## Ranger Ball Club Slates Gustine Here

Three Out Of Five Series To Determine Inter-City Champion

The Ranger softball club will meet Gustine at 8:15 p. m. Thursday here.

This will be the first game in a three out of five series to determine the winner of the inter-city championship.

Ranger beat Albany three games straight; Gustine beat Cisco three straight to enter the final play-off.

The Ranger team, which started off the season by losing several in a row, has improved in such a fashion that it beat the early season leader, Albany, without too close a tussle.

## Local Draft Board Can't Give Names

Thirty Eastland and Stephen county boys left today for induction examinations at Dallas.

Mrs. Jewell Reeves released the following statement from the draft board headquarters concerning publication of names:

"There may be disclosed to the newspapers, radio stations, and the general public the number of men being sent for physical examination on any call and the number of men being sent for induction on any call from State headquarters. Names of men sent for physical examination may not be disclosed to the public by the local board.

"Names of men sent for induction may not be disclosed until the proper forms have been received from the induction station that they have actually been inducted. The names of those finally rejected may not be disclosed."

## New Producer Added In Pool Near Eastland

Another flowing well has been struck on the Briggs-Owens pool three miles west of Eastland, the A. V. Clark No. 3.

The well began flowing naturally Monday and operators were attempting to shut it in so that hydrocarbon treatment could be given. Choate Drilling Company, drillers of the well, have moved their equipment to location on the Briggs-Owens No. 6.

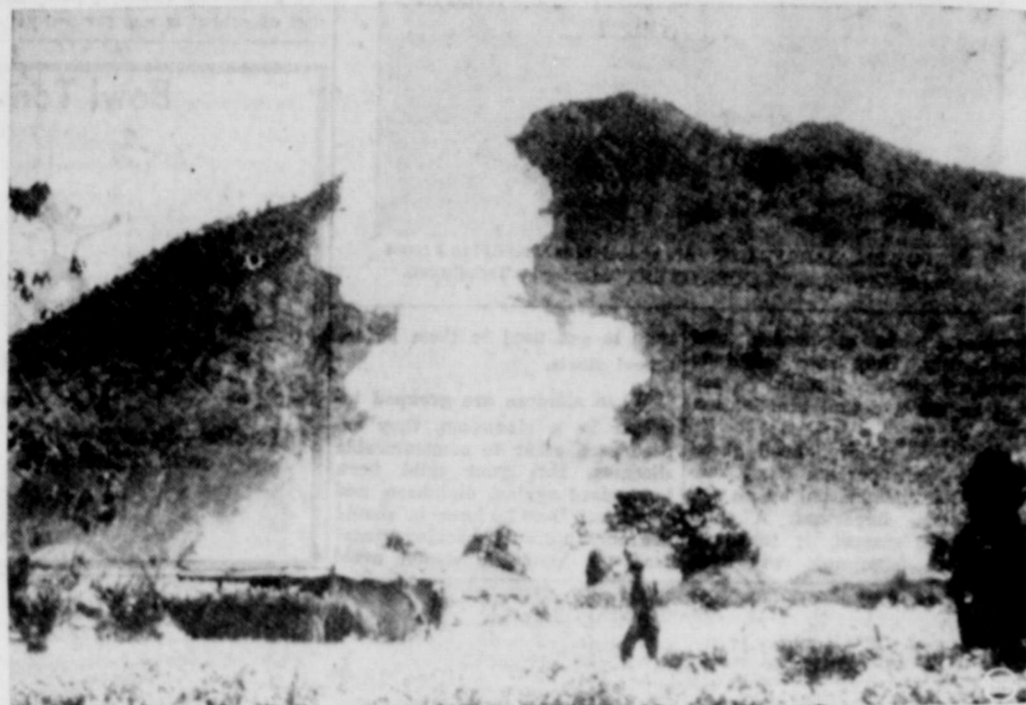

Crossman and Savage were setting pipe in the same area on their No. 1 Perdue, which will extend the pool to the north. The well was drilled to the lake sand.

Drillers reached the top of the lake sand in the Clark No. 3 at 3,298, and the sand was cored to 3,316 feet.

