According to estimates, by people that should know, there will be more wheat harvested in Castro County this year than last year even though there is considerably less acreage. All wheat has been harvested with the exception of the few acres in low lying ground where it is still too wet and muddy for a combine to function. Wheat is not the money crop it used to be, but it will, despite depressed prices, pump several million dollars into the county's economy.

Some farmers have converted part of their wheat acreage to milo because they thought it would be a better money crop. Just a few years ago we would have preferred more wheat acreage. There has been a change in the value of the two crops. Whether the low price of wheat is a result of the defeat, by wheat farmers, of the last government wheat program is anybody's guess. But it is certain that there is something amiss when the farmer has to sell his wheat for \$1.30 per bushel while bread is selling for thirty cents and more per loaf when only a few years ago farmers were getting \$3.25 per bushel for their wheat and bread was selling for twenty cents per loaf. There is something rotten in the market place. The imbalance in the cost of production and the income from farm products will soon have a drastic and tragic effect on the entire national economy.

Southwestern Public Service Company will have open house at their new office building on South Broadway Sunday from 2:00 p.m. until 5:00 p.m. There will be door prizes, soft drinks, treats, etc. This ultra-modern office makes it very convenient for you to pay your electric bill. They have a drive-up window where you can be relieved of your cash, without the necessity of alighting from your car, it is almost as handy as turning on an electric appliance. You will be relieved of your cash by a pretty, and courteous secretary, but chances are you will hear old Earl Brock, back in the inner-sanctum, sing out "Thank you, and don't forget to pay your bill next month."

Much credit for the enormous growth of the Panhandle-Plains area should go to Southwestern Public Service Company. This progressive company has always been on top of its job, and has anticipated and filled the ever increasing electric needs of the area it serves. While inflation has caused prices on all other commodities to skyrocket, the efficient operation of the Southwestern Public Service Company has made it possible for them to hold the line on the cost of electricity to the consumer. The business community of this great agricultural and industrial area owes this progressive company a vote of thanks for its contribution to the development of the area it serves.

County 4-H Dress Revue Will Be Held July 15

Castro County 4-H Dress Revue will be held Thursday, July 15 at 8 p.m. in the Junior High School auditorium announces Rebecca Gaddis, County Home Demonstration Agent.

About 45 county 4-H girls who constructed garments in clothing projects will model their creations for family and friends at the Dress Revue. Girls making garments include first, second, third, fourth and fifth year 4-Hers. Also older 4-Hers will be in the Revue.

4-Hers will model their garment and turn in their record books for judging during the morning of July 15. Mrs. Frank Pollard, Home Economist and Mrs. Argen Draper, Deaf Smith County Home Demonstration Agent will judge the modeling and construction of the garments.

Judging of the model will include posture, grooming, poise and attitude. This will count 25 per cent of the total score. Garment judging will be based on following points: becomingness to girl; choice of texture, color and style; fit; choice of accessories, right for girl, her use of costume; and value for money spent. This part of the judging will count 50 per cent.

Construction judging which counts 25 per cent will include accurate cutting and quality of work as it contributes to the "professional look."

Record books which include all the activities of the 4-H girl will be judged by two 4-H leaders from Deaf Smith County.

First and second year 4-Hers entering the dress revue will model their garments for judging at 9 a.m. Third and fourth year girls will be judged at 10 a.m. Advanced girls, five years and over in 4-H, will be judged at 11 a.m.

ACTIVITIES for exchange students visiting here last week included horseback riding at the rodeo grounds. Helping students with horses in picture is Jack Graham (right). According to Maurice Campbell, the students thrilled to the western riding. See story. —Staff Photo

Exchange Students Enjoy Visit Here

According to reports from families keeping the forty-two exchange students last week, both students and families enjoyed the visit.

A busy schedule of activities was slated for the day and a half visit. The students were treated to a steak supper at the American Legion Hall on the arrival at 6:30 p.m. Meat was furnished by Dimmitt Wheat Growers and the ice cream by Cloverleaf Co. A party following the supper was held at the Bob McLean home.

The students started Thursday's activities with a sightseeing tour of spray planes at D & D Aerial. Horseback riding at the rodeo grounds was at 10:30 a.m.

The students then took to the football field at 4:30 p.m. for an exhibition game of soccer for their American friends. Swimming at 4 p.m. concluded the afternoon activities.

Supper at the city park Thursday evening was followed by a talent show presented by the exchange students. Talent included native dances, harmonica playing, guitar playing, skits, accordion playing, singing and poetry recitation.

Felipe De Cruylles of Spain who stayed in the Dale Prather home wrote the following piece about what he thought of Dimmitt.

In the silent night
A prayer, a sound
Rises but never dies
Melts into nature
The moon shines softly
While the breeze carries
These notes that rise
Eternal and loving
This is only one of the many
Many images by which
I shall always
Remember Dimmitt.
Dimmitt where the people
Love and live while they give
That peace that the Lord
Gives only to the good ones.
The exchange students left Friday morning at 8 a.m. on their way to New York and from there home.

Annual Pageant Plans Underway

Groundwork has been laid for the annual Miss Grain Sorghum pageant which will be held Saturday, August 7 at 8 p.m. in the Dimmitt High Auditorium.

The "Miss Grain Sorghum" secretary, Mrs. Dorothy Magness has sent 400 letters to grain elevators, seed companies and organizations notifying them of the pageant. Contributions are being received from elevators and seed companies. The organizations were asked to sponsor a contestant.

Requests have already been made for the use of "Miss Grain Sorghum" in various promotions of grain sorghum in the area.

Committee for the pageant include Pete Wright, Chairman, Vaden Kirchner, Bob Anthony and Gary Huffines.

A \$500 college scholarship is being offered to the winner of the pageant. First runner-up will receive a \$200 scholarship and second runner-up will be given a \$100 scholarship. Each of the winners will also receive a trophy. In addition the winner will represent the grain sorghum industry throughout the coming year through public appearances.

Any girl who is unmarried and 17 years old or before August 7 is eligible for the contest. She must obtain a sponsor which may be a business firm or organization. A full length recent photo in bathing attire, 5 X 7 is required to be submitted with the application.

Any local business firm or civic organization desiring to enter a girl may pick up entry blanks at the Castro County Chamber of Commerce.

Young Boys Discover \$150

"Honesty" was the policy of five boys who discovered \$150 Tuesday, June 29 while playing around the Harmon Arnold home at end of SW 2nd St.

The youngsters, Charles Comer, Joe Comer, Michael Wood, David Wood and Jimmy Frazier found the money in a Prince Albert tobacco can which was nailed to a wall in the house.

Following the death of Mr. Arnold several years ago, \$3,000 was found in the house.

Jesus Maldonado Died Saturday From Heart Attack

Jesus Maldonado, Rt. 4, Dimmitt expired an hour after being rushed to Plains Memorial Hospital by Dennis ambulance Saturday morning following a heart attack.

