Ranger Hunts Injuns Scalp

A peppy scrimmage mixed with yells of "Get An Indian" brought Ranger Bulldogs' final workout for Comanche to a close yesterday. The Indian tilt will be played tonight in Comanche at 7:30. Game time has been pushed up 30 minutes earlier.

Coaches Warden and Aills have put their team through long, hard scrimmages all week. Emphasis has been placed on defense against Comanche spread formation and, offensively, the Bulldogs have been polishing up their passing attack.

Everything points to a high scoring game tonight. It may or may not be another "Dublin" tilt but it is safe to say that one touchdown won't win tonight's game.

The Ranger team has not played in the mud this year and if the weather keeps up its soggy ways, the Bulldogs will get their first taste of a wet field tonight.

Woods was out practicing yesterday. His hip seems to have improved some. Coach Warden had him running up and down the field to get the kinks out, then Woods was sent back to the field house.

Simpson is about over his knee injuries. He will probably be ready to go tonight. Coach Warden said the rest of the squad is in good shape.

Comanche and Ranger have not played a common foe up until today and there is not much to compare the two teams with. Ranger has the superior backfield speed

Rangers Hustle Through Long Scrimmage Play

The Rangers hustled through a regular game - conditioned scrimmage on the slightly muddy field yesterday. Coaches Boone Yarborough and Richard Henderson paired the squad into white and orange jerseyed teams.

There got off a 80 yard scamper for the Orange and Jack McWhorter pulled a 70 yard kick-off return for the Whites. McWhorter who has been injured looked in good shape for the Navarro game in Graham Saturday night.

The Junior College team scrimmaged as if the game was for keeps. A lot of friendly ribbing was exchanged between the teams as they knocked heads. Before the scrimmage was a few minutes old, the white practice jerseys and brown pants were smudged with mud.

Barrett hurt his knee during the practice but he was walking around without much trouble when the team called it a day. Another player got a bad blow on his face by somebody's foot but he, too, was alright in a few minutes.

Coach Henderson, who has received his call to report for active duty Oct. 16, has been given a deferment until the end of the football season.

Defense Set Up For Attack By Red Chinese

WONSAN, North Korea, Oct. 20 (UP)—Maj. Gen. Edward E. Almond, liberator of Seoul, took command of northeast Korea today to build defenses against any attack from Communist China.

Almond, commander of the U. S. 10th Corps, has under him for the present the South Korean 1st Corps—the Southern 3rd and Capital Divisions.

The whereabouts of his 10th Corps—the Southern 3rd and Capital Divisions and 7th Infantry Division, remained a military secret. The 10th Corps has not been reported in action since it liberated Seoul last month.

With the fighting against the beaten North Korean army in its final stages, there was a growing feeling in high circles that only Communist China now could pose a military threat in North Korea. Tenth Corps officers were wary of the potential threat of 500,000 Chinese Red troops reported massed on the Korean frontier in Manchuria. There also have been recent reports of troop and aircraft movements in that area.

and heavier line. Comanche has come out on top in three games while dropping three. The Indians have defeated Rising Star, 7-0, Goldthwaite, 47-13, and Eastland, 41-21.

They lost to Llano, 13-0, Coleman, 20-6 and Hamilton, 39-12. Comanche is in a tie for third place in District 8-A with Dublin and Cisco, each team having a one and one record in conference play.

Ranger will be trying for its third district win, as they go into tonight's game leading the pack with a two-nothing record.

The Bulldog probable starting lineup: ends, Williams, Cantrell; tackles, Young, Hummel; guards, Hargraves, Barnes; center, Verner; backs, Cunningham, Comacho, Simpson and Woods.

MacArthur Tells S. Koreans To Push All Way

PYONGYANG, Korea, Oct. 20 (UP)—Gen. Douglas MacArthur issued orders today for the South Koreans to push "immediately" all the way to the Russian and Manchurian border.

