

Crisis Enters Diplomatic Showdown Stage

UN Troops Throw Up New Defenses

TOKYO, Dec. 6 (UP)—Retreating United Nations forces threw up new defenses between Pyongyang and the 38th parallel in Korea today and skirmished with pursuing vanguards of Red China's 1,000,000-man invasion army.

The Allied air forces ran their two-day slaughter of enemy troops to at least 4,100 with fresh attacks on hordes of Chinese reinforcements pouring down from the Yalu River Manchurian frontier on both sides of Korea.

At least 800 Chinese Reds were mowed down by American jet fighters today in and around Pyongyang, including 400 killed as they tried to cross the Taedong River just east of the fallen city.

Planes of the 8th and 18th fighter-bomber groups, formerly based on Pyongyang airfield, returned there and dropped 1,000 pound bombs on the main runways to make them unusable. An ammunition dump also was blown up and seven tanks destroyed or damaged inside Pyongyang.

In northeast Korea the Chinese Communists eased their pressure against 15,000 to 20,000 men of the U. S. 1st Marine Division and 7th Infantry Division encircled at the southern tip of the Chosin reservoir.

But a front dispatch described it as only the calm before the storm.

Another Chinese Division—the 77th—was identified as having joined the eight to 10 already being the American's escape road to the coast.

The United Nations commission on Korea took advantage of the relative lull in the ground fighting to appeal to Communist China to withdraw its troops from Korea to end "this unnecessary slaughter."

Ziand-Din Mian of Pakistan, chairman of the commission, broadcast from Seoul that he and his colleagues stood ready to assist in settlement of the war "in any way."

A 1st Corps spokesman reported that 8th Army units were manning new defense positions on the western front south of Pyongyang, which fell to the onrushing Chinese yesterday.

An 8th Army spokesman said that the new defense positions were more to cover the Allied withdrawal south toward the 38th parallel than a new line on which the UN forces will make a stand.

"It is too early to say that we have established any positive defense line," he said.

He would not say whether the 8th Army intended to make a stand north of the 38th parallel. U. S. 9th Corps forces covering the eastern flank of the Allied withdrawal also skirmished with Chinese Reds and bypassed North Korean units threatening the retreat highway far south of Pyongyang.

Use A-Bomb If Necessary Says Harold Stassen

TOKYO, Dec. 6 (UP)—Harold E. Stassen urged the United Nations today to call for a cease fire in Korea and to retaliate by all means—including the atomic bomb—if Red China rejects it.

The president of the University of Pennsylvania and former governor of Minnesota proposed a seven-point program for UN mediation of the Korean war after conferring with Gen. Douglas MacArthur.

But he declined to say whether he had discussed the program with MacArthur. He said it represented only his "personal views" and was not to be taken "by inference or otherwise to represent the views of the U.S. government nor of any other individual."

The program provides: 1—The United Nations should call at once for a cease-fire by both the Chinese Communists and the UN forces, effective at midnight Friday.

2—If the cease-fire is carried out, the UN should appoint an outstanding mediator who is a citizen of a UN member state which has not been involved in the fighting or the arming of either side in Korea.

3—This mediator should seek a settlement which presumably will involve withdrawal of all non-Korean forces, the laying down of arms by Koreans of both North and South and supervised elections for all Korea. It also might involve "other considerations concerning reservoirs and power plants."

4—If the cease-fire should not be agreed to, the UN commander should be directed to retaliate against the attacking Chinese Communist forces in any manner and against any objects of military significance in either Korea or China, including a blockade of the China coast and heavy air attacks on Chinese industrial centers. UN ground forces would be withdrawn from Korea because reinforcements matching those of China are not available.

Asked specifically if the retaliatory measures included use of the atomic bomb, Stassen said he intended to "include everything."

Movie Thurs. 8:15 p.m. The movie of the Ranger-Hobbs, N. M., football game, which will be shown in the First Methodist Church auditorium Thursday night will begin at 8:15 p.m. This show is free and the public is invited to see it.

A Bomb Impractical. Gen. Collins Claims US Can Spare Only One More Division For Korea.

By Gene Symonds. SEOUL, Korea, Dec. 6 (UP)—Gen. J. Lawton Collins, U. S. Army Chief of Staff, said today the United States could spare only one more division for Korea, but even that would leave United Nations forces vastly outnumbered.

Despite the Allied reversals, he told a press conference after a tour of the northwest battlefield, use of the atomic bomb would be impractical in Korea.

