PRICE FIVE CENTS

No. 90

Ranger is the center of the agriculture and livestock industries of the area with relative industries bringing much business to the town. It is also the home of Ranger Junior College, one of the best public junior colleges in the state.

THE RANGER DAILY TIMES is the oldest daily newspaper in Eastland County, the first edition appearing on June 1, 1919. World news is furnished the readers through United Press daily wire service.

Well...
I Dunno,
But...

Recently it was brought to our attention that Maj. Gen. Harry H. Johnson who was commanding the 22nd Armored Division in the Organized Reserve Corps at Camp Hood was a former resident of this area and has many friends here.

We mentioned this fact to the Rev. David C. Ham who trained this summer with the division as a reserve captain and learned that Gen. Johnson was the Rev. Ham's first commanding officer after he entered the service in 1941. At that time the two were with the 56th Cavalry Brigade at Fort McIntosh at Laredo.

We have in Ranger a little group of women who are banded together for the sole purpose of helping needy people, particularly children. That group, while more or less unbranded, does a tremendous job in welfare work and is known as the Child Welfare Club. The year around they are on the job to help those that need help and at Christmas time each personally finances and delivers a basket of food to some needy family.

But their job is so big that they can't personally finance all of their work so each fall a drive is made for funds to help in the work. The club is planning soon to launch such a drive and you will be called upon to do your part. You may be assured that whatever you give will be well and wisely spent for relief to the needy.

It's a job that somebody has to do and these women do it voluntarily.

The between-halves gridmen were at it again Thursday night and provided almost as much fun as the game between the Rangers and H.S.U. Freshmen.

Without respect for the rule of eleven and without bothering to choose up and take sides, the pack ripped and ranted down the field usually in pursuit of two black skins that did most of the ball totin'. We inquired around but nobody could give us the names of the two speedy 'backfields' that were giving their white playmates a run for their money. But they were sure playing in 'white' territory most of the time.

Will Faifer, director of the Ranger School Band, tells us that his batid is the proud possessor of a new bass drum, a gift from Mr. and Mrs. Frank Wieser.

Naturally, the band director is delighted with the gift and says that he's very receptive about such things and that if there's anybody else that has an instrument he wants to donate, all he has to do is mention the fact. And Faifer will step up right quick to receive the gift.

Pfc. Billy Quinn who is stationed with the 8th Army in Japan recently wrote to his mother, Mrs. H. L. Quinn, describing the typhoon which struck Japan. Billy lost a good part of his worldly possessions in the storm and stated that it was the most terrific thing he had ever experienced and hopes that it's his last such experience. Water rolled in from the ocean covering buildings under 30 and 40 feet of water, destroying well built brick buildings and even pitching stones up from the ocean floor into their buildings.

Billy, who is something like a receptionist at the Officers Golf Club was recently commended for his courteous and efficient service at the club.

Poles Force Pilot To Land In Sweden

STOCKHOLM, Sweden, Sept. 16 (UP)—Five Polish refugees rescued the pilot of a Polish passenger plane at a point to change course today and land in Sweden, where they asked for asylum and protection.

The plane was on a flight from Gdansk (Danzig) to Lodz in central Poland. With a gun at his head, the captain changed course and headed north for Sweden.

The plane, with 12 persons aboard, landed at a military airport near the little town of Nyckoping, a few miles south of Stockholm.

All passengers were taken into custody immediately by state police.

Diver Searching For Bodies In Crashed B-36

More Phone Service For Ranger Area

The Ranger area is now enjoying mobile telephone service and additional telephone facilities are in the making for Ranger, according to W. H. McAnally, manager of the Cisco District of which Ranger is a part.

Already in use are 32 units of automobile telephones from which calls are transmitted through the radio-telephone tower on the hill in the north part of Ranger. In the process of installation are three new switchboards for the Ranger office which will give an additional 500 telephones to the city.

A crew of four technicians is now at work in Ranger installing the new switchboards which will

place the number of telephones for Ranger near the 2,000 mark. McAnally stated that the present switchboards were almost completely in use, leaving only a very few lines for new subscribers. He pointed out that while the new boards will place the 500 additional lines at the service of the community, it may be some time before they can actually be put in use because of the necessity of installing additional outside facilities such as lines, Ranger now has 1354 telephones in use, including those within the city limits and about 80 that serve rural users. Thirty-two applications for service in Ranger are now filed with the company.

The current expansion in Ranger is being done at a cost of \$21,750.

In speaking of the mobile telephone service, McAnally stated that facilities are already in operation to serve an area including Ranger, Eastland, Carbon, Gorman, Desdemona, Cisco, Breckenridge, Stran and Gordon and are proving very successful. It was explained that persons using the mobile units may step to their cars, pick up the instrument and instantly the operator answers. Mobile service operator, Ranger. The call is placed and within the usual length of time the person placing the call can talk to any point in the United States.

The service is the same as any other telephone service except that it employs the use of radio as well as the telephone lines. This area is one of the first in Texas to be thus served and McAnally stated today that the service is being expanded just as rapidly as possible. Service will be extended to the Albany area & the oil fields of that area and later a tower such as the one now in Ranger will be installed at Elginville to extend the service to a much wider section.

In discussing his district, McAnally stated that Ranger is in excellent condition so far as telephone service goes.

FOUR STILL MISSING IN B-36 BOMBER PARTIALLY SUBMERGED IN LAKE

W. T. WALTON
W. T. Walton Is Vice-President Of University

W. T. Walton, assistant to the president and dean of students, has been appointed vice president of Hardin - Simmons University, President Rupert N. Richardson announced Wednesday.

"The appointment is a definite promotion, which Hardin - Simmons is happy to announce," Dr. Richardson stated.

Walton is a member of the Bible and Education Departments at H-SU. He has been active in religious and civic activities of the university and community. He had been assistant to the president at H-SU since 1941.

A graduate of H-SU, Walton attended the University of Texas Law School, received a degree from the Yale Divinity School, and has done graduate study at the University of Texas.