MacArthur's plans for the American forces in North Korea were not made known at once. Observers expected him to rush more troops into North Korea. But the best guess was that the Yanks would halt about 20 miles south of the border.

MacArthur told Lt. Gen. Walton Walker, commander of the U. S. 8th Army, that he should get the South Koreans in high gear and get them going north.

The order meant that MacArthur wanted to finish the mop-up as soon as possible and get on with the formation of a government in North Korea. Together with elections soon to give the people a chance to express their views.

Officers in Pyongyang said they were getting excellent cooperation from the civilian population. They said the civilians were helping the American and South Korean forces run down the Communists.

Correspondents who flew here with MacArthur saw a group of about 100 North Korean prisoners. They were guarded by one American. They showed no signs of wanting to escape.

High in praise of the South Koreans, MacArthur told Walker to start the Republicans north and clear out everything to the border as soon as possible.

Commie Paper Rejects Peace Talk Of Stassen

MOSCOW, Oct. 20 (UP)—The official Communist party newspaper Pravda today rejected Harold E. Stassen's bid for "peace talks" with Premier Josef Stalin as "a self-seeking, self-advertising trick."

A three column article by Yakov Victorov on the back page of Pravda called Stassen's letter to Stalin "a dirty game"—it being obvious from the very first words of the letter that even elementary good faith is alien to Stassen.

Pravda accused Stassen of an "electioneering maneuver" designed to influence "the broad masses of American voters who are profoundly alarmed by the aggressive course of the policy of American rulers in an unparalleled arms race and preparation for a new war."

Stassen, president of the University of Pennsylvania, former governor of Minnesota and twice an aspirant for the Republican presidential nomination, disclosed his letter to Stalin Oct. 4.

Writing as a private citizen, Stassen suggested they confer on steps to be taken to achieve "a just world peace." He said that the Soviet Union would have to change its present course if the drift toward war was to be stopped.

Oil Predictor Dies

TYLER, Oct. 20 (UP)—Walter March Burgess, noted for his flat prediction of the 1920's that major oil pools would be discovered in East Texas, died yesterday at the age of 57.

Tankmen Go On Strike HOUSTON, Oct. 20 (UP)—Crewmen of the tanker Annibal, berthed at the Trawee dock on ship channel, were on strike today.

Lively Bidding Features Cake Auction Of Young School PTA; \$45 Taken In For Cafeteria Fund

Bidding was lively last night as two cakes went for a total of \$49.90 at the Young School PTA cake auction in front of the Ghoulon Hotel.

The auctioneer, Dr. W. F. Watkins, standing in a pick-up truck with the cake held up high in his hand, urged on the crowd that gathered for the event. A chocolate nut cake was the first confection to be offered.

Bidding started at five dollars and rapidly went upward as competition loosened the change in the bidders pockets. A lively rivalry of bidding among M. L. King, Mayor Price Crawley, R. V. Robinson and Morris Newnam kept the auction's pace at a rapid rate.

Mayor Crawley had no sooner walked on the scene when, under friendly pressure, he bid a dollar. Not to be outdone, Newnam upped

Air Officers Blame Fuel Leak For B-29 Crash

SEGUIN, Tex., Oct. 20 (UP)—Air Force authorities said today a fuel leak may have caused a B-29 Superfortress to explode in the air and crash into a field near here, killing all eight men aboard.

The victims, whose names were withheld, apparently included one instructor, two student pilots and five crewmen.

A spokesman at Randolph Air Force Base at San Antonio, the plane's home field, said the craft was on a routine training mission and carried no bombs or live ammunition.

Brig. Gen. Carl B. McDaniel, commander of Randolph, said evidence indicated "an explosion occurred while the plane was in the air and another explosion occurred when it struck the ground."

He said the first explosion presumably resulted from a fuel leak "or something of that nature."

Earlier reports yesterday said seven men died in the crash, but a check list at Randolph showed eight aboard.