Maldonado was driving his car east on Highway 86 when the heart attack occurred. He pulled to the curb in front of Flash-O-Gas about 8:35 a.m. and T. D. Claborne, manager of Flash-O-Gas saw the attack and called the ambulance. Doc Green rode with Maldonado to the hospital.

Maldonado died about 10 a.m. in Plains Memorial Hospital. He was born December 25, 1905 in Old Mexico. He was employed as a farm hand for Elbert Smith.

Mass was said Monday, July 5 in Immaculate Conception Church, Dimmitt at 3:30 p.m. Burial was in Castro Memorial Gardens under direction of Dennis Funeral Home.

Mrs. Gossett expired Wednesday afternoon, June 30 in Plains Memorial Hospital at 3:15. She was born March 8, 1897 in Tennessee. She was a resident of Dimmitt for 22 years.

She is survived by her husband, Jewell of the home; two sons, James and Rodney; one brother, S. M. Coke; one granddaughter, Judy Richardson; and great grandson, Barry Richardson.

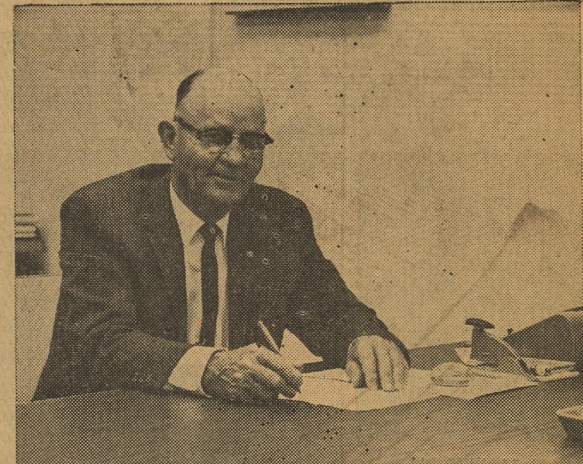

Funeral services were held Friday, July 2 at 3 p.m. in the First Methodist Church for Mrs. Ethel Louise Coke Gossett, 68, of Dimmitt.

Rev. Weldon McCormick, pastor officiated. Interment was in Castro Memorial Gardens under direction of Dennis Funeral Home.

Building Program Behind Schedule Announces Hilburn

Building program for the cafeteria and grade school classrooms is two to three weeks behind schedule announces Paul Hilburn, superintendent of schools.

This lag is due to adverse weather conditions and shortage of brick layers. Lunchroom is still scheduled to be ready for occupancy by September 1. Classrooms will be ready for possession by October 15.

EARL BROCK, local Southwestern Public Service manager, smiles happily in his office at the new building located on 217 South Broadway. Brock has been employed with SWPS for 31 years.

Southwestern Public Service Announces Open House Sunday

Sunday will be Open House day at the new Dimmitt office of the Southwestern Public Service Company. Visitors will be welcome at the all-electric building, located at 217 S. Broadway, from 2 until 5 p.m. Sunday afternoon.

"The continued growth of Dimmitt and the Castro County area - growth which we have met by improving electric transmission and distribution facilities - has brought about the construction of this new office, which incorporates all of the latest developments in modern building. In addition to serving as a fine office for our local staff, it will provide us with an all-electric showcase which will show other builders, commercial, industrial and residential, the many advantages of all-electric construction," Earl Brock, Dimmitt manager

Construction of the new building was supervised by James Kelly, son of the owner, Lee Kelly of Plainview. The new building is heated and cooled electrically, with in-duct heaters used for heating, and the cooling done by refrigerated air conditioning. Customer conveniences include a drive-in window on the south side of the building and a night depository, which is also located on the south side of the structure.

Refreshments will be served at Sunday's open house with members of the local staff joining Brock to serve as hosts and hostesses. In addition to the manager, the local office group includes Billie Gurn and Caroline Barlow, cashier-bookkeepers and Glenn White and Lewis McDaniel, servicemen.

Local School Tax Rate Increased Announces Dimmitt School Board

Dimmitt School board set the school tax rate for 1965 at a recent meeting. The tax rate is \$1.60 per \$100 evaluation announces A. S. Kemp, school board president.

This tax is divided 55 cents for debt retirement and \$1.05 for maintenance. The requirement for debt retirement for the Dimmitt Independent School District is \$156,288. This is an increase of \$20,341 over last year's debt retirement fund. This increase is due to building program resulting from bond issue of last winter.

The school board told taxpayers that it would take 55 cents tax to pay for the bond indebtedness.

The 10 cents increase in school tax was due to raise of teachers' salaries according to Paul Hilburn, superintendent of schools.

Local salaries for 1964-65 amounted to \$470,652. The teacher raise increased the salary schedule to \$538,636 for 1965-66 school year. This is an increase of \$67,984. Local district must pay \$11,000 of this increase; the state will pay the remainder. Local fund assignment for 1964-65 was \$100,002. The 1965-66 local fund assignment is \$124,946. This is an increase of \$24,944.

Local school districts in the state will have to raise \$30 million of the teacher pay raise and the state will provide \$71 million of the raise. Local districts will raise the \$30 million by increasing the ad valorem taxes. The state will raise most of the \$71 million through three cent increase of cigarette tax.

Dimmitt school board also set the salary schedule for Dimmitt Independent School District, Beginning teachers salaries with a Bachelor of Art degree is \$4,650. This is an increase of \$336 per year. After 12 years experience, the teacher receives \$5,308. This maximum increase for B. A. degree is \$522 over last year's salary schedule.

Dimmitt teachers with their first year Master's Degree will receive \$4,950. This is an increase of \$411. (Continued on Page Seven)

Ramon Gil Injured In Butane Accident

Ramon Gil received serious burns Friday when an explosion occurred while he was filling a farm tractor with butane.

Gil is employed as a farm hand for Bud Giles. The tractor received about \$500 damages in the explosion. Dimmitt Fire Department was called to extinguish the flaming farm machinery.

Gil was taken to Plains Memorial Hospital where he was treated for burns on the face, back, arms and hands. He was transferred to Plainview Hospital where he is staying at the present time.

CONSTRUCTION is well underway on the addition of classrooms to South Grade School. Contractors have completed the walls of the new cafeteria for the Grade Schools. Classrooms and cafeteria should be ready for occupancy in the fall. —Staff Photo

Lynwood Hamilton Wins Cadet Award

Fifty-four cadets received sixty-two awards at the annual ROTC Day Awards ceremony held at 2:30 p.m. Friday, May 28 on the New Mexico Military Institute North Parade grounds.

Among the cadets receiving awards was Lynwood H. Hamilton of Dimmitt. The Roswell Daily Record Award for outstanding new cadets in each cadet company was presented to Hamilton at the banquet.

Senator YARBOROUGH'S REPORT

Dear Fellow Texan:

I am happy to report that the Senate has unanimously passed the Drug Abuse Control Bill, which will increase controls in an effort to stop the illegal traffic and sale of pep pills, goof balls, and other stimulant and depressant drugs.

The bill has already passed the House and will now go to the President to be signed into law. I am proud to be a co-sponsor of this law which will curb the illegal and ill-gitimate use of these drugs.

