Puerto Rican Assassin Appeals Death Sentence

WASHINGTON, March 8 (UP)—Oscar Collazo, Puerto Rican assassin whose dreams of island independence are due to be snuffed out in the electric chair, pinned hopes for his life on an appeal to higher courts.

The 37-year-old Puerto Rican revolutionary was convicted late yesterday of the first degree murder of a White House guard in the attempted assassination of President Truman on Nov. 1.

The verdict by the federal court jury of nine women and three men made the death sentence mandatory. The jury deliberated one hour and 42 minutes.

Collazo's court-appointed attorney Leo A. Rover said he would file a motion for a new trial within five days. There was little hope it would be granted. Rover said, however, he intended to take the case to the Supreme Court if necessary.

Collazo was found guilty of slaying Pvt. Leslie Coffelt in the gun battle in front of Blair House last Nov. 1.

Actually, Griselio Torresola, Collazo's accomplice, fired the shot which killed Coffelt. Under the law, Collazo could be judged equally guilty. Torresola died in the gun battle.

Federal Judge T. Allan Goldsborough will pronounce the mandatory death sentence in about a week after ruling on Rover's expected motion for a new trial.

If appeals to the higher courts fail, Collazo's only hope would be clemency from Mr. Truman. There has been no indication from the White House that commutation of the death penalty is being considered.

After hearing the jury rule "guilty, as charged," Collazo was returned to the District of Columbia jail cell he has occupied since recovering from a chest wound suffered in the shooting.

He and his wife, Rosa, who was present throughout the trial, were calm as the verdict was returned.

US Navy Plane Crashes In Sea Off Italy Coast

ROME, Italy, March 8 (UP)—Six survivors of a four-engine U. S. Navy Privateer which crashed in the sea in a heavy rainstorm yesterday were rescued from a raft today by an Italian destroyer 14 miles off the World War II battle ground of Anzio Beach.

Rescue vessels and planes searched the Tyrrhenian Sea, off the southwest coast of Italy, for a second raft reported to be carrying eight Americans.

The Privateer crashed in the sea shortly after the pilot landed Rome's Ciampino Airport at 1:15 p. m. (7:15 a. m. EST) yesterday that he was having engine trouble.

The plane en route to Rome from Udine, Italy, apparently overshot the Italian capital, officials here said.

The rescue came shortly after two Italian planes reported sighting survivors in the sea. Land, sea and air units had searched through a blinding rain for the craft.

Weavers Now Operate Ranger Dry Cleaners

Mr. and Mrs. Jess Weaver took over Monday the operation of the Ranger Dry Cleaners, 127 S. Austin. The cleaners was formerly operated by C. O. Culpepper.

The Weavers have lived in Ranger since 1925. Weaver has been associated with local dry cleaning establishments during most of the time that he has lived in Ranger and has been in that type of business since he was 16 years old.

"We offer the best service possible with quality work," Weaver said, "and invite our customers to inspect our plant." The Ranger Dry Cleaners is open from 7:30 a. m. to 5:30 p. m.

For Good Used Cars (Trade-ins on the New Olds) Osborne Motor Company, Eastland

WHO WILL PROTECT WHO—A Marine M-26 tank, laden with Marines, heads for another assault on enemy lines after securing important hill. Just who will protect who when the fighting begins might be a good question. In any event the leathernecks certainly are saving shoe leather on this trip. (NEA Telephoto).

General Not Likely To Get Answer From UN On How Far To Go In Korea

By Harry Ferguson
United Press Foreign News Editor
Gen. Douglas MacArthur has asked the big question again, but there is no indication that he will get an answer from the United Nations.

He said on a battle-field visit to Korea yesterday that the Korean war was likely to settle down into a stalemate unless some "high level" decisions were made. He meant he wanted the UN to decide whether he should go all-out in an attempt to drive the Chinese Communists out of Korea or let things go along the way they are.

He needs two things to win the war: More troops and permission from the UN to bomb the Chinese. Our casualties are now more than 52,000. No big American city and few small towns are untouched by the Korean war. That is not the case of our two principal allies in the anti-Communist coalition, Britain and France. Both have troops in Korea and they have suffered casualties. But

The reason for that is that no nation is as heavily committed in Korea as the United States. Our casualties are now more than 52,000. No big American city and few small towns are untouched by the Korean war. That is not the case of our two principal allies in the anti-Communist coalition, Britain and France. Both have troops in Korea and they have suffered casualties. But

THE WEATHER

A delayed-action cold front, 24-hours behind the U.S. Weather Bureau's schedule, moved into the Texas Panhandle early today and freezing weather was forecast for much of extreme north Texas tonight.

In the Panhandle, the mercury was expected to drop to as low as 18 degrees and from 26 to 32 degrees in the South Plains.

The U.S. Weather Bureau in Dallas said that neither snow or rain was expected to accompany the front.

A forecaster said the front, which was originally expected to hit the state Tuesday night, had slowed up and remained almost stationary in Oklahoma yesterday before picking up speed enough to move into Texas.

Talk of the cold front made sharp contrast to yesterday's weather when the mercury hit a record-level in at least one Texas city and scored into the 90's in the southern part of the state.

Dallas 87 was the hottest March 7 in the city's history. The hottest maximum was 94 degrees at Junction, Presido and San Angelo had 92, Laredo and Alice 91, Abilene and Austin 87, Amarillo 74, Brownsville 84, Houston and Lufkin 86 and Tyler and San Antonio 82.

