Back in Genesis, the 23rd Chapter-

there is recorded one of the early-day real estate transactions. Sarah had died at the age of 127, and Abraham bargained for and finally bought a field containing a cave for her last resting place. While there is no direct mention of an abstract, the evidence is clear that Abraham got a good title in the purchase. Time changes many things, for better or worse, but the caution used by Abraham still prevails. The title was important then, it's more so now.