BY ROY CALVIN
UNITED PRESS STAFF CORRESPONDENT
FORT WORTH, Tex., Sept. 16 (UP) — A drizzling rain fell today as a Navy-trained diver searched the wreckage of a B-36 Superbomber which crashed into Lake Worth last night and killed one man and apparently four others.

Eight of the 13 crewmen aboard were rescued. The body of T-Sgt. William G. Seymour, Fort Worth, a radio operator, was recovered shortly after the giant "Atom Bomber" nosedived into the lake, which adjoins Carswell Air Base, crashed during an attempt takeoff.

Melvin Best of Arlington, Tex., was the diver. Carswell Air Force authorities said an attempt may be made to raise the plane but that the weather was hampering salvage operations, but not the search for the missing airmen.

The missing airmen were identified as Capt. Harold L. Kernodle, Hampden-Sydney, Va., extra pilot; 1st Lt. Herman S. Styles, Jr., San Antonio, navigator-bombardier-radio operator; Maj. Joseph L. Lemming, Jr., Dayton, O., navigator-bombardier-radio operator and M-Sgt. John G. Stanko, Apollo, Pa., engineer.

They were the first airmen killed in a B-36 since the plane, largest land-base bomber in the world, was developed in World War II and became the center of a heated quarrel between Air Force and Navy officials.

Previously, several super-bombers — designed to deliver the atom bomb anywhere in the world — were forced down and on March 27, 1947, 12 men had to bail out of a B-36 that crashed. But no crewmen were injured in those mishaps.

Maj. Toy B. Husband of Woodlake, Cal pilot of the plane, was among the first rescued but could not be reached for comment.

Heavy skidmarks and pieces of burned rubber marked the spot where Husband tried to bank off to the left before the plane hit the water and broke into two sections with its tail jutting 20 feet above the surface.

Witnesses said the plane "never was airborne" and hit at 150 MPH. A heavy slick spread on the water as the tanks and oil lines burst losing their loads of 21,116 gallons of gasoline and 1,200 gallons of oil.

Radio stations and police viewed the hundreds of spectators that carried use of matches could set the lake surface aflame.

The weight of many spectators collapsed a pier across the lake but Capt. Jack Southerland of the Highway Patrol said no one was hurt.

Carswell spokesmen would not disclose the plane's destination other than that it was on a "routine night training flight," that could mean almost anything since the B-36 has a range of 10,000 miles.

In addition to Husband, crewmen rescued were identified as Maj. John Keene, Miami, Co-pilot; Lt. Richard L. English, engineer, Sartell, Minn.; T-Sgt. Harry Holloway, junior radio operator, (6752 Boardman Blvd.) Youngstown, O.; Sgt. James H. Bradshaw, gunner, Elysean Field, Tex., and Staff Sgt. Jack Allen, gunner, Weatherford, Tex.

Seymour was lying unconscious on the wing of the bomber when a crash boat reached the area three minutes after the accident. He was pronounced dead on arrival at a hospital.

T-Sgt. Rex Zinn of Plymouth, Ind., a member of an Air Force crash boat crew, said three men were rescued from the tail of the bomber and one from the fuselage.

Zinn said crash boats manned by civilians pulled the other four men out of the water.

The Weather

EAST TEXAS—Partly cloudy this afternoon, tonight and Saturday. A few showers this afternoon, in north and central portions tonight, and in east portion Saturday. A little warmer in north portion. Moderate south easterly winds on the coast.

WEST TEXAS—Partly cloudy this afternoon, tonight and Saturday. Warmer in the afternoon. Showers on the south plains and from the Pecos Valley eastward this afternoon and tonight.

Collision Takes Three Lives

Impact of a collision between a passenger car and a bus near Wichita Falls Texas, separated the auto's body from its chassis and killed the three occupants of the car. Dead were Mr. and Mrs. Luther Jackson, Madril, Oklahoma, and their five-year-old daughter, Linda Sue. (NEA Telephoto)

Lewis Studying Welfare Fund

WASHINGTON, Sept. 16 (UP)—John L. Lewis today left soft coal operators to wonder about his strike plans, if any, while he and other trustees discussed the condition of the United Mine Workers' \$100,000,000-a-year welfare fund.

The UMW chief recessed wage-hour talks at White Sulphur Springs and Bluefield, W. Va., to attend the fund trustees' meeting in union headquarters here.

The meeting could produce a new blast from Lewis against operators who, he claims, are sabotaging the fund by stopping their 20-cent-ton contributions. The fund, which finances \$100 monthly pensions and other benefits for miners and their families has been depleted by these "defaults" as well as by a slowdown in coal production imposed by Lewis himself.

Benefits from the fund are running to more than \$8,000,000 a month. Receipts since July 1, when Lewis put most of the industry on a three-day week, have been less than \$5,000,000 a month. Some industry sources said the fund is almost bankrupt. Lewis has demanded that the non-paying mine owners "remilt" at once. He has threatened to strike if they don't. Most mine operators have thought the strike might start Monday.

Ranger Man Held On Theft Charges

ARNETT, Okla., Sept. 16 (AP)—Undersheriff Clell Bowles of Ellis County, Okla., said Wednesday night three men arrested in Texas have been returned here for trial on burglary charges.

Bowles identified the three as Otis Woodring, 24, Snyder, Okla.; Harold H. Ainsworth, 31, Ranger, Tex., and Clifford L. Haugawout, 29, Perry, Okla.

The undersheriff said Woodring was arrested earlier this week at Borger, Tex. Ainsworth and Haugawout, he said were arrested in Miami, Tex. All waived extradition to Oklahoma. Bowles said, and were brought here Tuesday. He said the three are charged in connection with two burglaries committed here Sept. 7.

Italy is the leading European producer of raw silk and ranks third in world output.

Segregation In Schools To Be Tested In Suits

DALLAS, Sept. 16 (UP)—Texas state law requiring separate schools for negroes and whites will be tested in Federal District Court this fall.