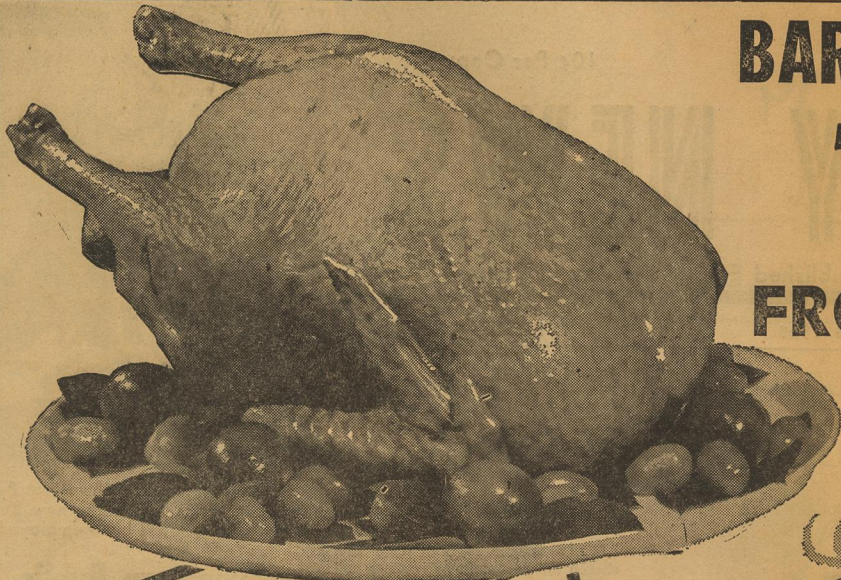

For years our society has struggled to contend with the so-called hard narcotics menace, and we have felt that they were used only in the criminal and degenerate elements of our society.

Meanwhile, drugs such as pep pills and goof balls that can affect the mind if abused in their use have invaded almost every segment of our society from truck drivers to house wives to our youth. Many of the tragic crimes in our society have been committed by people who were admittedly using these drugs to excess and the traffic in them has been steadily increasing.

These dangerous drugs have become popular with some students and some youths, even in our more stable neighborhoods. This bill is a needed control on the dangerous and socially harmful use of drugs. Legally, these drugs can be bought only on a doctor's prescription; however, testimony revealed that one half of the sales of these drugs are without prescription.

Under this bill there will be increased controls over the distribution of these drugs, strengthened laws regarding the bookkeeping and inspection requirements relating to the drugs and more control placed on the intrastate and interstate traffic of drugs. In addition, it will be made illegal to possess these drugs outside of the legitimate channels of commerce in them, to discourage peddling and illegal distribution of the drugs.

This is an important bill in removing temptation from our youth and in removing a means of destruction in our society, and I am proud to be associated with its enactment.

Water remains very much in the spotlight over the state. As June ended, cattle were in better than average condition, says the US Department of Agriculture, Pastures and ranges continued to furnish good grazing and rising cattle prices have resulted.

On the High Plains heavy showers boosted range prospects, but grass growth was slowing in many areas because of high temperatures which sapped soil moisture.

In the Trans-Pecos ranges some farmers and ranchers were forced to begin supplemental feeding.

Some farmers have been combating the rain problem by irrigating their crops. A joint study by the USDA, the Texas Water Commission and the State Soil Conservation Board indicates that irrigation in Texas rose significantly from 1958 to 1964. Amount of water used increased nearly one third, to 12,500 acre feet or an average of 18 inches per irrigated acre.

Amount of irrigated land increased by about 15 per cent during the six-year period. Much of the gain occurred in the High Plains - in the upper parts of the Canadian, Colorado, Brazos and Red River Basins - but some of it also was in the basins of the Rio Grande and Nueces Rivers.

By next September studies to show how much water will be available ground water strata already in use will be complete.

Then will come the job of finding additional sources to match yields to needs. This will involve searching for new surface water supplies as well as desalination of poor underground water.

When in-basin sources are checked out against the needs of each river basin, the planners expect to find some of the heavy rainfall regions will have more water than they will need, even to 2020, while others will not have enough.

Then, the question will be: where to take the surplus? \$100,000,000 SURPLUS - State government will begin the new fiscal biennium with a surplus of nearly \$100,000,000. But it will wind up with a balance of only \$4,200,000, according to estimates of the Governor's budget office.

In a recap of legislative spending, Gov. John Connally's staff totaled all appropriations at \$3,700,000,000, of which \$22,900,000 will come from general revenue. (Vetoes by the governor of \$2,600,000 from the spending bills are deducted.)

Figures put state cost of the average \$53 teacher pay raise at \$70,600,000 for the two-year period beginning September 1.

Total new revenue provided by the 59th Legislature will come to \$32,500,000, according to revised figures. Biggest portion of this comes from the three-cents-a-pack increase in the cigarette tax.

HOSPITAL TRANSITION UNDER WAY - Texas' vast system for treating the mentally ill, mentally retarded and victims of tuberculosis is entering a vital transition period.

On September 1, realignment and reorientation of these facilities and services, as enacted by the 59th Legislature, will go into effect.

Separation of the tuberculosis hospital treatment program from the mental health and retardation services and consolidating it with the State Health Department, which now handles case finding and follow-up work.

Abolishing the existing hospital board - general policy-making agency for mental and tuberculosis hospitals and special schools for the retarded - and creating a new Department of Mental Health and Retardation. A new, nine-member board will replace the present Board for Texas State Hospitals and Special Schools.

Sweeping new concepts of care, spelled out in recommendations of statewide study committees named by Governor Connally, are expected to be reorganized.

AUTO INSURANCE HIKES - Auto liability insurance rates will increase an average of 14.4 per cent on August 1. Rates will vary widely in the 26 rating areas in the state.

However, some coverages will go down in cost, by as much as 17 per cent. These policies are for insurance against losses not connected with accidents - such as fire and theft.

State Board of Insurance says it has carefully reviewed the loss data

forming the basis of the rate changes and finds that the new rates will be "adequate and reasonable as required by law."

In another area of insurance, Texas companies have had more than \$15,000,000 worth of claims from hail and storm damage. By this time last year, \$9,000,000 had been paid in such claims. Biggest blow came from the Wichita Falls storm of May 27.

BOUNDARY COMMITTEE NAMED - Governor Connally has named a seven-member committee to negotiate with Louisiana in an effort to settle a long-standing dispute as to the Sabine River boundary between the two states.

Connally appointed his executive assistant Larry Temple, Land Commissioner Jerry Sadler, Atty. Gen. Waggoner Carr, Sen. Martin Dies Jr. of Lufkin, Sen. Jack Strong of Longview, Rep. David Crews of Conroe and Rep. Charles Wilson of Lufkin.

Recommendations as to location of the boundary line will be submitted to the state legislatures and the Congress of the U. S. for ratification.

Louisiana has claimed the boundary is west bank of the Sabine. Texas maintains that the center line of the river is the correct line. Ownership of the area south of the mouth of the Sabine is in dispute.