Yesterday's high 85
Yesterday's low 52
At 8 a. m. today 54

neither Paris nor London dares take its eye off the main threat—the danger that Russia may start World War III and send the Red army sweeping to the English Channel.

All delegations in the UN act on instructions from their home governments, and you only have to take a look at the situation in the three capitals to see why MacArthur is unlikely to get a reply:

Paris—There isn't any government to instruct the French UN delegation. France is going through one of its frequent cabinet crises and no major policy decision can be made. Even if a stable government were in power it is doubtful if Korea would get much attention. Delegates of America, Russia, Britain and France are meeting right in the middle of Paris, but they are not talking about Korea. They are talking about how to prevent the cold war from blazing into a hot one in Europe.

London—Britain would like to settle the Korean war through a compromise with Red China. She doesn't think MacArthur ever should have crossed the 38th parallel in the first place and she is going to try to prevent him from doing it again. Britain recognizes the Communists as the legal government of China and finds herself in the strange position of making war against a regime which she officially approves.

Washington—Would like to win a quick victory in Korea and probably would be willing to go all out to do it. But the official position is that this is a United Nations, not an American problem, and no step will be taken unless it is approved first at Lake Success. The matter that engages the attention of Congress at the moment is not whether to reinforce MacArthur but whether to send 100,000 American troops to Europe.

Selim Sarper, UN delegate from Turkey, summed up the attitude of many nations last night when he said: "On the question of doing more, we ought to, but whether we could is another question. Korea is not the only interesting spot in the world for many countries."

Ft. Worth Woman Commits Suicide
FORT WORTH, Tex., March 8 (UP)—A verdict of suicide was returned yesterday in the gunshot death of Mrs. James H. Hubbard, 41, wife of a division traffic superintendent for Southwestern Bell Telephone Company in Fort Worth. Her husband said she had been in ill health.

County's Red Cross Drive Progressing

The 1951 fund raising campaign for the American Red Cross which got underway over the county during the week in conjunction with the national campaign is showing good progress, Mrs. John Love, county chairman, said this week.

In the rural areas of the county, the Eastland County Home Demonstration Clubs are sponsoring the Red Cross drive. Mrs. M. W. Grieger is chairman for the entire rural population of the county. She reports that the working areas have been assigned the following clubs with the following women in charge of each area:

North Star, Mrs. Clara Burkhead; Pioneer, Mrs. H. C. Fridge; Sabanno, Mrs. J. L. King; Nimrod, Mrs. Ed Townsend; Salem, Miss Allene Fonville; Word, Mrs. Willie Word; Cheaney, Mrs. A. H. Dean; Olden, Mrs. J. F. Moseley; Flatwood, Mrs. J. S. Turner.

Desdemona, Mrs. J. E. Heeter; Lake Cisco, Mrs. Nellie Housh; Morton Valley, Mrs. Raymond Beck; Okra, Mrs. Jim Ray Cox; Scranton, Mrs. J. L. Gattis; Crocker, Miss Vera MacBeth; Carbon, Mrs. C. W. Stafford; New Hope, Mrs. Joe Bob Browning; Pleasant Hill, Mrs. Marshall Berry.

Sen. Chapman Dies Of Auto Crash Injuries

WASHINGTON, March 8 (UP)—Sen. Virgil Chapman, D., Ky., died today of injuries suffered when his automobile collided with a trailer truck.

Chapman died at the Naval hospital in nearby Bethesda, Md. He was 55.

The Kentuckian was injured at 3:20 a. m. EST when his automobile collided with a Safeway grocery chain tractor-trailer as he attempted to make a left turn.

He died about seven hours later. In addition to fractures, severe lacerations, and loss of several teeth, Chapman apparently suffered from internal injuries.

His car was smashed so severely that police had to pry open a door to get him out.

Chapman, a native of Bourbon County, Ky., served 11 terms in the House before he was elected to the Senate in 1948. He was a member of the Senate Armed Services and Public Works Committees.

He also served on the Armed Services Preparedness Subcommittee which maintains a check on the national defense program.

Chapman was graduated from the University of Kentucky in 1918 and in the same year became the city attorney for Irvine, Ky. Later, he practiced law in Lexington, but maintained his residence in Paris, Ky.

He served continuously in Congress from 1924 on except for two years following his defeat in 1928 when Herbert Hoover's landslide put a Republican temporarily in Chapman's seat.

MacARTHUR PREDICTS STALEMATE IN KOREA—At a press conference at Suwon, Korea, held during one of General MacArthur's visits to the fighting front, he predicted "an inevitable stalemate of the Korean war." (NEA Radio-Telephoto by Walter Lea).

No. 1 Bobo Down To 3248 Feet

The sand had not been reached this morning as the Best Fields No. 1 Bobo was drilling at 3248 feet.

RFC Director Dunham Says He Was 'Taken In'

WASHINGTON, March 8 (UP)—RFC Director Walter L. Dunham, claiming that he was a "native" banker from Detroit, who got trapped in Washington's political jungle, was called back by Senate investigators today to tell more about how he was "taken in."

Dunham insisted that he was "not dumb" but "lacking entirely in political sagacity." A Senate subcommittee investigating the Reconstruction Finance Corp. called him for another hour of closed door hearings (10 a. m. EST) about his relations with an alleged influence web operating through the RFC.

After that the subcommittee scheduled open hearings on RFC loans of \$6,500,000 to the Central Iron and Steel Co., Harrisburg, Pa.

