KOREANS CONTINUE PRESSURE

Army Calls Up Non-Organized Reserve Forces

WASHINGTON, Aug. 4 (UP)—The Army today called on 62,000 non-organized reserves to report during September and October for 21 months of active duty.

The plans call for 32,000 to be in camp by Sept. 11. The remaining 30,000 are to report by Oct. 15.

The reserves will be called "with or without their consent" from both the volunteer and inactive reserves.

First calls go to those between 19 and 25 years old.

Priority will be determined by the number of dependents. Those

with no dependents will be called up first, those with one dependent second, and those with more, last.

The Army said the reserves will be used primarily to bring to full strength the National Guard and organized Reserve units ordered to active duty and "to perform other duties essential to the current Army expansion."

THIS CALL WAS THE FIRST affecting enlisted reserves not in organized units.

The bulk of these enlisted reserves are World War II veterans. They number about 185,000.

No officers are affected by this call.

THE ENLISTED RESERVES being ordered to duty will come from throughout the nation.

Quotas for Army areas: Fourth—including Texas, Louisiana, Arkansas, Oklahoma, and New Mexico—6,230.

Reserves first will be selected tentatively and ordered to their nearest medical facilities for physical examinations. They then will return home and await orders to active duty if they pass physical examinations. They will be given 21 days from the receipt of their orders to report to training divisions or reception centers.

RANGER OIL FIELD SHOWS MORE LIFE

Well, 12 Miles North Comes In For 200 Barrels

Three wells, 12 miles north of Ranger, show promise of opening a substantial oil pool here.

The Fair-Choice Gray No. 1, hydrofractured at 1,764 feet was producing 200 barrels of oil today. The well is an offset of the Jackson, earlier reported by the Ranger Times. The Jackson is an offset of the Glascock. All three wells are doing good.

ACCORDING TO REPORTS reaching the Daily Times news office, the Jackson has steadied down to producing 150 barrels of oil per day.

The location of the Gray follows: Two hundred feet from the north and 200 feet from the east lines of the south 200 acres of section 79, block 6, TP railway company survey.

THE WEATHERFORD, HURD and McCotter Graham No. 1, 13 miles north of town, was brought in at 1,652 feet by hydrofracture. The well is producing 25 barrels per day. Location of the Graham follows: Thirty feet from the south and 330 feet from the east lines of the north one-half of section 31, block 1 of the TP railway company survey.

ADVANCED POST EXCHANGE—At an advanced Post Exchange men of the A-Battery, 77th Field Artillery of the First Cavalry Division, take advantage of a lull in the battle near Kijong, Korea, to buy cigarettes and candy. In background a crew of a 105 mm howitzer continues to fire on North Korean positions. (Exclusive NEA Telephoto by Staff Photographer Stanley Tretick).

American Reinforcements Counter-Attack Viciously

By Earnest Hoberecht
United Press Staff Correspondent
TOKYO, Saturday, Aug. 5 (UP)—American counter-attacks on the Western approaches of Pusan have killed 600 Communists and temporarily stalled the big push on the U. S. supply port. Gen. Douglas MacArthur announced today.

Three Communist divisions hammered at the southern end of the new Nakdong river line while dozens of other North Korean units massed along the sluggish stream for an expected renewal of the full scale offensive.

The Communists already had made one small scale patrol stab across the Nakdong. The American forces manning the line of no retreat were alerted for trouble during the hours of darkness.

MacArthur's mounted communists reported that the Communists kept on the pressure some 40 miles west of Pusan, where U. S. 25th division troops, freshly thrown into that sector, were battling the three North Korean divisions trying to break through to Pusan.

"THE ENEMY IS STILL UN-able to advance in this area, due to counter attacking American forces," it said.

Fighting still raged along a front running through points 20 miles southeast, 11 miles east and 15 miles northeast of Chinju, which is 55 miles west of Pusan, MacArthur said.

"Except for both friendly and enemy patrols, the remainder of the front is still disengaged," he added.

The communists made it clear that the North Koreans still had not completed the move into the strip abandoned by the Americans and South Koreans when they fell back several miles to the new positions along the Nakdong.

BUT THE ENEMY WAS MOV-ing in, field dispatches reported. U. S. air scouts saw dozens of units moving up to positions across the Nakdong from the allied front, a field dispatch reported.

A spokesman at MacArthur's headquarters reported yesterday that 45 Communist tanks were seen moving southeast from Taejon toward the Nakdong front. Today's communique explained:

"The column of 45 tanks reported earlier as moving southward from Suwon and Taejon have been found to be wrecks of tanks previously destroyed."

The U. S. Marines got their first taste of action in the air and on the ground although the latter was only a token brush. They chased away North Korean patrols from their front line area yesterday without firing a shot.

AEC Gets Ready For War
WASHINGTON, Aug. 4 (UP)—The Atomic Energy Commission today announced a special research project to assure availability of blood plasma stockpiles "in the event of atomic disaster."

