Will wonders never cease? Senator Ralph Yarborough's picture was published on the front page of the Amarillo Daily News. This is something that hasn't happened since Robert Welch published his first John Birch Blue Book. I have always been a strong supporter of Senator Yarborough, but if his picture appears on the front page of the Amarillo Daily News too often, he will just naturally lose my support and be defeated at the next election. I will have to admit that it took the announcement of a multi-million dollar post office building for the Senator to rate a front-page picture in the advocate of John Birchism.

From all news reports, and pronouncements of pundits, the New Hampshire primary has determined the outcome of the presidential election well in advance of party conventions and the general election. Maybe President Johnson did lose the New Hampshire delegates, due to some peculiar quirk in the state's election laws, despite the fact he received a majority of the popular vote. But this still leaves some 49 states to be heard from. I can't agree that the election is over. I am not predicting that President Johnson will be nominated and re-elected, but at this point I believe he will be.

We finally got some of the old trees on the courthouse square pulled up, and the tops cut out of the others, which proves we are making some progress toward getting the area cleared off for a parking lot. Downtown merchants need that parking for their business, and it wouldn't make an eyesore out of the seat of the county government.

Four traffic lights, at least four, one north, east, south and west of the highway intersection, are desperately needed to control the traffic in this busy little city. Please elected officials, and whatever bureaus are involved, put us up some traffic lights. They are desperately needed.

It will be worth your while to visit the Dimmitt stores participating in "Crazy Days" this week even if you don't plan to buy anything. The management and personnel of Dimmitt business firms will create Crazy Day atmosphere by dressing crazy and acting natural Thursday, Friday and Saturday. They would like for you to come around and buy something, or at least make fun of their appearance. Many (See ABOUT DIMMITT, Page 9)

TONY MARTINEZ JR. WITH STATE HEROISM PLAQUE
... For saving two children in house-trailer fire

Hart Boy Named Heroism Winner

Tony Martinez Jr., 17-year-old Hart youth who saved the lives of two children trapped in a trailer home fire Feb. 25, Monday received the Texas Rural Heroism Award for 1968 from the Texas Farm and Ranch Safety Council.

THE AWARD was presented to the Hart High School junior in Dallas Monday morning, before an audience of 2,000 attending the 29th annual Texas Safety Conference.

Tony's parents took him to Dallas and stood with him as he received the top heroism award for Texas youths.

After being presented his plaque by Bob Walsh, Dallas TV newsman, Tony received a standing ovation from the huge crowd in the Sheraton Hotel ballroom.

AMONG those applauding Tony was Gov. John Connally.

Before the presentation banquet, Tony talked with the governor and posed for photographs with him.

"He's a real good guy," Tony said later. He said he's proud our state has young men who will do things like this, and that we should hear more about such young people instead of about the drug addicts. He talked to Daddy and the rest of us about farming, and said he hadn't gotten one seed planted on his farm yet because of all the rain."

TONY received the award for going into a burning house trailer near his home Sunday afternoon, Feb. 25, and saving two daughters of Mr. and Mrs. Frank Ledesma. The Ledesmas' 11-month-old baby daughter, Rebecca, died in the fire.

THE MAN in charge of the Rural Heroism Award was Joe Smetana of Waco, vice-president of the Texas Safety Association and state safety director for the Texas Farm Bureau. Tony already knew Smetana, having seen his fire prevention program in Hart High School earlier.

Farmers Ponder; Mill Hits Crisis

The "pre-deadline doldrums"—that tendency in many people to put off until tomorrow what could be done today—are turning the prospects of a multi-million-dollar corn milling plant here into a big question mark.

ACROSS THE state and nation, the eyes of business are upon Dimmitt. Top bankers have invested big money in the Dimmitt Wheat Growers project after studying the plans and potential of the proposed mill. The same bankers have agreed to serve on the mill's advisory board.

Two giant sales corporations are making overtures, hoping to get marketing contracts on the mill's products of corn syrup, oil and starches.

BUT AT HOME, the county's farmers—who stand to gain the most from the new mill—are taking their time.

Aaron Isaacs, general manager of Dimmitt Wheat Growers, Inc., reported that so far only 160 farmers have signed corn contracts, committing only 65 percent of the money that will be needed to build the mill.

"Many others have indicated they want to buy contracts, but too many are holding off until deadline," Isaacs said.

THE SIGN-UP deadline is April 10. If all the corn contracts haven't been bought locally by then, Isaacs said, the cooperative's directors will sell the remaining contracts and stock to other cooperatives which have already indicated they want the balance of the poundage.

What's perplexing to the mill's planners is that it's been three weeks since the National Bank of Commerce in Dallas made \$2½ million available in five year loans through the First State Bank of Dimmitt and the Plainview Production Credit Association to make it easier for local farmers to buy contracts—and still many farmers are dragging their feet.

"WE'VE HAD a tremendously good response and interest through our office and the bank both," Isaacs said. "But the signs are coming very slow. We hope the reason is simply that many of our farmers are taking advantage of the good weather and are going back to the fields for the time being, instead of coming in to sign up."

Another factor that apparently is hampering the project is that former members who were dropped from the rolls are now reluctant to return.

"Yes, there may have been some hurt feelings from the dropping of inactive members," Isaacs said, "but there shouldn't have been. We don't drop inactive members because we want to—it's because we have to. The courts have ruled that if a member wasn't an active patron during the year, his membership must be cancelled. But if he comes back the next year, he's issued new shares. There's nothing personal about it."

BARRY LOVE, Dimmitt Wheat Growers agronomist, said he feels that some of the county's produc-

ers can't believe the profits they'll make by taking part in the processing and marketing of their corn's products.

"It's the difference between what a farmer gets for his wheat and what the baker gets for a loaf of bread," Love said. "The farmer comes out on the short end. The real money comes from the processing of the finished product."

Love distributed a new figure sheet recently showing the projected net earnings per acre for farmers buying corn contracts and stock in the mill.

"CONSIDER the man who wants to grow 200 acres of corn for the mill, and averages 6,000 pounds per acre, which is the county's present average," he said.

"In the first place, he'll get \$10.45 more gross return per acre from corn than from milo," Love explained. "Then he'll get a return on his share of the mill's earnings, which will start in 1970."

"During its first 10 years, the mill will produce total earnings of \$590.88 per acre for him, on his original investment of \$47 per acre. On his 200 acres, that's a total of \$118,176," Love explained. "By law, a cooperative has to pay a member at least 20 percent of his earnings in cash. So over the 10-year period, the man with 200 acres of corn and an average yield would get a minimum of \$23,635 additional cash from his 200 acres—over and above his regular crop earnings."

AND AWAY WE GO! — Fred Lemme shows the effect spring fever is having on Dimmitt's business men as they stage their big "Crazy Days" bargain promotion today, Friday and Saturday. Merchants are featuring many everyday items at cost or below during the promotion, and cash awards of \$15 and \$10 will be given Saturday to the two clerks in participating stores who are dressed the craziest for "Crazy Days." The city-wide campaign is sponsored by the Chamber of Commerce Retail Trade Committee, headed by Nick Gonzales.

Morrison Cited: 'Ginner of Year'

E. L. "Gene" Morrison of Dimmitt will be honored in Dallas April 2 as Texas Outstanding Ginner of 1967.

MORRISON operates a gin at Sunnyside and has been associated with cotton gins over 40 years.

He will receive the Horace Hayden Memorial Plaque signifying the honor from the Texas Cotton Ginners' Association during that organization's 55th annual meeting. The convention which annually attracts over 5,000 people opens a three-day show on March 31.

Morrison is a director and member of the executive committee of the Ginners' Association.

HE STARTED working in a cotton gin for his father before graduation from high school at Abilene and helped build a gin without blueprints. He bought his first interest in a cotton gin at Ballinger in 1934. His modern plant at Sunnyside gins more cotton in a single day than his first gin could turn out in a week.

Morrison and his wife have three sons — Bill, who lives in Fort Worth; Dick, whose home is in Irving; and Gary, who lives in Atlanta, Ga. The Morrisesons are active in the First Baptist Church of Dimmitt, where he serves as a deacon and member of the building committee.

Four Enter Hospital Race

Four candidates have filed for the two positions open on the Plains Memorial Hospital board.

SEEKING two-year terms on the five-man governing board are James Horton and Donald Wright of Dimmitt and Jerry Wilhelm and Leonard Schulte of Nazareth.

The two top vote-getters will succeed N. F. Cleavinger and Anthony Acker, whose terms are expiring.