He said the only additional division which the United States could send to this theater is the 82nd Airborne. But he gave no indication whether the division actually will be sent here.

He said he did not expect any immediate reinforcements of the UN forces by UN members not already represented in Korea.

UN forces in Korea, including seven American divisions, total about 160,000 men. Arrayed against them are nearly 300,000 Chinese, and Korean Communist front line troops and reserves of more than 700,000 men—an overall army of more than 1,000,000.

COLD SWEEPS INTO SOUTHWEST—Traffic was reduced to a skidding snarl in Amarillo, Texas, in a howling snowstorm with 40-mile per hour winds. Some cars, such as this one, were abandoned on the icy streets of the city. (NEA Telephoto).

Mercury Drops To 5 Degrees In Ranger

Sharp, biting gusts of 30-mile-per-hour winds whipped the coldest weather of the season into Ranger early this morning, plunging the icicle-like thermometer down to a cold, cold 5 degrees.

Ranger people were up at the uncomfortable hour of 3 a. m. today hastily shutting off gas jets when informed of gas failure. Majority of the people had left one or more stoves burning all night to warm up the rooms. Calls were put out at about 3 a. m. this morning warning of the gas failure.

Lee Dockery, manager of Community Public Service, said the gas failure was caused by a line pulling out at a well on Tiffin Road. He said that the trouble was being fixed and all service should be back to normal today.

The Times building was filled with gas when publisher Joe Dennis hurried down at 3 this morning to turn off the stoves. It took about two hours, with doors wide open, to allow all the gas to escape before it was safe to strike a match.

Many car owners were caught with their anti-freeze out. Yesterday's snow flurries didn't stay on the ground enough to cause dangerous driving conditions. The weather bureau forecasts continued cold tonight. Today's low of 5 degrees was the coldest for Dec. 6 since weather records have been kept dating from 1947. Last year the low was 35 degrees on Dec. 6, and in 1947 Ranger had a minimum of 46 for the day.

Yule Trees Can Increase Fire Hazard. That Christmas tree you are planning to set up in your home could be a major fire hazard unless you take a few precautions, the National Board of Fire Underwriters warn.

Tests made by Underwriters' Laboratories, Inc., demonstrated that Christmas trees of average size are easily ignited and burn furiously. The blaze could easily start a dangerous fire in the home.

Engineers of the National Board offer the following suggestions for making your Christmas tree safe: 1 Choose a small tree. It will be less hazardous.

2 Wait until a few days before Christmas to set up your tree. 3 Keep the tree outdoors until ready to set it up.

4 Place the tree in the coolest part of the house. 5 If a radiator is near the tree, shut it off.

6 Do not use cotton or paper decorations unless they are flame-proofed.

7 Do not place electric tinsel around the tree. 8 Do not use candles. Use electric lights instead.

9 Make certain wires are not frayed. Choose lighting sets bearing marking which indicates listing by Underwriters' Laboratories, Inc.

10 Do not plug or unplug the lights beneath the tree. 11 Do not leave the tree lights burning when no one is in the house.

12 If needles near the lights turn brown, change the location of the lights. 13 When needles start falling, take the tree down and discard it.

Men Suggest A-Bomb Jacket. CHICAGO, Dec. 6 (UP)—Two advertising men proposed today that all residents of metropolitan areas be equipped with "atomic survival jackets."

Michael Sner and Ben Reyes said they worked out plans for such a jacket with the help of U. S. public health officials and doctors.

The jackets, they said, would be designed to carry supplies for use in an a-bomb attack, and not to protect the wearers against atomic radiation.

Pockets would carry a blood coagulant, sulfa powder, a salve for burns, water purifying tablets, food tablets, scissors, knife, flashlight and civilian defense information. The wearer's name, address and blood type would be stamped on the back of each jacket.

N. P. Campbell Buried In Carbon. Newton Parks Campbell, 77, of Carbon was buried in that city, Sunday. He died last Friday.

Former County Resident Buried. Mrs. Alice Steele Hudelston, a former resident and pioneer of Eastland county, died recently in Fayetteville, Arkansas.

OFFICIAL BELIEVES REDS WILLING TO STOP AT 38TH

WASHINGTON, Dec. 6 (UP)—A foreign diplomatic official expressed belief today that the Chinese Communists may have indicated some willingness to halt their rampaging troops at the 38th Parallel in Korea.

The diplomat said that Sir Benegal Rau, Indian delegate to the United Nations, would not have associated himself with the 13-nation appeal to Red China to stop at the old boundary between north and south Korea unless he had reason to believe the offer had a good chance of being accepted by Peiping.