Errol Flynn To Be Married
SALINA, Kan. Aug. 4 (UP)—Actor Errol Flynn will be married to Starlet Patrice Wynore "as soon as he gets back from making a picture in France," the young actress' mother revealed at her home today.

Reservists:

HERE'S LIST OF WHAT LOUIS JOHNSON SAYS ARE CRITICAL JOBS, ESSENTIAL INDUSTRIES

By Dayton Moore
United Press Staff Correspondent
WASHINGTON, Aug. 4 (UP)—The armed forces had a new yardstick today for granting deferments to reservists and National Guardsmen—a master list of 48 critical jobs and 72 essential industries.

The defense department, which forwarded the list to officers of the Army, Navy and Air Force, declined to speculate on how many men would be affected. It appeared that this would depend upon the judgment of individual military officers.

In issuing the list last night, Defense Secretary Louis Johnson said he wanted to set up some standards for excusing from active duty—at least temporarily—those men in civilian jobs "essential to activities critically necessary to the maintenance of the national health, safety or interest."

Army, Navy and Air Force officers would have the final say on individual cases. The master list was to serve only as a guide to help them reach their decisions.

The master list, compiled for Johnson by the Labor and Commerce departments, was composed of two sections—one a list of 48 essential occupations and the other a list of 72 "essential activities"

THE JOB LIST COMPILED BY the Labor department ranged from agronomists to tool and die makers and included engineers, doctors, dentists, nurses, physicists, airplane and engine mechanics, boiler makers, machinists, and iron and steel rollers.

The Commerce department's essential activities list appeared to cover the majority of the nation's industry and commerce. An official said it was made broad enough to include any industrial or business activity that might be "remotely" related to a war effort. But it was so comprehensive that it appeared doubtful it would be very useful even as a guide.

THE "ESSENTIAL" INDUST-ries included ordinance, food, tobacco, textiles (including lace goods) clothing, lumber, furniture, paper, printing and publishing, chemicals, rubber, metals, machinery, aircraft, motor vehicles and railroad equipment.

Non-manufacturing "essential" activities included farming, fishing, mining, oil production, construction, railroads, trucking, all types of transportation, radio and wire communications, utilities, most wholesale and retail trade, banking garages and service stations, automobile dealers, personal services, radio broadcasting and motion pictures.

NEWSPAPERS AND NEWS syndicates were covered under publishing.

The list even included the operations of hotels, non-profit organizations, museums, botanical gardens, zoos—and art galleries.

To get a deferment, each reserve and Guardsman, or his employer must apply for it after the call to active duty is received.

The policy does not affect draftees. Local draft boards may defer induction for essential occupations but they do not now have any lists of such jobs. Such lists were provided during World War II, however.

American Official Hurt
FRANKFURT, Germany, Aug. 4 (UP)—An American official supervising a German police raid on a Communist newspaper was injured by a defiant red youth last night. Jesse Callahan, of Dallas, a public safety official, was pushed through a window and received a cut elbow.

Sales Jump 40 Per Cent
DALLAS, Aug. 4 (UP)—Federal Reserve figures showed today department store sales in Texas last week made a 40 per cent jump over the comparable week of 1949.

Softball Club Has Chance To Finish Albany

The Ranger softball team has slated the third and possibly the final game of its play-off with Albany here, Tuesday.

The local club has beaten Albany twice in a row. It has only one more to win to take the series to play a four out of seven series with the winner of the Cisco-Gustine three out of five play-off. The winner of the seven game series will be inter-city champion.

THE LOCAL CLUB TRAVEL-ed to Albany Thursday night to win five to three, coming from behind to tie the game in the fourth and win it by two runs in the ninth.

The Tuesday night meeting of Ranger and Albany will be preceded by a clash between the local Junior softball team and the Cisco Juniors.

THE BOTTOM HALF OF THE batting order led Ranger to victory last night as Andrews hit three times out of four times at bat, knocking in three runs with a single, double and three bagger. Seymour hit three for four as did leftfielder James Townsend.

Billy Simpson, who must get a big bunk of credit for the local club's string of victories, pitched a five hitter last night.

See box score inside.

Pearson Wins Run-Off; Odom Pulls Hat Out

L. R. Pearson was today assured of election to the legislature in district 107, comprising Eastland and Callahan counties, when O. O. Odom, Jr., the runner up candidate in the July 22nd primary, withdrew from the run-off election on August 26th.

In withdrawing, Odom stated that in view of the international situation and his Air Force reserve status, that he might be called into the service and could not serve in the legislature if nominated.

In the July primary Pearson received almost 49 per cent of the total votes, Odom 32 per cent, and Chas. H. Dawson of Cross Plains approximately 19 per cent.

UN Wrangling

Russia Will Probably Use Veto Today To Block US Resolution

By Bruce W. Munn
United Press Staff Correspondent
LAKE SUCCESS, N. Y., Aug. 4 (UP)—Russia appeared certain today to use its 44th veto to block an American resolution condemning North Korea's continued defiance of the United Nations.