The county-wide election will be held April 6 in conjunction with school board elections at Dimmitt, Hart and Nazareth.

Activities Group Will Meet Monday

All persons interested in the work of the Castro County Activities Committee are asked to attend an open meeting, salad supper and business session Monday night.

THE MEETING will be in Dimmitt's South Grade School cafeteria at 7:30 p.m.

"Any interested members of your club, organization or community, and any persons in your community who participated in the Diamond Jubilee, are invited to attend," said Mrs. Helen Richardson, president.

Each family attending is requested to bring a salad. Drinks and crackers will be provided. THE COUNTY-wide committee sponsors the annual Castro County Roundup Week in August, provides leadership for other county-wide activities, and provides prizes and ribbons for the fall Youth Fair.

All organized communities and clubs in the county are eligible for membership, with one vote apiece in the committee's activities.

"We are looking forward to another successful year of the Activities Committee, and are in need of your support to attain that success," Mrs. Richardson said.

It's 'Follies' Time

"Follies Review of '22" will be the theme as the annual Lions Club Follies re-creates the Roaring 20's Friday and Saturday nights in Dimmitt High School auditorium.

CURTAIN time will be 8 p.m., and the show is scheduled to run 1½ hours. Admission price is \$1.25 for adults and 75 cents for children.

Show Director Dwight Joiner has assembled a cast of 130 for

a program made up entirely of authentic music of the 1920's.

THREE choruses and a host of soloists, dancers, ensembles and instrumentalists will present such favorites as "April Showers," "Four-Leaf Clover," "Cuddle Up a Little Closer," "Jazz Baby," "Margie," "Twelfth Street Rag," "Louisville Lou," "Dinah," "Sweet Georgia Brown," "Hardhearted Hannah," "Glad Rag Doll," "Rose of Washington

Square," and a dozen other hits. The DHS stage will be transformed into a New Orleans garden scene for the big musical.

IN ADDITION to the 22 talent acts, the 1968 Follies will feature a musical fashion show, with top styles of the 1920's on parade. General chairman of the Follies is Russel Nelson. Mrs. Alice Cowen is the coordinator, Bob Farrer is stage director and Mrs. Jo Prather's fashion consultant.

The Latest in Low Fashion

AT BETHEL Saturday night, the men staged a "fashion show" in the community building. Here, "Georgia" Sides — in an orange plastic "wig" — models a mini-skirt with sweater, rain boots and raincoat.

'HILDA' LUST reluctantly displays the latest in Baby Doll pajamas, with matching dust-er and floral-print house shoes. In background is Mrs. Reta Welch, narrator, who had to describe it.

'FREDRIKA' BRUEGEL shows what's right for the beach this year — a one-piece swimsuit, swim cap with a floral design, serape-type towel, and hairy chest. Twelve men took part in the show.

'JANE' HOWELL shows how the casual sweater and tapered pants of this ski outfit accentuate the graceful figure. The fashion show and the box-supper auction that followed drew an audience of 95.

Band to Serve Tacos Tuesday

Dimmitt Bobcat Band members and their parents will hold a taco supper Tuesday night to earn money for the band's April trip to San Antonio and HemisFair 68.

THE TACO supper will be from 6 to 8 p.m. Tuesday in South Grade School cafeteria, and the tacos will be prepared by band members' mothers.

Admission will be \$1.25 for adults and 75 cents for students. Tickets may be purchased from band members or at the door.

The Bobcat Band will leave April 22 to march as an honor band in San Antonio's annual "Battle of Flowers" parade and celebration, then will perform two concerts at the HemisFair during its third week. The band's HemisFair concerts will be on the unique "Floating Stage" at the world's fair center.

28 Men Make Austin Trip

Twenty-eight Dimmitt residents flew to Austin in four chartered planes, car and commercial airlines Tuesday for the Texas Industrial Commission's special seminar on Dimmitt.

Those making the trip paid a token fare of \$20 each, and the Chamber of Commerce picked up the rest of the tab. The all-day meeting—aimed at preparing Dimmitt and the county to go after new industry—included special analyses of Dimmitt's labor market and its potential, as well as time-proven methods of securing new industry.

ROY SMITH RECEIVES NURSES' CAP ... From Head Nurse Becky Halley, RN

Former Resident Receives Cap As Methodist Hospital 'Nurse'

Roy Smith of Plainview, former Dimmitt resident, is the most unique "nurse" ever to work in Lubbock's Methodist Hospital.

HE RECEIVED the distinction recently when he was "capped" by appreciative nurses at the hospital after helping them care for his wife, Pearl.

Here's how it happened, according to the hospital's publication, "The Stimulator":

"Some weeks ago, Mrs. Pearl Smith was admitted to Methodist Hospital for hip surgery. And what followed during her time in our hospital proved to be very heartwarming and refreshing.

"From the time Mrs. Smith was admitted, her husband, Roy, stayed at her side constantly.

HE HAD a cot in her room where he slept; he accompanied her to physical therapy when she began her treatments; he performed so many various little nurse-like duties that her real nurses on the wing, 2 East, teased him about getting capped.

"Mrs. Smith brought with her several things to share with the various people who came to her room. She brought a scrapbook of their recent 50th wedding anniversary. She brought also a scrapbook of recent family snapshots of which she was most proud. And she had her own little autograph book in which she had each and every person, whether visitor or nurse, to write something for her.

"And Mr. Smith was right there to share each of these things with his wife's guests.

"THEIR devotion to one another was most evident. When they were separated, they simply were not the same happy people. And with the sincere devotion that Mr. Smith had, he simply "made" a nurse.

"Thus, he was capped in a special ceremony by Becky Halley, RN, head nurse on 2 East.

"And certainly anyone as dear as this man deserves such. They are a truly dear couple."

Branaman Serves Aboard Caliente

Machinist Mate Fireman Deon E. Branaman, USN, son of Mrs. A. D. Chester of Dimmitt, is serving aboard the fleet oiler USS Caliente with the Seventh Fleet in the western Pacific.

HIS SHIP provides fuel and supplies to other vessels off the coast of Vietnam.

Through the Navy's advanced process of underway replenishment, material is passed from the Caliente to the receiving ship by means of hoses, cargo nets and connecting cables.

The Caliente has been commended by the commander of the Seventh Fleet for its support in the Vietnam effort.

A well of water...

Many important events have taken place at the well. In days long ago it was a meeting place, where all came because of the necessity to obtain life-sustaining water.

Jacob met his beloved Rachel at the well. Moses met the daughters of his future father-in-law at the well in Midian. Much later Jesus Christ met a woman of Samaria at the well and said, "Whosoever drinketh of the water that I shall give him shall never thirst: but the water that I shall give him shall be in him a well of water springing up into everlasting life."

The church of God today is a meeting place where many come to obtain this life-giving and life-sustaining water of which Jesus spoke.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish.

THP Reports Six February Wrecks

The Texas Highway Patrol investigated six accidents on Castro County highways during February, according to Sgt. W. E. Wells, Highway Patrol supervisor of this area.

These crashes resulted in one person injured and an estimated property damage of \$2,930.

Highway traffic accidents for Castro County during the first two months of 1968 shows a total of 12 accidents resulting in three persons injured and an estimated property damage of \$7,640.

"WITH THE April 15 deadline for obtaining inspection stickers drawing near, only 44 percent of the registered vehicles in this county have been inspected," the patrol supervisor said.

In order to avoid the inconvenience of the last minute rush and the possible shortage of seat belts, motorists are urged to get their vehicles inspected promptly.

CANNED BAITS FOR CATS
Looking for a god way to bait your favorite fishing hole?

Try canned dog food, preferably the kind that makes gravy by adding a little water.

Punch a hole in each side of the can with a nail or an ice pick. Tie a rock to the can and drop it into the water.

Or, if you use the kind that's served in a sack, drop it into a loosely knit potato or citrus fruit sack, weight it down good then lower it into the water. Catfish love dog food.

Rev. Howard Lyons

Spring Revival To Start Friday At Sunnyside

The Sunnyside Baptist Church will begin its spring revival Friday night.

REV. HOWARD LYONS, pastor of the Tascosa Baptist Church of Amarillo, will be the evangelist. Duane McClure, student of Wayland College and music director for the First Baptist Church of Edmonson, will direct the music.

Rev. Lyons has been pastor of the Tascosa Baptist Church eight years. He served three churches in the Panhandle-Plains area — the First Baptist Church of White Deer, First Baptist Church of Paducah, and the College Heights Baptist Church of Plainview — prior to his going to the Amarillo Church.