With the report of this diplomat the previous bleak outlook in official quarters changed to one of cautious optimism in the light of rapidly developing peace moves.

President Truman and Prime Minister Clement Attlee of Britain scheduled two meetings today—one at 11:30 a. m. and another at 3:30 p. m. EST. Between these engagements the Prime Minister planned to speak to the National Press Club at 1:30 p. m.

British officials in touch with Attlee, who has been conferring here with Mr. Truman for three days, welcomed both the 13-nation appeal and Indian Prime Minister Jawaharlal Nehru's peace bid at New Delhi.

"Anything that will bring an honorable end to the fighting would be welcomed by our government," a British official said.

American officials supported the 13-nation appeal in principle. They did not immediately comment on Nehru's plea for a cease-fire, creation of a demilitarized buffer zone in Korea, and a peace conference among the United States, Britain, Russia, and Communist China.

It was apparent that the Korean crisis had entered a diplomatic showdown stage and the next move was up to the Chinese Reds—to agree to talk peace or attempt to drive the UN out of Korea. The UN forces in Korea are in critical straits under the hammering blows of hundreds of thousands of Chinese Communist troops.

The peace feelers put out at Lake Success, in India and at Seoul will determine, these officials said, whether the Communists are bent on driving the United Nations out of Korea.

As President Truman and British Prime Minister Clement Attlee went into the third round of their talks, officials said that "overnight" the basis of the talks had been changed by the peace proposals.

Mr. Truman and Attlee are expected to approve in principle the 13-nation appeal for Red China to halt her armies at the 38th Parallel in Korea.

This appeal was regarded as a "smart move." Diplomats noted it put Red China on the spot. If it is rejected by the Peiping regime, it puts China virtually against the whole of Asia and some middle eastern countries.

Mothers Appeal To Pres. BIRMINGHAM, Ala., Dec. 6 (UP)—Wives and mothers of U. S. Marines trapped in the Chosin reservoir area of Korea appealed to President Truman today to use "every weapon necessary" to save their loved ones.

MacArthur's forces on Bataan were defeated because they were outnumbered, had no room to maneuver, were vastly out-matched in fire-power and had no hope of reinforcement.

MacArthur has warned that he no longer can count on miracles—which really weren't miracles in the first place, but were based on historical military axioms.

David killed the giant Goliath because he had greater maneuverability, an endless supply of rocks and his slingshot gave him greater firepower.

For children between the ages of six and eight, electrical toys are popular. Mrs. Johnson advises, however, that these should have the seal of approval from Underwriters Laboratories—a guarantee of proper construction against fire hazard and shock.  
A place to keep toys can be a safe measure. A box, cupboard or open shelf is handier than drawers or a cabinet with doors which are hard to manage and sometimes stick. "Playthings are the tools which help children learn," says Mrs. Johnson, "so it is an important job to select safe toys and teach safe habits in using them."

# THREE MEN, ONE A TEXAN, TELL OF EXPERIENCES IN BITTER KOREAN WAR

By H. D. Quigg  
TOKYO, Dec. 6 (UP)—Three men lay in a hospital room. One was 20, one 24 and one 19. Those ages might not seem to be so appropriate to the word "men." But these are the ages of the men who do the American fighting.  
All three had casts on their legs and the casts were the reason they were free men. If they still would be prisoners of the Chinese Communists.  
A field artilleryman, a mortar squad leader and a headquarters company intelligence man—a private, a sergeant and a corporal. They were three guys who came from different outfits and got together as prisoners and were released together by the Chinese.

## Happy Christmas Assured If Safe Toys Are Given

COLLEGE STATION, Dec. 6—Christmas time is always looked forward to as a joyous season, but unless safety is considered in choosing Christmas toys, the surprises left by Santa may prove tragic. Mrs. Eloise T. Johnson, specialist in family life education with the A. & M. College Extension service, gives a few pointers for buyers of children's toys.  
Remembers the child's age, his interest, and stage of development. Mrs. Johnson reminds, because children naturally are curious and constant supervision is not always possible. A two-year-old in the hand-to-mouth age should have washable toys with no sharp points or edges and nothing flammable nor with poisonous paint should be included.  
Stuffed animals, the specialist points out, sometime offer hazards if they have glass eyes or buttons which may come off. She suggests rubber balls, plastic bathtub toys, solid wood toys, or lightweight hollow blocks.  
For children between the ages of six and eight, electrical toys are popular. Mrs. Johnson advises, however, that these should have the seal of approval from Underwriters Laboratories—a guarantee of proper construction against fire hazard and shock.  
A place to keep toys can be a safe measure. A box, cupboard or open shelf is handier than drawers or a cabinet with doors which are hard to manage and sometimes stick. "Playthings are the tools which help children learn," says Mrs. Johnson, "so it is an important job to select safe toys and teach safe habits in using them."