After three days' wrangling in which the Russians lost diplomatic battles on four counts, the UN Security Council's sole business was consideration of the American resolution which also calls on all members to refrain from "assisting or encouraging" the Red Korean invasion.

Ambassador Warren R. Austin, chief of the American delegation, was slated to open debate on the American resolution with a plain-speaking denunciation of the Communist activities in the Far East.

Sources close to the U. S. delegation said Austin would not cite Russia by name as an aggressor or an encourager of aggression. But the 72-year-old former Vermont Senator was expected to leave no doubt here or along the world's propaganda lines that he was talking about the Russians.

There was a feeling here that Russia, smothered under diplomatic defeats in the UN, might turn them into propaganda victories. Some delegates believed Russia's chief delegate Jacob A. Malik submitted proposals on his return to the Security Council last Tuesday solely to force the Western powers to vote against them.

ON THE RECORD, HOWEVER there was nothing but defeat for Malik. The burly Russian swayed the votes against him with a minimum show of bad grace and indicated that he had no intention of walking out of the UN again, at least until his month of presidency under the Security Council expires August 31.

Malik's record of defeats started

Demonstrations Slated
NEW YORK, Aug. 4 (UP)—A plea for "No more Hiroshimas" will be raised Sunday—the fifth anniversary of the Atom bombing of Hiroshima—in religious services and "Gandhian type demonstrations" throughout the nation, a pacifist committee announced today.

BULLETIN

WASHINGTON, Aug. 4 (UP)—The House eliminated all wage-price rationing provisions from its economic controls legislation today and then wrote in a provision making hoarding of "necessaries" a criminal offense.

THE WEATHER

By Unite d'Press
Wichita Falls flood began receding today after making 536 families temporarily homeless and causing damage estimated at \$1,000,000.

While the North Texas city's situation was improving, the weather outlook for West Texas included a scattering of thunder-showers tonight, except in the Del Rio - Eagle Pass area. The forecast for East Texas carried no mention of rain.

Big Producers Pay

COUNTY DAIRY ASSOCIATION FARMERS TALK BREEDING COST OF CALVES, DHIA

An estimated 150 calves have been slain in the county by the County Dairy Association's artificial insemination program.

But heifers, sired by the artificial breeding, are not for sale, a spokesman at the dairy association's meeting Thursday said.

One dairyman told of turning down a \$60 offer for a one-day-old heifer calf.

Another farmer told of offering \$160 for a six-week-old heifer—and being turned down. The farmer who owned the calf, said it couldn't be bought for \$200.

The association is worried about where to get high butter-fat producers essentially because a farmer will make about \$400 more profit a year from a 600 pound producer than from a 100 pound butterfat producer.

The association had a called meeting in the Ranger chamber

of commerce office to discuss the advantages of a DHIA testing program.

The test is made to determine the amount of butter-fat a cow produces, the amount of feed the cow eats and the profit that the cow makes the farmer.

Forrest Boone of Rising Star has recently completed training in supervising the testing program. Three herds in the county are now being tested.

A herd is tested once a month. The daily butter-fat production is computed from the one day's per month testing, the computation shows an error of only 2 per cent.

The official test serves as proof of a cow's production in when selling the cow or its offspring for sale.

But the primary purpose the test is to help the farmer cull his herd, get rid of the cows that are showing little profit or losing him money.

The following attended the meeting:

Forrest Boone, Rising Star; A. Z. Myrick, Cisco; M. D. Fox, Eastland; H. L. Geyer, Rising Star; Lloyd C. Truman, Rising Star; L. R. Higginbottom, Gorman; O. D. Cunningham, Ranger.

Raymond Sprawk, Cisco; Marshall Berry, Carbon; J. H. Denton, Cisco; Harry Crow, Carbon; J. C. Caraway, Carbon; V. L. Jones, Ranger; L. O. Swindle, Cisco; B. S. Dudley, Jr., Ranger; Fred K. Mosely, Ranger; Ethelene Herrington, Ranger.

J. M. Cooper, Eastland; C. R. Fry, Abilene; J. M. Ratliff, Ranger; Dr. Dick Rodges, Ranger; Ronald Harris, DeLeon; E. E. Harris, DeLeon; J. Behrart, Rising Star; George L. Lane, Eastland; J. W. Moseley, Ranger; and John Henderson, Gorman. Rip Galloway, Ranger Chamber of Commerce secretary, acted as host. Myrick, Association president, conducted the meeting.

Those Ladies

Johnny Parsons Figures You're Safer Driving On A Race Track Than Dodging Average Driver

By Harmon W. Nichols
United Press Staff Correspondent
WASHINGTON.—You can paste this over your rear view mirror and credit it to Johnny Parsons: "You're safer kicking up 125 miles an hour on a race track than dodging the average driver on the highway at 35."

Johnny, who has had close calls on track and highway, ought to know. He won the 500-mile race at Indianapolis last memorial day—the one which was called because of rain after 345 miles. He says he has outsmarted even women drivers on the highway.