McDaniel said the plane was 30 miles to the southwest of the Randolph control tower when it made its last radio report—that it was climbing through a cloud bank at 5,000 feet altitude.

Two railroad section hands said they heard the plane's engines sputtering before the crash, which rattled window panes and shook houses in Seguin, two miles to the west.

Hit-Run Driver Sought AMARILLO, Oct. 20 (UP)—A hit-and-run driver who killed an 18-month-old child and left her body lying in the street near the curb was sought by police today.

Liquor Store Robbed WICHITA FALLS, Oct. 20 (UP)—Officers searched for 17 for three men who fled in a truck last night after robbing the Pan-American liquor store of \$700 in cash and \$3,000 in liquor. They tied two attendants.

THE WEATHER

Sunshine was expected to make a comeback today which was good news for Texas fans looking to a busy football weekend.

Rainfall during the 24 hours ending at 6:30 a.m. today included Waco 157 inches, Austin 54, Victoria 29, Palestine 18, Bryan 16, Texarkana 13, and Junction 11. Many other stations reported lesser amounts.

High temperature yesterday was 89 at Laredo, while the low maximum was 67 at Abilene. Overnight temperatures ranged between 69 at El Paso and 47 at Dallas.

Temperatures today were expected to range mostly in the upper 70's, climbing into the lower 80's over most of the state tomorrow.

Chicago Raid Follows Dallas Lottery Arrest

DALLAS, Oct. 20 (UP)—Four men seized in a raid on a collegiate football handicapping service faced federal charges today, but they contended that theirs was a legitimate business.

Meanwhile, Chicago police reported today they raided a clearing house handling \$25,000 a week in bets on football parlay cards.

The cards they issued weekly—showing that this team should beat its opponent by this many points—were merely for informative purposes, however, the Dallas men maintained.

U. S. District Attorney Frank B. Porter took a contrary view. He went to federal court and charged them with "use of the U. S. mail in connection with a lottery."

Potter took the view that the cards were gaming devices. In Chicago, meanwhile, police revealed their big raid. They said they confiscated several thousand parlay cards.

Chicago police said the Dallas developments forced them into making their swoop sooner than they wanted.

Texas U. Finds 'A & M' Sown On Football Field

AUSTIN, Oct. 20 (UP)—University of Texas officials pondered the problem today of removing wild oats, neatly sown in the form of a burgeoning "A & M" smack in the middle of the turf of the Longhorn stadium.

Action by the Longhorn's arch rivals from College Station was discovered last yesterday as assistant coach H. C. (Buddy) Gilstrap directed a crew covering the playing field with canvas to protect the field surface from rain.

Authorities tried a vacuum cleaner, hopeful that the machine would suck up the oats. But that failed. Rain and watering had rooted the seeds.

It was estimated that raiding Aggies had used as much as 40 bushels of oats to do the job.

Unofficial reports were that the group completed their foray last Saturday while a large portion of the Longhorn student body was at Dallas watching the University of Oklahoma-Texas game.

Paratroops Trap KoReds

'Hell On Foot' Div. Doesn't Know To Stop

HAMBURG, Korea, Oct. 20 (UP)—The South Korean "Hell On Foot" Division has forgotten how to halt.

Spearheads of the Capitol Division drove into Hongwon, 25 miles northeast of Hamburg, today despite repeated orders to "slow down and await orders."

For two days straight, the division has been receiving orders from 1st Corps headquarters back at Wonsan to halt its spectacular advance. American officers with the BOKS are worried about the over-extended supply route.

But the South Koreans no longer seem to care much about anything except the itch for travel. With utter tennis shoes tied to sore feet with bits of rags, they are driving on toward the Manchurian border without let-up.

Each move is "just to wipe out the next little stronghold."

The succession of such strong points today resulted in a 25-mile advance. The spearhead driven in to Hongwon by the 1st and 18th Regiments placed the South Koreans 140 miles north of the 38th Parallel.