"I began the night of Nov. 1, the night I walked back right along with the advancing Chinese," said Cpl. William T. Werner, 19, (2121 Avenue I), Wichita Falls, Tex.  
A slim, dark young man, he lay propped sideways on his pillow.  
He said he had tried a fool stunt of getting out of bed last night and had fallen and broken his leg all over again.  
"I was sitting in an observation post when the Chinese hit us," he said. "I had four GI's with me and when our troops withdrew we were 300 yards ahead of everybody else. We took off our helmets and walked out among the enemy and down the road with them. We could have reached out and touched them. It was so dark they couldn't tell us from them."  
"The Chinese blabbered about themselves. We kept quiet. One of our guys was a big man—tall. They shot him. They knew he wasn't a Chinese."  
"We walked for five hours. Finally another corporal and I wandered off into the mountains. We figured it was about time. Then around 3 a. m. on Nov. 2, we came out of the mountains to try to rejoin our battalion of the 1st Cavalry Division.  
The Chinese shot my buddy on the road. They were about 50 feet away when they opened up. I dropped into a ditch and the Communists came on by without seeing me. I crawled up the ditch alongside the road about two miles. The Chinese were along the road all the time, and now they were in a fire-fight with the Americans. I finally got in to an American battalion command post."

Werner is an intense young man. His dark eyes were shiny with the remembered excitement of the time. They darted from side to side as if trying to free themselves from the fixed and strained position in which his head was held on the pillow.  
"A mortar burst got me," he said. "I lay on the side of a ditch and faked being dead. Then when the Chinese soldiers would come and flop down close to me, I would kill them. I kept on killing them until I ran out of ammunition. Then I crawled across the road to a dugout in which wounded were being sheltered. My leg was broken."  
"There were 30 of us in the dugout. We got two hand grenades in on us. We had a chaplain in with us, and when the Americans

fell back from our position, he went out and surrendered us. Two Chinese who came in to capture us bowed and made gestures of apology when they saw we were wounded.  
"The Chinese took us to a house and went away and left us for a while. During the days they left us alone, Korean civilians came in and took our shoes, socks, long underwear, sweaters, field jackets—all our clothes except our light fatigues. Four of our men died, and the Koreans took all their clothes—even their dog tags."  
"We ate field corn to keep alive until the Communists came back. Once we got in one house and found some raw potatoes and ate them. I lost 50 pounds in 22 days. Any of those women in the states who need a diet, I got just the thing for them."  
"We'll continue the story of the three men in the hospital room tomorrow."

## Taxi Driver's \$1000 Tip Turns Out To Be Good

DALLAS, Dec. 6 (UP)—D. L. Grizzle went back to driving a limousine for a taxi company today but he was \$1,000 richer and confident that his luck finally had taken a turn for the better.  
Grizzle got the \$1,000 as a tip from a stranger who took a ride in his limousine two weeks ago.  
The rider and another man showed up at the taxi company and asked for a limousine and driver to take them to Temple, Tex., more than 100 miles south of here.  
On the way, the man revealed that he was going to see his girl friend in Temple who, it seemed had given him the gate. He was on a mission to try to win her back.  
"We stopped at a house in Temple and the man went in," Grizzle said. "When he came out, he was all smiles. He said he had won back the girl. When I left them at a hotel, he said 'I'm going to give you a \$1,000 tip.'"  
"And sure enough, he wrote me out a check for that amount."

Grizzle was dubious about the value of the check. For two weeks he waited, wondering and hoping. Yesterday, the check was cleared through a Chicago bank and Grizzle knew for sure that the \$1,000 was his.  
The hack driver and his wife were elated. They've suffered so much bad luck lately that they had thought Christmas this year might be a relatively sad affair.  
"A lot of things were going wrong and we really needed that money," Grizzle said.  
"First we're going to pay bills," said Mrs. Grizzle. "Then we're going to set up a checking account—something we haven't had lately."  
"My husband needs a new suit. He's been wearing the same clothes for seven or eight years."  
She too thought it was time fortune smiled on the family.  
"My husband dropped a 300-pound block of ice on his foot while he was driving a truck, and was laid up for a long time," she said. "Another time he cashed his pay check and lost the money

Ladies of Leisure

New Robes Are Practical, Pretty

NEW YORK — (NEA) — Fashion blended with comfort produces house robes this season which look pretty but are practical for the leisure hours at home.