Johnny flinches a little when he criticizes women drivers. "After all," he said, "my wife drives."

Some women drivers are all right he said, "but most of them aren't. They follow the ancient unwritten law that a man should scrape and bow and stand up when a lady comes into the room."

"It's always ladies first. She always has the right-of-way and the devil-can-take-care-of-the-left-rear-fender attitude."

All of the above stuff about women drivers is from Johnny Parsons and if you gals have any complaints, write to him and not to me. I'm a repeater in this case.

Johnny is touring the country as a safety-driving campaign backed by the American Automobile Association.

He thinks that if a man uses his head and follows the signs along the highway, he will arrive at his destination with all of his fenders and bones in place.

"It's the guys who take chances who get hurt," he said. On that old brick track at Indianapolis we don't dare. I don't take any chances when I'm driving along at a sensible speed on the highways, either. I pass only on the left and never go around anybody on a hill. Up or down. And after I do pass a car, I get back into my lane as quickly as possible."

Johnny also is doing a little racing on the side. A couple or three times a week. He has two racers, one a big car and one a midget.

Johnny, who has spent the greater part of a lifetime behind the wheel thinks that some of the greatest menaces today are the young hotrods and the fellows who soup up stock cars and race them at small tracks.

The hotrod, kill folks on the highways and the stock car racers jump the rails and kill the customers, he said.

Race track drivers have to take physical examinations regularly. The king of the tracks believes that ordinary drivers like you and me ought to have our eyes tested, our reflexes looked at, and car brakes inspected ever so often, too.

A lot of us need glasses, he says, or hearing aids—or the good sense to get off the highway!

NEWS FROM OLDEN

Mr. M. J. King of Westhoff, Texas, is visiting his sister, Mrs. McMinn this week.

Mr. and Mrs. Bill Kearns and children, of Sacramento, Calif., have been visiting Mrs. Kearns' parents, Mr. and Mrs. Truman Horn, before going to Oklahoma to visit Mr. Kearns' parents. Mr. Kearns will leave soon for the Air Corps.

Mr. and Mrs. Melvin Holt and children of Abilene are visiting Mr. and Mrs. S. M. Holt, and Mr. and Mrs. Wince Graham of Kilgore, while on their vacation.

Visitors in the home of Mr. and Mrs. Bob Lester the past week included: Mrs. Lester's mother, Mrs. Lillian Lowe, a sister, Mrs. Pat Arterburn of Houston, a brother, Mack Lowe of Bowie and Mr. and Mrs. Edd Freeman of Graham and W. L. Lowe of Frier, Texas.

Mrs. June Tompson and Mrs. Howard Williamson, visited Mrs. Dick Yielding last Friday.

Mr. and Mrs. Lee McGuire visited Mrs. McGuire's sister, Mrs. Ford Reed, in Desdemona, Sunday.

Joe Norton was able to visit his parents this week Joe has been in the Veterans hospital at McKinney for several months.

The revival meeting at the Baptist Church at Olden started Wednesday night with Brother Starns of Weatherford, conducting and Jimmie Pick of Louisiana in charge of the singing.

Mr. and Mrs. Bob Clark and children of Aspermont have been visiting Mrs. Clark's parents, Mr. and Mrs. Burley Patterson.

Miss Clara Simer is home with her mother, Mrs. Ida Simer, after teaching a summer school near El Paso.

Mr. and Mrs. Mason of Bluffdale, visited in Olden Sunday and attended the Church of Christ. The Masons are the parents of Mrs. Lanier of Ranger.

Mrs. Ruth Norton and sons are visiting Mrs. Norton's daughter in Abilene this week.

Visitors in the home of Mrs. Lillian McMin are her daughter and family, Mr. and Mrs. Jack Marten of Montana and granddaughter, Joyce Rea Fox of San Antonio.

Wince Graham of Kilgore, formerly of Olden, has been called back into the armed forces.

The Baptist Intermediate Sunday School Class enjoyed an ice cream supper in the home of Mr. and Mrs. Bud Griffin Thursday night.

Mr. and Mrs. Paul Watson and Larry of Kennedy were week end visitors in the home of Mr. and Mrs. Joe Langdon.

Mr. and Mrs. Lee McGuire were in San Antonio Wednesday to visit their daughter who is ill.

Mr. and Mrs. Johnnie Mitchell visited her mother, Mrs. Mary Fox in Eastland, Sunday.

Mr. and Mrs. V. M. Hamilton had as their guest over the week end her sister, Mr. and Mrs. Joe Cockrell and son of Waco.

Mr. and Mrs. W. C. Stark had as their guest over the week end, his sister, Mrs. Walter Robinson of Comanche.

Mr. and Mrs. Edwin Mitchell and family of Independence, Mo., visited Mr. and Mrs. Hugh Vermillion over the week end.

Mr. Joe Langdon's niece, Mrs. Fred Bishop of Milap visited in the Langdon home Sunday.