Also called was James Conger, Chicago attorney, to testify on previous conflicting testimony by Washington attorney James H. Rosenbaum and Carl G. Strandlund, president of the defunct Lustron Corp.

Strandlund said Rosenbaum claimed influence with RFC directors and said he wrote a letter of resignation from Lustron for E. Merl Young, former RFC examiner and husband of a White House stenographer. Rosenbaum denied the statements. Conger was supposed to have been made.

Dunham testified yesterday that Donald S. Dawson, President Truman's personal adviser, was in a "social group" close to RFC affairs as was Young.

The 69-year-old RFC director, suffering from a bad heart, said the group also included RFC director William E. Willett, Rex C. Jacobs official and former RFC employee.

Dunham insisted they had never improperly influenced his decisions and that he had "done nothing wrong."

Sen. Homer E. Capehart, R., Ind., ranking GOP member of the subcommittee, said "the committee is now almost forced to subpoena Dawson" after hearing Dunham. But chairman J. William Fulbright, D. Ark., stuck to his position that Dawson has been adequately "invited" to clear his name and should not be compelled to testify.

There are only two active WOW camps within 20 miles of Ranger, the Cisco and Mingo Camp.

Consolidation is necessary because of the present and contemplated man-power shortage and increasing cost of doing business, Ashcraft said. The notice probably will result in transferring the local camp membership to some other camp.

Friendship Pledge Urged
WASHINGTON, March 8 (UP)—Sen. Brien McMahon, D., Conn., urged his Senate colleagues today to approve a friendship pledge to the Russian people.

Mistreatment Bill
AUSTIN, Tex., March 8 (UP)—The House of Representatives had before it today a bill "designed to prevent mistreatment of prisoners" in county and city jails.

WHAT IS THE PRICE OF OUR LIBERTY? VIGILANCE--WRITES A STUDENT IN ESSAY

(Editor's Note: This the third of a series of essays written by Ranger high school students on America and Democracy during Public School Week.)
"Eternal Vigilance, the Price of Our Liberties"
by Betty Cox
The story of civil liberties in America is a story of struggle, but also of gains. It is also the story of America's firm belief that democracy can exist only where the people feel secure and are free to hold their own opinions and exchange their thoughts without fear.

EIGHT UN DIVISIONS RIP INTO FIVE CHINESE ARMIES

By Ernest Hoberecht
TOKYO, March 8 (UP)—The 8th Army plunged ahead up to 2 1/2 miles on a 70-mile front in Korea today against Red forces already reeling from the loss of a record 11,600 men in the first 24 hours of the mammoth assault.

A front dispatch reported signs of a general Communist withdrawal behind a screen of rear guards. Resistance ranged from non-existent to fairly heavy on this second day of the new "killer" offensive.

Eight UN divisions were ripping into the defenses of five Chinese armies and three North Korean corps—perhaps 150,000 men.

Allied air forces blasted and burned South Korean troops and defenses all the way from the front back to the Manchurian border in support of the 8th Army. They flew more than 1,000 sorties yesterday and were expected to equal or surpass that total today.

B-29 Superfortresses led today's aerial offensive with a 220-ton raid on the warehouse and storage area at Chunchon, only 20-odd miles behind the fighting front in central Korea. It was one of the heaviest bombing raids in recent weeks.

In the first 500 sorties of the day, 5th Air Force fighters and fighter-bombers claimed to have killed or wounded 500 enemy troops, and to have destroyed or damaged 84 enemy vehicles loaded with troops and supplies, nearly 500 occupied buildings, one locomotive and 35 railway cars.

Fourteen F-86 Sabrejets patrolling northwest Korea spotted 17 Russian-built jet fighters near Sinju, but the enemy planes turned and fled before the Sabrejets could close with them.

Night bombers concentrated on enemy vehicles rushing Communist supplies and reinforcements south. They spotted nearly 900 of them and destroyed or damaged 42.

At least two were given emergency treatment at Brackenridge Hospital.

Laboratory samples of the ham will be examined, and "a full report is expected in 24 hours," Darnell said.

McCasland Rites Held Wednesday
Funeral services for Mrs. Don McCasland, 64, were held at 4:30 p. m. Wednesday in Bradshaw.

Mrs. McCasland, the niece of Mrs. W. A. Cathey of Eastland, died Monday, March 5, in Abilene. She had been a semi-invalid for more than 22 years.

She lived in Guion for many years and was in a hospital in Corpus Christi for a number of years.

Survivors include her mother, Mrs. Jane L. Graham, 4 brothers and a sister, all of Guion and one daughter and three grandchildren of Abilene.

Texas Brothers Escape
PRYOR OKLA., March 8 (UP)—Two Texas brothers who escaped from the Mayes County jail here Tuesday armed with a jailer's pistol apparently had vanished today without leaving a trace.

Dr. G. C. Boswell is general chairman of the Coronation.

Following the Coronation a dance will be held honoring the queen. The candidates for the queen are Miss Jane Hays of Eastland, Miss Elizabeth Sylvester of Ranger, Miss Laura Mitchell of Ranger, and Miss June Ann Morton of Ranger.

The public is invited to witness the Coronation. There will be a 25c charge for admission to help defray the cost of the decorations, the rent on the building, and other miscellaneous expenses.

When we turn our eyes across the sea we observe nations at war whose people are denied every civil liberty. It has happened there; it must not happen here. It will not, if each one of us not only zealously guards his own civil liberties, but also does his part to guarantee those of all people who do not yet enjoy them the fullest. This is the American way.