McClure is a native of Crosbyton, and farmed in that area for 10 years before entering the evangelistic music field.

SERVICES will begin at 8 o'clock each evening, and at 10 a.m. Monday through Friday of next week. There will be prayer meetings, and junior and adult choir practice each evening at 7:30 before the regular services at 8.

Rev. M. D. Durham, pastor, has extended a welcome to all who can attend these services.

Vasquez Joins Unit in Sicily

Aviation Machinist Mate Third Class John R. Vasquez, USN, son of Mr. and Mrs. Alvin Vasquez of Dimmitt, has reported for duty at the US Naval Air Facility at Sigonella, Catania, Sicily.

DURING his tour at the facility, he will be assigned to the Operations Department at Sigonella.

Sigonella is a joint Italian-American NATO maritime airfield which serves as a base of operations on the eastern coast of Sicily for anti-submarine patrol squadrons. In addition, these squadrons support the US Sixth Fleet by flying reconnaissance and shipping surveillance missions.

Cowen Flying Anti-Sub Plane

Naval Reserve Ensign Joseph H. Cowen, son of Mr. and Mrs. Joseph N. Cowen of Dimmitt, is serving with Air Antisubmarine Squadron-29 at the US Naval Air Station, Norfolk, Va.

HIS squadron flies the Navy's newest carrier-based anti-submarine warfare aircraft, the S2E "Tracker."

The squadron's mission is to search for, detect, track and if need be destroy enemy submarines.

Papa's Going to Be a Preacher

By MYRTLE SHEFFY

Arthur Schreck has answered the call to become a minister. He told the First Methodist congregation Sunday of his plans to sell his Dairy Queen and real estate businesses and enter theological school. Lillian Schreck gives support to her husband's plans, and his children say they will help get him through college.

They and all the Nelsons and Mrs. Schreck's and Mrs. Tucker's mother, Mrs. R. O. Nelson of Estelline, were Sunday guests of Mr. and Mrs. Jack Tucker. Linda Schreck and her friend, Mike Ditto of Texas Tech at Lubbock, were here for the church service and dinner.

★ JOE AND Sandra Land and small daughter Sandra are moving to Canyon this week, where Joe will be an announcer at KCAN radio station. Sandra is the daughter of the Arthur Schrecks.

★ Don Newman, who is with the US Agency for International Development in Vietnam, is home for a visit with his wife, Colleen and the children. He goes back March 28. Don says he has seen quite a bit of the Delta, which is very beautiful in a tropical way. He was caught in the shooting of two battles — not by choice. He says it was noisy and scary, but a most interesting place.

★ MRS. BILL WILLIAMS (Dee) went to Abilene last week, where she was the organ accompanist for the well-known evangelistic team of Gene and Bobbie Moore. They cut one album of 12 numbers and did a few singles. Mrs. Williams says this is a great ex-

perience. She was a church organist at Clarendon before coming here. The Moores will go to Indonesia soon for church work. Gene is a cousin of Rev. Weldon McCormick, pastor of the First Methodist Church.

★ Ward and Oleta Golden went to Lubbock, where the Golden family gathered for a mutual birthday party in the home of a sister, Mrs. J. S. Birdwell. Also there were Dr. Floyd Golden of Amarillo and another sister.

★ LET'S ALL go to the coffee Sunday afternoon at the Recreation Club honoring our friends, Mr. and Mrs. Earl Brock, for his long service with Southwestern Public Service Co. Meet your friends for a friendly chat. Bob and Pat Brock of Kansas City are here for that event and visiting the R. E. Wilsons also.

★ Mrs. Helen Kilgore of Roscoe is visiting for a while with her brother, Jack Cowser and family. Jack is recuperating from a long spell of illness.

★ Dimmitt's Eastern Star ladies attending the school of instruction in Plainview at the Masonic Hall Wednesday were: Trudy Dennis, Joan Cook, Wannie Stevens, Margaret Wilson, Zonelle Maples, Doris McClenney, Hazel Taylor, Grace Brown, Betty Vaughan and Ruth Slough. Patrons attending were Ira Brown, Charles Vaughan, James Slough and Raymond Wilson.

★ VERA WEBB, assisted by Leola Haberer, Ruby Webb and Clara Neumayer, were hostesses at a turkey dinner Friday with everyone bringing a dish of good food to go with. Honor guest was Ethel (Brownie) Damewood, who has been visiting friends here for several days. She went by bus to Borger Friday afternoon. She lives with her daughter and son-in-law, Dot and Walt Myrick. Twenty-three ladies came.

★ Margie McGowen, Dee Ann and Vickie and Donna Henley spent the weekend in Hereford visiting Janie Shetty.

★ Mr. and Mrs. Shorty Manning and Leah and Jack Ziegler of Canyon came home from a visit with son Leon Taylor and his Mrs. and their new baby. Son Jim lives in Dallas — they visited him, too.

★ Mr. and Mrs. P. L. Cunningham were called to San Angelo early Sunday morning due to the death of Winnie's sister, Leta Jones. Mrs. Jones suffered a severe heart attack a few weeks ago.

★ ANDY ELDER left home for work as usual, the sun got in his eyes, and he ran into a parked car. The steering wheel bruised his chest. Hurts some, but is not serious. He stayed a few days in the hospital.

★ And Roy Cluck is down there for a few days. Mr. Lambright is improving slowly, he says — didn't see the other folks.

★ Lee Kimbell, R.N., has come back to Dimmitt after working as a nurse in Muleshoe the past year. She is at the Golden Spread Rest Home.

★ SUPT. PAUL HILBURN and his wife, Louise, are the boastful grandparents of a new boy. He was born March 7 to their son, Paul Jr., and Louise, who live in Washington, D.C. His name is Matthew Paul Hilburn.

★ Mr. and Mrs. Bill Graham Sr. have been in Hot Springs, N. M., for a few weeks, as has Milt Hardy, father of Mrs. Truitt Booth and Dugan Butler. Bill Jr. took them over.

★ Mrs. Lanelle Stevenson visited recently with her parents, Mr. and Mrs. George Blanton. She and her husband, Gerald, live at Grapevine. Lanelle has a fine voice and teacher. The Blantons returned with her to her home and also visited relatives in Fort Worth and Dallas.

★ FRANKIE RIDGEWAY of Hereford and Betty Rose Birchfield of Amarillo were Sunday guests of a long-time friend, Leola Haberer. The ladies will be remembered as the Kerr girls.

★ Mrs. Morris Gowdy and her sister, Mrs. Huber of Littlefield, went to Lakeview Sunday to take their mother, Mrs. Henry, to her home.

★ DO COME to see and hear the Lions Club Folies Friday and Saturday nights at the DHS auditorium. The setting is in the yard of a New Orleans home, and the era is the "Roaring 20's." This show is directed by Dwight Joiner.

★ You are also invited to come to Earth today (Thursday) at 2 p.m. to hear Dick Brown of Hartley, a Democratic candidate for congressman, at the community building. Mrs. Ann Hamilton sends the invitation.

★ Visiting Sunday with Dr. and Mrs. David Bechtol were his parents from Amarillo.

★ Ralph and Avis Smith and boys went up to Spearman to visit her parents over the weekend.

★ JOYCE HUNTER, teacher of the Lucky U Kindergarten, attended the district meeting of the Golden Spread Teachers Association in Amarillo this week. They heard Wilma Boothe and another speaker talk on "Games and Science for the Pre-schooler." These children learn how to get

along with other people before starting to regular school.

★ Julia Davis and a friend of Hereford came Saturday to visit Bobby Baker, who has a good case of chicken pox. He says he has to miss the trip to Hereford with the track team. They did some racing, hurdle jumping and such. Jerry Cartwright said the coaches, Brown L. Smith, Jones Hedrick and Roy Blair, treated the boys to food at the drive in later.

★ 104 youths, sponsored by the First Baptist Church are going up to Gloria, near Santa Fe, for a ski trip. They will come home Sunday and will have an outdoor service there under the trees. There are 11 sponsors. Mrs. Dorothy Hopson told me that V. C. will go, and Travis Hart of Floydada and Van Earl Hughes, will conduct the devotionals. Others going are Mr. and Mrs. Elbert Smith, Mr. and Mrs. Don Gilreath, Dora Baldrige, Jimmy Ross, Clark Dobbs, Doyl Underwood and Dr. David Bechtol. They'll be the chauffeurs.