Mr. and Mrs. G. M. Chancellor and family of Kingsville visited this week.

Mrs. Rice and Mrs. Ruth Chancellor this week.

Mr. and Mrs. Harry Thomas of Lowell, Ark., visited Mr. and Mrs. V. M. Hamilton.

Mr. and Mrs. Charles Clark of Stephenville, visited Mr. and Mrs. Jim Everett and Mr. and Mrs. Basil White, Sunday.

Mr. and Mrs. Johnnie Jarrett of Corsicana, visited Mrs. Stella Jarrett over the week end. Mrs. Jarrett and J. C. are visiting Mrs. Jobe Morten of Morton Valley this week.

Mrs. Rice and Mrs. Ruth Chancellor this week.

Mr. and Mrs. Harry Thomas of Lowell, Ark., visited Mr. and Mrs. V. M. Hamilton.

Mr. and Mrs. Charles Clark of Stephenville, visited Mr. and Mrs. Jim Everett and Mr. and Mrs. Basil White, Sunday.

Mr. and Mrs. Johnnie Jarrett of Corsicana, visited Mrs. Stella Jarrett over the week end. Mrs. Jarrett and J. C. are visiting Mrs. Jobe Morten of Morton Valley this week.

Mr. and Mrs. Melvin Holt and children of Abilene are visiting Mr. and Mrs. S. M. Holt, and Mr. and Mrs. Wince Graham of Kilgore, while on their vacation.

Science News

Scientists Ganging Up To Get Cancer; Day Of Victory Coming

By Paul F. Ellis
United Press Science Editor
NEW YORK.—Scientists the world over are "ganging up" on cancer and the day of victory over that enemy of all mankind is being brought closer.

Such was the feeling among some 800 medical men and research experts who met in an international conference in Paris recently. Of those attending, about 270 were from the United States.

Most significant reports at the meeting, perhaps, were the scientific papers on possible causes of cancer—a mystery that the scientists believe must be cleared up if cancer ever is to be controlled.

Throughout the session and particularly among the European doctors there was a strong feeling that foreign substances in the body, such as a virus or a fungus, probably have a part in the cause of abnormal cancerous growth. One scientist reported his studies show that a virus lies dormant in the body, perhaps for years, and is sprung into activity by other factors, such as aging or perhaps some sort of irritants.

The old fungus theory was revived and new evidence was offered that a rare type of fungus has been found in every type of human cancer.

Numerous new methods of treating cancer with chemicals or drugs were reported. Temporary remissions—or shrinkages of tumors—were reported to have been achieved, but life was not saved.

The scientists generally exchanged their information freely. Now they are enroute to their homes and the mass of information—once locked up inside single laboratories or medical minds—will be spread to all parts of the world.

Some 55 nations were represented. The Soviet Union sent two medical men who listened to the discussions but did not offer reports of any Russian gains in the battle against cancer.

The next international conference on cancer is scheduled for Rio Janeiro, Brazil, in 1953. By that time, many of the scientists believe some real "breakthroughs" in the war on cancer will have been achieved—if a war between men does not slow up the work.

LET'S GO FISHIN'

By Onous Dick

LICENSE RENEWALS DUE SEPTEMBER 1
 The Chief Clerk of the Game, Fish and Oyster Commission said today all but eight of the thirty-nine licenses issued by the Commission, including those for hunting and fishing, will be renewable September 1.

The license revenue provides a substantial part of the funds for Commission activities.

The Game Department staff now is busy readying the licenses for distribution. The actual sales are made generally by game wardens, county clerks and licensed deputies mainly in retail stores throughout the state. Only nine of the thirty-nine kinds of licenses are sold at the Austin headquarters.

Considerable Commission revenue comes from the \$1.65 individual fishing license and from the \$2.15 so-called big game hunting license. The \$2.00 resident hunting license represents only a small part of the collections. This is because the comparatively new big game license covers all kinds of hunting, except antelope which calls for a special \$5.00 fee.

The Chief Clerk explained that processing the licenses supplies represents a sizable assignment because they have to be distributed to between 1800 and 2000 agencies.

The license range in cost from 50 cents for a duplicate individual fishing license to \$200 for a wholesale fish and oyster dealer permit.

Sears Pig Tour Re-Set August 8

The Sears Pig tour, originally set for July, has been re-scheduled for August 8, Ed Steele, assistant county agent, has announced. Rain caused postponement of the tour on the original date.

Boys making the tour are requested to bring a lunch since the trip will last all-day. Mothers and fathers of the boys are invited to go on the trip.

The route of the tour will be as follows: Carol Sandlin, Carbon; Leon Rodgers, Cheamey; Mack

YOU OWE IT TO YOURSELF TO READ THIS

In the beginning, may I express to you my sincere thanks for the wonderful support you have given me, not only as County Judge, but in the other official capacities in which I have attempted to serve the people of Eastland County. I have at all times attempted to serve you well and I have never failed to be open and above board in all of my official actions.