Cattfish Go For Limburger Cheese In Big Way, Zoology Prof Claims

MINNEAPOLIS, March 8 (UP)—Cheese fanciers aren't the only ones who like limburger—cattfish go for it in a big way, too, a University of Minnesota professor said today.

Samuel Eddy, zoology professor, said a fresh-water angler who studies the sport scientifically when the forthcoming fishing season gets under way will be able to see that fish have fairly regular habits.

Their actions even can be predicted to some degree—though not usually to the degree most fisherman would hope for, Eddy said.

Cattfish have a good sense of smell and are attracted by the odor of limburger, he said.

Other fish have different preferences, but most of them fall into some sort of pattern, he said—even including the northern pike, known as a fish that will bite at almost anything that moves.

A shiny piece of hardware air-sucking through the water often will make a northern pike sit up and take notice. If it's a contrasting color, it's better, because he can see it more clearly, Eddy said.

Both the northern and the mus-

kelunge feed by sight. In murky lakes the bait has to be within a few feet of them. In clearer, northern lakes they can catch sight of it 10 feet away.

Cattfish and bullheads are in a different class. If they can taste or smell the bait they'll bite, even on sourdough, worms and liver. Their taste organs are located outside of the mouth, Eddy explained.

Especially intriguing artificial baits—those that move like insects, small fish or crawfish—appeal to wall-eyes, sunfish and crappies, or live bait of any kind.

The wily baits grab his food "dagwood style"—on the run. He'll snap up the bait and then swim away before stopping to swallow it.

"Many fishermen lose a good catch because they try to set the hook too soon. They should let the fish run a little," Eddy advised.

Most finicky among fresh water fish are trout. Eddy said they're extremely suspicious of any lures which don't resemble their natural food, but sometimes will bite on "tasty" bait like worms.

Eddy said crappies and sun-

Texas Operators Increase Proved Oil Reserves

DALLAS, Texas, March 8—Despite heavy production, Texas operators increased proved reserves of both oil and gas to record highs during 1950, an analysis by the Texas Mid-Continent Oil & Gas Association showed Wednesday.

"These statistics are reassuring to a state whose economy benefits from oil and gas production and to a nation whose military security depends so greatly on petroleum products," said Charles E. Simons, Association General Manager.

The nation's oil and gas reserve figures released jointly Wednesday by the American Petroleum Institute and the American Gas Association showed that U. S. total proved reserves of crude oil and liquids from natural gas at the close of 1950 were estimated at 29.5 billion barrels—an all-time high. There was a net increase, nationally, last year of more than 1.1 billion barrels.

Texas reserves of liquid hydrocarbons from both crude oil and natural gas liquids totalled more than 16 billion barrels at the beginning of 1951. This was 54 per cent of the U. S. total. Texas provided 37 per cent of the national increase in liquid hydrocarbon reserves.

Texas' percentage of the country's crude oil reserves at the beginning of 1951 was about 54 per cent, maintaining the Number

One position it has held among the oil states for several years. The operators offset their crude oil withdrawals of 818 million barrels during 1950 with additions to reserves totalling about 890 million barrels. This gave a year's net gain in the state's crude reserve position of some 72 million barrels for a total of 13.5 billion barrels. In crude oil reserves, Texas provided 12 per cent of the national gain.

The rising importance of liquids obtained from natural gas is reflected in the figures which show that Texas has 2.5 billion barrels of natural gas liquids in reserve. This is 18 per cent of the national reserves in this category. Texas provided 65 per cent of the national gain in natural gas liquid reserves.

Grossing reserves of natural gas in Texas hit the 102.4 trillion cubic foot mark as of January 1, 1951. Texas has 53 per cent of the natural gas reserves in the nation. Of the country's total 1950 gains in natural gas reserves, Texas accounted for 68 per cent.

All figures are on reserves whose locations and extent have been proved and measured. They do not include any estimate of oil or gas which may underlie the vast untested acreage which appears favorable for future production.

fish don't start their "working" day until after sun-up. They hunt around for breakfast, until about 10 a. m., then knock-off for an afternoon siesta, rousing themselves just before dark to pick up some more food. Northern pike follow approximately the same schedule.

Wall-eyes, cattfish and bullheads are on the "swing shift." They cruise the waters at night looking for their food, coming in to shallow areas. During the day-time, they retreat to deeper waters outside the weeds.

Hutton Divorce Turns Into 3 Ring Circus

CUERNAVACA, MEXICO, March 8 (UP)—Attorneys for Woolworth heiress Barbara Hutton go into court today in an effort to lift a legal protest whereby Barbara's fourth husband Prince Igor Troitzkiy blocked her attempt to obtain a quickie Mexican divorce.

At the same time the 38-year-old poor little rich girl was reported to be planning a trip to Los Angeles or New York because of the legal maneuvering that was converted her attempt to discard her husband into a three-ring circus.

She has vowed to go to the ends of the earth if necessary to get rid of her man whom she described as the meanest in the world.

Her attorneys, meantime, planned to attack the protest against her divorce suit on grounds that it was not filed properly because the lawyer who presented it did not have the proper power of attorney.

One of the attorneys said Barbara was disgusted with the slow progress in the suit.

"She will continue her efforts to get a divorce, whether in Mexico or any other part of the world until she gets it," one of them said.

The prince, angered by reports that he had set a \$3,000,000 price tag on Barbara's freedom, got into the dispute from Paris again with a statement that life would be peaches and cream for him if Barbara only would come home.