One of two injunction suits will be heard at 10 A. M. Oct. 1 before Federal District Court Judge William H. Atwell.

Two suits have been filed this week and one of the attorneys, U. Simpson Tate, 18, special regional counsel for the southwest division of the National Association for the Advancement of Colored People, he will represent petitioners in both cases.

The Waxahachie Independent School District and superintendent are named in the suit brought yesterday. The other suit was filed against officials of the Addison Independent School District in Dallas County.

The Oct. 1 hearing concerns the Ellis County suit involving Waxahachie schools. The petition for an injunction asks that segregation be declared unconstitutional. It would bar school officials from maintaining "separate and unequal" school for negroes.

Four Uninjured In Crash Landing

DALLAS, Sept. 16 (UP)—A two-engine Army training plane crash-landed at Love Field early today when its landing gear buckled, but the four men aboard walked away unhurt.

The plane, based at Tyndall Field, Fla., was enroute from Offnut Field, Neb., to Barksdale Field, La. After receiving a report the weather was bad at Barksdale, Pilot Lt. D. G. Love returned to Love Field, although his gear was low.

Others aboard were co-pilot Lt. C. F. Doane, and two passengers Sgt. N. L. Derregorio, from Tyndall Field, and Cpl. C. K. Wood of Colorado Springs, Colo.

Longview To Get Sponge Iron Plant

LONGVIEW, Tex., Sept. 16 (UP)—Plans for building a \$1,000,000 sponge iron plant, the only of its kind in the world, were announced today by Southwestern Metals, Inc.

Southwestern Metals, composed of nationally-known industrial leaders including some Texas, has a franchise on a process of direct reduction of iron by use of natural gas.

Rajk Implicates Others In Plot

BUDAPEST, Hungary, Sept. 16 (UP)—Ex-foreign Minister Laslo Rajk testified at his own treason trial today that Marshal Tito of Yugoslavia, Joseph Cardinal Mindszenty of Hungary and American officials plotted to overthrow the Hungarian government.

Pleading guilty at the outset of the trial, Rajk said in a marathon confession that U. S. and Yugoslav agents blackmailed him into becoming ringleader of the plot by threatening to disclose his past as an anti-Communist stool pigeon.

He insisted that the Yugoslav plot was master minded by Interior Minister Alexander Raknovic, and was timed with a simultaneous campaign of revolt by the Vatican.

New Minister At Christian Church

The Rev. R. C. McCord has accepted the pastorate of the First Christian Church in Ranger and has taken up his duties as pastor.

The Rev. McCord comes to Ranger from Mount Vernon, Indiana, where he was pastor of the First Christian Church. He is a graduate of Manhattan Bible School and received his master's degree at Cincinnati. This is his first pastorate in Texas, having served churches in Kentucky, Tennessee and West Virginia during the last 20 years.

He and Mrs. McCord have four children, Val Jean, 9, R. C. McCord Jr., 17, Judy Kay, 7 and Patsy who is a junior student at Schuster - Martin Dramatic School in Cincinnati.

Owner Dies As Horse Wins Race

ENID, Okla., Sept. 16 (UP)—"Okay, Jim, you can wake up now," a friend said to Jim Tatum. "Your horse won."

Tatum, a Sentinel, Okla., horseman, had slumped in his grandstand seat just before the public address system speaker announced the horses were off in the first race of the Garfield Downs racing Association's fall meet yesterday.

A few minutes later a physician pronounced Tatum dead of a heart attack.

The name of his horse was "Done Gone."

Orders Silence In Navy Dispute

WASHINGTON, Sept. 16 (UP)—Navy Secretary Francis P. Matthews has gagged naval officers against making public statements—without getting clearance—in the controversy centering around Navy Capt. John G. Crommelin, it was learned today.

Matthews has sent a dispatch to all Navy commands, stating that "the recent series of public statements beginning with and resulting from Capt. Crommelin's statement . . . have, from the standpoint of successful unification and maintenance of harmony among the services, been a source of embarrassment" to the Navy.

"While there is no intent to impair your right of free expression of views," Matthews said, "I believe a more appropriate and effective procedure would be to transmit them to me through channels in accordance with article 1245 of navy regulations."

The Navy secretary said that Crommelin's statement and those made by other officers in support of him "appear to have been in spirit largely by apprehensions concerning the future of naval aviation."

Rains General Over The State

General rains fell over Texas yesterday last night and today and The Dallas Weather Bureau said it probably would be late tomorrow before skies start clearing.

The rains varied from a soaking 3.37 inches at Kerrville in South Texas to traces elsewhere. Del Rio, on the border received a heavy thundershower between midnight and 6:30 A. M. that dumped 3.17 inches of rain there.

The rains were considered fine for fall crops but were a major handicap to picking cotton. The rains have been intermittent over the state since a cool front moved into Texas last Tuesday.

Temperatures yesterday in South Texas were high with Dilley reporting 100 degrees, Laredo 99 and Uvalde 96. This morning, the lows ranged from 48 at Dalhart to 80 at Brownsville.

Some additional rainfall reports included Honda 1.54 inches; San Angelo 1.23; Graham .97; Uvalde 1.70; and Seymour 1.20.

Mo-Pac Strikers Halt Cotton Belt

ST. LOUIS, Sept. 16 (UP)—All Cotton Belt Railway service between here and Gale, Ill., was tied up today by striking Missouri Pacific employes but Gulf, Mobile and Ohio trains highballed through picket lines.

The Cotton Belt said its 10 trains—two passenger and eight freight trains—which operate in and out of St. Louis have been cancelled because of picket lines set up by Missouri Pacific strikers on lines used jointly by the two railroads.

It was the second time since the walkout of 5,000 engineers, firemen, trainmen and conductors began on the Missouri Pacific last Friday that the Cotton Belt's service was curtailed.

Freight cars of the Cotton Belt were rerouted out of St. Louis to Memphis, Tenn., over the Illinois Central. Passengers scheduled for the line were rerouted over other railroads.