★ FORTY-TWO local FHA girls went to Amarillo to attend an area convention Friday and Saturday. They were accompanied by their sponsors, Mrs. Bill Snider and Mrs. Charles Hottel, and mothers, Mrs. Ray Robertson, Mrs. Ed Wilson, Mrs. Tex Conard and Mrs. Jim Golding.

★ Mrs. Snider told me they all stayed at the new Villa Inn and the meetings were at the Tascosa High School and city auditorium. Diane Webb and Vicki Lawson were the voting delegates. Janice Mooney, the National FHA pianist, played the piano for 100-member choir. Mary Lynn Hays and Mary Lee Stone sang with the Sharon Singers, and Marilyn McLeroy, Suzanne Merritt and Jo Ann Stone sang with another group.

★ Mrs. Snider says the devotional was especially beautiful. The topic was "A Different America," about a boy in Vietnam who remembers all he did not do for his family, and what they did do for him. She said they worked all day but all of them went swimming at 2 a.m. It was a very fine and fun meeting for these Dimmitt girls.

★ DR. AND MRS. Charles Vandiver were hosts at a potluck supper for the 25-member First Baptist Church choir Thursday. They did some singing but mostly talk. Their interim song director from Plainview was there.

★ Bob Baker attended a family reunion at his uncle Vernon Baker's Sunday in Amarillo. Joy says chicken pox kept her home.

★ Mr. and Mrs. Dan Heard were hosts at a dinner and bridge party Tuesday evening. Their guests were the Lon Bothes, the Bob Bakers, the Bob Huckabays, the Jim Burgesses and the Sandy Parsons. And Friday Mr. and

Mrs. Virgil Justis visited the Heards. Dan and Virgil were in the hospital the same time a few months ago.

★ Will Wright is in the hospital, not well at all. Maybe soon he can get out.

★ THE PEOPLE from here going to Houston last weekend for the annual stockholders meeting of the Federal Land Bank Association were Mr. and Mrs. Harold Stephens, Bill Hackleman, Mr. and Mrs. Irvin Ott and Mr. and Mrs. Eddie Drerup. They always have nice trips to the Astrodome or NASA or the Azalea Gardens. Mr. and Mrs. Ulys Davis are at the Mayo Clinic in Rochester, Minn. Mrs. Earnest Harmon (Tinny) of Lubbock leaves for

there this week to be with her sister and Mr. Davis.

★ Steve and June Taylor are leaving this week to attend some cattlemen's meetings. First they'll go to Fort Worth for a two-day affair with A. J. Kemp's Co., and to visit A. J. and Jean. Then they'll go on to San Antonio for the big Southwestern Cattlemen's Association convention.

★ TUESDAY morning a new series of art classes in tile and decoupage art will begin at the Art Center here on Broadway. A teacher will be there from Amarillo. Check with Nell Proffitt for details.

★ The Joe Smiths (he is foreman at Flagg Ranch) are grandparents of a little girl. She arrived Sunday to live with their daughter, Made'yn, and her husband, David Holt. She has been named Jennifer Ann.

★ Jim and Becky Killingsworth are the parents of a new baby girl. Her name is Stephanie Paige, born March 7. Grandmother Alice

Killingsworth told me about hers and Woodrow's grandbaby. The other grandmother, Mrs. E. W. Beeman of Littleton, Colo., is here for a few days' visit. The young Killingsworths live at S&K Manor.

★ MR. AND MRS. Shorty Trimble were hosts at a birthday dinner for her mother, Mrs. Ferlie Beck. Guests were the Fred Simms of Hereford and their daughter Kay Robertson and her husband, and the Trimble's daughter and son-in-law, Merle and Jimmy Johnson of Lubbock.

★ The Claude Johnsons have received word from their daughter, Mrs. Melba Smith, that she and Moffett and their children arrived safely in Ankara, Turkey. Mr. Smith is with the American Embassy. They said it is cold and muddy there, but spring is around the corner.

★ Gene and Leahdare Goodwin and two girls were Sunday guests of his parents, Mr. and Mrs. J. P. Goodwin.

NEWS OF HEMISFAIR '68

WORLD EXPOSITION APRIL 6-OCT. 6-SAN ANTONIO, TEXAS

Visitor Services, Inc. reports 100 percent success in handling room reservation requests for HemisFair '68.

SO FAR, more than 70,000 bed nights have been booked in San Antonio hotels and motels for the world fair.

R. W. Colglazier, president of the non-profit organization processing the flood of requests for rooms and information on the April 6-Oct. 6 world's fair, said his staff is handling 2,500 telephone calls and 2,000 letters daily.

There are 8,300 hotel and motel

rooms in Bexar County and another 5,500 within 9 minutes' driving time of San Antonio.

THE 13,800 rooms and 1,000 select rooms in private homes at San Antonio are expected to meet the room needs for the fair. There are also 3,650 trailer spaces and campsites in the 90-minute driving area of the fair.

VSI thus far has not had to go beyond the requesting party's third choice for accommodations.

But, Colglazier urged everyone planning to visit the fair to write as soon as possible for room reservations.

Requests should be mailed to Visitor Services, Inc., P.O. Drawer H, San Antonio, Texas 78206.

WORKMEN are picking up the tempo in a bustle of activity to make sure HemisFair '68 is ready for its millions of visitors.

With less than a month to go, first-time visitors find it hard to believe the world's fair will meet its April 6 deadline. Others who visit the grounds on a regular basis are amazed at the speed at which the \$156 million show-place is taking shape.

Landscaping is going in on the banks of the lagoons. The mini-monorail made its maiden voyage around the 92.6-acre grounds the first of the month, and the Swiss Skyride continued its 1,000 passenger per day average. Workmen are still busy on the exteriors of some of the multitude of structures, but more are tucked away inside preparing exhibits.

IN ALL, HemisFair '68 is a flurry of activity, and as each day clicks off of the countdown clock, the eyes of the world focus more and more on the six-month world's fair.

The race with the clock to be prepared to meet the millions of world's fair visitors was obvious in the words of Marshall Steves, president of HemisFair, in his recent report to the board of directors.

"IT WILL be ready on time," he said. "We may be backing out the gate with paintbrushes, but it'll be ready on time."

The \$13 million civic center complex built by the city of San Antonio is ready for the opening. The 10,000-seat arena was the site a month ago for a performance by the Harlem Globetrotters. The San Antonio boat show was held in the huge exhibit hall, and the seats have been installed in the 2,800-seat theater awaiting the first performance of the opera, "Don Carlo," to inaugurate the beautiful structure.

Many pavilions are completed and truckloads of exhibits are rolling up daily to others. The 622-foot Tower of the Americas, focal point of the downtown world's fair, is scheduled for completion at mid-month; the \$6.75 million federal pavilion is substantially completed and carpet is being installed; and workmen are installing the 42 different movie screens in the overhead portion of the \$10 million Institute of Texan Cultures.

THE NEARNESS of the opening is pointed up in more ways than construction and countdown clocks.

More than \$2 million in tickets to the fair have been sold and the peak is not expected until this month. The response in both departments has led officials to believe the estimate of 7.5 million persons attending the fair is conservative.

Ask your hardware dealer for an empty cardboard spool that rope comes on. Makes a dandy holder for a troline.

Time To Hunt Squirrels

This tip is meant for the beginner who is taking his first squirrel hunt.

The time of day most bush-tails are running actively is really early in the morning, just at sun-up, or at sundown, just before dark. And that's the time to hunt 'em.

This applies whether you are still hunting, or sneaking through the woods.

Federal Crop Insurance Corp. Drops Rate on Grain Sorghum

Improvements in the All-Risk Federal Crop Insurance program on irrigated grain sorghum in Castro county for 1968 were announced this week.

JIMMIE R. GEORGE, FCIC representative from the district office at Lubbock, said the program has been readjusted to more adequately reflect the demands of farmers and the insurance experience here.

On a 33-county basis where the changes have been made, readjustment for grain sorghum has resulted in an eight percent average increase in the hundred-weight guarantee while premium rates have been decreased 7.6 percent on the average.

George said the FCIC insurance program also is available on irrigated cotton and wheat.

"ABOUT 117 insured farmers in the county shared during 1967 in more than \$2 million in Federal Crop Insurance payments made in Texas for losses on cotton, grain sorghum and wheat crops due mostly to drought, flood, excessive moisture and wind," he said.

"This added an estimated \$175,000 to the county farm economy

and helped to offset financial losses due to last year's hail," George said.