**Earthquake Rocks Roof**

NEW DELHI, India, Aug. 16 (UP)—One of history's worst earthquakes rocked the "roof of the world" in mountainous eastern Tibet last night and violent echoes still shook the earth's surface some 10 hours later today.

## THE WEATHER

Tropical summer weather—hot with occasional scattered thundershowers—blanketed Texas again today and there was no prospect of a change.

The U. S. Weather Bureau predicted partly cloudy skies for the entire state through tomorrow with a few afternoon and evening thundershowers in West Texas and along the upper coast in East Texas.

Tuesday's high—95,  
Tuesday's low—69.  
At 8 a. m. today—80.

## Quarterbacks To Erect Poles For Stadium

The Quarterback club announced today that poles for the new football lighting system are ready.

The funds aren't. The club has collected \$350 out of a quota of \$2,500. E. F. Arterburn, club vice president said.

The Taylor Equipment company which installed the mercury lighting here, will erect the poles, wire the system and attach the heavy watt fixtures.

The following have contributed in addition to other previously named:

Homer Bagwell, G. B. Rush, W. F. Creager, C. N. Lawrence, Odie Cole, S. A. Hightower, O. C. Warden, Texas Electric Service company, A. N. Larson.

## Meroney Named Candidate For A And S. Degree

Joe Don Meroney is a candidate for a University of Texas Arts and Science degree.

The university has 460 candidates for the degrees at the close of the current summer session, August 31.

**Human Giants In Offing**

SPÖCKMÖLM, Sweden, Aug. 16 (UP)—Experiments that may lead to a race of human giants twice the size of the present man were disclosed today by three Swedish scientists.

## Board After Taxes

### School System To File Suits For Delinquent Taxes This Month

The Ranger school board is planning to file 60 suits to collect delinquent taxes.

School Tax Assessor H. C. Wilkinson said that the suits will be filed before the end of August. At the present time there are 1,200 taxpayers on the rendered rolls; 300 on the unrendered rolls.

He said that most of those being sued owed at least three years back taxes. None are being sued at this time for 1949 delinquent taxes.

The present school tax rate is \$1.70. This is divided as follows: One dollar for local maintenance; 50 cents to retire bonds; 20 cents for the Ranger Junior College.

## KoReds Drive Boys Armed With Fire Crackers To Lead Attacks

WITH 8TH U. S. ARMY, Korea, Aug. 16 (UP)—South Korean schoolboys armed only with noisy firecrackers have been driven forward by the Communist army as the first wave of its infantry attacks, a South Korean spokesman charged today.

He said Red police drive the boys forward as cannonfodder. Behind the police, he said, comes the third wave—North Korean regulars.

Col. Sun Keun Lee, South Korean army public relations officer, displayed firecrackers he said were picked up from dead and captured boys after a successful counter-attack today against a Red regiment on the eastern flank of the Naktong river, bridgehead five miles northeast of Waegwan.

The captured boys—about 15 or 16 year old—were questioned, he said, and their speech, mannerisms and appearance indicated that they were forced into Red service when their cities and villages were occupied.

"These boys carry only firecrackers and a handful of rice—nothing else," Sun said.

Americans have reported that young South Korean peasants have formed the first wave of recent Red attacks. But the firecracker ruse to simulate rifle fire has not been reported previously.

## Second Meet Of Community Chest Slated

A second organizational meeting of the board of directors of the Community Chest is slated for 7:30 p. m. Thursday. Purpose of the meeting is to elect a president.

Ralph Wagoner, chairman of the civic committee of the chamber of commerce, initiated the chest here. The board is composed of representatives from local civic and service clubs and organizations.

The board of directors hope to facilitate not only the collection of funds, but the economic and fair distribution of funds.

Funds raised in the big national drive to be sponsored in October will go to the Girl and Boy Scouts, Child Welfare Club, and the Community Chest of the city.

Member directors of the newly formed organization are:

Mrs. J. A. Bates, representing the Girl Scouts; Mrs. P. M. Kuykendall, Child Welfare; Hugh Smith, Boy Scouts; Lee Dockery, Salvation Army; J. W. Elder, Jr., VFW; John Usery, Legion; James Ratliff, Rotary; Ralph Wagoner, Lions Club; T. J. Anderson, Chamber of Commerce; Morris George, Jaycees.

