports Editor

CHICAGO—(NEA)—Lou Boudreau says he had satisfactory talks and may have reached an agreement with Bill Veeck.

"I expect to be in Cleveland Jan. 18," asserts the American League's most valuable player. "I think Bill and I will discuss it further at that time."

So Owner Veeck is expected to finally get around to giving the Illinois alumnus a new contract as a reward for shortstopping, batting and managing the Tribe to the world championship and a record 2,620,627 paid admissions at home. Meanwhile, President Veeck isn't making M'sieur Boudreau's 1949 assignment any easier by predicting that the Injuns will repeat by 10 games.

Generally, it is a natural assumption that a winner will duplicate its performance. And Veeck's activities in the trading mart have established the Indians as an overwhelming favorite next season.

First baseman Mickey Vernon, acquired from the Senators, gives the Tribe needed infield speed. He led the American League batting the Washington club into the first division in 1948 with 253. Early Wynn, who comes with him, is a strapping right-hander who bagged 17 games with a seventh-place outfit in '47.

DEGGING any club as a shoo-in before a game has been played is risky business, as has been proved many times in the past. Boudreau, Joe Gordon, Ken Keltner, Jim Hegan, Dale Mitchell and Bob Lemon enjoyed the greatest season of their careers last year. Freshmen Gene Bearden and Larry Doby stuck out like Citation's popped osselet, yet the Redskins finished the regular season in a tie with the Red Sox.

They were in and out of first place no fewer than eight times. With the Yankees running hard, too, the slightest nudge would have knocked them out of the jackpot.

There is no assurance that Boudreau, Gordon and Keltner, each one year older, will give the club a reorder.

There is always the danger of the matchless Boudreau's highly vulnerable insteps and ankles—badly damaged playing basketball—going back on him.

Like the Cardinals' Slat Marion, this remarkable infielder is practically a permanent hospital patient. Before each game he spends 30 minutes or more wrapping yards of tape around his feet and ankles. And what is to prevent Bearden and Doby from becoming victims of the celebrated so-called second-year jinx?

Like the horse you bet on at the track, the Indians have to run around there—through a 154-game schedule. And Lou Boudreau will sack a lot of weight all the way along the route, with Veeck still not convinced that he is a good manager.

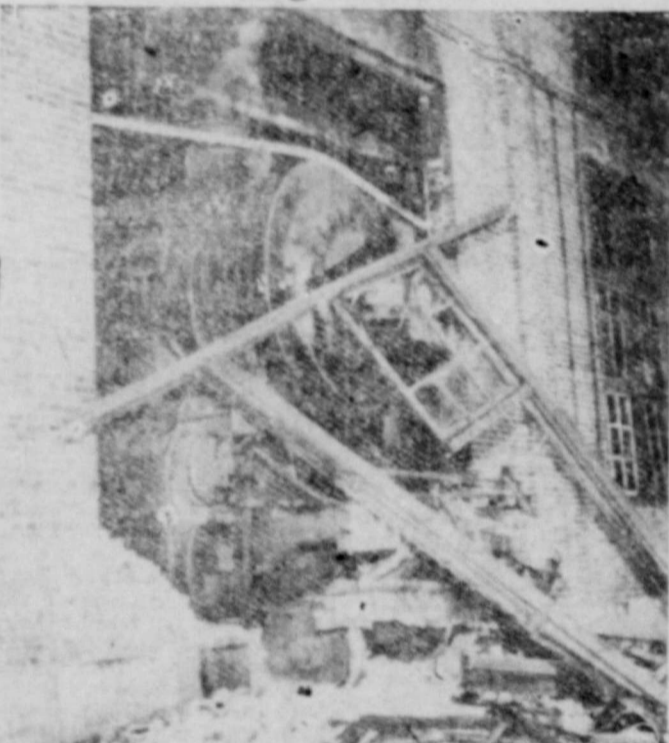

Call 224 For Classified Ad Service

Wins His Toughest Fight

Jack Jacobson was wounded by shrapnel in the Italian campaign and became a disabled veteran, paralyzed from the waist down. But a year and a half of five-days-a-week training at New York's Institute for the Crippled and Disabled brought him physical independence. After his toughest fight, Jack walks to his hand-controlled car on crutches by himself.