This reluctance to halt has been the salient feature of the drive ever since the 1st Corps broke out of the Naktong perimeter. The South Koreans, with an initial 10-days' training, made a seemingly impossible drive against a dogged enemy, mountains and rice paddies.

Now that they're deep in enemy territory, nothing can dampen their enthusiasm for assault.

Balance sheet for the week between good news and bad in the hot and cold wars:

1. We have won the Korean war and much more quickly than we anticipated. A large-scale mopping up operation remains, but the enemy seems incapable of forming a stable defense line anywhere. Many American and Allied lives have been saved by the fact that the war did not go deep into the winter because cold weather hampers offensive action.

2. President Truman and Gen. Douglas MacArthur are closer to agreement on an overall Far Eastern policy as a result of their conference at Wake Island. There still seems to be some doubt as to whether they agreed on how to handle the Formosan problem, but they apparently have charted a joint course for the remainder of the Far East.

3. The climax of the Korean

4,000 GIS SHOWER DOWN ON 27,000 ESCAPING COMMIES

By Rutherford Poats
United Press Staff Correspondent

TOKYO, Oct. 20 (UP)—Victory-sealing Allied forces mopped up in captured Pyongyang today, sprang a parachute landing trap on the shattered Communist army fleeing the capital, and raced to within 90 miles of Manchuria.

Four thousand American paratroopers showered down athwart the Communist escape routes north of Pyongyang in a spectacular bid to cut off and destroy the 27,800 North Korean troops in panicky flight from their lost capital city.

Gen. Douglas MacArthur, who watched appreciatively from his personal plane as the paratroopers bloomed over the rice paddies, said:

"It looked perfect to me. It looked like it closed the trap. With the closing of that trap, that should be the end of organized resistance. The war is very definitely coming to an end shortly."

The United Nations divisions stamping out the last nests of resistance in Pyongyang sent their vanguard northward to crush the fleeing Communists on the anvil of the paratroopers' lines of Sukchon and Sunchon, 25 to 30 miles northeast of Pyongyang.

Within 40 minutes of the airborne landing, the U. S. paratroopers had organized into skirmish lines, and were solidly entrenched on the highways over which the Communists were fleeing.

A U. S. Army spokesman reported that Pyongyang was secured. He said American and South Korean troops were mopping up in the northern fringes, and the main enemy garrison had fled north leaving nothing but snipers and small groups of doomed Communists who had had no chance to run.

The paratroop landing north of Pyongyang was carried out by the 11th Airborne Division's 187th Regiment, Ninety C-119 Flying Boxcars and 50 workhorse C-47's delivered the 4,000 men and a wealth of equipment, including howitzers, jeeps, machine guns and other supplies.

Washington, Oct. 20 (UP)—United Nations forces captured more than 7,000 North Korean soldiers yesterday, bringing the war's total bag of Communist prisoners to about an estimated 80,000, the Army reported today.

About 5,600 prisoners were taken by the U. S. 24th division south of the 38th Parallel, an Army spokesman said.

The army said elements of six old Red divisions which have been trapped south of the 38th parallel have broken into small groups, although some include as many as 1,000 men.

Most of the Red troops have run out of ammunition and are foraging for food and attempting to escape to the north, the spokesman said.

The spokesman said all organized Communist Korean resistance east and south of the Taedong river which divides Pyongyang has been eliminated. He said UN forces met only token resistance in the area.

Boy T. Moore of Cisco, whose car skidded on the wet pavement of Highway 90 about a mile and a half east of Eastland at 1 p.m. yesterday, has regained consciousness in West Texas Hospital, attendants said today.

Moore sustained a concussion and several cuts on his body when his car apparently overturned. He was unconscious for several hours yesterday. A doctor said that he would recover.