Public Relations Experts Sent By Uncle Sam to Run Guam

BY PETER EDSON
NEA Washington Correspondent

WASHINGTON—(NEA)—Whether or not the new civilian government which Uncle Sam is now installing on Guam provides them with better government, the Guamanians should at least end up thinking that they are better off than they were before. The two top U. S. officials who will be installing the change and running most of the activities on the island from now on are high-level government public relations experts.

The new civilian governor of the tiny Pacific island who will take over if confirmed by the Senate is Carlton Skinner. He is now public relations director for the Interior Department. During the war he was a lieutenant in the Coast Guard.

Helping Skinner to step into his new job, and director of all the naval forces on Guam, is Adm. Edward C. Ewen, the man who ran Navy's public relations through the thick of the hectic fight over the B-36. He was sent out there a few months ago. Neither of the men have any experience in running island governments.

FRIENDS of Marshall Plan Administrator Paul Hoffman keep nagging him for an explanation as to just why European businessmen and government officials can't be taught how to streamline their procedures and operations more effectively, in line with U. S. methods.

"In 1919, I was a delegate to Herbert Hoover's U. S. highway conference. One of the things we agreed on at that meeting was that there must be a uniform system of marking roads, if auto travel was to be encouraged. A national system was worked out. Yet today, 30 years later, there are still six U. S. states which haven't adopted the national pattern. When it takes 30 years to get American states into line on a program of this kind, it is easier to understand why it is so hard to knock Europeans out of their habits."

One reason U. S. tariff rates are now considered too high for British competition is that these rates were originally designed to keep out Japanese and German mass-produced goods which undersold the American market. Under normal U. S. tariff rate-making policies, the basic agreement is always made with the "historical principal foreign supplier." This rate is then made to apply to all other supplying nations under the "most favored nation principle."

Before the war, Germany and Japan were the principal suppliers of many U. S. imports, from Christmas tree ornaments to silk and scientific instruments. Since the war, the U. S. government has negotiated new tariff rates that take into consideration the fact that Germany and Japan have been out of the U. S. market for 10 years. One good reason is that it is expected Germany and Japan will again export to the U. S. In the meantime, the high rates applied against these axis countries are keeping out some imports from Europe, preventing the European countries from earning much-needed dollars.

HERE are some of the 55 specific items and their present import duty rates, on which the British want U. S. tariffs reduced: Sanitary cutleryware, 45 to 60 per cent. Plain bone china table and kitchenware, 30 per cent; decorated, 35 per cent. Scientific instruments, 40 to 60 per cent. Silverplated candlesticks, 50 per cent. Electric irons, 40 per cent. Crochet needles, \$1.15 per thousand, plus 40 per cent ad valorem. Clocks, from \$5 cents to \$4.50 each, plus 33 1/2 to 32 1/2 per cent. Electric meters from 27 1/2 cents to \$22.25 each, plus 33 1/2 to 32 1/2 per cent. Full-fashioned hose knitting machinery, 40 per cent. Other knitting machinery, 27 1/2 per cent. Herring, 10 per cent. Jams, 10 to 20 per cent. Rye grass seed, 1 1/2 cents a pound.

NEWS FROM Desdemona
DESDEMONA, Sept. 15 (SP4)—Mr. and Mrs. L. G. Barker and family and Mrs. C. W. Malthy and son, Neil visited in Dallas last week with Mr. and Mrs. Seelye LeMaster. They were accompanied home by Miss Faye Compton, and niece of Mr. Malthy's of Teriton, Okla.

Mr. and Mrs. Jim Dishman and Mrs. C. W. Malthy attended the O. E. S. meeting honoring the worthy grand matron of Texas, held in DeLeon Thursday night.

Mr. and Mrs. Leon Alread and son, Larry of Fort Worth, visited with Mrs. Alread's parents, Mr. and Mrs. W. C. Abernathy this week.

Mrs. Callie Sharp visited last week in Breckenridge with her daughter, Mr. and Mrs. J. D. Riggs.

Jerry Martin and family of Denton visited this week end with his parents, Rev. and Mrs. H. D. Martin.

H. B. Cruse of Houston visited the past week end with Robert Brown, Mr. Cruse and Robert were roommates at John Tarleton Junior College the past school term.

Mahoun Wilcox has been in Dublin with his father, Toke Wilcox, who is ill with pneumonia.

The big one didn't get away this time, when J. C. Lee, Roy Watson, L. V. Lucker and Margan Roberts went fishing. They brought back a 41 pound yellow cat and reported a very nice time. All the neighbors were invited out to a fish supper at Roy

Shirley May Might Have Done Better Without Her Father

BY HARRY GRAYSON
NEA Sports Editor

NEW YORK—(NEA)—There is no question but that 17-year-old Shirley May France should have been yanked out of the English Channel.

But Shirley May's adventure further illustrates that there is a time when the parent's place is in the home. That is when the offspring is in severe competition.

Shirley May started the swim against the advice of her father. Sentiment and parental advice at close range have hampered the careers of many athletes, perhaps aided some, but the choice has been difficult.

Athletics at times require Spartan courage, expose youths to real physical punishment under trying conditions which make them readily susceptible to injury. It is the ability to take this punishment, rise above it in the face of defeat that is the hallmark of a true champion.

No parent in position to call a halt could be blamed for throwing in the towel if his son was being badly battered in the prize ring.

Yet the trained handler and the physician knows that in most cases the match can continue without bodily harm or the risk of permanent injury.

It always believed that Young Stribling should have been heavyweight champion.

YOUNG Stribling was the greatest sucker lick I ever saw, but in the more important matches was sorely handicapped by his parents—Ma and Pa—in his corner.

When things were going well, they let him go, or perhaps it is more correct to say he was on his own.

But on occasions when Stribling was called upon to put out that something extra, all he heard from Ma and Pa was "Be careful, W. L., be careful."

Several times a group of us pleaded with Pa Stribling to put a trained second in his talented son's corner, and give him his head.