"I don't want a divorce and I don't want any money," he said. "I want my wife back. I can't imagine life without her... You can tell the world my only interest in life is keeping my wife and having her come back to me willingly."

One of his attorneys said the

prince would demand that the divorce action be transferred to London or Paris so he can defend himself.

Miss Hutton filed suit for divorce 10 days ago. Just when Barbara thought she was on the verge of getting her degree, San

Francisco attorney Melvin Belli stalled the suit with a telephone legal protest. This and subsequent maneuvering sent Barbara rushing

40 miles from her \$800-a-month home here to Mexico City yesterday for a conference with her lawyers.

Fight Fans Boo Charles Win Over Walcott

DETROIT, March 8. (UP)—Ezzard Charles still had his heavyweight crown today after his decision victory over heroic old Jersey Joe Walcott, but he also had such a badly swollen left ear he will be unable to go through with a planned defense against Joe Louis next month.

The heavyweight champion suffered his ear injury while winning a unanimous 15-round decision over 37-year-old Walcott

before 13,852 at Olympia Stadium last night.

Although Ezzard deserves the decision, it was so unpopular with the customers who had paid \$75,502 that they booed it for six minutes. And in the dressing room, Jersey Joe complained he had been "robbed."

It was Walcott's fourth unsuccessful bid for the heavyweight crown, but it was an unexpectedly magnificent try that Jersey Joe probably will be offered another big-money fight with Joe Louis.

Walcott was floored for a count of nine by a left hook in the ninth round. That trip to the deck, the only one in the fight,

appeared to give the brown-skinned, bull-shouldered veteran from Camden, N. J., his "second wind." Jersey Joe came on to win three of the next six rounds and to fight on even terms in one. In the last round, he had the fans in a frenzy as he staggered Charles with a left hook to the chin and battered him about the ring.

Walcott, a 5-1 underdog, gave an heroic performance; but the three ring officials gave the decision unanimously to Charles. Referee Clarence Rosen favored Charles 80 points to 70; Judge Jack Aspery, 84 to 66, and Judge Joe Lemahan, 82 to 67. On a round-by-round basis, the United Press favored Charles, 8-5-2.

Officials of the International Boxing Club had hoped for a gate that would break Detroit's indoor record of \$83,522. Nevertheless, the \$75,502 gate was no great disappointment. The size of the gate did no matter to Charles and Walcott; for they had been guaranteed by the television sponsor that their purses would be based on a \$100,000 gross gate. Charles will receive about \$30,000 plus a \$1,500 bonus. Walcott

will get about \$17,000 plus a \$1,500 bonus.

Charles was treated in a Detroit hospital by visiting Cincinnati physician Dr. Ray Clark for ruptured blood vessels in the left ear and a possible ruptured ear drum.

Safety Measures Against Disease Carrying Flies
AUSTIN, TEXAS, March 8
Millions of flies help to cause illness and death of thousands of children and adults each year in the United States. Hundreds of these casualties may be in Texas this year if residents fail in their responsibility for developing the best possible sanitation measures in the area where they reside. Typhoid fever, summer complaint and other intestinal diseases can be traced to the common housefly as the carrier of the infection.
Dr. Geo. W. Cox, State Health Officer, speaking in this connection, recently said, "Be sure that windows and doors are tightly screened so that stray flies, from a careless neighbor will not endanger your family. Be sure that flies are kept away from food, drink and utensils used in the preparation of food. Make sure, if you live in rural districts, that outside privy vaults are tightly covered so as not to permit the entrance of flies.
"Infections from this source can be picked up and spread to human beings through contact with food, drink and utensils. Keep all garbage covered until collected or buried. Eliminate all breeding places for flies and you will be helping your community in its work of controlling communicable diseases and preventing unnecessary illness."
Now is the time to do away with the winter's accumulation of trash. Clean up and stay clean is a good slogan for communities and individual citizens.

OIL TAX HEARING
The most complete, point-by-point analysis of the oil and gas operators' share of the state tax burden presented the Legislature in recent years was laid before the House Revenue and Taxation Committee Wednesday night.
As sole spokesman appearing on behalf of the state's oil and gas producers, Andrew M. Howsley, Association General Counsel, gave the Committee statistics which showed that the operators' taxes now provide more than 30 per cent of the revenue raised by state government, contrasted to 11.6 per cent in 1940. He pointed out that if the 1940 ratio between the amount supplied by the oil operators and that furnished by other taxpayers had been maintained through the past decade, the state would today have annual revenue totaling almost one billion dollars.
He pointed out that the cost of government has more than doubled in the 1940-49 period, but the petroleum industry's share in the cost has tripled during that period.
"We do recognize, as do you, that the oil and gas industry is an important segment in the economy of Texas," he said, "but we feel certain that it is not so large as to justify the large share of the financial burden that we have on us for governmental costs."
He called attention to indications that "some rather large economic forces are in play in Texas other than that provided by oil and gas."
In addition to paying roughly one-third of the county ad valorem taxes on state-wide basis and heavy payments in school districts, the industry's state tax bill totaled \$108,765,000 last year from these sources:

Crude oil production tax	\$ 81,368,000
Crude regulatory tax	1,375,000
Natural gas production	10,042,000
Ad valorem	10,496,000
Franchise tax	2,904,000
Well servicing	483,000
Crude black manufacturing	2,097,000
Total	\$ 108,765,000

The Legislature's own Legislative Council Research Director also called attention to fluctuations in revenue depending so heavily on the industry's operation. It was suggested that budget makers agree on a dependable estimate of oil revenue and fix operating costs on that basis. If more revenue came in than was expected, then it could go to permanent improvements and not impair operation costs.