The tailored robe looks new when it appears as an indoor flannel duster (left), cut like a coat and neatly finished with roomy pockets.

A finger-tip length lounging coat (right) is pretty over gowns or pajamas. In quilted acetate rayon crepe, it has a mandarin collar, double pockets with contrasting trim and self-covered buttons.

BY GAILE DUGAS NEA Staff Writer

Double Fused

group sessions — the Executive Board members in one group, the unit leaders and committeemen in one group and the wives will be entertained by the ladies of the college. The Banquet will follow at 7:00 p.m. in the College Dining Hall.

Shapely — Dark-haired, dark-eyed Ruth Roman contributes another outstanding performance, opposite George Cooper, in Warner's Technicolor screen drama, "Deland"

Ex-Police Capt. Convicted Of Aiding Convict

WICHITA FALLS, Tex., Dec. 6 (UP) — Attorney for Robert D. (Bob) Burch, ex-police captain convicted of harboring an escaped convict, said today he would seek a new trial.

Powers, Judge Frank Ikard withheld immediate passing of sentence. Burch, in charge of all night policemen until he resigned April 1 because of "ill health," accepted the verdict without apparent emotion.

LeBlanc Thanks Newspapers for Cooperation

Senator Dudley J. LeBlanc

Oklahoma City... (Special) Senator Dudley J. LeBlanc, manufacturer of Hadaool, thanked more than 400 members of the Oklahoma Press Association at their meeting here this week for the important part played by weekly and small daily newspapers in the tremendous success of Hadaool.

The Senator described how he had parlayed \$2500 in borrowed money into the \$7,000,000 in assets LeBlanc Corporation, of Lafayette, La., in two and a half years.

"One big reason for my success was that I kept pouring my money back into advertising just as fast and sometimes faster than I made it," said Senator LeBlanc.

Scout Council Meet To Be Held In Stephenville

T. H. Shelby, Dean, Extension Division, Texas University, will give the main address at the Annual Banquet and Council Meeting of the Comanche Trail Council, Boy Scouts of America, at Tarleton State College, Stephenville, at 7:00 p.m., on December 14.

Dean Shelby has had an abundance of experience in Scouting, for the past thirty years, holding various local offices; is the past president of the Capitol Area Council at Austin and for some twenty years has been on the National Boy Scout Council, representing the Capitol Area Council. He is also a member of the Region Nine Committee composed of Texas, Oklahoma and New Mexico.

Other features of the Council's Meeting activities — Scouters and their wives are invited to the College Assembly program, where Dean Shelby will speak. At 4:30 p.m. the Tarleton Cadet Corps will put on a Military Review with all Scouters and their wives as guests of honor.

At 5:30 p.m. there will be three

BARBS

BY HAL COCHRAN AN egg four and one-half inches long was reported laid in Ohio. By a hen of a traveling stock company?

A Tennessee man installed a radio in his hen house. For setting exercises?

Butchers think too many women drop in to buy meat and wind up chewing the fat.

A 15-year-old New York girl was arrested for forger. Now she knows what's in a name.

Instead of trying to think up a new costume for a Halloween party, why not go as a nervous wreck?

For someone very special, choose a gift that says "Merry Christmas" today and for years to come. She will love this exquisite powder table and matching bench. It is delightfully feminine and dainty. The top lifts up and contains a mirror and provides room for keeping all the equipment that goes with a powder table. Besides being wonderfully practical, it will be the favorite spot in her bedroom. (Union National Furniture Co.)

Here's a lamp for the light in your life. This fine solid mahogany curving of a thoroughbred horse is beautifully finished in coral tones with black and white markings. Mounted on black hardwood, it is ideally suited for either the traditional or contemporary room. (Bruck Allen Studio)

### Baylor Leads SWC Cage Teams With Two Wins

By Ernest Conine  
United Press Sports Writer  
Baylor's Bears, old hands at making the experts look silly, provided the only bright spot in an otherwise dark Southwest Conference basketball picture today following their second straight victory.

The Bears, cast as likely candidates for the conference cellar in pre-season calculations, overwhelmed the Corpus Christi University Tarpons, 52 to 33, last night. The Bruins upset favored Texas Wesleyan Monday night in their season opener.