Pa Stribling finally acquiesced when Stribling fought Max Schmeling for the title in Cleveland. Nate Lewis of Chicago was selected, but there still was Ma and Pa, saying "Be careful, W. L., be careful," every time the German pressed.

Lewis did his best to bring out all Stribling's superlative talent, but the added fire into him, but it was "Be careful, W. L., be careful," until **George Blake** stopped it in the 15th round.

In violent competition, the decision should be left to a competent outsider, certainly not to a fond parent.

Truck crops, we call our vegetables, but not because they are hauled to market in trucks. The word truck is from the French word troque — to batere or exchange.

Ranger C Of C To Give Prize For First Peanuts

\$50 CASH AWARD TO GO TO FIRST 10,000 POUND LOAD

The Ranger Chamber of Commerce is offering a cash prize of \$50.00 for the first load of 10,000 pounds or more of 1949 peanuts marketed in Ranger which grade 70 or better, sound mature kernels, which contain less than 9% moisture, the test to be made by a Federal-State approved grader who is stationed in Ranger.

The first load to arrive at the grading point will have the first test and if it meets the test the farmer bringing in the load will receive the cash award.

For the past ten years Ranger has been one of the best peanut markets in this section, handling nuts brought in from all sections of Eastland County, the north half of Brown County, Callahan, Erath, Stephens, Palo Pinto and as far away as Parker County.

Ranger buyers have always paid the highest market price for peanuts, have always had ample storage space available and there is available now one of the most reliable motor truck scales in this section, bonded and inspected at

regular intervals by a representative of the weights and measures division of the State of Texas

The Ranger shelling plant shelled about 3,500 tons of farm stock peanuts last year, all bought locally, and expects to handle this year from 4,000 to 5,000 tons of this year's crop.

The peanuts shelled in Ranger, in addition to being sold locally over the United States, with more than 1,000 tons being shipped overseas to Germany and Austria. The plant is developing a growing reputation of furnishing the peanut farmers throughout this entire area with selected quality seed and during the past season furnished farmers throughout the peanut producing area with more than 8,000 bags of selected seed peanuts.

The operators of the local shelling plant spent more than \$38,000 in the operation of their business last year which went for materials, labor, etc. not including the amount that was paid the peanut raisers for their peanuts. Practically all of this was spent in Ranger.

According to advice from the Ranger shelling plant this firm has the machinery on hand now to establish a peanut butter mill and other processing equipment, which will be installed as soon as conditions permit.

The plant employs about 20 men and eight to 10 women in season, with a sizeable crew all year around.

It appears now that Eastland County and this peanut growing territory will produce one of the

best crops since 1942. Some harvesting is now under way and within the next three or four weeks marketing will be in full swing.

Pays To Plant Good Varieties

COLLEGE STATION, Sept. 16—In a short time, grain drills will be a common sight throughout much of the Texas wheat belt. Acreage planted will of course depend on the size of wheat acreage allotments. The importance of planting only good quality varieties cannot be overstressed.

E. A. Miller, extension agronomist of the Texas A. & M. College System, advises wheat growers to plant only those varieties that have good baking qualities as well as good yielding ability. Since the new improved varieties are good yielders, there is no longer any need for planting varieties with poor baking quality which are trouble makers on the market, he adds.

Most of the flour goes into commercial bakeries and they demand flour with which they can make the kind of bread that consumer desire.

The recommended varieties in the main wheat area of Texas are Westar and Cornucopia for bakers flour, Wichita and Triumph are best for family trade flour. Also, excellent quality varieties are Teanac and Turkey, but they are not as good yielders as Westar and Cornucopia.

In central Texas, the Au-fin variety which is more rust resistant is well adapted, while in south Texas the new variety called Seabreeze has done well, especially for grazing. However, seed of the latter is still scarce, says Miller.

SIDEWALK SUPERINTENDENTS—Dairy farmer Fred Newton of Sparks, Kans., always has plenty of company when milking time rolls around. The sound of fresh milk splashing in the pails brings cats and kittens on the double. Their interest is rewarded by a pan of warm, frothy milk, which they promptly lap up.

THDA Convention Sept. 21-23 To Be Held In Mineral Wells

COLLEGE STATION, Sept. 16—A thousand women are expected to attend the session of the annual meeting of the Texas Home Demonstration Association at Mineral Wells, September 21-23. The three-day meeting is planned around the theme "Today's Home Builds Tomorrow's World."

Mrs. R. L. Campbell, Wildorado, Texas, president of the association, will preside over the general sessions, and other members of the board of directors will conduct work shops on the association's plan of work - results in the counties, and recommendations for the new year's program.

The scope of their interests has broadened during the years of their growth in home demonstration organizations. Miss Maurine Hearn, state home demonstration agent and vice-director for women for the Extension Service of Texas A. & M. College, says "The leadership which home demonstration workers have always given in the important fields of nutrition, home management, clothing, housing and the like, is also needed in solving such problems as health recreation and the enrichment of living."

Among the special speakers for the convention are the Rev. Homer Vanderpool, Tyler Street Methodist Church, Dallas, and Mr. Wes Izzard, editor of the Amarillo Daily-News-Globe and new commentator for Radio Station KGNC, Amarillo.

Mrs. Gus Rogas, Manor, Texas, will act as chairman of the plan of work which will be made during the six work shop sessions. Mrs. C. E. Caskey, Graham, will conduct the recreation committee workshop; Mrs. George Parr Burdette, Legislative; Mrs. R. M. Harris, Plainview - the 4-H committee; Mrs. Robert Lange, Brenham, the education; Mrs. T. L. Ernest, Jourdanton marketing, and Mrs. T. J. Ludwick, Bland, the workshop for county chairmen of the Texas Home Demonstration Association.

The top four industries in the United States in terms of capital investments are agriculture, railroads, public utilities and petroleum.

Milking Derby Planned For Dairy Show

INDIANAPOLIS, Sept. 16—A milking derby—something new and different from the standpoint of the public in the way of entertainment as well as competition—ranks high on the judging agenda of the International Dairy Exposition which will be at the Indiana fairsgrounds here October 8 through 15.