Largest brakes in the low-price field!

The Smart New Styleline De Luxe 4-Door Sedan
(Continuation of standard equipment and trim illustrated is dependent on availability of material.)
Yes, Jumbo-Drum Brakes . . . extra smooth, extra safe . . .
... another reason why more people buy Chevrolets than any other car!

Policeman Back In The Pink Again — Says He's The "Kilroy of Old"

HADACOL Relieves Lack of Energy When Due to a Lack of Vitamins B₁, B₂, Nicotin and Iron

It takes a good man, a man that's busy up and at 'em, to help keep us on one of the world's largest office buildings. So when Jimmy Kilroy, 1152 Belden Ave., Chicago, Ill., found himself below par... in a sluggish rundown condition... he turned to today's great HADACOL. He'd heard how this wonderful formula corrected the real cause of such troubles when due to a lack of Vitamins B₁, B₂, Nicotin and Iron. As a result, he's back in shape again, loaded with energy and enthusiasm.

"Here's what Mr. Kilroy has to say. 'A few lines to tell you the great things your HADACOL has done for me. As a prize fighter and now as policeman assigned to one of the world's largest office buildings, I have always had to be in the best of shape. A month ago I found I was in a rundown condition, lacking energy, always tired and sluggish. And a young man one day said at one time he was the same. Advised me to buy a bottle of HADACOL, which I did. After two bottles, started feeling like myself and from there on I got new energy. Have been working in the gym 1 hour daily and everyone tells me how great I look and act. It really is a great product and I will always keep taking it. I feel like the Kilroy of old.'

There's just no doubting an honest, sincere statement like that. Surely there is no need to be a burden to yourself, to your friends, or to your family, if you are suffering from such troubles due to a lack of Vitamins B₁, B₂, Nicotin and Iron. HADACOL supplies more than the minimum daily requirements of these elements plus helpful quantities of Phosphorus and Calcium. It really goes to work to build good red blood, better hemoglobin, (when Iron is needed) to make sure that the previous Vitamins and Minerals are used to every part of the body, to every body organ. HADACOL is quickly absorbed in your system because its important elements are already dissolved in a special liquid form that's easy to take.

SCENES AROUND RANGER

By John Chepelas

We're really getting crowded by the oil wells around here. There's one that we've even spotted with Eastland. Everett Taylor, Eastland Telegram editor, and I drove to the High Tower-Gray well Tuesday afternoon. Taylor, without blinking an eye, refers to it as "our well"—and I usually call it "Ranger's well." That got us nowhere. So we split the difference. In the Eastland paper, the High Tower-Gray is 9 miles "southeast of Eastland." In the Times, it is located 8 miles "south of Ranger."

While driving through that area, we both saw, for the first time, the ancient oil rigs and pumps that were used during the oil activity 20 years ago. For a moment, we thought we had been transferred back to the "boom days." It was an entirely new and amazing sight for us. And those pumps are still in use—howling rhythmically, up and down, the squeaks of their worn joints giving away their old age. But the most interesting sight were the long sections of pipe which wiggled for yards across the ground from a central power unit that worked the pumps. They stretched like iron fingers in all directions. A far cry from the modern, electric and gasoline pumps.

When we first came to the field we jumped with excitement. We saw all those old rigs and for 20 minutes we believed we had run across a new pool that we hadn't known about. As it turned out that "new pool" had been drilled before we were born.

These essays by high school students have drawn comments from Times readers. They are surprised to learn that "kids" could write like that. They're not the first to realize suddenly that some

FORT WORTH LIVESTOCK

By United Press

PORT WORTH, Tex., March 8 (UP)—Cattle 600. Fully steady. Good and choice slaughter steers and heifers 22.00-25.00, head 1102 lb. steers 26.00 and few head yearlings at this price, utility and commercial 27.00-31.00. Sheep 1200. Shorn slaughter lambs strong to 50 higher, other classes steady. Good heavy woolled burry slaughter lambs 37.00. Shorn slaughter lambs 30.00-35.00, later price for good and choice fall shorn lambs. Few shorn slaughter yearlings 27.00. Common slaughter ewes 17.00. Shorn feeder lambs 30.00-31.50, later price for No. 2 poll feeders.

South Texas Families Want Corn With Beans

EDINBURG, T.X., March 8 (UP)—A Fresno-striker South Texas families were assured of a half-million pounds of pinto beans today, but they still wanted corn with which to make tortillas.

Sen. Lyndon Johnson and Rep. Lloyd M. Benton announced that the beans, a staple in the diet of Latin-American families, had been secured by the surplus commodities corporation and would be shipped from Dallas and Fort Worth warehouses.

411 Cases Whiskey Grabbed WASKOM, Tex., March 8 (UP)—Officers stopped a heavy truck for speeding yesterday and consequently confiscated 411 cases of contraband whiskey, the largest single haul in Harrison County history.

of those "kids" aren't too far behind adults in the thinking process. The essays we've been publishing during Public School Week show that, if the effort is made, students can intelligently organize their thoughts. And that, perhaps, is a school's greatest contribution to its students.