The All-Risk FCIC insurance plans guarantee farmers an established amount of good quality production based on yield history of the land, amount of risk involved and estimated costs of production. FCIC, by congressional act, is allowed to insure only production costs or the farmers' investment in his crop.

When crop production falls short of the guarantee due to drought, excess heat, flood, too much moisture, insects, disease or any other natural cause, Federal Crop Insurance picks up the tab, paying a cash loss sufficient to meet the guarantee.

ADDITIONAL benefits gained by Castro County farmers through the insurance, George said, include premium discounts for good experience, use of the protection as additional collateral for credit financing, and added stability to individual farming operations.

We have about reached the point where we have developed practically all of the water sources within the Water, Inc. region. Our present high economic level can be maintained or expanded only if supplemental water supplies are imported into the region.

THE WATER deficit for this region is growing. It is estimated that the West Texas area alone will eventually require an additional 25 million acre-feet of imported water. New Mexico and Oklahoma areas have advised that they will need four million acre-feet each year for their existing needs and immediate future development. All in all, we are talking about a lot of water.

Numerous sources have been mentioned. Considering such distant sources as Canada and the Pacific Northwest, with their attendant geographical and political problems, we have concluded we must look nearer home.

Kansas and Nebraska, in cooperation with federal agencies, are developing state plans for the maximum beneficial use of their water supplies. In fact, they have announced they could use another nine million acre-feet if it were possible.

OKLAHOMA is in somewhat of a more favorable position with its bountiful rainfall in the eastern half of the state. However, Oklahoma has no surplus water to export into other states. It needs all it has — and maybe even more.

The foregoing review of water availability brings us to the point of considering the Mississippi River surplus water as the most logical source of supplemental water for the Water, Inc. region.

WHAT IS surplus water in the Lower Mississippi River? We must first adhere to the basic principle that only water in excess of the foreseeable needs of the states of the Lower Mississippi Valley is that which can be considered surplus. That determination has yet to be made. We do know that over 500 million acre-feet of water is entering the Gulf. How much of this is surplus is not presently known. Some, certainly, but not all.

We must recognize that plans for movement of any water from the Mississippi River must be compatible with the affected states' water development plans and to the maximum extent possible must aid the economy of these states.

Pioneer Gas Co. Asks Farmers To Hear Policy Announcement

Pioneer Natural Gas Co. said this week it will have an announcement for local irrigation gas farmers Monday night regarding its new policies on the sale of irrigation gas.

A. V. BARNES, manager of the Pioneer office in Dimmitt, set the meeting for Monday at 7:30 p.m. in the courthouse assembly room.

Grain Sorghum CHAFF

By WES ANTHONY
A farmer has to sell 3,000 pounds of maize at \$1.70 per 100 to buy his wife a \$51 coat.

I BOUGHT a six-ounce package of pork (boiled ham) for 89 cents. At the same price, one pound would cost \$2.23. Pork on the hoof sells for about 20 cents per pound. Quite a difference in the sale price!

We farmers spend lots of money on machinery, fertilizer, insecticides, labor and the other things it takes to produce a crop. But how much do we spend trying to improve our marketing?

CAN YOU think of a better way to get into the marketing end of the food industry and improve your income, than by investing in the proposed wet milling plant in Dimmitt?

We'd better make up our minds pretty soon—before it is too late.

Wide Range of Aids Available For Fighting Weeds This Year

Farmers have a wide choice of chemical and mechanical aids for fighting weeds and grass in their cotton fields this year.

FRED C. ELLIOTT, Extension cotton specialist, says a control program using chemicals and mechanical means is not only cheaper, but faster and easier to carry out than the old hand-hoeing method.

The Texas A&M University specialist lists as available, nine pre-emerge chemicals, eight post-emerges, three "layby" treatments and three spot sprays. Their efficiency was proved last year, he adds, on more than 2½ million acres of Texas cotton in 154 counties.

As for the mechanical methods, Elliott says to give careful attention to cultivation. The use of the rotary hoe or rotary hoe-cultivation is still the "backbone" of weed control in cotton and was used last year in 165 counties. Flame cultivation was used last year in 48 counties and involved 1,461 flame cultivators, he adds.

ELLIOTT lists four steps which growers have found important in carrying out a complete season weed control program. They include the application of a pre-plant chemical; a pre-emerge spray as a band application at planting; early post-emerge treatment and layby were adapted (mostly under irrigation and river bottom areas).

The use of pre-plant chemicals such as Planavin or Treflan is a suggested start. Also, DSMA can be used as preplant on Johnson grass if an early spring brings out this grass. Then you can "over lay" with pre-emerge chemicals on a band basis at planting time with such materials as Caparol, Cotoran, CIPC, Karmex, Tel-

var or Herban. Early post-emerge chemicals include lateral oiling, DSMA or MSMA for grass control, and Herban or Cotoran combinations plus surfactants for broadleaf weeds, beginning when the cotton plants are three inches high and until bloom.

AFTER the cotton is six inches high, Karmex or Caparol can be

used on the weeds. For layby, some of the same pre-emerge chemicals can be used, some as a contact layby or late pre-emerge layby.

The cotton specialist suggests that interested farmers contact the county agent for a copy of the newly revised publication, B-1029, "Suggestions for Weed Control with Chemicals." It lists complete details on recommendations.

Repairing A Fly Rod
Fly rods are delicate instruments and sometimes become bent by use. When this occurs, they must be straightened by softening the glue with heat until the shaft is warm.

Reverse the bend. Then with a weight tied to the butt, hang the rod by the tip until the rod is perfectly set.

Deceptive Practices Uncovered In Mail-Order Insurance Sales

Misleading and deceptive practices are being used in the mail order insurance industry to solicit sales, according to the Plainview Association of Life Underwriters.

The association reports that an investigation of deceptive insurance selling practices recently completed by the Federal Trade Commission revealed a number of abuses in which insurance is sold through advertising and other printed promotional material sent by mail to residents in Texas and other states.

"PUBLIC awareness of such promotional practices can save the consumer money, future embarrassment, and provide more adequate protection for his family," said Joe Ed Sullivan, president of the Plainview life underwriter organization.

Sullivan said abuses were primarily found in the selling of accident and health insurance, but included some life insurance. He pointed out that the FTC investigation revealed the following primary practices used which appear to be misleading and deceptive:

1. **OFFERING life insurance policies** to the parents of servicemen with the implication that the insurance is being made available by the United States government.

2. Offering life insurance to veterans under circumstances indicating that such insurance has been endorsed or approved by the United States government and is being offered at government rates.

3. Representing that policies are "Guaranteed Renewable," or can be canceled only by the insured, whereas the company may cancel or rescind the policy because of alleged misstatements in the application form or because of "pre-existing" health conditions.

4. **USING** such terms as "Medi-Care" or otherwise falsely representing that the policies are in some way connected with the government's Medicare program.

5. Misrepresenting the coverage of the policy or failing to disclose limitations or restrictions in the policy which prevent the insured from recovering losses sustained under the policy.

6. Failing to disclose that the premium rates may be substantially increased when the insured reaches a certain age or at some other period.

7. Misrepresenting the business status through the use of such terms as "Foundation Plan" or well-known names in the insurance industry.

8. **USING** such terms as "Certified" and "Seal of Approval" without disclosing the true nature. Some protection for the public was provided by a new insurance law passed by the 60th Legislature. The law, which has been in effect since May 12, 1967, allows the State Board of Insurance to regulate unlicensed out-of-state insurers and prohibits them from doing business by mail in Texas. However, it has no effect on the practices used by insurers licensed to operate in Texas.

A **SENATE** Investigating Committee under the chairmanship of Sen. Doc Blanchard of Lubbock is currently conducting an investigation in accident and health insurance procedures in Texas similar to the FTC study.

Many complaints received by FTC dealt with improper claim settlement, alleged unfair cancellation of policies after long periods of premium payments, and alleged unfair premium increases.

"These can be avoided," Sullivan said, "if the consumer carefully examines the agent, the company, and the policy before purchasing insurance."

Open House Set for Brock

An electric utility career which began more than 40 years ago will come to a close at the end of this month with the retirement of Earl Brock, Dimmitt manager for Southwestern Public Service Co.

BROCK and his wife, Mabel, will be the guests of honor Sunday afternoon from 2 until 5 at an open house to be held at the Dimmitt Country Club. Their friends are invited to attend the reception in their honor.

In 1927, Brock helped build the first distribution system for Dimmitt, and later the transmission line which came into Dimmitt from Hereford. However, he has not had a continuous tour of duty here, spending some time in other towns in the utility's area before returning to Dimmitt as manager in 1949.