Valuable oil and gas are at stake. TOURIST ATTRACTIONS PRAISED - University of Texas Bureau of Business Research credits tourist attractions with helping to keep the level of Texas' economy above last year's during the first five months of 1965.

However, business activity dipped 4.4 per cent in May.

January - May average index for 1965 was nearly 20 percentage points above the average for the same months in 1964. Bureau says there is "every indication" this will be a good year for the travel industry in Texas.

HOSPITAL FUNDS SHORT - State Board of Health has 65 applications for federal Hill-Burton hospital aid funds totalling \$38,000,000 but expects an allotment of only about \$14,000,000.

Hill-Burton funds assist communities in building and equipping non-profit hospitals and related health facilities.

Allotments of the 1966 funds are expected in August.

Many applicants will not receive Hill-Burton money during the coming fiscal year, warns Dr. James E. Peavy, State Health Commissioner.

SCHOOL CHECKS TO BE MADE -

Vehicles Collide At Jones And 4th

An auto-pickup accident occurred Saturday morning at 9 a.m. at intersections of Jones St. and 4th St.

Larry Clinton Gamblin, driver of pickup was headed east on Jones St. when his vehicle was struck on left side by a '54 Ford Station wagon driven by Robert Ewing.

The Ewing vehicle was headed south on 4th Street according to investigating officer, W. W. Jones. Ewing had stopped at stop sign and then pulled out into intersection but could not stop due to no brakes.

Damages included \$150 to Chevrolet pickup and \$100 to the Ford Station wagon which belongs to Lee Meske.

Ewing was given a ticket for operation of motor vehicle without any brakes.

Texas Education Commissioner J. W. Edgar served notice on local school officials that the Texas Education Agency will check complaints resulting from the Civil Rights Act.

Periodic reviews also will be made by TEA to ascertain whether or not districts receiving federal aid are abiding by non-discrimination rules.

Formal complaints will result in a hearing before Edgar, appealable to the State Board of Education and the courts.

SHORT SNORTS State Banking Board denied applications of Denison Bank and Trust Company and American State Bank of the Frontier State Bank of Eagle Pass has been filed.

Third Court of Civil Appeals has held an oil company may redrill and straighten slanted wells in the East Texas field.

House Speaker Ben Barnes named five Dallas representatives to survey cost of modernizing State Fair of Texas facilities in Dallas.

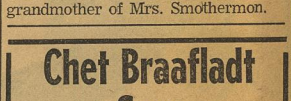

Parks and Wildlife Commission will meet on July 16 to review local hearings in 149 counties now under the game and fish regulatory responsibility program. Special meeting will be held later to set rules for 34 counties and areas added to the regulatory program by the 59th Legislature.

Governor Connally has announced approval of application of the Wintergarden Tri-County Committee, Inc. for a \$9,445 community action program to combat poverty in Maverick, Dimmitt and Zavala counties.

Only 10 of the state's parks will benefit from a capital improvements budget of \$1,900,000 provided by the General Appropriations bill.

Local FFA Members To Attend State Meeting In July

Three members of the Dimmitt Future Farmers of America Chapter will attend the State FFA Convention in Houston, July 14-16, 1965 according to Ray Bradley, President of the chapter. The three day meeting of representatives of over 900 FFA chapters throughout the state will include the awarding of advanced degrees, scholarships and awards to outstanding members of the organization.

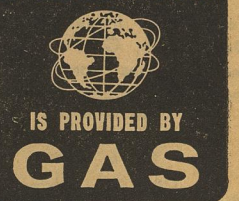

Members of the Dimmitt Chapter attending the convention are: Ray Bradley, son of Mr. and Mrs. Dent Bradley, Charles Summers, son of Mr. and Mrs. Melvin Summers and Don Moore, son of Mr. and Mrs. B. L. Moore. Ray has been selected by chapter members as delegate of the Dimmitt chapter to the state convention. Don and Charles will serve as alternate delegate.

Among the important business to be transacted at the convention will be the election of a state president from the ten state officer nominees, who have been elected by members in the ten areas of the state. Voting delegates to the National FFA Convention in Kansas City in October will be elected. In addition, delegates will elect a sweetheart from the ten candidates elected by the areas and will select the top talent team in the state.

The highest award of the Texas Association of Future Farmers of America, the Lone Star Farmer Degree, will be presented to 785 members of the 41,156 member organization. The membership will confer Honorary Degrees on adults who have contributed in an outstanding way to the accomplishments of the organization. A Vesper Service will be conducted on Tuesday evening, preceding the convention sessions. The service will be held in the Crystal Ballroom of the Rice Hotel. Principal speakers for the three day meeting will include the Honorable

Preston Smith, Lt. Governor of Texas and Kenneth Kennedy of Cadiz, Kentucky, President of the National Organization of the FFA. Four thousand rural youth are expected for the Houston meeting, July 14-16. Jon Henderson, Vocational Agriculture Teacher will accompany FFA members to the Houston Convention.

as if the symbolic line had been drawn, that we were going to "fight it out on this line if it takes all summer."

Then the whole thing fell apart. The farce began with an "agreement" at the U. N. not to force a vote. Decisions were arrived at by "agreement." All this was after, I might add, Under Secretary of State Ball told the nation, on October 5, 1964, that "we have taken a very firm position. . . we are going to insist on the full carrying out of provisions" (for enforcement of Article 29.)

We have now witnessed the not-so-gradual abandonment of that position. There are indications that we may "voluntarily" contribute funds to keep the organization going, in the

hope that Russia would then do likewise. I agree with Senator Dirksen's statement that "once this nation embarks on a policy of paying the debts

of other countries to the United Nations, there will be no end to the process. It will help neither the world organization nor the cause of peace."

Congressman Rogers' Week

Boxing Probe Scheduled To Begin Before House Commerce Committee

Congressman Walter Rogers will take part this week in a three-day investigation of professional boxing scheduled by the House Committee on Interstate and Foreign Commerce. The committee, of which Congressman Rogers is a ranking member, will consider proposed legislation to establish a Federal Boxing Commission.

Congressman Rogers said Chairman E. William Henry of the Federal Communications Commission would be the first witness to be called. Other witnesses will be persons familiar with various phases of professional boxing.

The hearings will be conducted Tuesday, Wednesday, and Thursday. "The Commission proposed in legislation before the committee would have power to prevent the televising by radio of any boxing event which

the commission has determined to be in any way affected by bribery, collusion, racketeering and so forth," Congressman Rogers said.

Legislation in the matter was introduced May 27 immediately following the Clay-Liston bout in Lewiston, Maine.

The other major House committee on which Congressman Rogers serves, the House Committee on Interior and Insular Affairs, has scheduled a general discussion for Wednesday on the adequacy of the nation's silver supply and reserves.

After what Congressman Rogers termed "a bitter wrangle," the House Rules Committee on Thursday cleared the way for action this week by the full House of Representatives on the "Voting Rights Bill of 1965."