How many times have you, as an adult, known what you wanted to say or write, but just didn't know how to put it down? It happens everyday to all of us. If a student learns the profitable experience of organizing his thoughts before speaking or writing them, he has cleared his mind, considerably, of jumbled confusion. What he says or writes may be contrary to all prevalent opinions—but at least he has found a way to make himself understood. And if he is accused of not being original, let him remember this—an original thought is "99 per cent the opinion of others and one per cent effort in organizing these opinions into words of your own."

Danger! NO TIRE IS BLOWOUT-PROOF and when a blowout occurs — it's the sudden drop of the wheel that may cause disaster!

GOOD YEAR makes blowouts harmless with LIFE GUARD SAFETY TUBES

Here's how LIFE GUARDS can save your life:

Ordinary tubes have only one air chamber. When a tire blows the tube blows, too. Without a second's warning the car wheel drops to the road. Too, too frequently the result is a crash — costly car damage and serious personal injury or loss of life!

LifeGuard tubes have two air chambers. In case of a blowout only the outer chamber gives way — there's no sudden drop of the wheel to cause you to lose control. Reserve air in the strong cord fabric inner chamber supports your car until you can pull up to a safe, quiet stop.

Calhoun; Mrs. Cora Preslar; Miss Eunice Preslar; Mrs. Marvin Brock; Mr. and Mrs. Herman F. Dempsey Sr. and children, Faye and Herman B. II, all of Ranger.

T.E.L. Class Meeting Wed.

The T. E. L. Class for the First Baptist church met Wednesday, March 7th at the home of Mrs. Emily Phillips, Austin and Walnut, for a business and social meeting. Mrs. Cora Preslar gave the devotional and Mrs. W. O. Walker gave the opening prayer. Mrs. David Fawcett closed the meeting with a prayer.

All members were present except three, who were ill. Refreshments of cake and coffee were served to those attending.

Laymen Will Conduct Sunday Evening Services

The Rev. Ralph Perkins will be in a Training Union Revival in Dallas during the coming week. The laymen of the First Baptist Church will be in charge of Sunday evening services. A program is being planned that will be of interest including congregational singing and special music. The public is invited to attend.

Nichols-Garrison Marriage Wed.

Miss Virginia Nichols of Carmi, Illinois and Byrd Clyde Garrison were married Wednesday evening, March 7th at 6:30 at the Methodist Parsonage with Rev. Garland Lavender officiating. Mr. Garrison is employed with the Westland Drilling Co. of Midland. They were attended by Mr. and Mrs. D. C. Thompson of the Ghelson Hotel in Ranger.

Mr. and Mrs. Garrison will reside in this community temporarily.

Personals

Rev. and Mrs. Garland Lavender spent Tuesday and Wednesday at the bedside of a relative in the Hillsboro Clinic.

Mr. and Mrs. David O'Neal of Brownwood spent Wednesday night in the home of Mr. and Mrs. Frank Weekes.

Rebekah Lodge Meeting Tues.

The Ranger Rebekah Lodge No. 244 met in regular session Tuesday evening at the Oddfellows Hall. A brief business meeting was held and practice for the drill teams was completed. The initiation will be held next Tuesday evening. Auda Lavinia will be accepted as a member by initiation and Maxine Benson will be accepted by re-instatement.

The penny prize was furnished by Sudie Strong and won by Eula Blackwell. It was announced that a special meeting will be held Friday night at 7:30. Purpose of this meeting is for practice for the drill teams.

Julia Alexander Meeting Wed.

The Julia Alexander Grove, No. 1954 of the Woodmen Circle met Wednesday March 7th at the hall for a business meeting. Mrs. Freda Fowler district manager, from Mineral Wells was present.

Mrs. Edna Earl Williamson was elected delegate to the state convention and Mrs. Louie Calder was elected alternate. The next meeting will be March 21st at the hall. The prize was given by Lulu Williams and won by Mrs. Louie Calder.

Covered Dish Luncheon Friday

The Ladies Auxiliary of the Country Club will meet Friday, March 9th at 12:30 p.m. for a covered dish luncheon. Hostesses for the occasion are Mrs. Frank Champion, Mrs. E. E. Crawford, Mrs. Dean Crawley and Mrs. Price Crawley.

Members who cannot attend this luncheon are asked to contact one of the hostesses, immediately.

'Bom' Arrives In Korea Mar. 5

BY H. D. QUIGG
SOMEWHERE IN KOREA, March 8 (UP)—Items stacked like cordwood:

"Bom" has come to Korea. That's the Korean word for spring. According to the Chinese lunar calendar, which most people in this part of the world use, spring is here. It arrived March 5.

The magpies are feathering their nests. And the farmers are getting ready for the planting period. The time which is known in Korea as the gambling period is the monsoon rainy season. It usually starts sometime in June and ends in August. The weather during that season usually is so wet that almost everything stops. Farmers can't work.

They sit around indoors and spend their time gambling. Mostly with cards, I'm told.

Some wag among the fighting outfit has suggested a campaign ribbon of the Korean campaign to be designed as follows: A white field, similar in shape to the Korean peninsula, on which is superimposed a series of alternating blue arrows—one pointing down, the next up, the next down, the next up.

No matter whether the lunar calendar says it's spring, ice still clings to the banks of streams and floats in chunks in the current.

When you note the temperature of the water, you wonder how Korean pedestrians manage to cross where bridges have been blown. If you watch at such a spot, you soon find out.

The Koreans walk as far as possible on the low bridges. Then they sit down, take off their shoes, and roll up their pants. They find a shallow spot and wade, breaking through the slush and ice if necessary.

calendar says it's spring, ice still clings to the banks of streams and floats in chunks in the current.