Even Engineers Do It

Just like a lot of women drivers, a rookie engineer went forward when he meant to go backward. Result—instead of backing out of the Milwaukee and St. Paul roundhouse in Chicago, the engine smashed forward through a window.

Future Champs

Bobby Geering, Adam Maples, Danny Geering and Tommy Wellons, left to right, seem completely satisfied with their scores after 18 holes of golf in Pinehurst, N. C. Chamber of Commerce junior championship. The eight and nine-year-old youngsters averaged between 120 and 130 at famed Pinehurst Country Club.

OUT OUR WAY

By J. R. Williams

LATEST LEAD

Jeff Conners, 40, free-lance writer and former Hollywood bit player, as he awaited removal from San Francisco to Los Angeles as a suspect in the mutilation slaying of Elizabeth Short. Conners was named the "Black Dahlia" killer by ex-bellhop Leslie Dillon. Conners was arrested in Gilroy, Calif., on a mysterious tip that said he would be there. (NEA Telephoto).

WTCC.....

(Continued from page 1)

South and East Texas areas also will be contacted for their support. Mayor Robert R. Herring of Breckenridge said a similar campaign will be urged on the part of city officials in Texas in support of the proposed act.

President Mitchell previously had announced that WTCC staff men would work directly through local directors in the West Texas area in support of the measure. Paul Counts, Fort Stockton Chamber of Commerce manager, is secretary of the WTCC legislative enactment committee. J. Walter Hammond, Tye farmer and a member of the committee, could not be present at this meeting.

The legislative enactment group is a committee of the WTCC Soil Conservation Commission, of which Charles C. Thomas of Colorado City is chairman. The Thomas committee last year made its study of the program for the diversion of these funds for local purposes, under which study it was revealed that with the proper funding plan it would be possible for at least 99 municipalities to provide water systems with money that is not now available, according to Bandeen. This, of course, would represent only a third of the revenue; while the remainder would develop more soil conservation and more farm-to-market and lateral roads within the counties than heretofore has been possible.

100 Per Cent Official

Fred Sanford, right, is discussing football, not baseball, with Salt Lake City South High faculty member Pat Ryan, left, and coach Roy Peterson. The big right-hand pitcher, for whom the Yankees gave the Browns \$100,000 and pitchers Red Embree and Dick Starr and catcher Sherman Lollar, is a football official, and is on the job in his striped shirt.

Black Dahlia Suspect Alibied

SAN FRANCISCO, Jan. 13 (UP)—A handsome Hollywood bit player arrested as a suspect in the "black dahlia" slaying alibied today that he was with his "famous wife," dancer Vickie Evans, principal in the Robert Mitchum marijuana case, the night Elizabeth Short was sadistically mutilated.

Jeff Connors, 40, debonair and smooth-talking free-lance writer, was at the time of the Dahlia and brought here on a tip from the latest "No. 1" suspect in the savage murder, Leslie Dillon, 27, who said Connors told him "intimate details" of the killing.

Connors branded the ex-San Francisco bellhop's attempt to implicate him as "ridiculous."

"I can prove exactly where I was at the time of the Dahlia murder," he told Joseph Reed, Los Angeles assistant chief of police who flew here as the bizarre case that shook Southern California almost two years ago to the day was reopened in a series of rapid-fire developments.

"I am absolutely innocent," Connors claimed.

At the same time Dillon, arrested two days ago, was released in Los Angeles on grounds of insufficient evidence.

Connors is a slender man with a thin mustache and reddish hair. Numerous other red-headed suspects have been questioned.

Connors admitted he knew Dillon. He said he knew the 22-

Supreme Court Studies State's Gas Flare Appeal

AUSTIN, Jan. 13 (UP)—The Supreme Court took under advisement Wednesday an appeal by the state against a permanent injunction which halted enforcement of a Railroad Commission order.