Sen. John Tower's

Washington Report

There has been widespread speculation, in the press and in political circles, that the United States may bail the United Nations out of its financial difficulties by paying the legitimate debts owed that organization by Russia. This, in my opinion, would be most unwise.

If the "idea" behind the United Nations is not strong enough to sustain that organization through trials and tribulations, how is its future going to be assured through the contribution of tax dollars on our part — to pay a debt that we not only do not owe, but which is owed by those who oppose us on every turn within that organization.

No amount of polished phrases and wishful thinking can ever erase or obscure the plain, simple fact that we have again been beaten, and beaten badly, in our dealings with the United Nations. We insisted that Russia pay its legal debt for "peace keeping" operations in the Congo and in the Mid-East. Russia refused. We made an issue of the matter in the U. N., insisting that we were going to call for enforcement of Article 19, which says that any nation more than two years in arrears on its U. N. obligations will lose its vote in the General Assembly. Most Americans felt a touch of pride when this became known. Most, I believe, had grown a little weary of America being badgered, in the U. N., by nations that constantly violate the spirit of the U. N. Charter. We felt

Boy Scout Watch Trick
Every Boy Scout knows how to use his watch as a compass.

Here's how to do it: Hold the watch flat in your hand, face up, with the hour hand pointed toward the sun. South then will be halfway between the hour hand and 12 o'clock.

Use standard time and forget the minute hand.

Plains Memorial Hospital Offers New Lab Service

Plains Memorial Hospital is offering a new service known as, PKU test, performed by the laboratory announces Stanley Kennedy, lab technician.

This test is given to detect early mental deficiency in infants which can be cured through a special dieting program. The test is performed by taking a sample of blood and running a special test on each newborn at Plains Memorial Hospital.

The PKU test will show if there is an early indication of an excess of PKU (phenylketonuria). If an excess of PKU is noted in the blood test the child will eventually become mentally retarded. An excess of PKU can be remedied with a year of special dieting. If this condition is discovered at infancy, it can be corrected and the child will have a normal development during childhood. This condition is inherited. It has been discovered mainly in the Caucasian race and to date there has been one case of a Negro baby. Phenylketonuria occurs in about 4 out of 100,000 persons. Among mental defectives, the incident is 0.5 per cent.

Symptoms include I. Q. deterioration during the first few years of life, which then levels off. Progressive mental deterioration after the fifth year is an exception. Epileptic seizures occur in about 25 per cent of children affected by PKU. Skin disorders are common.

It costs about \$1500 a year to put the child on a treatment routine which includes a special diet to correct the situation. If the child has already reached the stage of mental retardation, it will cost \$7,000 a year for treatment and care.

Local Men Will Make FB Tour

James Proffitt and Rayphard Smithson will leave July 11 on a week-long Farm Bureau - sponsored bus tour of five mid-western states to observe operations of county Farm Bureaus in those states.

Proffitt and Smithson will join approximately 175 other county Farm Bureau leaders from all over Texas in the seven-day tour through Oklahoma, Kansas, Missouri, Iowa and Illinois. This "Institute on Wheels" is designed to give a first hand look at programs carried on by effective county Farm Bureaus in some of the most important farming areas of the U. S. It replaces the annual Texas Farm Bureau Institute which has been held each summer since 1949.

Four, and possible five chartered buses will be used - departing from Houston, San Antonio, Abilene and Lubbock. The buses will rendezvous in Oklahoma City. They will be joined there by other buses carrying county FB leaders from Oklahoma.

After leaving Oklahoma, the caravan of buses will be divided into four groups, each one taking a slightly different route to visit not only county FB offices, but also farms, feedlots and other outstanding agricultural facilities in the five states on the itinerary.

The County Farm Bureau leaders will hold a big rally Wednesday evening, July 14, at the headquarters of the state Farm Bureau in Bloomington, Illinois. There they will be joined by another bus group from Arkansas to hear an address by Charles B. Shuman, president of the American Farm Bureau Federation. Presidents of the three southwestern states, including C. H. DeVaney of Texas Farm Bureau, will be in attendance.

On the way home, the group will stop in St. Louis Tuesday, July 15, to see the baseball game between the St. Louis Cardinals and the New York Mets. The Texans will arrive back home on Saturday, July 17.

The mobile training school is here for a second phase of the TFB's leadership training program for 1965, and is a major activity in the organization's "accelerated program" this year. It complements area leadership training schools held over the state in February and March.

"This will be the most informative school ever held for our Farm Bureau leaders," according to Wayne Little, Waco, TFB organization director. "The tour is designed primarily to study successful county Farm Bureaus that are effectively serving their members," he said.

Senator YARBOROUGH'S REPORT

Dear Fellow Texan:

Important progress in the field of health was made last week, as the Senate passed three bills which will assist in the construction of health facilities and provide funds for research into major illnesses and diseases.

The first of these bills is the Heart, Cancer and Stroke Bill which will provide money for research into the causes of the diseases and ways of combating their occurrence. This is an important bill as these three diseases together cause more than half of all the deaths in the United States in one year.

It is estimated that 48 million people now living have cancer; in 1963, 201,166 persons died of strokes, and there are at least 2 million more who have had strokes that are still alive; in that same year, 707,830 persons died of, and from 25 million to 30 million more suffered from, heart disease. These statistics show the value of a concentrated research program into these diseases.

A second bill, the Mental Retardation Facilities and Community Health Centers Construction Act will authorize grants for the staffing of the mental health centers being built under the 1963 Act. This is a greatly needed feature to provide staffing for these centers. The bill also extends the program for training teachers of mentally retarded and other handicapped children, to help meet a great shortage and a need for over one-quarter of a million teachers in this area.

The third bill passed this week was the Health Research Facilities Amendment Act which would provide for the construction of health research facilities by extending the expiration date of the present law and by providing increased support for the program. Under this bill many research activities will be enhanced by adding an additional three years for the construction of health research facilities under the existing matching grant program with the states.

I have supported these bills in the Labor and Public Welfare Committee and during their consideration in the Senate, and I believe they will be helpful in keeping the United States first in the world in the field of public health.

School Tax Rate—

and milk or cream. Dot an 8 inch baking pan with the oleo. Pour mixture into pan. Pour the juicy fruit on top of the batter, such as canned cherries, berries, peaches, or pineapple. Fresh stewed fruit may also be used. Bake at 375 degrees F. for 30 minutes. Serves four to six.

★

This month home demonstration club members and their families are enjoying family picnics and suppers. Summertime is such a wonderful time for family activities and recreation.

To loosen food burned on an enameled pan, add 2 teaspoons of soda to 1 quart of water and boil; then remove it with a rubber scraper or a cloth dipped in more soda.

I found this especially helpful in removing burned hot chocolate from the bottom of an enamel pitcher used during the Project Show.

Incidentally, the bulletin "Care of Household Metals and Kitchenware" is now available from the Extension Office. Call or come by for your copy.