When you note the temperature of the water, you wonder how Korean pedestrians manage to cross where bridges have been blown. If you watch at such a spot, you soon find out.

The Koreans walk as far as possible on the low bridges. Then they sit down, take off their shoes, and roll up their pants. They find a shallow spot and wade, breaking through the slush and ice if necessary.

CARD OF THANKS

We sincerely thank our many friends for their sympathy and floral offerings during the illness and death of our beloved mother and grandmother, Mrs. F. W. Squires. The Squires Family

BBB Asks Halt To 'Scare' Advertising

FORT WORTH, Tex., March 8 (UP)—American business should take the initiative at once in a move to ban "scare" advertising, a Chicago official of the Better Business Bureau advocated here yesterday.

Kenneth Barnard, national chairman of the War Activities Committee of the Association of Better Business Bureau, said this "scare advertising is epidemic throughout the country."

"It leads inevitably to a rationing which otherwise might be indefinitely postponed or avoided altogether," Barnard said.

Draft Dodger Sentenced To Year In Jail

HOUSTON, TEX., March 8 (UP)—Rudolph Cruz, Jr., a 26-year-old grocery employe, was under a federal sentence of a year and a day today for failure to report for induction in the Army.

Cruz refused to report, claiming he was conscientious objector.

Federal District Judge Allen H. Hannay imposed the sentence yesterday after listening while Cruz' grandfather cited numerous biblical passages to support the teachings of the Jehovah's witnesses sect to which all members of the family belong.

Cruz was ordered to report Feb. 20. Assistant U. S. Attorney John C. Snodgrass told the court that Cruz made no claim to being a conscientious objector until after his induction process had been started. He was then told it was too late to be reclassified.

Higher Taxes Asked By NAM

HOUSTON, TEX., March 8 (UP)—The president of the National Association of Manufacturers believes we should have higher taxes that the federal government should adopt a pay-as-you-go plan for new defense requirements.

"I never thought I'd be going around the nation calling for higher taxes," said William H. Ruffin of Durham, N. C., "but that's what we've got to do if we plan to check inflation."

"We should collect enough taxes to cover all of the government's expenditures, including the military."

But Ruffin, who is stopping here as part of a nationwide tour, said the government must reduce expenditures, not essential to the military program and prevent private credit systems, such as

Dimmitt Girl Scores 47 Pts. In Cage Game

WACO, TEX., March 8 (UP)—Second round play began today in the state high school girls basketball association tournament and contestants had a few individual mark to shoot at—a breath-taking 47-point performance by Lomita Odem of Dimmitt.

Miss Odem, a husky six-footer, pumped drive-in shots into the basket with near-monotonous regularity as she paced Dimmitt to a 69 to 29 over Aledo in the opening round of the tourney last night.

The Dimmitt fireball had scored 40 points in last year's tourney. That record toppled yesterday afternoon as Ruth Cannon scored 44 points to lead Cotton Center to victory over Penelope.

However, Miss Odem promptly renewed her title to the record by basketing 47 points last night.

In other night games, Knott whipped Yanke, 44-31; Seagoville downed Stratford, 27-26, and New Deal beat East Chambers 34-32.

In afternoon play, Noodle defeated Lott, 41-18; Robertson nosed out Slocum, 43-42; Meridian outdistanced Deadwood, 37-18, and Cotton Center trotted Penelope, 62-44.

Dr. Petter Named To Hosp.
 AUSTIN, Tex., March 8 (UP)—Dr. H. W. Petter was named last night as superintendent of the McKnight state tubercular sanatorium near San Angelo to succeed Dr. Roger E. Smyth who will enter private clinical practice in the tubercular field.

consumer credit and bank loans, from adding to inflation.

As an example of nonessential spending, Ruffin cited the fact that there are now a million more civilian government workers than there were in 1940.

Guard Against Cheap, Outdated Plumbing System

If you lease or rent a house, you are entitled to and should demand for safety of your family, safe and sanitary plumbing.

If you buy a house which is represented to you as being the latest in design and quality, be sure that you check the part you cannot see, the plumbing system. You should demand that it is what it is represented to be, if you have plumbing work performed, be sure that what you want is clearly understood and demand that it be done as you have specified. Require a written proposal and agreement for all major repairs and new construction and then demand that it be done as you have stipulated.

If you own an old home and you have not had your plumbing checked in some time, you should do so without fail. Guard against outdated plumbing and the hazards that accompany same. Watch for defective and out-of-date fixtures. Call only a reliable qualified plumbing contractor to check your system and make necessary

repairs. Guard against handymen or transients even if they have a license. Guard against the so-called cheap plumbing job. If the water you drink is pure, keep it that way by maintaining a sound plumbing system.

Above all, no matter whether you are buying a new house, or making repairs on an older house... be sure the plumbing has been inspected and passed by a city inspector.

TENNESSEE DAIRIES MILK NOW AT YOUR GROCERY

Every drop of Tennessee Dairies Milk is guarded as though I expect my own babies to drink it.

MILK — NATURE'S MOST NEARLY PERFECT FOOD

Milk is best for growing boys and girls because it's irradiated with Vitamin D—the sunshine vitamin that puts strength in bones and soundness in teeth. But who—child or grownups—drink milk for the vitamins? You'll like Tennessee milk for the simple reason that it tastes so good—is richer in cream—and gives you a real pick-up at any time of day.