**Carrier Wanted**

WANTED — Boys for Ranger Daily Times carrier routes at once. Apply to Mrs. Joe Dennis at the Times office.

## 20 Per Cent Of Texans Ignore Draft Orders

39 Per Cent Found Unacceptable For Duty

AUSTIN, Aug. 16 (UP)—State Selective Service headquarters ordered a crackdown on draft delinquents today with announcement that one out of five young Texans were failing to report when ordered.

State Selective Service headquarters revealed that of 607 men called for physicals from 19 local boards, 41 per cent were found acceptable at examining stations, 39 per cent were found unacceptable and 20 per cent failed to report.

BRIG. GEN. PAUL L. WAKEFIELD, state director of selective service reminded registrants that disobeying the Selective Service law is a federal offense punishable by five years imprisonment, a \$10,000 fine or both.

"We are urging local boards," he said, "to send these (delinquent) men orders to report for induction as delinquent registrants."

He explained that "where failure to report was caused by something over which a man had no control — we have asked local boards to consider such circumstances."

Orders for induction as delinquent registrants would be issued to take effect in the latter part of September, Wakefield said.

"IF ANY REGISTRANT DISOBEYS one of these orders," he said, "he will do so on his own responsibility. Such delinquent men who do not report in response to order to report for induction as delinquents will be turned over to the federal district attorney for prosecution."

He blamed part of the situation on failure of registrants to notify local boards of changes in address. As a result, many men were not receiving their orders.

## Armed Forces Hike Draft Quota Today

WASHINGTON, Aug. 16 (UP)—The Armed Forces probably will draft 50,000 men in November and call "far more" than the anticipated 185,000 by July, Selective Service Director Lewis B. Hershey said today.

HERSHEY TOLD NEWSMEN he has boosted his estimate of military manpower requirements for the fiscal year because the situation has changed since the 185,000 total was presented to Congress.

He made the statement less than 24 hours after the House appropriations committee made public his own testimony on Aug. 1 about the November draft call. Selective Service has already been asked to provide 100,000 draftees in September and October.

AT THE TIME OF HIS TESTIMONY, Hershey said, he expected calls after November for an additional 35,000 men to swell the total to 185,000 men at the end of the fiscal year. But he said he now believes the Army forces will need many more draftees than he originally estimated.

**Charles To Be Matched**

BUFFALO, N. Y., Aug. 16 (UP)—In the wake of Buffalo's first and probably last heavy-weight championship fight, Edward Charles was expected to be matched today for his fourth title defense against Joe Louis at New York's Yankee stadium, Sept. 27.

**State Renews Oil Fight**

AUSTIN, Aug. 16 (UP)—The state renewed its anti-trust fight today against 19 major oil companies, filing an amended petition in 98th District Court pressing charges of price-fixing on gasoline.

**Department Advances**

**Volunteer Fire Department Slates Benefit Show; Donations Made**

The Volunteer Fire department has scheduled a midnight show September 2 to raise money for uniforms.

Bran Garner has granted the department use of the Arcadia department store.

A drive by fire instructor D. A. Faucett has succeeded in getting donations from the following business houses: Montgomery Ward, E. L. Martin and Sons, The Globe Clothiers, Joseph's Department store, Ratliff's Feed Store.

King's cafe, Williams Hardware and Fixet shop, H. H. Vaughan's Firestone store, Page Plumbing, Ranger Times, Prompt Printing company, Killingsworth's, Traders Grocery, Jenny Lou Shop, Betty's Flower Shop, Duke and Ayer, Bruce's Super Market, Johnson's Appliance store, Lloyd Clem, Inc., C. E. Maddocks and company, Oil City Pharmacy, Scott Store.

L. T. Rushing, department secretary, said that others have promised to contribute. He said that any volunteer would be glad to pick up donations.

TEXAS ELECTRIC SERVICE company, Moffet Electric shop,

# General Says Troops Holding After B-29 Raid

TOKYO, Aug. 16 (UP)—A spokesman for Gen. Douglas MacArthur's headquarters said tonight that the Americans were holding on all fronts in Korea, no significant changes had occurred and the usual midnight communique would be omitted.