In 1963 and again in 1967, Brock was named "manager of the year" in competition with 11 other Southwestern Public Service managers in towns of similar size to Dimmitt. He has completed his company's supervisors' conference program and other educational and training activities. He has been an active participant in civic affairs, working with the Chamber of Commerce, Lions Club and Boy Scouts.

The Brocks will continue to live in Dimmitt.

Ralph Glover, who has been the Southwestern Public Service Co. manager in Olton, will succeed Brock as manager here.

Seven Attend FLB Convention

Seven persons represented the Dimmitt Federal Land Bank Association Friday and Saturday at the 1968 annual stockholders' Bank of Houston.

ATTENDING the two-day convention were Regional Manager Harold Stephens and his wife, Shirley; Dimmitt Office Manager Billy Hackleman; and Directors Ed Drerup and Irvin Ott and their wives.

Headquarters was the Shamrock-Hilton Hotel. The convention included a luncheon at Brennan's French Restaurant and a tour of houses in Sam Houston Historical Park.

Ivey Earns Certificate

Eugene L. Ivey of Dimmitt received a certificate of appreciation from President Johnson Wednesday of last week.

The Presidential citation was awarded for Ivey's service as a member of the draft board serving Castro, Deaf Smith, Randall and Farmer Counties.

IVEY HAS served five years, performing his duties without pay as a public service.

Virgil Dodson, chairman of the Hereford Local Board 18, presented the certificate at the request of Col. Morris S. Schwartz, state Selective Service director. The brief ceremony was in the local board office in Hereford.

Ivey's certificate was also signed by Gov. John Connally, Col. Schwartz, and Lt. Gen. Lewis E. Hershey, director of the Selective Service.

WELCOME TO TEXAS — Ray Joe Riley (right), Chamber of Commerce director, extends the community's welcome to the new owners of Sunnyside Cattle Co. Standing next to Riley is Mrs. Buford Haydon, whose late husband founded the Sunnyside Feed Yards with Ben Derrick in 1961. Accepting the handshake is W. Kent Weathers of Indio, Calif., controller of Diamond A Cattle Industries. Others in photo, clockwise from left, are Charles W. Ploesser of Thermal, Calif.; Charles C. Koontz of Roswell, N. M.; Mack W. Lewis of Indio, Calif.; Ben Derrick of Sunnyside; Dale Stewart of Indio; "Shot" Shottenkirk, foreman; and Mrs. Nina Webb, accountant for Sunnyside Cattle Co.

Out-of-State Group Purchases Sunnyside Feeding Operation

The Sunnyside Feed Yards, a landmark in Castro County for seven years, changed hands Friday.

AT the same time, the operation underwent a name change. It's now the Sunnyside Cattle Co., a new Texas corporation.

New owners are an out-of-state group associated with Diamond A Cattle Industries, which has operations in Indio and Thermal, Calif., Roswell, N.M., and elsewhere in the West. However, details of ownership of the Sunnyside Cattle Co. are still being worked out, a spokesman for the group said.

THIS IS the first Texas operation for the new owners, and reflects the rapid rise of the Panhandle area as a cattle feeding center.

The 5,000-head feeding operation was purchased from Mrs. Buford Haydon, whose late husband started the Sunnyside Feed Yards with Ben Derrick in 1961. Derrick later sold his interest in the operation to Haydon to devote full time to farming, and Haydon operated the feed yards until his death last month when his home burned.

HERE TO close the deal with Mrs. Haydon Friday were W. Kent Weathers of Indio, controller of Diamond A Cattle Industries; Charles W. Ploesser of the Coachella Valley Feed Yard at Thermal; Charles C. Koontz, manager of the Pecos Valley Feed Yard at Roswell; and Mack W. Lewis Jr. of Indio, vice-president of the insurance firm of Harry Holt & Co. and vice-president of the Indio Chamber of Commerce. With them was Dale Stewart, pilot.

On hand to represent the Castro County Chamber of Commerce and welcome the buyers to the county was Ray Joe Riley, Sunnyside seed grower and chamber director.

WEATHERS said the feed yard's management will remain the same, with "Shot" Shottenkirk as foreman. No plans have been made to expand the opera-

tion, he added. "We're enthused about the location, about the future of the cattle feeding industry here, and the congeniality of the people," Weathers said.

Planavin® is the cotton-soybean herbicide that gives you more than your money's worth.

Shell's Planavin® Herbicide gives you more than just excellent preemergence control. Nothing on the market does a better job.

It had to be more than just another good weed killer in order to break in against established competition. Growers found out how good last season. Planavin proved itself under the worst weather conditions in years. It held the fort against most annual grasses and many broadleaf weeds — right through the early period when control really counts. Growers got what they paid for — freedom from weed problems during the time when weeds can strangle young cotton and soybeans. Plus a sound control base that makes season-long control programs simpler and more economical.

Planavin also gives you a bonus. It frees you from immediate incorporation. Takes the pressure off. And it can save you hours of application time.

With Planavin you can spray by ground or air. You can use large rigs, wide booms. Covering large acreage fast saves you hours. There's no waiting for incorporation equipment to catch up. No downtime for custom applicators. The reason? Planavin doesn't require immediate incorporation. You can take your time. Even a few hours of exposure to air and sun won't wipe out your weed control when you use Planavin. Note: When you do incorporate, keep it shallow — no deeper than 1 to 1½ inches. Don't bury your Planavin below the sprouting weeds.

Get Shell's Planavin® Herbicide early — to keep the pressure on weeds and off you. Shell Chemical Company, Agricultural Chemicals Division: Suite 500, First Bank and Trust Bldg., Richardson, Texas 75080

What's In a Name? A Fist-Fight Maybe!

By IRENE KEATING
Hart and Nazareth 4-H clubs met jointly last week at Nazareth. They had a very good meeting. I sure enjoyed it, the Nazareth members put on a skit and several demonstrations.

HAD IT ever occurred to you that the name you choose for your baby may be a drawback all his life? Experts say there is a lot in a name. A Percival by any other name may have an easier time in life. So if you are in the process of thinking up a name for your baby, take your time and choose carefully.

Names are more significant than most people realize, according to a study by Barbara Buchanan of Pennsylvania State University and Dr. James L. Bruning of Ohio University. A child tends to identify with his name and reacts accordingly to whether his companions approve or disapprove.

NAME detectives found that Michael, James and Wendy were found to be relatively high in approval, while Alfreda, Percival and Horace rated low.

A boy with what used to be called a "sissy" name may have to overcome a name which is disliked by both sexes, a name that connotes low masculinity or a name whose owner is expected to be passive. On the other hand, a child with a name which rates high in approval by both men and women, such as Wendy, starts out with a name liked by both sexes, a name that is considered

feminine, and a name that connotes activity.

Other researchers have found that children with peculiar names are more likely to suffer emotional disturbances than children having ordinary names.

with boys showing a higher rate of disturbance than girls.

IN THE United States, for example, boys named Chauncey, Horace, Aloysius, Percy or Cuthbert are expected to be somewhat effeminate. Of course, this isn't always true. Many times little Percy or Horace becomes the neighborhood tough, having grown up fighting to prove his manliness, despite a delicate label.

It was found that names not too well liked included Hildegard, Pansy, Agatha, Hilda, Beulah, Mathilde and Alfreda.

"Flower" names, once popular for women, now are considered old fashioned by both sexes. MEN LIKE such girls' names as Susanne, Linda, Dawn, Annette, Sherry and Patty. Women like Yvette, Tammy, Kim, Lisa, Karen, Yvonne and Katherine. Sydney, Ronnie Jerry and Brunhilde, as girls' names, were rated high in masculinity.

What's the importance of this to parents? Well, unless you are naming Percival after a rich uncle, don't!

Since we're talking about names for children, I'd like to share a poem with you. It should teach us a lesson, as parents.

CHILDREN LEARN WHAT THEY LIVE

By Dorothy Law Holtz

If a child lives with criticism, he learns to condemn.

If a child lives with hostility, he learns to fight.

If a child lives with ridicule, he learns to be shy.

If a child lives with jealousy, he learns to feel guilty.

If a child lives with tolerance, he learns to be patient.

If a child lives with encouragement, he learns confidence.

If a child lives with fairness, he learns justice.

If a child lives with security, he learns to have faith.

If a child lives with approval, he learns to be himself.

If a child lives with acceptance and friendship, he learns to love in the world.

Arney Club 'Tours' Scotland

George Blake of Happy gave a program on his native land of Scotland to members and guests of the Arney Community Club recently.