Balance Sheet GOOD NEWS OF WAR SHOWS END CAME SOONER THAN EXPECTED; BAD NEWS POINTS TO FRENCH INDO-CHINA BATTLE

war found a real, international army in action under unified command. It proved that the United Nations had found a formula for resisting aggression any place in the world. If the democratic nations can hang together long enough to revise the United Nations rules of procedure, the machinery will have been set up to check mate international Communism whenever it makes its next move.

Bad news:

1. The Communist threat to French Indo-China grows by the day. A real offensive is under way by the Reds and the French are in the bad position of lacking enough planes and heavy artillery to do the same kind of job MacArthur did in Korea. Any attempt by the United Nations to send troops into the fight would meet with bitter Russian and Chinese Communist resistance and a formula has yet figured out a formula for reinforcing the French.

2. Kim Il Sung and the other Korean Communist leaders apparently have escaped. MacArthur warned them he would hold them responsible for atrocities and other violations of the international rules of war, but so far nobody above the rank of colonel has been captured. The testimony of the Korean high command would be invaluable in proving once and for all that Russia and the Chinese Reds gave aid and comfort to the North Koreans.

3. Russia seems about to embark upon one of her periodic "peace offensives." On the surface she appears to be co-operative and willing to enter into projects for peace, but experience shows she always has something else in mind.

The best guess is that things may be quiet in Europe for a time, say a month or two, while Moscow works up another surprise for the West. Berlin and Vienna are places to watch.

SCENES AROUND RANGER

The conduct of fans at football games has come in for a lot of comment lately. A couple of years ago, Jack Cisco, referee, quit the officiating business because of the on-field antics of spectators.

She and Reagan found a corner table. After Reagan gave their orders to a deferential waiter, Edie lit a cigarette and leaned back. After a moment, she said, "Suppose we were to try a direct frontal attack on Northcott?"

EDIE made a gesture of impatience. "And, meanwhile, he's got us on the defensive. He can play along with us and then strike, whenever he wants to."

He nodded, his gray eyes miserable. "Yes, I had a date with her tonight. But she stood me up. It's the third time in two weeks."

Supreme Court Stands Firm On Tideland Case

WASHINGTON, Oct. 20 (UP)—The Supreme Court said again this week that the old rich lands beneath the Gulf of Mexico and the Pacific Ocean just off our coasts belong to the Federal government.

California, Louisiana and Texas defended in court their claims to those lands. The law says those states have lost. That is the end of the story so far as the law and the courts are concerned. But there may be more.

As Shivers and a minority of the Supreme Court see it, the Tideland's decision suggests a new philosophy of American government. Shivers calls it a dangerous trend.

New War Agency Heads Have Country's Most Thankless Jobs

WASHINGTON—(NEA)—There is some cause to wonder whether this country knows what it let itself in for under the "Defense Production Act of 1950," passed by Congress early in September. A lot of things were authorized under that act which haven't begun to happen yet.

YOU may recall how much criticism the President caught for this when he first proposed it. His idea then was that the government should step in and expand production in any industry whose capacity was not considered great enough to keep up with the growth of the country.

THESE will be the home front heroes in probably the most thankless jobs in the country. They will be the Chester Bowles, the Leon Henderson and the William H. Davis of the new defense effort, and on their heads will be heaped all the abuse and hatred those officials got in the last war.

Times Want-Ads Are More Economical

In spite of rising living costs, the Truman administration is not yet ready to move all-out on the anti-inflationary front. Congress authorized no expenditures for subsidies, and prices can't be rolled back without subsidies. Rent controls expire Dec. 31, and the cost of living law can't be held without rent controls. These may be two main items of business when Congress returns after Thanksgiving.

BOYCE HOUSE SAYS

A orator in the midst of the Civil War declared, "We have taken Memphis; we have taken New Orleans; we have taken Atlanta. What is there left for us to take?"

Somebody called out, "How about taking a drink?"—which ended the speech.