Walter Rogers' WASHINGTON NEWSLETTER

COMMUNIST OFFICER OF LABOR UNION

Archie Brown, an open and avowed Communist for more than a quarter of a century, served on the executive board of Local 10 of the ILWU in 1959, 1960, and 1961. In 1961 he was indicted for "knowingly and willfully serving as a member of an executive board of a labor organization... while a member of the Communist Party, in willful violation of Title 29, United States Code, Section 504."

A jury found Archie guilty and he was sentenced to six months' imprisonment. The Court of Appeals held that Section 504 of Title 29 USC violated the First and Fifth Amendments to the Constitution, and reversed the conviction. The case was presented to the Supreme Court. That Court, in an opinion written by Chief Justice Warren on June 7, 1965, held that the statute was a bill of attainder and therefore violated Article I, Section 9, of the Constitution, and affirmed the decision of the Court of Appeals setting aside the conviction.

This was a split decision, being five for setting aside the conviction and four dissenting. The following Justices: White, Clark, Harlan, and Stewart, disagreed with the conclusions of Chief Justice Warren and the other four members of the Court.

The Archie Brown decision will, in my opinion, go down in the history of this country as one of the most infamous decisions rendered by the Supreme Court. It will, I hope, create enough furor throughout the country to force remedial action.

Those of us in the Congress who have long challenged the advisability of the absolute power in the Supreme Court to declare acts of Congress unconstitutional look upon this decision as a perfect example of the tragedy against which we have long warned. The decision in this case, to set free a well-known and avowed Communist who had openly and flagrantly violated a Federal law, was based primarily on a misconstruction and a misinterpretation of the term "bill of attainder." I have long argued that, if this can be done, there is no limit to the power of the Supreme Court of the United States. Such decisions are final and not appealable.

This problem can be solved by the people, through a Constitutional Amendment limiting the power of the Supreme Court with regard to declaring legislative acts unconstitutional. In the meantime, those of us who have long sought a solution short of amending the Constitution, will continue to search for means and methods through statutory provisions to stop the dangerous course represented by the decision in the case of the United States v. Archie Brown.

...ATTEND CHURCH

GOOD FRUITS

"The wisdom that is from above is first pure, then

peaceable, gentle, and easy to be entreated,

full of mercy and GOOD FRUITS."

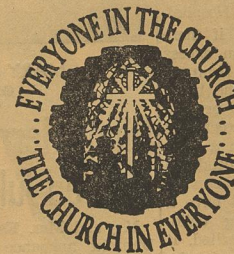

There are two forces at work in this world,

evil and good. We have the freedom to

choose between these two things,

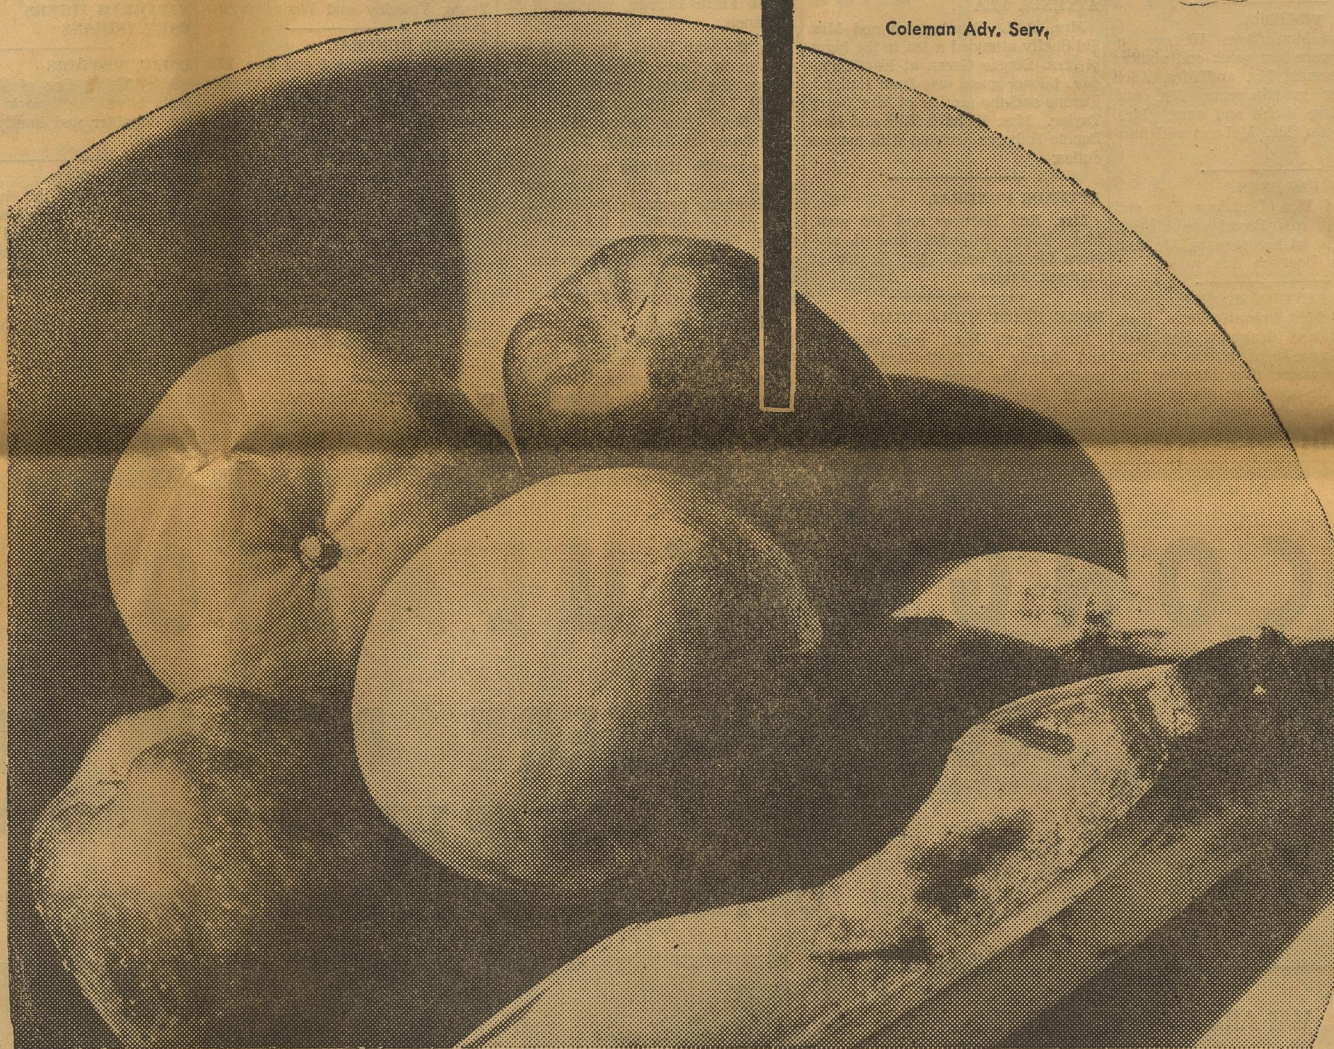

"O taste and see that the Lord is good:

blessed is the man that trusteth in him."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

RURAL ELECTRICITY

helps
America
grow...