This race has developed, my friends, as it did four years ago into an orgy of misrepresentations of the true facts, widespread assaults on my character and morals, all untrue and all designed to mislead the people of Eastland County. You are asked to compare the valuations of Eastland County with the surrounding counties: Eastland County with eight towns, none of the others with more than three: Eastland County a diversified County, farming and ranching, most of the others ranching; Eastland County with more refineries than all of the others combined; Eastland County with more railroads and public utilities than all of the others combined. I challenge my opponent to prove that there has been any overall raise in the lands, homes and businesses of Eastland County, OTHER THAN THE OIL AND REFINING INDUSTRY AND RELATED INDUSTRIES. All lands are \$4.50 and \$9.00 per acre and have been for 25 years or more; no homes have been raised, except to adjust with other homes of like construction and value, and these have been very few. Lands have been selling for from five to eight times the amount they are on the roll for. Homes are on the roll for from 15% to 25% of their true value. The record will show that ALL OF THE PROPERTY OF EASTLAND COUNTY IS ON THE ROLL FOR LESS THAN 25% of its actual true cash value. In every town in this county, there has been a lot of growth in building, repairs, additions and greatly increased business volume since 1946. In Eastland alone there has been more than 20 new business buildings and businesses since 1946, and the same is true in like proportion in every other town in the county. Hundreds of homes have been built and have now gone on the rolls; Much property has been added to the rolls since 1946 that heretofore has been UNTAXED; on the 1949-50 roll there was added to the rolls from the oil, gas, refining and pipe line industries, and related industries more than \$2,248,320.00 besides the normal growth which was about \$1,000,000.00 and includes the "Rock Crusher" at Carbon for \$161,800.00.

One must say that my Opponent is either misleading the people or is being misled in the false propaganda that a tax rate of \$1.20 is better than 60c and advocating cutting the valuations half in two when they are already less than 25% of their actual cash value, AND WILLFULLY MISLEADING YOU TO BELIEVE THAT THE RAISE HAS BEEN ON YOUR HOME. Do not be confused by the rate raises and valuation raises of the CITIES and SCHOOLS. The county HAS NO CONTROL over these taxing units nor of the STATE TAX RATE. Whatever rate the State sets MUST BE COLLECTED by the County Tax Collector and Assessor, and the County has no alternative.

Who are the ones principally, who are howling about the valuations and advocating a still further reduction in valuations and a \$1.20 tax rate? ONLY TWO PROTESTS were filed on the valuations on oil properties: one of them a BIG oil, gas and refining company, who has since satisfactorily paid their taxes; the other an independent operator of Eastland, Texas. His raise amounted to approximately \$120.00 (County only), and he says that he doesn't mind the money, but that he JUST DOES NOT WANT TO BE PUSHED AROUND. (He prefers to do the PUSHING AROUND himself!). All of the oil property taxes put on the roll for 1949 HAVE BEEN PAID, and the most of them seem to be happy, WITH THE EXCEPTION of THIS ONE operator and he says the County will have to sue him to collect, AND HE WILL BE SUED. He says the reason he won't pay is that his property is assessed higher than the farmer and rancher and small home owner. He further states that "THE EQUALIZATION BOARD could see the oil derricks over the County, but they COULD NOT SEE THE WHITE FACE CATTLE, SHEEP, and GOATS on the farms over the county". This same operator, the ONLY ONE who has not paid his taxes for 1949-50, has some other property reductions during the past few years that stand out like a sore thumb as far as VALUATION IS CONCERNED, and they will be made public before this campaign ends.

Another bright and shining example of this false theory of raising tax rates to \$1.20 designed to eventually work untold hardships on the small home owner is a BIG BUSINESS man of Eastland, who a few years ago was just a mediocre citizen, like myself, but who, in a very few years, by accident, has catapulted into the BIG SHOT class, as a business man. He owns three apartment houses in Eastland, excellently furnished, 20 apartments, good garages, all in excellent condition, which brings him a monthly rental of approximately \$900.00 per month. In 1946 he had them, all of them, on the roll for \$3050.00; in 1947 for \$3630.00; in 1948, \$3850.00. For 1949-50, the Equalization board raised them to \$12,830.00 (not near enough) he has offered to sell them for \$50,000.00, and did he squawk. He also has some other shining examples of valuations during the past few years, which will be made known to the public.

As to the false theory of cutting the valuations in half, when they are already less than 25%, and raising the tax rate to \$1.20, and that this would "BEAT THE STATE" out of their taxes, simply is not true. Bear in mind that by Constitutional Amendment, voted by the people in 1948, there CAN BE NO State tax for general revenue purposes, beginning January 1st, 1951; bear in mind also that the Constitutional limit for the "General Fund" of counties is 25c on the \$100.00 valuation. IT CANNOT BE MORE. The General Fund is the "Catch All" fund. Everything that cannot be paid for out of the "Specific Funds", must be paid for out of the general fund; this includes emergency purchases of all kinds, salaries and in fact ALL expenditures that cannot be paid for out of the "Specific" funds. If the false theory advocated by my opponent and his array of "tax talent", were put into force only HALF the money for this fund could possibly be raised and the county WOULD BE BROKE IN LESS THAN ONE YEAR. Also the Road and Bridge Fund, which also has a Constitutional limit of 15c per \$100.00 would get only HALF the amount now being collected, which would not permit the Commissioners to do anything like maintain roads as they should be.