The order was directed against what the commission termed wastage of flar gas.

The case was appealed from 98th District Court here. The Court held in favor of the Sterling Oil Co., and other operators.

Counsel for the oil firm said the Supreme Court should not take jurisdiction in the case.

Nelson Jones, Houston attorney, said the legislator has "expressly permitted use of casinghead gas for gas lift" which he said this order seeks to prohibit.

He argued further the commission order was unreasonable and the lower court's judgment correct on the premise the commission is without authority to enforce such an order.

Jones said Humble Oil & Refining Co., now is spending nearly \$2,000,000 to deliver residue gas by April 1 to the Tennessee Gas Transmission Co.

The state argued the Supreme Court has jurisdiction on such cases where the validity of a commission order is under fire, under a constitutional amendment adopted in 1940.

year-old Miss Short "by sight" and had told Los Angeles police he was the "Black Dahlia" in a bar the night before her slashed body was found in a vacant lot Jan. 15, 1947.

Workers Agreement Conference Monday

WASHINGTON, Jan. 13 (UP)—The State Department announced today that U. S.-Mexican talks on revision of the agricultural workers' agreement will open in Mexico City next Monday.

The announcement said the talks were intended to produce a revised agreement to replace that of Feb. 22, 1948.

The agreement would cover conditions under which Mexican agricultural workers may be contracted for seasonal farm work in the United States, the department said.

Dogs and Cats in Demand
 HONGKONG (UP)—Dog and cat owners here must be careful lest their pets wind up in a pot. Thieves will steal almost any dog or cat that is not tied down. Chinese consider their flesh quite tasty.

How To Relieve Bronchitis

Cremulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel green laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Cremulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREMULSION
for Coughs, Chest Colds, Bronchitis

From where I sit... by Joe Marsh

We Both Won This One

Blow my top the other morning when I discovered a shirt I'd put on had two buttons missing.

"Joe," the missus says, "do you ever read what you write? For a man who writes newspaper pieces all about tolerance, you sometimes show a lot of race prejudice."

"Race prejudice!" I holler. "No one can accuse me of that." "I mean prejudice against the entire human race," she interrupts with a smile. "Why get mad at the world over two little buttons?" That took the wind out of me.

From where I sit (as I told the missus that evening), a lot of us sometimes get too worked up over little things... little differences of opinion or taste. One person prefers beer or ale, another prefers cider or lemonade. But why criticize the other fellow just because his tastes aren't the same as ours? "That sounds more like you, Joe," she laughs, snipping off a thread. (It so happens she was sewing on buttons.)

Joe Marsh

Cherry Has Made No Decision

AUSTIN, Jan. 13 (UP)—Football Coach Blair Cherry of the University of Texas said Wednesday he has had "preliminary talks" with two professional clubs regarding a coaching position.

However, he said he had "made no decisions, and do not plan to make any until I've had time to consider all the factors carefully."

The Texas Longhorn coach had been mentioned recently as a candidate for coach of the Chicago Cardinals, he did not name the two teams today which he said had approached him.

Cherry returned here today from California where he had been attending meetings of the National Collegiate Athletic Association.

His contract with the University of Texas has two years to run.

Fewer Flight Students

MORGANTOWN, W. Va. (UP)—Flight training at West Virginia University has "leveled off" to a peace-time basis, after a post-war upswing attributed to GI benefits. George S. Henry, flight instructor, now has 14 students in training, only three of whom come under the GI bill of rights. The drop in enrollment plummeted from 40 students per class during the immediate post-war period.

Sheehan Browns Signs Contract

COLUMBIA, Mo. Jan. 13 (UP)—Sue Sheehan, twice United Press all-big seven end, today signed a professional football contract with the Cleveland Browns of the All-American Conference.

The 24-year-old, ham-fisted flanker from St. Louis won conference pass receiving honors last year, catching 22 tosses for 346 yards for the University of Missouri.

He also captained last year's track team and in 1947 won a piece on the All-America track and field squad. He plans marriage next summer.