Oscar A. Swans, executive general manager of "The World's Fair of the Dairy Industry," today announced completion of plans for seven separate contests among the seven breeds—Ayrshire, Brown Swiss, Guernsey, Holstein-Friesian, Jersey, Milking Short-horn and Red Poll.

These contests in the champion-

ship show of the world's best dairy cattle will enable the public actually to see cows milked in a contest, the winner in each breed being judged on the quantity of milk, quality (butter fat content) as well as conformation by official classifiers.

The derby will officially begin with a "dry milking" on Tuesday, October 11, at 1 p. m. There will be three milkings a day over a 72-hour period, the last milking being on Friday, October 14, at 1 p. m. Other milking hours have been set for 5 a. m. and 8 p. m.

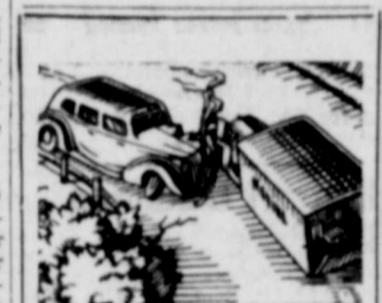

WALLA WALLA, Wash. (UP)—When McNary Dam on the Columbia river is completed, water backed up from it will cover graves of dead in Indian cemeteries. Army engineers said the decision not to move the graves came after a meeting with a general council of tribes in the region, descendants of the buried warriors.

You can determine the color of a hen's egg in advance by examining the lobes of her ears. White lobes mean white eggs; Brown ones, brown eggs.

The word "Oregon" is derived from the Indian words meaning "river of the west."

Soft protein foods are subject to quick spoilage at warm temperatures. In many cases, this spoilage is responsible for illness when there is no sign of it in smell, taste or appearance.

OFT PENALIZED BUTTONS OUTSCORE RANGERS 13-6

Despite the fact of drawing penalties, with yardage totaling more than the length of the field, the Hardin-Simmons Freshmen returned home victors of their season opener with the Ranger Junior College Rangers, 13 to 6. Chalking up two markers early in the second quarter, the Buttons held the Rangers until late in the last period when they crossed the double stripe for their lone six points.

Bobby Gene Williams, of the Rangers, sent the opening kickoff deep into Freshmen territory to the ten, where it was taken by Rapp. Rapp picked up a couple of blockers, turned to the left sideline and went to the 81 before being brought down. On their first play from scrimmage the Buttons tried a pass which was wide and incomplete. Two more plays into the line for no gain brought up fourth down and they were forced to kick. Holland got a forty yard kick for the Buttons and is was taken by McWhorter who was stopped dead in his tracks.

The Rangers passed on their first play and it was complete to Frasier, good for 16 yards and a first down. It looked like they were on the march to pay dirt. But three plays into the line and no gain, Wright sent Williams back into deep punt. Williams got off a good kick but it was called back and the H-SU freshmen penalized, giving the Rangers another first down.

On a pitch out from Wright, Jimmy Crawley tore around his own right end for 17 yards and another first down. Again it looked as though the Rangers were moving, but the Buttons line tightened like a stone wall. Williams kicked, and the ball went over the goal, and the Buttons took over on their own 20 yard line.

After an exchange of 16 yards which left the ball in the possession of the Rangers, Wright attempted to pass, was rushed badly by a short pass which was intercepted by White, who carried to the Ranger 25. This was the break the Buttons had been waiting for. They hit the line a couple of times and picked up yardage. Then the Rangers were penalized giving them a first down. Another line play with Malouf carrying went to the Ranger nine another first down and goal to go. Two more plays and the quarter ended with the Buttons only a yard from paydirt.

On the opening play of the second period, Holland took a hand off and went over his right guard for the score. Weldon Boggs converted the extra point.

Boggs kicked for the Freshmen and Wright returned 19 yards, to the Ranger 20. After three plays and lacking only a yard the Rangers chose to run instead of kick. They met a stone wall and failed to gain that yard.

TEXAS News Briefs

BONHAM, Sept. 16 (UP)—House Speaker Sam Rayburn will make the principal address tonight when 141 veterans graduate from the Fannin County Vocational School.

AUSTIN, Sept. 17 (UP)—The secretary of state's office list as incorporated today the Fort Worth Air Terminal, Fort Worth.

Agon G. Carter, F. L. Carmichael and Lionel Bevan were issued the incorporation charter. Capital stock was recorded at \$250,000.

COLLEGE STATION, Sept. 16 (UP)—Miss Maurine Hearn, state demonstration agent of the Texas A&M College Extension Service, will leave here Tuesday for graduate study at Harvard University.

Miss Hearn was granted a leave of absence to study education administration.

AUSTIN, Sept. 16 (UP)—A hearing on a temporary restraining order brought by the state

against 48 Louisiana shrimpers, set for today, will be held Sept. 20.

Continuance for the hearing was granted yesterday by 126th District Judge Jack Roberts.

The state brought suit against the shrimp fishermen for alleged failure to pay fees to the Texas Game, Fish and Oyster Commission.

AUSTIN, Sept. 16 (UP)—Col. Hal C. Horton of Greenville was placed on the retired list of the Texas National Guard today.

Horton, with a record of 37 years active and inactive duty was made an honorary brigadier general of the guard by order of Gov. Allan Shivers yesterday.

TYLER, Sept. 16 (UP)—A touring Mexican delegation visited Texas A&M College today after a two-day stop-over at the East Texas Fair.

During their stay in the Tyler area the Mexican farmers, scientists and agricultural workers visited world-famous rose fields, oil producing regions and Jersey dairy farms.

AUSTIN, Sept. 16 (UP)—An American Legion spokesman today accused the Veterans Administra-

tion of seeking the curtailment or elimination of "the entire program of GI schooling benefits."

Joe Spurlock, state commander of the American Legion, said the VA "has decided to black-list vocational schools created after June 22, 1944."