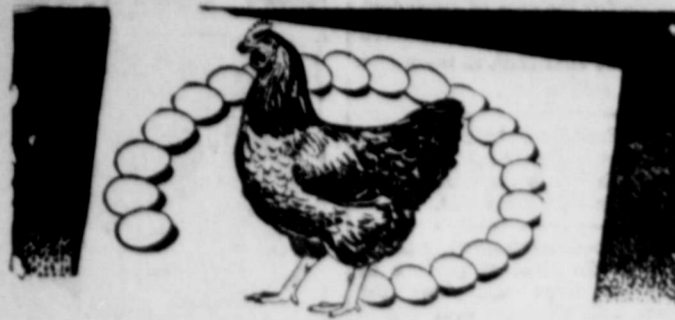

Their entire theory is as full of holes as an old straw hat and CANNOT WORK, and they know that it CANNOT WORK. It is designed for no other purpose than to mislead you, the people of Eastland County. The last paragraph on his latest card reads: "FROM THE ABOVE FIGURES, DECIDE FOR YOURSELF IF THE 60c RATE RESULTED IN SAVINGS TO YOU"

Again I CHALLENGE my opponent to show that there has been A "BLANKET" raise in valuations, or that any property, except the oil, gas, refining and pipe line properties and related properties have been raised, except the comparatively few which were made in adjustments which it is required by state law that the equalization board do, and in this connection there has been SOME PROPERTY LOWERED, to adjust with other properties. I further CHALLENGE HIM to prove that there is a single home owner, land owner, or business in Eastland County that has not saved money for all years beginning in 1945 at the 90c rate for 1945 and 60c rate for all other years beginning in 1946.

If it is necessary for me to advocate a false theory such as he is advocating, that in the end will result in disaster for the people of Eastland County, then I don't want to be your County Judge. Likewise, if it is necessary for me to take my stand solely with the BIG taxpayers, some of whom over the years, have filched Eastland County out of MANY THOUSANDS OF DOLLARS, through valuations too low, I don't want to be your County Judge. I have no fight with the BIG taxpayer, when they are fair but unless they are fair, I prefer to take my stand with the small home owner and taxpayer, and ADVOCATE and PRACTICE that which has saved them money since 1945 LOW VALUATIONS AND A LOW TAX RATE.

P. L. CROSSLEY FOR COUNTY JUDGE

Olive Anderson Circle Meets In King Home Mon.

Members of the Olive Anderson Circle of the Womens Society of Christian Service of the First Methodist church met Monday, in the home of Mrs. M. L. King, 808 West Main Street.

The meeting was opened with a prayer by Mrs. G. C. Boswell. Mrs. A. J. Ratliff introduced Mrs. L. E. Wolf, who gave the devotional. Mrs. Arthur Deffebach gave the council program, which was "The Story of Israel."

At the close of the meeting refreshments were served to the following: Mrs. A. T. Tunn, W. C. Garrett, W. J. Van Bibber, L. E. Wolf, A. J. Ratliff, Arthur Deffebach, Lonnie Cozy, W. A. Robinson, G. C. Boswell, R. L. Willis, E. Hightower, Lee Dockery, W. C. Henderson, George Wright and the hostess.

Dorcas Class Has Meeting In Byas Home

Members of the Dorcas Class of the First Baptist Church met at 3:30 p.m., Thursday, in the home of Mrs. J. F. Byas, for a business session and social.

The meeting was opened with a prayer by Mrs. Lee Mitchell. Mrs. Amy Brown gave the devotional and chose as her subject, "The Life of Martha and Mary." Mrs. R. E. Barker offered the closing prayer.

At the close of the meeting refreshments were served to the following: Mrs. R. E. Barker, Ethel Adams, Amy Brown, Hugh Dawley, Carla Daniels, Verna Long, Lee Mitchell, W. P. Powell, Ruth Weber, T. J. Fuller, and the hostess.

Mrs. Joe Weekes Honored At Stork Shower

A pink and blue shower was given Thursday afternoon for Mrs. Joe Weekes, at the home of Mrs. Buck Weekes, 521 Pine Street, with Mrs. Lloyd Clem as co-hostess.

Gifts were displayed on card tables decorated with a large stork and arrangement of sweetpeas. The dining table was laid with a lace cloth and decorated with an arrangement of sinas. Mrs. Joe Lemaine and Mrs. Clem presided at the punch bowl.

About thirty guests called during the evening.

Buchan and sister, Lillie Buchan. Mrs. Vera Bennett made a trip to Ft. Worth last week for a treatment at the Harris Clinic.