Placing power lines where they are needed is fun for a child, but it is a big job for the nation's power industry.

Today, consumer-owned electric systems such as ours serve 54% of the rural population, and the demand doubles every seven years.

Meeting the rising power-needs and preparing for tomorrow takes the best efforts of the entire power industry. In our area we are proud to be carrying our share of the load.

Hi folks! Have you ever made a fire inspection of your home? Do you leave any oily rags in places, like your clothes closets or garage or utility rooms, that could cause a combustion and start a fire?

Do you hang your clothes in the closets with the hangers all the same way, so they can be removed several pieces of clothing at a time in case of emergency. Are your windows and screens so they can be opened as a means of escape in case someone was to get trapped in some part of the house without a door?

Has your family thought of a plan of escape in case of an emergency? There are other things to consider besides just the fire.

Does your smaller children know how to open the windows and screens in case there arises such need?

While attending Firemen's School at Texas A & M, one session was on fires in tenant houses. Films were shown on these fires and one house was shown where two children were trapped in a room next to a window, but didn't know how to open the window. The parents had not shown them how to escape in case of an emergency.

last breath after bringing one of these boars to bay.

A spooked hog never seems to tire. It isn't unusual for a boar chase to range over 10 miles or more of terrain.

Like most creatures of the wild, when confronted with danger, the Russian hog would rather flee than fight. But once the occasion arises, it will turn with a viciousness seldom seen in any other game animal.

Snow carries a small suture kit in his hip pocket on every hunt. It's almost an expected thing that at least one of his dogs will get laid open before the hunt ends. When this happens, Bob gets off his horse and administers first aid, patiently stitching the dog together. All his dogs carry scars of battle.

These accidents occur, Snow explains, simply because dogs are neither fast enough nor elusive enough to evade the charge of a belligerent hog.

A Russian boar can lash out so swiftly and so suddenly that it is difficult to follow the action by eye. One instant the hog is backed up against the brush; the next instant dogs are flying in every direction, tossed aside like a bowling ball scatters pins.

A Russian boar is a mean-looking critter. It is muscular and lean in the hips, has a protruding snout, sharp tusks and coarse hair. It prefers a hilly habitat and roams furtively through the underbrush where it seldom is glimpsed by human eyes.

Only practical way to hunt them is with trained dogs.

No one knows exactly how these foreign hogs came to Texas.

One legend has it that many years ago a traveling wildlife exhibit pass-

ed through San Antonio and included in the display were several of the European or Russian hogs. The owner of the small exhibit was down on his luck and wanted to dispose of his animals. So he sold them to a rancher who wanted to crossbreed the wild hogs with domestic stock.

But the hogs eventually escaped or were released. No one knows for sure. Anyway, they scattered into the hills. And from that inconspicuous start, they soon began multiplying and expanding their range.

Ranchers claim a Russian hog is one of the worst pests ever to roam the woods. A big, ornerly one will tear down fences, root up crops and actually kill domestic stock.

Here's evidence that Russian hogs are tough and difficult to hunt. It's a tale Bob Snow likes to tell about the time he was on the trail of an extremely large hog, in the 400-pounds-plus class. This happened on a hunt near Boerne, northwest of San Antonio.

Five times the dogs brought the hog to bay. And five times Bob blasted it pointblank with his .45 pistol! Yet the hog refused to die.

Finally it eluded the hounds, killing two of them in the process. Snow never did bring that boar in. However, deer hunters found it two weeks later some distance away, where it had wiggled under a brushpile to die.

On another hunt a boar had one of its hind legs shot off, yet it managed to run for six miles before the dogs finally brought it to bay.

We repeat — Russian hogs are mean. . . and tough!

An outdoorsman knows that, even on the darkest night, there is a little

luminous quality that will permit him to see when his eyes are accustomed to it.

By this tiny bit of light, an experienced angler can approach his favorite weed bed, stop within casting distance of it, toss his plug to the edge of it, and entice the lunkers. But he must be ready to react quickly.

You'll enjoy night fishing. Everything is still and quiet. There is just a little splash when your top water bait hits the water, and maybe a gurgle when you twitch it now and then. But you're never really ready when there comes a sound like a cow falling in the creek.

That's what it sounds like, in the still of night, when a lunker hits. It'll scare the living daylight out of you.

Your first thought is "careful." You want to set the hook. But you also want to avoid unnecessary tension on the line.

I wouldn't worry too much about hook-setting when a big bass hits a towwater lure. Usually, he has tried to swallow the thing, or kill it, and is well hooked.

If he's not on when you start hauling the line, wait a minute. He may have simply smashed it with the idea of stumping the thing. Now! Move the lure slightly, from time to time, a light twitch now and then. If no strike, reel in slowly and cast again. He'll come back for dinner.

Night fishing demands that you be ready when the big bass strikes. Be sure he's hooked, then bring him in quickly. Don't let him wind your line around moss or a submerged tree, if you can help it. That's his life-saving trick. At the same time, don't apply so much tension that you

tear the hook out of his mouth.

It all sounds complicated. . . which it is. Also it involves judgment on your part. But in case of doubt, put on the pressure. When it's a big-mouth bass you're dealing with, you may have to horse him in. Don't give him any slack line — day or night.

What about night fishing for white bass?

Here's another fish that will take your lure at night. It's really his preferred feeding time. However the minnow is his favorite meal.

In the spring, whites migrate upstream and move out into the tributaries of large rivers and lakes, seeking shallow water for the spawning season.

Find the right place and you can load the boat with white bass.

You are looking for a spot where there is a current and the bottom is sandy or rocky. A stream running into a lake is perfect. Or a river dam where power is generated, creating a swift tail race, will do very well. Otherwise, locate a spot in the lake where a sand bar rises to 15 feet or less from the top.

Fish one of these locations in spring and summer, using minnows, spoons, or jigs, and you will be rewarded with a fine string of sandies.

Night fishing for whites in summer is a good and growing sport.

If you don't know where the white bass stay in summer, ask a fishing buddy, your friendly tackle shop man, or a good camp operator. You will learn that the white bass favor a certain area.

Go there at night, equipped with Coleman lantern, a bucket full of silver shiner minnows and patience to wait'em out — and you'll have a full

evening of fun.

You won't have much trouble finding the place, for other boats will be there too, with lanterns lighted. Often it looks like a small town on the water, as fishermen gather to bring in the white bass.

When you are anchored and ready, fire up the lantern. Use a reflector shield, if you have one, to direct the bright light onto the water and not in your face. Aluminum foil will serve temporarily.

This illumination will attract small flying insects, and they in turn will attract shad, and shad will attract white bass. That's the theory — we won't argue with it. All we want to do is catch fish.

If the theory is based on truth, and it may well be, we don't care how many other boatmen are in the place — the more the merrier, in fact. More lights, more insects, more shad, more white bass. There's plenty for everybody when sandies congregate.