In other non-conference contests, the Sam Houston State Bearkats downed Rice, 67 to 52, and Siena College of Albany, N. Y., outscored Texas A&M, 56 to 42.

Corpus Christi University fought Baylor to a near draw in the first half of the game at Waco, the score being tied four times

before the Bears pulled ahead, 19-15, at the half. From that point on, the Bruins looked over their shoulders and led the game away.

The Tarpons' Jess Richardson easily took individual honors with a whopping 23 points, while sophomore Derrell Davis was tops for Baylor with 15.

Long-shooting Siena sharpshooters spelled the difference in A&M's defeat as the Indians utilized their well-known defense.

The Aggies were held to only five field goals in the first half, which ended with Siena ahead, 33-15. The Cadets, paced by captain Jewell McDowell, arched some long field goals themselves in the second half, but the Indians were never seriously threatened.

McDonald was high scorer for the night with 15 points, including five field goals in the rough and tumble second half. Ralph Fedullo led Siena scoring with 14 points.

At Huntsville, Sam Houston whittled away a Rice lead and defeated the Owls in the last five minutes of play, thus scoring their second victory in three starts over Southwest Conference competition.

Rice led 29-26 at the half, but the Bearkats tied the count at 50-50 with five minutes to play.

Freshman guard Farrell Kelly led the Sam Houston five as it scored seven quick points and "froze" the ball the final two minutes.

Kelly and Rice's Joe McDermott tied for individual scoring honors with 15 points each.

H. L. Thompson and family of Cisco attended the funeral of N. P. Campbell here, Sunday.

Mr. and Mrs. A. J. Woodard were in Gorman, Saturday.

Mrs. Sidney Roff of Eastland, visited Mrs. J. T. Clement and Will Coffman, Sunday.

### Gear Jams On B-36

FORT WORTH, Dec. 6 (UP)—A B-36 superbomber with a jammed landing gear circled over Fort Worth for two hours in sub-freezing weather yesterday before finally making a safe landing.

The largest smokestack in the world—585 feet high—rises from a copper smelting plant at Anacosta, 25 miles northwest of Butte, Mont.

Calves 400: Active, strong, good and choice slaughter calves 27-31. Common and medium grades 28-31.50.

Calves 500: Killing classes steady, feeders scarce. Good and choice summer shorn slaughter lambs 28. Good and choice shorn slaughter yearlings with No. 3 pelts 23-50. Few cull to good slaughter ewes 12-15.

Hogs 600: Butcher hogs and sows steady to 25 higher, feeder pigs scarce. Good and choice 190-275 pounds 18.50-18.75, good and choice 150-185 pounds 17.25-18.25. Sows 16-17.25.

Sheep 500: Killing classes steady, feeders scarce. Good and choice summer shorn slaughter lambs 28. Good and choice shorn slaughter yearlings with No. 3 pelts 23-50. Few cull to good slaughter ewes 12-15.

# Here's the '51 FORD

New—through and through—is this '51 Ford! It brings you V-8 or Six power that rules the road in get-up-and-go... styling that's years ahead (that will stay years ahead)... quality that will keep this Ford acting new—feeling new for year after year.

## with 43 "Look Ahead" features

**Ford's New Key-Turn Starting** turns on your engine when you turn the ignition key past "ON". No more reaching for buttons or pedals!

**New Automatic Ride Control**... a unique springing system which automatically adjusts spring reactions to road conditions. You get an easy ride... a level ride... no pitch, no bounce, no roll!

**Ford's "Luxury Lounges"** interiors are designed to stay in style... to last through the years ahead. You'll find a new "Safety-Flow" Control Panel. You'll find a whole new selection of beautifully woven Fordcraft fabrics that are matched to Ford's exterior colors. And Ford's interiors are built for the years ahead.

## built for the years ahead!

In this '51 model, Ford has built a car, with 43 new "Look Ahead" features, that's as fine as the finest—yet priced with the lowest... a car that's built to last, not just for a year or two, but for the years ahead!

In addition to the "Look Ahead" features pictured on this page, Ford offers you a more rugged chassis frame box-sectioned back to the stiffer rear cross member for greater rigidity. For safety you get new Double-Seal King-Size Brakes... sealed against the weather. For quick, all-weather starts Ford offers you a new Waterproof Ignition System. And best of all, Ford brings you Fordomatic Drive... the newest, finest, most flexible of all automatic transmissions. \*Optional at extra cost.