"The American Legion," he added, "is strong for getting rid of the phony schools. It is also strong," he said, "for making available as many bona fide schools as possible for the veterans."

LAREDO, Sept. 16 (UP)—Mrs. George Ochoa, wife of the man wanted for questioning in two border murders, was reported to be moving to Vera Cruz, Mexico, today.

Scar-faced George Ochoa was believed to be hiding somewhere in Mexico. He is charged with murdering Henry D. Whittenburg, Jr., of McAllen in a Laredo hotel six weeks ago and is wanted for questioning in the murder of Corp. James Lindsay, 30, Oneida, Tenn.

Extradition papers for Ochoa's return were signed by Gov. Allan Shivers and sent to the state department in Washington several weeks ago.

DALLAS, Sept. 16 (UP)—Vice President Alben W. Barkley will arrive here tomorrow for the formal opening of Dallas' first television station.

Owner-oilman Tom Potter said the "Veep" will be honored at a dinner before the dedication ceremony of KBTU's facilities.

The dedication will be open to the public, as well as televised by KBTU.

AUSTIN, Sept. 16 (UP)—Blair B. Hestir, formerly with the Austin American editorial department, became the first director of journalism of the Texas Interscholastic League today.

Hestir will be chairman of the league press conference executive committee, assistant editor of the Interscholastic Leaguer, and supervisor of TIL publications.

WHY THE MISSOURI PACIFIC RAILROAD STRIKE?

Over twenty years ago, the Congress of the United States passed the Railway Labor Act. It was hailed by union leaders as a model for the settlement of labor disputes.

THE LEADERS of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Engineers, Order of Railway Conductors, and the Brotherhood of Railroad Trainmen on the Missouri Pacific Railroad have refused to avail themselves of the peaceful means provided by this Act for settling their disputes. They insist that they be the sole umpire of their own disputes over the meaning of contracts.

There is No Need for Strikes

With all of the available methods for the interpretation of contracts, there is no need for a strike or even a threat of a strike, but the leaders of these railroad unions have ignored the ordinary procedures established by law and insist upon imposing their own interpretations of their contracts by means of a strike.

The wheels have stopped rolling on the Missouri Pacific. They may stop rolling on other railroads at any time. Recently the Wabash Railroad was forced to discontinue operation for several days under similar circumstances.

What Are These Strikes About?

These strikes and strike threats are not about wage rates or hours. They result from disputes over the meaning of existing contracts. They cover claims for a full

day's pay for less than a day's work, or for payments for services performed by others who were fully paid for the work done.

President Truman's Board Condemns Strike

There is an established legal method for handling disputes involving existing written contracts—just as there is such a method of settling any contract dispute which you may have in your daily life.

The President of the United States appointed a Fact Finding Board to investigate and adjust the Missouri Pacific dispute. This Board reported, in part, as follows:

"... It is with a deep sense of regret that we are obliged to report the failure of our mission. It seems inconceivable to us that a coercive strike should occur on one of the nation's major transportation systems, with all of the losses and hardships that would follow, in view of the fact that the Railway Labor Act provides an orderly, efficient and complete remedy for the fair and just settlement of the matters in dispute. Grievances of the character here under discussion are so numerous and of such frequent occurrence on all railroads that the general adoption of the policy pursued by the organizations in this case would soon result in the complete nullification of the Railway Labor Act..."

Obviously the railroads cannot be run efficiently or economically if the leaders of the unions ignore agreements or laws.

Provisions of the Law Which Are Disregarded

There are five ways under the Railway Labor Act to settle disputes over the meaning of contracts:

- 1—Decision by National Railroad Adjustment Board.
- 2—Decision by System Adjustment Board for the specific railroad.
- 3—Decision by arbitration.
- 4—Decision by neutral referee.
- 5—Decision by courts.

The Missouri Pacific Railroad has been and is entirely willing to have these disputes settled in accordance with the requirements of the Railway Labor Act. Regardless of this fact, the union leaders have shut down that railroad.

Innocent Bystanders Suffer Losses and Hardships

There are about 5,000 engineers, firemen, conductors and trainmen on the Missouri Pacific. They are known as "operating" employees, and are the most highly paid of all employees on the nation's railroads, but their strike action has resulted in the loss of work to 22,500 other employees of the Missouri Pacific. In addition, they have imposed great inconvenience and hardship upon the public and the communities served by that railroad.

The Railway Labor Act was designed to protect the public against just such interruptions of commerce.

If these men will not comply with the provisions of the law for the settlement of such disputes, then all thinking Americans must face the question, "What is the next step?"

The commonwealth of Kentucky has bought and freed 23 toll bridges in the past 18 years.

Texas State Highway 219 is, perhaps, the shortest designated highway in the United States. Near Huntsville, Tex., it is only two blocks and 19 feet in length.

The state capitol at Austin, Tex., is second in size to the capitol at Washington. It has 258 rooms, 900 windows and 500 doors.

SOCIETY
VFW Auxiliary Meets Thursday

The Ladies Auxiliary of the Veterans of Foreign Wars met Thursday at 8 P. M. in the home of Mrs. Lottie Davenport.

Final plans for the Breakfast in Hollywood program were made. Those present were: Mesdames: Herman Stroud, Lottie Davenport, Charlie Hamilton, Lee Wheat, Bill Calhoun, Margaret Osterhout, Spud Summers, Bill Hinman, Lillie Wilson, Curt Wheat, Charlie Warden, Evelyn Watson, Gene Kelley, Bonnie McCleskey, Raymond Landtroop, J. W. Elder, and Roy McCleskey.

Faith Class To Have Supper

The Faith Class of the First Methodist Church will be entertained at a supper Saturday night at 8 o'clock at the church. All members are invited to attend.

Personals

Mr. and Mrs. Jimmie Houghton are the parents of a baby boy born this morning at the West Texas Hospital.

Most of the mica produced in the United States comes from the western part of North Carolina.