While Sheehan was set to play with the Browns, halfback Loyd Brinkman decided to weigh an offer from the Philadelphia Eagles of the National Professional League before making up his mind.

Earlier, Missouri quarterback Bus Entsminger announced he would forego professional football for a coaching career.

Area OIL News

GORMAN AREA

January 12th, 1949.

The voluntary shutdown order did go into effect Wednesday at 1:00 P. M. as was scheduled Monday, in spite of the freezing weather conditions.

D. D. Feldman, No. 2 Cooper have finished their fishing job—finished sometime Tuesday night—and are now drilling ahead at 2400 feet.

A. W. Gregg No. 6 Phillips drilling at 2300 feet.

Commercial Production Co. No. 1, Mrs. R. S. Sanders drilling at 1000 feet.

Several contacts were impossible today because lines are down and icy roads made it almost impossible for this reporter to get out.

R. H. Patterson is drilling on his job up near Cisco for Skelley, but who have been unable to get the exact information. All we do know for certain is that they are on a rework job and that there is a huge load of iron in the bottom of the hole which they have not been able to dig or blast out. Until they get this obstruction cleared up they cannot finish this operation. They may decide to skid over and drill a new hole.

Lines were down between Gorman and Desdemona so that we could not find the exact depth that R. H. Patterson is on his No. 1 Brown. However, with no unforeseen trouble he should be drilling with his cable tool outfit at about 400 or 500 feet. We will try to have the exact dope in tomorrow's issue if the wires are in shape or if we can contact Mr. Patterson at DeLeon where he has moved to.

IDEA OF ONE SUBJECT AT A TIME FOUND EFFICIENT IN SCHOOL

By DON JENNINGS
United Press Staff Correspondent
PITTSBURGH (UP)—The boys at Kiski Prep take a single course for nine weeks, then go on to the next subject.

That's the way it's been at Kiski for the last four years and the gains in terms of knowledge and production have gone beyond even the expectations of the idea's originator, Dr. L. M. Clark, president of the school.

The 175 students at Kiski—the official name is Kiskiminetus Springs School—are not bothered with trying to keep track of several subjects at a time or keeping up with the demands of competing teachers.

Rotation Used

They take their courses one at a time. They study French, for example, six hours a day for nine weeks. Then they take the final examinations. They're through with French and go on to something else, for nine weeks more.

Educators say the plan makes it almost impossible for a student to fall behind in the classroom work and eliminates much of the homework. The teacher is able to devote all his time to a single subject and can keep in close touch with the progress of each individual.

At Kiski there's no more of the dashing from class to class and the delay in starting classes.

Reaction Good

The student reaction to the plan is good.

"Their answer is overwhelming by that it makes sense to them and that they find they do not forget what they have really learned," Dr. Clark said.

"A recent undersigned question—

"Old at 40, 50, 60?"
—Man, You're Crazy

Forget your age. Thousands are going at 40, 50, 60, 70, 80, 90, 100, 110, 120, 130, 140, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, 260, 270, 280, 290, 300, 310, 320, 330, 340, 350, 360, 370, 380, 390, 400, 410, 420, 430, 440, 450, 460, 470, 480, 490, 500, 510, 520, 530, 540, 550, 560, 570, 580, 590, 600, 610, 620, 630, 640, 650, 660, 670, 680, 690, 700, 710, 720, 730, 740, 750, 760, 770, 780, 790, 800, 810, 820, 830, 840, 850, 860, 870, 880, 890, 900, 910, 920, 930, 940, 950, 960, 970, 980, 990, 1000.

At all drug stores everywhere, in Langer at Oil City Pharmacy.

This is it!

NEW Frigidaire Fully Automatic Washer

And this "Live-Water" action is really marvelous! Just put in clothes and soap, set the dial and forget it.

- Washer fills and empties automatically.
- Washes 8 lbs. or clothes in less than a half-hour.
- They're spun damp dry.
- They're cleaner, whiter.
- Hands never touch water.
- See a demonstration!

study plan, definitely prefer it both for their own work and for that of the students."