All you have to do, in this night fishing for white bass routine, is hook on a minnow, let it down to the proper depth, sit back in the boat, and relax. But watch your rod tip! These boogers strike like lightning — but lightly.

Night fishing for crappie is an exciting game too, particularly in the summer.

I've been on a lighted dock where all hands took their limit in the last hours before sun-up. Here again, we're minnow fishing.

However, crappie will react to other baits such as cut bait, small spinners, and what have you.

Whether you go to a commercial lighted dock, or set out your own, you must have the lights for night

Accent on Health

J.E. PEAVY, M.D.
— Commissioner of Health —

Your feet must last a lifetime and if you've been sight-seeing, hiking or just walking a lot lately, you're probably quite conscious of this fact.

Just because your feet are the lowest extremity of your body, doesn't mean that they deserve to be mistreated. Far from it. If your feet are to last a lifetime and serve

you well, they require good care.

If you can heed the findings and suggestions by researchers and physicians before you have difficulty with your feet, you'll be way ahead.

According to a recent study, three times as many boys as girls have mild to severe skin problems with their feet. The researchers related that fact to the girl's students tendency to take off their shoes or slip their heels out of their shoes when sitting in classes or elsewhere. The girls also wore lighter and lower shoes than the boys. Both of these habits tend to minimize excessive perspiration of the feet.

Perspiring feet are moist feet, and moist feet provide an excellent environment for the growth and multiplication of the organisms which contribute to diseases of the feet.

Although the locker room has long been considered the culprit of foot infections, research show that fungus disease of the feet is probably not spread by such exposure.

Instead, there are several points you can note and include in your foot-care program.

Keep your feet clean by washing them frequently, always drying them thoroughly. If needed, use an antiseptic foot powder after drying.

As for footwear, use lightweight, light colored socks to minimize excessive perspiration. And change socks whenever they become damp.

The shoes, researchers found, normally contributing the most to good foot hygiene are those that cause the least perspiration. And as for youngsters, the researchers found that oxford's are preferable to boots, sneakers or tennis shoes for all-day wear.

Instant Traction

Hunting and fishing enthusiasts often travel over icy roads - and - they often find their wheels spinning helplessly on a spot of glazed ice. When this occurs, relief can be had in many cases by scraping off the mud that has accumulated under the fenders. This dirt will afford enough grit on the slick spot to supply the necessary traction.

Dear Blabby:

SAVE THAT NICKEL

By Oma Siler

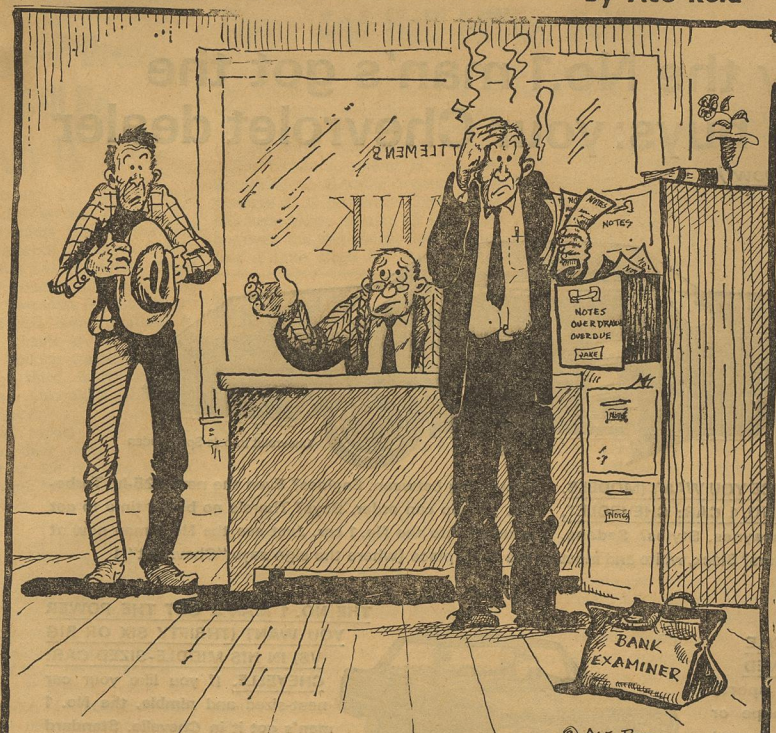

Dear Blabby: What can I do about this problem? My wife, mother-in-law and I think we got took. We shopped on one of those "buy at wholesale" furniture and appliance stores and thought we got a big deal on our new refrigerator and TV. But yesterday I went past ALLENS HOME FURNISHINGS at 315 North Broadway and saw new models, for a little less money, on the same items. I went in, and Mr. Larry Allen said, yes, these were just his everyday prices. Now my wife and mother-in-law are telling me what a sucker I was. They're right, but can I do anything about it?

—GYPPED.

DEAR GYPPE: Well, you've done one thing. Spent a nickel postage to ask my advice when you already know the answer. Next time, shop FIRST at ALLENS HOME FURNISHINGS and you won't have to write me sad letters. Save at ALLENS and save postage money too.—BLABBY

CHARLES YEATES

Charles Yeates To Instruct Welding Short Course Here

An oxy-acetylene welding short course for adult farmers will be held July 19 to 22 under the sponsorship of the Dimmitt High School Vocational Agriculture Department, according to Mr. Paul Hilburn, Superintendent and Mr. E. Otte and Jon Henderson, teachers of vocational agriculture.

Mr. Charles H. Yeates, welding specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Agricultural Engineering at Texas A & M College, will be the instructor for the course. He is headquartered at Texas A & M College.

Mr. Yeates holds a B. S. degree from Texas A & M College in Agricultural Education. Mr. Yeates taught vocational agriculture and farm shop for a period of 15 years. He also taught automobile mechanics, electricity, electrical and acetylene welding and woodworking in the Jasper County vocational school. He has had two years experience as a draftsman, and two years experience as a welder.

"Many oxy-acetylene welding short courses in various parts of the state have been taught by Mr. Yeates and all have met with outstanding success," according to Walter Labay, area supervisor of vocational agriculture Plainview, Texas. Arrangements for the adult education short-course in welding and in other fields are made through Mr. Labay's office.

The short course at Dimmitt is scheduled to begin July 19 at 8:30 p.m. in the vocational agriculture building. Other meetings in the series of four will be held July 20, 21 and 22. During the dates the short course is in progress, Mr. Yeates will be available to assist farmers with individual problems and to provide on-the-farm instruction, according to Mr. Otte.

Farmers interested in attending the short course should write or call the superintendent of schools, Mr. Hilburn, or the teachers of vocational agriculture, Mr. Otte or Mr. Henderson. An entry fee of \$10.00 will be charged. Oxy-acetylene welding short course certificates are to be presented to each enrollee who attends all the training sessions.

Mr. Yeates stated that the short course will be adjusted to wishes and interests of farmers enrolled but that he expects to cover such subjects as safety in oxy-acetylene welding, factors controlled by the operator