CARD OF THANKS

In appreciation that words can't express, may we humbly thank each kindly deed and word so tenderly and carefully expressed during the worst sorrow we have ever experienced, every one did all that human hands could do, thanks for your sympathy in the death of our only son, James L. Park, expressed by Father and Mother, J. P. and Lola V. Park.

THE UNIVERSAL POSTAL UNION

NEW AIR MAILER—A new 15-cent air mail stamp will commemorate the 75th anniversary of the Universal Postal Union. Central design shows the world being encircled by message-carrying doves in flight. The stamps will be placed on first-day sale at Chicago, Oct. 7, in connection with the annual convention of the American Air Mail Society.

NEW MACHINE BIDS FAIR TO REVOLUTIONIZE PRINTING

By Paul F. Ellis
 United Press Science Writer
 CAMBRIDGE, Mass., Sept. 16 (UP)—A new electronic device that seems destined to eliminate present day typesetting machines and open a new era in the printing industry was demonstrated here yesterday.

It is a machine combining a typewriter, electronics and photographic film.

Just as the invention of the Lino-type casting machines put the hand-set printer "out of business," the new device promises to speed up efficiency and drastically reduce costs of printing newspapers, magazines and books.

The machine, developed from inventions by two French scientists, as yet has not been given a name, and it may be some years before production on a commercial scale will be started.

However, some 139 leading concerns in the newspaper, book publishing, magazine and trade composition printing plant fields have formed a non-profit graphic arts research foundation, whose aim is the achievement of new, better and more economical printing processes.

The foundation's first project is to promote development of the new type composing system to a point where it may be available to all publishers.

The machine can be operated by any competent stenographer or typist. It has a standard typewriter keyboard. Its punch-in keys—as though you were writing

a letter—the operator sets an intricate electronic "brain" into action.

Letters punched on the keyboard produce impulses that are "captured" in a storage, or memory, chamber in the rear of the typewriter. They stay there until the line of typewriting has been completed. Then they are coded electronically and transmitted at the speed of light to another intricate chamber where they are decoded and flashed on to a photographic film.

The film is developed and the typed letters appear. The film then can be used for engraving on a printing plate. Many steps in the process of getting type set, in the newspaper forms and to the press have been eliminated.

Officials of the Lithomat Corp., which is entering into an agreement with the foundation to manufacture and sell the machine, said that the device can be made to operate three times as rapidly as an

ONE FOR POE—Above is the new three-cent commemorative stamp for poet Edgar Allan Poe. The stamps will be placed on first-day sale at Richmond, Va., on Oct. 7.

Long Fight Looms Over A & P Suit

NEW YORK, Sept. 16 (UP)—The government's attempt to split up the giant Atlantic and Pacific Tea Co., food chain store appeared headed today for a long and expensive court action.

A similar action against one operator can punch the keyboard. Top speed for the convention machine type setters is a b o u t 7 or 8 lines of type a minute.

The new machine will have a system of dials by which the operator can select what size and family of type is required, and determine the length of the lines of type. Justification—the technique of making the line of type come out even on the right end—is automatic. Errors can quickly be corrected by the turn of a knob which "rubs out" the error and permits the operator to put in the proper letter or proper selling.

The finished machine which may come within a year or so has a capacity of 3,000,000 different characters—and because a photographic process is used, the age-old problem of composing in Chinese may even be solved, it was pointed out.

segment of the firm lasted 89 days and resulted in fines totaling \$175,000 three years ago. But actual expenses of defense and prosecution were estimated at between \$2,000,000 and \$5,000,000.

Attorney General J. H. Clegg filed the new anti-trust action yesterday against the company, which has an estimated 6,000,000 households as daily customers, to eliminate practices found illegal in the earlier trial.

The New York Great Atlantic & Pacific Tea Co., Inc., and 25 of its officers were convicted at Danville, Ill., in Sept. 1946 on criminal charges of conspiring to monopolize the food industry in restraint of trade.

The government in its action filed here contended that splitting

ARCADIA
ABBOTT & COSTELLO
 Meet the KILLER
 BORIS KARLOFF

the \$1,000,000,000 chain into smaller units would better competition and perhaps lower food prices in general. It charged that many of the nations shoppers actually "subsidize" A & P because its wholesale branch sells to competitors at higher prices than those charged the parent company.

THE "ROCKET"
WAS LAUNCHED
ONE YEAR AGO

—and in the 12 record-breaking months since, every phase of the automobile business has felt the impact of that historic introduction by Oldsmobile

This is the first anniversary of one of the most revolutionary developments in motoring history . . . Oldsmobile's brilliant "Rocket" Engine!

In one short year, the "Rocket" has changed America's automotive standards. It has brought a completely new level of performance and reliability to motoring. It has earned a unique reputation for smooth, quiet, economical power!

But you must drive it to believe it! On this "Rocket" anniversary, your Oldsmobile Dealer cordially invites you to take the wheel of a "Rocket" Engine Oldsmobile . . . and discover how the "Rocket" combines with Hydra-Matic Drive for the most thrilling performance you've ever known. A phone call will bring you a thrilling demonstration ride.

Have You Made a Date with the Olds '88'?

Try the "Rocket" ride! Drive the lowest priced "Rocket" Engine car, the brilliant Oldsmobile "88." Call your dealer today!

FIRST YEAR OF THE "ROCKET"

September 8—The "Rocket" plant is completed.

September 15—Oldsmobile's new "Rocket" Engine is first presented to the press.

November 8—The first production model "Rocket" comes off the line.

December 9—First public showing of the "Rocket."

December 19—Introduction of the new "Rocket" Engine in the Series "98" Oldsmobile.

February 6—"Rocket" Engine offered at a new low price in the sensational new Oldsmobile "788!"

March 22—"Rocket" Engine "88" sets hill-climbing record at General Motors Driving Ground.

May 30—"Rocket" Engine "88" paces the 500 Mile Race at Indianapolis.

June 1—Nation-wide "Rocket" "88" Demonstration Campaign launched.

June 14—100,000th "Rocket" Engine is built.