Failures have been reduced almost 50 per cent as a result of the concentrated study plan. There has been a "marked substantial rise" in the average grades at Kiski.

A Kiski graduate, now at Princeton University, expressed enthusiasm typical of students who have gone through the new plan.

"It is much easier to learn and I suppose much easier to teach by this new method," the former student said. "Once you get into a subject, you can really get interested in it. And once you're interested in what you have to study things are easy."

Dr. Clark doesn't contend that his plan could be applied generally in big city high schools, but he

believes the bigger schools could use it for students who have a capacity for developing faster than the usual pace.

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause negative backache, rheumatic pains, leg pains, loss of pep and energy, itching up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or steady passage with smearing and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Mysterious Call In Okla. Killing

OKLAHOMA CITY, Jan. 13 (UP)—Dave Tant, Oklahoma City criminal lawyer, revealed Wednesday a man called his office yesterday shortly after the fatal shooting of Attorney Earl Pruet and announced, "I just killed a man."

"I wasn't in the office," Tant said, "but he told Wendell Stock-

ton, who offices with me, that he wanted to see me. Wendell told me to come up and he'd call me, but the man never showed up."

Tant said the call came at 5:05 P. M., about 35 minutes after Pruet's death.

Grave Digging Lags

PORTLAND, Ore. (UP)—A lull in the grave digging business prompted Robert C. Bowen, 24, to take up shoplifting, he told police. Bowen and his 17-year-old brother were charged with the theft in a chain store of 33 cents worth of cheese and 49 cents worth of canned meat. Bowen said he was discharged as a grave digger because "there's been a lull"

Nebraska contains 77,000 square miles, more than the combined area of the six New England states plus New Jersey and Delaware.

Study Club Meets With Mrs. Pickrell

The regular meeting of the Columbia Study Club was held Tuesday afternoon at 3 o'clock in the home of Mrs. David D. Pickrell.

Mrs. L. R. Pearson, president, presided at the meeting in which it was announced that the next meeting will be in the home of Mrs. J. E. Matthews and Mrs. E. E. Crawford will give the review at the meeting.

Mrs. W. D. Conway gave the book review at the meeting Tuesday and reviewed "Mary Wakefield" by Mazo de la Roche.

At the close of the review, refreshments were served from a table covered with a linen cut-work cloth and centered with an arrangement of red carnations. Mrs. Pearson presided at the silver tea service.

Those attending were Meses. Matthews, P. M. Kuykendall, Conway, Crawford, Stanley McAnelly, Pearson, Pickrell and C. T. Babin.

Vida Elliott Study Group Meets Monday

The Vida Elliott group of the First Christian Church met Monday afternoon at 3 o'clock in the home of Mrs. Lee Bowen.

During the afternoon the group made a study of the book of Revelations.

Those attending the meeting Meses. Dick Jones, A. W. Dooley, W. R. Falter, E. T. Matthews, Harry Warner, Earl Bisset, Raymond Walker, Lottie Davenport and Bob Allen.

Ladies Meeting Is Postponed

The meeting of the Ladies Club of the Ranger Country Club which was scheduled for Friday afternoon has been postponed because of the weather.

Date for the meeting will be announced later.

Personals

G. W. Shelton is confined to his home 433 North Marston, because of illness.

Bob Estes of Baird and Bud Townsend of Nacona transacted business in Ranger Wednesday.

Mr. and Mrs. Joseph S. Finch of New Kensington, Pa. are among the travelers in Ranger awaiting the clearing of highways before resuming their trip to Phoenix, Arizona.

C. B. Pruet and T. J. Anderson are in Fort Worth today to attend the Chevrolet dealers meeting and for the preview of the Chevrolets.

Death Reports

ABILENE, Kan. (UP)—Death followed a tight pattern for father and son. Ray Teare, young farmer, died of a heart attack in his car, parked on an Abilene street. It was 17 years after the death of his father, who also suffered a fatal heart attack in a car parked almost at the same spot.