Then there was the Swede who was asked what kind of liquor he wanted and he replied, "None o' dat squirrel whiskey—I don't

Takes A Doctor's Advice

Gas Station Man's Aches and Pains Leave Completely After First 3 Bottles Of Hadacol

Father helped, too, who also had deficiencies of Vitamins B₁, B₂, Iron and Niacin.

Wesley Scallions, energetic young gas station attendant in Peoria, Illinois, tells how HADACOL keeps him on the job. Wesley Scallions has this to report: "I took HADACOL upon the advice of my father who has taken it regularly for some time. He could not eat, was unable to get around, lost sleep and was generally run-down because he had these deficiencies. My brother who is a doctor recommended HADACOL to Dad. Since taking HADACOL, Dad has been feeling like a different man; he now has a hearty appetite, sleeps well and gets around once again on his own.

"I have had pains in my right arm and legs due to these deficiencies. I lost many days of work until I started to take HADACOL. After my first three bottles the pains left me completely and now I work every day without having any pains. I am a gas attendant and need full use of both arms and legs in my line of work. Thanks to HADACOL I can now perform my job satisfactorily and feel fine."

TV Struck Gals Had Best Tend To Homework

By Elizabeth Toomey
United Press Staff Correspondent
NEW YORK, Oct. 20 (UP)—

Television-struck young girls had better cut short the dreaming and concentrate on their high school home work.

A Phi Beta Kappa key dangling from the charm bracelet is nothing to blush about, not when the quick-witted girls are grabbing off the top T-V programs.

Nancy Carrall, known as a fiery tempered glamour queen in the Flapper Era, but now a sedate mother on a weekly television show, "The Adkins Family," speculated on the changed requirements for stardom while she ate a heaping dish of ice cream, whipped cream and chestnuts.

"The new stars won't be actresses alone," Miss Carrall said. "They'll be a combination of mistress of ceremonies and actress."

Many a soulful siren, she pointed out, is tongue-tied when she has to stand up and say a few original words. She frankly included herself in the list of actresses who

Mr. and Mrs. E. E. Todd and daughter, Ernestine, Mr. and Mrs. D. O. Munn and daughter, Jean, and Mrs. Eula (Meador) Caldwell all went to Groveton for the weekend to visit their sister, Mrs. DeLa Fosse. From there the group went on to Huntville to see the Prison Rodeo on Sunday. They returned to Groveton Sunday night and returned to Gorman Monday.

Mrs. Elua (Meador) Caldwell of Sterling, Oklahoma is visiting friends and relatives for a week or ten days.

Mr. and Mrs. D. O. Munn and daughter, Jean, were in Fort Worth to see Mr. Munn's sister who lives there.

Walter Underwood has been in bed most of the time for about three weeks. He is slightly improved.

Mr. and Mrs. George L. (Bud) Smith, Jr. were in Mineral Wells Monday on business.

C. M. Van Winkle went to Abilene to work Monday. He is on a construction job connected with the new housing project which is being built there.

Johnnie Williams, son of Colquitt Williams, and grandson of Tom Williams, is working in the shoe department of Higginbotham Bros. and Co. in Gorman.

Buena Van Winkle had on display two eggs Wednesday which might have been turkey eggs from their size. However, the only thing that could have laid those eggs were Austria White hens. One egg weighed slightly over three ounces, while the other fell just short of three ounces.

That's the kind of product you've been wanting—the kind you should buy and start taking at once.

Many doctors recommend HADACOL. It is also wonderful for stomach disturbances (gas pains, indigestion, bloating, heartburn) and a general nervous run-down condition when due to such deficiencies.

Be fair to yourself! If you have such deficiencies—why go around feeling half-alive—a burden to others when you can get this great HADACOL at any drugstore. Remember—HADACOL must help you or your money back. Trial-size bottle, only \$1.25. Large family or hospital size, \$3.50. Any drugstore.