TOKYO, Aug. 16 (UP)—A huge fleet of B-29s poured 850-tons of fiery death and destruction today on 40,000 to 60,000 Red troopimminent offensive against Taegu.

Across the river from the smoking, flaming target area, infantrymen of the 1st Cavalry division re-captured battle-scarred Waegwan, wiped out an enemy bridgehead south of the town and contained a second Red bridgehead to the northeast.

The 98 superforts dumped more than 3,000 bombs totalling a record 850 tons on four to six enemy divisions paced into a 26-square-mile rectangle just northwest of Waegwan, 12 miles northwest of Taegu.

## BULLETINS

AUSTIN, Aug. 16 (UP)—Police broke all previous records in Texas last week with 31 cases reported from 48 counties, State Health Officer George W. Cox, reported today.

WASHINGTON, Aug. 16 (UP)—The United Nations and the United States have accepted Thailand's offer, to send 4,000 combat troops to Korea.

MIAMI, Fla., Aug. 16 (UP)—The first hurricane of the year curved toward the Florida coast today, packing winds that increased from 100 miles to 140 miles per hour in the last six hours.

The weather bureau called it a "severe hurricane." Winds of gale force fanned out over an area 250 miles in diameter.

## JP Rules Oilman Cullinan Sr. Shot Himself

HOUSTON, Aug. 15 (UP)—A verdict of suicide was returned late yesterday in the gunshot death of Craig Cullinan, Sr., wealthy Houston oilman.

Justice of Peace W. C. Reagan said all evidence pointed to Cullinan's shooting himself through the heart.

**THE PAJAMA CLAD BODY** of the 55-year-old millionaire was discovered yesterday in a spare bedroom at his home by Craig Cullinan, Jr., his son.

A .45 Caliber revolver, one shot fired, was near the body sprawled on a bed.

Young Cullinan said his father had been in bad health since the death of Mrs. Cullinan last year.

**THE ELDER CULLINAN WAS** president of American Republic Oil, a corporation founded by his father, the late J. S. Cullinan. American Republic is a large oil producer and also has tanker operations.

Cullinan was chairman of the board of regents of the Texas State University for Negroes until he resigned early this year.

**Civil Defense Prepares**

By Joseph L. Myler  
United Press Staff Correspondent

WASHINGTON, Aug. 16 (UP)—The government has told civil defense planners not to worry about what Atomic radiation does to people closer than 2,100 feet to an A-bomb explosion.

Nearer than 2,100 feet so many death-dealing agents—blast, heat, falling buildings, etc., as well as radiation—would be operating that you'd never know which killed you.

At 2,100 feet, however, you might escape some of the other hazards only to fall certain victim if unprotected—to radiation.

At that distance to have a 50-50 chance of surviving you would have to be shielded with 29 inches of concrete, 30 inches of tightly-packed soil, three inches of lead, or their equivalents.

At 4,200 feet, if unshielded, half the persons exposed would die. Some 9,000 feet away, though still within the range of painful heat burns, you would be safe from nuclear radiation.

The government figures that half a mile from a target center

The raid, twice as heavy as most previous B-29 strikes against the North Koreans, was believed to have killed or wounded thousands of enemy troops and wrecked Communist plans for an early attack on Taegu, temporary capital of South Korea.

Returning airmen reported "excellent" results. They said the target area—7½ miles long and 3½ miles wide—was "saturated." However, an air force communique said a detailed evaluation of the results would have to await reconnaissance photographs.

**FOR TWO HOURS AND 10** minutes, a steady parade of B-29s sowed 500-pound bombs every 150 feet through the rectangle, from north to south. Then 5th air force Mustangs thundered over the area to shoot or rocket anything that moved.

Southwestern front — American forces hemming in the enemy bridgehead in the Naktong river Taegu repulsed a light Communist elbow 25 miles southwest of attack after giving ground earlier on the northern rim of the bulge. American artillery was reported to have killed 160 Reds in the bridgehead today.

Southern front — Army and Marine units continued to mop up enemy pockets by-passed in their advance to the Nam river opposite Chajun. An 8th Army communique said the by-passed enemy troops totalled 1,300, although official sources yesterday placed them at 3,000.