Mr. and Mrs. Blake visited his homeland in 1962, also touring Scotland, England, and parts of Europe, including Switzerland and Austria. The slides he showed the group included scenes that had been graphically described in Scottish literature of Sir Walter Scott and Robert Burns. Some pictures and slides were of picturesque traditions of Scotland and England.

Aberdeen is known for its granite industry, and granite is the material mostly used in construction there, withstanding the weather for hundreds of years, he said.

Hostesses for the evening were Mmes. Charles Burks, Branch Sheets, Herman Schumaker, and Albert Schoenberger. Doughnuts, coffee and punch were served.

bargains are being advertised in this issue of the News, look 'em over.

A number of Dimmitt business and professional men and farmers went to Austin this week to attend a Dimmitt Day seminar conducted by the Texas Industrial Commission. The purpose and aim of the commission is to help smaller towns to attract new industry and business. While we are looking for new industry we should bend every effort in the promotion of projects already underway. Dimmitt Wheat Growers are engaged in the gigantic task of promoting and building a corn milling plant. Every person in the area interested in the industrial growth of our community should aid in every way possible in pushing this project to a successful conclusion.

The Shadow

Second Shadow Is Heard From

If someone asked you, "Just what is a shadow?" could you answer them? Just for the benefit of the doubtless I shall define myself. I am an obscenity within a space from which light is cut off by such a darkened space on a surface that cuts across it. We shadows even have our own language by which we communicate.

He told me that on Friday he got up and went to play rehearsal at 9:00 and it lasted to about 11:30. After all this work he went downtown with Sharron Flynt's shadow to get a beverage. There they met Betsy Simpson's shadow and ventured to the Castro County Stock Show. Then later on he met up with Vickie Lawson's and Diane Webb's shadows.

WHY, I WAS talking to one of my friends the other day about his extended activity of the past week.

Heads in Our Display Case!

Has anybody noticed the Art Class display case? It is full of sculptured heads, some appear to be very interesting, that the students made out of clay. They are now making paper mache masks, which so far look like they are going to be very good.

CHEERLEADING tryouts, with over 20 girls trying out this year started with a bang this week. Every day you will find them in the gym during activity period practicing the many different yells to be performed before the student body May 20.

Fifty of the FHA girls went to the annual district meeting in Amarillo last weekend. They left school around 3:00 Friday afternoon and spent the night in Amarillo. Everybody was up early Saturday morning to attend the Saturday morning meeting. Each girl was required to stay for the meetings, and afterwards they went shopping before coming home.

THE BAND has been having rehearsals for the past few weeks in order to get ready for contest, which is to be held April 3, and the HemisFair, which is to be about April 22. They are concentrating their efforts on three pieces of music consisting of a march, suite, and an overture.

Volleyball season is here and the many different volleyball captains have been busy organizing their teams for the tournament which will be held sometime next month.

THE NEXT morning he slept late but at 1 p.m. he went to the County Stock Show where he found Darrell Pope's shadow. Here they received news of the girls basketball game in Lubbock which influenced them to go to the girl's game that night. They came home around 11:30.

On Sunday afternoon he had to go to rehearsal which made him tired enough to stay home that night to watch "Bridge on the River Kwai." Because of no school Monday he slept late but was out that afternoon looking for tapes for his stereo system. That night found him driving on Main Street.

TUESDAY he went to school and afterwards went to the drive-in where he saw the shadows of Betsy and Diane. At 6:30 he was found at dress rehearsal for the one-act contest play.

Wednesday after school he and Dana's shadow cruised for a softy then at 6:30 he was back at dress rehearsal.

Thursday he was sick for the first three periods of school. But after school he and Betsy's shadow killed some time at the drive-in, then back to play rehearsal with an audience of Mr. Moore.

If you are wondering who could cast such an active shadow, look for someone whose nick name is "Doc." His real name would be David Harris. With this type of activity now, surely his activity will not slow down during his later life.

Senior Girl of Week: Sherry McGowan

Can you believe it? Sherry Lynne McGowan is our 30th Senior Girl of the Week! She is the daughter of Mrs. Margie McGowan and was born Feb. 10, 1950 in Dimmitt.

SHERRY is a great personality in our high school because she holds many titles. She has been in the Student Council for five years and has held the office of corresponding secretary this year and was reporter last year.

Also, she has been in the Science Club for one year and in the Bobcat Band for eight years.

Some of the honors she has received during her four years of high school have been: Most Likely to Succeed her senior year, an alternate to Girls State and an exciting summer attending a Citizenship Seminar sponsored by the Farm Bureau.

SHERRY also has many favorites when she is not busy with school work such as listening to the song "Somewhere." Her favorite pastime is listening to country and western records and writing letters while her hobby is making friends.

In the entertainment field, she likes Andy Williams and John Wayne. Her favorite movie is "Grand Prix."

If Sherry could have a car for graduation, it would probably be a Javelin, preferably blue.

In DHS, she enjoys the class of elementary analysis and her favorite teacher is Mr. Diehl.

AFTER that big day in May when she walks across the stage to receive a little piece of paper for 12 years of work, she plans to attend West Texas State University and then transfer to a bigger school that is best suited for her studies.

Thanks, Sherry for being our 30th Senior Girl!

Long Weekend Doesn't Halt DHS Activities

The big news of last week began on Thursday. In case you wondered about the extra pickups, trailers, and boys under their hats on that day, the annual Castro County Fat Stock Show was beginning. Many DHS students participated along with others from all over the county.

AFTER THE LONG weekend which came about because of a teacher's meeting on Friday and snow on Monday, Tuesday started the week off with a bang with several meetings.

The senior class met to decide on class dues, and also decided to be host to Joe Barnett, a preacher from Amarillo, who will speak at baccalaureate ceremonies.

THE JUNIOR class banquet committees also got together and lemon oil was distributed to the sophomores for sale in hopes of raising money. And that night there was the old usual play rehearsal.

Wednesday the cheerleaders met along with approximately 20 recruits who will begin practice for tryouts which will be held soon.

ALSO THE Student Senate met to decide on nominations for officers.

1968 Annual Goes to Printer

The journalism class (or rather part of it) became ecstatic Thursday night as they burned the last of the "midnight oil."

YES, the '68 Bobcat finally became a parcel of the US Postal Service!

After many long and tedious hours of taking pictures, disrupting and skipping classes, bugging coaches and teachers (and Mr. Moore), and finally laying out pages, that last beautiful annual shipment was sent on its way to Taylor Publishing Company.

Not many of the students know what really goes into the making of that little book they receive at the end of the year. Those pages may look simple, but did you ever try to lay one out?

WE, THE Annual Staff are very proud of our annual this year and we hope each one of you will be equally proud of the '68 Bobcat. It should arrive about the second week in May, so don't forget to bring your dollar when you pick up this work of art!

color and the poppy as their class flower and other important issues. So ends another big week at DHS.

Who's Who

One night while we were sitting by the fireplace and JoAnn Stone was reading me the book, "The Ivy Tree," I reversed the action and began reading her. It was as easy as reading a book.

IN CHAPTER one I see she has two sisters, Mary Lee, a senior, and Linda, a sixth grader, and JoAnn is a freshman. She is the daughter of Mr. and Mrs. J. W. Stone, and her family lives two miles south of Dimmitt.

Chapter two is devoted to the honors she has already gained in high school. This year she is Pep Club reporter, FHA songleader for the Little Sister Chapter, and Freshman Basketball Manager.

Chapter three is of her many favorites which include the following. She enjoys listening to classical and popular music and her favorite songs are "Rhapsody in Blue," and "Sealed With a Kiss." She enjoys sitting down to a table set in her favorite colors of orange and green to eat her favorite meal of steak and baked potatoes.

SHE ENJOYS watching the movie "Hush, Hush Sweet Charlotte." This must be the reason why her favorite actress is Bette Davis, while her favorite actor is Rock Hudson.

During the hot summer months you will find her swimming every chance she gets, because this is her favorite sport. She would like to have a Dodge Charger if she had her choice. Her favorite hobby is reading and her pet peeve is people who talk about other people, and stuck-up people.

CHAPTER four gives her plans for the future. She plans to attend West Texas State University in Canyon and become a history teacher.

Best of luck goes to you JoAnn as you go through high school and in the future too.

Editorial

How Many Toughs Do We Not Have

"The evil that men do lives after them, the good is oft interred with their bones."