Mr. and Mrs. S. O. Riley and Mr. A. A. Brown of Monday visited with Mr. and Mrs. Zollie Koonce over the week end.

Mr. and Mrs. R. P. McGough and daughter, Mrs. Emma Green of Strathmore, Calif., visited last week with Mr. and Mrs. M. J. Keith.

Mr. and Mrs. Clabe Eldridge attended the funeral of Willard Trimble at Carbon, Sunday.

Mr. and Mrs. H. C. Fox of Ranger spent the week end with Mr. and Mrs. Shorty Fox and children.

Mr. and Mrs. Dick Owens are grand-parents of a baby boy born at Gorman Thursday. Mr. and Mrs. Bill Owens are the parents.

Mr. and Mrs. Melvin Harrison and daughters Jean and Norma of Monday, spent the week end with his parents, Mr. and Mrs. Arvil Harrison.

Mr. Edward May of Abilene spent Friday night with his mother, Mrs. Katie May.

Rev. J. W. Tickner, pastor of the Desdemona Methodist Church went to Cisco on business Thursday and while there visited his mother and sister, Mrs. W. J. Tickner and his daughter and son in law, Mr. and Mrs. I. H. Skiles.

W. W. Mitchell has been ill for a few days and is reported to be improving.

Personals

Mrs. H. L. Henry is at the bedside of her mother, Mrs. Fred Jacobs, who is critically ill in a Houston hospital.

Mr. and Mrs. Joe Weekes have as their guests, Mrs. M. W. Krzajcar and daughter of Snyder.

Mrs. N. J. Novakovich spent Tuesday in Cisco.

NEWS FROM Desdemona

The Baptist revival meeting is now in progress. Brother Pipes of South Texas is doing the preaching. Junior Davis has charge of the singing and Miss Nella V. Grimshaw is at the piano. The public is invited to attend.

Mrs. Gracie Bray and Mrs. Ed Morrow of Eastland visited with friends here over the week end and while here attended the Baptist revival. Among those they visited were Mr. and Mrs. Jimmie Hoester, Mrs. S. E. Snodgrass and Mr. and Mrs. Lem Macon and others.

Mrs. Lee McGuire of Olden and her grandson, Mr. and Mrs. Ramon Lee Stark of Odessa visited Sunday with her sister, Mr. and Mrs. Ford Reid.

Mr. and Mrs. Raymond Anderson of Stephenville, visited Sunday with her mother, Mrs. Eva

How To Tell Refugees From North Korean Guerillas; It Stumps Yanks

By Peter Kalischer
United Press Staff Correspondent
WITH THE U. S. 1ST CAV. ALRY DIVISION IN KOREA, Aug 3 (UP)—Young and old men weighted down with heavy loads of rice. Women with babies on their backs; and shoulders, Whole families driving oxen before them.

These are the refugees—and the deadly North Korean guerrillas—of the Korean war.

Thousands of them pour through the American lines daily, bringing death to the American soldiers by guerrilla activities at unexpected places behind the lines. "They are the North Koreans' most potent weapon," says Maj. Gen. Hebart R. Gay, 1st Cavalry commander.

The overwhelming majority of the travelers are those who have left their homes to escape from the booming sound of the guns to the North.

They climb aboard trains, tramp over roads or plod through rice paddies and over hills, some eating refuse en route.

The herds are culled by American soldiers who know their harbo, enemies. But the G. I.'s can not distinguish the enemy from the mass of innocent South Koreans.

No matter how carefully the Americans empty villages just behind the lines, guerrillas ambush jeeps or raid command posts at night.

"I swear I'll mow down the next bunch that comes through here," a G. I. says.

Then a group of men and women struggle toward his position over a hill. The file comes within rifle range and then within pistol range. But the G. I. does not shoot.

The refugees walk silently by and the Yanks put down their guns, look sheepishly at each other and light cigarettes.

Two miles behind the front I encountered a thin, dirty old man

dressed in soiled white trousers rolled to the knees who was kneeling by the roadside next to an American military police jeep.

On second look I noticed his hands were tied behind his back. He was a suspected guerrilla.

Lt. Richard Wolfe, 26, of Marion, Ind., stopped our jeep to question him.

Wolfe is the only American in the division who is rated a fluent Korean linguist.

The two spoke for a moment. And the old man did not appear frightened.

He told Wolfe, he was 53 years old and worried about his parents. His mother, he said, was 73 and his father 81. Both, he said, were on the road some miles back.

"The rice I've got in my pack is mine," he said. "I did not steal it."

"My God, what are you going to do in cases like this?" Wolfe asked. "He was picked up for nosing around a regimental command post and thinks we suspect him of stealing. Stealing! He's got a better than even chance of being shot as a spy."

To The People Of Eastland and Callahan Counties

I take this means to thank each and everyone of you for the consideration and courtesies extended me while traveling over both counties in behalf of my campaign for state representative.

If nothing prevents I will be seeing you in the future and I say again thanks for everything.