**NORTHERN FRONT — THE** South Korean 1st division stopped an enemy infantry attack north of Taegu, but seven tanks penetrated their lines. Allied planes and infantry bazookas later knocked out all but one of the tanks and a South Korean counter-attack drove the enemy back 2,000 yards.

Eastern front — American and South Korean units seized commanding terrain in advances through the mountains to isolate North Korean forces in the east coast port of Pohang. However, an Air Force announcement conceded that the enemy had reached Angang-Ni, eight miles southwest of Pohang in the road to Taegu, 36 miles farther southwest.

**Government Figures It Doesn't Have To Worry About Men Caught Within Half-Mile Of Atomic Blast**

is the "practical" point at which to undertake realistic efforts to protect people and property from the A-bomb.

At that distance, it prescribes two feet of concrete as "adequate protection" against radiation. Since not all buildings have concrete walls that thick, the best place to be when the bomb goes off, if special shelters aren't available, is an inside room.

Buried or semi-buried shelters and home basement rooms protected outside by soil or sandbags equivalent to two feet of concrete will do the trick.

The government's emphasis is on the so-called "initial radiation" that a bomb emits when, and for a brief while after, it goes off. That is the only kind that did any harm in the Japanese A-bombings. It is blamed for 5 to 15 per cent of the deaths at Hiroshima and Nagasaki.

**AMBASSADOR TO MEXICO**—Mayor William O'Dwyer of New York had a twenty minute conference with President Truman at the White House after which it was announced he will become the new Ambassador to Mexico. The President will formally nominate O'Dwyer about September 1, after he has resigned as Mayor. (NEA Telephoto).

## City Council To Enforce City Ordinance

The City Commission voted last night to take police action against two householders who have not connected to sewer lines.

A city ordinance requires that householders within 100 feet of a sewer to connect to the city line.

The two householders, City Secretary Lester Crossley said, had received no notice.

The commissioners voted that Chief of Police W. G. (Pop) Pounds call on the householders and give them two weeks to connect to the sewer.

**FOUR DIE IN B-29 CRASH**—A B-29 bomber from Barksdale Army Air Force base on a training flight crashed and burned two miles from Carswell Air Force base in Fort Worth killing four of the crew-members and injuring eight. Here, fire fighting equipment from Carswell fights the blaze as stretcher bearers rush forward to remove the injured. (NEA Telephoto).

## Ranger Rambling

If we wish to win this war, we're going to have to borrow some political and military tricks from Stalin.

They're not new tricks. They've been working since the Greeks took Troy with a Trojan horse. And we've used them in the past—effectively.

Stalin now controls one half of the world's people and one half of the world's land surface. He has a strong control over one billion persons. We don't have as strong a control over another billion.

Stalin has gained control of this huge land area by infiltration, by appealing to the people through a native ruler.

We have tried to operate in the traditional way by working with existing governments — and we have failed.

Unless we hasten our political and military preparations, Europe, Asia and a great chunk of Africa will fall to the Russian leaders within a matter of weeks after war between Russia and the United States begins.

The United States and England can not hold Europe without effective aid from the European peoples. It is doubtful if present American strategy calls for us to hold the continent. Russia can mass a well-equipped force of 20 million Russian men to take Europe. We can not muster over 15 million Americans and English. And this force must be split to protect our homeland, our Asiatic backdoor and our European front door. We can not commit enough troops to hold Europe against a strong Russian effort. The only way we could stop the Russians is by calling up and aiming 3 million Frenchmen, 5 million Germans and 2 or 3 million other European soldiers. It's doubtful if we have the time to do that. The

way Congress and the Administration are chugging along it'll take us two years to equip a force of 10 million Americans.

The Russians probably won't give us any more time than that. Even if we did have the time to equip the Europeans, it's doubtful if we could train and coordinate the various nations' armies into one effective fighting unit.

There are too many difficulties in the way — supra-nationalism, European weariness of war, strong dissension among the people with their rulers, and stronger dissension between the rulers, and distrust of the U. S.