This direct quote from JULIUS CAESAR contains the topic for this week's Bobcat Tales' editorial. Are all the citizens of Dimmitt and the surrounding area aware of how much anguish and worry they are spared by Dimmitt teenagers? Quite a bit, judging from reports and news items taken from the larger city newspapers and radio broadcasts. How many teachers' cars have been blown up in Dimmitt? How many teachers have been attacked by gangs and beaten up "just for fun"? How much actual property damage has been done to what each teacher privately owns? A brief search would not yield an affirmative answer to any one of these questions.

We, as teenagers, are constantly pulled in one direction and then another by daily cares in life. Just as life is trial and error so are our actions since they are a part of living. Knowing the difference between right and wrong is trial and error but townspeople often single out the bad things and construct opinions for themselves and others to pass around. Consequently, mostly the bad things about teenagers are in the limelight and not the good.

WHAT ABOUT the good things teenagers do find time to experience such as saving lives, helping the incapacitated, and taking on the responsibility of educating themselves? Not all teenagers are bad as some newspapers make us out to be. Actually the bad are outnumbered almost a hundred to one "basically primarily." When a teenager commits some bad action, though, one may be sure to read about it several times before it is old news.

We're very fortunate here in Dimmitt having the splendid teenage population that we do but things could change. There are no gangs or "toughies" or any hippies as such around here. Drug

addiction is almost nil and various other trouble spots pop up at some time or another but most disappear soon after experimentation. We have shown to you as a community that we're interested: a Teen Club was organized just this past year for civic and extra-curricular activities by the young people of Dimmitt. But that's not all it takes to keep a group of lively youngsters in check. Just "draggin' Main," sitting at the drive-in, or enjoying a movie once in a while doesn't offer much to vary the appetite of a restless teen. Traveling to other towns invites trouble sometimes and worries many parents.

ADULTS provide for their entertainment but their tastes don't concur with the average teen. We need a place to congregate and associate; a place to go to stay out of trouble; mainly a place to go to that we can call our own but one that is well-chaperoned and overlooked.

Townspeople, let it never be said that the good was buried with the teenager or that only evil lingered on after our generation. We certainly don't want it to be that way and we hope you don't want to look back and say that Joe Blow was a juvenile delinquent just because a decent place wasn't provided for the express purpose of keeping him out of trouble.

FIRST BAPTIST NEWS

Dear Fellow Members,

"I believed in God — just believed in God, but it struck me one day that I wanted to give my life to Jesus and let Him have first place. Now my life has more meaning. I go to church now because I want to, and I feel like I have a part in His service."

"Two of my best friends were Christians. They had something that I didn't have in my life and I wanted it, too. Since I accepted Jesus as my Saviour, I know now how wonderful life can be."

Testimonies such as these, around the fireside in a cozy cabin nestled under the pine fested mountains at Glorietta are just a few of the reasons that we, as counselors, begin to pray, plan and publicize far in advance for our young people's annual ski retreat to New Mexico.

This Friday, March 22, 23 and 24, 107 people — 97 young people and 10 adults — will board chartered buses, and head again to our yearly trek to ski the mountains of Santa Fe.

The retreat was begun by the First Baptist Church of Dimmitt about six years ago, and seems to gather momentum every year. Our theme for this year is "His Way Mine" and the scripture is, "If any man will come after me, let him deny himself, and take up his cross daily, and follow me." Luke 9:23. Our prayer is that the Spirit of God will work in the lives of our young people while we are there; warming the hearts of those grown cold and convicting the hearts of those who have never accepted Him. A beautiful setting, such as this retreat provides, does much to help those who attend feel closer to God.

We will leave Friday at four o'clock from Dimmitt High School; stop in Clovis at the El Monterrey for supper and arrive in Glorietta about 10:30 p.m. Snack foods, a fire-side flick, "The Gospel Blimp" and a devotional period are scheduled before "sack" time.

Saturday morning early we leave for the Santa Fe Ski Basin, and the ski slope will be covered with beginner, intermediate and experienced skiers all from Dimmitt until about 4:30 that afternoon. After supper in Santa Fe, and back at Glorietta, we'll all get dressed in our best Minnie Pearl and Porter Wagner attire to attend the Saturday night, Dimmitt version of the "Grand Ole Opry."

Sunday morning will find us "sleeping in" until about 9:00 o'clock before we rise (shining is not required) for a leisure breakfast and devotional time. Worship services are planned for a later hour than would be normal if we were home, but this trip is geared for young people and this seems fitting and proper.

We'll be packed and ready for our trip home about 3:00 p.m. We'll be on the lookout for a good picnic spot around Ft. Sumner where we'll stop for supper and our evening worship time.

Travis Hart, senior student at Wayland will go with us as retreat pastor. He has worked with our young people before during "Teen Time" and Hootenannies and we're real fortunate to have him go along.

Now you know our plans and we are confident the trip will be a success, but we covet your prayers that this retreat will be spiritually enriching and glorify His name.

Sincerely,
Mrs. V. C. Hopson, High School Coordinator

New PO Pamphlet Gives Tips On Airlifting Mail Overseas

An illustrated pamphlet, "Mail For Servicemen," outlining the expanded program for airlifting letters, packages and other military mail overseas at low postal rates is now available from Dimmitt Post Office window clerks, Postmaster John Wood announced this week.

"AS A result of new legislation and action by President Johnson, we are now airlifting more than 75 percent of all mail going to the military men and women stationed abroad," Wood said. "We hope this guide will help more American families become familiar with these services and use them."

The eight-page pamphlet illustrates three services for airlifting parcels at rates the average family can afford, the speedy service now available for newspapers and news magazines to most overseas bases, the special rates for books and similar educational materials, and how to mail sound-recorded personal messages.

The guide also provides parcel wrapping instructions, information on the time it takes parcels to reach Vietnam and other overseas bases from major US cities, and pointers on the correct way to address military mail.

A FAMILY sending a 10-pound package from Dimmitt to Vietnam, for example, pays only \$2.75 on a package marked "PAL," while the air parcel rate for the same package is \$6.59, Wood said. On parcels weighing less than five pounds, it might be more advantageous for a family to use the older Space Available Mail (SAM) service, which provides surface transportation to the port of embarkation and airlift overseas. A four-pound SAM package to a European military post from Dimmitt costs only \$1.10.

30 Neighbors Get Spencer Farm Ready for Planting

By TEENY BOWDEN

More than 30 men of the Sunnyside Community and surrounding area enacted a "good neighbor policy" last week when they spent 3 1/2 days helping Noah Spencer and his dad get caught up on their farm work.

NOAH HAD just returned home after being hospitalized with Bright's Disease in Amarillo and Dallas since Feb. 1. He is still unable to work, but he stood at his bedroom window and watched as his neighbors chiseled, disced, fertilized, listed and applied Treflan to his 480 acres.

The community project started Tuesday. Eight tractors were used Wednesday, and the number grew to 21 tractors by Friday.

Thisweek, neighbors are continuing their help by watering his land.

HERSHEL WILSON and Cecil Ginn ramrodded the project, with more than 30 operators, farm hands and suppliers taking part. Fuel for the tractors was provided free by Dimmitt Phillips 66, Northern Gas Co., and Weldon Bradley Shamrock Service. Fer-

tilizer and chemicals were furnished at cost by Dimmitt Wheat Growers, Inc., and Western Ammonia. Fred Kuntz of Flagg Fertilizer furnished soft drinks for the workers, while Rex Wooten, Hershel Wilson and Rayphard Smithson provided most of the food.

"Many others helped," Wilson said. "It would be impossible to list everybody and what they did."

But Wilson kept a list of the farmers and hands who brought their tractors and equipment to the Spencer farm and got most of the spring work done in less than four days.

They were Lonnie Bell, Junior Velasquez, John Hogue, Jim Stewart, Elexio Reyes, Hershel Wilson, Rex Wooten, Eddie Zamora, Jess Wooten, Tommy Ramirez, C. E. Ginn, Ralph Monraul, Ray Robertson, Joaquin de la Cruz, Raymond and Eldon Lilley, Joe Valdez, Charles Nutt, Louis Moreno, Roy Phelan, Hilario Garza, Rayphard Smithson, E. R. Little, Coy Mason, Carl Bradley, Robert Duke and Bob Ott.

CAROLYN HOLOOMB, a farm-

He was rushed to Methodist Hospital in Lubbock, and both lungs collapsed on the way. A tracheotomy was performed and he still has a tube in his throat to aid breathing as well as a tube in each lung.

Several ribs were broken, plus his right shoulder. He was some better Sunday.