Three major river systems, the Platte, the Republican and the Niobrara, cross Nebraska from west to east.

'Happy Birthday to Me'

Speaker of the House Sam Rayburn, Texas Democrat, raises his voice in song at his own 67th birthday party, given in the Washington home of Sen. Lyndon B. Johnson, another Texan. The youngsters include his grandniece and nephew and the children of associates. It's all a big joke to Jane Bartley, 7, his grandniece, in the rear, left.

Legislators Praise Message

AUSTIN, Jan. 13 (UP)—Legislative leaders agreed today that Gov. Beauford Jester's speech to the House and Senate was a "good address."

House Speaker Darwood said Jester "now has indicated what he wants this session."

Sen. James E. Taylor of Kern, chairman of the powerful Senate Finance Committee, said the Governor had outlined a "pretty comprehensive program," adding that the last part of the message should be "considered seriously."

"We certainly should not over-reach ourselves in expression of state service," Taylor said. Jester had said "we face the deadly serious necessity of planning wisely and within our means."

Outgoing House Speaker W. O. Reed of Dallas said he thought the Governor had delivered a good message, but "I wish he had stressed more the need for more money for eleemosynary institutions. And I didn't understand what he means by a 'citizens tax.'"

Rep. Preston Smith of Lubbock said, "I noted in his review of accomplishments that he didn't list the college building amendment."

Other Comments: Rep. Frank Svadlenak, Thrall, chairman in 1947 of the House Revenue and Taxation Committee: "I think it was fundamental hope this legislature will be able to carry out this progressive program. And I hope the Governor has it figured out so that we won't have any new taxes."

Rep. S. J. Isaacks, El Paso: "I agree with most of what he said, generally speaking, it will meet the favor of the House."

Prodigy Cuts 60 Seconds To 45 In Piano Piece

PORTAGE, Pa. (UP)—Chopin intended it to be the "Minute Waltz" but Roy Oleynik, a 12-year-old pianist, has cut the time to 45 seconds. It may not be a record, but it is fast.

Gifted with a phenomenal memory, the seventh-grade student has shown musical maturity. He can play selections by any composer suggested by his listeners. Once Roy has had a lesson on a certain selection, he never needs the score again.

Roy estimates he knows from 1,500 to 2,000 selections from memory. Often he isn't content with the written score, so he improvises.

Roy's mother recalls that he tried playing the piano at three. When Jean an older sister, would play a piece of music, Roy would follow her to the piano and repeat the selection from memory.

Declaration Meets Constitution

Aboard the Freedom Train, Isaac Ben Zvi, signer of Israel's constitution and founder of the Israel Labor Federation, Histadrut, shows Marine Sgt. Paul W. Bulch, Vandergrift, Pa., a copy of Israel's constitution. Bulch guards America's own Declaration of Independence.

Price Of Food Shows Decline

CHICAGO, Jan. 13 (UP)—Several Chicago grocery chains slashed egg prices Wednesday and a flood of hogs dipped prices at Midwest Livestock Terminals.

The drops came as Dunn & Bradstreet reported that its wholesale food price index dropped four cents in the past week to the lowest level since May 27, 1947.

The new index of \$6.08, the total price of 31 basic foods, compared with the all-time high index of \$7.36 last July.

A. & P. Food Stores here announced a reduction of almost 10 per cent on grade A large eggs. Today's price was 59 cents a dozen compared with 65 cents carries this week.

The national tea chain said it had not yet made up its new egg prices but that they would reflect a "comparable" reduction.

A. & P. also reported a seven per cent cut in the prices of chuck roast and sirloin beef, making them 55 and 75 cents a pound, respectively.

Opening hog prices were 25 to 75 cents lower at most midwest livestock centers and after declines of 50 cents to \$1 a hundred pounds yesterday.

Estimated receipts at 12 major markets totaled \$6,000 hogs, compared with 54,000 a week ago.

With more than one-third of all the steel plants in the country, Pennsylvania, between 1911 and 1944, outranked every other state in the production of mineral products by \$11 billion.