But we can and have the time to build strong fifth columns within Europe. We can train and equip powerful guerrilla units. We can pick certain bases along the Russian perimeter and hold these. And by doing so we will force the Russians to use large numbers of men in policing the continent and will insure ourselves bases from which we can effectively blast Russia with atomic bombs. In this way we can win. Unless, such measures are taken, we could lose.

### Your Health

AUSTIN, Special.—Parents, has your child had a physical examination this summer? Next month he will be starting to school, and if he is in good health he will have a happier, more profitable year. It's up to you to give him a healthful send-off, says Dr. George W. Cox, State Health Officer.

After he has his check-up by the family doctor, be sure to take him to the family dentist. Teeth are mighty important, and decayed ones often cause a heap of trouble. They may start infection in other parts of the body. Strong, healthy teeth add at-

Leslie S. Ladd, Jr., of 34 Cleveland Avenue, Nashville, Tenn., sure knows his HADACOL. He, his mother and his grandfather get precious Vitamin B1, B2, Niacin and Iron from this family product.

"Mamma, we haven't taken our HADACOL," says Leslie when his mother forgets sometimes. Mrs. Ladd explains, however, that hers will always be a HADACOL family because it has helped relieve deficiencies of Vitamin B1, B2, Niacin and Iron for herself, little Leslie and her father.

**TAKES 10 BOTTLES**  
Read Mrs. Ladd's own statement of their experiences once they learned that they were suffering from such deficiencies and began taking HADACOL: "I have taken 10 bottles of HADACOL. I have been run down since my oldest son was born. I am 23 years old. I have had very little appetite and I had weak spells every morning. I would almost faint but, after taking HADACOL they are gone and I stay hungry all the time."

"My four-year-old son had little appetite and his cheeks were pale. He now takes HADACOL and his cheeks are rosy and he has a wonderful appetite. I also had gastric disturbances, but they are gone now. My father took HADACOL for the agonizing aches and pains of neuritis. He is much better now."

**WONDERFUL HADACOL FEELING**  
HADACOL is that wonderful new preparation—promising blessed relief for your indigestion, stomach disturbances, (gas, heartburn, sour "risings" after meals), for normal growth in children, as well as that general run-down condition and aches and pains of neuritis. If your system lacks (Vitamin B1, B2, Iron and Niacin, HADACOL is being recommended by many doctors. HADACOL is so amazingly successful because if your system lacks Vitamins B1, B2, Iron, and Niacin it acts directly to relieve this deficiency—the real cause of your trouble. That's the kind of product you want—the kind you should buy—the kind you should start taking immediately.

**Only One Genuine HADACOL.** Don't go through life suffering such fiendish torture from your stomach or aches and pains of neuritis when relief is as close at hand as the nearest drugstore for sufferers from these deficiencies. Buy HADACOL today. Trial size bottle only \$1.25. Large family or hospital size, \$3.50. Refuse substitutes. There's only one true and genuine HADACOL—Adv.

### "NANCY" GOES TO THE ARCADIA TODAY

JANE POWELL, BARRY SULLIVAN and ANN SOTHERN in a scene from MGM's "NANCY GOES TO RIO," in color by Technicolor.

tractiveness to appearance and personality. Help your child to grow up with good teeth. . . see that he has a dental examination twice a year.

Sometimes children need glasses and their parents don't realize it. An examination by an eye specialist is important. A child who needs glasses, if taken to an eye specialist now will have

time to get used to them before school starts.

When children are grouped together in a classroom, they expose each other to communicable diseases. Has your child been immunized against diphtheria and smallpox? Does he should use only his own drinking glass? Does he know he should avoid

boys and girls who are victims of colds? Do you keep your child at home when he shows signs of a cold.

Plenty of exercise and recreation, the right kinds of food daily, and 12 hours of sleep a night, are necessary for a child of elementary school age.

Get your child an appointment for a checkup today. . . the first day of school is not far away!

# Beach Styles Feature Matched Gear

NEW YORK—(NEA)—Colorful beach accessories which possess practicality set off this season's bathing suits.

Fretty shoulders will be wrapped in a terring fringe stole (right) this summer, to keep off sudden chill breezes or an unwelcome sun at the beach. Lined in rubber, it sports twin outside pockets, large

BY GAILE DUGAS  
 NEA Staff Writer

enough to hold odds and ends of suntan oil and make-up. White is used in combination with gay colors to harmonize with any suit. The Terry beach bag which teams up with this stole is equipped with a removable rubber

lining to make laundering of the bag simple.

A rubber cap which resembles the actual fabric is paired with another beach bag (left) in an all-over geometric diamond pattern. In bright color combinations, the bag boasts a practical rubber lining and three outside pockets for most wanted beach essentials.

ly "hot" radioactive mist in which the bomb's radioactive matter has been trapped.

At Bikini where the wind speed was about five miles an hour, the base surge spread about 3 and one half miles down wind, "poisoning" ships enveloped by it.

It is conceivable that an enemy might perfect means of dusting a city with radioactive materials from Atomic piles—although the government considers this still an unlikely form of attack.

But if it happened, or if the enemy set off underwater or underground explosions, it would be essential to have trained monitoring teams equipped with radiation measurement instruments ready to gauge the area of contamination and determine whether water and food supplies were safe.

Ultimately it might be necessary to decontaminate "infected" buildings. The book lists several ways of doing this—such as wet sandblasting or use of acids. It suggests even that it might be feasible for port cities to coat their vulnerable installations with plastic paint.

When the surge passes, strip off the paint and dispose of it where it will do no harm.

Dim Your Lights—Save A Life

**Government—**  
 (Continued From Page 1)

But the shallow underwater explosion at the Bikini bomb tests in 1946 proved that there is another and deadly category of radiation called "residual". It can be dangerous for a couple of months.

It could force temporary evacuation of a target area or costly and painstaking efforts at decontamination. Fortunately, dangerously intense radioactivity decays quickly. The book calls this "the universal decontaminating agent."

In an underwater Atomic explosion, and theoretically in an underground burst, the blast produces a "base surge" of extreme-

**It Was An Error In Judgment—**  
 ... when the rejected candidate was led to believe that he had his race in the bag because every voter he met told him so. And about as disillusioned is the person who is convinced that an abstract is a lot of extra expense, and unnecessary, in a real estate transaction. There's another error in judgment. He stands to lose more, perhaps, than the candidate who lost the election. A winner always insists on an abstract when he buys real estate, and you can't beat that for good judgment.

# Not Since Leyte

## Cooks, Clerks Grab Rifles When KoReds Attack Pohang Air Base

ADVANCE AIRSTRIP, Korea, Aug. 16 (UP)—They're still talking about the way the cooks, clerks, mechanics, radio men, weather men and air police of the U. S. Air Force unit at the Pohang airfield went into foxholes as improvised "infantry" and fought off the Reds.

This probably was the first time such a fight occurred since the Japanese parachuted into Leyte.

Rifles and carbines crackled through the night. Communist guerrillas tried to come in from three sides but didn't get a single man across the airstrip perimeter alive.

A hard-bitten infantry Captain paid the Air Force boys this compliment:

"I've got combat infantry badges for any of them who want to transfer to my outfit."

Two air police and a cook drew first blood when a Korean in civilian clothing fired on them while they were digging in on the perimeter.

Staff Sgt. Frazier Whitt, of Fair Oaks, Calif., Sgt. Jack L. Kingery, of Los Angeles, and Sgt. Robert O. Engler, of Billings, Okla., took care of the Red and went on with their work.

Shooting was new to Kingery

and Engler but it was old stuff for Whitt, who fought with a Ranger unit in Europe during World War II.

Corp. Charles R. Glison, of Paducah, Ky., a butcher in the Ford Service unit, offered to trade his carbine for a meat cleaver. But he changed his mind when air police headed by Corp. James L. Whipkey, of Weirton, W. Va., opened fire on a suspicious character down the road.

Glison joined in the shooting. He allowed he couldn't have thrown a cleaver that far.

The Air Force pulled out the next day to another base and the cooks, clerks and mechanics turned over the ground job to the regular infantry.

## ITCH

Don't Suffer Another Itch  
 No matter how many remedies you have tried for itching eczema, psoriasis, intertrigo, athlete's foot or whatever your skin trouble may be—nothing from head to foot—WONDER SALVE can help you. **Looking Back Twenty Years**

At a meeting of oil producers of several counties held at Eastland Friday afternoon a committee of five was appointed to work with the central committee of the state on the proration program recommended by the railroad commission as announced this week.

The committee is composed of John M. Gholson, Ranger Chairman; J. T. Anderson, Cisco; H. P. Evans, Brownwood; Dr. E. R. Riggs, Graham; and John M. Mouser, Eastland.

Premiums for the first and second bales of cotton to be ginned in Ranger were secured Friday afternoon by Ben Whitehouse, vocational agricultural teacher and

were presented Saturday to the farmers who brought in the first cotton.

O. C. Hunt, who was the first to bring in a bale of cotton to be ginned and was given a premium of \$35 and L. Z. Wilson, who was but a few hours behind Hunt in getting his cotton to the gin, was given a premium of \$20.

Mr. and Mrs. J. U. Williams announce the arrival of a nine-pound daughter Saturday morning, August 10, at home 805 Spring road. The baby has been named Franjine Geraldine.

**BOYCE HOUSE**

Two men living in the same city had the same name. One was a millionaire; the other a day-laborer. Racketeers wrote a letter, intended for the rich man, but it was delivered to the other. The misadventure read:

"Leave \$10,000 under the old oak tree in Central Park at midnight, or we will kidnap your wife and you will never see her again."

The worker wrote the following reply: "I don't have the \$10,000—but your proposition interests me very much."

**Ferguson Says Kim Il Sung Sends Message Of Thanks To Stalin And Russians**

UP Foreign News Editor  
The man who started all the trouble in Korea combs his hair Hitler-fashion across his forehead and operates under an assumed name.

To the outside world he is known as Kim Il Sung, chief of state in North Korea and commander-in-chief of the armed forces. Like most leaders of international Communism, he surrounds himself with an air of mystery. He seldom makes speeches and tries to stay in the background.

But yesterday he reported to headquarters. Headquarters for all Communists is Moscow, of course, and Kim Il Sung sent a message to Joseph Stalin to commemorate the fifth anniversary of Korean independence. The tone of the message left no doubt as to who is running the show in Korea and it was much more revealing than a two-hour speech by Jacob Malik in the United Nations Security Council.

"The people's government of Korea," Kim Il Sung told Stalin, "send hearty congratulations and thanks to the Soviet people and government through Stalin. The Korean people do not wish to be a colony of another country and are resisting U. S. military interference and imperialism and continuing a just war to defend our country's independence and freedom. The Korean people won't forget their joy at being liberated by the great Soviet army. On the fifth anniversary of Aug. 15 we pray for Stalin's health. All glory to the Soviet forces which liberated Korea and her people."

Kim Il Sung is about 38 years old. His pictures show him to be a roly-poly, sleepy-eyed man with dark hair brushed across the

Ranger, is seriously ill in the hospital there.

Mrs. M. C. Williams and daughters, Billie Lou and Patricia Ann left today for Mississippi where they will visit Col. Robert M. Williams who is stationed at Keesler Air Force Base, Miss.

Mr. and Mrs. Jimmy Carr have returned from Miami, Fla., where they have been vacationing.

forehead toward his left eye. His real name is Kim Sung Chu, and he followed a long-standing Communist tradition when he changed it. Stalin's real name is Djugashvili; Trotsky's parents were named Bronstein and Lenin was born Ulyanov. Assumed names were a big help to them in the days when they were only a couple of steps ahead of the Czar's police.

Kim Il Sung entered North Korea with the Soviet army in 1945. Apparently he was Stalin's boy from the start because the Russian commissars put him through a big build up. There had been a real Kim Il Sung, a guerrilla hero of the Korean independence movement in 1918-19. So Kim Sung Chu became Kim Il Sung in an attempt to trade on an heroic legend.

Kim Il Sung was born close to the place where he now rules Communist Korea—the Red capital of Pyongyang. Little is known about his early life, but it is definite that he attended China's famous Whampoa military academy. From there he went to Moscow where he was thoroughly indoctrinated with the political philosophy he now is trying to impose by force upon the South Koreans.
